Smith, obviously playing merely to be safe, slipped into enough errors to make his score for an aggregate of 153, which, however, was well within the limit. Jim Barnes, who made, 74 this afternoon, ran an offset to his 81 of yesterday, and Gil Nicholls both came under the wire with but one stroke to spare. Each of their cards totalled 157.

RIXEY PITCHES GOOD GAME BUT LOSES TO PIRATES

Cincinnati, June 24.—Rixey retired the first 23 Pirates who faced him today without a runner reaching first base, but two singles and a stolen base gave Pittsburgh a run in the eighth, tying the score and the visitors scored three more in the ninth on four hits and won from Cincinnati 4 to 3. The score:

Pittsburgh (N)	ab	h	po	a	e	Cincinnati (N)	ab	h	po	a	e

Two base hits, Walker, Duncan, Carey.

YALE GOLFER LEADING IN INTERCOLLEGIATE TOURNEY

Greenwich, Conn., June 24.—The first day's play in the intercollegiate golf tournament, in which 10 colleges are entered, closed with Yale in the lead with a score of 624. Princeton was second with 629.

Stephen Berean of Wesleyan and Dexter Cummings of Yale, last year's intercollegiate champion, were tied for individual low score with 155—each for 36 holes. Robert MacDougal of Princeton was second with 153.

The four best men on each team will be chosen tomorrow. Scores made in the team match count for the qualifying round. The 32 lowest scores for the 36 holes will qualify for championship play.

HARVARD-YALE TENNIS TEAM TO TOUR EUROPE

New York, June 24.—Harvard and Yale tennis players who sail July 5 for England where they will meet a combined Oxford-Cambridge team, have also arranged an itinerary of matches in Europe, the United States lawn tennis association announced today.

In addition to club matches, their opponents will include the French Davis cup team at Paris on August 9; the Spanish Davis cup team at Barcelona about August 15, and the Czecho-Slovak Davis cup team at Prague about August 20.

Karl Pfaffman of Harvard will act as captain of the Americans. Arnold Jones, Charles Watson and A. B. Sheriden are the Yale players.

Voluntown Swamps Tabs.

Voluntown handed a neat trimming to the T. A. B. S. of New London on Sunday afternoon on the local grounds by a 10 to 2 score. The game was won in the first inning when the local boys opened up with a barrage of hits off Dickson. A single, three two-baggers, two sacrifice hits and an error accounted for six runs. Voluntown also scored one in the fifth and three in the seventh. The visitors scored two in the sixth on two errors, two putouts, a base on balls and a two-base hit. Both teams did some splendid fielding, robbing batsmen of many hits. The visitors looked dangerous in the fourth when the bases were full and none out, fast playing nabbed a man at third and Liberty struck out the next two men.

The batteries were Liberty and La Chapelle for Voluntown, and W. Dickson, O. Dickson and Donton for New London. A pleasing feature of the game was the sportsmanship shown by both teams.

The score:

DRIVER OF TRUCK THAT CAUSED GROTON MAN TO DITCH CAR MAY BE PROSECUTED

(Special to The Bulletin.)

New London, June 24.—There is a possibility that M. P. Bryant, attached to the submarine base, and who is alleged to have been the operator of the base automobile truck that caused the car of William A. Dateman, Groton, to overturn and strike some autos in the center of the city two weeks ago [illegible] will be prosecuted on a charge of reckless driving. Bryant, it is alleged, was in charge of the truck when the accident occurred, and Chief of Police Geer, of Groton, is investigating the case.

Harry R. Fardy, a mechanic, and [illegible] L. Sullivan, daughter of [illegible] Sullivan, Mountain [illegible] were united in wedlock this [illegible] at St. Mary's [illegible] The nuptial [illegible] performed by Rev. John [illegible] Sigrist was best [illegible] Miss [illegible] Walsh attended [illegible] and Miss Fardy [illegible] reception will [illegible] avenue.

[illegible] was [illegible] Pearse [illegible] Waterford [illegible] with reckless driving. A fine of $5 and costs, the latter amounting to $14.25, was imposed.

Announcement is made of the wedding of Russell M. Robinson, Station 5, Waterford, and Miss Rhoda G. Hall, also of Waterford, which took place Saturday at the home of the groom. The ceremony was performed by Rev. Chester H. Howe, pastor of the First Baptist church.

James B. and George T. Whyte and Miss Jessica Whyte have returned to their home in New York after having been entertained several days by Miss E. Louise Loosley, of Brainard street.

Mrs. Robert Hayes and daughter, Miss Dorothy, have returned to their home in Newport after having visited with Mr. and Mrs. William H. Nott, Connecticut avenue.

Harold C. Perkins, Providence, has [illegible] several days' visit with Mr. and Mrs. R. H. Perkins, 321 Crystal avenue.

Mrs. Bernard Packer and daughter, Miss Irene, have returned to their home on Truman street, after having visited with Benjamin Kaufman, of Philadelphia, a former resident of this city.

William J. Falk, Newark, N. Y., and Miss Cassie W. Bailey, daughter of Mr. and Mrs. Henry L. Bailey, Ramadell street, Groton, were married last night at the residence of the bride's parents. Rev. Gurdon F. Bailey, Norwich Town, and uncle of the bride, performed the ceremony.

Miss Louise Thompson, a student at the New England Conservatory of Music, Boston, is spending the balance of the summer with her parents, Capt. and Mrs. Frank Thompson, Crystal avenue.

Agostino and Leonardo Minucci have sold a house and lot on School street to Pierson E. and Ruth T. Dolbeare.

Mrs. Mary Silverstein, Broad street, Merle Bingham, Hempstead street, Mrs. John Stanners and infant son, Huntington street, John Mitchell, Huntington street and Arthur Johnson, Crescent street, patients at the Lawrence Memorial Associated hospital, were able to return to their respective abodes today.

Goldie Peck Shaw complained to the police last night that her husband, Reuben Shaw, is making a practice of consorting with other women and with some of them he has registered with as man and wife at local rooming houses and hotels. Mrs. Shaw stated that she has not resided with her husband for some time and that she desires the police to cause her husband to refrain from registering at the hotels with the women as his wife.

The funeral of John J. Burns, whose death occurred Sunday at his former residence, 21 Boardwalk, Ocean Beach, was held this morning at 10 o'clock at St. Joseph's church and was attended by a large gathering of mourners. A mass of requiem was celebrated by Rev. William Fitzsimons. The bearers were James Moore, James Colonan, James Walsh, Edward Biladeau, John J. Lyons and William Ryan. At the conclusion of the mass Edward Murray rendered "One Sweetly Solemn Thought." The body was forwarded to Media, Pa., where the interment will take place tomorrow.

The funeral of Mrs. Mabel Ely Greenman, wife of Joseph Greenman, was held this afternoon at 2 o'clock at her former residence, 85 Williams street and was attended by a large concourse of mourners, among whom was a delegation of members of Osprey lodge, Daughters of Rebekah, of which order Mrs. Greenman had been a member a long time. The services were conducted by Rev. J. Beveridge Lee, pastor of the Second Congregational church. The bearers were Joseph Burr, Norris Franham, Harold Friars, S. A. Brown, Charles Lewis, and Andrew Morris. The interment was in Jordan cemetery, where the committal service was conducted by the members of Osprey lodge.

The condition of Sergeant of Police Frank H. Ward, who has been confined to his home on Walker street three weeks by illness, has improved to such an extent that the officer anticipates being able to resume his duties the latter part of the week.

An automobile, owned by Lieut. Flood, 187 Williams street and stationed at the submarine base, was stolen from in front of the navy officer's residence last night. The car, a Hudson speedster, was parked by Lieutenant Flood for the night about 11 o'clock and this morning when the officer awoke he discovered that the machine was missing. Lieut. Flood reported his loss to the police, but no trace of the stolen car was found although the departments throughout the state were notified of the theft of the car.

The leather store of Morris Feldman, 23 Golden street, was entered by thieves last night and from the nature of the break it is believed that the crooks were of the juvenile type. Feldman discovered the burglary when he opened the store for business about 7 o'clock, this morning. He reported the break to the police and Sergeant Nelson Smith, who was assigned to the case, determined from his investigation that entrance to the store was gained through forcing a rear window. The only plunder Feldman reported as having been obtained was a quantity of pennies, something less than $1.

Frank Nigrelli, Old Saybrook, will be presented in the police court this week on a charge of alleged violation of the automobile law in speeding on Ocean avenue. Nigrelli was detected operating his car yesterday evening in a reckless manner, by Motorcycle Officer Babcock, but the officer could not locate Nigrelli. The matter was turned over to the state police of the Centerbrook barracks and this afternoon Sergeant Williams informed Nigrelli to present himself in court. Two local autoists will be presented in court tomorrow morning for alleged violations of the city traffic ordinances. Sergeant Smith detected Gus Kellas, 76 State street, and James Gillooly, 187 Poquonoc road, Groton, parking their cars on the stand set aside at Union Station for public service cars and summoned the accused into court.

Commissioner of Motor Vehicles Robbins B. Stoeckel today caused the operators' licenses of William Osborn, 565 Bank street and Andrew Christian, also of New London, to be suspended. Both were recently penalized for reckless driving. The commissioner also caused the licenses of William C. Carpenter, 11 West Pleasant street and Peter Pisciatella, 9 Steward street, to be returned to the owners.

Sixty thousand dollars worth of 4 1-4 per cent. city water works refunding bonds, series 8, were sold this afternoon when bids were opened for their sale at the office of Director of Finance Carey Congdon, in the municipal building. The bonds were sold to the highest bidder, the First National Bank of Boston, for $61,601.40. The bidders and the amounts of their respective bids were as follows: First National Bank, Boston, $61,601.40; Kissel Kinnicutt & Company, New York, $61,309.80; Thomson, Fenn & Company, Hartford, $61,200.60; Roy T. H. Barnes & Company, Hartford, $61,242.00; Eldredge & Company, Boston, $61,141.00; Putnam & Company, Hartford, $61,059.60; Winthrop Trust Company, New London, $60,973.86; R. M. Grant, Boston, $60,909.00; Esterbrook & Company, Boston, $60,858.00; R. L. Day & Company, Boston, $60,839.40; E. H. Rollins & Sons, Boston, $60,630.

Lieut. S. R. Hickey, stationed at the submarine base and residing in the Highland apartments, Granite street, who was fined $50 and costs by Justice of the Peace Thomas F. Morton in the Waterford town court Saturday night of the charges of reckless driving and operating a motor vehicle without having a license to do so, or having registration, encountered additional trouble today when Deputy Sheriff J. H. Tubbs attached Hickey's automobile in an action brought by John L. Rice, 88 Jefferson avenue, for damages sustained by the plaintiff's car on the night of Friday, the 20th inst. The car was taken to a garage and placed in storage. The suit is the result of the car Lieut. Hickey was operating colliding with an automobile in which Rice and his wife were riding on Willetts avenue extension. The windshield of the Rice car was smashed and Mrs. Rice received lacerations about the face and head that required 13 stitches to close, at Lawrence Memorial Associated hospital. A charge of operating an automobile while under the influence of liquor could not be proven for lack of evidence and was dismissed.

Robert Odges, employed on the Jolsen farm in the Fire street section of Waterford came in to town yesterday with the "makings" of a load that he could not carry, when he got the rest of it. He admitted in the police court this morning that he absorbed a few drinks of what has come to be known as "white mule," and when he got to New London he gathered in several other portions of the tanglefoot. Late afternoon found him on John street where he was reeling about and where he finally landed in the yard of Michael Masne, a freight handler for the steamboats. Mrs. Masne ordered Odges from her premises and when he did not go she hurried him along with pushes. Robert landed in the street with a scratched face that indicated he had been up against a threshing machine. He was arrested and this morning was fined $25 in court. He said he could not remember anything that happened. But he knew that he started his spree in Waterford, and that he finished it here.

William Schinman, residing at 78 Washington street, was fined $10 for operating a car without a license. The youth is only 18 years of age. He said he never had a license, but told the court that his father was to have secured the necessary papers yesterday, had he not been called away. It is doubtful if William gets a license for some considerable time.

William T. Maynard was fined $5 for violation of the rules of the road in not reducing the speed of his motorcycle when he approached an intersecting street. Officer Babcock declared that Maynard was travelling at 35 miles an hour past Lincoln and Jefferson avenue intersections. The corners are dangerous there as cars coming from one avenue to the other are not seen till they show out past the corners.

Mrs. Felix Shippey, 107 Main street, Nelson Burgess, Groton, and Elmer Meinwey, Groton, were patients discharged Monday at Home Memorial hospital.

Funeral services for Miss Anzonette Wiggin were held Sunday afternoon at 3 o'clock at the home of her brother-in-law, John B. McDonald, Black Point road, Niantic. Rev. Chester H. Howe, pastor of the First Baptist church, New London, officiated. Interment was in Manchester this afternoon.

A horse owned by Morris Socol, Bank street merchant, was killed by Humane Agent John W. Sweeny, Saturday afternoon on Bank street when it was revealed that the animal has outlived its usefulness. The horse's legs were extremely weak and the animal was otherwise unfit for work.

The Groton police are endeavoring to ascertain the method by which traffic signs on lower Thames street have been destroyed of late and it is apparent that the signs were wilfully destroyed.

William T. Maynard, 118 Howard street was arrested Monday by Motorcycle Officer William Babcock, charged with violation of the automobile law in passing an intersecting street without reducing the speed of his automobile or sounding his signal. Maynard is alleged to have got away from the officer Saturday on Ocean avenue and was not located until Monday afternoon.

George J. Findley, 147 Bank street, reported to the police Monday afternoon that in operating his automobile on State street the car was backed against a bicycle beside the curb owned by Isadore Schuman, 163 Huntington street. The cycle was damaged.

The plunder obtained several months ago by the robbery of the residence of Mrs. John Hislop by youths and which has been in possession of the authorities since, was delivered to Mrs. Hislop today. The principle plunder obtained was a string of pearls.

William Paseler, a chief petty officer, stationed at the submarine base, and residing with his wife at the Colonnade apartments, 216 Pequot avenue, was taken into custody late Monday afternoon by Sergeant Patrick Murphy and Acting Sergeant Edward Daniels, charged by Mrs. Paseler with assault. Mrs. Paseler lodged complaint Saturday with Prosecuting Attorney Daniel M. Cronin, alleging that Thursday her husband inflicted a severe beating upon her, bruising her to such an extent that she was compelled to obtain medical treatment. Hearing Mrs. Paseler's story, a warrant for Paseler's arrest was issued.

City Manager William A. Holt submitted to the city council at its weekly meeting Monday evening a communication he had received from Engelbert J. Sauter, Masonic street, and an insurance agent, complaining against Patrolman Walter Rhen, who Sauter alleged called to the latter on the street to "have a drink." Patrolman Rhen has already admitted doing as alleged, but declares that he did so in joking. Sauter does not consider the matter a joke and has requested that the officer be disciplined. The matter was referred to the committee on public safety. Sauter has been before the public eye and generally not in accord with a majority of the taxpayers because of his opposition to many movements where appropriations were necessary to carry into effect and operation.

FRENCH AND BELGIAN PREMIERS EXCHANGE VIEWS

Brussels June 24.—(By The A. P.)—Premier Theunis, after today's conferences with Premier Herriot of France, said that he had every reason to be satisfied with the results of the exchanges of views at Chequers Court and Brussels.

Regarding these conversations an official communique states.

"They give hope of close co-operation between Great Britain, France, Italy and Belgium with the view of assuring the application of the experts' plan."

The tendency in Belgian political [illegible] is to attribute no other significance to the conference of the premiers than an indication of the disposition all around to apply the Dawes' plan.

TWO MEN KILLED BY THE WHITE MOUNTAIN EXPRESS

Windsor, Conn., June 24.—Daniel J. Callahan, 51 years old, and Henry Copenhagen, 67, were killed this afternoon when their automobile was hit by the White Mountain Express at the Windsor depot. The men were returning home from work and were not aware that the train was due as the express had been running but two days. Copenhagen was hauled for half a mile on the front of the train while Callahan's body was thrown several feet from the crossing. Callahan leaves a wife and three children and Copenhagen is survived by a wife and two sons.

Candidate For Vice-President, Republican Party

COPYRIGHT BY HARRIS & EWING, CHICAGO.

Brig.-Gen. Charles Gates Dawes, soldier, financier and composer, nominated for Vice-President of the United States by the Republican National Convention in Cleveland. General Dawes, long celebrated in financial circles by his writings as well as his success in a banking career, achieved national fame by his services during the war and his picturesque testimony shortly thereafter. He then became the first Director of the Budget and, after a brief interval of private life as a Chicago banker, leaped into the international limelight as Chairman of the International Advisory Committee to the Reparations Commission. General Dawes was born in Marietta, Ohio, August 27, 1865, son of General Rufus R. Dawes, who commanded the famous Iron Brigade of Wisconsin, went to Marietta College, and was graduated from Cincinnati Law School at the age of 21, working his way through college as chief engineer of a small Ohio railroad. From 1887 to 1894 he practiced law in Lincoln, Neb., his firm specializing as public utility counselors and developing extensive gas plant holdings. He moved to Wisconsin in '94 and became President of the LaCrosse Gas Light Company, and his next move was to Evanston, Ill., as President of the Northwestern Gas Light and Coke Company of Evanston, which eventually was merged into the People's Gas, Light and Coke Company, supplying Chicago. Following his activity in behalf of President McKinley in Illinois in '96, he was named Controller of the Currency of the United States, serving from '98 to 1901. He then organized the Central Trust Company of Illinois and was active head of that enterprise until 1921, when he became Chairman of the Board of Directors. In 1917-1919 he served in France, most of the time as Chairman of the General Purchasing Board.

With sufficient material in each package to finish a frock.

Ruffled Trimmings 20c to 59c

Ruffled trimmings to match the frocks, 20c to 59c a yard.

FINANCIAL AND COMMERCIAL

MARKET WAS STRONG

New York, June 24—Stock prices resumed their forward movement in today's trading session which was featured by sharp rallies in virtually all of the Erie's railroad bonds.

Reports that the Van Sweringen interests, through stock purchases, had acquired control of the road and eventually would consolidate it along with the Chesapeake and Ohio into a mammoth "Nickel Plate" system, brought a wave of buying orders for the Erie liens. The convertible issues achieved the year's highest levels with the general and prior lien 4's moving up briskly. Series D of the convertible 4's led the list with a four point gain but later reacted slightly on profit taking.

Activity of the Erie mortgages overshadowed trading in other railroad bonds. Both "Nickel Plate" and Chesapeake and Ohio liens enjoyed large turnover, although price changes were not pronounced. A good demand carried Missouri Pacific 4's, Illinois Central 4's and Norfolk and Western convertible 6's higher.

Interest was revived in Chinese Railway issues which reached the year's top notch at 46 3-8. Other foreign bonds were firm with British and French government issues registering moderate improvement.

LEGAL NOTICES

NOTICE TO CREDITORS.
AT A COURT OF PROBATE HELD at Norwich, within and for the District of Norwich, on the 23d day of June, A. D. 1924.
Present—NELSON J. AYLING, Judge.
Estate of Anne Louise Worcester, late of Norwich, in said District, deceased.
Ordered, That the Administratrix with the will annexed cite the creditors of said deceased to bring in their claims against said estate within six months from this date, by posting a notice to that effect, together with a copy of this order, on the signpost nearest to the place where said deceased last dwelt, and in the same town, and by publishing the same once in a newspaper having a circulation in said District, and make return to this Court.
NELSON J. AYLING, Judge.
The above and foregoing is a true copy of record.
Attest: HELEN M. DRESCHER, Clerk.

NOTICE.—All creditors of said deceased are hereby notified to present their claims against said estate to the undersigned at Colchester, Conn., R. F. D. 4, within the time limited in the above and foregoing order.
NELLIE W. MORGAN.
je25d Admx. with the will annexed.

SPECIAL STOCKHOLDERS' MEETING

A special meeting of the stockholders of Shetucket company is hereby called to be held at the office of said company, Room 211, Disco Building, Norwich, Conn., on Wednesday, the 9th day of July, 1924, at 10 o'clock in the forenoon, to see if they will vote to confirm the vote of the directors of said corporation to terminate its corporate existence, duly passed at the meeting of said directors held at 45 East Seventeenth Street, New York city, on Tuesday, May 27, 1924, a copy of which vote is as follows:
"Resolved, that the corporate existence of the Shetucket company be terminated at the earliest possible date and that the Secretary be authorized to take such steps as are necessary to carry out this resolution in conformity with the law."
Dated at Norwich, Conn., June7th, 1924.
By order of the directors,
EDWIN H. BAKER, Jr., Secretary

COLUMBIA

Halsey Natanie, who is spending the summer with his mother at their cottage by the lake, attended store for H. W. Porter on Saturday, June 14th, and was sworn in as a postal clerk, entitled to handle the United States mail.

Mr. and Mrs. Raymond Lyman and Edwin and Miss Myrtle Collins took a trip Sunday to Amherst. A portion of the party continued for some distance the trip over the Mohawk Trail.

Prof. A. E. Lyman is very actively engaged in his profession of music, leading four bands and teaching pupils to play the instruments used in the band. He is also organizing another band composed of young men and girls in Columbia and hopes that they will attain sufficient ability to give concerts on the Green on Sunday afternoons during the summer.

Mr. and Mrs. William M. Wolff (Ruby E. Williams), of Lebanon, who were married Sunday, June 15th, have returned from their honeymoon, and are at their home near the Green. Mrs. Wolff was at one time teacher of the school on Chestnut Hill.

Mrs. Hubert P. Collins arrived home on Saturday, the 14th, from Charleston, West Virginia where she went to attend her sister, Mrs. Lester Hurlbutt, who has been very ill. Mr. and Mrs. Collins left town on Sunday for Northampton, Mass., to attend the graduation exercises of the senior class at Smith college, of which their daughter, Miss Eleanor, was a member and upon whom the decree of A. B. Magna Cum Laude, was conferred.

The students from Columbia, who attend the Windham High school, also Miss Clough, Miss McIntosh and John Demosko, teachers in the Columbia schools were present at the class day exercises at the high school.

A watermelon, which was erected on the property of Mrs. Mary B. Yeomans on the Green, some years ago, and which has furnished power to supply the house with water, was taken down Wednesday by plumbers from Willimantic, it being no longer needed as a gasoline engine now supplies in power needed for the electric lights and plumbing.

Mrs. Ethel Blakeley, Miss Margaret Blakeley, Mr. and Mrs. Seeley and Miss Lois Seeley attended the graduation exercises at the Windham High school, at which Miss Seeley was graduated with honors.

Miss Marion Holmes has returned home from a visit in Hartford.

The school in Willimantic, at which Miss Madgline Homes was a teacher during the past year, closed Thursday last week and she is now at her home.

Destructive animals are plentiful at present. During the past week Alex Magura of Chestnut Hill shot three old and ten young foxes who were in the act of stealing his chickens, having a hen in their possession at the time. Bert Lyman shot two woodchucks and several crows.

Owing to the abundance of wet weather lately, the grass on the green and surrounding lawns has grown rapidly, and it has been difficult to keep the lawns trimmed and looking well. They were all mowed again on Friday and Saturday.

Childrens' Day was observed at the church on Sunday morning and the exercises were conducted by Clayton E. Hunt, with Mrs. Hunt in charge of the music. The following program was well given by the young people: Chorus, Beneath the Cross of Jesus, Miss Sawyer's class; Recitation, Boy Radio, David Hunt; Recitation, Summer Time, Wescott Rice; Song, The Misses Helen and Harriet Field; Exercise, Three Little Daisies, Marion, Madeline and Alice Cable; Solo and Chorus, Out in the Fields with God, young ladies in Miss Sawyer's class; Exercise, The Rainy Day Brigade, five boys, Jasper Woodward singing the solo; Recitation, Bertha Buell; Chorus, Summer Suns are Glowing; Exercise, Crowns we Bring, six girls in Miss Hutchins' class; Recitation, Individuality, Clayton Hunt, Jr.; Song, Elraine Newpher; Exercise, Our Banner Resplendent, Fred Hunt and Fred Bertsch; Song, Good Bye, Charles Hutchins.

The Highway department has been depositing loads of gravel by the sides of the highway to be used for repairs.

Raymond E. Lyman motored to Amherst on Saturday afternoon, returning Sunday with Mrs. Lyman, who has been spending the past week there.

At the meeting of the Grange on Wednesday evening, there was a good attendance. Mrs. Howard A. Rice, the very efficient lecturer, presented an attractive program, including vocal and instrumental music. There were also a number of tableaux, representing, An Indian Girl of Panama by Elraine Newpher in an attractive costume, and Womans' Rights in which the men did all the housework and cared for the baby, while the women took their ease, Mother Goose Rhymes and the Seven Wonders of the World.

Randall Porter who is in business at Indianapolis, Indiana, has been taking a vacation, spending most of the time at the home of his parents, Mr. and Mrs. H. W. Porter on the green. He left for Indianapolis, Saturday afternoon.

JEWETT CITY

The Congregational church picnic held at Pachaug fair grounds was well attended and greatly enjoyed. The events planned made lots of fun, and the cheer leaders, Mrs. Ballou and Mrs. Buckingham, had gotten up the best of cheers, which helped a lot. The dining hall was opened and the basket lunch, with ice cream and lemonade was served late in the afternoon.

In a series of peanut races for the ladies, first places were won by Mrs. Geer, Mrs. Cheney and Mrs. Gill; second places by Mrs. Munn, Mrs. Robinson, Mrs. Gallup; third places by Mrs. Buckingham, Miss Wilcox and Mrs. Gallup. In the peanut race for the little girls, Misses Ruth and Edith Munn captured first places.

Sack race for junior boys: Chester Littlefield first, Spencer Johnson second, Lawrence Petterson third.

Tug of war for junior boys: The side captained by Chester Littlefield won out over Capt. Earl Robinson's side.

Tug of war for ladies: Captains Mrs. Buckingham and Mrs. Robinson. Mrs. Buckingham's side won.

Tug of war for men: Captains, L. G. Buckingham and Frank Wilcox. Mr. Buckingham's side won.

In two fiercely contested battles between the Battling Benedicts and the Eligible Sluggers, the single men came out of the battle bearing the honors.

The first game resulted in a score of

CLOUDY WITH LOCAL THUNDER STORMS TODAY

Norwich Bulletin

1795 1924

NORWICH, CONN., WEDNESDAY, JUNE 25, 1924.

FULL ASSOCIATED PRESS DEAPATCHES

The Bulletin

Norwich, Wednesday, June 25, 1924.

THE WEATHER.

Conditions.

Pressure was low Tuesday night. Local showers or thunderstorms have occurred within the last 24 hours. The temperature has not changed materially.

A western disturbance has moved slowly eastward and will be attended by local showers and probably thunderstorms almost generally in the Washington forecast district within the next 24 to 36 hours. There will be little change in temperature east of the Mississippi river Wednesday, but somewhat cooler weather will prevail in the middle Atlantic and north Atlantic states on Thursday.

Winds.

North of Sandy Hook: Moderate to fresh south and southwest and weather partly overcast Wednesday; showers Wednesday night.

Sandy Hook to Hatteras: Moderate south and south west, and weather mostly overcast, probably showers Wednesday.

Forecast.

For southern New England: Increasing cloudiness followed by local thundershowers Wednesday afternoon or night; Thursday cloudy and cooler, probably showers.

Observations in Norwich.

The Bulletin's observations show the following changes in temperature and barometric changes Tuesday:

	Ther.	Bar.
8 a. m.	63	29.90
12 m	87	29.90
6 p. m	70	29.93

Highest 83, lowest 62.

Comparisons.

Predictions for Tuesday: Generally fair, not much change in temperature.

Tuesday's weather: Fair, continued warm, south west wind.

SUN, MOON AND TIDES

(Standard Time.)

	Sun Rises	Sun Sets	High Water	Moon Rises
	a m	p m	p. m.	a m
23	4.15	7.25	3.33	Morn.
24	4.15	7.25	4.41	12.05
25	4.15	7.25	5.27	12.34
26	4.15	7.25	6.17	1.02
27	4.14	7.25	7.04	1.31
28	4.16	7.25	7.45	2.04
29	4.17	7.25	8.26	2.38

Six hours after high water it is low water, which is followed by flood tide.

TAFTVILLE

Postmaster D. C. Murphy has received a communication from John H. Bartlett, first assistant postmaster general, stating that the adjutant general of the army, Major General Robert C. Davis will forward to the local postoffice a supply of application blanks, instructions and return addressed envelopes to be distributed in this community to veterans and their dependents desiring to make application for benefits under the world war compensation act.

The Salvation Army took a collection at the mill gates Tuesday evening.

NORWICH TOWN

In his sermon at the Sunday morning worship at the First Methodist Episcopal church, Rev. James B. Alwards preached from Matthew 16:18, "And I say also unto thee, that thou art Peter, and upon this rock I will build My church: and the gates of hell shall not prevail against it." Rev. [illegible] theme was Building the Church. [illegible] the rite of baptism [illegible] to two infants and [illegible] others [illegible] several Scripture references in Nehemiah.

The leader at the First Congregational Young People's C. E. society on Sunday evening was Miss Florence Sterry. The topic was Discovering the C. E. Pledge.

Mrs. William Tague of McClellan avenue, recently returned from a few days' visit at the home of her niece, Mrs. Joseph M. Hart of Wethersfield. At present Mrs. Tague has as her guest, her sister, Mrs. Paul Schlough, of Danbury. Sunday Mrs. Tague, with her son George, and Mr. and Mrs. William Young, motored to Atlantic Beach.

Mr. and Mrs. Fred Thorpe of Taftville were guests over the week-end at the home of his brother's family, George Thorpe, of Norwich Town.

Sunday, Mrs. Sarah Snow, her son and daughter-in-law, Mr. and Mrs. Edward Snow and son Edward, Jr., and Miss Agnes Thorp with their guests, motored to Quonochontaug.

SALVATION ARMY APPEAL REACHES $3,801.02 TOTAL

The Salvation Army Norwich home service appeal is steadily advancing toward its quota of $5,000, with a total reported to Tuesday night of $3,801.02. It was decided at a special meeting of the team captains and other interested in the campaign, held at the Salvation Army headquarters on Cliff street, to continue the drive until the end of this week. It is not believed that Norwich will fail to make up this difference needed of $1,200. The following are the team reports to Tuesday night:

Team 1.	Capt. Geo. A. Finn	$825.20
Team 2.	Capt. A. Schwartz	241.50
Team 3.	Capt. E. O. Rodier	237.00
Team 4.	Capt. L. Crandall	206.10
Team 5.	Capt. J. T. Barry	133.79
Team 6.	Metropolitan Assoc. Agents	56.00
Team 7.	Capt. P. F. Sweeney	56.00
Team 8.	Capt. H. B. Cary	326.00
Team 9.	Salvation Army	790.53
Team 10.	W. C. T. U.	224.55
	Women workers	111.10
	Tag Day	350.00
Total		$3,801.01

Ninth Birthday Party.

Miss Arlene Lillie, oldest daughter of Mr. and Mrs. Robert Lillie of Stonington road, celebrated her ninth birthday Monday afternoon from 2 to 4 by entertaining a party of little friends at her home. Light refreshments of sandwiches, cake, fancy cookies, candy and lemonade were served by Mrs. Lillie, assisted by Mrs. Frederick Manning and Mrs. Adelle Spaulding. Those present were: Misses Mary Rossmark, Helene Reardon, Grace Smith, Arline, Phyllis and [illegible] Lillie and Mildred McNeely and Edward and Harold Manning, William [illegible] and Brayton Atwood.

It is as easy to draw back a bullet after discharging the gun as it is to recall an unkind word.

TWO NORWICH MEN AND TWO TAFTVILLE GIRLS ARE DROWNED

Four drownings Tuesday—two young men in the Mohegan park lake and two girls at Taftville—made a sad opening for the bathing season in Norwich. All the bodies were recovered.

Joseph Foley, 19, son of Mr. and Mrs. John J. Foley of 20 Fountain street, and Michael Matthews, 19, son of Mr. and Mrs. Edward Matthews of 59 School street, were drowned about 10 o'clock in the lake at Mohegan park where both had gone to swim. They went out to the raft and were seen to go down when about 25 feet distant from it by a small boy, Owen Thayer, who was on the shore. From what he told of the accident, it appeared that Foley, who was said not to be a good swimmer, got into difficulty in the water and Matthews, who was an expert swimmer, went to rescue him. They came up once and shouted for help but then disappeared. The boy told a man who was getting into his bathing suit in the bathhouse and who dived a number of times in search for the bodies but without success.

Word was sent to police headquarters and Captain D. J. Twomey, Officers Barney Keenan and Luke Riley went to the lake and dragged for the bodies, besides diving for them. About an hour after the accident a grapnel that Officer Riley was using brought the body of Foley to the surface and it was taken ashore, where Medical Examiner C. C. Gildersleeve gave Hourigan Bros. permission to remove it to their undertaking rooms. Rowland Harris, an expert swimmer, helped in the search for the body, making many dives into the lake to find it.

The search for the body of Matthews was continued by the officers and two other boats and it was finally brought to the surface about 4.30 in the afternoon by Officer Keenan and was taken to the undertaking rooms of Hourigan Bros.

The fathers of the two young men hurried to the lake when they received word of the drowning and were there when the bodies of their sons were recovered.

Medical Examiner Gildersleeve thoughtfully remembered the men who had been at work over their dinner hour and secured sandwiches and ginger ale which he took to them about 2.30 o'clock for a lunch before they resumed their search.

Joseph Foley, who was born in this city May 31, 1905, and had lived here all his life, was the son of John J. and Bridget Saunders Foley. He was a member of the Combat Train, 192nd Field Artillery. Besides his parents he is survived by two brothers, John J. Foley, Jr., of New Haven, and James Foley, a petty officer in the U. S. navy, and a sister, Mrs. Mary Watson of Voluntown.

Michael Matthews was born in this city, Dec. 22, 1904. He had been employed in the paper mill at Thamesville. Besides his parents Edward and Ellen Kelly Matthews, he is survived by eight brothers and sisters, Charles, William, Albert, Henry, Lillian, Alice, Mrs. Mary Thomas and Mrs. Allen Blondeau, all of this city.

Two Girls Drowned at Taftville

The two little girls drowned at Taftville were Jane Mayor, 12, daughter of Mr. and Mrs. Robert Mayor of 14 Terrace avenue, and Frances Erlbeck, 13, daughter of Mr. and Mrs. Frank Erlbeck of Taftville.

The girls each carried her father's dinner to the Ponemah mill and on returning home put on bathing suits for a dip in the Ponemah mill pond. Jane could swim but Frances could not. The latter stepped into a deep hole and Jane went to her assistance. Both sank.

Anna Stefanick who stood on the shore watching the other girls in the water ran home to tell her mother who got help as soon as she could.

A general alarm was spread through the village by Albert Lambert and Leone Ricciles started diving at the spot where the girls went down. After about half an hour he located the bodies and they were brought ashore in a boat by Erastus Verrington and then taken to Grant's undertaking rooms on permission from Dr. George Thompson after artificial respiration had been tried.

Both girls attended grammar school in Taftville.

MAINE WOODS GUIDE FOR CAMP TIPPECAN

This is what the national department of camping says of Harry Jordan, the Maine guide who will be at Camp Tippecan for the Norwich Boy Scouts this summer:

"Harry Jordan, a dyed-in-the-wool woodsman, and his dog Mack will be at the camp to tell of his experiences with Indians and lumber men in the North woods. Harry hunts bob cat and bear with a bow and arrow and will give instruction in the art of archery, canoe building, snow shoe making, log cabin construction and most anything you want to know about the woods—and stories? Yea, Bo! Actual experiences which you will want to listen to by the hour."

All Scouts registered for camp this summer are to report on the Monday of the week they are going on Shetucket street at 10 o'clock a. m. for free transportation to camp. This is to be a wonderful opportunity for Scouts of Norwich council.

TWO GIRLS RESCUED BY JOHN KANE

Two girls employed at the plant of the American Thermos Bottle Co., were saved from drowning in the Thames river at noon Tuesday by John Kane of 2 Elmwood avenue, another employe at the plant. The girls went in bathing during noon lunch hour and one who cannot swim very well got beyond her depth. She grabbed the other girl and almost dragged her down. Mr. Kane who saw their plight went to their assistance. With his help the girls reached the shore safely.

SETTLED AUTOMOBILE SUIT BROUGHT FOR $10,000

An automobile damage suit for $10,000, in which Rose L. Nolan of New York, was plaintiff and Ripley B. Parks of Groton, defendant, and which was assigned for trial in the superior court here Tuesday before Judge John R. Booth and a jury, was settled out of court. The terms of the settlement were not made public.

Miss Nolan, who was an employe of the Travelers' Aid society of New York, sued the Groton man on the allegation that while he was under the influence of liquor and was driving an automobile at Bolles Hill, Waterford, about 6.20 p. m., on Dec. 24, 1922, he struck her as she was standing at the side of the road and dragged her 300 feet, fracturing several ribs and otherwise severely injuring her.

GAS DEPARTMENT EMPLOYE COMPENSATED FOR BURNS

Working compensation agreements as follows have been approved by Commissioner J. J. Donohue.

American Woolen Co., Norwich, employer, and Thomas Joyce, 245 West Thames St., employe, bruised thumb, at rate of $10.56.

Ashland Cotton Co., Jewett City, employer, and Mrs. Elizabeth M. Chase, R. N., employe, strained muscles of abdomen, at rate of $18.

Norwich Gas and Electric Dept., employer, and Antonio De Novelles, 36 Thames St., employe, third degree burns on arms and face, at rate of $13.20.

Conn. Power Co., New London, employer, and Walter Enos, employe, injured right foot, at rate of $12.60.

Ashland Cotton Co., Jewett City, employer, and Minnie Mager, employe, right index finger broken, at rate of $6.04.

MARRIED IN NEW LONDON, ABANDONED HER BABY

Pleading guilty to abandonment of her 4-months old son because she was penniless, Mrs. Wilhelmina M. McMackin, 22, was given a suspended sentence Monday to the Reformatory at Cos Cob by Judge Shelrean in the Somerville district court, Mass. She was placed on probation until Sept. 9.

Mrs. McMackin agreed to take the baby to the home of her grandmother in Lynn, where she is to live, and in which she hopes to secure employment. Richard C. McLane, 20, was found guilty of aiding and abetting the abandonment and was fined $50. Being unable to pay, he was committed to the East Cambridge House of Correction. Until Saturday, Mrs. McMackin and Lane roomed at 189 Warren St., Roxbury.

Mrs. McMackin told the court she married Wm. D. McMackin in New London March 8, 1923, and separated from him three months later.

Preston Parent-Teachers.

The closing meeting of the year of the Preston Parent-Teacher association was held recently at the Poquetanuck school house. Following the reports, plans were made for the annual picnic to be held June 25 at the Drawbridge the association joining with the schools in planning for the day. Mrs. George Mansfield, Mrs. Appleton Maine, Mrs. Paul Collins, Mrs. Alanson Fuller, Mrs. Albert Rodgers, Mrs. George Bettinz, Mrs. Hugh Robinson and Mrs. Peter Billodeau were named as committees to arrange for the transportation and refreshments.

An interesting programme of music and recitations was given, several of the school children, at the close of the business meeting.

Biscuits should be opened with the fingers. Only in extreme cases is an ax permitted.

THREE SUITS SETTLED FOR AUTOMOBILE ACCIDENT

Three suits against George W. Carroll of this city because of an automobile accident on the Jewett City road on Oct. 24, 1920 that were assigned for trial in the superior court here Tuesday before Judge John R. Booth and a jury were settled without trial and court adjourned till Wednesday morning. An aggregate of $20,000 damages was claimed in the suits but the terms of the settlement were not made known.

The suits were brought on the claim that the automobile driven by Mr. Carroll struck the machine of Arthur W. Bates of Preston, which his wife was driving, causing it to strike a fence. Mrs. Bates sued for $10,000 damages, claiming she suffered injuries by being thrown against the steering wheel and windshield. Anna Halyburton of this city, a passenger in the Bates car, sought $5,000 damages on the claim that she received injuries when she was thrown out of the car, and her husband, Frank Halyburton, sought $5,000 damages, for the injuries he claimed he received when he was crushed between the Bates automobile and the fence.

Mrs. Bates has already gained a verdict for $8,000 for the death of her husband, from which Mr. Carroll has taken an appeal to the supreme court. Brown and James were attorneys for the plaintiffs.

FIRST MILLER REUNION HELD AT ASHWILLET

A happy family gathering was held Sunday at the home of Mr. and Mrs. Daniel B. Vergason of Ashwillet, in observance of the first Miller reunion. Those present were the descendants of Oliver S. and Almira Ecclestone Miller and included children, grand-children and great-grand children.

The present home of Mr. and Mrs. Vergason (Susan Miller) was originally the Miller homestead and it was here that eight out of the twelve children born to Mr. and Mrs. Miller, assembled with their families, as follows: Everett Miller, East Great Plain, Norwich; Elmer Miller, Jewett City; Sarah, wife of Herbert Stark, South Windsor; Susan, wife of Daniel B. Vergason, of Ashwillet; Effie, wife of William R. Hull, Old Mystic; Stella wife of Joseph Wheeler, Stonington; Rosabelle, wife of W. W. Bentley, Yantic; and Minnie, wife of William Kilroy, Yantic.

The children who have died are Avery Miller, father of Mrs. Clinton Thompson, of Norwich; Lillie, the first wife of William R. Hull, also the mother of Mrs. Claude Chester of Noank, Mrs. Virgie Morgan and Helen Hull, of Old Mystic; and Alide Miller '20 and John Miller 9, who died several years ago.

The reunion was in charge of Mrs. John Procter of Yantic, and Mrs. Alfred Linderson of Taftville, grand daughters of Mr. and Mrs. Oliver Miller. A company of 75 sat down to long tables arranged under stately elms on the lawn. Each one attending were allotted to bring certain kinds of food so that everything was evenly divided, there being large quantities of everything on the tempting menu, which included the following: Baked beans brown bread, a variety of salads, cold chicken, cold ham, frankfurters, rolls, a large assortment of sandwiches, pickles. It was estimated there was forty kinds of cake, five kinds of ice cream, punch, tea, coffee, iced milk, hot beer, cocoanut, squash, rhubarb prune and apple pies, oranges and bananas. The dinner was served at 2 o'clock, the great-great-grandchildren waited on the tables.

Following the dinner there was an interesting programme including several vocal selections by Alton Wheeler, of Stonington, also recitations by the small children.

Those present from Norwich and vicinity were Mr. and Mrs. Roswell J. P. Brown and family of Oneco St., Mr. and Mrs. Alfred Linderson and family of Taftville, Mr. and Mrs. Clinton Thompson, Stetson St., Everett Miller, East Great Plain, Mr. and Mrs. W. W. Bentley and family, Mr. and Mrs. Charles Bentley and family, Mr. and Mrs. Ellis Bentley and family, Mr. and Mrs. John Proctor and family and Mr. and Mrs. William Kilroy and family, all of Yantic, Mr. and Mrs. Philip Linderson and family of Gurleyville. Other places represented were Mystic, Stonington, Old Mystic, Jewett City, South Windsor, etc. Many of the party paid a visit to WaWog camp, at Ashwillet, where many New York people are passing the summer.

Mrs. John Proctor of Yantic was appointed to take charge of the reunion to be held in 1925, she to choose her committee to work with her at a later date.

The event Sunday June 22nd, proved a gala day for this first family gathering and a most enjoyable time was reported by many who attended.

Took Gift to Sanatorium.

Ladies' Auxiliary of Richard E. Hourigan post, represented by Mrs. Victoria Plante, chairman, of Taftville, and Mrs. Henry F. Gee of Franklin street visited the Tuberculosis Sanatorium Sunday and distributed food, flowers and magazines among the ex-service men. The members of the auxiliary are grateful to Mr. Gee who loaned his automobile to transport the women to and from the Sanatorium, and to Mr. Shea, of Shea's News store, for the magazines sent to the men at the sanatorium.

NEAR EAST MESSAGE FROM DR. JOHN EVANS

A telephone call Tuesday afternoon from a person in New York city, to Byron H. Evans of Court street revealed the fact that person in New York whose name could not be clearly understood, had just arrived from the Near East, and brought encouraging news concerning the wonderful work there, the past two years of Dr. and Mrs. John H. Evans.

It was gratifying to Mr. Evans to learn that Dr. and Mrs. Evans were well and through this person had sent cheerful messages to their parents here.

GARDNER LAKE WILL HAVE FIREWORKS DISPLAY

Through the contributions and co-operation of summer cottagers at Gardner Lake, with contributions from several city people, towards a Fourth of July celebration, to be given Saturday night, July 5th, the lake is to have one this year that promises to eclipse anything in the past. C. V. Pendleton is a prime mover in the plan and has already received contributions enough to warrant his placing an order for the fireworks with the company that handled the Italian celebration here Monday night. The Gardner Lake order is for a bigger display than that of Monday night in Norwich. Besides individual cottagers who have contributed, the various camps on the lake are making donations to the fireworks fund which Mr. Pendleton is collecting. He will be glad to receive further contributions.

The arrangements will be made to set off the display from the lake in the island which can be seen from the whole south shore and the head of the lake.

NOTICE

This is to give warning that my wife Marion Vandall having left my bed and board, I shall no longer be responsible for any bills contracted by her.

FREDERICK VANDALL

DISORDER AT DEMOCRATIC CONVENTION CAUSED BY RIVALRY AND DISSENSION

An Anti-Klan Demonstration Resulted in Several Fist Fights Among the Delegates—Permanent Organization Has Been Perfected—McAdoo's Name Has Been Presented For Nomination—Smith's Name Will be Presented Today—In All at Least Twenty Candidates Are to be Formally Presented to the Convention—There Will be No Balloting Before Friday or Saturday.

New York, June 25.—The deep, swift currents of democratic rivalry and dissension burst their dykes today in Madison Square Garden and engoulfed the party's national convention with a bellowing wave of confusion and disorder.

The Ku Klux Klan issue, brought at last to the open flor of the convention, set off an anti-klan demonstration that swept the great hall like a tornado and led to several fist fights among delegates, but apparently brought the question no nearer a solution.

Reaching the stage of receiving nominations for the presidency, the convention also was shown in an hour's demonstration for William G. McAdoo visible proof of the organized and driving power of the forces that are at work to influence the selection of a nominee.

The name of Governor Al Smith, of New York, will be presented tomorrow as his campaign organization was [illegible] tonight a convention floor [illegible] designed to outlast and outdo [illegible] today in his leading rival. Nominating speeches for all the [illegible] are expected to consume before tomorrow night, but there will be no balloting before Friday or Saturday.

Moving swiftly through its routine preliminaries, the convention today perfected its permanent organization recorded two prolonged demonstrations to its permanent chairman, Senator Walsh, of Montana, the Teapot Dome [illegible] and disposed of all [illegible] except adoption of the party platform and selection of the nominees.

The klan and other debated subjects were held in continuous session by a sub-committee appointed to [illegible] a vast collector, of suggestions, ideas and weld what is acceptable into a declaration of principles on which the whole party can stand united.

On foreign relations it is the presumption of the sub-committee to affirm specifically the party's belief that United States should be a member of the league of nations. The prohibition issue was disposed of by the committee men during the day with a decision to declare for law enforcement without mention of the eighteenth amendment of the Volstead act.

Of the about twenty candidates are to be formally presented to the convention, and only three of the nominating speeches were heard today, Alabama, heading the roll of the states, placed in nomination, Senator Oscar W. Underwood. Arizona had no nomination to present, and Arkansas presented the name of Senator Joseph T. Robinson. California's nomination of Mr McAdoo and the demonstration in his behalf brought the day's proceedings to a close.

When the convention reconvenes tomorrow morning Colorado will nominate Gvernor W. E. Sweet and then when the name of Connecticut is called the delegation will yield to New York for presentation of the name of Governor Smith.

Anti-Klan Parade

It was a denunciation of the klan by Fordney Johnston of Birmingham, in his speech nominating Senator Underwood, that threw the convention into its first open manifestation of disagreement.

Sending up a shout that came as from a single throat, the delegations from several anti-klan states poured into the aisles to begin a parade around the hall. Gathering momentum as they went, they tore from the walls and railings clusters of American flags to carry aloft in their militancy, and took up for their marching songs.

A number of states refused en masse to join in the demonstration, and in two or three delegations, where sentiment was divided, there were tussles between delegates who sought to take the standards of their states into the parade, and those who sought to prevent it.

When quiet had been restored Mr Johnston concluded his speech, and former Governor Charles H. Brough, of Arkansas, presented the name of Senator Robinson. He was applauded from many parts of the hall and the Arkansas delegation stood on its chairs and cheered but there was no effort at a prolonged demonstration.

Californians Acclaim McAdoo

The nominating speech for Mr. McAdoo was made by former Senator James D. Phelan of California and at the mention of the name of the former treasury secretary it all came into action. A group of women trumpeters blew a clarion call from the midst of the California delegation. Two men lifted to their shoulders a girl dressed in the national colors and bore her to the head of the fast forming parade. A cheer leader took his place at the speaker's stand, and scores of colored bandanas and California state flags, previously distributed to delegates and workers, were brought into play as the show got under way. It was impossible to estimate how many delegates took part in the hour's demonstration. Among the marchers were many who wore no badges to identify them, and a group of these gathered in front of the speakers stand and kept whooping it up for McAdoo after most of the delegates were back in their places. The band, too, and a group of McAdoo boosters stationed in the gallery, carried the demonstration along for a time while most of the rest of the hall was quiet.

There was nothing on the surface ought to indicate that this or any other development of the day had affected the relative standing of the candidates. Both the McAdoo and the Smith forces were predicting victory.

WEDNESDAY'S SESSION WAS A NOISY AFFAIR

New York, June 25.—Shirt sleeves and sweltering, the hosts of democracy gave themselves up today to nominations and noise.

But if volume of sound is only criterion of the probable volume of democratic ballots next November, the party ought to be satisfied with today's augury. They made noise enough, first and last, to pale the violent thunder storm which came later to cool the sweating city into an insignificant rumble.

Some of the noise in convention hall was impromptu and heated with more atmospheric conditions. Some of it was planned, but all of it was noise of the noisiest kind.

And the loudest, gladest and most welcomed cry of the day was the stentorian "Aye" with which the delegates joined in voting an end to the tumult.

Johnson Aroused Assemblage.

Everybody knew who was to come first when the roll of states was called and Fordney Johnston, of Alabama, climbed the rostrum to place the name of Senator Oscar W. Underwood, of that state in the ballot, not all the delegates were prepared, for what was to follow, however, and when Johnston reached the point in his address where he dealt bluntly with the issue of organized political conspiracies hatched in secret, they began to take a new interest in what he was saying.

Johnston pounded away on his denunciation of secret intrigue and even the folks in the tropical climate of the sunswept hell forgot their discomfort. Finally he hurled at them directly the flat, unvarnished repudiation of the Ku Klux Klan, which Senator Underwood favors as a party platform plank, and a roar of approbation shook the hall.

M'Adoo Supporters Protect Staff.

The Missouri group holds front seats in this convention. The tall staff of the state standard rears up directly in front of the speakers' bridge that centers the platform. A husky Missourian decorated with an Smith button grabbed the staff and sought to join the march. A group of McAdoo supporters in the delegation fought him back, one gray haired woman clinging to it as it rocked in the struggle for possession.

The McAdoo faction controlled and the staff held its place, a monstrous New York policeman finally intervening to see that it was undisturbed.

But meanwhile a ruction had broken out about the Colorado standard and the McAdoo forces in other groups that will vote under unit rules were on guard, clustered about their standards.

The Colorado row waxed fast and furious while the demonstrating delegates howled with glee. A big man was fighting to get the state standard up and into the procession while half a dozen others fought him back. He was overcome by sheer weight finally and went down, dragging the standard down with him, its tall staff snapped off in the struggle, the white card bearing the word Colorado in big black letters ripped away from its metal frame. The vacant framework got around the neck of the raider finally, and he fought to get free of its grip.

Confusion All Over Hall.

Meanwhile, more peaceable confusion was in progress elsewhere all over the hall and the galleries were blooming out indications of their Smith sympathies.

Under the pound of the gavel, quiet gradually was restored and Johnston got Underwood's name into the record for the first time. It brought a loyal greeting from the Alabama delegation and the New Yorkers stood up to give a complimentary cheer as well.

It was evident that the convention did not take the Robinson nomination very seriously, at least at this stage of proceedings. There was applause, but no particular demonstration was attempted in his behalf and the delegates were plainly waiting to see what would happen from California, next in line, launched the real battle with the nomination of William Gibbs McAdoo.

Chairman Walsh called former Senator James D. Phelan to the stand and the Californians took that for the signal to start a preliminary burst.

Phelan got going finally and proceeded with an elaborate review of the career and qualities of the former treasury secretary.

The nominating speech was long and there were signs of restlessness before it was finished.

Phelan completed his speech by shouting, "William Gibbs McAdoo" at the battery of microphones before him, a shrieking roar of sound went up that was not to die away completely or even to lessen materially for more than an hour. Flags swung up everywhere, the bear flags, national flags, and streamers, brilliant colored silk scarfs were tossed aloft and led by the California and Georgia legions the McAdoo delegates surged out into the milling parade of the aisle.

A rooter group was unmasked in a high gallery, barking a chant in drum time of "Mac, Mac, Mac will do" over and over again. Bells clanged in imitation of locomotive signals and whistles hooted like the same locomotive, blowing for a crossing.

Later an anti-McAdoo wit with a megaphone roared out an "Oil, Oil, Oil will do" version of the McAdoo drum chant loud enough to be heard once or twice, but otherwise the McAdoo demonstration went unmolested.

A little later, however, by agreement, a motion to recess was shouted into the din and seconded and when Senator Walsh put the question the heroic size of the "Aye" which carried it, while coming chiefly from the New York and other Smith groups, showed that everybody was ready to quit.

BRIEF TELEGRAMS

William Fernie, 3, one of the oldest and best known golf professionals in the British Isles, died in Troon, Scotland.

Joseph Cultrera, aged 6, fell out of a boat and was drowned at Pontoosuc Lake, Pittsfield, Mass. The body has not been recovered.

Two cotton mills in Pawtucket, R. I., employing nearly 5,000 persons announced temporary suspensions because of lack of orders.

Shaves and hair cuts will cost more in New Haven after Monday as the Master Barbers granted increased wages to the jouneymen.

Daniel G. Wing, president of the First National Bank of Boston, was badly hurt when his automobile collided with a taxicab in Cambridge.

Overturning of an automobile near the aviation field in Bethany caused serious injuries to John Haggerty and Miss Catherine Ferris of New Haven.

Frank A Goodwin, state registrar of motor vehicles, revoked the license of Harvey M. McHale, driver of an engine for the Everett (Mass.) fire department.

The Rev. Carl Michael Sangree, of Massachusetts, has been called to the pastorate of the First Congregational church, Litchfield to succeed the Rev. Dr. Frank J. Goodwin.

Thousands attended the funeral at St. Joseph's church, yesterday morning of its late pastor, the Rev. John T. Lynch. Bishop Nilan celebrated the pontifical requiem high mass.

William Attmore Robinson, superintendent of the Globe Mills of the Manville Jenckes company, died in Woonsocket, R. I., following an operation last week for acute appendicitis.

When M. J. O'Meara, living in Carlisle street, New Haven, saw the head of a young negro poked through an open window he hit it with his boy's baseball bat and let it go at that.

Terrorization of the wealthy residents of Chicago's exclusive "gold coast" by writers of letters threatening death, kidnapping and mutilation is under extensive police investigation.

The cornerstone of the imposing new $1,000,000 Masonic Temple in Springfield was laid by Grand Master Luddy H. Perrell of Lynn in the presence of the largest gathering in the local history of Free Masonry.

Henry Parkman, widely known banker died at a hospital in Boston after a three months' illness. Since 1895 he had been treasurer of the Perkins Institute for Savings in Boston, and Edward Fire Office Association.

Joseph D. Wadhams, assistant engineer for the Public Utilities Commission made an investigation of the wreck in Windsor in which two were killed when an express train hit an automobile.

Rabbi Stephen S. Wise has been appointed to membership in the New York state democratic delegation, filling the avacancy created by the death of Charles F. Murphy, celebrated Tammany chieftain.

It was announced that the International Paper company, will close its plant in Franklin, N. H., for a week commencing June 29, and that the Franklin Needle company will suspend manufacture for two weeks at the same time.

Fifteen hundred Knights Templars, members of thirteen commanderies, with the grand officers of the grand commandery of Massachusetts and Rhode Island, were in Gloucester, Mass., for an outing in celebration of St. John's Day.

Bishop Charles L. Slattery of Massachusetts addressed the 200 boys attending the ministry conference at St. Paul's school in Concord, and declared that "Americans today are too versatile and the great need is for more exact knowledge."

Cotton spinning activity declined further during May, the monthly report of the census bureau showing a reduction of more than eight and a half million in the number of active spindle hours for the month as compared with April.

Kasmir Mikolaczyk, aged five years started to run across Grove street, New Britain, after his little sister when he was struck by a bakery truck driven by William Pliskowski. He died before he could be taken to the hospital.

Judge John W. Banks, in superior court, Bridgeport, confirmed George B. Clark, as permanent receiver of the Gaynor Manufacturing Company, of Stratford, with permission to continue the operation of the plant for one month.

Mrs. John W. Ball, wife of a wealthy lumberman and banker of Alexandria, La., has admitted that she, her daughter, Mrs. Ameil Ball Jordon and a friend, Mrs. Lessie Hatchette, on April 25, flogged Mrs. Lillian Bonnette, the beautiful young matron of that place.

Captain Milton Hagadorn, leader of the volunteers of America in Hartford, joined by the police in connection with church worker, who was questioned by, and for many years a promising sending a series of letters to boys of this city and Cambridge died Tuesday.

The state supreme court of errors in New Haven sustained the verdict of the criminal common pleas court in the case of Mr. and Mrs. Constanty Zwerko, of New Haven, who were fined $200 and each sentenced to jail for 76 days for having manufactured liquor in their possession with intent to sell.

George F. Redmond, founder and treasurer of the large upholstery brokerage firm of G. F. Redmond and Company, Inc., which was closed in March by federal injunction, was committed to jail in Boston, by Judge Morton in United States district court for contempt of court in refusing to turn over to the receivers $300,000 in assets.

Problem of Drafting Democratic Platform

Controversy is Being Waged Over Klan and the Plank Dealing With the League of Nations.

New York, June 25.—(By the A. P.) Closeted in a secluded room on a side street far from party headquarters, eleven men sat down today to write a platform for the democratic national convention.

Admittedly they had before them an all night job and even they were doubtful that they could produce a draft upon which the contending elements could meet on the one big issue of the convention.

Chairman Homer S. Cummins, and other members still expressed hope that this issue could be settled in the platform committee without a fight on the convention floor and they found some encouragement from the attitude of managers for several of the candidates and representatives of a number of Catholic and other organizations.

Some of the more determined opponents of the klan still were insistent, however, that the question would be taken to the convention unless the platform committee, which must pass upon the draft of its sub-committee of eleven acceded to their wishes.

After the klan the most troublesome proposition before the subcommittee is the plank dealing with the league of nations. It was decided to take up the most controverted subjects first in an effort to dispose of them before the committeemen had become fatigued by their long hours and arduous labors.

Under this arrangement the league question came up first and after an hour and a half of discussion a subcommittee of three was named to take several proposals which had been submitted nad whip them into shape for consideration. Newton D. Baker, secretary of war under Woodrow Wilson, and a league advocate, headed the committee of three.

Tacit instructions to the sub-committee were to take the first paragraph of the plank submitted by former Supreme Court Justice John H. Clarke, as president of the league of nations non-partisan association; add to that the whole of the league plank submitted at public sessions today by Owen D. Young, who was a member of the Dawes reparations' commission, and to write in suggested methods for American cooperation with other nations in preserving the peace of the world.

CHARGED WIFE ATTEMPTED TO BLACKMAIL HER HUSBAND

Bridgeport, June 25—Charges that Ruth Norton Boothe, of Cheshire, attempted to legally blackmail her husband, David Beach Boothe, of Stratford, were made by Attorney Ben Slade, of New Haven, before Judge John W. Banks in Superior Court today and resulted in the court's dismissing Mrs. Boothe's divorce action.

The trial was assigned for today but counsel for Mrs. Boothe produced a certificate signed by a Dr. Dennison of Cheshire, in which the woman was described as suffering with acute indigestion and unable to appear to press her suit.

In requesting the court to non-suit the action, Attorney Slade said: "What the lady is really suffering with, in my opinion, is a realization that she had employed the justice of this court as a method of legally blackmailing this defendant."

Judge Banks' decision not only throws the case out of court, but $200,000 in attachments laid by Mrs. Boothe on her husband's property, are automatically released.

Attorney Slade agreed to withdraw the counterclaim entered by the wealthy Stratford pioneer, asking divorce on the same grounds as alleged in his wife's complaint—intolerable cruelty.

ORDER OF BUSINESS OF CONVENTION TODAY

Convention called to order by Senator Walsh, of Montana, permanent chairman at 10.30 o'clock eastern daylight time.

Invocation by the Rev. George Caleb Moor, of the Madison Avenue Baptist church, of New York.

Roll call by states from nominating speeches for candidate for president. (Continuation of yesterday's proceedings.)

Resolution for the election of democratic national committeemen and national committee women, and providing for their tenure of office.

Report of committee on platform and resolutions, if ready.

Adjournment for the day.

RESULT OF TROLLEYMEN'S REFERENDUM ON WAGES

New Haven, Conn., June 25—The trolleymen's referendum on the proposal of the conference board that a new offer on wages be made to the Connecticut company, it was stated today, endorses the same which is that the board shall ask the company to increase wages three cents an hour. This would make the maximum rate 60 cents an hour instead of 57.

The request will go to the company tomorrow, and trolleymen have the impression that it will be accepted. The company had flatly refused the demand of an increase to 70 cents an hour and had said that it would not grant a wage increase. But the men claim that originally the company was willing to grant a small increase and later refused to do so and had even suggested need of a reduction.

BARKLIE MCK HENRY WEDS MISS BARBARA WHITNEY

Roslyn, N. Y., June 25.—Miss Barbara Whitney, daughter of Mr. and Mrs. Harry Payne Whitney, was married here today to Barkie McKee Henry, of Rosemont and Philadelphia. Henry was captain of this year's Harvard varsity crew. The ceremony was performed at Trinity Episcopal church by the Rev. Richard Gurlie, of Gaynor, Pa.

BRITISH AVIATOR HAS ARRIVED AT RANGOON

Rangoon, British India, June 25—(By the A. P.)—Maj. A. Stuart McLaren the British aviator who is attempting a round the world flight, arrived here today from Akyab, Burma.

Merger Proposed of Textile Workers

Matter is to be Discussed at Convention of the American Federation of Textile Workers.

New Bedford, Mass., June 25.—The proposed merger of the United Textile Workers of America with the Federated Textile Workers will be discussed at the ninth annual convention of the American Federation of Textile Operatives, which opened its four-day session here today. The federation is affiliated with the Federated Textile Workers.

Steps for a constructive policy for the improvement of conditions in the textile industry will be considered by the eighty delegates present.

President James Tansey of Fall River said in his annual report that serious business depression was being caused in the industry by overproduction, due to an excess number of working hours. He advocated the passage of a federal 48-hour law similar to that now in force in Massachusetts.

LEGAL STATUS OF RETIRED JUSTICE OF THE PEACE

Hartford, June 25—Judge Avery in the superior court today faced the proposition of deciding whether it is within the power of the court to rejuvenate a man, too old to qualify for the office he has held, long enough to make him rectify an alleged error, and on his decision on that point hangs, largely, the matter as to whether Justice of the Peace Frank W. Fellows, of Canton will be ordered by mandamus process to sign a mittimus committing Charles M. Stevens, former hotel proprietor of that town to the county jail, for fifteen days Justice Fellows was ordered to issue the mittimus before today or appear in court and show cause why he has not issued it. He appeared, with Edward J. Myers as counsel to show cause.

Today, Justice Fellows presented to the court the explanation that on May 20, the day the mittimus was issued, he reached his seventieth birthday and was no longer qualified to serve as a justice of the peace. On May 19, upon application of counsel for Stevens, he had issued an order placing Stevens on probation. He was too old to carry out any further duties in his official capacity when the mittimus was issued, Mr. Myers claimed.

After listening to arguments as to whether the justice could act in or out of the case, Judge Avery took the matter under consideration.

DISCOVERY OF ANTI-TUBERCULOSIS VACCINE

Paris, June 25.—Before a distinguished audience, including Prof. Pierre Roux and Marc, Prof. Albert Calmette last night described to the Academy of Medicine the results of his 20 years' work in the discovery of an anti-tuberculosis vaccine. The vaccine, known, as "bcg" is preventive, and only effective when applied to humans perfectly free from tubercular infection; consequently it must be administered to young children before the disease has developed. It can be administered through the mouth.

Dr. Calmette said that 247 nursing babies, chosen from those living in surroundings conducive to tuberculosis, had been vaccinated 18 months ago and that none had yet developed the disease. He pointed out that years must year must pass before it could be affirmed that the disease was conquered.

OFFICERS ELECTED BY NEW ENGLAND TYPOS

Concord, N. H., June 25—The New England Typographical Union at the closing session yesterday chose Fall River, Mass., for its 1925 meeting place, and elected Paul V. Murphy, of New Bedford, president and John G. MacGowan, of New Haven, secretary-treasurer. The latter takes the place of John F. Murphy, of Providence, R. I., who had served for fourteen years and declined re-election. Mr. Murphy was given a gold pen and pencil in recognition of his services and retiring President Fred G. Speed of Lowell, Mass., was given a gold watch.

Other officers elected were: Samuel A. Burns, Providence, first vice president; Carl C. Verril 1, Portland, Me., second vice president; Jesse W. Busse, Concord, N. H., third vice president; Louis F. Oriol, Burlington, Vt., fourth vice president.

POISONOUS BEVERAGES INCREASING HAY FEVER

Cleveland, June 25.—It would be far better to restore light wines and beers than to "permit the present orgy of health-wrecking dissipation among the young men and women." Dr Abraham R. Hollender, Chicago, told teh 18th annual convention of the American Institute of Homeopathy today.

Widespread indulgence in poisonous beverages is undermining the health of the younger generation and is causing an alarming increase in hay fever, he said.

FIREMEN FOUND THREE 100-GALLON STILLS WORKING

Malden, Mass., June 25.—Responding to an alarm today, the fire department found three 100-gallon stills in operation in a house in the Linden section occupied by Patsy Warner. A neatly printed sign tacked on the front door read, "Police take notice, do not enter these premises." The fire was out and no one was at home when the firemen called.

SERIOUSLY INJURED WHEN MOTORCYCLE SKIDDED

Torrington, Conn., June 25—Harold Coons, 19, and Paul Gandree, 18, both of this place, are in critical condition in the Torrington hospital as the result of injuries received when their motorcycle skidded from the road this afternoon and crashed through a fence. Both of the boys suffered internal injuries.

MEETING OF MEMBERS N. E. PARK ASSOCIATION

Hartford, June 25—Members of the park association of New England concluded a two day session here with a sheep bake at Goodwin park at which Mayor Stevens of Hartford was one of the speakers.

U. S. TO BE REPRESENTED AT THE DAWES PLAN DISCUSSION

Ambassador Kellogg at London Has Been Instructed to Attend the Conference of Premiers—Administration in Washington Desires That the Dawes Plan be Put Into Effect as Speedily as Possibly—Col. James A. Logan Will Go to London to Assist the American Ambassador at the Conference.

Washington, June 25—Ambassador Kellogg at London was instructed today to attend the forhtcoming premiers' conference to discuss execution of the Dawes plan.

His appointment was announced in a white house statement which said that Mr. Kellogg would attend the conference "for the purpose of dealing with such matters as affect the interests of the United States and otherwise for purposes of information."

This action was determined upon after the state department had been advised by the ambassador that an invitation for the United States to participate had been handed the American embassy in London. The white house statement declared that it was "the desire of the administration that the Dawes plan should be put into effect as speedily as possible."

Colonel James A. Logan, who has been American observer with the reparation commission at Paris, will also go to London to assist the ambassador at the conference.

ANTI-TRUST PROCEEDINGS AGAINST OIL COMPANIES

Chicago, June 25.—Anti-trust proceedings aimed at more than fifty of the principal oil companies of the United States including all the Standard companies were instituted by the government in federal court here today.

The action in equity taken by Attorney General Stone and filed in district court here by Edward Olson, U. S. district attorney asks an injunction to restrain the companies named from further violations of the Sherman anti-trust act which is charged against them.

The complaint charges that the oil companies combined to control gasoline production by pooling patent rights in violation of the anti-trust act, and also charged "a combination and conspiracy in restraint of trade and commerce among the several states and with foreign nations in gasoline, kerosene and other hydro-carbon products."

INVESTIGATING CHARGE PRISONER WAS SHOT

Huntsville, Texas, June 25—[illegible] by George W. Dixon, candidate for governor that a prisoner at the Ramsey State Farm was shot to death by a guard April 17 and five other Eastham farm recently were flogged are being investigated today by members of the state prison board.

[illegible] are supported by [illegible] C. Newton, a discharged prisoner, who declared that three men at the eastham farm were beaten [illegible] so severely that he was confined [illegible] a hospital for several months. Dixon said he had some of the bloody clothing worn by one of the convict.

Dixon said that the prisoner killed at the Eastham farm was shot because he [illegible] behind his squad. No [illegible] the facts regarding the shooting has been made public, he said.

RHODE ISLAND SENATE TAKES ANOTHER RECESS

Providence, R. I., June 25—The state senate today in the absence of all but one of the republican members, made no effort to transact business. Immediately after convening it adopted a motion by Senator Quinn, democrat, of West Warwick, for a recess until one o'clock tomorrow afternoon.

FIVE MORE ARRESTS FOR $2,000,000 MAIL ROBBERY

Tulsa, Okla., June 25—Two women and three men arrested in a raid on a house here today are being held by county authorities for investigation in connection with the recent $2,000,000 mail robbery near Chicago. Two hundred and forty six $20 bills were seized in the raid.

DEATH OF MRS. DIANA MARIA ARNOLD IN HARTFORD

Hartford, June 25—Mrs Diana Maria (Rhodes) Arnold, who, on her nineteth birthday on February 23 received greetings from Governor Templeton and Mayor Kinsella of Hartford, died today. She was born in Chaplin in 1834.

THREE MEMBERS FAMILY WERE FATALLY BURNED

Sherman, Maine, June 25.—The number of victims of the fire which burned the home of Harry Finson here Sunday had increased to three today with the death of his son, Wilbur, aged five, who was rescued after having been burned severely. Two younger children, Gladys and Janet, died in the flames.

JOURNEYMEN BAKERS OF PARIS VOTE TO STRIKE

Paris, June 25.—The journeymen bakers of Paris have voted an immediate strike, demanding the abolition of night work and the institution of higher wages. The government is preparing to open military bakeries and to protect the master makers able to continue operations.

"DINNER BURGLAR" GETS STATE PRISON SENTENCE

New Haven, June 25.—Harry Patterson, known as the "dinner burglar," who pleaded guilty to four counts in criminal superior court yesterday, today was sentenced to state's prison for from six to 12 years.

OBITUARY.

Harriet S. Millard.

Auburn, N. Y., June 25.—Harriet S Millard, 88, cousin of President Millard Fillmore and last surviving member of the immediate family in this county where the former president was born, died yesterday.

Marie Lefebvre.

Pasadena, Cal., June 25.—Marie Lefebvre, formerly Mrs. Charles Herman Steinway, widow of the piano manufacturer, died yesterday. She was a native of New York. A short time ago she married Captain Edward D. Lefebvre, a soldier of France, who came here after the war.

EXILED RHODE ISLAND SOLONS TAKE PRECAUTIONS

Portland, Maine, June 25.—Twenty-one republican members of the Rhode Island state senate, declaring their intention to remain here, if necessary, until the present Rhode Island legislature goes out on January 1, 1925, took extraordinary precautions today against possible raids of political opponents. Six stalwart members of the Massachusetts state patrol, as many plain clothes men from Providence and a detachment of plain clothes men from Massachusetts were in evidence [illegible] about the hotel where the senators took refuge last Sunday, a few days after tear gas had been liberated in the senate chamber at Providence.

Senator Arthur A. Sherman, of Portsmouth, R. I., republican floor leader has been appointed strategist of the group of exiles. The [illegible] allied three times daily, at meal hours. So stringent are the precautions observed against kidnapping, which the senators profess to fear, that tonight one of the party asked permission of the floor leader to go to a little village store, fifty feet from the hotel. The permission was granted with the condition that a guard must accompany the senator.

ARTIST FLAGG HELD UP BY SHERIFF ON HONEY MOON

New York, June 25—James Montgomery Flagg, the artist, who is now [illegible] honeymoon up to the western [illegible] automobile, has telegraphed the New York Times an account of how he was held by Sheriff Zook of Larned, Kan., because he answered the description of a man who passed worthless check at Great Bend, Kan., the previous day.

Mrs. Flagg was Miss Dorothy Wadham who had posed as a model for many of Mr Flagg's magazine cover illustrations. They were married here on May 10.

Mr. Flagg's telegram follows:

"I was held by Sheriff Zook of Larned, Kan., because I answered description of man who issued worthless check at Great Bend evening before. I was mortified because he had never heard of me, but Zook looked exactly like Old Irv Cobb, which I told him, and I was mollified by his entire ignorance of the pride of Paducah. Had a letter in pocket from Bill Hart, sheriff grudgingly admitted having heard of him. Zook telephoned Great Bend, but found out I was about 4 or 5 inches too tall, so he let me go and we parted with handclasp of perfect amity. This is not an idle yarn, but gospel. Driving on to Los Angeles."

WATERBURY BOY WAS DROWNED AT MYRTLE BEACH

Milford, Conn., June 25.—John Sullivan, 17 years old, of Waterbury, was drowned this afternoon while swimming at his pier, Myrtle beach. Sullivan was swimming with two companions off Seck called for help but had gone down before anyone could reach him. The body has not been recovered. The drowning was reported to the police by the boy's companions and Sullivan's name was learned from a bank book found in his clothing.

VIOLENT EARTHQUAKE RECORDER AT SANTA CLARA

San Jose, Calif., June 25.—A distant but violent earthquake starting at 6.31 p. m., and still continuing is being recorded by the instruments at the University of Santa Clara, according to a report made by Rev. Jerome Ricard, in charge of the university observatory.

New Vice Chairman N. R. E. C.

COPYRIGHT UNDERWOOD & UNDERWOOD, N. Y.

Mrs. Alvin T. Hert, of Louisville, Ky., who is the new vice chairman of the National Republican Executive Committee succeeding Mrs. Harriet T. Upton.

WILLIMANTIC

The work of redistricting the city by Postmaster Walter R. King has been completed and will take effect on July 1 when the extra regular carrier, William Geer, will begin his duties. This brings the carrier force on foot up to nine and the total force of the office to 24 employes, including Postmaster King and Assistant Postmaster Daniel A. Sullivan. The regular carriers in order are: John N. Smith, William Harold, Clarence C. Palmer, Dwight W. Ide, Anson J. Olds (mounted), George R. Allen, Joseph F. Paulhus, Clarence O. Barrows, William Geer, Dennis Haggerty (parcel post); substitute carriers, Norman C. Pultz, Robert Rafferty and Eugene Moriarty. Regular clerks: Orlando F. Smith (chief clerk), Edward J. Eagan, Joseph R. Morrison, Joseph C. Paulhus, Louis Moran and Arthur LeBlond; substitute clerks, Charles J. Potter, Maurice King and Russell Webster. Rural free delivery carriers, Route 1, William Cummings, Route 2, Arthur P. Ellsworth; substitute, Howard K. Hinckley and John S. Sullivan. Special delivery clerk, Stanley Williams; mail messenger, Wilbur Hobby; clerk in charge of sub-station, Harvey H. Bronson; assistant, Mrs. Cora Young; engineer post office building, John N. Williams; watchman, Edward Fay. For an office in a town the size of Willimantic the local post office has two distinctions: of doing an annual business of approximately $50,000 and ranking as a first class post office.

Although lacking its charter and not being a full fledged organization, the Willimantic Exchange club opened its program of service at the regular weekly luncheon and meeting, held Wednesday noon, when the 11 members voted a substantial sum of money to help defray expenses of the Fourth of July celebration here. Due to the extreme infancy of the club it was voted not to take an active part in the Fourth of July activities, as an organization, although practically all of the members are giving individual assistance toward the success of the day. President Dr. G. E. Wilcox brought the matter of taking action on a communication which he had received from the state organization, with regard to using the influence of Exchangites in curbing the introduction and subsequent passing of bric-a-brac laws of unnecessary nature in the state and national legislatures. It is planned by the movement to instruct the public and the representatives of the various towns and states in legislature not to glorify in the introducing of intricate bills but rather in having ability to halt the present movement of too much legislature. The members voted to cooperate in bringing this movement about. A board of control meeting will be held at 11.30 next Wednesday forenoon, prior to the regular luncheon, with Chairman Samuel Chesbro, to take action on several applications for membership. Those present at the session were: President G. E. Wilcox, Secretary Roderick A. Judoin, Samuel Chesbro, Dr. F. E. Guild, Russell W. Potter, Dr. C. A. Simonds, Clarence A. Bowen, Lyndon Little, Edwin P. Hefes, Robert E. Mitchell and H. C. Lincoln.

A call for material for the horribles in the big July Fourth parade has been sent out by the committee, [illegible] A. Bartlett, chairman. Trucks, old and new, wagons, teams, oxen, [illegible] rigs and the like are all acceptable [illegible] to see the [illegible] and willing to do [illegible] occasion are requested [illegible] Mr. Bartlett. Decorated [illegible] kinds are in demand [illegible] premiums to be well worth [illegible] Anyone having [illegible] with or without driver [illegible]

A large meeting for the Fourth of July celebration will be held at the rooms of commerce rooms next Friday afternoon at 5 o'clock. Acting Mayor George W. Hickey, chairman of the executive committee, will be in charge. Chairman A. E. Greene has appointed the following committee on related activities: Night Before—Albert J. Piche, Raymond A. Parker, Raymond C. Comins and A. J. Dubreuil; speakers, Valentine L. Murphy, Rev. F. F. Foshay, John Reilly; noise, Andrew Roux, Rev. F. C. Williams and Maurice S. Leonard. There will be public dancing on the pavement from 10 to 10 p. m., on July 3.

Miss Dorothy Bernice Millerd, the daughter of Mr. and Mrs. George H. Millerd of Main street, became the bride of Walter Francis Hornberger, son of George Hornberger of South Park street, Wednesday morning, at 7 o'clock, in St. Joseph's church. The ceremony was performed by Rev. John E. Clark, the single ring service being used. Miss Emeline Millerd was bridesmaid and George Hornberger was best man. The bride wore a powder blue Canton crepe gown with hat to match. Her maid of honor wore gray crepe with a black hat. The wedding breakfast was served at the home of the bride, following which the couple left for Boston on their honeymoon. They will reside at 50 Turner street. Mr. Hornberger is employed by the city water department.

Mrs. Amanda Johnson, wife of Andrew J. Johnson, died here, at 99 Oak street Wednesday forenoon. The deceased was born in Sweden, May 28, 1871, a daughter of Peter and Anna (Larson) Peterson. She leaves besides her husband, one daughter, Annie, and one son, John, both of this city; three sisters, Mrs. Matilda Hanson, also of Willimantic and Beda and Mary Peterson of Hartford and Norwich respectively. Mrs. Johnson was one of the well known and highly respected residents of this city.

From the late home, 43 Temple street, the funeral of Mrs. Eugenie Beaudry was held Wednesday morning with a requiem high mass at St. Mary's church at 9 o'clock. Rev. J. J. Papillon, the pastor, was the celebrant. The organist was Mrs. J. F. Gaudreau. Alfred Caisse, Stanislas Plante, Arthur Boutin and Alvin Ladd were the bearers and burial was in St. Joseph's cemetery. The Hurteau-Reese Corp., had charge of the arrangements.

Roy W. Webster, son of Mr. and Mrs. Wade U. Webster, of 79 North street, has received his diploma as a graduate of the Teachers' course of the Hartford School of Music, where he has studied for a number of years with Miss Lillian Bissell and Aurelio Giorni.

Dr. H. R. Lasch of New Britain suddenly became a highly strung gentleman, here, Wednesday afternoon about 2.30 o'clock, when an Essex machine driven by Mrs. Isadore Heller, ran into his Hupmobile car, when Mrs. Heller swerved to one side to avoid striking two jay-walkers. Although the Lasch machine was damaged only to the extent of a slightly bent fender, the owner was very much upset and came very close to being locked up for using abusive language. Traffic Officer William Hurley investigated the accident and Mrs. Heller agreed to settle for the damage. Spectators standing nearby were given an opportunity to forget the heat and enjoy a laugh when Mrs. Heller attempted to lift the Hupmobile to one side with her bare hands.

Miss Kathryn McCarthy, daughter of Mrs. Katherine McCarthy, of 399 Pleasant street, and Alfred Prue, of Fenelville, were married June 7th, by Rev. Michael J. Coffey, pastor of the Blessed Sacrament church at Saugus, Mass. The couple were attended by Miss Bernadette McCarthy, a cousin of the bride, and Joseph Roy, a cousin of the groom. Both young people are well known locally. The groom is employed by a construction company at Mansfield Depot and the bride has been employed at the American Thread company. They have returned from their honeymoon and are making their temporary home with the bride's mother.

The sum of $20 was voted toward the Stay at Home The 4th Fund at a meeting of San Jose Council, No. 14, Knights of Columbus, held recently. The committee representing the council for the day includes: Chairman, Grand Knight Gilbert P. Flynn, Arthur J. Bergeron and James S. Donahue, Jr.

Rev. Arthur S. Wheelock, who is to supply the Congregational church pulpit on Oct. 1, was married to Miss Pauline Sandereon of Andover, Mass., last Saturday. Mrs. Wheelock was a member of this year's graduating class of the South Farmingham Normal school. Rev. and Mrs. Wheelock will sail for Europe on July 1.

Lucy Marceux, who recently underwent a minor operation, is regaining strength rapidly.

Attending the firemen's convention in Boston, Wednesday, were Pierre J. Laramee, Acting Mayor George W. Hickey and Charles H. Beebe of the fire committee who motored there with Maurice S. Leonard.

William Jackson, son of County Detective and Mrs. William E. Jackson of this city is a patient at a Hartford hospital with blood infection and pleurisy.

Miss Lucille G. Harroun, daughter of Mr. and Mrs. James L. Harroun of North street and Miss Julia A. Lincoln, daughter of Allen B. Lincoln of Hartford and Willimantic, will sail, Saturday, for Europe, to visit the principal countries. While traveling there the two young ladies will take different courses.

Miss Barbara Forbes of Hartford, who has been visiting her aunt, Mrs. C. Harry Branch, of Summit street, is spending a few days with Miss Helen Clapp, in Norwich.

Mr. and Mrs. Edwin F. Cross of Prospect street celebrated their 22nd wedding anniversary at their home, Tuesday evening.

Midnight bathing has become an established and popular sport in this city, crowds motoring from the city to neighboring lakes and rivers to take an afterdark dip since the onset of the hot spell.

Mr. and Mrs. Clinton C. Helmold and children Richard, Charles and James and Mrs. Clara E. Helmold, will leave this week for their camp at Sebago Lake, Me.

Adjutant Daisy Whipple and Lieutenant Olive Coe of the local Salvation Army corps and Miss Effie Butler, returned recently, from New York, where they attended the commissioning of more than two hundred cadets on Monday night, this week. The exercises were witnessed by many. Miss Martha Chambers of Putnam was one of the cadets to be commissioned.

Miss Florence Sage, daughter of Mr. and Mrs. H. Sage of Windham, is spending a part of her school vacation with her aunt and uncle, Mr. and Mrs. Wallace Dougall of New Haven.

NERVOUS, RUN-DOWN MOTHERS

Worn Out Caring for Children and Housework—See how Lydia E. Pinkham's Vegetable Compound Helps

Indianapolis, Indiana.—"I was in a very nervous and run-down condition while nursing my baby, and hearing some talk of Lydia E. Pinkham's Vegetable Compound, I began taking it. From the second bottle I noticed a big improvement, and I am still taking it. I am not a bit nervous now, and feel like a different person. It is a great medicine for any one in a nervous, run-down condition and I would be glad to give any one advice about taking it. I think there is no better medicine and give you permission to publish this letter."—Mrs. ANNA SMITH, 541 W. Norwood St., Indianapolis, Indiana.

The important thing about Lydia E. Pinkham's Vegetable Compound is that it does help women suffering from the ailments common to their sex.

If you are nervous and run-down and have pains in your lower parts and in your back, remember that the Vegetable Compound has relieved other women having the same symptoms. For sale by druggists everywhere.

TROUBLED WITH ECZEMA YEARS

In Pimples Between Knee and Ankle. Itched Badly. Cuticura Healed.

"I was troubled with eczema for three or four years. It broke out in pimples between my knee and ankle and itched badly, especially at night. The irritation caused me to scratch and the scratching caused eruptions.

"I sent for a free sample of Cuticura Soap and Ointment and it helped me. I purchased more, and after using one cake of Cuticura Soap and three boxes of Cuticura Ointment I was healed." (Signed) Miss Alice Clark, Marshfield, Vt., July 16, 1923.

Keep your skin clear by using Cuticura Soap, Ointment and Talcum for every-day toilet purposes. Touch pimples and itching, if any, with Cuticura Ointment. Baths with Cuticura Soap and hot water. Dry and dust lightly with Cuticura Talcum.

Samples Free by Mail. Address: "Cuticura Laboratories, Dept. T, Malden 48, Mass." Sold everywhere. Soap 25c. Ointment 25 and 50c. Talcum 25c. Try our new Shaving Stick.

Willimantic **The H. E. Remington Co.** Willimantic

Offering our ENTIRE STOCK of Hart Schaffner & Marx and other High Grade Suits at

Great Price Reductions

$22.50	$29.50	$34.50	$42.50
FOR SUITS priced up to $30.00	FOR SUITS priced up to $37.50	FOR SUITS priced up to $42.00	FOR SUITS priced up to $50.00

Most Merchants clean up their stocks by giving you extra values at the end of the season.

We are going to start now by giving you the season end values when you need the clothes; When you can get a whole season's wear out of them.

It's been a poor Clothing Season—too cold to sell Spring Clothes and we find ourselves with too many Suits in stock so we've put a price on them that will move them. Our loss your gain.

We are making the same sweeping reductions in our BOYS' CLOTHING—All good clean goods, but we've got too many of them.

STORE CLOSED ALL DAY THURSDAY.

SALE STARTS FRIDAY MORNING

Willimantic **The H. E. Remington Co.** Willimantic

PERFECT IN ATTENDANCE FOR OVER ELEVEN YEARS

(Special to The Bulletin.)

Willimantic, June 25.—Miss Sabra S. Stoughton, daughter of Mr. and Mrs. John F. Stoughton, of 489 Pleasant street, who is a member of the senior class graduating from the Hartford Public High school, Thursday, has not been absent from school for 11 years and four months, thereby establishing a remarkable attendance record. During these years Miss Stoughton has graduated from the Natchaug Grammar school in Willimantic and the Commercial school in Norwich.

BACK UP BOSTON TRAIN TO PICK UP NEWLYWEDS

(Special to The Bulletin.)

Willimantic, June 25.—The 8.30 train for Boston out of Willimantic was held up here by Train Announcer Thomas J. Killourey Wednesday morning shortly after it had gotten under way when a bridal party drove to the station just a few seconds too late to allow the bride and groom, Walter Hornberger and Dorothy Millerd, to board the express. Announcer Killourey took in the situation at a glance and with rapid strides ran up the tracks, waving both hands. By chance, Conductor Barnes noticed him and at Jackson street the train was brought to a stop, and backed up to Main street crossing. Amid a shower of confetti the bride and groom hustled up the tracks and took seats in a coach.

PLAINFIELD

At the First Congregational church on Sunday, Clarence Winsor took charge of the Sunday school in the absence of Superintendent Cecil L. Butler, who has gone to Franklin, Me., with his family.

In the evening, Ralph Veit, who is at his home on his vacation, conducted the service, giving an interesting address on the Bible. Miss Lillian Heap was the pianist.

Mrs. Dencie Rosee of Warren, R. I., is spending two weeks in Plainfield, visiting her friends.

One of the earliest gardens in Plainfield is Herman B. Chapman's, and he is already enjoying greenpeas, having the first mess on Monday, the 23rd.

Marden Prentiss has taken a position with his uncle, in Windsor.

A pleasant surprise was given Rev. William C. Prentiss on Tuesday evening, when a large company of his parishioners left a June box at the parsonage door, consisting of a basket of fruit, berries and flowers, also a box containing valuable and useful gifts. The company was so large that all were invited to the vestry where a pleasant evening was spent in games and music, the music being furnished by an orchestra conducted by Harold Barstow. Ice cream and cake was furnished by the ladies. In a few fitting words, Mr. Prentiss expressed his appreciation of the kind recognition and pleasant fellowship.

Miss Helen Peterson and George O'Neil spent Tuesday in Norwich, making the trip by motor.

Reginald Leduc of State street has been confined to his home for the past week with an abscess in his lower jaw. He intends to go to St. Vincent's hospital, in Worcester, to be treated.

The children of the village were greatly disappointed today when they found that they would be unable to use the swimming pool in the Community house for a few days. Through some misfortune the refilling pipes of the pool have been out of order for a day and will not be mended until today (Thursday.)

All the radio fans of the town are busy tuning in on the democratic convention at Madison Square Garden. The weather prevented a great many from getting anything Wednesday night.

The Lawton mills are improving the property by painting the outer fence and the bridge over the railroad. They are planning on painting all the houses in both villages much to the joy of the tenants.

Harry Ainsworth of the U. S. N., stationed at New London, is home on a furlough of fifteen days.

Miss Celia Israel, former school teacher in the Plainfield grammar school, now residing in Willimantic, spent Tuesday with associate teachers in Plainfield.

Theodore Henault is spending the summer vacation with his uncle, Alfred Henault of Danielson.

The M. M. Girls club had a weinie roast at Reynolds farm, Tuesday evening. About 40 of the members attended. After the roast the crowd had an enjoyable evening playing cards and telling fortunes. This was the final meeting of the club until next September, so it was decided to end the year with a good time, the weenie roast being deemed the best outdoor attraction.

BEECHAM'S PILLS
Sweeten the Stomach

GOSHEN

Mr. and Mrs. A. J. Randall and Mr. and Mrs. C. H. McCall of Colchester attended the wedding of Miss Ethel Chapman, in North Haven, Saturday.

A curious incident happened on recent day at a farm where no bees are kept. The people at home thought they would investigate a queer looking yellow object on the dooryard fence and it was found to be a large swarm of Italian bees. A wooden cracker box was quickly secured for a bee hive and in a short space of time the bees seemed contented in their improvised new home. It is said a new swarm of bees in May, is worth a load of hay, in June, they are worth a silver spoon, in July they are worth a fly. Speaking about bees we are reminded of what the Indian chief once said with a smile. Hub, heap fine, white man makes flies work for him.

Many New York summer boarders are now beginning to arrive. A prosperous season is anticipated at Camp Mowegen and the large new building at the George Shillar place is nearly completed. Spacious accommodations are provided at the large new Grand Lake Hotel at Turtle Lake (Williams Pond), Exeter, at this farm 10,000 chickens are being raised for food, for the summer guests.

Farmers are heard to exclaim that the corn crop was never so backward. On a recent day one farmer was seen in the field hoeing while in an adjoining lot his neighbor was busy planting.

A large turtle was captured near Red Cedar lake, Monday.

The old fashioned white roses now in bloom are looking their handsomest, and there is the perfume of wild grapes in blossom by the roadside.

It was 102 in the sun the hotest of season, Tuesday, at noon.

E. W. Jones and W. T. Curry were among those attending the services for the masons at the Baptist church, Sunday.

Mr. and Mrs. E. Ray Manning and family were callers here Sunday afternoon.

The Ladies Aid Society will meet with Mrs. J. A. Randall on Friday afternoon.

WILSONVILLE

Mrs. Annie Morse and Miss Gibbons of Malden, Mass., spent a few days recently with Mr. Paine.

Mrs. Handy entertained his mother a few days last week.

Mr. and Mrs. Frank Wilson had visitors from Worcester one day last week, also her brother from Putnam.

School closed last Friday for the summer vacation.

Mrs. Ophelia Kelly who has been away all winter has returned to her home for a while.

COURT DENIES ORDER FOR THE SEIZURE OF LIQUORS

New York, June 25—(By the A. P.)—Federal Judge Knox today denied an order sought by officials of the Neptune Association of Masters and Mates directing federal district attorney Hayward to seize all liquors aboard the Cunard liner Berengaria.

The applicants for the order contended that the recently adopted treaty whereby ships of British registry may bring liquors into American ports under seal was unconstitutional. Judge Knox held that it was in accordance with the 18th amendment and did not conflict with the country's prohibition legislation.

Silas Axtell, attorney for the petitioners, said no further attempt would be made to prevent the departure of the Berengaria late today but declared that he probably would seek a warrant for the arrest of the vessel's master on charges of violating the prohibition laws.

MASTER OF RUM RUNNER FURNISHED $18,000 BONDS

New Haven, June 25—Charles Mitchell, master of the rum runner Sabina, recently seized in the sound and taken to New London, furnished bonds of $18,000 in the federal court here today on an indictment charging several counts of liquor law violation. The indictments returned by a grand jury recently, was made known for the first time. Among other charges it sets up that Mitchell was in conspiracy with Tom Craven and Albert Ehler, whose address was not given to bring liquor into this country.

What Is Going On Tonight

Norwich Stationary Engineers' Association, No. 6, meets in Buckingham Memorial.

Palmyra Encampment, No. 3, I. O. O. F., meets in Odd Fellows' Hall.

Lafayette Council, No. 207, L'U. St. J. B. of A., meets in Buckingham Memorial.

Women of Mooseheart Legion, No. 124, meets in Moose Home.

TODAY'S EVENTS

Centenary of the birth of Lord Kelvin, one of the greatest scientists of the 19th century.

Sir Robert L. Borden, former Dominion premier, celebrates his 70th birthday today.

The Chautauqua Assembly, at Lake Chautauqua, N. Y., today opens its 50th anniversary or golden jubilee session.

Copenhagen, Denmark, is to be the meeting place today of the Fifth congress of the International Union of Pure and Applied Chemistry.

Having devoted two days to preliminary work and speech-making, the democratic national convention in New York city is expected to begin its most important business today.

ANNOUNCEMENTS

PALACE THEATRE

The age-old fight of Chinese reactionaries against the progress of western civilization and the intrigue of an American man and girl to bring about the downfall of the girl's finance are highlights of the plot of Thundergate, a stirring drama of Chinese and American life which will be the attraction at the Palace for 4 days starting today.

The photoplay is based on Sidney Herschel Small's novel, The Lord of Thundergate. Many critics have acclaimed it the best photoplay of oriental life since East Is West.

Thundergate, a First National picture, deals with the striking resemblance of an American to the Chinese lord of Thundergate. Through extraordinary circumstances he is forced to masquerade as the lord and, in the guise of the Chinese, becomes involved in a series of exciting adventures culminating finally in the overthrow of the enemies of civilization and—romance.

Owen Moore enacts a double role that of an American engineer and the Chinese lord. The remainder of the cast is also made up of popular screen luminaries, incuding Sylvia Breamer Tully Marshall, Virginia Brown Faire, Robert McKim, Richard Cummings and Ynez Seabury.

Added attractions, Episode No. 1 The Telephone Girl with bewitching Alberta Vaughn, George O'Hara and an all star cast, Miss Vaughn's Burlesque of the Telephone operator can be described by only one word—rich Also Pathe Review and Palace supreme orchestra, overture La Dame Banche by Boieldieu

Four days starting Sunday Richard Bartheimess in Twenty One.

AT THE BREED

Strongheart, the wonder dog, starring in his latest First National picture at the Breed theatre, is proving one of the greatest attractions which has been shown in months in a local motion picture house. Since the release of his first picture, about two years ago, Strongheart has been one of the most popular stars on the screen, and his current production seems to hit the fancy of every one.

Perhaps it is because The Love Master is not a starring vehicle within the meaning of the description in motion picture circles. Strongheart is undoubtedly the leading member of the cast by right of the ability he displays, but the picture was not built up around him. The story is the main consideration, and because Strongheart has plenty of things to do and does them in splendid fashion he gains recognition as the star. But evidently he is not jealous, for he seems pleased to share honors with Mrs. Strongheart, registered in the American Kennel Club annals as Lady Julie, and five sons and daughters of his as well as an extensive human cast including Lillian Rich and Harold Austin.

Then there are many thrills. The picture has hardly started before the heroine is caught far from home and safety by a pack of famished wolves, and only the speed of Strongheart saves her.

A Charles Chaplin comedy and News completes this program.

Broadway Theatre

The patrons of the Broadway theatre will again have the opportunity to see a real fine show of vaudeville and pictures at the popular play house the last of this week, starting today.

Johnny Elliot and Girls is the feature attraction. It is a musical comedy extravaganza surrounded by a Broadway, N. Y. cast of beauties, consisting of five people. The play is entitled "The Dancing Sudio," which has a beautiful setting.

The Zylos will entertain with a fine musical xylophone offering.

A fast routine of singing, dancing and fun is offered by Mason and Dodora in Look Out.

Nick and Gladys Verga offer "The Italian Golfer." This consists of fourteen minutes of good fun and song.

The Guilty One, a mystery drama, featuring Agnest Ayres comes to the Broadway theatre for a run of three days today. It's a Joseph Henabery production, adapted from the stage success of the same name in which Pauline Frederick made such a hit in the leading role. Critics acclaimed it a masterpiece of suspense, and this same quality makes the motion picture even more absorbing.

You'll want to see the local colored boy, Mr. Mason of Mason and Dodora Born and brought up in Norwich, the boy has become a great favorite throughout the vaudeville field and will be sure of getting a big ovation from the local public.

Formerly with the team of Mason and Howard he played this city and made a hit. With his new partner he offers a great comedy act.

Go to the Broadway and give this favorite the reception he deserves Boost Norwich!

Broadway Theatre

"Many a criminal has been brought to justice through the power of gossip," says Mr. Brenon, whose latest Paramount production, "The Breaking Point," which opens a run of four days at the Broadway theatre, on Sunday contains a case illustrating his contention.

In "The Breaking Point," which features Nita Naldi, Patsy Ruth Miller, Matt Moore and George Fawcett, interest in a ten year old crime is renewed and the criminal eventuality brought to justice through the gossip of a neighbor who happens in this case to be Julia Faye. "The Breaking Point," was adapted to the screen by Julie Herne and Edfrid Bingham from Mary Roberts Rinehart's novel.

Cyril Ring, Theodor von Eltz, Chas A. Stevenson and many others just as prominent appear in the strong supporting cast.

Will Show Baptist Convention

At the Central Baptist church prayer meeting tonight slides showing pictures of the Northern Baptist convention recently held in Milwaukee, will be shown. This was the greatest convention the Baptists ever held and at the Sunday morning service will be the dedication of children.

DANIELSON AND PUTNAM NEWS

DANIELSON

If the town of Killingly wants to save some money on its highway work, it has the opportunity to do so by purchasing a motor-driven grader that was demonstrated here Wednesday before a representative of the board of selectmen and a small group of citizens, the demonstration taking place on North street.

It so happens that the town has two wornout graders on its hands and a third one that is of very little value. These are horsedrawn machines and cannot be replaced for less than $600 each. The machine that was shown here Wednesday costs $1350. Those who saw it in operation were a unit in declaring that it represents an opportunity for the town to save much money during the course of each year. Figuring the pay of the single operator that it requires, interest on the investment, depreciation and actual operating cost—for gasoline and oil—it costs from $9 to $11 a day to keep it at work. The horse drawn road graders cost the town of Killingly $16 a day, this for the four-horse hitches required to do such work. Incidentally, the motor-driven grader does from two to three times as much work as graders drawn by horses, depending on the conditions which must be faced, and does it better.

When one considers that there is approximately 100 miles of highway in Killingly that needs the attention of graders from time to time and when one looks at what it costs to do this work each year, one can be quickly convinced that the motor-driven grader can be made to save the town a substantial sum annually. Such a conservative citizen as Thomas Bradford was enthusiastic over the machine when he saw it working Wednesday and expressed his opinion that the town should have one without delay.

The machine is of unique construction with a well known type of tractor as the base on which it is constructed and from which its power is derived. It weighs four tons. It has an 8-foot blade that can be adjusted at any desired position and it can bowl along at the rate of 10 miles an hour if that much speed is desired.

It does everything that can be done with a horsedrawn grader and many things that cannot. Working for demonstration purposes on North street over a short stretch of roadway it turned in as fine a job as one could wish and in no time at all. It was remarked by an experienced road worker that it did everything but pick up the stones. It sheared off stones protruding from the roadbed, cut away roots and heavy turf at the side of the road and then smoothed off the entire surface of the road in a manner to delight those who take pride in good work.

The machine it was pointed out, can be used in the winter time for clearing highways of snow, though it is not represented that it would buck its way through some of the tremendous drifts that occasionally form hereabouts.

Wednesday's demonstration may or may not lead to the purchase of one of the machines. That is for the voters to say. The fact remains, however, that the town needs two new road graders of the horse-drawn type and these would cost as much, approximately, as one power-driven grader. The difference in the cost of keeping them at work has been mentioned. The one-man road grader looks like a great proposition and a money saver for the highway department of the town. They are in use throughout the state of Pennsylvania and in many sections in New York.

The man who can devise some plan under which the people of Danielson can enjoy open air bathing without going miles from the borough to do so, will have a fine money-making proposition. Moosup pond and Old Killingly pond at East Killingly are the nearest available bodies of water now for borough people who like to swim. Alexander's lake, supplying water to the people of Goodyear, and Quinebaug lake, now a reservoir for Wauregan, are closed to bathers. The waters of the Assawaga river and the Quinebaug river, flowing through Danielson are both dangerous and polluted, so hold no attraction for bathing purposes. One suggestion heard Wednesday was that it might be possible to build some sort of open air municipal swimming pool, but the suggestion was without detail. The fact remains that Danielson people have to go a long way nowadays to enjoy a swim.

Pure milk from accredited herd delivered daily in Danielson. We solicit patronage. L. B. Williams, Brooklyn, Tel. 126-12.—adv.

The Danielson Rod and Gun club has issued its notices relative to the two shoots to be held on the Fourth, the first of these at 9 o'clock a. m., and the second at 2.00 p. m., standard time. These are to be 50-target events. Under the plan worked out for handicapping, a poor shot has an equal chance with a good shot to win out. The club also is stirring up interest in the special trophy shoot for strings to be completed on or before August 31. A sliding handicap system is used in arranging for this event.

This is the last week until September during which store forces will have to get along without a weekly half-holiday. Next week brings the Fourth, a full holiday, so Thursday half-holiday will be taken next week. But on the following week the Thursday half-holiday schedule will begin and will continue through the months of July and August. For this respite from the regular run of their duties the clerks will be duly grateful.

Senator Walsh, as permanent chairman of the democratic national convention in New York, addressed numbers who occupied radio seats in Danielson Wednesday morning. Not only did these auditors hear practically everything the senator said, notwithstanding the static interference, but also caught the full crash of the shouting and cheering and the blare of the band. It was not hard to believe that it was a democratic convention hitting on all six. Distinguishable in all the tumult was the far famed "rebel" yell as the band played Dixie. The radio demonstrated again that it has the power to make one wish one were in the midst of things, even though the announcer put stress on the fact that it was tremendously hot down in Madison Square garden.

Those interested in town affairs will remember that a special town meeting is called for this afternoon to consider a proposal for an additional appropriation for highway work.

A load of dirt dumped in the depression between the rails at the Franklin street crossing by the New Haven road has eased off the cussing about that particular crossover, in bad condition for several weeks.

Mrs. Del Morrison and son, Robert, of Oakland, Cal., after visiting here with Thomas Bradford and other relatives have gone to other points they are to visit in the east. They were 20 days making the trip east to Danielson in their motor cars.

Henry H. Crowell is at his home in North Sterling after motoring across the country from California.

Some relief from the intense heat of the past few days came Wednesday afternoon when a thundershower lowered the temperature. The water was welcome in thirsty garden plots.

John W. Gallup and F. E. Bitgood left Wednesday afternoon for New York, where many other democrats from all parts of the nation are doing a bit of business this week.

At the semi-annual meeting of the directors of the Danielson Trust company a regular dividend at the rate of six per cent., per annum was declared and also an extra semi-annual dividend of 1 per cent., as was done at the close of the previous six months of business.

Temperatures as high as 90 degrees were recorded by thermometers about town at noon on Wednesday, the fourth day in a heat session that began on Sunday.

The Danielson Building and Loan association will issue its 18th series of shares with the coming of July. The association has been succesful since its inception.

Samuel A. Carter of Providence was a visitor with friends in Danielson on Wednesday.

Numbers of the Danielson members of Putnam lodge of Elks have planned to be in Boston next month for the grand lodge session of the order.

A dump and pond hole on upper Mechanic street serves, in a measure, to answer the question—Where do the old automobiles go? There are bodies and other parts of upwards of a score of machines in the dump.

N. L. Dube, a registered pharmacist employed here for several years, is to leave soon to take a position in his old home town—Suncook, N. H.

H. H. Starkweather and Mr. and Mrs. Byron Starkweather have returned from a visit with Mrs. Bertha Starkweather Cook, at Townsend.

Next Tuesday, July 1, brings the opening of the bass fishing season in Connecticut waters. Alexander's lake is one of the bodies of water where fishing will be allowed on Tuesdays Thursdays and Saturdays of each week.

PUTNAM

A brand new "Flivver" over the garden wall upside down, four young men underneath, no one hurt but Miss Lizzie. That is the tale in condensed form of an accident that happened up on Wilkinson street, Tuesday evening. The new Henry F., was owned and operated by Herbert Mansfield of Boston and with him was Edward Hedwig also of the Hub of the Universe; the other two members of the quartette were new arrivals in Putnam.

The four men are working in Putnam temporarily on the new Salvation Army headquarters on Union street. Mansfield was going to show the new comers a bit of Putnam and environs scenery from the interior of his new car. The party had not proceeded an eighth of a mile when the trip came to a sudden end in the garden in front of the residence of Mrs. William Hughes less than two blocks down the street from where the sightseers embarked.

The new car had a new locking device of some kind and there was proof positive that it locked. It was due to its locking unexpectedly that the ride was not taken as planned.

When the device locked the steering gear the car was headed for a wall about four feet high on the Hughes place. The car went over the wall and turned over. The sightseers were beneath the car but it was partially held up by the brand new top and the four young men were able to crawl out. No one was injured. The car's top was suffering from fractures and lacerations and the body was suffering from contusions and abrasions. An S. O. S. to a repair man brought a wrecker and the car was towed back to its own garage and left for the night.

Mrs. Samuel K. Spaulding is confined to her home at the corner of Grove and King streets with a broken hip. Mrs. Spaulding occupies the house alone since her husband's death and when a friend went to call upon her and could get no response, entrance to the house was gained through the cellar and Mrs. Spaulding was found lying on the floor. Mrs. Spaulding fell to the floor in her bed room early in the morning and it was some hours later before she was discovered. A doctor was summoned, the fracture was reduced and she was placed in bed. Mr. Spaulding, a veteran of the Civil war and for many years a teller in the First National bank, died about 15 years ago.

Announcements have been received of the marriage Tuesday at noon in the Gary district of Miss Ernestine T. Davis, daughter of Mr. and Mrs. Everett A. Davis, and Elmer H. Franklin of Putnam. Mr. and Mrs. Franklin left by automobile for a wedding trip after which they will reside in a new bungalow they recently built near the Gary school house.

The families of John M. Dean and William E. Wheaton are occupying cottages at Pleasant View for the summer. Mrs. Wheaton and Mr. Dean will go down for week ends.

Carl T. Kent, son of Mr. and Mrs. E. B. Kent, Grove street, formerly manager of the Putnam telephone exchange, but transferred about two years ago to the Meriden exchange, has been elected president of the Lions club of Meriden.

Attorney Charles L. Torrey, member of the state board of education, attended a meeting of the board at the state normal school, Willimantic, Wednesday.

Thomas Wheaton will leave next week for a trip to the middle west where he will visit relatives. His trip will take him as far west as Arizona before he returns to Putnam.

There will be a large gathering at the Municipal building at nine o'clock this Thursday morning when Harvey LeClair, Walter Scott, Irene Foster and Nellie Jacques will be arraigned for trial. Since the first arrests were made counts of a serious nature have been added to the complaints against the Foster woman and Scott. The arrests followed a liquor raid two weeks ago at a house on Pomfret street, which the state claims was run by the two men, with the women as frequenters.

One passing the large plant of the Manhasset Manufacturing company may hear the fair whirr of machinery at the south end of the big mill. One small piece of shafting may be seen revolving driven by an electric motor. While rumors that the plant is to be operated in the near future have come to an end, it is now rumored that experimenting with rehabit is now going on. Nothing definite can be learned as to the future of the large plant in this city for the interest into whose hands it came following the liquidation are in Rhode Island. From the long silence after the persistent rumors that machinery was on the way and would be installed and the plant operated, the future of the mill as a means of furnishing employment to Putnam operatives does not look as bright as it did some weeks ago although the more optimistic still hope that plans are underway for operating the plant.

The East Village Cemetery association has been organized in the town of Woodstock with the following officers: President, Chester E. May; vice president, M. M. Gifford; secretary, Mrs. Alice White; treasurer, A. G. Morse; directors, L. J. May, H. J. Potter, Dr. Robert Paine. By-laws of the association are now being drafted.

Superintendent of Streets, Frank Dumas, as stated, has erected a fence at the top of Tillitson street. This will prevent any vehicle entering the street from Wilkinson street. The street cannot be entered from School street as there is a flight of stairs at the bottom of the hill. This makes the street safe and unusable by any except pedestrians, for whom its use is intended.

Funeral services for Alvin Webber, 88, who died at his home in East Woodstock, Sunday after an illness of several weeks, were held Wednesday afternoon at two o'clock, Rev. H. D. Baker officiated. Burial was in the Center cemetery.

Mr. Webber was born in Holland, Mass., when a small child he contracted a severe cold following which he was left a cripple. Although thus handicapped he worked and supported himself and was always cheerful. He was never married and made his home with his sister, Mrs. Alice Johnson, where he led.

Besides his sister he leaves a brother, Freeman Webber of Boston; also two nephews, Arthur Dodge of East Woodstock and Albert Dodge of Worcester, and two nieces, Mrs. Luther Place and Mrs. Bennie Farrows, both

Clerk E. M. Warner of the superior court and Mrs. Warner left Wednesday, for New London, where they will spend several days at various beaches.

The Cradle Roll of the Congregational church met at the church Wednesday afternoon. Mite boxes were opened, the children played games and light refreshments were served.

Mr. and Mrs. Herbert Miles and children will leave the first of next week for a week's stay at a camp in New Hampshire.

Miss Mary Wheelock, accompanied by Miss Etta Hodges of Summerville, Mass., will leave the first of next week for a trip to Canada.

Putnam's day police force, all but Captain Jarvis shed its heavy blue uniform coat and appeared in a white shirt and white hat, Wednesday. This summer attire was adopted last year by permission of the mayor and members of the common council who felt that there was no need for a police officer to go about with coat tightly buttoned with the mercury crowding the 100 mark. The Captain was seen mopping his brow Wednesday afternoon, while he looked upon the coolness of his subordinate. It is expected that Captain Bill will bring out his white shirt from its winter quarters, before the year is very much older.

The summer courses at the Putnam state trade school are being well attended. There is a large enrollment of girls in the home economics department as well as boys in the trades departments.

The carpentry department boys are engaged in putting in a store front front on a building on School street. The work was designed and drafetd by the carpentry boys and they are doing the actual work.

Two boys have recently graduated from the machine department, having finished 4800 hours work. One of the boys, Harry Morgan, has already accepted a position. The other graduate is Alfred Gallart.

John Davis, who recently graduated from the high school cooperative course, has accepted a position with a local manufacturing concern.

Rhode Island legislators who have fled the state and are staying in a hotel at Rutland, Mass., came near taking up their temporary abode in the town of Thompson. It has become known that men seeking quarters for the solons first came to Putnam and after obtaining some information looked over a farm in the adjoining town. Apparently they looked further and were better satisfied with the quarters that the Massachusetts town could provide.

Putnam's headquarters company of the 43rd division has now been fully outfitted except for side arms. Being a headquarters company the member of the company do not carry guns but wear revolvers strapped in holsters. James J. Charron, supply sergeant, has issued the following equipment to each member of the company:

One service belt, one pair breeches, O. D., two pair cotton breeches, one coat, O. D., one cotton coat, one hat cord, one service hat, two pair russet shoes, slicker, two flannel shirts, one pair flannel leggings, mess kit, canteen, cup and cover, cartridge belt, first aid packet and pouch, haversack, pack carrier, shelter half, tent pole, five tent pins, two blankets.

SOUTH WILLINGTON

Miss Hazel Taylor of Somersville is visiting for the summer with Mr. and Mrs. John Richardson.

Roy Jones of Detroit, Mich., is the guest of Mr. and Mrs. R. T. Jones.

The graduating class of the Willington school, accompanied by the teacher, Miss Mildred Amidon, and Miss Annie Service, went to Hartford on Wednesday of last week, visiting many places of interest. They attended the Capitol theatre in the evening.

Mr. and Mrs. Stephen Davis and daughters of Willimantic were recent visitors at the home of Mr. and Mrs. E. J. Mathews.

The Daily Vacation Bible school, which is to be held here this summer, will begin the second week in July and will be in session five days a week for three weeks, from 9 a. m. to 12 m.

Mrs. James Service was re-elected president of the Tolland County W. C. T. U. and Mrs. Elmer J. Mathews re-elected secretary at the annual convention recently held in Rockville.

Mr. and Mrs. H. W. Woodworth and Mrs. Mary Woodworth of Detroit, Mich., and Miss Dorothy Dawson of Canada are guests of Mr. and Mrs. Charles Pierpont.

Plans are under way for a Fourth of July celebration to be held here. The committees are at work, and it is hoped that they will receive the support of all the townspeople.

Miss Frances Hall is attending the students' conference being held this week at Northfield.

Mrs. W. H. Hall and Mrs. Clara Potter spent Sunday at Northfield, Mass.

Mr. and Mrs. John Richardson were recent guests of relatives in Hartford and Somersville.

The mother and daughter banquet held last Tuesday evening in Social hall was well attended. The speaker of the evening was Mrs. Pryor of Jewett City.

Mr. and Mrs. William Moriarty of Hartford were week end guests of Mr. and Mrs. Thomas Moriarty.

Mr. and Mrs. Charles Chaplin of Worcester are the guests of Mr. and Mrs. Carlos Gurley.

Miss Elizabeth Green is visiting at the home of her brother, Cornell Green, Jr., of Colrain, Mass.

Mr. and Mrs. R. Linden and children and Mrs. Jennie Banda of Chester, Conn., were week end guests of Mr. and Mrs. John Fiala.

The Junior Y. M. C. A. ball team will play a team from Stafford Springs here Saturday afternoon of this week.

On Friday evening of this week an informal reception will be given Rev. Mr. and Mrs. Edwin Sundt in Social hall at 7.30 p. m. Invitations have been extended to all.

Mrs. Elmer J. Mathews attended a meeting of the central committee of the Tolland County Sunday School association at Stafford Springs last week.

Miss Josephine is visiting with Mr and Mrs. Carl Goodman of East Hampton.

NIANTIC

Nehantic chapter, O. E. S., received an invitation to visit Charity chapter of that order Tuesday evening. Many of the local members made the trip.

The Black Point club met Tuesday afternoon with Mrs. J. O. Manwaring of the Point road.

Niantic lodge, No. 17, I. O. O. F., met Wednesday evening at the lodge room.

The auxiliary to St. John's Episcopal chapel met Wednesday afternoon with Mrs. William P. Corgley of East Main street to sew for their August sale.

Rt. Rev. Chauncey B. Brewster, D. D., bishop of Connecticut, was the guest of Attorney and Mrs. Marion R. Davis Sunday. Bishop Brewster confirmed a class at the Connecticut state farm for women in the afternoon.

Attorney and Mrs. William E. Egan of Hartford spent Sunday with friends in the village.

Mr. and Mrs. Charles F. Kramer have returned to their home in Brooklyn, N. Y., after a week end visit to their Pine Grove home.

Earl Northrup of Rockville spent the week end with friends in the village.

Godfrey M. Day of Hartford spent Sunday with his uncle, Richard J. Beach, at Riverside.

Mrs. Cyril C. Clark has taken a suite of rooms in the Congregational parsonage.

Mr. and Mrs. Elford Rogers and Miss Eleanor Rogers of the village and Worthington Hills of Hartford motored to Portland, Me., on an extended trip.

Recent guests of Mrs. Susue E. Coroley of East Main street were her daughter, Mrs. Frank J. McCarthy and daughter Marietta of New Haven, her brother, Edgar Stoddard, of New London, Mr. and Mrs. Wesley Slate and Mr. and Mrs. William Nott of New London.

Nehantic chapter, O. E. S., will entertain Charity chapter, O. E. S., at their meeting this (Thursday) evening. It is hoped there will be a good attendance of local mmbers, as this meeting will be the final session until fall.

Miss Jean Kirk of New London was a recent guest of her sister, Mrs Benjamin Sargent, at Riverside.

Donald Smith of New London was a recent guest of Supt. James Metcalf at the Pine Grove farm.

Mr. and Mrs. Walter Rogers and son Clifford of Flanders road motored to Saybrook Sunday and called on relatives.

NORTH LYME

Misses Marion Stark, of Boston, is home for the summer vacation.

H. A. Gates and family and Charles Porter, of Little River, visited at G. H. Strong's, Sunday.

Miss Henrietta Gates is spending a couple of weeks at G. H. Strong's.

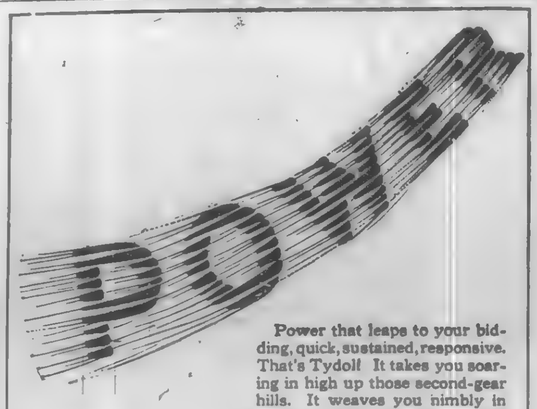
The Woman's Mission Circle met with Miss Emily Stark, last Thursday.

Miss Julia Chapel is spending a few days this week at the home in Saybrook.

Alpheus and Franklin Nye of Fitchville, and Merrill Babcock of Meriden visited at George Babcock's, Sunday.

Miss Dorothy Sisson is visiting at the home of M. J. Stark for several days.

When pugilists begin to use soft answers the chances are they will fight.



Power that leaps to your bidding, quick, sustained, responsive. That's Tydol! It takes you soaring in high up those second-gear hills. It weaves you nimbly in and out of the city's cluttered traffic.

For power with pep, a punch, a thrill—Tydol. You'll be thankful for a tankful.

For full Tydol economy use Veedol motor oil.

The World's Largest Producer of Quality Automobiles

TOURING CAR
$1750
f. o. b. factory

THE Big-Six Touring is a seven-passenger car—not merely a seven-passenger body mounted on a five-passenger chassis.

It was designed and built for seven-passenger service—with a motor of ample power and stamina for seven-passenger satisfaction.

Then, too, with the auxiliary seats folded away, the Big-Six becomes the most desirable five-passenger car in which you have ridden, with room enough for all the luggage you will ever need.

Big-Six appearance is attractive, distinctive, and in good taste. Its performance, acceleration, flexibility and dependability are known and respected the world over.

No car, regardless of price, surpasses it in quality or completeness of equipment.

If a smaller manufacturer or assembler were to build the Big-Six—of equal quality and workmanship—his price would be $3,500 — perhaps more.

But Big-Six overhead is distributed over six times as many units as are built by any Big-Six competitor, hence Big-Six cost and selling price are surprisingly low.

Don't buy blindfolded. Examine, ride in and drive the Big-Six before you buy any other car.

NEW SCHOOLS.

[illegible] town meeting the [illegible] evidenced their [illegible] schools of the town. There appears to have been a division of opinion as to what should be done for the chief of the situation at [illegible] town, but the majority was [illegible] plan of a centralized [illegible] the proposition received the school board leaves unchanged. Norwich [illegible] from crowded conditions [illegible] provision for the [illegible] here at the present [illegible] it does not appear [illegible] people were unwilling [illegible] the fact remains [illegible] has been [illegible] the situation [illegible] of the problem [illegible] facilities. The [illegible] said to be [illegible] to be general [illegible] question has been [illegible] to the [illegible] school, but no [illegible] been given to the [illegible] to do any such thing and [illegible] meeting failed to express [illegible] vote upon that question. Norwich Town is concerned [illegible] tion is just the same as it [illegible] the meeting was held, except the plan of abandoning the [illegible] in that section and [illegible] the children to a new one [illegible] be modern and would cost [illegible] 000 is not favored. Because [illegible] the present schools going [illegible] overcrowded and some of [illegible] unprovided for?

[illegible] the East Side there was [illegible] opinion. The need of [illegible] and was recognized and [illegible] and the [illegible] promises which it has [illegible]

REMOVE THE DISLOYAL.

[illegible] attention has been attracted to [illegible] holdup of the mail [illegible] which resulted in [illegible] off of money and securities [illegible] the mail aggregating over [illegible] million dollars. The capture of some of those involved and the recovery of a considerable portion of the loot brings some satisfaction, but [illegible] that the whole affair [illegible] something further in the way [illegible] probes. It cannot be believed that a holdup crew were lucky [illegible] stumble upon such a quantity [illegible] on that particular train [illegible] particular night.

[illegible] the government is conducting [illegible] details involved and when it is stated by the first postmaster general that there are men in the postal service who are working [illegible] outside with a view to [illegible] about just what happened. He established that fact through investigations it is to be expected that the department will be able to act in such a manner as to drive such individuals from the service, if in fact it is not able to actually connect them with the crime.

Certainly the postoffice department is no place for criminals or those who are serving as stoolpigeons for robbers. That such should be called traitors by the first postmaster general is branding them none too severely. In the operation of this great department much reliance must be placed upon the individuals. Efforts are made to see that the employes are fit as to honesty as well as to ability, but the postoffice department occasionally has the experience of other organizations in getting some who are unable to resist temptation, those whose moral qualifications change from good to bad and when such cases are disclosed it is evident that there is no place for them in the postal service.

The elimination of all those who are disloyal to the department is by no means too radical a move to make for the protection and betterment of the service. The work may be carried on without reference to the recent robbery, but in that instance any postal employes involved should be brought to justice with the robbers.

A TIMELY HOUSECLEANING.

A few weeks ago much criticism was raised because a New York magistrate serving in the traffic court dismissed a case against Miss Rockefeller after she had been arrested for the second time for driving at excessive speed. It was a case which quickly brought forth the charge that she had been treated differently than others would have been because of her prominence and the family wealth. Whether there was any justification for such a claim, it is of course a fact that while a judge is expected to exercise his discretion in dealing with the cases that come before him there is no reason why any different treatment should be accorded Miss Rockefeller, who by the way didn't appear in court, than would be done if another were charged with the same offense.

That it was a case where partiality was shown is now indicated, by the fact that the magistrate has been censured by the chief magistrate and relieved of his duties in the traffic court. But it is further disclosed that there was a combination involved in this affair from the summoning before the board of magistrates of the clerk of the court, under a charge participation in the alteration of the records, and the dropping from the force of the police lieutenant who actually altered the records so that the first instance of violating the speed law was made to look as if it did not count against Miss Rockefeller.

Whether the Rockefeller influence was at the bottom of the matter or not, it must be considered fortunate by New York that the operations in that court were disclosed as soon as they were. Dispensing justice in such a manner does not operate to bring respect for the law. It is a serious situation when there are some who can snap their fingers at the law and do as they please just because there is pull and what goes with it, while others are expected to walk the chalkline. The housecleaning that has taken place in the traffic court was apparently needed. It should have a wholesome effect upon any other instances of the kind in the big city.

AMERICAN PARTICIPATION.

Prepared to accept American participation in any manner which this country sees fit to provide, the allied nations will be pleased at the announcement that has been made at Washington that Ambassador Kellogg will represent the United States at the allied conference next month in London.

The conference looks to the settlement of the European situation through the adjustment of the reparations question along the line suggested by the Dawes report. This country does not regard itself as sponsor for that report. It is nevertheless interested in it and desirous that the benefits of it be obtained by Europe. It is therefore prepared to lend what assistance it can at the coming conference to the bringing about of a common decision.

The need of the improvements which should result in Europe through the compliance with the provisions of the Dawes report has long impressed those who have watched the situation from a distance. That those directly involved are prepared to get together for the purpose of united action is at least hopeful. Furthermore there is satisfaction in knowing that the hoped for unity of action promises to hasten the compliance on the part of Germany, which likewise is well impressed with the constructive features of the Dawes report and the aid which it holds out for that country in the present predicament.

The participation of this country in the coming conference is only what should be expected. We are ready to lend our influence toward an adjustment that is found to be beneficial to the entire world.

WRANGEL ISLAND.

Time and again it has been stated that Wrangel island isn't worth fighting for. Probably there are some who consider it isn't worth trying to live on, but if it is so that an American schooner has set out from Alaska for the purpose of planting thereon the American flag and claiming it as American territory the island may yet prove to be properly named.

Wrangel island is apparently one of those pieces of land in the arctic that provides something to talk about. Stefansson has maintained that the only use to which it could be put would be as an air station for airships crossing the polar region. That, as far as can be imagined now, is going to mean precious little use whatever flag may be flying there.

It will be remembered that Stefansson has been desirous of heading an expedition that would claim the island for Canada, and that he has failed to get the backing that would permit him to carry out the plan. Only the thought of someone else laying claim to it arouses interest therein, and even then those who could never see any value there and could advance no reason for making any sacrifices to get it will not be impressed by any expedition with such a purpose in view.

There are those who have given up their lives on the island in an effort to live there. Claiming the island involves no little sacrifice and it remains to be seen whether those who have set out for such a purpose, if the report to that effect can be accepted, are willing to see it through. If no one else wants it its acquisition cannot be very important, and certainly those who have refused to undertake the claiming of it cannot feel very badly at the thoughts of others making a try.

EDITORIAL NOTES.

Dark horses don't seem to have changed color in New York.

The man on the corner says: These coal saving days are not fully appreciated.

Who is going to determine when Rhode Island will be safe for the return of the gassed senators?

The iceman smiles but he knows the summer is never so cool that he can get through it without sweating.

Think what might happen in New York if there was an attempt to wind the convention up in three days.

From the reception he gets one might get the idea that William Jennings Bryan was being groomed for another race.

If at first you don't succeed, try, try again. Lieut. Maughan who crossed the continent in a day is a successful follower of the old adage.

Even though there are so many berries they are giving them to the pickers in New Jersey, have you felt the effects of the huge supply?

When bags are made with devices for preventing bottles upsetting, thoughts are at once turned to shaving lotion, Florida water and perfumery bottles, of course.

The fact that the debt of the country has been reduced a billion dollars during the fiscal year ending this month will not escape the attention of the country's tax payers.

Frequently it is the case that bad as a legislature may be it is possible to point out one somewhere else that is worse. There doesn't appear to be any such solace for Rhode Islanders.

THE STORY OF THE LONELY HEART

"Does this Gander order really mean so much, Mr. Knight?" Elinor stopped in the middle of the dictation.

The young man turned his blue eyes full on her. They were dreamy eyes, with little flames dancing in them now. "More," he told her slowly, earnestly, "than you can ever guess. It means that I can ask the girl I love to marry me."

Elinor started, her heart began to thump. What did he mean? Could he possibly mean—she hastily got back to earth. "Then she suggested timidly, "wouldn't it be better to see this Mr. Gander personally, since it means so much?"

He shook his blond head dismally. "Tried that — waited hours — he wouldn't see me. My luck, of course. One of his children got sick—you know he has six. Gander's goslings, people call them."

"A man with six children is generally kind. Perhaps if you explained to him how dreadfully you need this order—that so much depends upon getting it. . ."

"How can I, when he won't see me?" irritably. "You know what a one-horse affair this business is. You've been here long enough and goodness knows, you've done your best. I don't know what I'd have done without you, Elinor."

She flushed. "I've loved to do it; I only wish we could have developed a big, hustling trade!" with shining eyes.

"And how I wish it, too!" he echoed fervently, with a sigh. "These years of waiting, hoping and never realizing. Do you know," and his face grew grim, "if I don't get this order I'm through!" He looked at her intently.

"You mean," asked Elinor steadily, but with an effort, "that then you won't ask this girl you love to marry you—that—that—you will try and forget her simply because you have no money, nothing to offer her? Did it ever occur to you that she might be lonely, tired of waiting, that she could help you to success?"

For a second his eyes shone, and then, "I doubt it—I'm not even sure she loves me, but I love her too much to bring her into poverty."

After he had gone Elinor remembered. The woman who could help him was Mabel Drew, the wealthy girl his mother made him escort to parties!

Are You Discouraged?
(Copyrighted)

Bedford Had to Start Over Again.

Given all the advantages of a higher education in this country and Europe, Alfred C. Bedford had to hunt for a job, got a wrong start, and had to begin over again.

His mother gave nearly all her time to teaching him and his brother and after he was graduated from Adelphi College, Brooklyn, he studied in England, Germany and Switzerland.

His schooling completed when he was 18, he had no set purpose in life, and he hunted for work in New York. A friend offered him a place as stock boy with E. S. Jaffray & Company, wholesale drygoods dealers. Bedford enthusiastically started to work, but soon found that he was not fitted for the drygoods business and without any other position in sight, he had to remain, often working 14 hours a day.

Finally, his father's friend, Charles Pratt, offered him a position in the Bergenpoint Chemical company, a subsidiary of the Standard Oil company. His first task was to compile a statement and not knowing bookkeeping, he could not balance the account until told he had forgotten to add the cash. Then he studied bookkeeping at night.

Pratt gave him other duties and gradually turned over to him most of his affairs, including the holding of offices in other concerns. Then Pratt's son took charge of the oil concern and Bedford was made his assistant, but later was chosen manager.

When 42 Bedford was elected a director of the Standard Oil Company, the first man ever on the board that was not an oil expert. As junior director his duties were heavy but the panic of 1907 made them almost heartbreaking.

When the government started its dissolution suit of the company, Bedford had to help prepare the data for the defense and when the dissolution was ordered he, now treasurer, had the task of disentangling the funds of 33 companies without interrupting business.

Next he was vice-president, then president of the Standard Oil Company of New Jersey, the parent company, and in 1917 was made chairman of the board of directors. Today, at 59, he retains that position at a salary of $125,000 a year.

Tomorrow—Heinz, the Horseradish Peddler

IN THE PUBLIC EYE

Gabriel Hanotaux, who has been named to succeed the late Senator d'Estournelles de Constant as member of the Permanent Court of Arbitration at The Hague, is an eminent statesman-author who has held many high posts in the public service of France. At present he is France' member of the League of Nations council, a position for which he was well qualified by years of experience as the French minister of foreign affairs. For his history of Cardinal Richelieu he was elected a member of the French Academy. He is eminent as an archaeologist as well as an historian. French journalists have called M. Hanotaux "a child endowed by the fairies," for his eminent success as an author, statesman and diplomatist is most amazing in view of his humble parentage and the extreme poverty of his early youth. M. Hanotaux is known personally to many Americans, having visited this side some years ago as head of the French mission to the Champlain tercentenary celebration.

Today's Anniversaries

1779—John Paul Jones was selected by congress to command the "America," then on the stocks at Portsmouth, N. H.

1815—George W. Flagg, celebrated historical painter, born at New Haven, Conn. Died at Nantucket, Jan. 5, 1897.

1825—The first Presbyterian church in St. Louis was consecrated.

1841—The remains of President William Henry Harrison were removed from Washington for final burial at his old home at North Bend, O.

1848—The great crevasse in the levee of the Mississippi river near New Orleans was stopped.

1866—Military revolt in Madrid in favor of General Prim suppressed.

1900—Edict issued at Peking virtually declaring war on all foreigners, and ordering their expulsion.

1921—Lloyd George invited the Sinn Fein leaders for a conference.

1923—President Harding spoke at Salt Lake City on national thrift and debut reduction.

Today's Birthdays

Sir Robert L. Borden, former premier of the Dominion of Canada, born at Grand Pre, 70 years ago today.

Thomas W. Miller, United States Alien Property Custodian, born at Wilmington, Del., 38 years ago today.

William H. Robertson, United States consul-general at Halifax, N. S., born in Bottecourt county, Va., 61 years ago today.

Frieda Hempel, celebrated operatic soprano, born at Leipsic, Germany, 39 years ago today.

IN THE DAY'S NEWS

BANGKOK

"Bangkok, capital of Siam, and only stopping place in that country scheduled for the American round-the-world flyers, is in location the New Orleans of the East," says a bulletin from the Washington, D. C., headquarters of the National Geographic Society. It is in the delta of the Menam River—"the Mother of Rivers,"—and dominates that stream as the Crescent City dominates the Mississippi.

"In a sense," says the bulletin, "it may be said that 'Bangkok in Siam' much more truly than Paris may be said to be France or Buenos Aires to be Argentina. In a country of 9,000,000 inhabitants it is virtually the only city. Its population is more than half a million, so that it is roughly the size of San Francisco and has nearly 100,000 more people than Washington. About it lie Siam's richest rice lands; to it come on the one hand boats laden with the products of the country, and on the other ocean-going vessels to unload imports and load exports; and from it in turn are distributed the supplies for the interior.

"In Bangkok the king and his court live and there is operated the machinery of the country's highly centralized government. The capital has become in the eyes of the king and his people a symbol of Siamese power, and millions of dollars have been spent to beautify it and make it in many ways a convenient, modern city drained and cleaned, sparking with electric lights, dotted with spacious parks, and crossed by streets in which the clang of tramway gongs and the chug of motor cars are common sounds.

"Though Siam is a tropical country, lying in the same latitude with southern India, thanks to pleasant breezes it does not experience the extremes of heat known to the Indian plains. In Bangkok the heat during the dry season seldom exceeds 100 degrees Fahrenheit in the shade. In the sun it is much warmer and paper parasols are seen everywhere.

"Little or no clothing is worn by the small children among the Siamese in Bangkok during most of the year. As the children approach school age both boys and girls don the panung, the universal garment of the country. It consists of a length of cloth wrapped about the hips, the lower edge extending to about the knees. The end of the cloth is thrust between the knees and hitched up behind, so forming a sort of a cross between kilts and knickerbockers. The coolies often wear nothing above the waist, but the costume is completed for others by the addition of a jacket for women and a European type coat for men. Many of the young girls and women wear above the panung upright colored sparks wrapped about the breast.

"Half a century ago Bangkok was called 'The Venice of the East' and fully deserved the title, for almost all transportation and movement about the city was by the river or the numerous lateral canals. Even now, although streets and highways have been built, bridges constructed and tramways laid, the waterways are still of transcendent importance in the life of the city. This is especially true during the rainy season when the streams are flowing full and contact may be maintained by water with the northern part of the country. A continual stream of heavy rice boats brings its freight of grain to the city's rice mills and merchants, and great rafts of teak logs float in from the hill country. In the center of the stream are anchored vessels from foreign ports with a swarm of lighters busy about them.

"As in many Chinese rivers houseboats line the shores of the Menam at Bangkok, being tied in tiers four and five deep in places. In these habitations thousands of the families of the city live year in and year out. Many such houseboats are shops. The river is their street and by them passes an ever-changing procession of small craft—launches, houseboats on the move, barges, passenger boats, the laden boats of farmers en route to market, priests' boats and the canoes of individuals on shopping expeditions or bound abroad on other business. Even small children paddle around in tiny canoes, or splash about in the water, able to swim at an early age. The typical Siamese may truly be called amphibious.

"The King of Siam, theoretically an absolute monarch, has greatly westernized his country. Official advisers from America and Europe reside in Bangkok and take important parts in the conduct of the government. Like the Japanese, the Siamese have sent out promising young men to be educated abroad and to bring back new ideas. An American who lived in Bangkok for a number of years reports that the Siamese officials seem partial to things Italian. They have reasoned it out this way: Roman culture and the Renaissance are among the most important factors that have influenced the western civilization. Italy is the fountainhead for both factors; therefore should go to Italy for their ideas."

Stories That Recall Others

No Cream

A lovely little woman about 70 years old who has recently moved into town from the country was visited by her son from the big city of New York. At the breakfast table she started to pour her boy's coffee.

"No cream for me, mother," he cautioned. "Doctor's orders. Dairy products are out for the summer."

"Albert," she answered, "I haven't had a drop of cream since I moved to town. Can you do without milk, too?"

"I Will Be Respected."

It was Saturday evening and the driver of a car blew to pass Shannon's corner. Obedient to the traffic officer the car was stopped as his hand was raised and stood there. Traffic from all other directions was sent through and the streets were clear. Once again the horn was sounded to go through. Nothing doing. Traffic had piled up again from all other directions and was sent through. Still the car which was stopped and which had tried twice to get clearance was held up. Another blast of the horn resulted in no attention. The driver was then told by the car owner to go ahead as there were no other cars to interfere. The traffic officer hastened forth with a demand to know if his signal to stop was not seen. The reply was that it had been but that there was no desire to park on the corner all night and it proceeded on its way relieving traffic in back of it while the officer bellowed, "I will be respected."

Infantile Adoration.

Mother was intent on some needlework when she became aware that her daughter, Doris, 2 years old, sitting on the floor among her toys, was regarding her intently. With apparent indifference mother continued her sewing although acutely conscious of the baby's scrutiny. Suddenly the baby sprang up and ran to her.

"My pretty mamma, my pretty mamma! Let me hug you, mamma."

From Autos To Violins

KEYSTONE VIEW CO., NEW YORK

Freeman O. Stanley, millionaire manufacturer of the Stanley Motor Car, who has retired from the business to go into the wholesale manufacture of violins. He claims there is a big field in the instrument, as thousands are imported from Europe annually. He has been experimenting for some time on new, green wood, instead of using old wood in the making of violins. He figures in a short time to be able to produce an instrument made of green wood, that will be cheap, and rival a Stradivarius in quality and tone.

POETRY

A STORM IN THE DISTANCE.

I see the cloud-born squadrons of the gale,
Their lines of rain like glittering spears unprest,
While all the affrighted land grown darkly pale
In flashing charge on earth's half-shielded breast.

Sounds like the rush of trampling columns float
From that fierce conflict; volleyed thunders peal,
Blent with the maddened wind's wild bugle-note;
The lightnings flash, the solid woodlands reel!

Ha! many a foliaged guardian of the night,
Majestic pine or chestnut, riven and bare,
Falls in the rage of that aerial fight,
Led by the Prince of all the Powers of air!

Vast boughs like shattered banner hurtling fly
Down the thick tumult: while like emerald snow,
Millions of orphaned leaves make wild the sky,
Or drift in shuddering helplessness below.

Still, still, the leveled lances of the rain
At earth's half-shielded breast take glittering aim:
All space is rife with fury, racked with pain,
Earth bathed in vapor, and heaven rent by flame!

At last the cloud battalions through long rifts
Of luminous mists retire:—the strife is done,
And earth once more her wounded beauty lifts,
To meet the healing kisses of the sun
—Paul Hamilton Hayne, in Indianapolis News.

VACATION.

Vacation days are coming soon,
From cares and labor free,
When some of us may choose between
The mountains and the sea.
For in the joyous Summer-time
The weary worker seeks
To find a place away from home
Where he can spend two weeks.

Each has his special preference:
Something appeals to each—
The shadows on the mountains, or
The girls upon the beach.
Some want excitement all the time,
To give their pleasure zest,
While some are wholly satisfied
To get away and rest.

Alas, how very few of us
Are rich enough to seize
The opportunities we have
And go just where we please!
Some lucky ones will see the sights
In Paris or in Rome,
And some will see America,
But more will stay at home!
—Somerville Journal.

HUMOR OF THE DAY

One girl (to another)—The trouble with men is they get so interested in their work.—Life.

"What has become of the still small voice?"

"Perhaps it needs a loud speaker."—Louisville Courier-Journal.

"Do you break sets of china?" asked the shopper in the hardware store.

"No," replied the polite salesman; "but if you keep a servant girl, she will probably do it for you."—Good Hardware.

"I passed Ching Loo's laundry last night at 3 o'clock."

"What was he doing up so late?"

"Shirts."—Exchange.

"Don't mind, Charlie; don't mind," said a sympathetic little girl to her 5-year-old brother, who had been punished by their mother.

"I-I d-didn't," sobbed the little fellow, "an' that's w-why I got l-licked."—Chicago News.

Mary was 7 and she did not want to take her music lesson. "Why, Mary, don't you like your music?" asked her mother anxiously. "No", I just hate those little black things sittin' on the fence," said the little girl.—Harper's Magazine.

They had one of their usual tiffs because hubby was late home for supper.

"You're always late," she said indignantly, "you were even late at the church the day we were married."

"Yes," he answered bitterly, "but not late enough."—Boston Transcript.

A Hollywood motion-picture director was trying to persuade a super to wrestle with a lion.

"You needn't be afraid," he said; "the beast is perfectly tame. He never tasted raw meat."

"No, perhaps not," replied the perspiring actor. "But that doesn't mean that he may not have curiosity."—Everybody's Magazine.

KALEIDOSCOPE

Professor S. Kitasato, Japanese biologist and one of the discoverers of the bacillus of plague, has been created a baron by the emperor of Japan in recognition of his scientific achievements.

In the United States navy there are a father and a son serving in the same fleet with the same rank. Chief Quartermaster W. D. Hawkes is assigned to duty on the destroyer Chase. His father, Chief Quartermaster E. J. Hawkes, is on board the superdreadnaught Maryland.

Mrs. Ella Gay of Concord, N. H., has one of the largest if not the largest collections of pictures in that state, there being more than 400 choice and beautiful ones, with no two alike. Forty of them represent some article, such as fruit, fish and animals.

One of the oldest dishes of which any record can be found is the Arabian "khabis," which is said to have been invented and named by the prophet Mohammed. It consists of fine selected dates coated with a mixture of honey and butter, and it is still a favorite dessert and confection among the Orientals to whom the date is a staple food.

Two members of the graduating class of the Fairfield (Pa.) High school have captured all the honors which are to be distributed at the commencement exercises. Mary McCleaf will deliver the valedictory and present the class history. John Kittinger will be salutorian and will declaim on "The Flag of the Free." These two pupils are the only members of the class.

Seven hydroplanes will be engaged in patrolling the forests of northwestern Ontario from White river on the east to the Manitoba boundary on the west this season, and considerable reduction in the ground staff of fire rangers will be made as a result of a new program decided upon by the Ontario department of lands and forests. The hydroplanes will be commanded by expert pilots and will be used extensively in patrolling and reporting the presence of bush fires.

Alois Lang, of Manitowoc, Wis., who ranks among the foremost of America's wood carvers is working on a block of oak taken from the timbers of York cathedral in England, which was built 900 years ago. He is making beautiful panels to be placed in the sanctuary and chancel of St. Paul's cathedral in Los Angeles. Records in England show that the oak timbers were given by William the Conqueror to Bishop Walkelin during whose episcopate the edifice was erected.

200th DIVIDEND

Norwich, Conn., June 14, 1924.

The Directors of this Society have declared out of the earnings of the current six months, a semi-annual dividend at the rate of Four Per Cent. per annum, payable to depositors entitled thereto on and after July 1st, 1924.

As a special encouragement to thrift, Twenty-Five Cents will be credited to each account evidenced by books taken out by school children through our Automatic Teller System during the current six months and outstanding July 1st, 1924.

LITTLE JACK RABBIT
By DAVID CORY

The Bear and His Lollypop Tree.

Now, let me see. Where did I leave off in yesterday's story? Won't some little reader telephone me. I declare, your Uncle Dave has written so many stories that he has forgotten the last one. Wait a minute! Now, I remember. Uncle John Hare was making a visit at the little white bungalow. He had just finished his last cup of

"It's the Big Brown Bear!"

turnip tea and was explaining to his bunny nephew that hares have longer legs and longer ears than rabbits. Yes, he was just going to count the hairs on the bottom of his foot, when all of a sudden, a knock came on the door.

"Dear me!" cried Lady Love, in a frightened whisper. for it was now late in the afternoon—twilight time, you know, when the shadows are chasing the last few gunbeams over the western hilltop. "Dear me," she sighed again, hopping over to the kitchen door to peek out through the keyhole.

It is not easy to see through a keyhole, especially a small keyhole in a little rabbit's kitchen door. Lady Love could see only a big hairy body. Hopping back into the sitting room, she held her paw to her lips and whispered "I think it's Mr. Wicked Wolf."

Just then the knocking came again.

Bangerty, bangerty, bang!
Little Miss Cricket gave a scream
And Grandfather Clock struck Clang!

"Something serious, maybe," said Uncle John Hare, hopping into the kitchen, followed by Little Jack Rabbit. Again the knocking came, louder than before.

"Who is it?" shouted the brave little bunny boy, picking up the poker from behind the shiny black stove.

"It's me," answered a deep, gruff voice.

"Go back to school and learn your grammar lesson over," advised Uncle John Hare. "If you had said 'It is I,' we might recognize you!"

Just then, Little Jack Rabbit, who had peeked through the crack under the door, shouted: "It's the Big Brown Bear. Let him in!"

Sure enough, when the door was opened, there stood the kind old bear, his fur cap in one paw and a big stick in the other. "Howdy," he said, with a bow.

"Come in and make yourself at home," cried Lady Love, taking his cap while the old bear stood up his big stick in the corner of the kitchen where the clothes horse was folded against the wall.

"Just thought I'd make a friendly call," explained the Big Brown Bear. "Been busy all day packing lollypops in boxes. Splendid crop of lollypops this year. Why, that old tree by my Cosy Cave House bore two thousand, five hundred and thirty-nine dozen. Guess all the little bunny boys and rabbit girls will have enough to last them until next season. Yes, siree, I never knew that lollypop tree of mine to have so many juicy big lollypops." And in the next story you shall hear what happened after that.

Goodbye Forever Hair On Face

Remarkable new way to remove superfluous hair—roots and all!

Embarrassing hair on the face, the arms and legs is unnecessary. It can be removed almost instantly. No odor, no fuss, no bother, small expense. A simple, quick, marvelous method that lifts out the hair, leaving the skin white, healthy and soft as velvet.

The new discovery is known as Karma. It is a combination of rare vegetable balsams and Oriental extracts. When you apply it, it penetrates to the hair roots, loosens them—and lifts out the hair. The balsams in this remarkable Karma make the process absolutely harmless. Karma depilatory is based on scientific principles recommended by prominent beauty [illegible] sold on a guarantee [illegible] by

Darby and Joan

Darby and Joan were an old-fashioned, conservative married couple, famous for their long life and domestic felicity. They are said to have lived, more than a century ago, in Healnaugh, a village in the West Riding of Yorkshire. Darby and Joan are the hero and heroine of a ballad called "The Happy Old Couple," of uncertain authorship, although sometimes ascribed to Prior. According to Timperley, however, the author was Henry Woodfall, and the originals, John Darby (printer of Bartholomew Close, who died in 1730) and his wife, Joan. Woodfall was an apprentice in the service of Darby.

Ivory Grows on Trees

In Colombia, Peru, Ecuador and Brazil, ivory grows on trees. Chess men, ornaments, buttons, drawer knobs and other articles are made from this vegetable ivory which, dried and cut, looks like the real ivory obtained from elephant tusks. It is gathered in the form of hard, white, fine-grained, oval nuts about the size of a small potato, which drop from the wild tagua or ivory-nut palm. The average young female tree produces from six to nine of these nuts a season.

The average man thinks that it is a special dispensation from Providence when he gets something good that rightfully belongs to somebody else

One local youthful radio fan, a coming republican, shut off his radio Tuesday, during the speech of Senator Pat Harrison, and, because he couldn't defend his party by talking back, refused to tune in again during the speech.

Some fifty members of the New England Park association, comprising park superintendents and recreation directors, were the guests of the Hartford park department Wednesday and made an inspection trip through the city parks.

State Forester Austin F. Hawes is attending the meeting of the Society of American Foresters being held at Athol, Mass. The New England and New York sections of the society are represented. Inspections of forest tracts in the vicinity are being made.

Abraham Goldberg, a graduate of Westerly high school in the class of 1920 has successfully completed the four-year course of the New York Law school, graduating with honors. Mr. Goldberg has the distinction of being the youngest man in the class. He will be 21 on July 15.

City Engineer George E. Watters of New London was among those who attended the annual meeting of the New England Water Works association at Plymouth, Mass., Wednesday. The city engineer made the trip by automobile and returned in the evening.

Extension of the gypsy moth quarantine area so as to include the entire state of Vermont and additional towns in southern and western Connecticut, and establishment of a 25-mile wide barrier zone along the western border of New England is announced by the department of agriculture.

Workmen in the employ of the Atwood Machine Co., Stonington, are in Watch Hill, where they are setting 100 posts on which will be stretched barbed wire to keep the public off Atwood Hill, so-called. People visiting the land in question have in some instances caused damage, and the fence is put up to prevent trespassing.

Visited at Mt. Misery Farm.

Attorney Samuel Park of New York and brother, Charles, of Mystic, Conn., have been visitors the past week at the Mt. Misery farm in Voluntown. Mrs. Dawley's father worked in their home many years when a young man, and they were greatly surprised when they knew they were visiting a daughter of their boyhood friend.

INCIDENTS IN SOCIETY

Mrs. Louis L. Blackstone of Broad street and Mr. and Mrs. John Cisco and little son of Greenwich, have left town to spend the summer at Nantucket.

Judge and Mrs. Archibald of Jacksonville, Fla., have leased the home of Mr. and Mrs. Carl W. Brown, on Warren street, for the next three months.

Mrs. William H. Allen and Miss Barbara F. Allen have issued invitations to a tea on Friday afternoon from 4 to 6, at their home on Huntington place, to meet Mrs. Alfred Pierce Allen.

Honesty may be the best policy, but life insurance is more satisfactory to the widow.

PERSONALS

Miss Millicent Mitchell of Norwich spent the week end with the Misses Hazel and Mildred Gilliar of Niantic.

Mrs. May Gired and Miss Kate J. Willey, of Norwich, are spending several days at the Willey cottage in Pine Grove.

Fred G. Prothero and family, and Charles Bushnell of this city spent the week end at the Prothero cottage, on Broadway, Niantic.

Mrs. Byron Dawley and mother, Mrs. James Cook of Pendleton Hill, are expected home soon from Pensacola, Florida, and also Everett Dawley of Merritt, Florida.

Mr. and Mrs. Charles A. Anderson of Jewett City, Mr. and Mrs. Morris J. Anderson of Norwich, and Mr. and Mrs. John H. Taylor of Poquetanuck motored to Quonochontaug on Sunday for a shore dinner.

Mr. and Mrs. Charles L. Strong of Colchester, for about a year residents of Norwich, were guests Sunday at the home of Mr. and Mrs. Charles R. Butts of Washington street, after attending the morning service at the First Congregational church.

OBITUARY

Mrs. Robert Palmer

Mrs. Emily D. Eagles, widow of Robert Palmer, died Wednesday morning at the Eliza Huntington Memorial Home following a long illness. She was born in New York April 7, 1846, and was the daughter of the late William and Mary Eagles. When a young girl she came to this city and had since lived here.

A number of years ago she was united in marriage with the late Robert Palmer. She was a member of the Church of the Good Shepherd, Universalist, was a woman of high Ideals and had a wide circle of friends who regret to learn of her death.

Surviving are one niece, Mrs. M. B. Manwaring, of Brunswick, Me., a cousin, Mrs. David Lumden-Moore, of New York city.

Howard B. Foster

After an illness of several weeks Howard B. Foster died Wednesday afternoon about 4 o'clock at his home, No. 39 Otis street. Mr. Foster was born in Hartford, September 6, 1868. The family came to Norwich in 1876 and Mr. Foster spent his youth in this city. He received his education in the Norwich public schools and the Norwich Free Academy and was graduated from Worcester Tech. He was an expert mechanical engineer. His wife was Margaret S. Beffes of Jacksonville, Fla., where Mr. and Mrs. Foster lived for some years after their marriage. Mrs. Foster died in 1919.

Mr. Foster is survived by his mother, Mrs. Frank A. Foster and his daughter, Miss Ruth B. Foster. The burial will be in the family plot in Maplewood cemetery.

Clifford Hamilton

Clifford Hamilton, aged 27 years, of this city died Tuesday at the State Tuberculosis sanatorium in Norwich, where he had been a patient for several months. He had been employed as a porter. His mother, residing in this city and a brother, Charles Hamilton, of New London, survive him.

FUNERALS

Miss Annie J. Donaghue

From her home in Uncasville Wednesday morning at 8:30 o'clock the funeral of Miss Annie J. Donaghue was held with a large attendance of relatives and friends. At 9 o'clock a requiem mass was celebrated in St. John's church by Rev. James O'Meara, pastor of the church. The choir sang Pie Jesu at the offertory and as a waiting hymn, Lead Kindly Light. Burial took place in the family lot in St. Patrick's cemetery, Rev. Father O'Meara reading the committal service.

The bearers were Patrick Donaghue and Joseph Collins of Uncasville, Daniel Donaghue and Albert Spotten of Norwich, Joseph Bertha of Dayville and Joseph Foy of Jewett City. There were a number of beautiful floral remembrances.

Relatives from Erie, Pa., Pawtucket, R. I., Dayville, Jewett City, New London and Norwich were among those present at the funeral. Undertakers Cummings and Ring had charge of the funeral arrangements.

Joseph Paraliux

Funeral services for Joseph Paraliux, 20, formerly of Stamford who died in this city were held Monday morning at St. Nicholas Russian Orthodox church. Burial was in St. Nicholas cemetery, relatives and friends from Stamford acting as bearers.

Arrangements were by Cummings & Ring.

Tanney Corporation Buys Store.

The Tanney Corporation of this city, which conducts a store in the Thayer building, has just purchased a store in Troy, N. Y., with a floor space of 30x187 feet. The corporation will operate the Troy store which is in a fine business section of that city.

Graduated at Phillips-Exeter.

As a member of the largest graduating class at Phillips-Exeter this year was Elliot B. Grover of Taftville. He was among the seniors to be elected to the honorary society, the Aum Laude. He also recieved honors in chemistry.

It may pain a mother when she corrects her naughty offspring but not in the same place.

Overthrows Bratiano Government

KEYSTONE VIEW CO., NEW YORK

Rumors have been confirmed that General Fofosa Averesco has overthrown the Bratiano government of Roumania.

JURY HEARS SUIT AGAINST DOCTOR FOR DAMAGES FROM AUTO ACCIDENT

Before Judge John R. Booth and a jury in the superior court here Wednesday an automobile damage suit that presented some unusual features was on trial, Sherwood G. Avery of 72 Town street, Norwich Town, suing Dr. E. H. Linnell of this city for $3,000 damages for injuries to himself and to his horse. The Avery horse and buggy were struck at Norwich Town near Wightman's switch on March 24, 1920, by an automobile driven by Dr. Linnell.

The evidence was all put in Wednesday, the arguments were made by Attorney C. L. Stewart for the plaintiff and by Attorney Arthur M. Brown for the defendant, and Judge Booth will charge the jury this (Thursday) morning.

After a plan of the place of the accident had been explained by Civil Engineer George E. Pitcher, the plaintiff, Mr. Avery, was called to the stand. His testimony in substance was that his horse and wagon were hit by the doctor's automobile, which was coming in the opposite direction and that he was thrown out and rendered unconscious. When he came to he talked to Dr. Linnell, who said the accident was his fault and that he had miscalculated the distance he needed to pass the horse and wagon.

Mr. Avery said that the doctor agreed to pay for the damages. The wagon was taken to a blacksmith shop for repairs. He said that he never used the horse after the accident and it was later killed on the advice of a veterinary. Mr. Avery told of the medical attention he had for himself because of an injury to his neck and a broken bone in his right heel. He showed his foot to the jury.

Dr. Nathan G. Gray and Dr. Horace L. Tower, two veterinarians, gave testimony as to the value of the horse and John A. Walz told of the repairs he made to the buggy.

Dr. W. Tyler Browne explained an X-ray of a fractured vetebrae in Mr. Avery's neck. Mr. Avery came to him for treatment to his neck in November, 1921.

Louis S. Ferguson and Stanton W. Brown were other witnesses as to the condition of the horse before and after the accident and Orrin M. Price also testified to what he knew about the horse. The various witnesses placed its value before the accident at from $125 to $150.

Fred Durr, who saw the accident corroborated Mr. Avery's account of it and said there was no other automobile there at the time.

For the defense, Dr. Frank B. Cole, a veterinary, testified to being called upon to examine Mr. Avery's horse. At his second visit he told Mr. Avery the horse had the heaves and wasn't worth 10 cents.

John F. Bentley testified that Mr. Avery drove to his house with the horse the Sunday after the accident and said at that time that he wasn't hurt and the horse wasn't hurt, but he didn't like to drive to Bentley's place because the horse puffed so. Mr. Bentley also said that he helped cultivate with the horse.

Dr. Linnell, the defendant, admitted that the accident was his fault, and said that the only damage Mr. Avery claimed was to the buggy which the doctor agreed to pay for and did pay $64 when Mr. Avery brought him the bill which was on June 3, 1920. At that time, the doctor testified, Mr. Avery made no claim for the horse nor for injuries to himself, but on June 14, 1920, Mr. Avery put in a claim for $205 for the horse and later started the suit for $3,000 damages. Regarding the accident [illegible] said that a motorcycle was coming from the [illegible] counted [illegible] the Avery wagon.

He denied [illegible] knocked out of the [illegible] he stepped out after the accident.

The jury on the case [illegible] Joseph G. Rainey, Charles W. [illegible] Newton, Charles [illegible] Peace, [illegible] Fitcher, Lebanon; Charles E. [illegible] North Stonington; Charles W. [illegible] Franklin; Joseph Belcher, Quinn, Sprague; William R. Darling, Salem.

ONE-WAY TRAFFIC ON BANK STREET KILLED

(Special to The Bulletin.)

New London, June 25.—The city council has in preparation an ordinance to provide for parking on certain streets of the city and in some cases to restrict the leaving of cars beyond a limited period of time. It also seeks to prevent the leaving of cars in the streets all night as well as to prevent the constant parking of cars in the business streets of the city. There has been a suggestion that came from many business people on Bank street to make a one-way street for traffic there. This latter provision was given its quietus at a public hearing in the council chamber this evening. Supt. Samuel Anderson of the Connecticut company and Attorney Baldwin representing the same corporation, were in attendance and they objected to the operation of trolley cars in one direction on Bank street, either north or south. They declared the proposition to be not feasible, and pointed out that the tracks of the company from Tilley street south of Bank street, would of necessity be abandoned to northbound traffic from the junction of Bank and Truman streets if such a scheme were put into operation during the summer months. Superintendent Anderson declared that the people of this city had at present the best trolley service possible to give. He said it is the purpose of the company to give as much through service from Ocean Beach as possible and avoid the transfers as that often brought parents and children or parties of several persons upon more than one car. He said the trolley company was disposed to cooperate with the city in every way to avoid traffic congestion and that the employes of the company would be only too willing to do anything that could be done to facilitate matters. Mr. Anderson [illegible] considerable business on the street with trucks and commercial vehicles were opposed to having their means of conveyance restricted to one-way travel. That would be a serious inconvenience to them at times and they could see no good or useful purpose to be attained by the change. At a previous meeting there was a very decided opinion in favor of restricting traffic to one-way. Tonight when a rising vote was asked for to express opinion as to the matter of one-way traffic not a single vote was recorded in favor of it.

SAYS POINCARE VINDICATED FOR OCCUPYING RUHR

France didn't make much from her occupancy of the Rhur, but two highly important things came out of it declared Mrs. Morrill Hamlin of Greenwich, when she lectured here this week at the Community house upon The French and German Moods, the third lecture in the course of four. Because of this occupancy the Germans woke up to the French determination to make Germany pay reparations and Gen. Dawes stated that if it had not been to the French occupation the whole work of the reparations commission would have been impossible. Poincare was vindicated for the occupation of the Ruhr and although he has been defeated in the elections, he will be back again.

Mrs. Hamlin devoted a good part of her lecture to the Dawes commission report. As a result of this report, she said, now for the first time we have heard through the mouth of a German official that Germany can pay, expects to pay and wants a chance to do so. Gen. Dawes was the choice of France as the American advisor on the commission and when he returned from his inspection tour through Germany he declared positively that Germany can pay, that he never saw a country more perfectly equipped to go into industry. He knew what he was talking about. She has rebuilt her factories, enlarged her canals, improved her railroads and is able to come into the market of the world to compete with Great Britain and the United States. She has no foreign debt, no domestic debt, no war debt. She cleared three billion by the deflation of the German mark, ruined her middle class, the only country in history that deliberately bankrupted her own people.

Under the Dawes plan, Germans are to operate the railroads and industry but under the supervision of an allied commission. The Germans will never be slaves under the Dawes plan, but because she is a nation without honor she has got to be supervised. Billions in money have been siphoned out of Germany and one of the problems is how to siphon it back.

When Germany some time ago was seeking a loan of $730,000,000, the financial interest of America said, "Yes, you can have it, but we must have undoubted security." Germany withdrew and didn't get the money. When France, on the other hand said Mrs. Hamlin, indicated that she needed money, one of the biggest American financial firms said to her, "We'll give you $100,000,000 without any security and if you want more you can have it." That is the difference between a nation with honor and one with not a shred of honor.

LIQUOR RAIDS MADE AT NEW LONDON PLACES

(Special to The Bulletin.)

New London [illegible] summoned [illegible] tomorrow [illegible] action [illegible] with Z. W. [illegible] Mary Doe and Jane Doe, issued by Prosecuting Attorney Daniel M. Crahan. The [illegible] resulted [illegible] David Fahie [illegible] 432 Bank street; Sawa Skenzan, proprietor of the restaurant at 13 North Bank street; Helen Johnowski [illegible] Allen [illegible] Giordino [illegible] held in bonds of $500 each for appearance [illegible] Bank for the disposition [illegible] made. This [illegible] Quinn, 690 Bank street; Sawa Skenzan, proprietor of the restaurant at 13 North Bank street; Helen Johnowski [illegible] Allen [illegible] Giordino [illegible] held in bonds of $500 each for appearance [illegible] Bank for the disposition [illegible] made. This

FIVE AMERICAN PLAYERS READY FOR FIRST ROUND FOR BRITISH OPEN TITLE

Hoylake, June 25.—(By the A. P.)—Fine warm weather, tempered by winds from the sea, is in prospect for the start of the British open golf championship tomorrow morning in which 89 professionals and six amateurs, including five Americans, are entered. Two rounds will be played tomorrow and two on Friday.

Everyone who has observed the qualifying rounds seems to think that the open is remarkably open. No one is an outright favorite with the bookmakers who have come into Hoylake as though at were a racing center. Most of the expert observers go no further than to cautiously predict that eight men—four of them Britons and four Americans—are most likely to be the ones fighting for the trophy when the final round begins.

America's big four in the British golf classic are Walter Hagen, Gene Sarazen and Macdonald Smith. The British favorites are George Duncan, Abe Mitchell, Arthur G. Havers and E. R. Whitecombe. Whitecombe was close behind Havers when the latter won the trophy last year.

In the draw for tomorrow, play in the first round commencing at 8.30 in the morning and the second at 1 in the afternoon, Barnes will play Duncan, Sarazen will play J. Bond of Hillside, Hagen is pitted against E. G. Wyatt of Bush Hill Park, Macdonald Smith will go against C. Sayner of Doncaster and Gil Nicholls will play C. Johns of Purley Downs.

Tomorrow will be a very long day for those who like to keep an eye on what the visiting Americans are doing, and that includes the vast majority of thousands who always tramp around in the rough watching the champion struggle. Barnes and Duncan will tee off first, the American hitting his opening drive at 8.30 o'clock. At the tailend of the procession will be Smith whose second round is not scheduled to begin until 5.12 o'clock in the afternoon. Nicholls starts at 10 in the morning and Hagen a few moments later. Sarazen will tee off shortly before noon.

There have been no showers or rainstorms at Hoylake for several days. This being England and June almost constitutes a minor draught. As a result of the lack of moisture and 15 hours or more of daily sunshine the championship course is becoming exceedingly fast. To prevent the greens from becoming slippery, as was the case in the amateur championships of 1921, water pipes have been laid to all of them.

The hotels and rooming houses of Hoylake and all the other neighboring seaside resorts are filled with golfing enthusiasts who have come over to this side of England to see the championships. The Royal Liverpool course—the championship course—is very convenient by either train or motor to Manchester, Liverpool and Birmingham from where thousands are expected to come to watch both days' play.

In addition to the Britons and Americans there is a trio of Frenchmen—Aubrey Boomer, Raymond Botcazow of La Boulle and Arnaud Massy of Neville. The half-dozen amateurs who survived the qualifying round are Cyril Tolley, Roger Wethered, Ernest Hassall, Samuel Robinson, M. S. Walker of the Royal Liverpool club and W. L. Hope.

RED SOX NOSE OUT ATHLETICS IN NINTH

Boston, June 25.—With the score tied in the ninth and two out, Ike Boone, pinch hitting for Quinn, made a single which scored Todt with the run that enabled Boston to defeat Philadelphia, 4 to 3, today. Quinn weakened in the first of the ninth and Bishop's double, Strand's single and Hauser's homer scored three runs. The second game was not played because of a heavy thunder storm. The score:

Philadelphia (A)	ab	h	po	a	e

NEW LONDON LIONS CLUB GETS INTO ACTION TODAY

(Special to The Bulletin.)

New London, June 25.—Before the Lions Club baseball team attempts to make an invasion of Lions and Rotary club teams in Norwich and nearby cities, the team will first clean up the smaller animals that habitate the forest. The Lions are scheduled to make their first attack upon the clubs in the city this (Thursday) evening, and 6.30 is the time scheduled for the first attack. As there are no woods within the vicinity of Cannon Ball Park, where the game is to be played, so that the Lions will not be able to conceal themselves before they make the attack upon the Y's Men team, the latter nine should stand a good chance of breaking up the attack.

While the Lions are heard roaring, the Rotary club which expects to get into action against both this team and the Y's Men team, will have its scouts out to get what advance dope they can on these outfits. Already it is reported that two planes have been commissioned by Rotarians who expect to see the proceedings from the air and therefore avoid detection. All in all the Lions-Y's Men battle is expected to turn out into a snappy and hard fought contest. The Lions batters will have their opportunity to make good their former boasts that they made, saying they once placed with this or that team, which won the championship of such and such a league, and so forth and so on. The batters on the Lions team from all boasts would even send Hoyt or Grover Alexander to seek cover, they will have an opportunity to speak with their bats against the pitching of Johnston, the Fort Trumble Stars' twirler, who is recognized as one of the best mound artists in the city.

WHITE SOX WIN BOTH ENDS OF DOUBLE BILL

Chicago, June 25.—The White Sox evented the stries with Cleveland today, winning two games 2 to 1 and 5 to 1, the first going 10 innings. Connolly gave but four hits, three of which were scratchy. In the second, Thurston gave three hits: Wirts, former Cub catcher, broke into the Sox lineup, while Cheeves, former Cub pitched for Cleveland in the second replacing Roy. Brower, a former pitcher, but who has been playing outfield and first base for the Indians, finished pitching allowing but one hit. The score:

NUGGETS-BATTERY B TWILIGHT GAME IS POSTPONED—RAIN

The scheduled game between the Nuggets and Battery B in the Twilight League was postponed Wednesday evening owing to the rain. The game will be played at a later date.

Tonight's game will be between the Yantic Grain and the West Ends. This game should attract considerable interest as Keagler, the pitcher for the Yantic team is creating no little favorable comment.

Homers Feature Penise' Victory.

Springfield, Mass., June 25.—Springfield went into second place in the Eastern league today by trimming Hartford 13 to 6, in a free hitting game. Springfield hit four home runs, Herrera, Duffy, Simpson and Niederkorn each getting one. Sloan was evicted from the game for kicking on balls and strikes. The score:

Hartford ..... 0 1 3 0 0 0 0 2— 6
Springfield ... 0 2 3 0 2 0 1 4 x—12

Two-base hits, Cosgrove, Post, Benes, Simpson, Hesse. Three base hit, Simpson. Home runs, Herrera, Duffy, Simpson, Niederkorn.

How It's Done In the Majors

By Frank Frisch
Captain, New York Giants

Tenth inning. Visiting team leads 6 to 4. Home at bat. Man on second passes with one out. A right-hand hitter is at the bat and there is a short left field fence.

How should pitcher pitch to batter?

The point for a pitcher to bear in mind under these conditions is never to feed a baseman a ball that he can pull into the left field fence as a home run would tie the score. He should always pitch outside to the batter. That prevents the opponents from tying the score and having a chance to win the game.

PHILLIES TAKE ONE AND DROP ONE TO BRAVES

Philadelphia, June 25.—Philadelphia and Boston split even on a double header today, the home team winning the first game, 9 to 8 in ten innings and the Braves the second 4 to 1. Heavy hitting including home runs by Bancroft, Henline and Harper, featured the first contest. Bancroft also had a home run in the second game.

After playing nearly three hours in the opener the teams were halted by rain in the closing contest. The Braves got off to an early lead and held the advantage to the finish. The score:

PIRATES BEAT OUT CUBS IN FOURTEENTH

Pittsburgh, June 25.—Pittsburgh defeated Chicago 8 to 7 in a 14 inning game today in which Emil Yde, Oklahoma City southpaw, starred both in the box and at bat for the Pirates. Yde's double in the ninth with two out sent the game into extra innings and his triple in the fourteenth with two Pirates on base won the game. The score:

AMERICAN ATHLETES GIVEN ROUSING RECEPTION ON ARRIVAL IN PARIS

Paris, June 25.—(By The A. P.)—Colonel Robert M. Thompson, president of the American Olympic committee, and his chief of staff, Coach Lawson Robertson, led their peaceful American Olympic army into Paris today.

The composite athletic battalion, arrived from Cherbourg this afternoon after debarking from the liner America, and immediately went into camp at the Chateau De Rocquencort, which one time belonged to that dashing Napoletnic soldier, Prince Murat.

The American athletes upon their arrival in Paris were greeted as "friendly enemies," instead of potential conquerors. They were given a great reception at the station when they arrived on their special trains from Cherbourg. The welcome was the most demonstrative of any yet accorded Olympic teams that have visited Paris. The streets around the St. Lazare station were congested for half a mile and the police had to keep the crowds from overwhelming the visitors with their greetings.

Tomorrow the boys will march on the Colombes Olympic Stadium for their first glimpse of the bloodless battlefield where they must appeal on July 5 ready to withstand the combined attack of 42 nations in coalition against them. That the Americans are not looked upon as victims is evident. "The United States is the team that we will have to beat," is heard on all sides from the delegations from every country sending representatives to the eighth Olympic games.

The athletes have already got in some good practice for limbs and wind, especially this afternoon when they had to fight their way out of the railroad station through the crowds of thousands who were waiting to catch a glimpse of "those famous Americans." But the able-bodied specimens from Yankeeland could stand it after their long ocean trip.

Except for several minor casualties, the athletes came through in good shape. Their appearance with sunburned faces and clean cut demeanor made a great impression on the French Olympic officials who were at the station to receive them.

"This is the finest party of athletes I've ever seen in my life," M. Frantz-Reichel, general secretary of the French Olympic committee, declared.

The road to Rocquencourt was lined with people this afternoon when the limousines bearing the Americans passed. The crowds in the streets at Surenes and St. Cloud gave the boys a few cheers. Many of the people wore little American flags in their straw hats with an American emblem upon their left breast. All the arrangements worked perfectly. The automobiles drew up to the barracks which will be the boys' home for the next month and their baggage, which already had been packed with the number of the room each will occupy was quickly moved in.

Unbounded confidence in their ability to win the games in which they will compete was the striking keynote of the conversations of all the athletes. The feeling appears to be that they have just come here to go through the motions of competing in "these Olympic games." Colonel Thompson, however, while not pessimistic, took a decidedly more conservative view of the situation. He declared, "We realize we have a great fight on our hands, but we love a fight and the hotter the better."

The American Olympic swimmers went directly to the Colombes Olympic village upon their arrival. There is only accommodation at Rocquencourt for 220 athletes. The girls' swimming and diving team probably will put up at a hotel in town for a few days until accommodations can be arranged for them at the Chateau.

REDS AND CARDS SPLIT HONORS IN DOUBLE HEADER

Cincinnati June 25.—Cincinnati and St. Louis broke even in two fast and well played games today, the visitors winning the first, 3 to 2, and the locals annexing the second, 2 to 1. The second game was a pitchers' battle between Mays and Sothoron, the former scoring the winning run in the last half of the ninth on his double and a similar hit by Daubert. The score:

MRS. MALLORY IS ELIMINATED FROM WIMBLEDON TENNIS

Wimbledon, England, June 25.—(By the A. P.)—The prospects of another Lenglen-Mallory match, in which the former American woman champion would have an opportunity of avenging her defeat at the hands of the French star two years ago, went glimmering this afternoon when the English champion, Miss Kathleen McKane, eliminated the American in straight sets. Mrs. Mallory never seemed to have a chance against the agile English girl who covered every inch of the court.

Miss Helen Wills, the present American champion, now stands between Miss McKane and Mlle. Lenglen for the finals of the Wimbledon classic. If the Californian is able to win her next match against Mrs. Edgington, she will probably battle Miss McKane for the chance of challenging the Frenchwoman's supremacy in the finals next week.

Another Englishwoman, Mrs. Satterthwaite, today put Miss Eleanor Goss out of the tournament, but the men of the American Olympic team advanced toward the finals. R. Norris Williams II provided today's thrills on the center court, his match with the Frenchman, P. Feret, rivalling the spectacular La Coste-Alfonso struggle of yesterday.

Vincent Richards and Francis T. Hunter had a day's rest from singles play. They started poorly in their doubles match with F. M. B. Fisher and J. C. Peacock of England. They lost the first set but took three. Watson M. Washburn went into the fifth round of the singles by defeating F. R. L. Crawford with considerable difficulty.

The four American women players—Miss Wills, Mrs. George Wightman, Mrs. Marion Z. Jessup and Miss Elizabeth Ryon—won their singles matches.

THUNDER STORM BREAKS GIANTS' WINNING STREAK

Brooklyn, N. Y., June 25. — New York's winning streak of 10 games ended today when the thunder storm, coming after the Giants had tied the score in the eighth, caused the contest to revert to the seventh, and permitted Brooklyn to win a pitchers' battle between Grimes and Dean by a score of 3 to 2. Wilson's home run gave New York the lead in the sixth but Brown, Indianapolis recruit, drove in the winning Robin runs in the seventh. The score:

WESTERLY

Martha C. Babcock Memorial prizes were awarded at the commencement exercises of the Westerly High school, class of 1924, by chairman of the judges, Basil B. Wood. Frederick Browning Agard, member of the graduating class was the winner of the first prize, writing under the name of "Socrates," his subject being "Ideal of a High School Boy". George Sprague was given the second award under the non de plume, Il Pensoroso, and his subject was, "Wild Animals in Rhode Island." The third prize went to Mary R. Mullen, also of the Class of 1924, who under the name, "Futurist," had for her topic "Relation of Roads to the people of Rhode Island.

The commencement program was an interesting one, the address being given by Ellen Fitz Pendleton, who graduated from the Westerly High school in the Class of 1881, and is now president of Wellesley College.

The diplomas of the graduates were given to President James Harvey Meikle, who distributed them as the names of the owners of the sheepskin were announced. Perhaps the importance and popularity of an "Athletic Course," was never more strikingly shown than by the length and volume of applause, which followed the reception by Leo Joe" Smith of his well earned diploma. Smith has been the gilt edge [illegible] the passed two years of the Westerly High school baseball team, champions for 1924 of the Eastern Connecticut Interscholastic Baseball League.

The special prizes of $50 and $25, donated by the Lodge Iolanda Margherita, No. 342, Order Sons of Italy, of Westerly to the Westerly High school student of Italian parentage, who held the highest scholastic record for the four year course was announced by Principal McIntire. The first prize went to Antonio Andrew Matarese who stood third in his class and the second was earned by Miss Flora Pauline Giardino.

Forty members of the Westerly High school graduating class of 1924 were present to receive their diplomas from chairman, Thomas Perry of the Westerly School committee, Wednesday afternoon in the Westerly Town Hall. Seated on the platform were the graduating class, school committee men, Perry and Maxson and superintendent of schools, W. H. Bacon and High school principal, Laura E. McIntire. Grouped in front of the rostrum was the high school chorus. The auditorium was filled with the relatives and friends of the graduating class. The program was carried out:

Program

Music, And the Glory of the Lord, Handel, Chorus; prayer, Dr. Clayton A. Burdick; Salutatory, "If There be First a Willing Mind," Theodore Santee Whitford; address, Ellen Fitz Pendleton; Music, Devotion, Pietro Mascagni; Aria from the opera "Cavalleria Rusticana," Chorus; Valedictory, A Life of Service, Frederick Browning Agard; Presentation of Class to School Committee, Laura E. McIntire; awarding diplomas, Thomas Perry; singing class song, class; awarding Martha C. Babcock Memorial Prizes, Judges, Basil B. Wood, Mrs. G. B. Utter, Miss Reese Taylor; Music, Happy Days, Streleski, Chorus.

The class officers were: President, James Harvey Meikle; vice president, Edward Morton Clarke; secretary, Grace Evelyn Greig; treasurer, Charles Joseph Butler, 2d. The motto of the class of 1924 was "We enter to learn, We leave to serve." Composed by Mary Augusta Stanton.

Members of the graduating class were: Frederick Browning Agard, Charles Joseph Butler 2d, Edward Morton Clarke, Roy York Gavitt, Dominic Demitrio Gencarella, Clarence Wilson Gray, Percy Kingsley, Joseph Paul Leoni, Antonio Andrew Matarese, James Harvey Meikle, William Joseph Murray, Herbert Edward Sisson, Leo Smith, Edward Howard Smith, George Edward Sprague, Maurice Thoumine, Theodore Santee Whitford, Ruth Viola Bliven, Hazel Adeline Brown, Ruth Estelle Carpenter, Mildred Ermabell Cornell, Mary Elizabeth Ellis, Flora Pauline Giardino, Grace Evelyn Greig, Fannie Irene Hall, Grace Winifred HiHilton, Doris Elizabeth Hope, Claire Elizabeth Keenan, Helen Elizabeth Kenyon, Ida Gertrude Kenyon, Varina Stillman Krabs, Viola Leah Litman, Mary Rita Mullen, Helen Louise Murphy, Margaret Elizabeth Palmer, Eleanor Blake Smith, Pauline Elizabeth Stahle, Mary Augusta Stanton, Dorothy Quinlan Sullivan, Mary Elizabeth Tanner, Gladys Mariam Terranova.

The honor roll was as follows:

Four year honors, Frederick Browning Agard, Antonio Andrew Matarese, Theodore Santee Whitford; honors for 1924—Seniors, Frederick Agard, Antonio Matarese, Theodore Whitford, Doris Hope, Mary Mullen, Pauline Stahle, Augusta Stanton; juniors, Joseph Coduri, Grace Murphy, Betty Whitford, Dorothy Wilcox; sophomores, Albert Sturgeon, Everett Lawton, Mildred Bray, Myrtle Evans, Olga Gervasini, Frances Perry, Sylvia Rinne, Jennie Haka; freshmen, Ruth Briggs, Marjorie Chapman, Nellie Falcone, Lydia Nichols, Honor Randall, Libera Ruga, Julia Stahle, Lloyd Briggs, Theodore Dabrowski, Harold Nicholas, Donald Whitford.

About one hundred members of the Westerly Board of Trade attended the annual 1924 banquet Wednesday evening at the Ocean House, Watch Hill. Presiding as toastmaster was Harvey C. Perry, who introduced as the speaker of the evening, Rev. John L. Davis, of New Britain, Conn., who spoke on Forces That Make a Man. The menu was as follows:

Bouillon
Radishes Salted Nuts Olives
Boiled Salmon, Hollandaise Sauce
Cucumbers Parisian Potatoes
Fried Chicken Cream Sauce
Corn Fritters
Lemon Sherbet
Lamb, Mint Sauce
Mashed Potatoes Green Peas
Neapolitan Ice Cream
Fancy Cakes
Fruit
Demi Tasse Coffee

There were 87 pupils of grade 8 at Elm street school who received their certificates of graduation Wednesday morning. The medals offered by the Westerly Board of Trade for the three best essays on the subject of fire prevention also were awarded, the winners being first, Katherine Sauer, grade 7; second, Isabelle Steadman, grade 8; third, John Dunn, grade 7.

Those receiving diplomas were:

Grade 8-1—Alice Madelyn Sutcliffe, Martina Agnes Giannoni, Alfred Francis Dower, William Henry Crandall, Mabel Elizabeth Chadburn, Florence Alice Lownds, Florence Edith Collings, Herman Erastus Miner, Helen Louise Murphy, Edwin Milby Sawyer, Beatrice Regina Silverstein, Carl Westfall Saunders, Lila Jennings Carpenter, Lenora Goldberg, Isabelle Steadman, Alexander John William Greig, Evelyn Gertrude Main, Gordon Harrison Streeter, Harold Frederick Chappell, Helen Louise Wills, Katherine Louise Roan, Mary Shepherd Kenyon, Minion Elizabeth Roan, Hobart Taylor Livingston, Edwina May Matthews, David Reid Meikle, Harriet Esther Ellis, Minnie Nardone, Helen Mary Monaghan, Ralph Smith Christy, John Andrew Hogan, Abraham Soloveitzik, Suama Minnie Lepikko, Abraham Israel Novogroski.

8-2—Mary Susan Lepikko, Myer Deutsch, Arthur Gervasini, Mary Louise Panciera, Selma Mary Anderson, Guardo Panciera, Ethel May Bennett, Joseph Francis Edward Haggerty, James Brocato, Antoinette Barbara Coduri, Charles Raleigh Greene, John Alexander McFarland, Nellie Ella Young, Gwendolyn Dower, Thomas Francis Lenihan, Jr., Harry Leonard Lyman, Concettina Barbara Marino, James Forbes Carson, Lillian Victoria Ruisi, Nilla Cottrell Sweet, Albert Doty Spicer, Ralph Lewis Wilcox, Maurice Benjamin Kaplan, Munson Everett Gavitt, Charles King Campbell, Eugene Geary Malaghan, Stanzeri Winifred Edwards, Helen Marryott, Byron Maxwell Hiscox, Elvira Elizabeth Giannoni.

8-3—John William Stenhouse, Evelyn Delia Foey, Josephine Mary Gulliano, Lillabelle Nash, Louis Leone Panciera, Agnes Mae Rita Phelan, Gino Gaetano Lavarini, Eleanor Rita Daley, Frances Margaret Piscitello, Mary Josephine Turco, Georgette Victoria Mohink, Leo William Spellman, Angelo Michael DeBernardo, Florence Elizabeth DeRocco, Ethel Ida Fain, Sophie Hattie Sisson, Norman Henry Smith, Joseph Trumpetto, Concettina Carofalo, Alexander Brown Smith, Archille Viettorrio Piccolo, John Molin, James Andrew Duherty.

MYSTIC

There were about two hundred present at the meeting of Charity Chapter, No. 61, O. E. S., Tuesday evening, in Masonic Temple, with guests present from chapters in Hope Valley, Niantic, Uncasville, Norwich and Massachusetts. Two candidates were initiated. A short sketch entitled, "Old Maid's Venture," was pleasiningly presented by Mrs. Artis Stoddard, Miss Doris Raynor and Miss Viola Chapman. A supper consisting of chicken salad, rolls, coffee, cake and ice cream covered in curahed strawberries was served and thoroughly enjoyed by those present. This is the last meeting of the chapter until fall when the meetings will be resumed. Charity chapter has accepted an invitation to visit the Eastern Star Chapter in Niantic and a delegation of 50 to 100 will go to Niantic Thursday evening for this meeting.

Dr. and Mrs. J. K. Bucklyn quietly observed their 33rd wedding anniversary, Wednesday, at their home on East Main street. They were married on June 25, 1891, in Mystic and have lived in the village all of their married life. They have a large circle of friends who wish them many more years of happiness together.

Mrs. George E. Wilcox of Newtonville, Mass., formerly a resident of Noank, was the guest on Tuesday of Mrs. George D. Johnson, and attended the meeting of Charity Chapter, O. E. S., of which she is a member.

At the meeting of Ahab Sanctorum No. 230, O. H. & P. held Saturday evening, it was decided to hold the regular meetings the third Saturday in each month. Routine business was transacted, various committees appointed, and it is planned to have an entertainment of some sort at the July meeting, John Spicks being chairman of the committee. A class of candidates is being formed both here and in Norwich, and it is expected that the former class will be received into the order at a ceremonial meeting to be held here in August, the latter class at some subsequent date. Mystic is the smallest place in the country which has a Sanctorum and according to the rules of the order another sanctorum cannot be instituted within a radium of thirty miles.

Mrs. Ida Frink of Ekor and daughter, Mrs. Frank Irons and two daughters of Waterloo, N. Y., are guests of Dr. and Mrs. J. K. Bucklyn.

Mrs. Martha G. Weston of Brockton, Mass., is the guest of her sister, Mrs. George H. Greenman.

The Rt. Rev. E. C. Acheson of Middletown, suffragan bishop of the diocese of Connecticut, administered the rite of confirmation upon a class of five at St. Mark's Episcopal church, Tuesday evening.

The third degree was conferred upon a class of candidates at the meeting of Stonington lodge, No. 26, I. O. O. F., Wednesday evening.

Methodists of the East Hill unit were specially invited to the Wednesday evening prayer service held last evening. The pastor, Rev. J. Garfield Sallis, will be glad to see any young people who desire suggestions as to their future school work or choice of occupation, at the parsonage, Friday afternoon or evening.

MASSAPEAG

John Murphy has moved to his summer home at Massapeag.

Mrs. Ida Bushnell and daughters, Ida May, Sadie and Hazel, of Taftville, spent a few days with Miss Delia Champlin of this place, last week.

Mr. and Mrs. Lyman Smith and Earl Smith and family called on friends in Lyme and New London, on Sunday, making the trip by automobile.

Services will be held at the Massapeag church next Sunday at 3 o'clock, (standard time) by the Rev. Charles Smith of Uncasville.

Mr. and Mrs. A. M. Etheridge are making extensive improvements on their place.

Don't worry because you have nothing to worry about.

STONINGTON

The first meeting of the Garden club will be held in the Community house on Tuesday, July 1, at 3.30 o'clock. An annual exchange of seedlings will be held. All members are requested to bring any seedlings that they may wish to exchange.

The wedding of Miss Mabel E. Ingraham and George H. Hyde of the borough will take place at the Second Congregational church, Thursday afternoon, June 26, at 5 o'clock.

Mrs. Josephine Rhymehouse and family of Mohokus, N. J., have rented a cottage at Lord's Point, and are stopping for a few days with Mrs. E. A. Monjo.

The annual meeting of the Stonington, branch of the American Red Cross was held Monday evening and the following officers were chosen: Chairman, Miss Maria B. Trumbull; vice chairman, L. D. Fairbrother; secretary, F. F. Dodge; treasurer, H. W. Babcock; chairman of membership committee, Mrs. F. R. Carrington; chairman of finance committee, Mrs. G. H. Robinson; executive committee, Rev. D. C. Stone, Miss Catherine Comstock, Miss Laura T. Wood; chairman of wool committee, Mrs. H. F. Daboll; chairman of surgical dressing, Miss F. C. Cutler; chairmag of hospital garments, Mrs. L. D. Fairbrother; chairman of refuge garments, Mrs. J. F. Joseph; roll call chairman, Mrs. G. L. Denison.

JEWETT CITY

The schools of Griswold have closed for the long summer vacation. Up until the time when the doors were shut and study ceased many of the pupils throughout the lower grades had gained much valuable knowledge about the spring and early summer flowers. Many were able to name and classify a hundred species, and even more. A woman living in town, not a native of this section, has proved herself to be a well posted and enthusiastic botanist. She said last week that it was a fact much deplored by her that when the New Hampshire schools were closed for the summer, when she went to daily sessions, as a girl, her study of the interesting flora of the Granit State generally ceased.

At this time a new life of midsummer flowers is thriving in local woods and fields, with the beautiful habenarias just parting with their last blossoms. Perhaps the most interesting member of local plant life, the round-leaved sundew, is now in blossom in the eastern borders of the big Tadpole cedar swamp. Those that go to search for this rare specimen will find but few. The last ones were located in a wet bog near the little red house which was brought into such pleasing prominence by the story, The Little Red House Under the Hill, written by Amanda Hall of Norwich.

The round-leaved sundew is the Drosera rotundifolia of the botenies and is the nearest thing to the Venus flytrap to be found in this section.

Local flower lovers once tried the experiment of feeding the plant on a number of small insects, which would be held by the sticky exudation from the bristles on the leaves, which later closed tightly over them.

The Venus flytrap is a native of a little more sunny latitudes, but is the same family as the flowers now in bloom in the Tadpole swamp. A recent article on plant life in the National Geographic finds a sort of twilight existing between the plant and the animal kingdom, and says: Touch the eye of a frog, and the eyelid closes. Touch the hairs of a Venus flytrap and the leaf closes. Etherize the frog and the leaf and neither the frog's eyelid nor the flytrap's leaf will close. Remove the ether and both will recover their sensibility.

Miss Alice A. Brown, at her home on the East Main street highlands, has as her guests Rosa M Rumstead of Boston and her niece Miss Lillian Leora Barber, of Westminster, Vt.

The state highway department applied a copious bath of oil to the road in the borough Wednesday. This evil and dirty libation was applied to the sidewalk as well, and also to the windward exposure of luckless pedestrians that happened to be using the public thoroughfare.

Miss M. A. Burdick has a southern queen rose in bloom. Its blossoms are a beautiful shade of pink, with the added attraction of a delicate odor. The plant was originialy grown at The Elms.

Jim Crary is the proud possessor of a strong horse. Hitched to a Main street electric light pole Wednesday afternoon, the animal exerted a little extra power on his anchor rope, being a bit startled by a passing automobile. The pole succumbed to the added horse power which, coupled with the draft of the span wires on top, from across the road, was too much for it, and it fell to the street. The electric light service men of the borough cut the wires and removed the pole within five minutes.

A shower was given Mrs. Lena Medick Heibel before her marriage, which was attended by Agnes Frankie, Mrs. T. W. [illegible] and daughters, Eleanor and Genevieve, of Mystic; Diana, Alexina and Lillian Pepin, Mr. and Mrs. Patrick Weaver and daughter Helen, Beatrice Read, Mr. and Mrs. Michael Modick of Occum, Eva Raill, Bernestine Richotte, Emma Jarvis, Bertha Heibein, Jennie Ray, Mr. and Mrs. Ernest Benjamin and daughters, Ida and Lillian, Tillie Strakwa, Mrs. Florence LaBoune, Mrs. Rose Mackin and Frances of Cranston, R. I., Ellen Campbell, Lewis Gray, Elmer Campbell, Leon Young, Charles Heibel of Cranston, Charles Campbell, Mrs. F. L. Tipton, Mr. and Mrs. John Medick and daugter Janet and Adam Medick Jr. Gifts of cut glass, money, wares and linen were received. Cake, ice creamm and coffee were served. The home of Mr. and Mrs. Adam Medick was decorated with flowers. The shower was arranged by Mrs. Helena Medick and Mrs. Patrick Weaver.

The last meeting for the summer of the Baptist Woman's Mission circle was held in the church vestry Tuesday afternoon. The vice president, Mrs. S. F. Brown, presided. The program was arranged by Mrs. A. M. Brown, the subject being A Missionary Hike. The first number was a Map Talk showing Christian centers in the United States. Other numbers read were: Th peogram fo activities which include religious and social activities, Mrs. Samuel Cathcart; Christian Center Religion, Mrs. N. J. Babcock; Los Angeles Christian Center, Mrs. E. M. Swift; Fellowship House, Omaha, Neb., Miss Idella Young; Brooks House, Hammond, Ind., Mrs. C. H. Butts; Cleveland's Christian Center, Miss Ariana Cook; How Judson Health Center Helped, Mrs. D. L. Phillips; Strong Place, Brooklyn, N. Y., Mrs. C. F. Gardner; Davenport House, Mrs. George Sparks.

Harold Faust returned from Northside school, Williamstown, Mass., Friday, with his brother, Edward A. Faust, Jr., and his cousin, David Eaglou. They will leave for New York, to sail Saturday on the New Amsterdam to spend the summer abroad. They will land at Boulogne-sur-Mer and travel through France, Switzerland, Germany, Holland and Belgium, sailing for home Sept. 4th.

Pachaug Community club meets at Grange hall this (Thursday) evening. A part of the program will be a play presented by Canterbury talent.

One of the most inhuman acts a person can commit is to carry a helpless cat away from its home and drop it beside the road to starve to death. People do this because they are too tender-hearted (?) to drown a cat or chloroform it. Recently an automobile of expensive make stopped before a house in Sylvandale, about 9 o'clock at night, dropped a kitten on the side walk and drove away, evidently knowing that there are people in the world who have a heart, if they did not.

Benjamin Miller recently visited his wife, who has had the misfortune to fall from a trolley and break her arm

Visitors From Putnam.

Among the recent visitors to Norwich were Miss Elmer Whittemore and her almost lifelong friend, Miss Lillian N. Giles, both of Putnam. They made their headquarters at the home of Mr. and Mrs. D. V. Neff, 465 Main street, parents of Mrs. Whittemore. During their stay they made flying visits to Ocean Beach, New London and Quaker Hill, the home of Mrs. J. D. Brown, a sister of Mrs. Whittemore

Do you want a clear skin?

If your skin is not fresh, smooth and glowing, or has suffered from an unwise use of cosmetics, here is an easy, inexpensive way to clear it: Spread on a little Resinol Ointment, letting it remain for ten minutes. Then wash off with Resinol Soap and hot water. Finish with a dash of clear, cold water to close the pores. Do this regularly, once a day, and see if it does not quickly soothe and cleanse the pores, lessen the tendency to pimples, and leave the complexion clear, fresh and velvety. Resinol Soap and Resinol Ointment are sold by all druggists.

An End of the Month Sales Event Begins This Morning
BRINGING DRASTIC REDUCTIONS IN PRICES ON SUMMER GOODS

THE END OF THE MONTH IN
THE APPAREL SHOP

Two hundred and twenty-five dresses, made of summer linens, voiles and other cotton weaves—of various silks appropriate to the season—and all of them so far below their actual value that there should be no question as to the speed with which they will leave us.

JUST SEVENTY-FIVE NEW SUMMER FROCKS WILL GO AT $5.00

They are all late purchases, representing the newest styles, the most acceptable materials, pretty colorings and models which are really clever. Among the seventy-five will be found summery plain and figured Voiles, dotted Swiss and pure Linen, every one of which is a value most exceptional.

COME EARLY AND SELECT CAREFULLY

100 SILK DRESSES
Sale Price $10.00
Most of these garments were taken from our Summer stock, and some very late novelties will be found among them. Among the various weaves will be found Flat Crepe, Satin Canton, Roshanara and Tub Silks, some of them in the new "Candy" stripes.
WONDERFULLY GOOD VALUES

50 Pure Linen Dresses
Sale Price $7.95
Here you will find just the type of summer dress you have been looking for. Linens look so cool for hot weather wear and these are certainly most attractive. All of the bright pretty colors so popular this season will be found waiting for you.

IN THE BOYS' SHOP
Values Which Will Attract Thrifty Mothers.

PROPRIETOR OF POST ROAD INN PAYS $300 ON TWO COUNTS AT NEW LONDON

(Special to The Bulletin.)

New London, June 25.—County Detective William Lewis and Prohibition Enforcement Agent Joseph Fitzpatrick raided the Post Road inn, Waterford, late this afternoon, and a search of the place revealed two cases of liquor. Mrs. Harriet Secord, proprietor of the place, and William Petterson, manager, were taken into custody. Mrs. Secord was accused of conducting the place and actual sale, while Petterson was charged with actual sale. Mrs. Secord and Patterson when arraigned before Justice of the Peace Daniel M. Cronin pleaded guilty. Mrs. Secord was fined $200 on the former count and $100 on the latter. Patterson was fined $100 and sentenced to ten days in jail, but the execution of the jail sentence was suspended.

The inn has enjoyed a large patronage this summer, particularly by auto parties.

The storm of tonight caused the bazaar of the Elks at Clarkin field to be suspended, for the downpour flooded the grounds so that walking about the place would be done in mud, ankle deep.

Two arrests were made today at Groton when two men, both by the name of Charles James, cousins, residing at 561 Thames street, were taken into custody by state police, charged with violation of the liquor law. They were held in bonds of $500 each for their appearance in the Groton town court next Monday forenoon. State Policemen S. J. Albright, William L. Schotgham and Giles Watson were the raiding officers and they found 100 bottles of home brew at the place. The beer was seized and will be used as evidence against the accused.

An automobile owned and driven by J. E. Wallace, stationed at the submarine base and a car owned and driven by Fred Fairbrother, Stonington, were in collision this evening at the corner of Broad and Huntington streets. Both cars were damaged.

James L. Bankston, 40 Hempstead, appeared at the police station this evening and reported that last night about 9 o'clock he was on Water street, near the corner of John street, when two strangers engaged in a fight. Before the fight started Bankston declared that one of the battlers handed him a gold watch to hold while the fight was in progress, and when the battle ended the owner of the watch disappeared without recovery of the timepiece. Bankston claims he does not know the owner of the watch, but wants to return it to the owner.

Mrs. Alden Johnson, Pleasure Beach, Walter Clark, Gales Ferry, Mrs. Charles Bishop and infant daughter, 871 Broad street, Mrs. Frederick Lewitsky and infant son, 36 Georgiana street, Mrs. William Sewer and infant daughter, 18 Shapley street, Miss Mary Pulski, 531 Main street, and Miss Nettie Mariani, Groton, were patients discharged at Home Memorial hospital today.

William R. Rose, son of Mr. and Mrs. William B. Rose, 331 Huntington street, and Miss Edna M. Fryer, South Norwalk, were united in wedlock Monday evening at the parsonage of the Methodist Episcopal church, Hempstead street. The ceremony was performed by Rev. Myron E. Genter. The couple were attended by Mr. and Mrs. Henry Kesson, Newport, R. I.

Joseph Fleming, Brattleboro, Vt., has concluded a several weeks visit with Mr. and Mrs. Joseph F. Corcoran, Garfield avenue.

Mrs. H. J. Sharaf, 17 Grand street, is a patient at a Youngstown, O., hospital, where she recently underwent an operation. Her condition is reported as improving and it is expected she will be able to return to New London early next month. Mrs. Sharaf was visiting relatives in Youngstown when she was taken ill and so serious did her condition become that she was transferred to the hospital for immediate operation.

Mrs. Betty Monroe has returned to her home in Brooklyn, N. Y., after having visited several days with E. C. Peck and daughter, Miss Annie Peck, 84 Golden street.

Mrs. Witherbee, Uncasville, lost a handbag on the streets of this city today while shopping. It was found and turned over to a patrolman, who delivered it at the station house, where Mrs. Witherbee later recovered her property.

The police were informed this forenoon by a teacher at the Chapman Technical school that the watchman in the employ of the New England Collapsible Tube company had observed intruders in the school early this morning, but so far as could be ascertained nothing of value had been removed from the school and neither was there any evidence of doors or windows having been forced. Considerable valuable property is stored in the school and in the future the police will maintain more strict watch of the place.

A fire occurred at the plant storehouse of the Connecticut Power company, Water street, early Tuesday morning that threatened to cause serious damage. The fire was located among a quantity of spools and was burning briskly when the flames were noticed. Before an alarm could be turned in the heat of the flames started the plugs of the sprinkler fire protection installed there, with the result that the quantity of water that was emptied upon the flames quickly caused them to be extinguished, and without great damage. How the fire originated it is not known.

The plant of the Robert Gair company at Montville will close down Saturday night for a fortnight, if not for a longer period. The reason for the suspension of work there is attributed to a lack of orders.

Four violators of the parking ordinances were arraigned in the police court this morning, but they all escaped the penalty that has come to many before them. Three of the quartet were innocent offenders, probably, for they parked their cars in the space in front of the railway station set apart for public service cars. Up to a week ago there was no attention paid to infringements of the ordinance there for no public service car appeared to be inconvenienced and no one made complaint because other cars were parked with the public jits. But now the police are disposed to enforce ordinance. So the arrests came. Judge Prince failed to pass judgment in the cases, but continued them until the 9th of July, with instructions to the offenders that they must not violate the ordinance again. Morris Epstein was fined $5 for parking his car on Bank street, where he allowed it to remain an hour while he was about trying to do some business.

John Burns rolled in here from Hartford and brought with him a jag that slopped over when he had been here a while. Burns said he intended to secure employment at the state hospital at Norwich, but if he had that idea he must have abandoned it before he reached this city. He rambled into the Learned Mission and there became so boisterous and offensive that George Noyes, the party in charge, called the police. Burns did not have any money, but he was of the opinion that he could get to Norwich, so he was allowed to make a start in that direction.

Another batch of alleged violaters of the automobile law will be arraigned in the police court tomorrow morning. Some of the alleged offenders are owners of private cars, who persist in parking their machines on the space between the Soldiers and Sailors monument allotted to public service cars. The public service operators recently complained to Captain Charles A. Pinney because the law was being violated by the private car owners.

Angelo Ferando, 19, of 36 School St., Westerly, was arrested this afternoon by Traffic Officer Frank Linehan and will be arraigned in the police court tomorrow morning charged with operating an automobile without having a license and without providing himself with registration. The car, which is owned by J. Pancero, Bradford, R. I., and which was taken from Ferendo, is stored in a garage awaiting its owner to claim it. Ferendo was taken into custody at the corner of Main and State streets when the operator's irregular operation of the car was observed.

Mrs. Harry Manheimer and son, Seymour, Green street, returned to their home on Pearl street today after having visited relatives in New York several days. Mrs. Manheimer was accompanied back to New London by her brother-in-law, Samuel Manheimer, who will remain here the balance of the week.

Miss Annie Hebbard, 84, died late last night at her former residence, 14 Thames street, following a lingering illness. Miss Hebbard was a native of Scotland, this state, but had resided in New London a half century. She is survived by several nephews and nieces.

An automobile truck, owned by Tait Brothers, and operated by Francis Sullivan, 556 Bank street, collided with an electric light pole on North Bank street this forenoon, opposite the B. P. Learned mission when Sullivan misjudged the distance of the cab of the truck and the pole. A section of the pole was ripped away, an arc light suspended from it demolished and the alarm wires torn down. The latter mishap caused the fire alarm to sound irregularly the greater part of the afternoon and until repairs had been completed. The truck was slightly damaged.

Frances Bennett and Florence Le-Mar, two girls of about 18, and who claimed to reside in Roxbury, Mass., were arrested this morning by Sergeant Nelson Smith and Patrolman Philopena suspected of being runaways. The girls were observed by Patrolman Philopena soliciting rides upon automobiles headed for Boston when the machines reached the approach of the Thames river highway bridge. When taken to the police station the girls had about $1 between them, but they were sent home when the Associated Charities furnished the transportation for the pair.

An automobile, operated by Miss Jean Crosby, 147 East 24th street, Indianapolis, was in collision with an automobile truck operated by Arthur Perry, Broad street extension, Waterford, this afternoon. The pleasure car sustained the brunt of the damage. Miss Crosby was following the truck northward on Bank street. Near the corner of Golden street the truck came to a stop suddenly and without Perry giving a signal with the result that Miss Crosby's car crashed against the rear of the heavier vehicle.

W. T. Jacques, 371 Pequot avenue, this afternoon, requested the police to apprehend the driver of an automobile, whom Jacques declares operated the automobile recklessly on Montauk avenue, near Converse place, and nearly collided with Jacques as he alighted from a trolley car. The police ascertained that the owner of the car is Mrs. Angelina Murphy, 32 Sherman street and that the driver was her brother. The latter will be given a hearing in the police court tomorrow morning.

Master Perry Harten, Hotel Mohican, John Gagnon, Jr., Ocean avenue, Felix Cural-Silvestris, Old Lyme, Mrs. Vito Belucci and infant son, Fuller street and Mrs. William Colenian and infant son, Howard street, patients at Lawrence-Memorial Associated hospital, were discharged today.

Police Sergeant Frank Howard resumed his duties today after having been confined to his home, Walker street, three weeks by illness.

Patrolman Braxton Hill discovered the entrance to the market of Harrigan Brothers, Bank street, unfastened last night. The owner was notified and made the place secure for the balance of the night. Patrolman Patrick Sheehan discovered a rear window of the store of Arthur Kenyon, Bank street, open. The owner was located and visiting the place, made it safe against intruders.

Frank Corcoran is confined to his home, Garfield avenue, by illness not, however, believed to be of a serious nature.

Death, evidently, has traded his pale horse for an automobile.

Wonderful for Piles Says Peterson

"I Guarantee My Ointment" Says Peterson—Every Box of It.

If you received every week a dozen or more letters like the one below from people who have suffered torments from piles, wouldn't you feel happier than the man whose life is devoted to money grabbing?

"Gentlemen—I have been suffering with a fistula for the past twenty years. During that time I have tried numerous remedies, all of which have failed.

"Two months ago I determined to give Peterson's Ointment a trial. The improvement was so decided after using one box, that I have continued, and on the completion of the fifth box am now entirely cured.

"This is written with the view of passing along the good word to other sufferers." Very truly yours, Chas. E. Caswell, 282 Third Street, Albany, N. Y.

Besides piles Peterson's Ointment is just as good for ulcers, old and running sores, boils, eczema, itching skin, sore feet, prickly heat, sunburn, chafing, cuts, burns, bruises, scalds and scores of other ailments as any druggist anywhere will tell you. 35c, 60c, $1.00.

WHEN YOU WANT to put your business before the public, there is no medium better than through the advertising columns of The Bulletin.

LEONARD BRIDGE

Miss Lizzie Newberry is spending two weeks with friends in East Haddam.

Theodore Blan, Charles C. Carpenter and Royce McCall, are doing carpenter work in Colchester.

Miss Lillie Malkin returned to New York, Sunday, after spending a week with her sister, Mrs. Max Himelstein.

Mrs. Max Lubetsky recently visited her father, Solomon Choose, in Willimantic.

Mrs. Helmold and Mrs. McGillicuddy of Willimantic were recent callers at Mrs. E. H. McCalls.

Maurice Harrington; recitation, My Schoolroom, Ebba Oikkonen; song, Stars of the Summer Night, school; essay, Travels in the Oil Regions, Fred Congdon; dialogue, That Calf, Grades 4, 5 and 7; song, Columbia the Gem of the Ocean, school.

After the program cake and ice cream were served. There were over thirty visitors present. In this school the past year were enrolled thirty-six pupils, two of whom were graduates Fred Congdon and Lloyd Barber.

Edith Williams, Emil Williams and William Lintberg were present every day during the year. Miss Tanner is a very efficient teacher working always for the uplift of her school and it is desired by all that she return for another year.

ONECO.

Mr. and Mrs. Orren Kenyon and Mrs. Mildred Wibber and son, Lyndon, of Moosup, were Sunday visitors at Fred Holt's.

Miss Mary Kavanaugh, of Providence is visiting at Horace Burdick's.

Francis Carpenter of Providence spent Sunday at his home here.

Mr. and Mrs. Horace Bonns and Mr. Welch, of Providence, visited Sunday with Simon Brewin.

Mr. and Mrs. Gilbert Fasterson, Miss Zillah Marriott and friend of Providence were Sunday visitors at J. H. Marriott's.

Miss Mabel Kennedy of Central Falls spent Sunday with Mrs. Ellen Waite.

Mrs. Simeon Brewin and two children are visiting relatives in Jersey City, N. J.

George Shepherd returned home from New York, Sunday morning, where he accompanied Mrs. Shepherd and three children, who sailed Saturday on the steamer Lapland, for a visit in England.

Thomas Underwood and Tom Brewin are working in Suncook, N. H.

Mr. and Mrs. Earl Holt and little son, of Providence, are visitors at U. S. Burdick's.

LIBERTY HILL

Carlton A. Cunningham and Marion N. Mason were married Saturday evening, June 21st, at the parsonage, by Rev. W. S. Woolworth. They were unattended.

Mr. and Mrs. W. D. Cleland and children, Vivian, Ruth and Walter, Jr., and Milton Windsor, of Plainfield, were guests of Mr. and Mrs. John Kinnaird Sunday.

Mrs. Annie Davull of New Bedford and Mrs. Wilbur Davoll of Mansfield were visitors at Calmere Thursday, also making a short visit with Mrs. Frank Davell.

Mr. and Mrs. Henry V. Oehler and son, Homer, attended the Windham High school graduation exercises Thursday evening. Mr. and Mrs. Oehler's are graduates of the school.

Mr. and Mrs. Jensen of Putnam, called on friends here Thursday. Mrs. Jansen taught the local school two years ago.

Word has been received that the new carpet for the Liberty Hill church was shipped from Philadelphia Monday. It is hoped that it will be laid in time for services in the church next Sunday. If not, the services will be held in the church rooms.

Farmers are commencing haying as grass is quite forward.

Winthrop D. Davoll is shingling his large barn.

J. Earl James and Frank D. Davoll went to Norwich Tuesday, to do jury duty.

Horace Foote has a cow that gave birth recently to twin calves.

Mr. and Mrs. C. B. Adams and Mrs. Annie L. Harvey motored to New London Sunday to visit relatives.

The C. E. society held a strawberry supper at the church rooms Tuesday evening, which was well patronized. The proceeds are to be used to defray the expense of repairs on interior of Liberty Hill church.

WOODSTOCK

Mrs. George M. Sampson had a sale Tuesday of bedspreads, table runners, and bags made by the students of Berea College, Kentucky, for the benefit of the College.

Rev. and Mrs. David P. Hatch have returned from their wedding tour and are now at the parsonage.

Next Sunday morning Mr. Hatch will preach the sermon to Putnam Lodge of Masons, No. 46.

Principal and Mrs. Maurice F. Childs were in Amherst last week attending his decennial class reunion.

The foundations are now being laid for the Bracken Memorial Library.

Mrs. Frank L. Perrin has purchased the Woodstock place and is now making improvements to the property.

Not Uncommon Man

"I know a man dat can't tell de truth," said Uncle Eben. "He's mighty good company, too. He has to be so's he kin make new friends an' find somebody to believe him."—Washington Evening Star.

ANDOVER

Mrs. Ward Talbot has gone to New York to visit her daughter Elsie.

Mrs. Thomas Lewis is entertaining her mother, Mrs. Shippee, of Chaplin, Conn.

Mrs. A. E. Frink is visiting her daughter in Bristol.

Miss Essie Frink has as her guest Miss Laura Hills of Hebron.

Mr. and Mrs. E. M. Yeomans have gone to New York to attend the democratic national convention.

John Griggs and mother of Massachusetts were visitors at the home of F. L. Hamilton Sunday.

Byrd Standish of Pennsylvania is spending a few days' vacation at the home of his parents, Mr. and Mrs. E. A. Standish.

The Girls' league will meet with Myrtice Mathewson on Friday evening.

Miss Dorothy Raymond of Hartford was a week end visitor at E. M. Yeomans'.

There was a large attendance last Saturday night at the dance in the town hall.

Mrs. C. A. Faulkner was a Hartford visitor Tuesday.

Quite a number of the telephone numbers are to be changed to new lines soon, parties having received notices to that effect.

Miss Helen Jewett spent the week end in Granby.

STAFFORD SPRINGS

Miss Jennie Argenta, daughter of Mr. and Mrs. John Argenta and Renata Bressau, son of Mr. and Mrs. Angelo Bressau, were married at St. Edward's church Wednesday morning at eight o'clock, Rev. Felix J. O'Neill, pastor of the church performed the ceremony and also sang the nuptial high mass. The bridesmaid was Miss Mary Argenta a sister of the bride and Aldo Amprino acted as best man. The bride was gowned in white georgette and satin trimmed with lace. She wore a veil caught with orange blossoms and carried a bouquet of white roses and lilies of the valley. The bridesmaid wore a honey dew georgette gown trimmed with ecru lace. She wore a black hat and carried pink sweet peas and pink roses.

A wedding breakfast was served at the home of the bride's parents after the ceremony. Later in the day Mr. and Mrs. Bressau left town for a wedding trip to Niagara Falls and upon their return they will reside in Stafford Springs.

Peter Zigaldo of Willington was fined $25 and costs, totalling $38.83 by Judge Heald in the borough court, Wednesday afternoon. Deputy Sheriff Eldrege, who made the arrest, said that he had received a complaint about Zigaldo operating without a license. He saw the young man driving a car Tuesday and when accosted by the officer the defendant said that he had a license. Upon being asked to produce the license he was obliged to admit that he had never had a license to operate a car. His father, Frank Zigaldo, paid the fine and costs.

Miss Florence Uncle of South Coventry, a teacher in the local high school, was in town on Tuesday.

The man who owns a paying oil well lives on the fat of the land.

Gained 10 Pounds In 22 Days

That's going some—but skinny men, women and children just can't help putting on good, healthy flesh when they take McCoy's Cod Liver Oil Tablets.

As chock-full of vitamines as the nasty, fishy-tasting cod liver oil itself, but these sugar-coated, tasteless tablets are as easy to take as candy, and won't upset the stomach.

One woman gained ten pounds in twenty-two days. Sixty tablets, sixty cents. Ask Lee & Osgood Co., or any druggist for McCoy's Cod Liver Oil Tablets. Directions and formula on each box.

"Get McCoy's, the original and genuine Cod Liver Oil Tablets."

The Danger Mark

NOTHING is more important than the proper preservation of food for your household.

In the ordinary ice box it is practically impossible to obtain at any time the scientifically correct temperature for ideal food preservation. The temperature inside the box will vary with the room temperature, and on hot days will be as much as twenty degrees higher than it should be. When it rises to fifty degrees there is immediate danger of food spoilage.

In the ice box, too, damp air—and frequently still air—tends to spoil any food in a comparatively short time.

With Frigidaire, the electric refrigerator for modern homes, temperature in the food compartment can be held *at all times* at about forty-four degrees—the point which will give ideal refrigeration and preserve all kinds of food in freshness and purity for an almost indefinite time.

In Frigidaire, too, there is a constant circulation of *cold dry* air which keeps the temperature of *every* compartment always at the proper point.

Frigidaire has been designed *scientifically* to accomplish this purpose. The dimensions of each compartment and of the whole cabinet, the method of air circulation, the provisions for perfect insulation, all of these have been worked out with the sole purpose of greater economy—better food preservation.

Frigidaire not only protects the health of the whole family, but also adds much to luxury and convenience. It freezes dainty ice cubes for drinking water. It makes new frozen desserts that you have never been able to have in your own home before.

Frigidaire is a product of the General Motors Corporation—dependable and satisfactory in service. And with all its other advantages in will probably cost less to operate than you now pay for ice.

We shall be glad to have you inspect Frigidaire at our display rooms or to send you our descriptive booklet.

Frigidaire is a complete unit refrigerator with refrigerating mechanism and cabinet built to work together, giving perfect refrigeration at minimum cost.

Proper air circulation, even temperature, dry atmosphere, freedom from trouble and economy in operation have been accomplished by designing and building Frigidaire as a complete unit.

THE ELECTRIC REFRIGERATOR *for* MODERN HOMES

When the doctor says —"Cut out potatoes!"

When your mirror—and the scales—and an increasing waist line—warn you that you must reduce, the doctor will tell you to "cut out potatoes."

Ask him this question:

"How about Macaroni, doctor?"

"Fine!" he will reply. "Eat all the Macaroni you want."

Then try Mueller's, the Macaroni "with the better taste"—and you'll find you want a great deal of it!

You'll be surprised to find what a delicious and satisfying every-day food Mueller's is; and you'll be delighted to see how it saves you time and labor, and helps keep your hands soft and white.

Only 9 minutes to cook Mueller's—and it takes 35 to 40 minutes to peel and cook potatoes. No dirt, no mess, no peelings, no waste!

Eat Mueller's Egg Noodles Instead of Potatoes

A Helpful Change in Your Daily Fare

Mueller's Egg Noodles are made from the finest spring wheat flour, with plenty of fresh eggs. Their flavor is more rich, delicious and satisfying than any Egg Noodles you ever tasted, and you can serve them in many simple, easy ways, just as you do potatoes—with butter, with sauces, with meat gravies or with sauerkraut. In place of potatoes creamed, fried or au gratin, prepare Mueller's Egg Noodles in the same way.

These are the simple, easy every-day ways of preparing Mueller's; if you want novel, elaborate dishes, send for our new Recipe Book, containing 43 unusual and delightful ways of serving Mueller's Macaroni, Elbow Macaroni, Spaghetti and Egg Noodles. Address C. F. Mueller Co., Jersey City, N. J.

FINANCIAL AND COMMERCIAL

MARKET WAS FIRM.

New York, June 25.—Filing of the government's suit against fifty of the leading oil companies inspired heavy selling of the oil shares in today's market by speculators for the decline who apparently attempted to unsettle the general list, but they made little headway and prices eventually moved higher in response to another impressive demonstration of strength by the railroad shares. Trading was in greater volume, total sales crossing the 1,000,000 share mark for the first time this week.

Rumors of mergers and increased dividends provided the ground work for another buying movement in the rails more than a score selling one to several points above yesterday's closing prices and a dozen or more attaining new peak prices for the year. Southern Railway touched 63 5-8, the highest price in its history, while New Haven, Atchison, Northern Pacific and Chesapeake & Ohio, Pere Marquette common and preferred, Reading common and preferred, New York Ontario and Western, Great Northern preferred and St. Louis Southwestern preferred were among those to sell at new peak prices for the year. Marked strength also was displayed by Lackawanna and New York Central, buying and New Jersey, Houston, Atlantic Refining, Producers and Refiners and Shell Transport down 1 to 1 3-4 points, but all made good recovery later, Atlantic Refining closing at 87 for a net gain of one point. U. S. Steel closed fractionally higher at 97 1-4, while Baldwin and American Can rallied briskly just before the close of what appeared to be active short covering.

Among the specialities Kresge jumped 5 points to a new 1924 high at 50, while Montgomery Ward touched a new top at 29 3-8. Savage Arms, also developed marked strength, moving up nearly three points to a new high at 57 1-8 on buying attributed to financial interests who are impressed with the potentialities of the company's new electrical devices, which are reported to be netting a large profit. Brooklyn-Manhattan Transit issues resumed their rise to new high ground on the stimulus of an increase in fare proposed to the New York and Queens Traction company. Other outstanding strong spots included Woolworth, Sears Roebuck, Fleischmann, Cuyamel Fruit, Schulte Stores, General Baking, American Water Works common and 6 per cent preferred and Loose Wiles Biscuit, all of which closed 2 to 4 points higher. Call money again ruled at 3 per cent. The time money market was dull with no change in rates and borrowers unwilling to pay more than 3 3-4 per cent for the shorter maturities. The rate of prime commercial paper continued to move at 3 3-4.

The feature of the foreign exchange market was the establishment of a new high record for the year by Canadian dollars at 99 cents, which was attributed to the transfer of funds to Canada for the purchase of Canadian securities because of the cheap money rates here. Other foreign rates held relatively steady, demand sterling being quoted around $4.82 1-2 and French francs around 6.30 cents.

CURB MARKET.

New York, June 25.—Sharp recessions in the oil shares following heavy selling inspired by the government's anti-trust suit against the leading oil companies of the country, and a remarkable 7 point gain in grand 5-10-25-cent stores following the 5 point jump of yesterday, were the outstanding features in today's curb market.

South Pennsylvania Oil broke 11 points to 117 and then rallied to 120 while net losses of 2 to 3 points were registered by Prairie Oil and Gas Vacuum. New Mexico Land was one of the few shares in this group to move against the current trend, crossing 8 on buying based on the making of a contract for the geological examination of the company's land by the Texas & Pacific Coal & Oil company.

Lehigh Valley Coal certificates were again active, more than 20,000 changing hands. The closing price of 35 5-8 represented a net loss of 1-4. Radio stocks held firm and public utilities showed mixed changes. Fresh weakness developed in Durant Motors which fell below 14 for a net loss of 3-4.

Bonds were active and firm.

BOND MARKET.

New York, June 25.—Curious cross currents in the bond market today held down the average of prices although a variety of individual issues achieved new 1924 high records. Trading activity expanded after an initial period of dullness.

Although price changes were relatively narrow, a widening inquiry for speculative railroad issues enlivened trading in that section of the list. Growth of the consolidation movement among the railroads furnished the buying power in several cases and contributed to substantial improvement in New Haven, "Katy" Denver & Rio Grande, Missouri Pacific and International-Great Northern liens. Erie bonds were subjected to profit taking.

A strong underlying demand for the high grade rail mortgages also was in evidence. New York CeCntral 6's jumped 1 3-8 points to a 1924 top price at 107 3-8. Gains of a point or so were recorded by Pennsylvania, Southern Railway and Hudson and Manhattan issues. Investment buying carried U. S. Steel 5's to the year's highest level at 105.

The Atlantic Refining company completed negotiations with bankers for the sale of $15,000,000 two to four-year notes, which are understood to bear interest at 4 1-2 or 5 per cent. Public offering is expected shortly.

CHICAGO GRAIN MARKET

Chicago, June 25.—Corn and oats shot skyward in price today, both showing at one time an overnight gain in some cases of more than five cents a bushel. Exceptionally adverse conditions for the corn crop were reported. Corn closed strong 1 1-8 to 1 1-4c net higher, July 93 1-4 to 93 1-2 and September 91 3-4 to 92 with wheat firm at the same as yesterday's finish to 1-2c up. July 1.14 3-8 to 1.14 1-2 and September 1.16 to 1.16 1-8. Oats closed at 1 to 3 1-8c advance. In provisions the outcome was unchanged to 10 @ 12c higher.

Active buying of corn, especially on the part of traders who had contracted to make deliveries in July sent that month quickly to above ninety cents for the first time this season. Other deliveries were prompt also in breaking the season's high price record. The weather forecast pointing to more rain, although the crop had already been deluged and the majority of fields were reported to be far behind the stage of development usual at this time of the year, scarcity of receipts here gave further impetus to the upward swing of the market. Only 23 cars of corn arrived in Chicago today.

Announcement that one of the most widely known crop authorities in the country had described the outlook for corn as desperate, parallel in the experience of many years, had much to do with stimulating the increased demand from buyers. Word that some Argentine corn had been bought to come to New Orleans New York and Montreal, failed to check the upward movement of values and a purchase of 5 million bushels for number two white corn was reported at St. Louis.

Oats shared in the activity and strength of corn. All deliveries of oats reached new high records for the season. Wheat was relatively quiet, and was steadied by corn strength.

Provisions reflected firmness of hog values and of grain.

METAL MARKET.

New York, June 25.—Copper quiet, electrolytic spot and futures 12 3-8@12 1-2. Tin firm, spot and futures 43.37. Iron steady, prices unchanged. Lead steady, spot, 7.00. Zinc quiet, East St. Louis spot and nearby 5.75. Antimony, spot, 9.45.

COTTON.

New York, June 25.—Spot cotton steady, middling 30.15.

EKONK

At last, summer has come to cheer us with sunshine and flowers.

The funeral of Mrs. Florence Maynard was solemnized Saturday morning at her late home here, Rev. Mr. Prentiss of Plainfield officiated. The deceased is survived by three children who mourn the loss of a loving and devoted mother, Harry Maynard, Mrs. Warren Tanner and Lizzie Maynard, who has tenderly cared for her during her illness. Burial was in the Pleasant Valley cemetery in Lyme. There was a profusion of beautiful flowers. Undertaker Tillinghast of Central Village had charge of the burial service.

Miss Amy Potter closed a successful year of school here, Friday, with a picnic to which parents and friends were invited.

Helen Congdon and Arthur Gallup are at their homes here for the summer vacation.

Mr. and Mrs. J. E. Tanner, Mrs. Edwin Gallup and daughter, Florence, Mrs. Ida Frink, Miss Ella Gardner and Jennie Walker were among the number who attended the Social Corner meeting in Central Village last week Wednesday, all report a fine time.

Mrs. Charles Tanner and baby, Frances, spent last week with her parents, on Sterling Hill.

[illegible] Gallup graduated from the annual commencement [illegible] University, Providence [illegible] his grandson, Charles H. [illegible] received the degree [illegible] cholor.

Mr. and Mrs. L. C. Tanner and Miss Ma[illegible] motored last week to Gloucester [illegible] don [illegible]

The [illegible] ing [illegible] even [illegible] even.

Elm[illegible] represented at the high school graduation in the new high school auditorium, Central Village. The address by Prof. Z. W. Coombs of Worcester Polytechnic Institute was an inspiration to all.

Raymond and Richmond Young, Russell Gallup and Joseph Hawkins started, Saturday, for the White Mountains, where they will be the guests of Mr. Watson, principal of the Sterling Center grammar school and enjoy camp life.

Mrs. Daniel Sayles of Danielson is spending a week with Mrs. Alva Sayles and calling on old neighbors and friends.

Mrs. John Frink and daughter-in-law, Mrs. Albert [illegible]

[illegible] Mrs. Byron Gallup, motored to Norwich, Westerly, River Bend cemetery and Watch Hill, last Friday.

The postponed community meeting is to be held this (Thursday) evening and it is expected that there will be a large attendance as a fine program has been arranged by the committee in charge.

SUNDAY—THE BREAKING POINT

NOANK

The Noank Fire company held a special meeting in their rooms on Cedar street Tuesday evening to decide on their new uniforms which they are to have for the field day in New Haven in August. About twenty in all were measured. They also made plans for their parade which is to take place this week on the school grounds, with the Ladies' auxiliary as their helpers.

Thomas McGowan left Wednesday for Edgartown where he has shipped on a boat with Capt. Fred Morgan of this place.

Lem Lippincott and force of men have gone to Stamford where they have accepted a yearly job in the summer. Twelve boats are to be built for the government.

John Scrozzins has the contract of painting the DeVine house at Groton Long Point.

Charles Potter of Norwich has installed a new sun dial at the entrance to his summer home on Riverview avenue. Many interested people have gone to see it.

The report from the lobstermen is that their catch is running small so far this season. They are looking forward to larger catches within a few days.

Mr. and Mrs. Joseph Hammond of Boston are visiting in town.

Among the New London callers this week were Mrs. Horace White, Mrs Hiram Latham, Mrs. Gertrude Sawyer Miss Bessie Morgan, Mrs. William Eccleston and Mrs. Thomas Lee.

The Noank baseball club will play the Potter Hill club in Noank, at Williams' park, Saturday afternoon.

Mrs. Peter Lunas and son are visiting relatives in town

John Lawler has returned to Springfield after visiting his parents at Rose cottage.

Louise Clark and Annie Geer of Ledyard were callers in town this week.

Louise Sisson of Shannock R. I. was a recent caller on friends here.

William Connell visited friends in Deep River yesterday.

Lawton Mills Dividend

Directors of the Lawton Mills Corporation, which has mills at Plainfield have declared the regular quarterly dividend of 2 1-2 per cent payable June 30 to stockholders of record June 24.

28	4 16	7 25	6 48	2 04
29	4 17	7 25	8 58	2 38

Six hours after high water it is low water, which is followed by flood tide.

TAFTVILLE

A giant firecracker touched off by a small boy on South Second avenue near the corner of Providence street was the cause of a lively runaway that created some little excitement in that section of the town Wednesday morning. Joseph Lobe, a Lisbon farmer, who collects the garbage at the Ponemah house for food for his pigs, had left his horse standing on Providence street about midway between the top and bottom of Post Office Hill, when the giant cracker exploded with a deafening report. The horse at once bolted, headed down the hill, then changed its mind, turned around on the hill and galloped up Providence street. While the team was turning around, it overturned, and the garbage and other contents covered the road. The horse freed itself from the wagon and ran the length of several houses on Providence street where it was stopped by Henry Rourdon and Second Selectman Charles P. Bushnell who was working on the street. The wagon was not damaged, although the seat had become loosened and was found quite a distance down the road, and with the aid of a few bystanders, it was righted and the horse again hitched up, and Mr. Lobe continued on his way to Lisbon.

Miss Gertrude M. Young of North Third avenue has gone to a girl's camp in Vermont where she is to be hostess for the summer months. She was accompanied there by her brother and sister-in-law, Mr and Mrs. George H Young who made the trip in their automobile. The camp is located across the Vermont border from Lancaster, N. H.

Miss Anna M. Beardow of Providence street has opened her summer home Pine Knoll, at Pine Grove, Niantic for the summer season. Newell Beardow and Grosvenor Beardow are at the Grove for the summer.

Euzene St. Pierre of Providence street who has been spending several weeks with relatives in Canada, has returned and has resumed his duties in the No. 1 weaving department of the Ponemah mills.

Postmaster Dennis C. Murphy has received word from the office of the Postmaster General that he is to have supply of blanks forwarded to him by the Adjutant General of the Army, for the use of war veterans in making their claims to the War Department.

Miss Alma Dupuis of South Fourth avenue has gone to Montreal, P. Q., Canada, where she will remain for several weeks.

Mrs. Clarence J. Nagle of South Second avenue is in Boston, for a few days stay.

Miss Mary Marien of South A street is enjoying her annual vacation.

The sad accident in the Shetucket river, Tuesday when Frances Sophia Erlbeck and Jane Violet Mayor were drowned, was a severe shock to the people of the village. Both little girls were well known and had many friends. They were pupils at the Wequonnoc school and were very bright and progressive scholars. Little Jane Mayor was one of the popular members of the Taftville Congregational church school, and she will be greatly missed by her classmates.

Chairman George J. Meyer presided at the monthly meeting of the Taftville Congregational church standing committee Tuesday evening. The committee decided that the alterations made necessary by the installation of the new pipe organ, are to be made in August when the church is closed. A new place for the choir will have to be built, and the pulpit is to be extended for a short distance. The architect's plans, which provided for only one stairway to the platform, are to be changed so that two stairways can be built, as is now the case.

Work on Providence street is well along, the surface of the road being treated with tarvia and gravel. This is the only street in the village running east and west, which is cared for by the town of Norwich. Second Selectman Charles P. Bushnell is in charge of the work.

Harold E. Linderson of Putnam has been a recent visitor at the home of Mr. and Mrs. E. W. Yerrington and family of South Second avenue.

Eugene St. Pierre of Providence street who has been in Canada for some time has returned to town and has resumed his work in the No. 1 weaving department of the Ponemah mills.

LAWN MOWERS

For over ten years we have sold the Worcester Lawn Mower. It is a very good machine at a moderate price. We sell more every year. Some of the first we sold are still in use.

HOUSE PAINT

Fifteen years we have sold Wadsworth, Howland's, Highland Mixed Paint, and sell more every year. It gives satisfaction.

NORWICH CREDIT ASSOCIATION
GIVES INTERESTING DEMONSTRATION

The monthly meeting of the Norwich Credit Association was held Wednesday evening with a supper at 6.15 at the Wauregan house and a programme of special interest to the attendance of about 30. A demonstration of credit methods by members of the association was followed by a brief and interesting talk upon Honesty in Business by Rev. Alexander H. Abbott, who was a guest of the Association.

President Fred Fleming was toastmaster and during the luncheon hour there were solos by Miss Rosanna Peloquin and Fred H. Maples, with Leonel Ethier at the piano. John J. O'Rourke led in the singing of popular songs.

As he opened the meeting after the supper had been finished, President Fleming spoke of the remarkable results that had been achieved in the six months during which the association had been organized and he invited merchants of the city generally to join the organization.

A demonstration period was conducted in the question and answer form, which was followed by a quiz conducted by C. Edward Smith. Portraying the customer meeting the credit man of firm to establish his credit to buy a bill of goods on time payments, Mr. Latimer and Mr. Curland, Mr. Connell and Mr. Henschel, demonstrated how an acceptable credit could be established or refused, and Mr. Dunbar and Mr. Caron demonstrated the acceptable basis for making a loan.

President Fleming introduced Rev. Mr. Abbott who spoke with great acceptability to his audience, introducing some humorous touches as he referred to some of his own experiences in Albany in establishing his own credit.

Summing up his observations of the demonstrations that had been given, Mr. Abbott said that it was apparent that there were four main points in the inquires that the credit man makes. What are the assets of the applicant? Are they of the kind and amount to warrant granting the request? Second; Is the man a going concern, steady, without too great outlay for his income, or of the will to the misp type? Third; What are the potentialities of the man? Is he standing still or is he striving to better his condition? Has he a view to the future and a better future? Fourth and largest in importance is the personal equation. This is the greatest fact in our financial relations. Mr. Abbott gave several instances to illustrate this point and went on to say that it was important for the citizens of Norwich to establish the credit of this community in terms of enlightment; in terms of education, in terms of progress that we have not yet begun to approach. We have a long way to go to establish this community in the creditable standing that we should hope for it in many different ways, but this is an obligation on the part of its citizenship and something to which all may contribute towards the community progress.

The gathering gave Mr. Abbott enthusiastic applause and a rising vote of thanks. There were votes of thanks also for the musicians and the meeting adjourned at 8 o'clock with the singing of The Star Spangled Banner.

On the small table at which those conducting the demonstrations were seated were two lettered signs bearing the words "Reputation Is Sacred" and "Our Discussions Are Confidential."

PUTNAM CHAMPIONS AT POWER CO. FIELD DAY

The third annual field day of the Eastern Connecticut Power Company and its subsidiaries, The Putnam Light and Power Company, Uncas Power Company, Lynn Electric Power Company and The Danielson and Plainfield Gas and Electric Company was held at Gales Ferry, Brown's Crossing, on June 24, 1924. Approximately 350 employes and their wives were present at the start of the festivities at one o'clock, with a baseball game.

The Putnam Company defeated all comers and took home the championship cup after defeating Danielson by a score of 4 to 2, and the Eastern Connecticut Power Company 5 to 3. The pitching of Dupre and Goma for Putnam with the excellent support given them, was more than any of the other company teams could overcome.

The results of the field events were as follows:

100 yard dash scratch event: Won by Terry, Danielson; second, H. Sistaire, Montville; third, C. Ramage, Montville. Time 10 4-5.

100 yard dash, handicap: Won by B. Graves, Danielson; second, Beausoleil, Putnam.

50 yard dash for girls: Won by Miss Irene Wholley, Norwich; second, Mrs. Ben Krysiewicz, Montville; third, Miss A. Fields, Norwich.

Pipe and smoking race: Won by Turcotte, Putnam; second, Goma, Putnam.

Girls' hopping race: Won by Mrs. Ben Krysiewicz, Montville.

Sack race: Won by H. Peckham, Norwich; second, C. Cormier, Norwich.

Old men's surprise race: Won by E. E. Larrabee, who made the finest and best appearance.

Shot put, 12 pounds: First, William Rowland, Danielson; second, M. Flynn, Norwich. Distance 51 feet, one inch.

Girls' dodge ball: Won by Miss Alice Hoar, Norwich.

Crochet match, First, Mrs. William Anderson, Norwich; second, Mrs. Ben Mellor.

The Danielson company won the championship cup for the tug of war, defeating both the Putnam team and the Eastern Connecticut Power Company team.

A group picture was taken by Don Houghton after which the prizes were awarded and buffet lunch served to approximately 400 persons.

At eight o'clock a two act farce was presented by the Eastern Connecticut employes entitled "A Dangerous Experiment." Prizes were awarded to all the actors.

E. T. Philips lectured and demonstrated Resuscitation from Electric Shock.

Motion pictures and dancing completed a pleasant day's outing for the various power company employes.

A golf contest was held at the Norwich Golf club in the forenoon, Judge C. B. Whittlesey winning the best gross and R. W. Perkins winning the prize for the best net.

Committee in charge of arrangements were: E. T. Phillips, J. Johnson, W. A. Anderson, J. E. Casey, Miss Olive McKelvey, William Sangster.

NORWICH MASONS SERVE ON DEM. CONVENTION COMMITTEE

During the democratic national convention in New York city, the mayor's committee on reception to distinguished guests appointed a sub-committee of Masons to entertain the Masonic delegates. This committee was composed of both republicans and democrats. On this committee there were four former Norwich men, Francis P. Rent, chairman, William B. Klein, Howard C. Russ and Charles A. Beach. Mr. Russ is a member of Somerset lodge, Norwich. The Masonic committee published a booklet for the visiting Masons called The Trestleboard, which gave the points of Masonic interest and meeting nights of the different lodges during the week. The booklet has a picture of Mayor Hylan, also Francis P. Bent, chairman. The committee has arranged an entertainment and dance at Hotel Astor, Thursday night, for the Masonic delegate and ladies. The committee presented to each Masonic delegate a small silver-plated trowel engraved on the front, Mayor Hylan's Masonic Committee, Democratic National Convention, N. Y. City 1924.

Given Miscellaneous Shower.

Monday evening Mr. and Mrs. Eugene Calkins entertained Mr. and Mrs. Carroll M. Spalding, who were recently married. A very pleasant evening was spent when twenty of their friends appeared giving the guest a miscellaneous shower of many beautiful gifts. A delightful buffet lunch was served. Several games were played and musical selections were enjoyed by all.

A feature was the departure in a large truck which afforded much pleasure for all present.

WARNS MUNICIPALITIES TO PROTECT THEIR TREES

State Entomologist W. E. Britton has issued a warning to municipalities to protect their trees against insect pests in a letter he has sent to mayors and first selectmen.

His letter follows:

Connecticut Agricultural Experiment Station

New Haven, Conn., June 14, 1924.

Dear Sir: The present season thus far has been cold, wet and very backward, and insect conditions have been somewhat modified by the weather.

Canker worms have already caused severe injury to shade and fruit trees in some parts of Connecticut, particularly in Fairfield and New Haven counties. Tent caterpillars have also disfigured apple and wild cherry trees all over the state, but have been particularly abundant in Fairfield and Litchfield counties.

The elm leaf beetle was fairly abundant last year and many adults passed the winter in attics and belfries. Though on account of the season they are late in ovipositing, there is danger that the elm trees may be injured by the grubs or larvae. The only safe protection is to spray the foliage with lead arsenate during the month. The sooner the better. From 2-4 pounds of powdered lead arsenate may be used in 50 gallons of water.

The splendid trees along the streets and in the parks of Connecticut towns and cities are an important asset and should be protected. They are vitally injured if defoliated.

Enclosed is a copy of the Station Bulletin of Immediate Information, No. 40, which contains directions for spraying shade trees. In case your municipality is not equipped to spray the trees, you may be able to employ someone to do it. A list of persons and firms who have qualified for state certificates will be furnished on application.

Protect the trees!

Very truly yours,
W. E. BRITTON,
State Entomologist.

TAX ANALYSIS COMMITTEE IS GETTING TO WORK

The full tax analysis committee of fifteen members, five of whom were appointed by a special town meeting on May 2, has been appointed and organized under the authority that was given the original five to name the ten others. The original five, who were Grosvenor Arad Manning, Ely, John F. Rogers, James L. Case, Daniel T. Shea and other ten, C. K. Bailey, Albert Boardman, C. R. Butts, M. J. Curran, S. Goldberg, H. M. Lerou, Robert McNeely, C. D. Noyes, S. B. Palmer, F. B. Ricketson, all of whom have agreed to serve.

James L. Case was the unanimous choice for chairman and John J. O'Rourke was the choice for secretary. An executive committee was also appointed consisting of H. M. Lerou, S. B. Palmer and John F. Rogers together with the president and secretary. The full committee will hold regular monthly meetings on the first Monday of each month in the assessors' office.

The first step the committee has taken is to secure a conference with Tax Commissioner Wm. H. Blodgett and this conference is now being arranged for. The committee will also look into as thoroughly as possible the method in vogue in other cities regarding equitable assessment for tax purposes.

It can not yet be forecasted when the committee will be ready to make a report.

COMFORT CIRCLE OUTING HELD AT OCEAN BEACH

Comfort Circle of the King's Daughters, Mrs. Stanton W. Brown, leader, held its annual outing Wednesday with a former leader, Mrs. Arthur T. Utley, at her cottage at Neptune park. There were 19 members and visitors present. After a brief business meeting in the morning it was voted to give $10 each to the Salvation Army drive and the County Home children's outing. There was the usual lunch at 1 o'clock, salads, cold meat, sandwiches, rolls, relishes, ice cream, cake and coffee.

In the afternoon there was auction of aprons, towels and home made candy which netted $16.75. Mrs. William H. Baker was the efficient auctioneer. The trip was made by automobile.

Flowers for Funeral

At the funeral of David L. Fetterman of 81 Elijah street Tuesday a standing cross was presented by the social committee, I. O. O. L., M. U., and friends and a standing wreath from H. H. Osgood lodge.

The bearers at the funeral were Joseph Waldron, J. Woolley, Pierre Theve, Mr. Dupont, C. J. Heibel, and D. A. Dunn.

If a girl jilts a fellow she can never forgive him for marrying a handsomer girl than she is.

WAUREGAN LODGE SMOKER WITH FINE PROGRAMME

With an attendance of 200, Wauregan Lodge, No. 6, Knights of Pythias held their annual smoker and entertainment Wednesday evening in Roseland hall. Present at the gathering in addition to the members of Wauregan lodge were visiting members from Jewett City, Mystic, Colchester, New London, Salem and other nearby lodges in addition to a number of guests of the lodge. A feature of the entertainment was a programme of dancing by The Five Steppers, a clever troupe of dancers from the Clements Entertainment Bureau. They brought their own pianist and gave a variety of novelty dances including Indian dances, Hawaiian dances Egyptian dances, balloon dance, nature dance, wooden soldier dances, and clog dances. Vincent Dixon, formerly with the Neil O'Brien Minstrels, was seen in fancy dance numbers and Harry Schwartz told stories and sang popular songs. There were also humorous stories and tenor solos by Edward T. Connelly, the well known local singer. D'Atri's Blue Ribbon Syncopators furnished a concert programme.

As each one entered the hall he was presented a neat package containing cigarettes, cigars and a pipe. And during the evening Fatima cigarettes were circulated by the committee.

The vice chancellor commander, Rudolph Henschel acted as announcer. Refreshments of sandwiches and coffee were served.

The committee in charge comprised Frank G. Pieper, chairman, Dr. S. M. Goldberg, Josiah Greenstein, Philip Hertz and George Schiller. Harry Salomon is the chancellor commander of the lodge.

At the regular meeting of the lodge held at their castle hall Tuesday evening the election of officers for the coming term took place and the following will hold office beginning in July:

Rudolph Henschel, chancellor commander; George Kaplan, vice chancellor commander; Dr. S. M. Goldberg, prelate; George Shiller, master of works; Philip Hertz, master at arms; Albert Noran, keeper of R. S.; Frank G. Pieper, master of finance; Sidney Shabecoff, inner guard; Dr. K. K. Markoff, outer guard.

The trustees are Dr K. K. Markoff, H. B. Parmelee and Josiah Greenstein.

Four candidates took the rank of page and five pages took the rank of esquire.

The Knights of Pythias will move to the old quarters again, Steiner Hall, the first of July and there carry on the good work of the order.

GASOLINE FIRE IN AUTOMOBILE ON STREET

At 11.59 o'clock Wednesday morning the fire department received a telephone call for a small fire in an automobile driven by L. D. Williams on North Main street. Mr. Williams had just had his gasoline tank filled and had driven away from the gas station. While on North Main street, near Third street, a short circuit caused gasoline on the tank, which is under the dash, to catch fire.

Officer Luke Riley notified the fire department and Engine Co. No. 3 responded. Mr. Williams pulled the wire off and extinguished the blaze. There was but little damage.

Arrivals at Wa Wog Camps

This week's arrivals at Wa Wog Camps, Billings Lake, Preston, are Mr. and Mrs. Chester J. Dowling, Jersey City, N. J.; Mrs. J. J. Moyer, Patterson, N. J.; Mr. and Mrs. W. J. Curtin, Orange, N. J.; Miss J. [illegible], Orange, N. J.

Read—Counihan Marriage

Announcement has just been made of the marriage of Mary Elizabeth Counihan of this city and Joseph Henry Read of Providence. Mr. and Mrs. Read will make their home at the Narragansett hotel for the present.

VIRGINIANS ARE SEEKING MORE TRADE IN NORWICH

Major LeRoy Hodges, managing director, and Dr. Joseph H. Smith president, the Virginia State Chamber of Commerce, will be in Norwich today (Thursday) conferring with local business interests and chamber of commerce officials on closer trade relations between Virginia and Norwich.

MAJOR LE ROY HEDGES

During their stay they will inspect the port and confer with shippers at a meeting arranged by the chamber of commerce. They come here from [illegible] welcomes in Bridgeport, New Haven and New London and will [illegible] Providence where other conferences are on their schedule.

Major Hodges is a national figure and an authority on army ordinance, and subjects of business interest. He is president of the Lower Taxpayers Association league of America, and chairman of the allocations committee of the National Association on Prison and Prison Labor.

Virginia exports of coal total almost 16,000,000 tons a year and New England is purchaser of three-quarters of this amount. Net tons of [illegible] delivered to vessels at Norfolk, Va., [illegible] 000 tons [illegible] ports in New England, it appears they do not supply [illegible] Virginians, who believe they can [illegible] increased to the benefit [illegible] and New England [illegible] purpose of enlisting the co-operation of New England manufacturers [illegible] Smith and Major Hodges [illegible] on [illegible] some of the principal ports in New England, where conferences are to be held with shippers [illegible] business interests.

[illegible] the assistance of H. M. Lerou, president of the local chamber [illegible] Virginians will [illegible] conferences [illegible] to-day.

DR. JOSEPH H. SMITH

[illegible] 000 tons [illegible] ports [illegible] New England [illegible] Europe [illegible] as these ha[illegible] appear they do not supply [illegible] Virginians, who believe they can [illegible] increased to the benefit [illegible] and New England [illegible] purpose of enlisting the co-operation of New England manufacturers [illegible] Smith and Major Hodges [illegible] on [illegible] some of the principal ports in New England, where conferences are to be held with shippers [illegible] business interests.

[illegible] the assistance of H. M. Lerou, president of the local chamber [illegible] Virginians will [illegible] conferences [illegible] to-day.

NORWICH TOWN

Mrs. Lena Gardner Taylor, of New London, spent Tuesday at the home of her mother, Mrs. Preston B. Barber of Plain Hill. Mrs. Barber [illegible] was among others [illegible] received an invitation to attend the June meeting of the Women's Democratic club of the state of Connecticut, to be held at the residence of Mrs. Gordon W. Perkins, Rockland Park, Short Beach, near Branford, on Friday, the 27th.

Mrs. George A. Peck of Otrobando avenue, motored to Eastern Point on Wednesday afternoon, and was accompanied [illegible] Crosby Peck, Massachusetts [illegible] and Miss Florence [illegible] who spent a shut-in summer [illegible] here [illegible] years, except at [illegible] during each summer for [illegible] years. Mrs. Peck has arranged an outing for [illegible] Miss Davis former [illegible] of Colchester and Mrs. Peck [illegible] schoolmates, Miss Annie Smith and Miss Rose Smith, of Colchester were guests on Sunday at the home of their brother-[illegible] and sister, Mr and Mrs George A. Peck.

The first religious service for this season will be held Sunday afternoon [illegible] (standard time) at the Shattuck Farm [illegible] Mrs. William J. Franklin minister, [illegible] to be speaker. It is expected there will be special music.

The last regular weekly service will be held at the Sheltering Arms, Sunday afternoon, when Rev. Le Roy Mitchell, pastor of St. Andrew's Episcopal church, Greeneville, will conduct the service. He will be accompanied by that church choir. Sunday afternoon services will again be resumed during September.

MAKES TORONTO REPORT TO NORWICH ROTARIANS

The monthly business meeting of the Norwich Rotary club was held on Wednesday noon at the Wauregan Hotel with President Hugh B. Campbell presiding. It was voted at the meeting to sponsor again, the Tech Show in Norwich on Monday evening, March [illegible] President Campbell appointed [illegible] as E [illegible] Baker as a committee from the Putnam Rotarians [illegible] Lodge relative to [illegible] meeting to be held [illegible].

[illegible] reports were made [illegible] M. Agnew on Boys [illegible] R. Butts on Education, [illegible] William G. Peck on Boys [illegible] Arthur M. Thompson [illegible] Joseph C. Worth on [illegible] and Edwin A. Harris [illegible] program committee [illegible] meetings as follows: [illegible] Gen. William [illegible] in, with Arthur M. [illegible] der; July 9, talk by [illegible] Russell [illegible] with Shepard B. [illegible] of William H. [illegible] with Wilcox; July 30 [illegible] with Shepard B. [illegible]

[illegible] of club interest were [illegible] Clarence A. Spear, [illegible] gave an interesting [illegible] report of the [illegible] convention at [illegible] pronounced the best ever held. Over 6,000 were present from the United States alone, and other countries of [illegible] also being largely represented. [illegible] report was enthusiastically received.

[illegible] Spanish was song leader [illegible] there were the [illegible] members and [illegible] singing.

SUSPECTED DIAMOND THIEF IS HELD IN JAIL

In the city court Wednesday morning the diamond theft case against Maurice Handleman, suspected of the theft of $2,000 worth of diamonds from the store of John and George Bliss, November 20, 1920, was continued for one week. Handleman was held without bond and was committed to the county jail to await the continued hearing. Handleman was brought to this city Tuesday from Portland, Me., by Office Charles Sweeney. Handleman denies that he had anything to do with the robbery.

Awards of Pensions

Francis J. William and Don C. Richard, both of Hartford, have been awarded $15 a month, each; Edward D. Woodmansee of New London, $30 a month; Percy H. Morgan of Montville, $30 a month; Percy H. Morgan of Montville, $30 a month; Mary A. J. Bailey of East Lyme, $20 a month; Albert Sisson of Norwich, $20 a month; Susie E. Partelo of Voluntown $20 a month, announces the bureau of pensions.

Played Wedding March

Dr. G. Percival Bard of Stafford Springs, formerly of this city, played the wedding march Saturday evening at Winsted at the wedding of his niece, Miss Corinne Tyler Holbrook of Winsted, and Franklin Seymour Weston of Providence.

NAMES OF TEN CONTESTANTS PLACED BEFORE DEM. NATIONAL CONVENTION

After a Seven Hour Continuous Session the Convention Adjourned Until 10:30 A. M. Today—The Adjournment Was Virtually a Victory For the Smith Forces, as the McAdoo Adherents Desired a Recess—There Were Demonstration of Note For William C. McAdoo and Governor Smith—Both Demonstrations Lacked the Aspect of of Spontaneity, and Bore Evidence of Professionalism—It is Probable That the Balloting Will Not Begin Until Saturday.

New York, June 26.—(By the A. P.) In a seven hour continuous session [illegible] always noisy and sometimes [illegible]rous, the democratic national [illegible] advanced its work to a [illegible]nt where ten candidates for the [illegible]residency had been placed in nomination.

It witnessed two more demonstrations of note—a renewed one for William G. McAdoo and a prolonged and [illegible] one for Governor Smith, and [illegible] tied up in a snarl over [illegible] it would recess until 10.30 tomorrow morning. It decided to do the [illegible] after a roll call vote which [illegible] sense be accounted a [illegible]

Franklin D. Roosevelt's speech nominating Governor Smith was the feature of the day's proceedings, but it did not come off quite according to the program, as it had been understood by the majority of the delegates.

It had been arranged that when the name of Colorado was called for [illegible] nominations, the state [illegible] and that when the Clerk [illegible] of Connecticut, that state would [illegible] New York, and Mr. Roosevelt would nominate Governor Smith.

But when the name of Colorado was called, the delegation announced from the floor that it would pass and then suddenly Chairman Walsh interrupted to announce that the chair recognized Governor Smith.

The governor delivered a speech seconding the McAdoo nomination and the McAdoo forces got away to a fine start on their demonstration at the point from which they left off yesterday afternoon.

Meanwhile the Smith people waited. The McAdoo demonstration quieted down later a few minutes, however, and Mr. Roosevelt placed Governor Smith in nomination.

The delegates who four year ago saw Mr. Roosevelt standing before them in San Francisco, seconding the nomination of Governor Smith and winning the vice presidential nomination for himself had in their minds a picture of a young man in the flower of [illegible] vigor stepping briskly to [illegible] Today they saw him [illegible] there, crippled by the [illegible] ravages of infantile paralysis [illegible] to prop himself against [illegible] desk once he had been [illegible] feet.

He stood laboring under a [illegible] infirmity with his mind [illegible] the same as ever, and [illegible] ready in response to the [illegible] undoubtedly were as much for his pluck and his courage as they were for his nominee, Governor Smith. It was noticeable that the convention paid closer attention to Mr. Roosevelt than it had any of those [illegible] preceded him with nominating [illegible] and that he had his audience under control. When he waved for [illegible] he got it, and when he signaled to the cheering, rooting galleries to wait and let him go on, they obeyed, but it was noticeable also that the cheerers of the demonstration which [illegible] to follow for Governor Smith had worked their plans out quite as expensively as had the McAdoo managers the day before and that they had [illegible] to equip their professional demonstrators with all the noise-making and enthusiasm raising devices at their command.

Even before the session began long lines of Smith shouters began appearing in the top galleries and by the time the convention was called to order, they were packed in like sardines. Very soon, large bodies of [illegible] and boys and some women wearing Smith banners began appearing at the various doors of the convention, although the police were supposed to keep at the guard lines a block away all those who held no tickets to Madison Square Garden.

At some of the doors the Smith enthusiasts in blocks of two and three hundreds rushed the door keepers and once in and in they came equipped with banners, flags and other equipment for the demonstration about to be started.

They filled the seats of delegates and alternates who had not arrived and they overflowed into sections of reserved seats and occupied them, and finally packed the aisles standing five and six abreast. The police and fire authorities closed the doors of the convention hall on the ground that there was no more room inside and the clamoring in the streets outside by hundreds if not thousands of legitimate ticket holders whose seats had already been occupied by the Smith demonstrators inside.

When Mr. Roosevelt's peroration signaled the end of his nominating speech the racket cut loose. In volume of noise produced, it exceeded the McAdoo demonstration of yesterday, but it bore all the same accompaniments of professional demonstrations and was lacking in the same way the participation of any great body of spectators. Some delegates to be sure, led by the New Yorkers pranced on the hall bearing their state standards, but they were followed by hundreds of men and women wearing "delegates" badges and decorated with Smith campaign buttons. They were accompanied by bands, were equipped with automobile horse-fiddles, tom-toms and [illegible] else that would make a noise. [illegible] sirens such as are the [illegible] equipment of fire wagons [illegible] were in the halls, and in the streets outside one tremendous shout would have made a large [illegible] for a good sized town was going [illegible]

For an hour and a half the din continued, one continuous wave of noise from which no particular sound could be distinguished. The marchers, disorganized, soaked in perspiration and [illegible], kept it up until they were at the point of exhaustion and the bands were given to quiet down.

From that point the roll call of the states continued and when the adjournment was taken for the day, the record of things accomplished so far showed that the convention had before it, placed in formal nomination for the presidency, the following:

William G. McAdoo, of California.
Alfred E. Smith, of New York
Senator Joseph T. Robinson of Arkansas.
Senator Samuel M. Ralston of Indiana.
Former Samuel M. Ralston of Indiana.
Former Senator Willard Saulsbury of Delaware.
Governor Jonathan Davis of Kansas.
Governor Ritchie of Maryland.
Former Secretary Houston.
Senator Ferris of Michigan.
Senator Underwood, of Alabama.

And the program provided for almost as many to come.

Meanwhile the small sub-committee of the platform committee still was at work attempting to harmonize the conflicting views into a party platform. While it was making progress, word was sent to the convention hall that the platform could not be brought in before Friday.

Negotiations were begun among the floor managers for an adjournment. National Committeeman Kremer of Montana, one of the McAdoo leaders, and David Ladd Rockwell, Mr. McAdoo's campaign manager, were opposed to more than a recess for dinner. They wanted to continue the session tonight.

On the other hand some of the other leaders who have openly expressed their sympathy for the Smith candidacy wanted to adjourn until Friday morning at 10.30 o'clock.

Mr. Kremer moved for a recess. Then John J. Fitzgerald of Brooklyn moved to amend Mr. Kremer's motion to provide for an adjournment until Friday morning at 10.30. The chorus of ayes and noes on that seemed divided that the chairman could not decide and a roll call was ordered.

The word was passed about the floor that the New York delegation wished to prevent a night session because it wished to avoid coming to the point of balloting for candidates until the Ku Klux issue in the platform had been disposed of.

The McAdoo leaders plainly showed that they wanted to force a night session and dispose of the nominating speeches, so that the convention could proceed to balloting before the report of the platform committee was brought in.

During the calling of the roll both Mr. Kremer and Mr. Rockwell stood on the speaker's platform close to Chairman Walsh. Mr. Kremer moved a vote in favor of an adjournment until tomorrow cast by a delegate from the Philippines and Mr. Rockwell insisted on knowing where the delegate lived.

E. H. Moore, new national committeeman from Ohio, challenged the vote from the Panama canal zone but was overruled, and while the conference was going up on the platform, delegations having McAdoo support which had voted in favor of an adjournment instead of a recess began changing their votes with announcements that they had voted under a misapprehension.

Finally after a long tangle the vote was counted and it was found 558 votes had been cast against the proposition to merely recess as proposed by the McAdoo managers and 513 1-2 votes had been cast in favor of it. The vote on the adjournment quickly followed and the convention piled out to return to its work tomorrow.

When they reassemble tomorrow morning the delegates will still be faced with enough nominating speeches to keep them all day, and should the platform committee be ready to report there may be a night session. If the platform is taken up for immediate consideration that plan of procedure would throw the beginning of the balloting for president over until Saturday.

ADHERENTS DESIRED A PUBLIC SPEECH BY McADOO

New York, June 26—Proposals by his adherents that he deliver a public speech some place in New York tonight, further outlining his policies and answering questions raised by his opponents, was vetoed late today by William G. McAdoo.

The candidate from California for the presidential nomination in the democratic national convention spent most of the day in his hotel rooms receiving friends and delegations.

David L. Rockwell of Ohio, his campaign manager, announced tonight that this had been a very decided "McAdoo Day," and that quite a number of delegates heretofore counted as belonging in opposition camps, had called to declare their allegiance to the candidate from California.

ORDER OF BUSINESS FOR THE CONVENTION TODAY

Convention called to order by Permanent Chairman Walsh at 10.30 o'clock, a. m. eastern daylight time.

Invocation by the Rev. Dwight W. Wylie, Central Presbyterian church, New York.

Continuation of roll call by states for nominations for candidates for president. At least five more presidential nominations are expected.

Resolution for the election of the national democratic committeemen and committee women, and providing for their tenure of office.

Report of platform committee.

Adjournment for the day.

CABLED PARAGRAPHS

Italian Senate Votes Confidence.

Rome, June 26.—(By The A. P.)—The senate today gave Premier Mussolini a vote of confidence, 225 to 121. Six senators abstained from voting.

TO DISCUSS DAWES PLAN, NOT INTER-ALLIED DEBTS

Washington, June 26.—Definite assurance that the premier's conference in London will be restricted to a discussion of the Dawes plan for reparations settlement and that the subject of inter-allied debts will not be permitted to come forward, reached the Washington government today.

Government officials, elaborating on the statement from the White House last night on Mr. Kellogg's appointment, explained that its object was threefold: To illustrate in a substantial way the cordial sympathy of this government to the proposal that operation of the Dawes plan be expedited, to obtain first hand information of developments in the conference and to watch those phases which embodied possible connection with American interests under the treaty with Germany.

Ambassador Kellogg will be the "official representative" of the United States, it was explained, the term "unofficial observer" being declared to have no relation to the situation.

Mr. Kellogg would have no authority in any event, it was added, to commit this government to any attitude or decision without specific authority on each question as it was raised, from Washington.

Reverting to the desire of the United States to co-operate in any endeavor to expedite economic restoration of European officials here stated it as their opinion that early action in connection with the Dawes plan was essential to the interests of the entire world and offered unusual high hopes of material results.

SEC'Y MELLON TESTIFIES IN TRAIL OF GASTON B. MEANS

New York, June 26—With Andrew W. Mellon, secretary of the treasury, on the witness stand, summoned by the defense in the trial of Gaston B. Means, former department of justice agent, and his secretary, Elmer W. Jarnecke, charged with violating the prohibition law, counsel for Means today failed in an attempt to show that Means was dismissed because he opposed an illegal withdrawal of whiskey from a distillery in Pittsburgh, partly owned by Mr. Mellon.

Secretary Mellon admitted that he once had owned an interest in the Overholt Distillery, but said that his first knowledge of Means investigation of the distillery had come when he read the testimony given before the senate committee. Mr. Mellon added that the distillery company since had been liquidated and that he now had no connection with it.

MAN AND BOY DROWNED IN POND IN EAST BERLIN

Hartford, June 26—William Minatree 15, and William Evans, 25, were drowned in a pond at a brick yard in East Berlin, today. Minatree, who was unable to swim, had often said that when he tried the water, he would probably drown. When he got beyond his depth, he seized a companion who managed to break away. Evans went to his rescue but was pulled under. Evans was to have been married Sunday. Both bodies were recovered and efforts were made to revive the youths with a pulmotor furnished by New Britain police. The auto carrying the pulmotor, which disregarded speed laws, was chased by motorcycle police who stopped it in Berlin but allowed it to proceed after the need of haste had been explained.

A brother of the Minatree boy was drowned in the south several years ago.

KILLED BY ACCIDENTAL DISCHARGE OF SHOTGUN

Milford, Pa., June 26.—Carlye Moore, of New York city, actor playwright and scenario writer, was killed by the accidental discharge of a shotgun in his summer home on the bank of the Delaware river, near here today. More, the coroner's investigation disclosed, had been hunting with his young son. The lad returned to the cottage and Moore had entered to put away his gun. The lad returned to the cottage and Moore had entered to put away his gun. The son heard a shot and went into the house to find his father laying dead on the floor with a fatal wound in his forehead. James Barry vaudeville actor, who has a summer home adjoining, was summoned and he obtained and from this place.

ADMITS HE PROMISED TO MARRY MISS DEVER

New York, June 26.—Philip M. Shaw, testified in his own defense in the breach of promise suit for $100,000 brought against him by Miss Madrienne Dever, of West Somerville, Mass., today admitted that he had promised to marry her, but said he had done so "conditionally."

"About three months after our engagement we agreed to postpone the wedding," he said.

Mr. Shaw, who was forty six at the time he proposed to Miss Dever in 1919, when she was twenty, told the court that she had stated several times she "was willing to wait." Soon after the suit was brought the defendant, who was married at the time of the proposal, but since has been divorced, offered to marry Miss Dever immediately.

SPANISH GEN. BERENGUER DROPPED FROM ACTIVE LIST

Madrid, June 26.—General Berenguer, former Spanish high commissioner to Morocco, on trial for the last ten days charged with responsibility for the Spanish military debacle in Morocco in 1921, was sentenced today by the supreme war tribunal to be removed from the army's active list and put on the reserve list.

General Navarro, former military commander at Melilla, was acquitted on a like charge.

Cotton Spinning is Moving Southward

With 1,633,186 Less Spindles Than New England 2,697,132 More Spindles Are in Operation in South.

(Special to the Bulletin)

Washington, June 26—Nearly one-third of the cotton spindles in New England were at a standstill during the month of May, according to a report made public here today by the department of commerce. Of the 18,703,016 spindles in place throughout the New England states, only 13,097,160 of them were operated in that month. In actual figures there were 5,813,347 spindles not used.

While the report indicates that the so-called cotton growing states in the south have 1,633,186 spindles less than New England, the number of spindles operated in that section in May exceeded those operated in New England by 2,697,132.

A gradual decrease in cotton spinning throughout the country is evidenced by the 30,493,165 spindles in operation in May, 1924, as compared with 35,374,018 in May, 1923; 34,044,870 in December, 1923; 33,339,806 in January, 1924; 32,83[illegible]786 in February; 32,392,171 in March; and 31,897,665 in April.

New England averaged 102 working hours per spindle while the cotton growing states averaged 210. Of the 13,497,816 spindles in place in Massachusetts, only 7,835,594 operated a May. The Bay state has by far the greatest number of spindles in place North Carolina being second in rank with 5,817,724. Though the operation of 5,323,775 spindles North Carolina made a record of 1,224,022,456 spindle hours as compared with 1,122,017,398 spindle hours in Massachusetts. This is an average of 95 hours per spindle in the Bay State and 210 in North Carolina.

Rhode Island operated 1,999,332 spindles in the month, at an average of 134 hours each, or a total of 320,075,695 working hours. The reports shows there are 2,206,486 spindles in place in that state.

Connecticut exceeds all the New England states in the average number of hours per spindle—145, as against 114 in Rhode Island, 114 in Maine, 94 in New Hampshire and 95 in Massachusetts. With 186,380,440 working hours on cotton spinning during May, she is exceeded only by Massachusetts and Rhode Island, while in number of spindles in place she ranks fourth with 1,288,868 and in spindles operated in May, third, with 1,167,566.

Of the 1,448,406 spindles in place in New Hampshire, but 922,741 were operated last month, giving that state 136,304,5112 working hours to its credit. Third among the New England ne[illegible]states in number of spindles in place, New Hampshire, ranks fifth in operation of spindles and working hours.

Maine with 1,446,720 spindles in place, has the [illegible] number of New England state, but with 1,050,186 in action last month that state ranks fourth in operation [illegible] well up in number of [illegible] 130,706,645.

OFFICERS ELECTED BY STATE BOARD OF AGRICULTURE

Hartford, June 26.—Leonard D. Hopkins of Wilton [illegible] state board of agriculture for the fourteenth consecutive year at the annual meeting of the board held today at the capitol. Governor Templeton [illegible] pres[illegible] elected were Vice president, [illegible] Platt of Newtown; [illegible] Charles A. Thomason, of Ellington; [illegible] Connecticut Agricultural [illegible] Everett E. Brown, of Center [illegible] Miss Hallie G. Root, of Hartford [illegible] assistant secretary.

The board also [illegible] space for a rest room at the [illegible] State Fair in addition to space for the agricultural exhibit. The expense will be $150. It was also voted to reserve a box at the horse show and races.

DOG AROUSED OCCUPANTS WHEN HOUSE WAS AFIRE

East Hartford, Jan. 26.—Awakened by the barking of [illegible] Mrs. Samuel Wi[illegible] over 50 years of age, and [illegible] with two [illegible] who cares for [illegible] made their [illegible] when Mrs. [illegible] house [illegible] in flames [illegible] today. Mrs. [illegible] was taken to the home of [illegible] neighbor, [illegible] in saving [illegible] and a shed adjoining [illegible] with a loss estimated [illegible] fire [illegible] a chicken [illegible] the shed. The house is owned [illegible] the South Windsor [illegible] line.

E. E. Fernandina, the John D. Rockefeller of Peru, who was recently in the United States with his wife and son. He is reputed to be the richest man in South America.

Brief Session of The Rhode Island Senate

Governor Flynn and High Sheriff Andrews Indulged in a Battle of Words Over Departure of Republicans.

Providence, R. I. June 26.—A battle of words between Governor William S. Flynn and High Sheriff Jonathan Andrews and another half minute session of the state senate were the only incidents here today in connection with the senate deadlock. On the eve of his departure for New York to assume his duties as one of the Rhode Island delegates to the democratic national convention, Governor Flynn assailed the high sheriff for permitting 21 republican senators to leave the state for Rutland, Mass., where they are now residing. Sheriff Andrews replied with the charge that the warrant issued by Lieutenant-Governor Felix A. Toupin for [illegible] of the republican senators was "illegal."

With a single republican senator, Harry A. Sanderson, of Johnstown present to raise the question of a quorum if the transaction of business should be attempted, the senate convened this afternoon and receded almost immediately until tomorrow on motion of Senator Robert E. Quinn of West Warwick, deputy [illegible] floor leader. The democratic senators today held a meeting with the lieutenant-governor to decide which of their number should be permitted to go to New York to attend the convention.

[illegible] statement today Governor Flynn [illegible] senate [illegible] action given to the public regarding the circulation of [illegible] in the senate chamber last [illegible] the leaders [illegible] the [illegible] Massachusetts of the [illegible] Sen[illegible] Andrews for permitting [illegible] senators [illegible] a warrant issued by the lieutenant-governor for [illegible] them to attend the senate session after the fact was discovered. The governor described the [illegible] as [illegible] a contempt [illegible] of individual [illegible] The sheriff's statement in reply said [illegible] had [illegible] said that the writ was illegal and [illegible] "the constitutional requirements [illegible] not been met before it was issued."

PLANNING RETURN OF R. I. STATE SENATORS

Rutland, Mass. June 26.—The possibility of an arrangement under which the 21 republican members of the Rhode Island state senate, now sojourning here, might return to their legislative duties was suggested tonight when senator Arthur A. Sherman, of Portsmouth, R. I., republican floor leader and strategist of the exiled group, announced that conferences to that end were in progress between the republican and democratic state committees of Rhode Island.

Senator Sherman and others of the group here asserted that they would not make an [illegible] terms with Governor Flynn or Lieutenant Governor Toupin, of their state, but would demand guarantees from the democratic state committee. They would insist, they said, on the three-fold [illegible] in their personal [illegible] be assured that the democratic [illegible] in the senate [illegible] and that republicans majority in the senate be allowed to proceed with the regular [illegible] of business.

Senator Sherman said he had received a message by telephone from William C. Deitey of Providence, chairman of the republican state committee, to the effect that Mr. Dunne was working with Chairman James E. Dunne, of the democratic state committee on [illegible] arrangement whereby the senators here might return to their homes. Mr. Deikey said he would arrive here tomorrow afternoon to present the result of the conference with Mr. Dunne.

The Rhode Island visitors today were sightseeing with a strong body-guard. While members of the party repeated their statements that their lives were in danger in the senate chamber at Providence, the representative of an insurance company arrested at the hotel here today and endeavored to interest the fugitive legislators in accident and life insurance policies.

POLICE FAILED TO NOTIFY FATHER OF SON'S DETENTION

New Haven, June 26.—Failure of the New York police to [illegible] Arnold Rossmass, secretary of the New Haven light company, that his son Arnold B. Norcross, 17, was detained overnight in a New York police station led to the spreading of a police dragnet today over Connecticut Massachusetts and New York in search of the young man. The boy left home yesterday morning on his bicycle and arrived in New York last night. Minus a coat and hat, the youth aroused the suspicion of a policeman and he was taken to a police station and held overnight. Norcross gave his name and address but these were not [illegible] to New Haven, until this morning. The boy was released and returned to his home today.

AMERICAN FORCE READY TO EVACUATE HAITI

Washington, June 26. Evacuation of Haiti by American forces will proceed as soon as internal conditions in the republic make it possible, it was said at the state department today. Although Haiti and the Dominican republic are contiguous geographically it was pointed out that conditions in each republic presented different aspects. The retirement of the marines from the Dominican republic next month, however, was pointed to as an indication of the desire of the Washington government to terminate the occupation of other countries where marines are stationed at the earliest possible date.

$2,069,800 FOR IMPROVEMENT EAST RIVER AT NEW YORK

Washington, June 26—An allotment of $2,069,800 was approved today by General Taylor, chief of army engineers, for maintenance and improvement of the East river at New York. Other items receiving official approval were for the Hudson river channel, $250,000; New York harbor, $250,000 and Greenwich harbor, Connecticut $8,000.

Harry Newman of Toronto, Ontario, was elected president of the International Association of Lions' Clubs concluding the eighth annual convention of the association in Omaha, Neb.

Parliament, by a majority of one, has approved amnesty for the 29 officers of the Portuguese military flying corps who were imprisoned following a mutiny the first of this month.

Six men, one a negro, were killed when lightning struck a quarry shed near Winston-Salem, N. C., in which they had taken shelter from a storm and exploded 150 pounds of dynamite.

Chancellor Marx has invited the premiers of the federated German states to meet in Berlin on July 3 to discuss the general political situation, particularly as regards the reparations.

Charles Gow, Chinese, a professional musician who also worked in the Philadelphia post office, shot to death his wife, a white woman, and their 3 year old daughter and turned the pistol on himself.

Floods in the Lake Ladoga region, of Leningrad, have engulfed sixty-one villages. The water rose 14 feet, causing enormous damage. Many lives are reported to have been lost and many are homeless.

Bishop Thomas Shahan, president of the Catholic University of America, today was re-elected president of the National Catholic Educational Association, at closing session of its 21st annual convention at Milwaukee, Wis.

George W. Phillips, Minneapolis and George R. Dority, Lynn, Mass., were re-elected grand guide and grand chaplain, respectively by the Brotherhood of Locomotive Firemen and Engineers in convention in Cleveland.

The value of the estate of Alfred D. Worthington, late of Hartford on which appraisers filed their report in the probate court is $289,353.49, of which $154,373 is in local insurance stocks and $20,000 in life insurance policies.

The state board of control yesterday voted to retir Jay A. Smith, an orderly at the Connecticut State Hospital, Middletown, for 33 years, on August 1 with an annual pension of $638.50.

Mrs. Susan Hoffman, 73 years old, wife of Ahanson Hoffman, of Granby, was instantly killed when an automobile in which she was riding was struck by a south-bound train on the Valley division near the Middletown town farm.

Governor Templeton yesterday approved a bill of the American School for the Deaf for the quarter ended June 30, amounting to $16,312.50, and a requisition from the adjutant general for $75,000 for pay for national guardsmen.

In anopinion requested by Governor Templeton, Attorney General Frank E. Healy, has ruled that an appointment to the soldiers' hospital board, made to fill a vacancy, should be made for the unexpired term of the retiring members.

The directors of the Collins company, at a special meeting in Collinsville voted to declare a stock dividend of fifty per cent. subject to the action of the stockholders to whom the matter will be submitted at the annual meeting July 8.

Defying five armed hold-up men with the challenge, "Go ahead and shoot if you dare," Mrs. C. C. Moorehardt, wife of a member of the Columbia university faculty, prevented the robbers from taking her two diamond rings in a drug store hold-up in New York.

Dorothy Merkling, four years old, of 36 Holly place, was almost instantly killed yesterday afternoon when she was run over by an automobile in Sippan avenue. The police are searching for the driver of the machine, who, it is stated, did not stop after the accident.

KNOTTY TIMBER IN PLANKS OF DEMOCRATIC PLATFORM

Seven Men Commissioned to Draft the Document Have Been Unable to Agree on Ku Klux Klan and League of Nations Questions—Majority and Minority Reports Were Made to the Entire Platform Committee After More Than Twenty Hours of Deliberation.

New York, June 26—(By the A. P.) After more than twenty hours of deliberation, the eleven men commissioned to draft a platform for the democratic national convention found themselves so far apart tonight on the Ku Klux Klan and the League of Nations questions that majority and minority reports were made to the entire platform committee when it assembled to whip the party declaration into shape.

Reports coming from the room where the eleven committeemen labored were that there was a division of eight to three against denouncing the klan by name. Those holding out for mentioning the invisible empire as such were Senator David I. Walsh of Massachusetts; former Secretary of War Newton D. Baker and Joseph A. Kellogg, of New York.

Both Senator Walsh and Mr. Baker were under instructions from their state delegations to insist that the klan be named. Senator Walsh offered a plank to accomplish that end, but his was only one of nearly a dozen that had been prepared. All of these were placed before the entire committee.

Anti-klan leaders in the convention followed closely the battle in the committee and renewed their threats of a fight on th convention floor unless there was a clear cut declaration in the committee draft. They said they had been having niformal polls of the delegations made and expressed confidence that they could muster a majority ni the convention.

In the long hours of discussion in the sub-committee Newton Baker was reported to have conducted a single-handed fight for a declaration for the league of nations practically identical with that adopted at San Francisco four years ago. Aligned against him were William Jennings Bryan and other "wheel horses" of the party who favored a very much modified expression.

Committeemen generally, looked with much favor upon the world peace and league plank submitted by Owen D. Young, of New York, formerly a member of the Dawes reparations comission, but some additions had been made to it by a committee of three. A number of other league planks had been submitted and all of them were laid before the league planks had been submitted and all of them were laid before the entire committee when it assembled early in the night.

Aside from the klan and league issues, the sub-committee was in agreement no the remaining 32 or 33 planks in the platform. Neither the agricultural aid nor the railroad problems proved as difficult of solution as some committeemen had anticipated.

Some committeemen described the plank as declaring for the repeal of the so-called rate making provision of the transportation act; abolition of the railroad labor board and restoration to state commissions authority over rates on traffic within the states.

The agriculture plank declares for government stimulation of organization of cooperative marketing organizations on a national scale, for revision of the tariff to aid the farmer, for reduction of rail and water freight rates and establishment of an export marketing corporation or commission and for obtaining for agriculture equality with other industries.

"Government by blackmail," is denounced in another plank which was drawn by Senator Walsh of Massachusetts and Caraway of Arkansas, and which refers to testimony before the senate Daugherty committee that agents of the department of justice were detailed to investigate the records and private affairs of members of congress.

Approval is given in another plank to an constitutional amendment along the lines of that proposed by Senator Norris, of Nebraska, one of the republican insurgent leaders, to advance the date of the inauguration of the president and vice president and the convening of congress to avoid government by "lame ducks."

In the provision dealing with taxes the party would claim credit for the tax revision law recently passed by congress as a substitute for the now famous Mellon tax plan.

The republican tariff law is denounced in another plank and the party would declare for enactment of a more equitable customs tax law so as to remove what is described as an undue burden on the general public.

President Coolidge is scored in the plank dealing with corruption in public office, it being declared that the senate investigations were conducted despite by the action of "an unwilling and reluctant" executive. Albert B. Fall is sharply assailed for the naval oil leases and there is reference to the veterans' bureau scandal and like matters.

Another of the planks agreed to, offered by William Jennings Bryan, would declare for a referendum on a declaration of war except in such cases as the United States might be invaded.

Other planks favor a corrupt practices act and denounce "Newberryism" and large expenditures and contributions in political campaigns; declare for law enforcement without mentioning the prohibition amendment; declare for federal regulation of the anthracite coal industry and other organizations or corporations which control the necessities of life; for Philippine independence; for legislation to prevent the "watering" of stocks; improvement of waterways and highways; women's rights and waterway improvements, including flood control on the Mississippi.

The first procedure of the entire committee was to dispose of planks around which no controversy had centered in the sub committee. The klan and league planks then were to be taken under consideration with the probabilities that sub committees would be named to prepare composite drafts after sentiment of the committee had been crystallized by discussion.

The members of the committee were prepared for an all night session as

Long and rather bitter controversies over the league and kl[illegible] questions were forecast. Some committeemen expressed doubt that the job could be completed before well into tomorrow, although they said every effort would be made to have the platform ready for presentation to the convention soon after it reassembled tomorrow morning.

While the sub committee came to an agreement on the agriculture plank its product was not wholly satisfactory to some of those who participated in conferences in the pre-convenb[illegible] out of which grew the brief [illegible]tions upon which action was had. Benjamin F. Yoakum wrote a letter against "the ignoring of the Curtis-Aswell bill, now before congress."

Mr. Yoakum wrote that he had information that the plank approved did "not emphatically unqualifiedly and courageously meet the known demands of the great body of farmers of the United States" he added that the Curtis-Aswell [illegible] and been endorsed "leaders and the rank and file of all progressive and far-seeing farm organizations."

A protest against a declaration for admission of Porto Rico to statehood was lodged with the committee today by Felix Cordova Davila, resident commissioner from that island. He declared that if Porto Rico were taken into the sisterhood of states $10,000,000 of the present $12,000,000 of annual revenue would go to the federal government and that it would be necessary to increase taxes to defray administration expenses in the island.

STATEMENT ISSUED BY GOV. ALFRED E. SMITH

New York, June 26 [illegible] been committed to the jury, I [illegible] the verdict, confident that it will not be an acquittal."

This statement was made tonight by Governor Alfred E. Smith of New York, candidate for the democratic presidential nomination, and was concurred in by his campaign manager, Franklin D. Roosevelt.

"The verdict when returned by the convention," Mr. Roosevelt added "will look toward four years in the white house in Washington."

The governor was pleased with the day's developments. Both the events in the convention hall where he had placed in nomination by Mr. Roosevelt and elsewhere about the city where Smith workers went in furtherance of his candidacy were characterized as particularly pleasing.

The governor did not hear himself nominated although there was a radio in the club he visited during the time Mr. Roosevelt spoke in convention hall. He heard the deafening roars from the demonstrators in the hall but even that was not enough to keep him attentive throughout the hour and a half that passed before order could be restored and the noise quieted.

"I had read the speech and was too busy to listen to the radio," Governor Smith said later, explaining that the conference engagements he kept were of grater importance to him.

TAGGERT SEES BRIGHT OUTLOOK FOR RALSTON

New York, June 26—This was a perfect Ralston day at the democratic convention. Thomas Taggart, the Indiana leader, declared tonight us, collarless and in his shirt sleeves, he sat in his hotel headquarters and greeted his candidate's friends.

Taggart wants Ralston's candidacy to be different from any other in the convention, and he declared happily tonight that he believed it is all of that so far. The simple, brief presentation of Ralston's name today, followed by the singing of "On the Banks of the Wabash," without marching, siren shrieking, or other loud demonstration, was in strict accordance with Taggart's orders. He wouldn't have had any more display for anything, he said and nobody in the Indiana delegation suggested it. They are solidly with Taggart's leadership.

To date, Taggart believes, Ralston's candidacy has left no sore spots anywhere, and he hops it wont. If he has his way the leaders will eliminate each other by the very bitterness of their animosities and then Ralston will be brought out, without having made an enemy, to receive the nomination.

RALSTON HEARD SMITH DEMONSTRATION ON RADIO

Indianapolis, Ind., June 26—With a cooling breeze sweeping his office, United States Senator Samuel M. Ralston, whose friends regard him as one of the most likely of the dark horses in the democratic race for the presidential nomination sat on the radio set in his office the demonstration staged for Governor Smith, of New York, when the latter was placed in nomination by Franklin D. Roosevelt but offered no comment other than a smile.

GUBNATORIAL BOOM FOR LIEUT. GOV. BINGHAM

Norwalk, Conn., June 26—Lieutenant Governor Hiram Bingham's Gubnatorial boom was further stimulated tonight at the Norwalk republican town committees dinner at Roton Point, where he was introduced and twice hailed as "the next governor of Connecticut." Republicans from all parts of the state, numbering nearly 500, attended.

J. Henry Roraback, chairman of the republican state central committee, Congressman Schuyler Merritt, and Mrs. Helena Hill Weed, member of the state committee and daughter of the Congressman Ebenezer J. Hill, were the other principal speakers.

The gathering marked the opening of the presidential campaign in the state.

The state of South Dakota is making a two cent profit on each gallon of gasoline it sells at retail and is collecting the state tax of two cents a gallon in addition.

WILLIMANTIC

The Fourth of July celebration fund for Willimantic has received a highly appreciated gift in the form of $50 worth of fireworks given in memory of Scoutmaster A. Aubrey Rutherford. The display of fireworks was the one which Scoutmaster Rutherford had planned to use upon the official opening of his newly purchased camp site here. The camp was for Boy Scouts gathered from the densely populated sections of New York city by Mr. Rutherford who had planned to give the boys a clean vacation at his own expense. His unselfish plans however, have been frustrated by an untimey death and this year the camp will remain closed while the boys who were to make it lively, will remain in discontent on the filthy street of New York. A memorial tablet is to be placed at Rutherford Farm for Boys which was purchased through the Tryon agency last May 3rd. The donation of fireworks includes a complete assortment of explosives, sky rockets and the like. The gift is deeply appreciated by local people especially the younger element who will derive a great amount of fun from the display.

Committees of the Willimantic chamber of commerce were appointed as listed below at the June meeting of the board of directors, the appointments being for the ensuing year: Membership, J. Zephire Mathieu, chairman; Arthur L. Clark, Joseph B. Riordan, Charles E. Lovett and Bert F. Moro; trade, Samuel Chesbro, chairman; Augustus E. Greene, George F. Taylor, Walter Abbe, Fred D. Jordan, Don H. Curtis, Andrew Roux, William F. Jordan, Christopher C. Case, and Louis A. Kingsbury; entertainment, Augustus E. Greene, chairman; James B. Fullerton, Rufus H. Worden, C. H. Caswell, Albert J. Piche, Albert B. Smith, John F. Ahern, Dr. R. Bullock Jones, Rev. W. C. Norris and James F. Twomey; finance, Herbert D. Pollard, chairman; George E. Elliott and and Fred A. Sanderson; publicity, Rev. W. C. Norris, chairman; Gerald E. Loisell and H. N. Bullard; rooms, Nelson A. Daniel, chairman; Daniel Holbrook, Edwin Russ, Eugene J. Randall and Eugene E. Curran; public works, P. D. Donahue, chairman; Roland B. Jordan, charles W. Hill, Frank H. Foss, John R. Pickett, Edgar W. Jacobs, Frank P. Fenton and Valentine L. urphy; reception, Otto B. Robinson, chairman; Frank P. Fenton, Walter R. King, Samuel Chesbro, Dr. D. Riordan, R. G. Remington, Chas. W. Hill, Amie J. Martineau, Pierre J. Larsmee, Patrick J. Twomey and J. E. Sullivan.

Thurpday afternoon being a half holiday for local clerks and the larger number of local mills being shut down for the day, Lake Wangumbaug, Columbia lake and the nearby swimming holes were a popular resort. Main street took on a stagnant aspect of a warm Sunday afternoon and those having nothing else to do sat placidly about. Lake Wangumbaug presented quite an active appearance. Bathers were enjoying the water from which they had been prohibited last year with a great deal of contentment. Cottagers are daily crowding to the shores of the lake and there is every aspect for a busy season in that section.

A Ford car driven by Myron Allen of Hanover figured in a collision with an Essex touring car driven by Joseph Giraca about 10.30 o'clock Thursday forenoon at the head of Bridge street when it collided with the side of local machine, smashing the running board and the right front fender. The Allen machine was also slightly damaged. Miss Jennie Buttner, one of the occupants in the Hanover car was cut about the neck by broken glass from the windshield. She received treatment from a local physician. The accident was investigated by the local police and State Policeman Henry Heinold of the Stafford Springs barracks.

Guests of Damon lodge, No. 17 of Rockville Wednesday evening was a delegation from Natchaug lodge, No. 22 Knights of Pythias who motored there to witness the conferring of the third degree on a class of candidates by the Rockville lodge degree team. Those attending from this city were: George H. Gurley, J. J. Lennihan, Owen D. Leach, John N. Williams, Alex MacArthur, Burton Flint, John Wilcox, John Lutton, Henry L. Searles, Edmond Peckham, Henry Vogel, Harold James, John A. Bowman, Carl R. Alford, Walter Lanphear and Ralph Gates.

While the McAdoo ovation was going on at the convention hall, Madison Square Garden, New York city, Captain Frank P. Fenton, local town clerk, telephoned to the town clerk office at the town building here. Mr. Fenton is one of the two delegates to the convention from the second congressional district and he said that the convention was a busy one. Due to the number of candidates in the field he did not believe that the final result would be made known before the middle of next week. According to the local man the chances for an Al Smith nomination were very promising.

Joseph Henry Read and Miss Mary Elizabeth Counihan were married Wednesday in Providence, R. I. A dinner was served to fifteen invited couples at the Narragansett Hotel. The guests included Mr. and Mrs. James P. Counihan of this city. The bride is a sister of the former and at one time resided in this city. The groom is a diamond broker.

A slight thunder storm late Wednesday afternoon lowered hte temperature to a considerable extent during the evening. A slight breeze served to cool a sweating population here Thursday. The only damage reported from the storm which was ushered in by a jarring crash of thunder, was the striking of a pear tree on land of Willard H. Hayden, just off of Hayden street. The storm was followed by a breaking up of the clouds which created a most beautiful effect as the sun sank over the horizon. A striking sight was that of two distinct rainbows, one spanning the other.

Notification was received Thursday from the state highway department that Mansfield-Mansfield Four Corners-Storrs road is open to traffic but is rough. The Mansfield-Mansfield Depot road, though under construction, is passable and traffic should follow the detours as posted.

Since the various types of Ford automobiles have been manufactured the number has run up into seven figures. On June 1, the ten millionth car was placed on the market. Thursday a sales agent of the local office delivered the 10,013,222nd car made by Henry Ford to one John Czraszonyos on Card street.

Awaiting ownership at the local police station is a 33x4 used automobile tire mounted on a rim with the Connecticut registry plate No. 87-903 which has been at the station since found on the street recently. According to the state motor vehicle department this number is held by James Hayes of 221 Main street Hartford.

There was a slight decrease in the number of applicants for motor vehicle drivers' licenses who appeared to take the required tests before State Policeman Heinold of Stafford Springs Thursday.

A number of local people were in Westfield, Mass., Wednesday to attend the funeral of Mrs. William Brown, who died in that place Sunday. The deceased was a resident of Willimantic for a number of years and was a sister of the late Daniel B. O'Connor.

Louis Deslorme, local barber and Harry B. Morrison, local druggist, with the assistance of a number of friends were overhauling their newly acquired 32 foot launch at Lake Wangumbaug, South Coventry, Thursday afternoon. The boa tis equipped with a four cylinder Hudson motor and was purchased from Maurice S. Leonard.

Fifteen alumni members of the St. Mary's choir boys with their director, Joseph F. Gaudreau motored to Hartford Thursday afternoon for their annual Alumni day.

George A. Bartlett and J. Francis Keon motored to Providence, R. I., Thursday afternoon in the latter's machine to make slight purchases in connection with the Fourth of July parade.

Mrs. Margaret MacArthur, Mrs. Arthur J. Squires, Mrs. Mary Dimock, Mrs. George Easterbrooks, Mrs. Helen French, Mrs. William Champlin, Mrs. John McKenna, Mrs. William E. Higgins, Mrs. Eva Adams, and Mrs. Mary Russ with Adam Duntz were in Cromwell Thursday to attend the exercises at the home for the aged women of the Woman's Relief Corps.

Mr. and Mrs. Howard W. Daniels entertained at their home on Wall street, South Coventry recently in recognition of Mr. Daniel's 27th birthday. Cards were played and refreshments were served. The guests included Mr. and Mrs. Arthur Clark, Mr. and Mrs. George Cour and Mr. and Mrs. Henry LeDoyt of Coventry.

Attending a meeting of the agents of the New London County Fire Insurance companies at Eastern Point Thursday were Clarence A. Bowen, Samuel E. Johnson and Lester H. Blish.

Louis Sullivan has returned to her home here after a visit with her aunt.

T. J. Coffee at her summer home in Warren, R. I.

Guests of Mr. and and Mrs. W. H. Crosley of Main street recently were Mrs. Edgar Smith and granddaughter, Doris Smith and Mrs. Thomas Marlow of Putnam.

Miss Fannie Bishop of the faculty of the normal school at North Adams, Mass., is visiting her sister, Mrs. Ashton C. Persons of Prospect street.

Ralph Gates of this city has a position selling brushes in Stafford Springs.

JEWETT CITY

Col. Beetle has arrived and is looking over the potato fields in this vicinity. For the last few years, the colonel is much more easily controlled than the corn borer. Mr. Borer works while the planter sleeps, and the crop from a field that is infested is much discounted.

Frank E Robinson and Miss S. K. Adams, respectively treasurer and assistant treasurer of the Jewett City Savings Bank, were in Norwich on Wednesday evening. They attended the meeting of the Connecticut Safe Deposit association, held at the Wauregan house. The speakers were C. F. Doyle of Providence and M. Hart Sherwood of Stamford, the first president of the association. Dinner was served at 6.

[illegible] sixth, seventh and eighth [illegible] Mary's parochial school [illegible] the drawbridge for a picnic on Thursday.

Mrs. F. E. Robinson entertained her Sunday school class at her home on Wednesday evening.

The dry goods stores as well as the grocery stores are closed Thursday afternoons during the summer.

Miss Fannie Fay Morgan has returned from a two weeks' visit in Worcester.

New potatoes .40 per peck at Dearnley's.—adv.

Miss Clara Jeffers entertained her cousins Roy, Bernice and Elizabeth Jeffers and their mother of Plainfield and Mrs. Thomas Gray on her third birthday Wednesday.

Mrs. Wayland Frink entertained the Ladies' Aid society of the Baptist church at her home on Thursday afternoon. She was assisted by Mrs. A. D. Tripp, Mrs. C. T. Armstrong, Mrs. D. L. Phillips and Miss Alice Brown. Twenty-two were present.

Much interest was evidenced in the demonstration Thursday, of the motor driven road grader, that was put in operation on a stretch of the town highway near Simon Brewster's. The town officials were present and a considerable number of others, who are interested in such matters.

First Selectman Maxcy Seymour said he never had seen such an efficient machine for all branches of road repair. He believes it would be of advantage for Griswold to own one, not only the money saving item, but in the completeness of the work it does.

The price of the machine is $1350 with an operating cost for oil and gas of from $9 to $11 a day. One man runs the whole thing with ease. It is pointed out that some years ago, farmers used to own fine teams of oxen and horses, which they were willing to put at road work once a year. Then the annual fixing generally was sufficient. Today with increased and heavier traffic more road repair is necessary. The machine, at the request of the selectmen, was taken to a back country section of the town's road. Here it sliced off the sides in short order, rounded up and smoothed the middle, and formed the side gutters, as no team with the old scraper could do.

The machine is of the tractor type and weighs 4 tons, its big 8-foot cutting blade, readily swung to any angle, was a marvel in the work it is constructed to accomplish. Mr. Seymour, ready to adopt economic devices to save money for the town, may recommend its purchase.

PLAINFIELD

A pleasant surprise was given Homer Daigneault, Wednesday evening, at his home in Lawton's New Village. A great many of his friends of the village were present at the party. During the evening the usual games were played. A light lunch consisting of ice cream, lemonade, candy and fruit was served by the Misses Blanche Daigneault, Celia Deschamps and Mrs. Fred Daigneault.

The following friends were present: Irene Handfield, Antoinette Hebert, Isabell Singford, Elsie Aurier, Cecile Deschamps, Blanche Daigneault, Viola Beaudoin, Evon Coubombe, Eva Valle, Beatrice Hebert, Lillian Kelly, Lillian Beaular, Bertha Lafrenier, Doretta Dupris, Lena Gudreau, Flora Dubois, Helen Eastman, Amelia Tetreault, Misses Florence and Edith Johnson, Lillian Deschamps, Lionel Mercier, Ernest Struthers, Albert Bibeau, Armand Kelly, Lionel Jodoin, Henry Barry, Joseph Brocher, Gerad and Edgar St. Jean, Byron Provost, Foster Watts, Archie Breault, Romeo Beausoliel, Henry Varnier, Emile Arsenault, Arthur Daigneault.

Fred Gardner has almost completed the interior of his new home on Gallup street and is planning on occupying it next week.

Mrs. Lloyd Frink has moved from the state road to Gallup street.

Peter Kagan spent Tuesday with friends in Providence and Pawtucket, R. I.

The St. Jean de Baptiste society held a succesful whist party in the Plainfield Community house last evening. Numerous members and their friends attended and helped make an enjoyable evening for all. The first prize for the ladies, a coffe percolator, was won by Mrs. George Rousell. The booby prize, a pound of chocolates, was won by Mrs. Edmond Jodoin. The first prize for the men, a Thermos bottle, was won by Edmond Bouley. Edmond Beausoliel won the consolation prize, a man's cap.

The committee in charge was Edmond Mercier and the Misses Pauline Peltier and Aurora Leveque.

George O'Neil and Charles Marcurelle motored to Springfield, Mass. on a business trip, Thursday.

On account of the closing down of the Lawton mills next week, the Plainfield Military band has postponed the first of a series of concerts to be held this summer. The first concert will be Wednesday, July 9th.

Alexander Daugherty has completed the conversion of the rear of the hotel into three flats. All flats will be occupied this week by Francis Kelly, Delore Laflesh and Joseph Layman.

The Men's club of St. Paul's Episcopal church have decided to have an outing August 5th to Rocky Point and Crescent Park. They will motor to these places in cars owned by members of the club.

The Lincoln club have decided to have a clam bake August 2. The following committee was appointed to formulate the plans: George Dawley, chairman, Carl Mathewson, Louis Gendron, Walter Lathrop and Walter Cleland.

COLCHESTER

Hattie Jackson Temple, No. 28, Pythian Sisters, held a special meeting in Pythian hall, Thursday evening. There was a large attendance, including members from several neighboring temples. Six candidates were initiated and a fine supper was served. Addresses were made by some of the local members and guests. After the supper a social hour was spent.

On account of the season being cool, the summer results in the village and suburbs are not filling up very fast. Some of the longer hotels are booked to their capacity.

Mr. and Mrs. Charles L. Strong, Katie Talcott and James Johnson motored to Norwich Wednesday.

Mrs. O. H. A. Milhan, daughter and son Albert, arrived at their summer home on Elmwood Heights, Wednesday, for the season.

Mrs. Edwin R. Munson and son arrived at their summer home on Upper Broadway, Wednesday, for the summer.

Clayton D. Barton and Leonard Siebert of East Hampton were visitors in town Wednesday.

Edward Johnson of Bristol, formerly of this place, was calling on old friends in town Wednesday.

Jerome Sullivan and John Higgins were callers in Uncasville Wednesday.

John M. Riley was a visitor in Hartford Thursday.

Arthur Holmes of New London was calling on friends in town Thursday.

John Carrier of Westchester was a caller here Wednesday.

Mrs. John Champlin of East Lyme is visiting friends in town.

STAFFORD

The Stafford Baptist church entertained the Ashford Baptist Sunday school convention which was the 87th anniversary. The convention was the 87th anniversary. The convention was the largest attended and most successful one held for years. Over two hundred and fifty delegates from thirteen churches were privileged to hear the speakers that addressed the convention.

A special feature was a separate conference for boys and girls, which met on the parsonage lawn; the boys being addressed by Rev. Edward Sundt, of Willington, the girls by Miss Dorothy Burdue, of Willimantic. Mrs. J. Schwanda rendered a violin solo which was greatly enjoyed. A loving cup was awarded to the Stafford Baptist Sunday school as the winning school for the yearly attendance and for the largest delegation being present at the convention. Frank's Junior band played several pieces, another pleasing feature of the convention.

THE GROWTH OF STATE PARKS

"City parks and national parks are well enough known; now enters the state park, which, in popularity bids fair to rival its older park sisters," says a bulletin from the Washington, D. C., headquarters of the National Geographic Society.

"The forthcoming National Conference on State Parks, at Gettysburg, Pa., will emphasize the rapidy multiplying uses of these state reservations," the bulletin points out.

"Many visitors are expected to attend the Conference, both because of the varied program touching upon so many phases of outdoor life, and also because the Conference is meeting at one of the most famous battlefields of modern times, notable for its memorials to the men of both the North and the South who fell there, and also for the scenic beauty of the panorama of knolls and hillsides that form the Gettysburg state reservation.

"Arrangements for the meetings are being made by John Barton Payne, chairman of the Conference on State Parks, whose headquarters are at the Ington, D. C.

"The rapid growth of these parks makes the slogan 'a park every hundred miles' seem not so impossible as it sounds. Twenty-six states now have their own park systems—and these parks range from the vast Adirondack Park, in New York state, with more than three million acres, to the one-acre sand bar in the Connecticut River which is Dart Island State Park, of Connecticut.

"Michigan leads all the states in the number of its state-owned parks, with 30 such reservations. Connecticut, though one of the smallest states, is second, with 25 parks.

"Then come New York, with 22 parks; Minnesota, with 17; Pennsylvania, with 14; while Iowa, with its 13 reservations, to which it invites tourists to repair 'from prairie land to fairyland,' is the leader of the state park movement in the Middle West.

"Havens for the tourist are afforded in increasing numbers of the state parks; some of them offer camping places for the entire vacation period. In Wisconsin the city dweller can rent an island for a nominal sum, and play Swiss Family Robinson for several weeks.

"Many of the best known state parks embody world renowned scenic features, notably Niagara Falls, New York. They furnish a panorama of the varied physical features our country possesses—from the curiously eroded gorges of Mashamoquet Brook state park, of Connecticut, to the tropical setting of the Royal Palm state park, of Florida, less than 50 miles northwest of Miami.

"Historic and literary shrines are preserved, as in Lincoln's Home, in the Old Salem state park, of Illinois, and in James Whitcomb Riley's 'old swimmin' hole' on an Indiana reservation. Indiana also preserves in some of her parks her magnificent waterfalls—which fact may be an item of news to many travelers whose knowledge of her geography is confined to car window observations on transcontinental trips.

"Starved Rock park, in Illinois, perpetuates far older history than that to be found in textbooks—its limestone formations date back to a period when America's inland was the floor of a sea.

"Tropical jungle, the giant redwood trees of California, the sand dunes of Indiana, waterfalls, lovers' lanes, the jewelled lakes of Minnesota, the mountain outlooks of Connecticut—these are a few of the wonder spots which states have set aside for the use of all their people, and as a heritage for their children.

"If you take Noah Webster's word for it, a park used to be 'anenclosed piece of ground stocked with beasts or the chase, held by prescription or the king's grant.' The idea of the state parks conference seems to be that today a park is 'an unenclosed piece of ground stocked with beasts, trees flowers, or other scenic features...not to be destroyed, but held by prescription of the people for their own use.

"The annual conference this year to be held during the last week in May at Gettysburg, Pennsylvania, will consider the development of the many uses of these state parks.

"Their value as game refuges, for camping and nature study, extension of trails for hiking, establishments of more museums for preserving specimens, and their wider use in scientific study will be considered.

"Each year finds new state recruits in the movement for state park systems. In Kentucky the legislature has just passed a measure creating a state park commission. Three proposed sites for parks in the Blue Grass state are the place near Bardstown where Stephen Foster wrote 'My Old Kentucky Home,' the place of Lincoln's birth, near Hodgenville and Mammoth Cave."

Any woman can make a neighborly call in three minutes—that is, if you allow her fifteen minutes in which to say goodby.

Diseases traced to constipation are many —get permanent relief with Kellogg's Bran

Why does constipation breed other diseases? Because it floods your system with dangerous poisons. And the longer you suffer, the more poisons accumulate. That is why constipation should be relieved at once.

Doctors recommend Kellogg's Bran, cooked and krumbled. They know it brings results because it is ALL bran. And only ALL bran can be 100 per cent effective in relieving constipation.

ALL bran — Kellogg's — sweeps, cleans and purifies the intestine. It acts as nature acts. It makes the intestine function naturally and regularly. If eaten regularly, it will bring permanent relief in the most chronic cases of constipation—is guaranteed to do so or your grocer returns your money.

Eat at least two tablespoonfuls daily—in chronic cases, with every meal. You will like the wonderful Kellogg flavor—so crisp and nut-like—so different from ordinary brans, which are most unpalatable.

Eat Kellogg's Bran, cooked and krumbled, with milk or cream. Sprinkle it over other cereals. Cook it with hot cereals. And by all means try it in the recipes given on every package.

Kellogg's Bran, cooked and krumbled, made in Battle Creek, is served in individual packages by the leading hotels and restaurants. Sold by all grocers.

Will Make Palestine The "California Of Asia"

Professor Elwood Mead, of the University of California, the world's foremost colonization expert, who recently returned from a survey of the Jewish settlements in Palestine, undertaken at the invitation of the World Zionist Organization: Professor Mead, in his report, said that Palestine was destined to become the California of Asia, as a result of Jewish pioneering efforts, supported largely through the Palestine Foundation Fund.

New Victor Records

Red Seal Records

		Number	DOUBLE-FACED List Price
Music of the Spheres—Molto Lento ("Schwanenruh") (Rubinstein) / Quartet No. 3 in E Flat Minor—Scherzo (Tschaikowsky)	Flonzaley Quartet	1012	$1.50

The thought that in the movements of the universe there was something akin to the harmony of music, inspired Rubinstein to write the quartet from which this slow movement is taken. The second number is the unique Tschaikowsky scherzo. Both selections are superbly played and recorded, making a record of wonderful beauty.

Maria, Mari! (Edoardo di Capua) *Napolitan* / Carmè (G. B. De Curtis) *In Italian*	Rosa Ponselle / Rosa Ponselle	1013	1.50

You may know these songs, among the most impressive of the hundreds which have sprung up in and about Naples. But you should hear them sung by this glorious young soprano! Into these records she has poured such floods of tone and such a warmth of emotion as you may not hear again for many a day.

Light Vocal Selections

June Brought the Roses / Waiting for the Dawn and You	Marcia Freer / Lewis James	19347	.75

Popular songs of emotional type. Marcia Freer has made no lovelier record than this, with its dream-laden harmonies. James' song is a fine companion—sung with great power and with sympathetic earnestness. If you like songs of sentiment, these records will particularly appeal to you.

Recitations

Out Fishin' *and* The Junk Box / Bread and Gravy *and* Pretending Not to See	Edgar Guest / Edgar Guest	45419	1.00

Edgar Guest has attained to a reputation beyond that ever enjoyed by any "serious" American poet. Here are two new and very characteristic records of his, devoted to the theorem that the world is a pleasant place to live in. You will want to hear him on this record.

Dance Records

Pale Moon—Fox Trot / Fox Trot Classique—Fox Trot (Introducing "From the Land of the Sky Blue Water"—"To a Wild Rose")	Paul Whiteman and His Orchestra / Jean Goldkette and His Orchestra	19345	.75

Paul Whiteman and His Orchestra have a magnificent number based on a song from American-Indian themes. The melodies are half-barbaric, but you will dance it down to the last note. The "Fox Trot Classique" uses songs of Cadman and McDowell; it has one or two of those pauses in the melody which interest good dancers. Everybody dances well to such records as these!

Big Boy!—Fox Trot / Savannah—Fox Trot	Ted Weems and His Orchestra / Ted Weems and His Orchestra	19344	.75

If you want a lively fox trot, here it is. "Big Boy" is a clearly accented, spirited number which Weems presents in vigorous manner. "Savannah" is in almost similar style, but a trifle more smooth. Excellent records that show why Victor dance music enjoys such popularity.

Wa-Wa-Waddle Walk—Fox Trot / Nobody's Sweetheart—Fox Trot	Waring's Pennsylvanians / Charles Dornberger and His Orchestra	19346	.75

The first number is a funny one, with odd yet always musical effects. The second number has unusual rhythms, and fine muted brass and piano passages. Victor recording presents them both in a way that brings the utmost pleasure to dancers.

TRADE MARK Victrola

Victor Talking Machine Company, Camden, N.J.

DANIELSON AND PUTNAM NEWS

DANIELSON

Radio fans here who listened through the hour long demonstration that followed Franklin D. Roosevelts speech nominating Governor Alfred E. Smith of New York for president before the democratic national convention in New York Thursday had only one thing left for which they might be thankful. The bedlam of noise may have kept Bryan from talking—and that's worth something!

Assembled from all the territory of the United States, and, it may be assumed, more or less representative thereof, people who can yell steadily for an hour over any such thing as a nominating speech may be expected to do almost any irresponsible thing. Strange, too, is the amount of lung power available on some things and the utter inability of the same howlers to even whisper when they are asked about any real vital, paramount issue that concerns the interests and well being of the average man who works for a living, or the things he would like to hear the convention talk about in an honest, open, straightforward way. Strange days, indeed, has the country fallen upon.

For demonstrating these things to the public at large the radio is a wonderful device. It allowed many people in Danielson and vicinity to sit quietly by Thursday while listening a little and thinking a great deal.

The convention yowled steadily for more than an hour Thursday under purely artificial conditions, at least after the first two minutes and did no one any good though the powers may have sustained some [illegible] In the meantime, though the radio was not brodcasting it, committees of the convention, working away from the din, were engaged in trying to keep off the floor of the convention discussion that would start cheering from one end of the nation to the other, wherever fair-minded citizens live.

Next Tuesday being July 1, and the first day of the closed season on trout, there will come into this territory from the state fish and game commission approximately 5,000 fingerling trout for distribution in trout brooks in territory hereabouts. Secretary Harold B. Atwood of the Danielson Rod and Gun club has received notice that the shipment is to come through and will arrange for the distribution of the fish.

A number of brooks will figure in the distribution that is to be made. In carrying out these fish the Rod and Gun club will be following out its policy of cooperating with the state in the [illegible] and the local club has [illegible] Shipments of fingerling trout will be received here for distribution before fall.

There is the possibility also of brown trout being introduced to the waters of the Assawaga river through the co-operation of the state and the club. The club has made application for such trout for release in the waters of the Assawaga and there has been some correspondence relative thereto. The brown trout are unknown to the streams of this corner of the state. These fish attain greater size than do the brook trout and their presence in numbers in the Assawaga river would revive interest in fishing in that stream, long neglected for various reasons. In years gone by some fine strings of bass and pickerel were obtainable in this river.

Apropos of what was said in this column Thursday morning relative to the lack of bathing facilities in Danielson or immediate vicinity, attention was called on Thursday to the manner in which Moosup pond and its vicinity has been developed as a summer resort during the past three or four years and the additional attractions it holds for the public this season. The resort is a delight to Moosup people and to others from many surrounding places. It has a nice bathing beach, with bath-houses, electrically lighted. It has refreshment stands, a [illegible] and on Sundays splendid shore dinners. The lake itself offers good fishing for those who like the diversion. Daily many congregate there, enjoying the attractions, the shade and the cooling breezes. Danielson, nor any other place in this section of eastern Connecticut, has bathing facilities such as that Moosup pond now offers, though Danielson has hopes that it may have some time in the not too distant future. There appears to be ways and means of bringing this about, but it will take time.

Broadcasting of the returns from the democratic national convention in New York was of necessity discontinued for the day by Harold R. Atwood Thursday afternoon because of constant interference from local amateurs, this interference setting up such a continuous squealing, whistling and shrieking that no satisfaction at all could be obtained from the service that Mr. Atwood was gratuitously giving to the public here through splendid equipment that included a loud speaker. Even shifting from one receiving station to another did not serve to overcome the difficulty, so Mr. Atwood finally abandoned his efforts for the day. Care and courtesy on the part of the owners of receiving sets in Danielson and vicinity would serve to eliminate such difficulty as was experienced Thursday and allow many interested people to hear what is going on in Madison Square Garden.

Kid boots, sweaters, Princess slips, summer wash dresses in voiles, ginghams, etc., in fine array. Ask us to see the remarkable rubber reducers, rubber corsets and brassieres. The Alice-Eleanor Shop.—adv.

There is in Danielson a White Chester sow that has been so prolific in offspring and so successful in rearing her pigs that one would be almost tempted, in contemplating what she has done, to go into the hog raising business and become a millionaire. This sow, six years of age, has raised 105 pigs and in addition has rooted up two stony acres of land and made it very productive. The name of the owner of the sow is omitted by request.

Mrs. Lulu A. Wells Bailey, wife of Ray Bailey of School street, died Thursday at the Day Kimball hospital in Putnam, where she had been a patient for only a very brief period. Announcement of Mrs. Bailey's death came as a great shock to [illegible] and friends, as it was entirely unexpected.

Before [illegible] to Mrs. Bailey was Miss Lulu A. Wells, daughter of Mr. and Mrs. Deforest Wells of this place. She was born at Riverhead, L. I., in March, 1895. The body was removed to Danielson Thursday afternoon in charge of Undertaker A. F. Wood.

Remember, all [illegible] savings department on or before of [illegible]

A [illegible] Thursday afternoon [illegible] Wednesday afternoon [illegible]

[illegible] wanted to cover Bulletin [illegible] routes. Apply at Dowe's.—adv.

[illegible] are blooming in this territory a season [illegible] now at its greatest beauty in [illegible]

Numbers enjoyed the dancing at the new dance pavilion at Wildwood park at the midweek dance on Thursday evening.

Grading has served to improve in some degree the appearance of the grounds fronting the School street school, and further improvement is to be looked for during the summer period.

A special town meeting attended by about 40 Thursday afternoon voted a special appropriation of $1,600 to meet highway upkeep costs for the remainder of the present fiscal year. Of that sum, about $900 has been expended on bridge work that of necessity had to be done. First Selectman John A. Gilbert introduced the resolution. Attorney E. L. Darbie acted as chairman of the meeting and Town Clerk Frank T. Preston was clerk.

Youngsters who are bound that they will have a swimming pool have devised one that in some measure suits their requirements and is safe by exercising a little [illegible] nace, where Fall brook goes purling on its way to the river.

There is a possibility that a special town meeting will be called some time in the near future to ask the voters what they desire as to purchasing a new motor-driven road grading machine.

PUTNAM

At an afternoon sitting of the city court, Thursday, the cases of Harvey LeClair, Walter Scott, Irene Foster and Nellie Jacques, charged on various counts of owning and keeping liquors with intent to sell, reputation, keeping a house of ill fame and a disorderly house, reputation of keeping such a house and with statutory charges went to trial. The defendants were all tried together and Attorneys George Sheehan of Providence and Samuel B. Harvey of Williamtic put up a hard fight for their clients and conceded little or nothing. Prosecuting Attorney Carpenter conducted the state's case.

On a long table in the assembly room of the municipal building reposed a great amount of evidence seized [illegible] the defendants, and a later raid the many shaped bottles which the state claims contains beer, alcohol and wine also pitchers, glasses and a large bottle of what all agreed was as marked—ginger ale.

The large room was crowded with spectators who have waited two weeks to attend the trial. While nothing spectacular appeared in the evidence [illegible] or containing whisker, a pitcher containing colored water and three glasses.

Both officers testified that the place had a reputation of selling liquor and of being a disorderly house and also testified to seeing men going in and out and automobiles standing outside. None of the officers could testify whether these people went into the rooms occupied by any of the defendants as the place has other roomers. The officers also testified that they had received complaints about the kind of place being run there, two of the complainants being lodgers in other rooms.

Officer Merrill Keith testified to taking some of the liquor alleged to have been taken from the Pomfret St., house to the state chemist at Hartford for analysis. The [illegible] over objection of Attorney Sheehan.

Richmond H. Whitehead, [illegible] Richard Hall, [illegible] motive fireman, who have rooms in the house, testified that there was a lot of noise in the rooms alleged to have been occupied by the defendants and that the place had the reputation of selling liquor and of being a disorderly house. Both said they had made complaints to the authorities.

Ida Lavalle testified that she let a room to Nellie Jacques. She said she [illegible] there but [illegible] front end of the house.

Putnam Police Officers Chandler and [illegible] both testified that the place had the reputation of selling liquor and of [illegible]

Mrs. A. Gardner testified to going to the place to serve a notice to quit on LeClair.

Miss Agnes LeClair, sister of the defendant LeClair, was called although herself under arrest on a liquor law violation charge. She was asked about the liquor found at the home of her mother. She stated that the alcohol was used by her mother and two sisters for rubbing. Some of the bottles she said remained in the house, overlooked, when the place was raided some months ago. She denied that the liquor was brought to the house by her brother.

The last witness for the state was [illegible] who owns the Pomfret street building. When asked to whom he let the rooms concerned in the case, he replied that it was to the Jacques woman. This answer plainly surprised the prosecuting attorney and that it was different from the answer expected was evidenced by the fact that then and there Russell was placed under arrest on a charge of perjury and bonds were fixed at $5,000.

When the state rested, attorneys for the defense made a lengthy argument to have all charges against their client dismissed on the ground that the state had failed to make out prima facie case. It was argued that there was no evidence as to the ownership of the liquor seized, no evidence of statutory offenses having been committed or as to who was the proprietor of the Pomfret street room.

Judge Geissler granted the motions [illegible] and denied them in part. The [illegible] ated without putting on any witnesses and the cases were disposed of as follows: Harvey Leclair was found not guilty on all counts. Nellie Jacques was fined $100 for frequenting a disorderly house and the place where liquor was sold. Walter Scott was fined $15 for frequenting a place where liquor was sold and paid. Irene Foster was fined $10 for frequenting a place where liquor was sold and $15 and 10 days in jail for residing in a disorderly house. Appeals were taken in the cases of both women and bonds of $500 were furnished. A case against Aggie Leclair charged with keeping liquor with intent to sell was nolled.

Some of the teachers of the Putnam high school will spend the summer vacation as follows: Principal Mark E. Stinson will attend the summer school at Harvard; Miss Sarah Tackerberry has gone to her home in Lewiston, Me., and will attend a summer school at Bates College; Otto Smith will take a trip abroad with a friend; Miss Baker is at her home in Jamaica Plains, Mass.; Miss Bernier is to take a trip with a friend through Canada. Mrs. Johnson, Miss Abbie Keith, Miss Edith Kent and Miss Elizabeth Smith will spend most of their time in Putnam.

An ice cream manufacturing concern has established an icing plant in Putnam and will keep on hand 1000 gallons of cream for distribution at wholesale.

The auction at the residence of G. A. Saule, No. 17 Sunnyside avenue, Monday, June 30, at 1 o'clock p. m., S. T., will contain many interesting articles and should be well attended. Witter Bros., Auctioneers.—adv.

Israel Putnam Lodge, I. O. O. F. has elected the following officers: Noble Grand, G. Stanley Shaw; vice grand, Elden Johnson; recording secretary, Herbert A. Johnson; financial secretary, Lucius H. Fuller; treasurer, Leno T. Wilson. The new officers will be installed at the meeting July 8th.

[illegible] school street, was taken [illegible] Worcester hospital, Wednesday, for observation and possibly an [illegible]

Miss Kenon Gilpatric, Richard Gilpatric and Miss Edna Hall have gone to Juniper Point, Me., to open the Gilpatric summer cottage. Mr. and Mrs. G. Harold Gilpatric will join them for the Fourth.

Miss Grace W. Edick has been engaged to teach the 2nd, 4th, and 5th grades at the Smith Street school. She taught in Ballouville last year.

There was a meeting of Anslem Mayotte Posta, American Legion, held in Foresters' Hall, Marshal street, Wednesday evening. The meeting was the most largely attended and most enthusi[illegible] time, with Vice-Commander, Owen J. White presiding. The special guest of the evening was State Commander, Eugene Armstrong of Waterbury, who came to Putnam in the hopes of instilling new life into the organization. Interest [illegible] been waning [illegible] Commander [illegible] himself well pleased with his visit as he had the pleasure of seeing six new members join the post. During the evening Commander Armstrong gave an informal talk telling what the legion is doing in the state and in the United States. Blanks for application for the bonus were distributed to those present.

Mr. and Mrs. C. S. Andem, Grove street, are on the eve of leaving for [illegible] Red Wing, Minn. They will spend the summer.

Roswell Gilpatric, son of Attorney and Mrs. Walter Gilpatric, White Plains, N. Y., is the guest of his grandparents, Mr. and Mrs. G. W. Gilpatric, Fremont street.

Franklin Perry is the guest of relatives in Washington and New Preston.

E. L. Davis has gone to Lord's Point for the summer where he runs a store, is postmaster and owns several cottages.

Mrs. Abner Boothby and daughter of Kennebunkport, Me., are guests of Mr. and Mrs. Ellsworth Wilcox, Farrow street.

Mrs. George Bradley and children are occupying the Bradley summer cottage at Pleasant View, R. I.

Mr. and Mrs. John Whalen, Bellevue street, are spending a few days with relatives of Mrs. Whalen in Norwich.

Miss Mary F. Potter, Woodstock, has gone to Washington, D. C. as a delegate from the Connecticut State Board of Education to the National Educational conference. Miss Potter is to take part in several discussions and is to be the leader of the Round Table upon "Home Teaching." New England delegates have assigned quarters at the New Willard hotel. After her return from the convention Miss Potter will go to New Haven where she will be an instructor in the summer school.

Superintendent of Schools, Ralph C. Jenwins and family, will spend the summer at Keene, N. H., leaving Putnam shortly after the fourth.

There was a large gathering of women of the town of Thompson in the Thompson town hall, Thursday afternoon at 2.30 o'clock when the annual meeting of the Republican Woman's Club was held. There was a short business session after which the audience was entertained by some interesting addresses among which was one by Miss Katherine Byrne of Putnam, delegate-at-large to the republican national convention at Cleveland. Miss Byrne gave the women a graphic picture of the workings of the convention [illegible] enthusiasm manifested for the republican nominees, Coolidge and Dawes.

Another interesting speaker was Mrs. Harold J. Gross, president of the Republican Woman's Club of Providence who talked on the activities of that organization and gave the Thompson club members some ideas for their future work.

Tuesday evening a complimentary banquet was given those who acted as waiters at the banquet given the delegates to the state convention of French societies held in Putnam, June 3rd. The affair was in charge of Alphonse Bourcier and Adelard Brisson and the following sat down to the banquet board: Mrs. Joseph LaPalme, Mrs. David Beausoleil, Mrs. Alfred Gilman, Mrs. Emarance Jolly, Mrs. Otto Knowl, Mrs. Charles M[illegible] and Emma Robillard, Miss Louise [illegible] Mrs. Joseph Daigle, Mrs. Joseph A Vandale, Mrs. Edward Brousseau, Mrs. and Mrs. Alphonse Bourcier. Adela[illegible] was as follows:

Fruit Cardinal
Punch Cardinal
Chicken a la Francaise Consomme
Stuffed Roast Turkey, Giblet Sauce

THE CODE OF FLAG ETIQUETTE.

In connection with the decorations for the convention in New York attention is being called to the fact that the Stars and Stripes are lavishly used for the purpose of decoration as if in ignorance of the fact that there is such a thing as a code of flag etiquette and in that code it reads, "Do not use the flag as drapery, use bunting."

Now it is not to be supposed that those who ordered the decorating done thought for a minute that it was necessary to advise the decorators that there was a flag code and that it must be observed. It was unquestionably taken for granted that those engaged in that business were thoroughly acquainted with such details and that they could be expected to respect them.

What has happened in New York is no more than is happening elsewhere right now where decorating is being done. Professional decorators are disposed to make liberal use of the flag for drapery purposes. It would indicate that there was no thought of respecting the code.

There are those who take the view that it makes no difference how the flag is used so long as no disrespect is shown, and there are those who ridicule the idea of a code of flag etiquette. Likewise there are those who are not disposed to respect codes or laws unless they are obliged to.

The New York instances where the flag is being used for drapery purposes must be regarded as representing the thoughtlessness or ignorance of those who are responsible for the actual work. It is characteristic of the whole scheme of public decorating, but it can be realized that there will be no improvement in the situation unless attention is called to it as it has been in the metropolis at this time.

There is good opportunity for a large amount of education concerning the code of flag etiquette. If disrespect is permitted to go unnoticed there can be no hope of overcoming the ignorance or bringing about a much desired reform.

CIRUMSTANCES ALTER CASES.

It makes a difference who you are as to what kind of protection you are going to get and how much your rights are going to be respected. Because of this the methods followed in penalizing crime must be expected to follow. Circumstances alter cases and that seems to have been emphasized by the action of the commander of the British gunboat Cockshafer in threatening to bombard a town in China where an American, E. G. Hawley, has been murdered.

The Chinese had objected to the moving of wood and oil by vessels other than junks. Hawley who was engaged in this business as the representative of a British concern was killed because his efforts did not please the Chinese. The commander of the British gunboat took the situation in hand, forced the authorities of the Chinese community to attend the funeral and to execute two leaders of the junk men's organization.

It was a decidedly different course than might have been expected had the affair happened in this or many other countries. Forcing the authorities to attend a funeral is not in keeping with international law, and justice requires that those suspected of crime shall have a trial, which does not appear to have been the case in [illegible].

The British commander was evidently well versed in the need of displaying authority and exercising force in order to get any satisfaction. It is clearly in contrast to what would have happened in this country for should the representative of a British company have been killed appeal would have been made to the authorities to seek, convict and punish the guilty which would in fact be done without waiting to be urged.

Well aware of the situation in China, action in keeping with the conditions there was taken. Inasmuch as the Chinese were respecting neither right nor law they were not given the benefit of it. There are times when action has to be governed by circumstances.

PREMIER HERTZOG.

Having accepted the premiership of South Africa attention will be directed for some time to the leadership of General J. B. M. Hertzog and the political activity within that Union. Hertzog takes the place that has been held by General Smuts. They have been antagonistic and it remains to be seen how different will be their policies of administration.

Heretofore because of his efforts in behalf of a republic and his opposition to the government Hertzog has been regarded with suspicion. That time has served to modify some of his ideas is not improbable but it cannot be forgotten that he has been the stormy petrel of the South African politics and perhaps more than the usual interest will attach to his premiership because thereof. He has apparently gotten to the position which he has long coveted. It is not the first time that he has had a hand in the government for he was a member of the first cabinet after the new government was established, but in the early changes was dropped by General Botha. As is often the case where such troubles arise this resulted in the formation of the nationalists party and it is as the leader of that party that Hertzog now takes office.

As a part of the coalition agreement in the recent election there is to be no move in behalf of a republic during the life of the present parliament. That will mean a check upon a certain source of trouble. Having been opposed to the British it remains to be seen how he will conduct himself now that he has been vested with the authority of high office. Many there are who easily gain radical reputations when engaged in attacks only to display a much modified attitude when actually placed in a responsible position.

Hertzog is a man of ability and a leader of well demonstrated merit. Whether he is going to advance his own ideas and disregard the welfare of the people of South Africa is something that time will reveal.

BLOCKING SWINDLERS.

Speaking before the National Association of Credit Men, District Attorney Banton of New York declares that small investors are swindled out of $1,750,000,000 every year. It is a large sum. It sounds like war appropriations, but it would be surprising if it were known just how many in every community are contributors to that great sum of easy money.

New York has had some interesting experiences with bucketeers of late. That state is not alone in feeling the effects of their operations though it has had to be active in the prosecution. Thus when the district attorney offers some advice it would seem to be worthy of a little consideration, and after due reflection a generous amount of respect. He urges that we "treat brokers as we treat bankers; put them under the supervision of the state superintendent of banks and by supervision eliminate the bucketeer and the promoter of spurious securities, and save to the world the billion dollars a year that now are stolen by the promoters of spurious securities."

There are those who have the money with which to take a chance of getting rich through compliance with the offers of promoters. They understand the chance and are willing to take it. There are others who are as anxious to profit from the alluring tales but are not in a position to lose, and lose they undoubtedly will in many cases.

Whatever can be done, therefore, for the safeguarding of the interests of those upon whom the swindlers bear down the hardest is not only justified but needed. If state supervision will do it there need be no further search for a remedy.

REAL DANGER POINTS.

In the recent killing of two Connecticut men at a railroad crossing it was pointed out that they had not known that a new express had been put on the line, and knowing by the old schedule of trains that none was due at that time the usual precautions when crossing the track were not observed. They felt that as long as there was no train, about which they knew, everything was perfectly safe.

That is an attitude which is too often taken and which is responsible for many needless deaths. Time and again it has been shown that it doesn't pay. The fact cannot be too strongly grasped that a railroad crossing is always dangerous, that it should never be approached without care and that the idea of taking chances at such a place should be abandoned. The Connecticut instance emphasizes the importance of having proper signals at all crossings, quite the same as it does the need of taking proper precautions.

If the warning to stop, look and listen is respected at every crossing, whether it happens to be train time or not, it is evident that not many will be killed because it is not known that a new train is being run over the line. On the other hand had the crossing been provided with a bell or a strong light to denote the approach of a train two lives would unquestionably have been saved. Till the time comes that there are no more crossings, even that is so far off that there is little use in talking about it, there must be real regard for the danger at such points. That coupled with adequate warnings will cut down the death lists that have long been too large. It is deplorable to think that there is no greater cooperation in this direction.

EDITORIAL NOTES.

By the time the democrats get their platform in shape it will need replanking.

How long will it be before the last of those appeals for work horse relief in the large cities is made?

The man on the corner says: It takes many guesses to determine what some national conventions will do.

Referring to his return Lieutenant Maughan says he will fly home. That is spoken like a bred-in-the-bone aviator.

The warmth of the second half of June is producing business for those who swat the flies and the mosquitoes.

It is getting to the season of the year when your mind must be made up on the pennant winner as well as the next president.

When it gets through the democratic national convention will have enough discarded material to build another platform or two.

With blocks of empty seats at the democratic convention it is evident that some people are not as greatly impressed thereby as might be expected.

A plan has been submitted for the liquidation of Poland's debt. It is only a matter of $185,000,000 but the desire of Poland to settle shows the proper spirit.

Three shoe unions in Lynn have consolidated and thereby cutting the expenses of two business agents. Does that also mean cutting their troubles two-thirds?

Every time the statement is made that 75 per cent of the fires are preventable it probably reminds you of those several instances when you started something carelessly and unintentionally.

IT WAS "LUCIA"

Dave Watson manages the Chicago business of a large insurance company and he admits to his wife that he manages it well. Occasionally there are signs in the east that the head office suspects this, too. Dave doesn't object; he is willing to be discovered.

It was one day during the opera season that Dave called up his home and after discussing other matters, added, "Oh, by the way, Margie, Mr. Hawkins is here from New York. Yes; he wants to take us to the opera tonight."

This sounded casual in the office, but Margie knew better. Mr. Hawkins was the president of Dave's company. Dave wanted her to help him make a good impression.

Later that day as Dave pressed in evening clothes while they waited for Mr. Hawkins' car to come for them, Margie dropped her wrap over the highbacked half chair and sat with her pretty head against the turquoise velvet folds.

"Funny how 'Lucia' haunts my path," she said lightly. "You know I heard it in Paris last summer on top of all the other times." As she spoke an expression that Dave knew well came over her face. He could almost see her mind marshaling the events of "Lucia" and choosing the best words for presenting them to Mr. Hawkins.

"Don't mention it, though, will you?" he asked uneasily. "We want him to feel he's giving us a treat, you see."

Margie's smile chilled and she sized up looking very queenly in her gold-colored gown.

"Just what is it you're afraid of my doing?" she asked.

"Why nothing, of course—only I don't believe I'd try to pump the story of the opera into him. That bores a man——"

"Oh!"

"Now, Marge, don't get me wrong, you don't bore me, of course, but, well, you might as well face the fact that most men do look on grand opera as a——a poor place to sleep."

"It's possible he's one of the men who are intelligent about the opera," Margie came back crisply. "I've met several who were."

Then the car arrived and a very dignified young couple got into it.

Mr. Hawkins had come for them in person. "I thought I'd better drive down with you," he began benevolently when they were all tucked in, "so as to tell you the story of the opera."

And, ponderously, he proceeded to do so. "Lucia" was written, he informed them, by an Italian named Donizetti, but the story was taken from "The Bride of Lammermoor," of which Sir Walter Scott was the author. Then he dwelt upon the time, the place, the cast, the first act, the second act, the sextet, the duets, the aria—what an aria was. It lasted forty blocks and even as he was murmuring, "I'll explain more fully as it goes along."

He did. Without a suspicion that his young friends of the middle west might have run across this opera, he kept up an intermittent undertone: "Lucia is Lord Henry's sister. Now, she's pleading with Edgar not to go. He's her lover; next is the aria by Lucia. That's Lucia singing. This is known as the mad scene," and so on.

Margie dared not look at Dave, so she looked at Mr. Hawkins with a rapt attention that charmed him. When they separated at the close of the evening he produced a small leather-covered copy of "Lucia" and presented it to her with a courtly bow. "Now," he said, "I don't believe you'll ever forget Lucia.'"

"How could I?" Margie answered fervently—and knew just why Dave suddenly turned his back.

The minute they were alone Dave caught her around the waist. "Margo, you're perfect. I'll never muzzle you again."

"Oh—so are you!" she laughed weakly. "Don't ever get intelligent about the opera, Dave!"

—Chicago News.

IN THE PUBLIC EYE

"Who's Who in America," contains few more extraordinary biographies than that of Helen Keller, who today enters upon her 45th year. Although she has been deaf and blind since babyhood, the sketch in "Who's Who" gives her profession as "author" and speaks of her as lecturing throughout the United States. When Helen Keller came into the world 44 years ago today, she was not afflicted with either deafness or blindness, to any apparent greater degree than any normal baby. There seems to be a popular impression that she was "born deaf, dumb and blind," but as a matter of fact she had full possession of her senses up to about 19 months of age, when sickness robbed her of sight and hearing. Miss Keller is a Southern born girl, but early removed to New England, where she received her wonderful education. Her mother was a descendant of the famous Adams and Everett families of New England.

Today's Anniversaries

1817—The Harvard college military company, known as the "Washington Corps," gave an exhibition drill on Boston Common.
1824—Edna Down Cheney, noted for her work in the Freedmen's Aid Society, born in Boston. Died Nov. 19, 1904.
1844—Joseph Smith, founder of Mormonism, killed by a mob at Carthage, Ill. Born at Sharon, Vt., Dec. 23, 1805.
1864—Gen Sherman was repulsed in his attack on the Confederate works at Kenesaw Mountain, Georgia.
1894—China protested against the Japanese invasion of Korea.
1916—Official announcement of the appointment of the Duke of Devonshire as Governor General of Canada.
1918—First contingent of United States troops arrived at Genoa, Italy.
1921—U. S. house of representatives voted for bill prohibiting beer as medicine.
1923—President Harding and his party visited Zion National Park. Attempted assassination of Premier Pachitch of Jugo-Slavia.

Today's Birthdays

Sir Robert Ames, eminent Canadian financier, born in Montreal, 61 years ago today.
Helen A. Keller, the celebrated blind and deaf scholar, born at Tuscumbia, Ala., 44 years ago today.
Rt. Rev. Julius W. Atwood, Episcopal bishop of Arizona, born at Salisbury, Vt., 67 years ago today.
Dr. Heber D. Curtis, widely famed as an astronomer, born at Muskegon, Mich., 52 years ago today.

Are You Discouraged?
(Copyrighted)

Heinz, the Horseradish Peddler

Henry J. Heinz' parents planned to have the lad become a minister, he started in his father's brick-making business, then returned to his boyhood advocation of raising vegetables in the family garden.

He was born in Pittsburgh and attended private and public schools in Sharpsburg, to which the family moved when he was six years old. He helped his father at the kilns but he most enjoyed working in the garden that was part of their four-acre field. In one summer he sold $2,400 worth of produce from the family plot.

His parents then decided that he was more fitted for business than the ministry and sent him to business college. His course completed, he became his father's bookkeeper and assistant in the brick yard and showed how the plant could be made to run all year instead of during just the summer.

He wanted a big business, however, and when 25 became partner in the brick business with L. C. Noble at Beaver Falls. But soon the vegetable growing idea called him and within a year he and Noble started a preserving and pickling plant in a room of a small building at Sharpsburg.

He had grown horseradish and now for a year he specialized in it. He raised it in the family garden, he dressed it in a new way, put it in bottles and with a basket under his arm peddled it from house to house. Then he added pickles, sauces and other relishes, using a wheelbarrow to carry them.

The business grew, E. J. Noble, joined it, the firm became Heinz, Noble & Company and the plant was moved to a four story building in Pittsburg. The Nobles retired, other firm changes came, and in 1905 the H. J. Heinz Corporation was incorporated, with H. J. Heinz the president.

Its phenominal growth continued and at the time of his death, the four acre garden had become a forty thousand acre one, the company employed over 40,000 people in season and its branches extended over the world. Heinz was honored for his interest in religious and charitable movements.

Tomorrow—Maude Adams, the Bashful Girl.

Stories That Recall Others

Youth to be Served.

The family had just returned from a 1,500 automobile trip. The parents had had about all the automobiling they cared for until they had had a good rest. Not so, however, with their four-year-old son. A short time after the family had got fairly well settled for the afternoon, the youngster said:

"Let's hurry up dinner and then we can go out for a little ride this evening."

A large electric fan company uses the official records and reports of the United States weather bureau to regulate its production and sales campaigns.

To enjoy yourself and be able to "go out," you need an OUTING SUIT. so "come in" and buy one.

We have provided for your summer needs by having a big stock of LIGHT WEIGHT Suits—in browns, grays, checks and all the wanted colors and fabrics for this season's style.

Come in now—you will find we are giving extra value in our moderately priced summer wearables.

Seeing our new summer furnishing goods and straw hats means wanting them and buying them.

Wear our good "Nifty" Clothes.

LITTLE INDICATION OF BUSINESS IMPROVEMENT

Washington, June 26—General business showed little signs of improvement in May and the first half of June, the federal reserve board said today in a business review. The board appeard pessimistic about the situation, reviewing conditions as follows:

"Production of basic commodities and factory employment showed unusually large declines in May and early June and were considerably below the level of the same date last year. Purchases at wholesale and retail also declined during the period covered by the survey and were somewhat below last year's volume. Commercial loans at member banks decreased and there was a further decline in money rates."

COL. D. GORDAN HUNTER UNDERWENT OPERATION

Hartford, June 26—Colonel D. Gordon Hunter, commanding officer of the 169th infantry underwent an operation for appendicitis here today and will not be able to go to camp at Niantic July 5, Lieutenant Colonel Orville A. Perry, of New Haven, second in command, will not be able to go as he is ill with mumps and Major Clarence C. Scarborough of West Hartford, senior major and commanding officer of the second batallion has been directed to take charge of the regiment in camp.

Gold Vs. Labor

One ounce of gold pays wages for twenty hours' work in the United States; fifty hours work in Great Britain; ninety hours work in Japan; one hundred hours in France and two hundred hours' work in Germany.

Never judge a man's kicking ability by the size of his feet.

Charles Cartona, for whom the war department has been making a search in order to present to him a distinguished service cross which was awarded April 2, 1919, has been found through the American legion post at Plymouth, of which Cartona is a member.

Governor Templeton has appointed Ira R. Wildman, of Danbury, department commander of the G. A. R. to fill the vacancy on the soldiers' hospital board in the place of former Senator Andrew Gordon, of Enfield, who has resigned on account of ill health.

The blue shell crab season has opened in the Mystic river, and, judging from reports, they are quite plentiful and of a very good size. The dealers have laid in a stock of crab nets and report that these particular articles are being called for in greatly increasing numbers.

Criminal activities against banks have reached unprecedented proportions in recent months, according to a report made to the American Bankers association by its protective committee, which directs the work of the association aimed to combat criminal operations against banks.

The Stontington fire alarm has not been acting well of late. Twice within a week when the 7 p. m. test was made the siren at the Atwood plant has hung up and blown for quite a time. New wires are to be put in along Water street at once in order that the service may be improved.

For some time Thursday the 169th infantry, Connecticut National Guard was without an active colonel or lieutenant-colonel, in fact without a commanding officer as Colonel D. Gordon Hunter was taken suddenly ill with an attack of appendicitis and was rushed to the St. Francis hospital.

Leon Stevens, an employe at Brown's paper mill, East Hampton, recently killed a rattlesnake which measured three feet. The reptile entered the machine room through the door which happened to be ajar. Mr. Stevens seized a stick and killed the snake before it had a chance to bite any of the employes.

Charles Q. Eldredge of Old Mystic has received for his museum a cone from the Torrey pine in southeastern California. This cone measures 20 in. in circumference at its smallest diameter and it is said to be the largest cone to be found in the United States Its rarity has been emphasized by a standing offer of $500 for a larger one.

GIRL BOUND OVER ON CHARGE OF PERJURY

Hartford, June 26—Miss Florence Muraska, 21 years old, of Wallingford, was bound over to the superior court in the Meriden police court this morning on a charge of perjury. During a civil trial in Meriden last March she testified that she was a clerk in a store on December 10, 1919. Officials of a Wallingford factory had testified that on the day in question, Miss Muraska worked a "full day' in the factory.

PERSONALS

Mrs. A. D. Neale of Warren St., motored to Framingham, Mass., Thursday with her uncle and aunt who have been making her a short visit.

Mrs. Mary Ellen Boglisch of Mansfield, Hanks Hill, is spending the week end at Groton Long Point at the summer cottage of Mrs. Charles Wheeler of Storrs.

Miss Anna Rourke and Gurdon Miller have returned to New Haven after a three days' visit with Mr. Miller's mother, Mrs. Freelove A. Miller of 20 Penobscot street and brother, Leslie A. Miller of 12 Penobscot street.

OBITUARY.

Charles Henry Stapleton.

Charles Henry Stapleton of 20 Washington street, who suffered concussion of the brain when he was hit by an automobile on June 4th as he was getting off a trolley car to go to his work as night watchman at the Norwich Belt Mfg. Co. on North Main Main street, died Thursday afternoon at 3 o'clock in Preston. Following his injury he was taken to the Backus hospital where he remained until June 23 when he was removed to the Norwich state hospital where his death occurred.

Mr. Stapleton was born in Old Lyme Aug. 18, 1859, and was the son of Enoch Thomas Stapleton and Desire Elizabeth White Stapleton. In Willimantic, March 23, 1896, he was united in marriage with Miss Elizabeth Douglass of this city. Mr. and Mrs. Stapleton came to Norwich to live about 1914. Mr. Stapleton was a member of the Odd Fellows.

Surviving are his wife, and three children, Mrs. Marian Gertrude Perry of Long Beach, Cal., Martin Stapleton and James Stapleton, both of this city. Mr. Stapleton was a member of Trinity M. E. church.

FUNERALS

Joseph F. Foley

The funeral of Joseph F. Foley, one of the two young men drowned Tuesday at Mohegan Park, was held on Thursday morning at 8.15 o'clock from the home of his parents, No. 24 Fountain street. At 9 o'clock a mass of requiem was held in St. Patrick's church with Rev. Myles P. Galvin as celebrant, Prof. Frank L. Farrell presided at the organ and Mrs. Farrell sang Some Sweet Day, as a waiting hymn.

The bearers were Henry Davis, John Crimmins, Eugene Garvey, John Sullivan, John O'Neil and Samuel Hussey and burial took place in St. Mary's cemetery. There was a large attendance of relatives and friends and there were a number of beautiful floral forms. Hourigan Bros., had charge of the funeral arrangements.

WEDDINGS

Irish-Wheeler

In the presence of about forty relatives and a few intimate friends, Miss Blanche Lena Wheeler, and Lewis Irish, were united in marriage Thursday evening at 7 o'clock, (daylight time) at the home of the bride's parents, Mr. and Mrs. Daniel R. Wheeler, (Bessie Fowler) of 44 Otrobando avenue.

The ceremony was performed by Rev. James B. Aldrich, pastor of the Norwich Town Methodist Episcopal church of which both bride and groom are members, the double ring service being used.

The bride was attended by Miss Florence Brown as maid of honor, and LeRoy Miner filled the place of best man, while Miss Mildred Carter, niece of the bride, was flower girl and the ring bearer was Master Charles Wheeler nephew of the bride.

To the bridal chorus from Lohengrin played by Miss Hazel Cruthers, the bridal party entered the parlor, the flower girl strewing blossoms in the bride's pathway, and took places in one corner of the room, which had been effectively banked with ferns, laurel, roses and peonies.

At the close of the ceremony, Miss Cruthers played as the recessional Mendelssohn's Wedding March.

The bride was gowned in white satin moire with shadow lace. She wore a veil caught with orange blossoms and carried a bride's bouquet of white roses. The maid of honor's dress was white georgette crepe and she wore white picture hat and carried pink sweetheart roses and carnations. The little flower girl was dressed in pink canton crepe and carried a basket of pink roses.

Following the ceremony the bridal party received, while congratulations and felicitations were extended. The bride received many beautiful presents including silver, cut glass, china, linen, pictures, gold pieces and a handsome clock.

During the reception a buffet luncheon was served.

The bride presented her maid a silver mesh bag and to the organist a string of pearl beads. The flower girl and ring bearer received tokens from the bride. The groom's gift to the bride was a string of genuine pearls and to his best man he gave gold cuff links.

For a number of years the bride was employed at Woolworth's store, but the past year has been a popular clerk in the store of the Tanney Corporation. The groom is employed at the American Woolen mill in Thamesville. He is the son of Nathan and the late Adelaide Miner Irish. For about five years during his boyhood he was a member of the family of Mr. and Mrs. Frederick H. Bushnell of Huntington avenue. Both bride and groom are members of the choir of the Norwich Town Methodist Episcopal church also the Christian Endeavor society connected with the church.

The bride is a member of Norwich Grange and the groom of Ledyard Grange, having at one time resided in Ledyard.

Prior to her marriage, two miscellaneous showers, were given for the bride, one by the Tanney Corporation, which furnished an orchestra for dancing also served refreshments.

Mr. and Mrs. Irish are to reside for the present at the home of the bride's parents.

Appointed to Norwich Church

Among the pastoral appointments announced at New Bedford by Rt. Rev. William L. Lacy, presiding bishop of the New England Conference of the African Methodist Episcopal Zion church, are: Rev. Isaac B. Walters, New London; Rev. Dixon Brown, Norwich.

Collision With Truck.

Fred E. Randall, 32 Walbach street, New London, reported to the police Thursday afternoon a collision between the machine he was driving and a motor truck of the Taftville Express company. The truck had a mudguard and the lights damaged.

INCIDENTS IN SOCIETY

Mr. and Mrs. Ebenezer Learned, Constance Learned and Eben Learned, Jr., left town Thursday for Chatham, Mass., to occupy their cottage for the summer.

Mr. and Mrs. Rollin C. Jones of Broad street and Mr. and Mrs. Russell B. Olds and daughter, Helen Louise, of Charles City, Ia., are motoring through the White mountains.

Mr. and Mrs. Charles A. Saxton of Washington street sailed Wednesday from New York on the S. S. Berengaria for a tour through England, France, Austria, Italy, Switzerland, Holland and Belgium.

JEWETT CITY DRIVER'S RIBS BROKEN
NORWICH WOMEN BADLY INJURED

(Special to The Bulletin)

Jewett City, June 26.—A new Maxwell touring car being driven from Moosup, bound for Norwich turned turtle in the state road a couple of miles above the town, shortly after two o'clock this morning.

Felix McMahon of Jewett City, was the driver and owner of the car. Besides him the machine contained five persons, who gave their names as follows:

Miss Blanche Petrole, 14 White street, Norwich.

Miss Anna Gibson, 13 Thames street, Norwich.

Mrs. Mary Bennett, wife of Harold J. Bennett, Second street, Greeneville.

George Ferguson, 36 Prospect St., Norwich.

John Callihan, 604 Boswell Ave., Norwich.

Mrs. Bennett was the most seriously injured. Deputy Sheriff J. T. Dolan, deeming her in a dying condition summoned the Backus hospital ambulance at 3 a. m. to which institution she was hurried, covered with blood, from a dozen cuts and gashes and injuries which could not be determined at the scene of the wreck.

Leslie Hyde, proprietor of the North Main street service station, was the first to learn of the wreck, and arriving there he found the bix machine upside down and a complete ruin. Every occupant was more or less injured. The driver had two broken ribs, one of the women a broken leg and the whole bunch were cut and bruised. Mr. Hyde took them to Dr. J. H. McLaughlin, and he being aroused put them all in shape to be taken to their homes shortly after daybreak.

The state police, a half dozen or more, were Johnnie on the spot, and took things over at once. Photographs were taken of the road, where tire marks showed for 300 feet that the big auto had repeatedly criss-crossed from side to side.

Pictures were also secured of the wrecked machine, with its accompanying scattered articles, which included money, powder puffs, fud chokers, wraps, shoes, slippers, etcetera and one lone bottle.

The driver told the state police that he had been side-swiped and that the woman on the front seat with him had grabbed the steering wheel, thus cramping the front gear which caused the machine to upset.

The state police did not credit this statement, and declare that no evidence they could see would substantiate it. The night was clear and the accident happened on a straight stretch of road, and what really occurred is yet to be determined. State officers and local police say it is a miracle that all were not instantly killed.

As soon as possible after her arrival at the Backus hospital Mrs. Bennett was given a thorough examination by Dr. W. K. Tingley and Dr. E. J. Conby and an x-ray was taken which showed a broken backbone and other possible internal injuries. Her condition is critical but she was resting comfortably Thursday night, according to the report from the hospital.

CHAUTAUQUA SUPERINTENDENT MEETS NORWICH GUARANTORS

Dr. Harry Hibschman, who is to be the superintendent during Chautauqua week here, met the guarantors Thursday evening at the Y. M. C. A. building, conferring with them about the meetings which will open this (Friday) afternoon in the tent on the Academy campus.

Miss Mary Wilson, junior leader, and Miss Hazel La Fleur, assistant, were also present, and the predictions

Dr. HARRY HIBSCHMAN.

were for a most successful week of Chautauqua this season.

Dr. Hibschman has been a practicing lawyer on the Pacific coast for a number of years and is a lecturer and writer of experience.

During the war he was a speaker for the council of defense, the committee on public information, and other patriotic organizations, giving up his law practice at that time to devote all his attention to patriotic platform work. During the United War Work campaign of 1918 he was one of the speakers attached to the Greater New York committee of which John D. Rockefeller was chairman. Subsequently he was a member of the Army Educational Corps in France and lectured in the camps in that country.

Because of the thought provoking nature of his lectures Dr. Hibschman is advertised by the Chautauqua as a Challenge Lecturer. He will be here during the entire session of Chautauqua.

UNITED CHURCH SCHOOL HAD PICNIC AT BEACH

Traveling to Ocean Beach by two special trolley cars, leaving here at 8.45 Thursday morning, the Sunday school of the United Congregational church enjoyed its annual picnic at the beach. About 200 attended. There was a programme of games during the day, peanuts were distributed by the school committee and basket lunches were carried by the picknickers. The return was made by trolleys, arriving here at 5.45 p. m.

Arrangements for the day were in charge of a committee consisting of A. L. Peale, H. W. Gallup, John H. Sherman, H. B. Cary, Charles I. Smith and numerous assistants.

Public Health Association

The Connecticut Public Health Association will hold its annual meeting at Memorial Hospital, South Manchester, on July 2nd at 10 a. m., standard time. The program will be opened by R. V. Treat, first selectman of Manchester and Dr. William H. Coon, president of the association. An address on "Public Health Practice in the Small Cities and Towns of Connecticut' will be given by Professor I. V. Hiscock of Yale School of Public Health and this will be followed by a discussion of the "Proposed Legislation of Meat Inspection."

"The Function and Opportunities of the Community Hospital" will claim attention at the afternoon session and the rest of the day will be devoted to inspection of the public health activities of Manchester.

To Jail For Beating Man.

John Foley, 67, a tramp weaver, was given a jail sentence of 60 days and taxed the costs of $14.75 in the city court Thursday morning on a breach of the peace charge for a beating he gave John McGuigan, another weaver, late Wednesday afternoon near the Laurel Hill railroad tunnel. Mr. Guigan was brutally beaten about the face and head and had to be sent to the hospital to be fixed up but he was able to be in court Thursday morning.

Foley admitted that the trouble arose over 50c he gave McGuigan to get a drink with.

Campers to Give Concert

Members of Frank's Junior band of Stafford who are camping for a week at Stanley's Grove on Doyle Hill, Montville, are to give a concert Sunday afternoon at 3 o'clock (d. s. t.) for which they are extending an invitation to the public. The campers number thirty-five.

A three score and ten man has usually accumulated enough wisdom to make him acknowledge his ignorance.

HAD LUCKY ESCAPE SKIDDING ON FORT HILL

A negro woman driver of a Buick touring car and her two small children barely escaped serious injury, if not death, during the severe rainstorm Wednesday afternoon when the machine skidded on the east side of Fort Hill, Groton, mounted a bank and stood on its rear end.

Bound in an easterly direction the machine was slowly proceeding down the east side of the steep hill when suddenly the woman lost control as the machine started to turn. In skidding the vehicle turned around two times in its downward slide and then dashed for the side of the road.

The front wheels mounted the high embankment, whose pitch was such that when the macine came to a stop the weight of the vehicle was entirely on the rear end. The fact that the front end was in its high position pocketed between a telephone pole and the bank, was responsible for the fact that the machine did not overturn, probably crushing the passengers under it.

The driver and the two children were unhurt. They climbed down into the roadway and sent for a wrecker to extricate the machine, which was only slightly damaged. The woman did not give her name.

RAIN INSURANCE BROUGHT NEW LONDON ELKS $3,000

Wednesday's night's rain storm brought the New London Elks $3,000 for rain insurance on their carnival.

The terms of the policy provide that the sum of $3,000 shall be paid to the Elks for each night during the course of the carnival that one-tenth of one inch of rain falls between the hours of 6 and 10 p. m. According to the official observations of Weather Observer Thomas C. Dillon, thirty-five one-hundredths of an inch fell during those hours Wednesday night with the total rainfall of about one-half an inch.

The agent who wrote the policy forwarded the papers to the home office at New York Thursday, and within a few days the Elks will receive a check for $3,000. This amount, it is estimated will just about cover the expenses of the carnival for one night. Due to the condition of the field, no attempt was made to open the carnival grounds Wednesday night, after the storm had ceased.

The Elks paid a premium of $1,600 for the insurance, which leaves them already $1,400 ahead of the game.

NORWICH POWER ENGINEERS ELECTED HOLLAND PRESIDENT

At the annual meeting of the Norwich Association of Power Plant Engineers held at their rooms in the Buckingham Memorial Thursday evening, the following officers were elected for the ensuing year: President, John A. Holland; vice president, Otto Heebner; secretary, John E. Casey; treasurer, Wm. D. Throop; conductor, A. Williams; doorkeeper, Hubbard; trustees, Fitch Dolbeare, George P. Thomas, Edward G. Crowell.

John A. Holland was elected a delegate to the national convention which will be held in Grand Rapids, Michigan, on Sept. 8th to 15th and George P. Thomas was elected alternate. The association has prospered during the past year and its purpose is primarily the education of the engineer to make him more proficient in his work.

OAKDALE YOUNG MAN PROBABLY FATALLY INJURED

(Special to The Bulletin.)

New London, June 27.—Roy Whiting, about 20, Oakdale, R. F. D. No. 1, is in the hospital in a dying condition with a fractured skull sustained this morning when the motorcycle he was riding crashed into the side of an automobile driven by Charles Walters of Hartford. The accident happened at the corner of Jefferson avenue and Broad street.

Whiting was following another motorcycle ridden by Frederick Leiper, which had passed the corner just before Walters attempted to operate his automobile from Broad street into Jefferson avenue. Whiting's motorcycle, at high speed, struck the Walters car, throwing Whiting to the highway.

STONINGTON APPOINTMENTS MADE BY GOVERNOR

Hartford, June 26.—Governor Templeton today made the following appointments: Robert L. Burtch, of Stonington, deputy harbor master at that town for a term of three years; Louis M. Allyn, of Groton, and Charles E. Wheeler, of Stonington were appointed trustees of the Mystic Oral School for the Deaf, for terms of three years.

Mrs. Nellie L. Kelly, of New London, was appointed a director of the state farm for women for a term of seven years. Charles L. Colton, of Hartford, was appointed to the state board of registration and examination for a term of five years.

Albinos Are Delicate

Albinos, whether in the human or animal world, are delicate and often defective. Pure white dogs are frequently stone deaf. White cats, white poultry and white rats and mice are very subject to disease.

WARNING AGAINST LOCKJAW FOR FOURTH OF JULY

With the advent of Fourth of July and its attendant celebration with firmarms comes the thought of the dread disease of lockjaw, or tetanus, says the weekly bulletin issued by the state department of health.

This disease is caused by a specific germ which, normally present in the intestines of animals such as the cow or horse, is voided with the fecal matter. Thus it may be present in horse manure, in the street dust, in fertilized soil, hay dust, mud, etc.

Most disease germs live only a short time outside the body, and are active only when in the fresh state, so diseases are carried by direct contact from person to person. The germs of tetanus, however are much more to be feared, because they develop into spore forms which are highly resistant to heat, drying and disinfectants. They remain in the earth until the germs are again brought into favorable conditions for growing.

Ideal conditions for their growth are wounds, made with firearms, nails splinters, etc. Dirt present on the hands, or implements may contain these tetanus spores, which are carried into the deep wound, and there develop. Tetanus germs now change from the spore to the active state as they grow best below the surface of the skin without access to air. They develop locally in the wound and give out a powerful toxin or poison. Usually the symptoms appear gradually, two or more days after the injury. First noted are stiffness of the neck and lower jaw, which increased spasms extend to the other muscles until the whole body is rigid, and the jaw is locked, ending in death in 80 per cent. of the cases, usually within four days.

When a deep wound occurs a physician should be called at once, as prompt attention may avert a fatal ending. Tetanus antitoxin should be used subcutaneously to prevent the disease. When tetanus symptoms have appeared, the tetanus antitoxin should be given intraspinally. Tetanus antitoxin in preventive, or curative doses is available from the State Department of Health through the local health officers.

WEST KINGSTON

Amos Harris Kenyon of Providence is visiting his grandparents, Dr. and Mrs. Kenyon.

Charles Stone, of Perryville, was a recent caller here.

Monday evening a reception was given for the graduates of the grammar schools and high schools, who reside here, also for the three teachers, E. K. Wilcox, principal, of South Kingston High; Mrs. A. K. Webster, one of the high school teachers, and Miss Belle Wilbown, critic teacher of the West Kingston training schol. Supper had been prepared for the graduates and teachers, consisting of chicken salad, potato salad, rolls, fruit punch, cake and ice cream. There were quite a number of friends of the young people present, to which refreshments of sandwiches cake, ice cream and fruit punch were served. After supper a programme of music and readings were in order. Mrs. C. A. Woodmansee was present and accompanied the organ with her violin.

Mr. and Mrs. Harris Carr of Mooresfield were Wednesday evening callers here.

Mr. and Mrs. Carol Randall attended a social at Joseph Coles, near Usquepaugh, Monday evening.

E. K. Wilcox has returned to Norwich Town for the vacation months.

Dr. and Mrs. Kenyon attended the supper at the Wyoming mission rooms, Wednesday evening.

Bert Woodmansee and family have moved to the Watson homestead recently vacated by Alfred Bann and family, who moved to ocky Brook.

Several of the children here are spending this week at R. I. S. C.

Fred Knight of Exeter was a Monday evening caller here.

ROAD SOCIETY

The children of the Taugwonk school enjoyed a picnic to Atlantic Beach, Thursday. Through the kindness of Mr. and Mrs. Fernando Wheeler, the teacher, Miss Evan Johnson and scholars were furnished transportation.

Joseph W. Wheeler is quite ill.

Alton Wheeler attended the Miller reunion.

The strawberry festival held on Wednesday was well patronized despite the weather.

News of the sudden death, from pneumonia of Mrs. William H Cheebrough was called from Stratford on Avon, the first of the week. Mrs. Chesbrough was well known by the older inhabitants here as Miss Annie L. Moss, daughter of Mr. and Mrs. William C. Moss. Her home was in Belvit, Wis., where their four children were born and educated at Rilvet college. She had gone with her son Ralph and family, for a year's trip abroad and died soon after reaching London.

The boys' and girls' meeting was held Sunday afternoon at the church.

Amos G. Hewitt has returned from Taunton, Mass.

Elliot H. Peabody is spending the week with Mrs. Lianee Cottrell.

Harry Blaine of Boston is at A. G. Wheeler's for the summer vacation.

Miss Lucy Billings is now home for her summer vacation from the Mystic school.

Miss Grace D. Wheeler spent Sunday with Miss Mary Dean of Old Mystic and Gladys Sebastian sang at the children's service in the evening.

Harry Dixon and son, Francis, were week-end guests of their mother, Mrs F. C. Dixon.

Parker Johnson and son returned to her home in West Springfield, Mass., Sunday.

BOZRAH

A large numbe rof people of the Center church and parish gatheerd at the town hall Wednesday evening to meet the pastor, Rev. W. R. Stewart, who is soon to finish his work here. A. J. Bailey presented Rev. Mr. Stewart a purse, as an expression, by the people, of their appreciation of his work and their esteem for him. During his four months service in the community the church work has been greatly quickened and much interest has been shown. During the evening a group of tableaux and music was presented. Sandwiches, coffee, cake and cream

CARD OF THANKS

We wish to express our sincere and heartfelt thanks to our many friends and neighbors for their many acts of sympathy during our recent bereavement, the death of our beloved son Joseph F. Foley. We also wish to express our thanks to the Moulders' Union, Combat Train, members of the Street Department, and to the Boys of Jail Hill for the beautiful floral tributes sent to the funeral.

MR. AND MRS. JOHN J. FOLEY.

MARRIED

LEWIS—DOWER—In Westerly, R. I., June 26, 1924, by Rev. Marvin S. Stocking, Walter Lewis of Ashaway, R. I., and Miss Mildred G. Dower of Westerly, R. I.

Free to Asthma and Hay Fever Sufferers

Free Trial of a Method That Anyone Can Use Without Discomfort or Loss of Time

We have a method for the control of asthma, and we want you to try it at our expense. No matter whether your case is of long standing or recent development, whether it is present as Chronic Asthma or Hay Fever, you should send for a free trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with asthma or hay fever, our method should relieve you promptly.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumes, "patent smokes," etc., have failed. We want to show everyone at our expense that our method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms.

This free offer is too important to neglect a single day. Write now and begin the method at once. Send no money. Simply mail coupon below. Do It Today —you do not even pay postage.

FREE TRIAL COUPON

FRONTIER ASTHMA CO., Room 61-B, Niagara and Hudson Sts., Buffalo, N. Y. Send free trial of your method to:

[illegible] were guests of Mrs. [illegible] Wednesday.

Miss [illegible] Bruce gave two recitations at the reception in the evening.

The Woman's Missionary [illegible] with Mrs. [illegible] of Norwich Town [illegible]

A Valuable Food

Scrurfield urges the greater use of watercress, which contains all three vitamines, as a food. Watercress is a cheap green vegetable which, like lettuce, is eaten unspoiled by cooking but which, unlike lettuce, is available all the year round. Its more extended use may, therefore, be an appreciable help in remedying dietary errors caused by urbanization.—British Medical Journal.

Mohammedan Leader Ir India

Sakort Ali, India's greatest Mohammedan leader, who was lately released from prison and who is taking a keen part in the Non-Co-Operative movement in India. This movement has been instituted by Mahatma Ghandi, who has incited a passive revolt against British rule. The idea of the movement is not to co-operate with British plans and policies.

GREB, TUNNEY AND STRIBLING WIN THEIR BOUTS IN MILK FUND SHOW

New York, June 26.—Fighting in his characteristic windmill style and winning all the way, Harry Greb, the holder of the world's middleweight crown, successfully defended his title against Ted Moore, plucky English champion, in a spectacular 15-round match, the feature of the Milk Fund bouts at the Yankee stadium tonight. Greb won in a walk, punishing his challenger with his tantalizing swings and well timed rights and lefts. A crowd estimated at 60,000, a sprinkling of them convention delegates, jammed the American League baseball park to witness the card, the net proceeds of which go toward the maintenance of the Milk fund.

In a six-round semi-feature match, William L. "Young" Stribling, Macon, Ga., light heavyweight, was given a judges' decision over K. O. Tommy Loughran, of Philadelphia. This decision was decidedly unpopular with the crowd which gave vent to its feelings with a convention-like demonstration of hisses and boos.

Gene Tunney, American light heavyweight champion, scored a technical knockout over Erminio Spalla, heavyweight titleholder of Europe, when Referee Eddie Purdy stepped between the boxers in the seventh round of a scheduled 12-round match, to save Spalla from further punishment. The Italian's left eye was completely closed and blood streamed down his cheeks when the end came.

In a sensational 10-round match, Lee Eldridge, negro challenger, [illegible] world's negro middleweight from the veteran Pan[illegible]ians. Eldridge cut the [illegible] about the face with his [illegible] and thrice floored the

[illegible] figures available tonight [illegible] at slightly more [illegible],000) and the total receipts at [illegible] virtually $100,000 net profits for the Milk fund.

WEST ENDS WIN FIRST GAME FORM MILLERS

After much trouble and worry, Sydney [illegible] at last gotten together a combination of ballplayers, who gave a fine exhibition of the national pastime last evening at the Duwell Field. The final score turned out to be 7-5, but the result was in grave doubt until the final out. The game was the closest yet played in the evening league. It is a noteworthy fact that the contests seem to be improving in the quality of players and in team play. Here and there a hopeless case of ball playing exists, but the majority of the contestants are on their toes and capable fellows. The crowd continues to be a regular baseball gathering, extra-particular in what they demand of the performers.

Ellie Segal, former pitching ace of N. F. A., took the mound and turned in the first victory for the West Siders. Segal pitched good ball, but not as good as Kegler, his opponent. Kegler is easily one of the best pitchers in the league, and only hard luck again prevented him from carrying off the bacon.

The first man up lined out to Kegler and the second took three mighty whiffs and retired to "think it over." Everything seemed to be going nicely when suddenly Zimmerman singled. Segal got on base and went to second on the overthrow of Adnopoz to first base, Zimmerman going to third. Hollander doubled and two runs were in. Lane doubled and Hollander scored. This mass of tallies was Segal's saving point for Yantic would probably have won if the first inning had been different. But to get back to facts. It took Yantic just three innings to make up for that dreadful first frame. In several innings the sides were retired in fast order. The bleachers were all the time giving off red-hot remarks which kept the game warm during its dull moments. The left side of the Yantic infield seemed to go to pieces in the fifth to let the West Enders tally twice on two hits. Two more in the sixth seemed to put the game on ice, the Yantic team remaining scoreless since the third. The game was called at the end of the sixth, but another inning was played and the Yantic team staged a big comeback. Two runs came in during the last part of the seventh when the West End team had to rid itself of some poor playing. Two hits and an error accounted for the tallies. Edwards ended the encounter by whiffing.

Black is getting to be quite a hand with the bat. Three strikeouts in three trips to the plate is pretty near the world record. If there are many more such firemen, Matt is thinking of fixing up a series of games between the fire and police departments. "We want Pete," is a familiar slogan to the ears of attendants at games in which the noble backwoodsman take part. Pete is becoming quite the hero. Score:

Echoes From the Grand Stand.

(By Matt)

Sydney got himself in solid with the fans when he consented to play another inning while his team was ahead and darkness was creeping nearer every moment. Sydney received a long cheer for his sportsmanship.

Sam Slosberg, the heavy hitting pinch hitter for the Grain Boys went to bat in the seventh as a pinch hitter and was retired via the strike out route.

After the game some one asked who was the manager of the Yantic Grain team and was told that Milton was, the gent that asked this quesion laughed and said, "No wonder he is playing."

The fannettes were out strong for this game and every game sees a few more faces in the stands.

Karl Matheweson, the hard-working president of the Twilight League was not present at the game owing to another important business engagement and his ever smiling face was greatly missed. This is the first game that the president has been absent from.

Lamphere made a brilliant one hand catch spearing the ball retiring the side in the second.

Kegler and Russell made a pretty double steal in the last of the third, putting both in a position to score on Lamphere's error. This was the best game yet.

Coleman umpired a very good game and was satisfactory to all.

Lassonde received a big ovation when he made a nifty catch in right in the first of the fourth.

"Bugs" Boyens came on the field with crutches in the fifth and received a hearty welcome from the stands, although his ankle was sprained his lungs were perfect.

"Hippo" Jame warmed up the West End pitchers in front of the grand stand and showed the spectators that he was born too long ago.

James Sheridan was the official coach on third for both sides and he wasn't a bit funny.

Milton should equip himself with a couple of crab nets and a few pieces of fly paper and then he would be a good third baseman.

INDIANS TAKE 10-INNING GAME FROM WHITE SOX

Chicago, June 26.—Cleveland won the fifth game of the series here today from the White Sox with a 7-4 score, due to a three-run rally in the tenth on as many hits, and after the Sox had tied the score at 4 all in the ninth. Leverette was weak and wild for five innings, and thereafter Cvengros and Blankenship failed to hold the Indians. The score:

How It's Done In the Majors

By Frank Frisch
Captain New York Giants

When should the first baseman or the second baseman signal for a pitchout in order to catch a runner off a base?

The first and second baseman can never signal too frequently for a pitchout play in order to catch a runner off base. Always aim to hold these runners close to the bases they occupy. There are several instances when such a signal is almost necessary. One of these is to make this play when a batter has two strikes, for a runner almost invariably takes a good lead when a ball is pitched to the batter, following the second strike. Another good time for the play is on the first ball pitched to the batter.

SENATORS DIVIDE DOUBLE HEADER WITH ATHLETICS

Washington, June 26.—Washington broke even in a doubleheader with Philadelphia here today before a crowd of 25,000, including President Coolidge and his family, which turned out to celebrate the return home of the Nationals in the league leadership.

Walter Johnson shut out the visitors in the opener, 5 to 0, running the Washington winning streak to 10 games, but Rommel duplicated the performance in the final in a duel with Martina, Philadelphia winning 1 to 0. Simmons' double and two sacrifices accounted for the run. The shutout was Johnson's 105th in 18 years of major league pitching.

President Coolidge was given an enthusiastic reception by the crowd when he arrived just before the start of the second game. Mrs. Coolidge and two sons, John and Calvin, Jr., were present during both contests, the president having been delayed on account of business. The score:

Washington	[illegible]	0	0	0	0	0	0	0	0	0—0

Two base hits, Simmons, Bruggy.

J. B. MARTN TEAM TO PLAY HERRUPS ON SUNDAY

The Herrups, formerly the Federals, of Hartford will be the opponents of the Velvetmen at the Martin ball park on Sunday afternoon. The Federals proved quite an attraction last season and will have Fisher and Welsh as the battery. These boys worked for the Martin team during the latter part of the season and made an exceptionally good showing. The lineup for Herrups will be practically the same as for the past few seasons. The Velvetmen will use their regular lineup.

Albany Gets Even Break.

Albany, N. Y., June 26.—Gillespie's pitching enabled Albany to break even in a double-header with New Haven today. New Haven won the first game 9 to 4, but Gillespie held the visitors to two hits and shut them out, 9 to 0, although he walked nine men, in the second game. Kenna's home run with two on in the first inning of this contest gave the home team a flying start. The score:

First game—

New Haven	[illegible]	0	3	0	0	3	2	1	0	—9
Albany	[illegible]	2	0	0	0	0	0	2	0	—4

Two base hits, Graham, Milan, Wight.

Second game—

New Haven	[illegible]	0	0	0	0	0	0	0	0	—0
Albany	[illegible]	4	0	3	1	0	0	1	0	x—9

Two base hits, Wight. Home run, Kenna.

MYSTERY BASEBALL GAME TONIGHT CREATES MUCH INTEREST IN NORWICH

The Masked Marvels showed their hand for the second time this week last night during the game between the Yantic Grain and the West End team, when in the fourth inning an auto came tearing onto the field and hurled another message at the East End team. Until this time the crowds that had filled the grandstand and the grounds were cheering lustily for the two teams but upon the arrival of the mysterious rider everyone became spellbound and the dropping of a pin would have sounded like a French seventy-five. As the auto was leaving the field a young lady on the stands who happens to be a rabid movie fan, exclaimed, "Oh, how romantic!" but anyone that noticed the hair on some of the East Side boys' heads rise towards the heavens or who noticed some of the old timers sneak off the field to their homes for a nip out of the old family bottle to help steady their nerves, thought it was anything but romantic.

Umpire Coleman immediately picked up the missile and read it to the crowd who by that time had recovered from their shock and began to demand what the latest message contained. The message read:

"East Ends, Are You Ready? Beware, because we are coming tomorrow night and we're coming strong. If it will help you any we will lineup as follows: Dynamite, pitch; Nitro Glycerine, catch: Arsenic, first base; Diphtheria, second base; Asthma, shortstop; Iodine, third base: Skull, left field: Bones, center field; and Small Pox in right.

"By Order of the Masked Marvels."

It will be pretty hard to say what kind of a team the Marcels will have, but if they are half as strong as the names they have picked for themselves they had ought to make it interesting for the East Side boys. The masked boys will get a tough break if Dynamite, their pitcher, should blow up and it is hard telling what will happen should Joe Belair, the star East End catcher, catches either Diphtheria or Asthma on the bases.

The East Ends will use the same lineup that they have used in the twilight league and should give the Marvels a hard go if they can only keep their nerve for the six hard innings that are in store for them tonight.

PIRATES WIN PITCHING DUEL WITH CUBS

Pittsburgh, Pa., June 26.—Pittsburgh made it two straight from Chicago by winning today's game 2 to 1. Morrison and Aldridge engaged in a pitcher's duel but the latter was removed in the sixth inning when the Pirates counted two runs, largely on Cuyler's single. The score:

Chicago (N) / Pittsburgh (N)

SEELEY REGAINS STATE GOLF CHAMPIONSHIP

New Britain, June 26.—W. Parker Seeley, veteran golfer of the Brooklawn Country club and former state champion, regained the Connecticut title today when he defeated C. M. Aldrich, of Hartford, 3 up and 2 to go in the final match of the annual tournament of the Connecticut Golf association on the Shuttle Meadow course.

It was one of the most sensational matches ever seen in Connecticut tournaments and while Aldrich gave the champion a hard fight at every hole, the Brooklawn veteran appeared steadier than his less experienced opponent and proved his superiority on the greens.

Aldrich's defeat was definitely decided on the 13th hole of the last round when his ball rolled into the trap. The large gallery attracted by the match also appeared to bother the Hartford player and at the end of the 34th hole he appeared exhausted. Seeley, on the other hand, ended the battle as fresh as when he drove off for the first hole this morning.

Seeley is credited unofficially with a 69 for the first 18 holes this morning and a 63 for the sixteen holes played this afternoon. Aldrich's unofficial morning score was 72 with 67 for the second 16 holes. Seeley was one up at the end of the first 18 holes.

In the afternoon round, Aldrich evened up the match at the sixth hole and was one up when he took the ninth. They were all even at the 12th and Seeley captured the 13th, 14th and the 16th.

TWO AMERICANS TIED FOR THIRD AT HOYLAKE

Hoylake, England, June 26.—(By the A. P.)—Half way through the 72 hole struggle for the British open golf championship, two American players—Walter Hagen of New York and Macdonald Smith of California—are tied for third place tonight with cards of 150 for the 36 holes played today.

Three strokes ahead of them is E. R. Whitcombe, and between him and the two Americans is J. H. Taylor, the noted old-timer, with a card of 149.

The other three Americans entered in the championship rounds still are in the running, but not so strongly or so strongly or so dangerously as are Hagen and Smith. Gene Sarazen is father behind the score of Whitcombe tonight than any of his compatriots. For the first 27 holes of today's play Sarazen simply could not make his putter behave. His card for the 36 holes at the end of the day read 83-75—158, which is eleven strokes behind Whitcombe.

Scattered in between Whitcombe and Sarazen on the score board tonight are the names of a number of natives, an alien of two from the continent and four title-hunting professionals from the United States—Hagen and Smith, with their promising cards of 150 each, Gil Nichols with 152 and Jim Barnes with 155.

NINE YACHTS CROSS LINE AT BERMUDA

Hamilton, Bermuda, June 26.—(By the A. P.)—Fourteen yachts which started last Saturday in the race to Bermuda from New London, Conn., nine had passed the stake boat at the finish line here this evening.

The boats began arriving Wednesday evening and continued to come in at intervals during the day. Late this afternoon five of the contestants had not yet been sighted. The official time of the arrivals follows:

Memory, R. N. Bavier, master, 8.46; Hathor, Sydney A. Beggs, master, 10.18.24; Fame, Harold I. Sewall, master, 10.41.06; ABD Black Duck, Alexand Forbes, master, 11.32.26 o'clock Wednesday evening; Flying Cloud, Lawrence Grinnell, master, 3.09.421; Hutoka, George B. Drake, master, 6.44.51; Primrose IV, W. H. Rugging, master, 7.26.26; Lloyd W. Berry, Herbert L. Stone, master, 7.57.02, and Sylvia II, entry of the Bermuda Yacht club, E. H. Trimingham, master, 11.-38.24 o'clock Thursday morning.

BALL LEAGUE IN NEW LONDON NOT PAYNG PROPOSTIONS

(Special to The Bulletin)

New London, June 26.—With the passing of a month's twilight activity in the city leagues, the City and Industrial circuits, the two leagues are failing to draw the usual large crowd of fans that had a habit of spending their evening last year and the year before. Both leagues to date are in financial trouble as a result of failing to draw a crowd large enough to pay off running expenses.

Almost every conceivable element has taken a hand in an attempt to defeat the prosperity of the two leagues. The weather to date has been anything but helping hand towards making the leagues draw enough people to pay off expenses, and if more propitious weather is not forthcoming pretty soon, the outcome of the leagues financially will necessitate for the taking of more drastic action in the way of taking out weather insurance or the leagues will consummate abruptly upon the rocks.

AMERICAN MARKSMEN PERFORM WELL IN OLYMPIC SHOOT

Chalons, France, June 26 (By the A. P.)—On the historic plain where Attila's Huns once met defeat, the United States rifle team today started well on its way toward victory in the Olympic shooting competition. The United States took first honors in the 40 and 600-meter competitions with a total of 470 points. Haiti was not far behind with France running a close third.

The Haitians proved the sensation of the day, surpassing the expectations of all the spectators. The Haitian team, however, took the numerous congratulations modestly. The competition today made a profound impression on foreign military men present. A number of French officers from the Chalons camp followed the work of the Americans and Haitians intently.

MISS CUMMINGS AND MISS COLLETT ARE FAVORITES

Buffalo, N. Y., June 26.—Edith Cummings of Chicago, national women's champion, Glenna Collett of Providence, R. I., defending tournament champion and former national champion, Mrs. D. C. Hurd of Philadelphia, and Louise Fordyce of Youngstown, Ohio, were victorious over the narrowing field of contestants today in the third round of the annual women's contestants today in the third round of the annual women's invitation golf tournament of the Buffalo Country club. Tomorrow Miss Cummings will meet Miss Fordyce and Miss Collett will tee off with Mrs. Hurd in the championship semi-finals. Predictions were that Miss Cummings and Miss Collett, both of whom displayed ton golfing form today, would survive to fight it out of the finals.

LIONS TRIM Y'S MEN IN HECTIC BATTLE

(Special to The Bulletin)

New London, June 26.—Nine roaring Lions retired to the wilderness in Waterford, being successful in their first attack upon the club baseball team in the vicinity of this city. The entire nine Lions men retired from the contest after the regulation number of innings, with the score 11 to 9 in their favor. The men were as tickled to death over the victory as a youngster is when he is taken to the circus by his father. A jig to Joe Russo's orchestra was done and then the Lions men retired to a more remote region where the scent of man is little known and where the Lions can celebrate their victory in a manner befitting those animals after whose name they took or borrowed.

COAL HEAVERS BEAT OUT HILLIES IN SLUGGING MATCH

Worcester, Mass., June 26.—Although both teams were practically equal in the number of hits Worcester bunched its hits to better advantage and defeated Pittsfield here today, 13 to 7. The visitors did not get their together until the ninth when they made six and scored five runs. Home runs were made by Lefler, Stapleton and Snover, all over the right field fence. Duckett did the best batting, however, bringing in five runs with his hits. The score:

Pittsfield	[illegible]	0	0	0	0	0	2	0	5	—7
Worcester	[illegible]	1	0	0	3	2	2	2	5	x—13

Two base hits, Duckett, Milan, Webb. Three base hits, Emmerich. Home runs, Lefler, Stapleton, Snover.

Ponies Split With Hartford.

Hartford, June 26.—Springfield and Hartford split even here today, the Ponies winning the first game 5 to 3, the Senators the second 9 to 3. Hartford batted hard in the twilight contest, getting 15 hits to Springfield's five. Mayberry, however, was a puzzle in the first. The score:

First game—

JUDGE PRINCE IMPOSES HEAVY FINES ON VIOLATIONS OF THE LIQUOR LAWS

(Special to The Bulletin)

New London, June 26.—Judge S. Victor Prince laid a heavy legal rod upon five persons, men and women, in the police court today when he said they were guilty of having violated the liquor laws of the state and nation in selling and keeping booze for sale in their homes or places of business. There were six persons accused and one of them, David Palitz, failed to be dealt with as his case was continued on request of counsel until the 28th inst. Palitz was a roomer at the Ideal Rooming house and when County Detective William Lewis and Enforcement Agent Joseph Fitzpatrick with Policemen Murphy, John Clifford, David Nagle, Michael Dorsey, Thomas Leyden and J. P. Sullivan entered the place with a search warrant they did not find the owner but they took Palitz as having booze in his room. Dave's first act was to secure bail, which he obtained, and then he went for a lawyer. He had the wherewith so he got what he went after.

John Quinn, a cripple, who has resided at 690 Bank street, where he has a mother, so afflicted that she of necessity is moved about in an invalid chair, said he was not guilty as charged when he was put to plea. But the state produced two witnesses, named Jeller and Butler, the latter a resident of this city and the former a stranger here, who testified that they had bought drinks at the Quinn place and that they had paid 25 cents a drink and a dollar a bottle, the latter being what is known as a soda bottle filled with the liquor. They also found bottles of burned sugar, which they declared was used for coloring the alcohol, while Quinn asserted, under oath that he used the burned sugar for colds as did his mother. He admitted that he had liquor in his home, but said it was for medicinal purposes and that he gave it to Jeller and Butler who were without money and who obtained the liquor on the plea that they were sick. Quinn was quite a cautious witness in his own defense, but he made a mistake in putting Anna Kennedy, a woman with a police record, on the witness stand. She could not say anything that would aid the case of Quinn and she would have injured the case had she not been stopped when he admitted that all she knew of the case was what she had been told. Quinn was found guilty as the officers had the liquor they purchased from him in bottles and the same were labelled and marked with the day of purchase, the time of day and the alcoholic contents of the stuff in the bottle. Quinn appealed when he was fined $200 on each of two counts and was sentenced to spend ten days in jail. He furnished a bond of $1,000 for appearance in the common pleas court and Frank Sciascia became surety on the bond.

Helen Koslowski of 16 John street, came right down to business and through her counsel demurred to the complaint. Her counsel admitted that she was guilty and said he did not intend to put up any silly defense that was so improbable that the court would not believe what was said. He said the woman had sold to the officers on two occasions as alleged, but he declared the quantity of the liquor was very small. He pointed out for some reason that was not apparent to the court that almost every man had some liquor in his home, but he did not claim that every man was selling to others who would pay the price of $1 for about a quarter pint of liquor. He did urge in extenuation of the offense that Mrs Koslowski had four small children who needed her care. She had promised not to sell again and on that score the court fined her but $150.

Antoinette Alfeira, residing on Jefferson avenue, was fined $200 on each of two counts and was ordered committed to jail for ten days. She has before been convicted, so the court considered she would have to go out of the business and decided that she should spend some time where she could not engage in the selling of liquor.

Angelo Giardini, residing in a tenement house in Mitchell court, was in the same fix the others were in. He sold both drinks and a bottle of liquor to the two men, Prescott Jeller and Butler, though he made denial of the sale. It was in the testimony that Giardini sent a girl who was in the house to buy a bottle of tonic, that she drank the tonic and then she bottle that held it was used to supply the whiskey to the patrons. Giardini was in court with his wife and three small children. He paid $400 and said he was done with that business. He was sentenced to ten days in jail, but that part of the judgment was suspended.

Sawa Skrigen, the keeper of two restaurants on North Bank street, was fined as were the others. He had never been in court before so he did not get a jail sentence. Sawa settled. He said he had only been in business eight months.

Angelo Farenda, a youth of 19, from Westerly, where he is in the employ of the New Haven railroad, missed the pay car there and conceived the idea that he could catch the car while it was at New London so he borrowed an automobile and without having registration or the right to drive it he came on here. Officer Frank Lenihan saw that he was a novice at driving so that when he got into a jam the officer held him up and discovered the absence of authority to drive the car and discovered that Farenda could not show that he owned the car. Today it was disclosed that the car was the property of Octavio Pinciera of Bradford, R. I., and that he loaned it to Farenda for the purpose stated. The Octavio had to pay for garage hire for the car while it was in storage and had to prove his ownership before he could recover his machine. He says he has loaned his car for the last time.

James Fell, a former sailor, was arrested several days ago for intoxication. Then he gave a bond for $25 conditioned that he should appear in court the next day to answer. He didn't appear as he had gone from town. Today he showed up. The bond was reopened and he was found guilty and fined $1, which with the costs amounted to a little more than the amount of the bond. But Fell didn't have the money and was committed to jail. Somebody declared that Fell was rightly named.

Crist Xingas, a fruit stand owner on State street, was arraigned because he was conducting the stand near Railroad avenue and State street without having permission from the city manager to do so. Xingas said he had applied for the license and was told he would get it soon but that it was all right for him to do business. To establish the truth of what he said the case was continued until the 3rd of July.

Policeman William Manice is in New York, where he expects to see the end of the exciting convention of democrats at Madison Square Garden.

Tony Melia went to New York last night to get a look at the exciting political convention at the garden.

George Lowney, who at one time was an employe of Strickland and Gaillard here and later was in business on his own account, is here for a time visiting friends and old-time acquaintances.

Recently operators of public service automobiles complained to the police that the ordinance restricting the space in the rear of the Soldiers' and Sailors' monument on State street to automobiles other than public service cars was not being enforced and by the failure of the ordinance to be enforced, the drivers of the public service machines were derived of the use of the parking space and also prevented from earning a livelihood. Since the complaint several arrests have been made resulting in the prosecution of the alleged offenders in the police court, although no fines have been imposed to date. This afternoon Tony DiMarco, 26 Truman street, one of the aggrieved public service operators, failed to park his machine in the space allotted to the machines of this description, and instead, parked his car on State street, opposite the public stand for a period longer than is allowed by law. The result was that DiMarco was ordered to appear in the police court tomorrow morning.

A meeting of the New England Coal Dealers' association took place at the Crocker House this afternoon for the purpose of acting upon a definite course to pursue in endeavoring to put a stop to the theft of coal from barges while en route from loading points to destination. The matter was thoroughly discussed and within a few days a plan will be devised for the protection of the shippers and dealers and which will be universally adopted by the members of the association.

E. R. Toffley, 267 Pequot avenue, complained to the police late this afternoon that during his absence from work neighbors daily annoy his wife. Motorcycle Officer William Babcock was assigned to the complaint and reported that the cause of the grievance of Toffley was of such a trivial nature that there was no need of police action.

Herman H. Appledorn, 32 Squire street, was taken into custody this afternoon by Sergeant Frank Howard, charged with reckless driving. He will be given a hearing in the police court tomorrow morning. Appledorn was released upon his own recognizance. The arrest was at the request of W. T. Jacques, 171 Pequot avenue, who, yesterday, declared that as he alighted from a Connecticut company trolley car on Montauk avenue, at the corner of Converse place the automobile, owned by Appledorn's sister Mrs. Angelina Murphy, and driven by the accused was driven past the trolley car at a high rate of speed and but for the alertness of the complainant, Jacques would have been run down and probably seriously injured.

L. P. Demaris, proprietor of a pharmacy, corner of Broad street and Jefferson avenue, has lodged complaint with the police because of youths residing in that neighborhood making a nuisance of themselves in front of the drug store nightly.

At a meeting of Mohegan lodge, I. O. O. F., held last night in the lodge room, Bank street, the following officers for the ensuing six months were elected: Noble grand, Ernest L. Burdick; vice grand, L. P. Davis; recording secretary, Richard N. Woodworth; treasurer, Edward Prince; paraphernalia keeper, Rufus I. Church; lodge physician, Dr. Ross E. Black.

James K. Walling, U. S. N., and Mrs. Florence Whitehead, 201 Shaw street, were married last evening at the parsonage of the First Church of Christ. The ceremony was performed by Rev. J. Romeyn Danforth. James I. Dygert was best man and Mrs. William L. Keyes, sister of the bride, was bridesmaid. Mrs. Hazel Thompson, Bayonne, N. J., is being entertained by their uncle and aunt, Mr. and Mrs. J. B. Colling, Brooks street.

Leonard Stevens, 34 Cottage street, departed this morning for Superior, Wis., where he will remain the balance of the summer. Mr. Stevens' mother accompanied him as far as Chicago, where she will spend a week or more with friends.

The Misses Anna and Amelia Stevens, New York, have arrived at their summer residence, Glenwood avenue, after having resided in New York since last November.

Announcement has been made of the wedding in New York the 21st inst. of John I. Holly, U. S. N., stationed at the submarine base, and Miss Anna M. Wistrand, daughter of Mr. and Mrs. George E. Wistrand, Oneonta, N. Y. The bride was recently employed at the plant of the Babcock Printing Press Manufacturing company.

Nathan M. Solomon, of Middletown, has sold a house and lot on Easterly place, Ocean Beach, to Hyman L. and Sol Dubowe, of New Britain.

Theodore Bodenwein has sold two building lots on Learned street to Charles Dominas.

Manager Walter T. Murphy of the Capitol and Crown theatres is going to cause the prices for admission to his vaudeville playhouse, the Capitol, to be advanced next month and at the same time his motion picture house, the Crown, will enjoy a decrease in the price of admission.

Mrs. John Nelson and infant son, Ocean avenue, Mrs. John Carrick and infant daughter, Connecticut avenue, Thomas Healy, Westerly, and Signus Sygersten, Montauk point, patients at Lawrence-Memorial Association hospital, were discharged today.

Arnold Norcross a New Haven boy, about 17, has disappeared from home and today the authorities of that city requested the New London police to maintain a watch for the lad. The boy when he was last seen in New Haven, was riding his bicycle and it is believed that Norcross traded off the bicycle from one place to another.

Mrs. Anna Haddi, 51 Bowers avenue, Newark, Ohio, has communicated with the New London police in an endeavor to ascertain the present address of Cecil Colbert, at one time a resident of this city. Mrs. Haddi, who was formerly Miss Anna Stround, Steubenville, Ohio, is a widow and recently heard from Colbert, but he failed to supply his address in the letter. Colbert, who was a soldier, and stationed at one of the inland forts of the New London district in 1904, is not known in New London.

There is no change today in the condition of Dr. George Maynard Minor, medical examiner of the town of Waterford, who has been confined to the Beckwith place a number of weeks excepting that he pat ents is perceptibly weaker. But little hope is held out for the recovery of Dr. Minor.

Mrs. John Reiley, 539 South Cyphers street, Vandalia, Ill., has written to the New London police requesting information that may assist her in locating her husband, who deserted her some time ago. Mrs. Reiley declares that from newspaper clippings she was informed that a member of the crew of the yacht Diaplesse, which is one of the vessels sailed in the Fishers Island port List S[illegible] gave his name as that of [illegible] and was accompanied by [illegible] who claimed to be Reiley's wife. Mrs. Reiley believes that [illegible] her husband and [illegible] gally married in Rhode Island [illegible] mist. Mrs. Reiley declared [illegible] husband's correct name is Edson Gassia.

Charles E. Cavanaugh, 196 Connecticut avenue, underwent an operation at a private hospital this morning for the removal of gall stones and inflammation. At the hospital late this afternoon it was stated that Mr. Cavanaugh was resting as comfortably as could be expected. Mr. Cavanaugh is a brother of Police Sergeant John T. Cavanaugh and Patrolman Dennis and Thomas Cavanaugh.

Engineer a Good Risk

In spite of the risks incident to their occupation, life insurance statistics show that locomotive engineers live just as long as the average man. The death rate from accident has decreased very greatly in recent years, and the engineers have also shared in the general reduction in the death rates from infectious diseases. Between the ages of thirty-one and fifty-five there has been a decline in the engineers' death rate of from 32 to 44 per cent. Fatal accidents in 1922 were at the rate of 167 per 100,000, as against 318 per 100,000 in 1912. So the expectation of life of a locomotive engineer at the age of twenty-eight is calculated as forty-one years. Aside from chances of accident, running a locomotive seems to be a healthful occupation.

Where Speed Makes Beauty

Wherever crystals form rapidly their shapes will be more beautiful in all likelihood than when they form slowly. When they form rapidly they assume fantastic branching forms in some instances, but where they take a leisurely course of freezing or solidifying they tend to become more solid. This is one explanation of the beauty of the snowflake, which is a form of crystal.

Psychiatrist Points To Prevalence Of Insanity

COPYRIGHT UNDERWOOD & UNDERWOOD, N. Y.

Dr. Llewellyn Barker, professor of clinical medicine at Johns Hopkins University, who attracted nation-wide attention recently with his address before 400 of America's leading authorities on mental diseases, attending the convention of the American Psychiatric Association in Atlantic City. Referring to the crime records of Nathan Leopold, Jr., and Richard A. Loeb, confessed slayers of Robert Franks in Chicago, Dr. Barker drew a startling picture of the mental health situation in the United States and pleaded for an awakening of the public mind to that situation and to the necessity of widespread educational efforts toward prevention as against public satisfaction with institutional methods of incarceration and treatment.

The Last Word in Flavor—

The Verdict of Old-Timers: Nothing to *compare* with the delicate and delicious flavor of the real Orange-Crush!

Here are six reasons: (1) The natural fruit oil of oranges; (2) The natural acid of citrus fruits (oranges, lemons and limes); (3) Orange juice; (4) Pure carbonated water; (5) U. S. Certified food color; (6) Pure cane sugar. *My*, what a drink!

LITTLE JACK RABBIT
By DAVID CORY

Never Forget Your Mother.

Now let me see. What did the Big Brown Bear do after he had set up his big stick in the corner of the little white bungalow, as I mentioned in the last story? He handed Uncle John Hare a large cabbage leaf cigar, and, after asking pretty Lady Love's permission to smoke, sat down and lighted one himself.

"Woody Woodchuck paid me a visit yesterday," began the Big Brown Bear, blowing a beautiful ring of

"Woody Woodchuck paid me a visit."

smoke into the air. "Woody was looking very well. He has a new house each spring. He's a great digger. Mother Nature gives him stout claws for that very purpose."

"He's a good friend of mine," chimed in Little Jack Rabbit. "The many holes he has dug have saved my life more than once. Many a time have I hid from Danny Fox in one of Woody's old holes."

"Ha, ha!" laughed the Big Brown Bear. "Woody Woodchuck told me yesterday that he had to climb a tree to escape that old fox."

"What, can Woody climb trees?" asked the little rabbit.

"Only low trees," answered the Big Brown Bear. "Danny Fox was so close at his heels that he had no time to reach his front door, so he ran right up a tree, clinging to the rough bark with his sharp claws."

"Bully for him," laughed Uncle John Hare. "I have to dodge around them. But I've good, strong long legs. I can beat Danny Fox at dodging."

"Woody Woodchuck belongs to the Squirrel family," said pretty Lady Love. "I remember learning that at school. "He looks something like a squirrel, only he is very much larger and has a stouter body. Squirrel Nutcracker has a gray fur coat, while Woody's is brownish-yellow. His feet are very dark brown, almost black, and his whiskers gray."

"Hurray for Mother," exclaimed the bunny boy, admiringly. "She knows as much as you, Mr. Big Brown Bear."

"She knows how to make angel cake which is more than I do," answered the kind old animal, with a wink at Uncle John Hare. At which the gorgeous little lady rabbit at once brought out the angel cake.

"My, that's good," sighed the Big Brown Bear. "I didn't mean for you to see my wink, but I'm glad you did Lady Love."

Pretty soon he rose and taking his great fur cap off the wooden peg and picking up his walking stick, bade them all good night. "Come up to see me tomorrow," he said to the little rabbit. "I guess I can spare a few lollypops—that is, if you'll promise to bring one home to Mother. That's what you did when a boy. Never forget your mother.

"Mother is the dearest friend
Loving to the journey's end
She will always see you through
When your friends have jilted you!"

Then the kind old bear said good night and ambled home to his Cave.

MYSTIC

The semi-monthly meeting of the Woman's Christian Temperance union was held Wednesday afternoon in G. A. R. hall and opened with singing of song entitled March of Allegiance. Following the devotional exercises, the roll call was responded to with current event items. After singing America To Be, business matters were taken up and it was voted to hold the meetings during July and August at the homes of members and ask a fee of ten cents from each member and to invite anyone who cares to, to attend these meetings. The last Wednesday in July is to be held what is known as a "jubilee" meeting and picnic combined, this affair to be at the home of Mrs. A. E. Cutler on West Mystic avenue. An article written by Kathleen Norris entitled The March of Allegiance, which was part of the program at the women's national congress for law enforcement held in Washington, was read in relays by Mrs. A. E. Cutler, Mrs. James E. F. Brown and Mrs. Walter Phillips. A part of an address by Mrs. Henry W. Perkins relative to Observance of Law was read by Mrs. C. E. Newbury. President Coolidge's address Law a Rule of Action, was read by Mrs. Gordon Allyn. An article entitled It Took the Whole Family was read by Mrs. W. H. Lamb.

Dr. [illegible] K. Preston of Providence is spending a week in the village.

At the annual election of officers of Stonington lodge No. 26, I. O. O. F., held Wednesday evening, the following officers were elected for the ensuing year: Noble grand, William Collins; vice grand, L. S. Doyle recording secretary, Erastus Fish; financial secretary, C. C. Potter; treasurer, J. B. Stinson. There are a number of appointive officers, and these will be announced at the next meeting of the lodge.

The June supper given by the ladies of the Union Baptist church was held Thursday evening in the church parlors.

Miss Helen Palmer has returned to her home in Brooklyn, Conn., after a visit of two weeks in the village.

Miss Eleanor Fish is to leave today on route for Montreal and will sail from there for Europe and will spend the summer abroad.

A whist in the interest of Charity Chapter, No. 76, O. E. S., was held Wednesday evening at the home of Miss Seymour A. Stoddard.

A portion of the cement road between the trolley tracks near the railroad station has been torn up this week for the purpose of laying new ties.

Mr. and Mrs. Walter J. Tucker of the Mystic Oral school have returned from a visit in Washington, D. C.

NOANK

Miss Elaine Merrill, Miss Dorothy Rathbun and Miss Inez Cox left this week for Vineyard Haven for the summer.

Miss Ida Palmer will entertain the True Blue, Thursday, at her home.

The NORWICH BARGAIN HOUSE
WASHINGTON SQUARE NORWICH, CONN.

CHARGES FORMER TREASURER WITH APPROPRIATING FUNDS

Charging that William Shmauk, the former treasurer of the Paty Schwartz Co., wholesale grain dealers in New London, had appropriated to his own amount of $57,000. Attorney Morris use funds of the company to the B. Lubchansky appeared before Judge John R. Booth in the civil superior court here Thursday morning to contest the application of Shmauk for a writ of mandamus to compel the company to show cause why the books of the company should not be opened to his inspection.

Attorney Lubchansky stated to the court that Ida Shmauk, co-applicant with the former treasurer, had never been refused permission to see the books of the company, and that she had never applied for permission to do so.

Counsel for the Schwartz Co. appeared in court with a mass of telegrams, checks, check stubs, ledgers, etc., which he offered to present to the court. He charged that Shmauk had falsified check stubs, ledgers, books and records of the company; had drawn checks to himself, and charged them to the corporation, as for alleged transactions of the company; had drawn checks to himself for one amount, and charged himself with a less amount.

Shmauk had been treasurer of the company for a period of 20 years, resigning recently, according to Mr. Lubchansky, when threats were made to sue him for damages of $57,000. He requested according to the return filed by Mr. Lubchansky in reply to the application for the writ of mandamus, permission to inspect the books of the Schwartz Co. prior to June 12, and that the examination was made in the office of Mr. Lubchansky by Shmauk, and a certified public accountant hired by him.

At the conclusion of the hearing on Thursday Judge Booth took the papers and reserved decision on the application for the mandamus writ which, if granted, will open the books of the company to further inspection by the Shmauks.

Attorney Arthur T. Keefe argued the case for the Shmauks, stressing the fact that inasmuch as they are heavy stockholders in the Schwartz Co., they are entitled to permission to examine all the records, etc. They own 210 of the 420 shares of capital stock.

Vanity is the only intellectual entertainment some people have.

MRS. DAVIS RECOVERS STRENGTH.

The following statement contained in a letter from Mrs. A. [illegible] Davis of Jamestown, N. Y., should bring hope to her women who suffer. "I was [illegible] condition she was [illegible] I was [illegible] weak with pain, [illegible] tion, and utterly [illegible] not sit up all the time. Lydia E. Pinkham's Vegetable Compound restored my health and strength so I am now running a rooming house and do all the work." Lydia E. Pinkham's Vegetable Compound is pre-eminently successful in overcoming such troubles and it will pay any suffering woman to try it.

DEMONSTRATIONS FOR MISSING ITALIAN DEPUTY

Rome, June 26 Energetic measures have been adopted by the authorities for the maintenance of order tomorrow during demonstrations in favor of socialist deputy, Matteotti, who is believed to have been kidnapped and murdered as a result of political enmity.

All factories and industrial establishments will be closely watched by carabineers and detachments of troops. Strict orders harve been given that the proposed demonstrations must not be disturbed, but there are equally strict orders that they must be peaceful

Pope Pius has conferred the papal decoration "Pro Ecclesia et Pontifice" upon Mrs. Arthur H. S. Bird of Salt Lake City.

WORK OF WORLD SUNDAY SCHOOL ASS'N

Glasgow, June 26.—(By The A. P.) The World Sunday School association convention which closed today adopted a resolution declaring that the delegates viewed "with profound concern long continued national jealousies and racial antagonism" and called upon the Sunday schools throughout the world to promote the coming "of that Kingdom which can alone secure peace on earth and good will toward men."

Resolutions were also adopted favoring total abstinence and the complete prohibition of the manufacture and sale of intoxicating liquors; endorsing the w... relief and urging support of Golden Rule Sunday, December 7, and urging inclusion of courses in Sunday school work in the curriculae of schools preparing clergy and missio...

The executive com... selected Los Angeles for the 1928 convention. The date probably will be in September and will be announced later.

The speakers today included the Rev. Theodore Mayer of St. Louis, the Rev. Herbert Harris and Prof. Erasmo Braco of Rio Janiero, the Rev. Otto Leirce of Buenos Aires, Prof. ... A. Weigle of Yale university and the Rev. ... W. ... Halpenny of Charleston, W. Va.

DISCO BROTHERS

DISCO BUILDING 255 MAIN STREET

UPSE LEAPED IN FRON OF A SUBWAY EXPRESS

New York, June 26.—Mrs. Dorace Miller, 32, a trained nurse formerly of Norfolk, Conn., died at Fordham hospital today from injuries sustained when she threw herself in the path of a subway express. On the way to the hospital the woman said the cause of her act was disappointment in love.

After pacing up and down the platform Mrs. Miller placed her hand over her eyes as the train approached and, screaming, jumped in front of it. The motorman halted the train but not in time to prevent the woman's body from becoming wedged under the front truck of the first car. In the ambulance she told a doctor she was separated from her husband, with whom she had lived at Norfolk.

RUM RUNNERS FINED $1,000 AND GIVEN YEAR IN JAIL

New Haven, June 26.—Henry Rasmussen and Givovanni Carbone who were engineer and deck hand of the rum runner Wilkesbarre seized by the city police o May 12 on the harbor front, were each fined $1,000 and given a year in jail by Superior Court Judge Ells today. Counsel for the men made a hard fight to keep the men out of prison and arguments with State's Attorney Alling were frequent and warm. Once Mr. Alling informed counsel that he had "a lot of information" about the men and on being pressed said that Carbone had been employed as a "still operator" by Dominic Perrotti, who is said to be the head of a gang of bootleggers and who is now out on bail on charges in both the federal and state courts, and whose place was recently raided. When counsel claimed that Rasmussen was an innocent party the state's attorney countered by declaring that Rasmussen was the one who hired the crew of the Wilkesbarre.

The craft is said to have landed several large cargoes of alcohol on the Connecticut shore of Long Island.

OPPORTUNITIES THAT ARE GRANTED TO NO OTHERS.

(Written Specially for The Bulletin.)

After a long, cold spring, reluctant summer seems, at last, to have reached us. For a week the air, while not hot, has at least been warm enough to make winter underwear a discomfort. Several times it has closely approached the state popularly known as "muggy." There have been two nice rains to soften and soak the soil. As a result, things are growing.

One neighbor bursts out: "Look at them potatoes. Gosh, you can see 'em grow while you wait." Another says: "Things is jest a-humpin', now." Last week Neighbor Sherman was planting; this week he's preparing to begin hoeing. Some of his grass is so heavy that the last windstorm broke it down, and left it lying "lodged," as if driven over by a steam roller.

I've been out looking over my own small garden, to give it such first aid as conditions seemed to call for. I sowed some beets at the usual time, along in April. It took them about four weeks to come up. Then, being up, they stopped in disgust of the sub-arctic world, they had broken into, stood hesitatingly for a fortnight,—and then began to die. Not more than ten days ago, I went over the shrinking rows and dribbled in more seed in the vacant spaces. That last sown seed, taken from the same package as the other, is already up in fine shape, looking even now vastly more chipper and saucy than the somewhat bedraggled plants of the earlier sowing.

Melons and cucumbers haven't more than half of them germinated at all, though they were planted in hills prepared with pernickety care and protected by glass-covered boxes from both frosts and bugs. Beans are quite as irregular. Where one hill is up two are vacant and investigation shows that the seed has "died a' bornin'." In our already perilously short season, there's small use replanting such things. But I've done so—once—once—on the theory that a freakishly backward spring may be compensated for by a freakishly warm and frostless fall. If such a thing should happen, I may yet have succotash material. Who knows?

—In fact, who of us has really known of anything about this mystery of plant genesis and growth? We saw seeds. They "come up," grow or don't grow, and grow into plants which, if left long enough, will mature into seeds for another generation—another year. But what do we really know about the Why or the How of it?

We observe certain recurring se-quences in nature. From their practically invariable behavior under like conditions, we assume that they will continue to recur in the future as in the past. Hence, we deduce what pleases us to call a "law."

But what is a "law?" In common parlance, it is a regulation enacted by some legislative body and has to be enforced by a corps of executives,—officers set apart for the purpose of compelling their fellows to obey it or of punishing them for disobedience.

Certainly what we see fit to call "the laws of nature" aren't like that. There's no record of their ever having been "passed" by any legislature. And they don't need so much as a single constable to enforce them. They enforce themselves. In sober truth, all we ever know about them is the fact of that self-enforcement. That's really, the only evidence we have that they exist. And the only guarantee we have that they will continue to act is that they always have acted in the past.

On this rather slender basis of knowledge and assumption, the scientists build a whole library of "laws" to which they are constantly adding by new discoveries or fresh deductions. On the same basis we farmers sow and expect to reap.

What is has been, and what has been shall be, and there is no new thing under the sun. That's about what it all sums up into. Since the sun rose this morning we assume that it will rise tomorrow. Since we raised some corn and potatoes, last year, we plan to raise more corn and potatoes, this year, by the same treatment.

We drop a kernel of corn on mellow soil and cover it up. A week or ten days latter there appears above the surface a green shoot. It does not in any way resemble the kernel we planted. It is something which has come out of that kernel, however, and something which, in due course of growth, will reproduce more similar kernels.

But Why? And How? I can't tell: you can't tell: no living man can tell. We may perhaps arrange conditions so that we can actually watch, from hour to hour, the process of germination. We can see the planted kernel swell: we can see it crack at one end: we can see a tiny rootlet emerge and begin boring downward into the soil: we can see a green chit start forcing itself upwards towards the air and the light. Oh, yes, this can be done and has been done.

Having been done, and every hourly step of the process noted and set down in black and white, we know just exactly as much about the Why and How of it all as we did before. Which is Nothing.

The original and worthy meaning of the word "miracle" is "A wonder or a wonderful thing." It is only a secondary and derivative definition which implies anything contrary to the laws of nature. —Of course, the state legislature which is empowered to enact a statue law has equal right to repeal it. Similarly it may be granted off hand that the Power able to establish a law of nature is equally able to amend or override it. We're not going to boggle over any hair-splitting differences of definition.

To the savage an automobile, speed-ing at fifty miles an hour along the road, would be a "miracle." But we, who can take it apart and put it together again, who can make it if need be out of the rawest of raw materials, who know exactly why it goes and how it goes, who know what makes it go and how to manage it according to our will or whim,—to us it is as far from a miracle as a hoe is.

When I want to see a real "miracle," i. e., a wonderful thing, I go out into my garden and take a good look at a hill of corn or of beans or of potatoes. There they are, just where I planted the seed, weeks ago, growing just the same way as they did last year and the year before that, and the other interminable years of an incomputable past.

But what makes them grow this year or what made them grow last year, why they grow, and how the dry seed transforms itself into a green plant,—mercy, there are questions too deep for me. Yea, too deep not only for me, but for all the professors of all the universities that ever flourished.

Ah, the Mystery of Life! In those dry kernels of corn, yellow, inert, seemingly useless for any purpose but to make meal for hog feed, lie imprisoned the potentialities of square miles of tasseled green, marching in ordered ranks over New England hills or across western prairies.

The cunningest chemist in the world couldn't make a single kernel, with life in it, though all the wisdom of all the ages of all human history were at his disposal. Yet, I, John Farmer, simple old hayseed of a backroad farm, plant my corn as nonchalantly as if the kernels were just gravel grains, and go to bed and to sleep in serene certitude that, while I rest, the Eternal Unresting Universe is working its miracle on that planted seed. It is doing, through the quiet watches of the night as well as through the shining hours of sunlit day, something which all the might of the human race, combined, couldn't do, even if it knew how.

We farmers are, perforce, practical-minded chaps. We plant corn and other crops, not for the sake of interesting knowledge or of solving mysteries, but chiefly to get something to eat, to pay taxes and to buy shoes with. Too many of us let it go at that.

Which is where we make another mistake. Of course we must eat, and the tax collector sees to it that we pay our taxes, and experience makes clear the need of shoes. But to stop there, satisfied when we have done that much, utterly oblivious to the awe-inspiring wonder of the great Annual Miracle which every spring works before our eyes,—why even the birds and the beasts do as much. They take what Nature provides, asking no questions, feeling no hopes, making no plans, unconscious of the fact that they are surrounded by mystery and miracle, incapable of wonder and worship.

We farmers must hoe the dirt and pull the weeds and haul the manure and do a thousand other more or less dirty and repellment tasks. We must do them just to exist. But just existing is not living. Mere existence falls far short of the full glory of Life.

Perhaps some of you will think I am too transcendental or perhaps too sentimental and impracticable. But I can't help feeling, nevertheless, that our calling opens to us opportunities such as are granted to the followers of no other vocation. We tread daily a round which is both circumscribed and enlarged by an endless miracle. We live and move and have our being in the very sanctum sanctorum of God's Great Temple of All Out-doors. The sordid dirt which we work is no plainter to our sight than the everlasting hills to which we may lift our eyes whenever we so will.

The farmer who should sit on the fence all summer absorbed by the beauty and wonder about him would be very likely to spend the following winter in the poorhouse, fed by the contributions of more practical men.

But the farmer who, as he swings the gate in early day on his way to his work, cannot find time or will to look up and bathe his soul in the glory of the morning on the eastern hills, or who will not pause, now and then, in the hoeing of his corn to think upon the wonderful miracle which is unfolding its story in every growing stalk, — he is starving his nobler self for the sake of feeding his cattle or his swine.

Of all sorts and classes of men, we farmers live closest to the primal mystery and should be the most reverent, the most serene and, in a worthy sense, the most humble of men.

It is not necessary that we should be either coarse or stolid or dogmatic or sordid.

Our constant association with the eternal verities may make us a trifle impatient of sham sentimentalism or make-believe nature-worship. But that is no reason why we should go to the other extreme, and turn ourselves into mere dirt-grubbers.

Common sense advises us, to keep our feet on the ground. But this does not require us to stick our noses into it.

THE FARMER.

GALES FERRY

General Superintendent R. D. Fitzmaurice, of eastern lines of the New Haven railroad, with Mrs. Fitzmaurice and Mrs. Edward Fitzmaurice their daughter-in-law, left their cottage on the Bluff, the Pioneer, where they have been spending the month of June, returning to their home in Providence Thursday morning. They have leased their cottage here for the season.

Rev. Truman H. Woodward and Miss Mae Congdon of Wapping were recent guests of Rev. and Mrs. W. D. Woodward, the parents of the former, at the M. E. parsonage.

Mr. and Mrs. C. E. Colvin of the submarine base had as their guests their aunt, Miss Frank Cooper, an old-Groton, with Mrs. Fanny A. Meltham of Gales Ferry, to motor to Cheshire Wednesday afternoon to the wedding of Carrie Hankins Chapman and Irwin Adolphus Thompson, at St. Peter's church, where Suffragan Bishop Acheson performed the ceremony. Miss Chapman is the eldest daughter of Charles H. Chapman and Mrs. Chapman of Cheshire. Mr. Chapman's ancestors were natives of Gales Ferry, where he spent many summers when a boy. Mr. Chapman is now the manager of the Waterbury division of the Connecticut company trolley lines. Miss Chapman has been a successful teacher in kindergarten in Cheshire. Mr. Thompson is a graduate of Wesleyan university, Middletown, and is connected with the Westinghouse Electrical company in Chicago. Mr. and Mrs. Thompson will go to Chicago to reside following their honeymoon trip in Maine, where they will visit with Mr. Thompson's relatives.

C. A. Snyder, second trick operator at the New Haven railroad station here, entertained his three brothers, Clifford, Samuel and Maynie Snyder, of Reading, Pa., for the Yale-Harvard races and over Sunday.

Norman & Povey are agents for Troy Steam Laundry of Norwich.—adv.

Mr. and Mrs. Fred Jones and daughter, Miss Dorothy Jones, of Providence, R. I., were recent callers at the home of Mr. and Mrs. Justin H. Peckham at the Breakwater.

The young granddaughter of Mr. and Mrs. Peckham, Nancy Crandall Peckham of Waterford, who has been spending a week at their home, returned this week.

Callers at the home of Mr. and Mrs. Albertus Dean on the Military Highway the first of the week were Mr. and Mrs. Royla A. Cranker, with Mrs. Perry of New London and Mr. and Mrs. Minor Moxley of the village.

Mr. and Mrs. Nelson Parker entertained Mr. and Mrs. Mason Zieler and young son of Hartford for several days recently.

H. J. McCleer and family of Brooklyn, N. Y., have arrived and have opened their summer cottage on the bluff for the season.

Mrs. Walter M. Buckingham motored to Waterford Tuesday evening to join the Colonial quartet of Norwich, of which she is a member. The quartet gave a recital and musicale there.

Mr. and Mrs. Walter T. Clark entertained in honor of the first birthday anniversary of their young son, Walter T. Clark, Jr., last Saturday afternoon from 3 to 5 o'clock. Ten babies were present under 3 years of age with fifteen parents and friends. Favors of balloons, boxes of candy, crepe paper dolls, were given the young guests. Ice cream and cake was served by the hostess. Master Clark received many gifts. Among those present were Prof. and Mrs. Allen W. Manchester and sons, Jonathan and Albert, from State Agricultural college, Mrs. Chase's brother and family, Mr. and Mrs. A. Douglas Clark and daughter Barbara of Worcester, Mrs. Clark's sister, Mrs. Edwin E. Hebb, and young daughters, Ella Pearl and Louise, of Detroit, her mother, Mrs. Eldridge Whitney, and brother, Dane Wilcox, of South Sudbury, Mass., Mrs. Hazel McKenzie and daughter Margaret and her sister, Miss Edwards, of Waterford, Mrs. James Maxon and son, James, Jr., with her mother, Mrs. Noyes, from West Mystic, Mrs. Stephen H. Norman, Mrs. Edmund J. Norman and daughter Phoebe and Mrs. Rufus W. Burdick and daughter Florence, all of Gales Ferry.

You Can Be Certain of It!
Kirkman's Soap is guaranteed to be absolutely free from Silicate of Soda!
"Your Hands will be Gra
KIRKMAN'S BORAX SOAP

A Promise in Public and a Practice in Private!

What Is Silicate of Soda?

SILICATE of Soda is a product made by the melting together of sand, soda-ash and charcoal. When dissolved in water, the solution is known as *"Water Glass."*

It is extensively used as glue and, when used in soap, we consider it not only an absolute adulterant, but harmful alike to hands and fabrics.

Kirkman's Soap is FREE from Silicate of Soda

YOU probably have seen and read this definite guarantee (reproduced above) which appeared recently in the daily papers.

Because thinking, intelligent women are asking *"What is Silicate of Soda—why is it put in Soap?"*—this message clearly states to our thousands of loyal housewife friends that *Kirkman's is a pure, honest Soap*—free from any and all adulteration—free from irritating lye to harm the hands or injure your fine and finest fabrics.

And because there can never be a substitute for purity—there can never be a substitute for Kirkman's—

Nor can you purchase a more economical soap—because you cannot find a more *efficient* soap.

WHATEVER name may be given to soap-mixtures, please remember always that the name *"Kirkman"*—yesterday—now—today—tomorrow—always—stands for the purest and best soap that 87 years of successful soap experience knows how to give you.

"YOUR HANDS WILL BE GRATEFUL"

FINANCIAL AND COMMERCIAL

MARKET WAS BOUYANT.

New York, June 23.—Stock prices bounced upward today under the leadership of the industrial shares, total sales exceeding the million share mark for the first time since April 11. The bullish demonstration in the stock market synchronized with the Smith demonstration at Madison Square Garden, but opinion of brokers was widely divided as to whether there was any political significance in the [illegible] demand for securities.

[illegible] eight stocks, of which 31 were rail shares, mounted to new high levels for the year. At the close of the market the average of twenty leading railroad shares also was in new high ground. While the persistent demand for the rails provided the initial impetus for the upturn, industrials soon forged into the lead, U. S. Steel common standing out among the so-called barometric issues with a gain of 2 1-2 points at 99 7-8.

Trading was on the most comprehensive scale in weeks. As soon as one group showed signs of lagging, [illegible] to another until practically all classes of stocks, except the coppers, enjoyed at least a brief interval of activity and strength. Chain Stores issues displayed the largest gains, Kresge jumping more than ten points to 400, a record top; Schulte Stores crossing 119 to a new top for a net gain of more than 3 points and Woolworth closing 2 1-2 points higher at 106 1-2.

Continuance of relatively high car loadings, combined with the publication of some favorable May earnings statements, provided the basis for another upturn in the rails. Among the issues to attain new peak prices were Atchison, Union Pacific, New York Central, Chesapeake and Ohio, Southern Railway, Frisco common and preferred, Northern Pacific, Louisville and Nashville, New Haven and Rock Island 7 per cent. preferred, net gains ranging from fractions to nearly three points.

The only trade news of any consequence was a report that while there was a slight improvement in the demand for steel, operations of the United States Steel Corporation were only fifty per cent. of capacity and that another big decrease in unfilled tonnage was likely next month. Oil shares joined in the advance despite another wave of selling, based on the government's anti-trust suit against th leading companies but the net gains were small.

Industrials and specialties to sell at new 1924 top prices included Savage Arms, Montgomery Ward, Fleisch[illegible] Normal [illegible] [illegible] [illegible]

TODAY'S EVENTS

Centenary of the birth of Edna Dow Cheney, noted for her work in the Freedmen's Aid Society.

Sixty years ago today was fought the civil war battle of Kenesaw Mountain, Georgia.

Eighty years ago today the Mormon leaders, Joseph and Hiram Smith, were slain by a mob at Carthage, Ill.

Twelve hundred male voices it is said, will be an outstanding feature of the sixteenth biennial music festival of the Norwegian Singers' Association of America, which opens today at St. Paul.

On the Canadian river, in northwestern Texas, a monument is to be unveiled today in commemoration of the fiftieth anniversary of the famous frontier battle of Adobe Walls, between the settlers and the Indians.

Broadway Theatre.

Once again Norwich can proudly say that she has again produced a real stage star. This time it is a hotel colored boy, Mr. Mason, who was born and brought up in this city. After many trying experiences Mr. Mason has finally attained an envied position on the vaudeville stage. A number of years ago he played one night with the team known as Mason & Howard. Now he is showing his comedy talent with another partner, the combination being Mason & Zigora in Look Out. See him and boost Norwich.

The Zylos opened the program with a very good novelty xylophone act.

Nick & Gladys Verga presented a potpourri of song, comedy and dance that scored highly.

Johnny Elliot & Girls in The Dancing Studio is a musical comedy extravaganza with a bevy of Broadway Beauties. It made an excellent closing number.

The picture, The Guilty One, which was shown for the first time in Norwich at the Broadway theatre last night, is by far the best Miss Ayres has ever done. In it she has a great story, a great cast and a role that suits her to perfection. Here's a picture in which Agnes has to act and wear beautiful gowns as well, and there's not a bit of doubt in anyone's mind but that she can do both—and does.

If you're looking for mystery, excitement, thrills, with just enough comedy mixed in to flavor it, The Guilty One will more than entertain you.

Broadway Theatre.

Herbert Brenon's The Breaking Point is another splendid action-romance by the man who made The Spanish Dancer. Nita Naldi, Patsy Ruth Miller, George Fawcett and Matt Moore are featured in the production, which opens at the Broadway theatre Sunday.

The Breaking Point was extremely popular as both a book and play by Mrs. Roberts Rinehart, but, if the reception in other cities is to be taken as an example, the picture is in for an unusually successful run. There never was a better piece of screen material written, and Julie Herne and Edfrid Bingham have done wonders with the adaptation. There are scenes the author never even thought of that go a long way to make The Breaking Point not only one of the most gripping, but also one of the most entertaining productions we have seen in many months.

Naturally, it's a Paramount.

Another Large Real Estate Sale at [illegible], Jewett City

Burdick & McNicol, real estate brokers, have sold for Velo Maynard his large, mercantile building located on Main street, Jewett City, commonly known as The Liberty Hall building. The sale was made to Charles and Maria Arabik of Jewett City. The property has a large frontage on Main street and is now occupied by Maynard Bros. plumbing shop, Gardiner's news stand, Exley's paint shop, League's barber shop, the Maple Leaf Dry Goods Store, and McBroomes Millinery store. This is the second time that this agency has sold this property within a few months.

FINANCIAL AND COMMERCIAL

(Continued from Page Twelve)

hurry. The corn market closed nervous, 1 7-8 to 2 3-4 cents net higher. Sept. 93 7-8 to 94 cents. Wheat finished unsettled at 1 1-4 to 2 5-8c gain, July $1.16 and Sept. $1.17 1-2 to $1.17 5-8, with oats 1 1-2 to 3 cents up. And provisions unchanged to a rise of 12 cents.

Dearth of corn and oats here was so acute that some shippers reported buying back grain from the east. The trade in future deliveries of corn assumed large proportions, and it was only at the end of the day that profit taking on the part of the recent buyers checked the advance of prices, and brought about any important downturn. The fact that unsettled weather was predicted for the entire corn belt made the crop outlook worse for corn and oats, and indicated that farmers were likely to tighten their hold on reserves on both the feed grains.

Reports from Iowa, the biggest corn producing state, said the best of future conditions would be without power to overcome the lateness of the crop washed-out hillsides and flooded valleys. Special attention was also given to Minneapolis advices that much of the corn crop in the northwest would hardly mature before frost.

Wheat and oats advanced with corn, but wheat showed independent strength owing to an unexpected jump in Liverpool quotations and to word of urgent need of rain in parts of the Canadian Northwest. There was evidence, too, of considerable foreign buying of future deliveries of wheat here.

Provisions responded to the upward swing of grain and hogs.

AGRICULTURAL INTERESTS

CARE OF THE HEN WITH HER BROOD

The poultryman who succeeds in raising strong chicks is the one who imitates the care and solicitude of the motherly hen for her brood. The hen constantly tries to provide only the best for her chick and, if intelligently assisted, will usually do a good job. By providing warmth, dryness and cleanliness the poultryman can best assist the patient hen. Chicks [illegible] sheltered from the [illegible] are at least two [illegible] weeks.

A [illegible] are about two days [illegible] should be moved with the [illegible] brood coop. Until they reach [illegible] they should remain in the [illegible] the hen. While in the nest [illegible] no food but the [illegible] should be given plenty of [illegible] some food dail[illegible]

The floor of the brood coop in [illegible] chicks are to be placed should be covered with dry earth and sand with a little chaff on top [illegible]

[illegible] the chicks when removing [illegible] should be carefully [illegible] against. The head and throat of each [illegible] should be carefully examined for any lice that may be hidden in the down at this time. If lice are present, sweet oil or lard should be rubbed into the down on the top of the chicks head or under its beak and throat. This rubbing is done with the fingers and only a small quantity of oil or lard should be used. The grease will spread over the skin and destroy all lice.

Aniseed powder [illegible] into the feathers of the hen and the down of the chicks will also destroy parasites of all kinds without injury to the chicks. This powder must be as fine as possible and very dry. Insect powders that irritate may prevent the chicks from eating, hence only very mild powders should be used.

If the weather is cool the chicks will probably do better if confined to the coop with the hen for a day or two. If the weather is warm the chicks may be permitted to run out into the sunshine. Experienced poultrymen refrain as far as possible from disturbing the hen and the chicks for if they are frequently disturbed the hen is liable to become irritable and somewhat nervous and step on the chicks. Unnecessary attention is sometimes as bad as not enough.

Feeding should be regular and the water supply must never be allowed to run out. If this is the case, the chicks will become very dry and are liable to gorge themselves with a large supply and this usually results in sickness.

The strain on the hen caused by sitting and hatching the eggs is considerable and tends to reduce her vitality. She must, therefore, be well fed and cared for. A conscientious hen will often deny herself in an earnest effort to produce [illegible] eat. If this happens one should be fed special food [illegible] for the chicks [illegible] be frequently [illegible] powder to prevent [illegible] from being [illegible] soon as the hens [illegible] she should be [illegible] dust bath [illegible] sunning [illegible] coop.

Neither the [illegible] should be set [illegible] the floor of the coop or from the ground.

Small feed boards with a flange around the edge may be provided. Feed dishes made of iron with wire tops to prevent the chicks from walking in the feed may also be used.—S. W. Shoemaker.

SUGGESTIONS GIVEN FOR FIGHTING MOTHS

A fortune awaits the man who will suggest some magic way to prevent the annual recurrence of moths. In the mean time, eternal vigilance is the watchword. Many people have the erroneous idea that the campaign against moths need be carried on only in warm weather. But remember the moth which is seen with the first signs of spring must have been in the larva stage during the winter.

Three species of clothes moths attack articles made of wool, fur, feathers, hair and manufactures and these materials are so similar that one species or another [illegible] pupil and [illegible] these [illegible] pass through the [illegible] stage. The [illegible] pupa [illegible] stage. The [illegible] the summer [illegible] prevail at any time.

The moths themselves do not damage clothing, carpets or similar articles, but they lay many small white eggs, in some instances as many as 200 eggs each in a period of three weeks.

It is a simple matter to control moths where the proper precautions are observed. All clothing that is stored should be frequently brushed or beaten and well aunned at regular intervals. The larvae and eggs of clothes moths are very delicate, and a thorough brushing, or beating [illegible] other means remove them. In brushing pay special attention to the seams and pockets where dust and [illegible] have collected.

All clothing should be well cleaned before it is packed away. After thorough brushing, beating and sunning, articles to be stored away should be wrapped [illegible] heavy wrapping paper, making certain that the paper at the ends of the bundle is so well bent back upon itself that no opening is left through which the moths can crawl.

Fumigation with carbon disulphide is a most effective treatment. Clothing should be thoroughly brushed and then packed in a tight trunk or chest and fumigated. While carbon disulphide fumigation kills the clothes moth, it will not keep moths from entering later and developing new infestation.

Paper Film Invented

A recent British invention, which may completely revolutionize the film industry, enables paper films to be projected on the screen by means of reflection from light placed in front of the reels, not behind them, as at present. These new paper films are said to possess many advantages over the ordinary celluloid kind. They are non-inflammable, they do not crack or tear, and last considerably longer than celluloid. They can also be made very cheaply, and may be sent through the mails in ordinary paper wrappers.

Trichinosis

Trichinosis, a painful and often fatal disease, is caused by a small parasite that is sometimes present in pork. The trichina parasite is so small that it can only be seen with a microscope, and hogs harboring it show no symptoms nor does the diseased pork appear different from pork not diseased. All pork should be thoroughly cooked before eating as that is the only sure way of ridding the meat of the disease.

WAITING

Oh, mortal life is but one long wait
From the entrance door to the exit gate:
The little child at his prattling play
Is awaiting joys of a holiday.

We wait for food and we wait for rest;
For belated toiler and tardy guest;
We wait for money, we wait the show,
For the doctor's call, for the bore to go.

We wait for sun and we wait for rain:
For the time to sow and to reap again;
We wait for Christmas, we wait for spring,
For the loved one's kiss or the 'phone to ring.

We wait the train with its whistle shrill,
And the postman's tidings of good or ill:
Sometimes we wait in our longing dumb,
For the sound of step that can never come.

We wait for courage to meet our plight,
For the dawn that follows the darkest night;
We wait the baby's first wailing breath,
In the hush we wait for the news of death.

We wait for good and the joy of life;
For surcease of pain and for peace from strife;
We wait the Heavenly Father's smile,
Though His love is waiting us all the while.

—Zella Bissell Chatfield in Farm Life

RADIO PROGRAMS

LEGAL NOTICES

NOTICE

Pursuant to an Order and Decree of the Judge of the Court of Probate for the District of Lebanon, made and issued on the 13th day of June, A. D. 1924, I will sell at private sale the farm known as the B. F. York farm, belonging to the estate of Benjamin F. York, late of Lebanon, in said District, deceased. Said farm consists of one hundred sixty-eight (168) acres of land, more or less, with the buildings thereon standing; is located on the road leading from Lebanon Center to Goshen Hill, and is fully described in an application to sell on file and of record in said Court.
Dated at Lebanon, Conn., June 26, 1924.
BENJAMIN R. YORK,
je27d Administrator.

AT A COURT OF PROBATE HELD at Norwich, within and for the District of Norwich, on the 25th day of June, A. D. 1924.
Present—NELSON J. ATLING, Judge.
Estate of Joseph T. Campbell, late of Norwich, in said District, deceased.
The Administratrix appeared in Court and filed a written application alleging that said estate is now in settlement in said Court, and praying for an order to sell certain real estate belonging to said estate, fully described in said application.
Whereupon, It is Ordered, That said application be heard and determined at the Probate Court Room in the City of Norwich, in said District, on the 30th day of June, A. D. 1924, at 4 o'clock in the afternoon, and that notice of the pendency of said application, and of said hearing thereon, be given by the publication of this order once in some newspaper having a circulation in said District, at least three days prior to the date of said hearing, and that return be made to the Court.
NELSON J. ATLING, Judge.
The above and foregoing is a true copy of record.
Attest: HELEN M. DRESCHER,
je27d Clerk.

NOTICE TO CREDITORS.
AT A COURT OF PROBATE HELD at Norwich, within and for the District of Norwich, on the 25th day of June, A. D. 1924.
Present—NELSON J. ATLING, Judge.
Estate of Daniel Eliot Grieve, late of Norwich, in said District, deceased.
Ordered, That the Administrator give the creditors of said deceased to bring in their claims against said estate within six months from this date, by posting a notice to that effect, together with a copy of this order, on the signpost nearest to the place where said deceased last dwelt, and in the same town, and by publishing the same once in a newspaper having a circulation in said District, and make return to this Court.
NELSON J. ATLING, Judge.
The above and foregoing is a true copy of record.
Attest: HELEN M. DRESCHER,
[illegible] Clerk.

NOTICE.—All creditors of said deceased are hereby notified to present their claims against said estate to the undersigned at 135 West Thames Street, Norwich, Conn., within the time limited in the above and foregoing order.
THOS. A. GRIEVE,
je27d Administrator.

HUMOR OF THE DAY

Does your delivery boy sleep in the store nights?
Nope! — In the daytime. — The Progressive Grocer.

Teacher (in English Class)—Johnny, take this sentence: Lead the cow from the pasture, what mood?
Johnny—The cow did, mam.—Boys' Life.

Oscar—Ma, what's Mooly chewing all the time?
Ma—Her cud, darling.
Oscar — Well, how long does the flavor last?—Farm Life.

"Anything may happen in Russia in the next few years," philosophically said Prof. Pate.
"Yes," returned J. Fiske Gloom, "anything but the exhibition of a little common sense."—Kansas City Star.

Downtown—You got worried in wrong at that authoress's birthday party. What the dickens did you do?
Uptown—Why, just wished her many happy returns and lots of 'em.—New York Sun.

"I hear as how the opposin' candidate fer mayor is tellin' around that you're in favor of law and order," remarked Two-Cune Gene of Holster, Arizona.
"He better be careful," retorted the present incumbent, "or I'll sue him fer criminal libel."—American Legion Weekly.

Banks—Have you forgotten that money you borrowed of me last year to go on your vacation?
Jinks—No, old chap! I should really take a vacation right now to get such things off my mind. — Judge.

Who is that guy in the flivver trying to pass our Coles-Choice?
It's the professor of Greek.
Then I'll slow up and let him go by. If I don't, with examinations coming on next week, he might get the idea he can't ever pass me at all.—Farm Life.

It is estimated that the value of perishable products saved through cold wave warnings of the United States weather bureau in the middle west alone amounted to more than $10,000,000 in the winter of 1922-23.

KALEIDOSCOPE

The rock of Gibraltar is more than 1,400 feet high.

The highest peak in New Zealand is 12,350 feet high.

Milk of the Indian buffalo is said to be richer than that of the European cow.

By means of rope and hook, mail is picked up by British airplanes during flight in Mesopatimia.

Surplus cattle in South Africa are fast becoming a serious problem. There are now more than 14,000,000 head in the Union and adjoining territories. Because of reduction of disease by the more extended use of dipping tanks, cattle are increasing at a much greater rate than was formerly thought possible, and local consumption uses up less than half the increase.

The museum of the city of New York has an old-time tavern sign on which is printed the following: "Fourpence a night for bed. Sixpence with supper. No more than five to sleep in one bed. No boots to be worn in bed. Organ grinders to sleep in the washhouse. No dogs allowed upstairs. No beer allowed in the kitchen. No rabbit grinders or tinkers taken in."

A party of German immigrants has arrived in Canada, intending to establish a toy factory in the Province of Quebec, in the City of Hull. The factory will at first employ twenty people. Another enterprise is to be established in Quebec that of the George Pese Company, of Bavaria, which has contracted for a city-owned factory building in Sorel, in which will be manufactured glassware, toys and sundry notions in steel and brass. This company already has a plant in Columbus, O., and factories in Bavaria and South America. Twenty special machines are to come, accompanied by forty or fifty experts from Bavaria.

Six hours after high water it is low water, which is followed by flood tide.

TAFTVILLE

A pretty home wedding was solemnized Wednesday morning at Sacred Heart church when Miss Amedee Dupont [illegible] daughter of Mr. and Mrs. Leon, and Dupont of South A street became the bride of Francis [illegible] son of Mr. and Mrs. Patrick [illegible]. High mass at [illegible] by the pastor, Rev. [illegible]. Preceding the ceremony the bride was escorted to the altar of the Blessed Virgin [illegible] of her [illegible] children of Mary society was rendered by Miss Anna Malo and Miss [illegible]. The maid of honor was Miss Denise Beique and the best man was James Patrick McCarten, both of Providence, R. I. The bride was charming in a gown of white canton crepe, with veil of tulle she carried a bouquet of white roses. The maid wore a [illegible] canton crepe and [illegible]. At the home of the bride's parents a wedding breakfast was served to relatives and a few intimate friends of the couple. Many gifts were received. Early in the afternoon Mr. and Mrs. Beique left for a motor trip to Hartford, Bristol, Providence, [illegible] and New Bedford, and upon their return will reside in Taftville. The groom was born in Canada and has resided in Taftville for the past [illegible] years. He is the proprietor of the [illegible] on Hunter's avenue and is one of the town's prominent citizens. Fraternally he is connected with Ponemah council, No. 34, K. of C., St. Jean Baptiste society, St. Louis society and he is a member of the Taftville Business Men's association. Politically he is a staunch [illegible] and a member of the board of relief and the republican [illegible].

A very clever exhibition and entertainment was given Wednesday evening in Ponemah hall by the [illegible] under the auspices of [illegible] K. O. K. A. The [illegible] troupe did fine work in [illegible] diving and on the [illegible] also presented some [illegible]. They were in charge of [illegible] Hargreaves, who is the leader of the [illegible]. An orchestra furnished [illegible] Master Burton Hall gave [illegible] were well received. A specialist in legerdemain amused the spectators greatly. The exhibition was greatly enjoyed and Mr. Hargreaves intends to take the troupe to Plainfield in the near future. Frederick H. Topliff of Occum was the announcer for the evening.

Mrs. Orias Plante and children, Rose, Rene, Leo and Roland are to leave in a few days for Sherbrooke, Canada, where they will spend six weeks with relatives.

Mrs. Thomas Emerson and Miss Ethel Graham of Lisbon are spending the remainder of the week at Fisher's Island, N. Y.

Mr. and Mrs. Edward Bergeron and Mr. and Mrs. Arthur Lambert of Bristol, Conn., were in town Wednesday, attending the Beique-Dupont wedding.

Miss Florence B. Lukoff and Master Peter Lukoff of South B street are to spend the summer in Blackstone, Mass.

The funeral of Frances Sophia Erlbeck, daughter of Mr. and Mrs. Frank Erlbeck, was held at her home on Hunter's road Thursday afternoon with a service at the Taftville Congregational church, at which Rev. Edwin G. Crowdis, the pastor, officiated. The church was filled with sorrowing relatives, friends and schoolmates of the little girl, and as the body was taken into the building the church bell tolled slowly. The bearers were Christopher Heberding, Frederick Erlbeck, Edward Thomas and John Thomas, all cousins of the deceased. Scores of beautiful floral pieces were grouped about the casket. Burial was in the family lot in Yantic cemetery, where Rev. Mr. Crowdis read the committal service. Undertaker George G. Grant was in charge of the arrangements.

[illegible] Brousseau has resigned his position with the Ponemah company.

Mr. and Mrs. Max Erlbeck and Mr. and Mrs. William Erlbeck of New Bedford, Mass., were visitors in town Thursday.

NORWICH TOWN

Owing to a change in the order of service, Rev. Henry T. Arnold of Williams street, is to be the officiating clergyman at the Sheltering Arms service Sunday afternoon. Miss Nellie E. Howie is to have charge of the musical part of the service.

On European Trip.

John Trankla of 169 Laurel Hill avenue, foreman of The Bulletin job department, left here Thursday evening with Mrs. Trankla for New York when they will sail Saturday on the Majestic for ten weeks of travel abroad. Their trip will take them to London, Edinburg, Glasgow, Holland, Bremen, Switzerland, along the Rhine and into France. While in Germany Mr. Trankla will try to locate the homes which his father and mother left when they came to this country, one from Wurtemberg and the other from Baden-Baden. Mr. and Mrs. Trankla will sail for home again on [illegible], [illegible] reaching New York Sept. 10.

ASKING DOLLAR TO UPHOLD CITY'S REPUTATION IN ARMY APPEAL

The Salvation Army appeal to raise $5,000 for its Home Service Fund in Norwich is short $700 to complete its quota.

The campaign committee therefore issued the following rallying call on Thursday night for the final boost that will put the campaign over the top:

"One dollar to uphold the reputation of our city and to fulfill the slogan, "Norwich Never Failed in a Good Cause." We call upon 700 good hearted, public spirited citizens to contribute one dollar each to raise the entire quota. There are many kind citizens in our community who would make this additional sacrifice even if they have already contributed to the Salvation Army appeal. The Salvation Army headquarters, 10 Cliff street, will be open to receive these contributions in person, or by mail. Or please address your kind offering to George A. Finn, Bankers Trust Co., Norwich, Conn.

"There are also many members in our city on whom the Salvation Army appeal workers called and did not find them at home. We are confident that many of these citizens would not like to stay away from this good cause and would gladly contribute something to help the poor and needy in our city. We therefore, ask them to kindly send their contributions as above indicated.

"The Salvation Army feels grateful to the good people of our city for their kind support and assistance and hopes to render such faithful service to our community as to be worthy of the noble sacrifices made by our citizens in its behalf."

RETURNS $251 VERDICT FOR SHERWOOD AVERY

A verdict for $251 for Sherwood G. Avery of Norwich Town in his suit against Dr. E. H. Linnell of this city was returned Thursday afternoon by the jury in the superior court here after the twelve men had once returned with the report that they could not agree and later came back to inquire about a date in the testimony. Mr. Avery sued Dr. Linnell for $3,000 damages because of an automobile accident at Norwich Town, March 24, 1920, when an automobile driven by the doctor struck a horse and buggy driven by Mr. Avery.

Judge Booth finished his charge to the jury about 11 o'clock and two hours later when the noon recess came, the foreman, Charles Dow, of this city, reported that they were unable to agree. Judge Booth sent them out to dinner and they resumed the attempt to reach a verdict in the afternoon. At 2.30 the jury returned and asked to be given the date when Mr. Avery first went to see Dr. Sweet about his injured heel. The court stenographer, Mrs. Sadie Machol, read from her notes, at the direction of the judge, giving the date as July 3 and that Mr. Avery called on the doctor probably 25 times.

"I think we can agree now," said Foreman Dow as the jurymen filed back into the jury room, from which they returned at 3.10 p. m. with their verdict, which was accepted by the court.

The size of the verdict indicated that it covered the value of the horse and the amount of a doctor's bill that had been claimed but there was nothing allowed for the injuries that Mr. Avery claimed were the result of the accident.

This was the last jury case of this session of court so that Judge Booth discharged them after thanking them for their services and they were paid off by Clerk George E. Parsons.

PRIZES AWARDED IN COLONIAL CLUB PINOCHLE

In Tuesday evening's pinochle play at the Colonial Club, the following scores resulted and prizes were awarded to the four highest: McNaught [illegible], Huntington 6580, Amburn 6440, [illegible] 6420, Drake 6650, Higgins 6255, Koonz 6175, Council 6055, Willis 5955, Harwood [illegible], Sherman 5560, T. G. Washburn [illegible], Dat 4870, Allen 4685.

This concluded the present series of [illegible] and additional prizes were awarded for the three highest total scores in the nine evenings of play. The total scores were as follows: [illegible] 69,735, Lillibridge 65,575, Wilcox 65,480, Higgins 63,420, McNaught 63,400, Amburn 62,165, Oat 61,320, Sherman 61,130 Allen 60,700 Tracy 60,575, Huntington 60,665, T. G. Washburn 60,395, Pierson 58,335.

FINED FOR THEFT OF MOTOR AT HALLVILLE

Philip Gorman and Theodore Carrier of Hallville, accused of the theft of a motor from the Hallville barn of the Shore Line Electric Railway Co., where trolley cars are stored, were before Justice of the Peace Appleton Main in Preston Thursday night for a hearing, were found guilty and were each fined $5 and costs besides being given a suspended jail sentence of six months. They each paid $14.35. Grand juror William Mitchell prosecuted the case.

The two young men were detected and arrested Monday night by Constable Nolan when he saw them carrying a motor from the barn to an automobile.

A bad imitation of wickedness is better than the real thing.

WHITE CROSS COUNCIL HAVING BUSY SEASON

This is a busy season on the calendar of White Cross council, No. 13, Knights of Columbus, as there are a number of activities that will engage the attention of the members during the next few days.

On Sunday forenoon a special committee will decorate the graves of all the deceased members of th council. This is an annual custom which has been observed since the council was instituted, nearly half a century ago.

On Sunday afternoon the third degree of the order will be exemplified on a large class of candidates. The exercises will take place in Steiner hall at 2 p. m. daylight saving time. It is expected that there will be a large attendance of third degree members from all over this section of the state to witness the working of the major degree. Arrangements for this event are in the hands of a special committee.

On Friday, July 4th, a solemn requiem high mass will be celebrated in St. Patrick's church at 8 a. m. This, also is an annual event, alternating between St. Mary's and St. Patrick's churches. Last year it was held in St. Mary's church. Following is a list of the deceased members who will be remembered in the requiem mass to be celebrated on July 4th

John H. Beaudry, William Cunningham, James D. Carver, Cornelius McNamara, Charles McCarthy, John F. Kennedy, Edward Fuller, John Sullivan, Jeremiah J. Murphy, John Sweeney, Timothy Sullivan, Thomas Burke, Alexander Conklin, Cornelius Casey, Edward Kingsbury, John Burke, Patrick F. McNamara, James Moriarty, John R. McNamara, Andrew Cunningham, John Fitzpatrick, Rev. P. H. Kennedy, Dr. P. H. Harriman, James Maher, John Sullivan, 2nd, Douglas P. Auclair, Timothy Coughlin, Rev. Edw. J. Broderick, James Kilkenny, John J. Murtagh, Daniel O'Connell, Patrick F. Murtagh, Nicholas Dempsey, James F. Cosgrove, Patrick J. [illegible], Michael J. McGrath, Charles J. McGarry, Joseph Naureau, Thomas M. Murphy, John J. Sullivan, John Horigan, James J. McCarthy, Lizeen Gladeau, Walter B. Hynds, Rev. Thomas A. Grumbly, Bartholmew Sullivan, Stephen O. Sullivan, Henry O. Donovan, John Galligan, Eugene Sullivan, William J. O'Neil, Jeremiah F. Healy, Jr., John King, John Caples, Joseph H. Sheridan, Frank T. Sylvia, M. R. Sullivan, Thomas F. Foley, Dr. Geo. H. Comeau, John F. Ring, William P. Carey, Joseph T. Fanning, Rev. J. H. Broderick, George P. Madden, Michael F. Dougherty, Charles Corcoran, Thomas Brennan, John F. Holland, Michael J. Looby, John F. Clabby, Peter Shahan, Edward C. Madden, Chas. J. Connell, James Leary, Adler J. Brady, Edward T. Burke, Michael J. Cummings, John J. Hoar, Michael Timmins, James A. Shahan, Daniel A. Sullivan.

VIRGINIA VISITOR CONFERS OVER SHIPPING FACILITIES

Major Leroy Hodges, managing director of the Virginia State Chamber of Commerce, who with Joseph H. Smith, president of the Virginia State Chamber of Commerce, is touring the port cities of New England, in the interests of the coal and lumber business of Virginia, was in Norwich on Thursday. President Smith who was to have come with Major Hodges was forced to remain in New London on account of illness. Major Hodges conferred with some of the larger dealers in coal and lumber and brought their attention to the fine shipping facilities offered by Hampton Roads. Major Hodges also spent some time at the Norwich Chamber of Commerce office conferring with Secretary John J. O'Rourke and other officials of the chamber on the matter of the proposed deepening of the Thames River channel.

Major Hodges assured the local chamber officials that the Virginia State Chamber of Commerce will give every possible support to the movement through their representatives in Congress when the time for action arrives. It was pointed out that one of the reasons why the deepening of the channel is desired is owing to the fact that only a limited number of coastwise vessels can come up the river. At present there are only five coastwise vessels from Hampton Roads that can navigate the Thames river. If the river channel is deepened so that additional coastwise vessels can come to Norwich it will have a tendency to lower freight rates on coal and lumber cargoes from Virginia. Secretary O'Rourke pointed out the fact that Norwich is threatened with becoming an inland city unless the river is deepened.

The Virginia State Chamber of Commerce has been organized with a budget of $100,000 a year which has been pledged for five years and the efforts of the state chamber during that period will be entirely on the upbuilding of Virginia's shipping and industrial facilities.

In his state Major Hodges and Mr. Smith have already visited Bridgeport, New Haven, New London and today (Friday) they are scheduled to visit Providence. They also intend to visit Boston, Portsmouth, N. H., Portland, Me., and other New England cities.

Major Hodges is in the employ of the United States government in preparing plans for the mobilization of the transportation and industrial facilities of Virginia in the event of war. He has been granted a leave of absence to carry out the plans of the Virginia State Chamber of Commerce in building up the industries of that state.

Confirmation of Son

Mr. and Mrs. R. Henschel of 332 Main St., announce the confirmation of their son, Cecil Norman, on Saturday morning, at the West Main St. synagogue. At home, Sunday, June 29th, from 2 until 6.

VIRGINIAN TELLS LIONS OF TRADE OPPORTUNITIES

With Vice President Louis J. Fontaine in the chair the regular weekly business meeting of the Norwich Lions club was held Thursday noon at the Wauregan House. There was a large attendance and the several guests included Major Leroy Hodges, managing director of the Virginia State Chamber of Commerce, and Secretary John J. O'Rourke of the Norwich Chamber of Commerce.

The meeting was opened with the singing of America, after which the guests were introduced to the meeting. Senator Hermon J. Gibbs was song leader for the meeting. Vice President Fontaine read a telegram from Lion George Madden who is in Omaha as the Norwich delegate to the International Lions club convention.

Major Hodges who is here for the purposes of furthering the coal and lumber exports of Virginia briefly addressed the club in regard to his mission in the New England states. He has come to New England to enlist the cooperation of New England manufacturers and business men in the interests of the coal and lumber business of Virginia. He said that Virginia exports a total of 16,000,000 tons of coal a year and that New England buys three fourths of this total.

Secretary O'Rourke of the Norwich Chamber of Commerce spoke briefly relative to Major Hodges' visit to Norwich. Mr. O'Rourke spoke of the proposed movement to deepen the channell of the Thames river so that larger boats can come up to this city and urged the continued cooperation of the organizations of Norwich in the movement.

Lion Kopeland Markoff, eye specialist, brought before the attention of the club the number of cases of loss sight in the eyes of children from playing "peggy". He urged all to strive to check this dangerous game.

Lion Alexander Manes was announced as song leader for next week's meeting. The meeting closed with the singing of the Star Spangled Banner followed by the salute to the flag.

N. L. COUNTY MUTUAL HOLDS SUMMER OUTING

The seventeen annual outing of the New London County Mutual Fire Insurance Co., of this city was held Thursday at the Griswold hotel, Eastern Point, with an attendance of about 100, which included officers of the company, agents and guests. Business was put aside for the day and dinner was served at 1 o'clock, when a welcome was extended by Secretary Walter F. Lester. Following dinner a sail on the sound was enjoyed on the steamer Nelson II during the afternoon, making the entire day a delightful social occasion.

FIRE DEPARTMENT ASKS CITIZENS TO HELP

All buildings in the city are being inspected by members of the Norwich fire department under the direction of Chief Howard L. Stanton with a view to having rubbish cleaned up and fire hazards eliminated. Chief Stanton who returned Thursday from attending the New England Fire Chiefs' guest tha[illegible] the citizens assist in the [illegible] convention in Boston, has issued a [illegible] movement to prevent fires by [illegible] ing up all rubbish, waste papers [illegible] in and around their premises. This [illegible] the fire department's annual [illegible] tion, [illegible] each year previous to the arrival of the Fourth of July.

The department cannot overcome the fire hazards in the city unless the citizens cooperate in the movement. Property owners, occupants of home stores and other buildings must all do their part.

DEMOCRATIC NAT'L CONVENTION TO VOTE ON 16 CANDIDATES ON THE FIRST BALLOT

Adjournment Was Taken Until 10:30 A. M. Today After Formal Nominations Had Been Closed—A Few States May Give Complimentary Votes to Favorite Sons—McAdoo and Smith Lead in Delegate Strength, With Davis, Ralston, Glass and Richie Claiming Victory After the Deadlock Has Run its Course—Balloting Likely to Begin This Evening, Following Adoption of Platform.

New York, June 27.—After four days [illegible] and colorful [illegible] the democratic national [illegible] ready for its final show[illegible] and policies [illegible] and noisy session to[illegible] nomination [illegible] of sixteen [illegible] and was in[illegible] had been [illegible] except for the [illegible] the Ku Klux [illegible] of nations which [illegible] on the floor of the [illegible] earlier than usual [illegible] out the differ[illegible] engaged and [illegible] session, be[illegible] of the last few [illegible] of strength a[illegible] of sentiment on [illegible] platform. Mc[illegible] led the field in [illegible] pledged to [illegible] and the supporters [illegible] Ralston, [illegible] reaffirm its [illegible] ations appear[illegible] in open question as [illegible] vention assembled on [illegible] convention session was [illegible] nominating and sec[illegible] for candidates to the [illegible] banishment of noisemaking [illegible] the sevteen hours [illegible] ted to that stage of [illegible] one at last three [illegible] chiefs to adjourn [illegible] decision was ac[illegible] meaning that the [illegible] in over into next [illegible] f the delegates appear[illegible] a drive to wind up the [illegible] night would be forfe[illegible] teen entered formally on [illegible] didates, three or four [illegible] will receive the com[illegible] of their states for the [illegible] for the [illegible] for the lock[illegible] that is expec[illegible] in nomination [illegible] that before ad[illegible] are as follows:

[illegible] sent of Alabama.
[illegible] son of Arkansas.
[illegible] dco of California.
[illegible] y of Delaware.
[illegible] ton of Indiana.
[illegible] Davis of Kansas.
[illegible] e of Maryland
[illegible] Morris of Michigan
[illegible] Houston of Missouri and

Bryan of Nebraska.
[illegible] n of New Hampshire.
[illegible] of New Jersey.
[illegible] mith of New York.
[illegible] Cox of Ohio
[illegible] Glass of Virginia
Davis of West Virginia and

[illegible]—Cox, Bryan, Brown, [illegible] and John W. Davis—[illegible] in nomination at today's [illegible] the nominating speeches [illegible] interspersed with a doz[illegible] speeches for those whose [illegible] had been put before [illegible] demonstrations of [illegible] sections accompanied ev[illegible] of the name of a candi[illegible] legates and convention [illegible] d began to weary of the [illegible] ony of oratory and noise, [illegible] sign of relief swept over the [illegible] assemblage when it all came to [illegible] or two of the demonstrations [illegible] notable for the new elements [illegible] brought into the perplexing turn[illegible] of the convention. But on the [illegible] the day was the most feature[illegible] since the opening whack of the [illegible] on Tuesday.

At the start of the session there [illegible] a touch of the unusual when the [illegible] of Cox of Ohio was placed be[illegible] the convention by Newton D. [illegible] President Wilson's wartime [illegible] of war. In tribute to the [illegible] services of the speaker himself the [illegible]gates stood and cheered when he [illegible] his place on the platform. Then [illegible] he eulogized the Wilson policies [illegible] the league of nations, he was an[illegible]ered by applause [illegible] lasted several [illegible] and [illegible] when he [illegible] convention was on its feet cheering.

[illegible]legates from every state took [illegible] in the vote of approbation given [illegible] 1920 nominee as a reward for his [illegible] to past leadership. [illegible] a moment later when [illegible] Charles W. Bryan of Nebras[illegible] nominated for the honor three [illegible] according to his brother, "the [illegible] commoner. Again the applause [illegible] warm with gratitude, and every [illegible] was represented in it. A dem[illegible] convention was cheering once [illegible] name that so often had been [illegible] of magic and power.

[illegible] New Hampshire and New [illegible] ver turns, indulged in more [illegible] less for their respective [illegible] Senator Glass, Gov. [illegible] Gov. Silzer, and when the [illegible] on W. Davis was presented [illegible] Virginia there was a short [illegible] cheering and flag waving [illegible] delegates in many parts of [illegible]

[illegible]ng the day the klan ques[illegible] the surface with a show[illegible] gave party leaders an [illegible] of the battle that is to [illegible] that issue at tomorrow's [illegible] apparent hope of ro[illegible] growing tension, the Mc[illegible] were sent J. F. T. O'Connor [illegible]skota to the platform to [illegible] McAdoo seconding speech [illegible] declare the candidate from [illegible]nations that have [illegible] the issue of religious tol[illegible] But the move only resulted in pass[illegible]

further demonstrations and counter demonstrations that seemed to bring the rival factions no nearer a reconciliation.

ORDER OF BUSINESS OF CONVENTION TODAY

Convention called to order by Chairman Walsh at 9:30 a. m. eastern daylight saving time.

Prayer by the Rev. Dr. John H. Stratton, Calvary Baptist Church, New York.

Platform.

Report of the committee.

Balloting for the nomination for the presidential nominee.

FRIENDS OF DAVIS ARE ELATED WITH PROSPECTS

New York, June 27.—The West Virginia friend of John W. Davis carried out today their purpose of placing his name before the democratic national convention for the presidential nomination and they were elated today at the greeting his name received.

The West Virginians were last of the long, long list of nominees to be named. Despite the very evident fact that the convention was tired of hours of oratory and noisy demonstrations, Beam Judge John H. Holt of Clarksburg, who nominated Mr. Davis, and Mrs. Izetta Jewel Brown who seconded the nomination received attentive hearings and the nominee was cheered by more folks than the group of West Virginia delegates who started the demonstration.

Later Mrs. Brown and a friend of the convention that the West Virginia delegation was under no misapprehension as to the fact that the strength they expected to be disclosed for Mr. Davis would not reveal itself until after the first stages of battle in the balloting had cleared away.

SMITH MEN READY FOR A TEST OF STRENGTH

New York, June 27.—Leaders of the movement to bring about the presidential nomination of Governor Alfred E. Smith of New York at the democratic national convention scheduled tonight their readiness to test strength with other candidates when the convention [illegible] has been adopted [illegible] session.

"Developments of the day have been most encouraging," Franklin D. Roosevelt, manager of the Smith campaign said. "We have [illegible] pledges of support from some [illegible] and southwestern delegations."

Mr. Roosevelt [illegible] that he or any of the Smith managers had attempted to "barter" for support and promised to throw their strength to candidates put forward for the vice presidencies in return for Smith support.

"Such reports are utter rubbish," Mr. Roosevelt said. "[illegible] dissemination as unfriendly. They are absolutely [illegible] are not true. [illegible] we are going into our columns [illegible] to be settled entirely of their own accord and moreover they understand that the delegates were accepted only on condition that they would stay with us to the end. We don't want any temporary assistance. We don't need it."

MANY LABOR LEADERS ARE HELPING OUT FOR MCADOO

New York, June 27.—William G. McAdoo must be the democratic presidential nominee or organized labor will support the third party movement at Cleveland on July 4th, according to a virtual ultimatum issued today through McAdoo headquarters by half a dozen labor leaders. The manifesto was signed by Timothy Shea of the Brotherhood of Locomotive Firemen; S. M. Jewell, head of the railway division of the American Federation of Labor; A. O. Wharton, labor member of the railway labor board; J. A. Franklin, president of the Boilermakers and Iron Shipbuilders' union; J. G. Luhrson, president of the Brotherhood of Railway Telegraphers, and E. E. Millimen of the Brotherhood of Maintenance of Way Employees.

"There is no other available democratic candidate to whom the working man will give the same unqualified support," the statement said. "Neither the republican party nominee, nor the platform adopted by the republican convention is acceptable to the organized workers affiliated with the conference for progressive political action."

The sentiment among the great mass of the organized wage earners is overwhelming for Mr. McAdoo, and in the judgment of these leaders he must be the nominee if these leaders are to go to the convention of the conference for progressive political action, on July 4th, at Cleveland, and vote against the placing of an independent candidate in the field. They have the necessary votes to prevent the successful launching of an independent movement.

"If Wall street, the democratic bosses and the representatives of big business wish to divorce these workers from the democratic party in the present campaign, they will continue opposition to Mr. McAdoo. They do not realize the state of mind and of the masses of the people [illegible] truly progressive candidate. [illegible] present activities of some of the democratic bosses can be likened to nothing more than the fiddling of Nero while Rome burned."

The statement declared that more than forty representatives of labor organizations were attending the convention and working in support of Mr. McAdoo's candidacy.

The Draper Company, manufacturing mill machinery of Hopedale, Mass., announced that it would abandon its steam power plant as soon as the necessary changes could be made and hereafter would use electric power from the New England Power Company.

CABLED PARAGRAPHS

Carlo Edwards to Wed

Copenhagen, June 27.—Carlo Edwards, stage director at the Metropolitan Opera house in New York, will be married here tomorrow to Gerda, daughter of Mex Henius, of Chicago.

Sailing On Little Craft

Copenhagen, June 27.—Frederick Hit Wells, who recently purchased ketch Shanghai, sailed aboard little craft today for New York [illegible] of Iceland, Greenland and Foundland. Wells was accompanied by Rockwell Kent and another [illegible] to enter into Greenland [illegible] so late in the year is regarded among sailors here as daring almost suicidal.

REACHED JEWETT CITY IN MASSACHUSETTS AUTO

(Special to the Bulletin)

Jewett City, June 27.—Thursday evening the Norwich Sanatorium officials notified Officer Raymond Vegiard and Harvey Maynard, of the local police force, to be on the lookout for George Belisle, 45, formerly of Jewett City, who had escaped from the institution. The officers kept on the watch all night. Today shortly after noon Officer Menard saw a Massachusetts car stop at the corner of Ashland and Main streets. Belisle got out of the machine, and practically walked into the arms of the copper. After considerable argument and with more forceful persuasion Belisle was taken to the police station. The sanatorium was notified and the orderlies came to Jewett City and carried their man to his recent vacated quarters at the Neck.

Belisle has a wife and eleven children living on Hill street in Jewett City. There is also another child living in Canada.

Belisle told Officer Maynard that he was working on an outside job on Thursday afternoon watching for an opportunity to escape. At the time when there were several passing, he mixed in, and his absence wasn't detected for some time. During the [illegible] lifts from automobiles going his way and walking he made Willimantic and went to see a lawyer, he said, about a matter that has been on his mind for some time. The Willimantic lawyer he said told him to go home to Jewett City as he was all right.

Leaving Willimantic Thursday forenoon, Belisle walked a long ways, when a man in the Massachusetts car, from which Officer Maynard saw him alight, picked him up down the state road and brought him to Jewett City. Belisle at times appears sane, but Officer Maynard knows him and was well fortified against his cunning and vicitus treachery.

PRISONERS RECAPTURED SOON AFTER ESCAPE

Trenton, N. J., June 27—Four prisoners, who this afternoon attacked two guards and then made their escape from the New Jersey state prison are [illegible] evening behind the prison walls, [illegible] less than half an hour of freedom and a sensational chase through the streets, in which several shots were fired.

The four men overpowered two tower guards, after a stiff fist fight, in which both of the officers were killed.

The four men, Adam Dresch, former Newark policeman, George Hyler of Morris county, and Henry Litere of Essex county, all serving time for burglary and Silas Obserson, of Bergen county, a life termer overpowered two tower guards, after a stiff fist fight, in which both of the officers were floored.

They then entered the tower, locked the door on the inside, breaking the key off in the lock, and then leaped from the prison wall.

An officer of the industrial department hearing the commotion sent out a general alarm and 20 deputy Keepers waiting to go on duty were immediately sent out in pursuit.

FOUR PERSONS INJURED WHEN TROLLEY HIT AUTO

Woodmont, Conn., June 27.—Four persons were severely injured today when a westbound trolley car struck an automobile at the Cedar street crossing. The victims are: Frederick Behler, New York, chest crushed; Mrs. Joseph Behler, sister-in-law of Behler, cuts and bruises; Muriel Behler, daughter of Mrs. Behler, possible broken leg, and Miss Louise Kruzberd, sister of Mrs. Behler, cuts and bruises.

According to witnesses, the automobile was carried more than 15 feet after the crash and was wedged between a pole and the trolley car and was completely demolished.

FINANCIAL OUTLOOK FOR ITALY IS PROMISING

Rome, June 27.—Outlying Italy's financial position in the senate today, Professor Alberta De Stefani, minister of finance, declared that the finances of all the nations which participated in the World war were still in a convalescent state, but said that the financial outlook for Italy was very promising. He predicted a balanced budget for the country by next January, with a sufficient surplus to begin reduction of the floating debt but without increased revenues. Liquidation of the country's obligations incurred during the World war, he added, was receding very satisfactorily.

COOLIDGE HAS SELECTED HIS PERSONAL PHYSICIAN

Washington, June 27.—Major James F. Coupal, curator of the army medical museum was selected by President Coolidge today to be his personal physician, succeeded Brigadier General Charles E. Sawyer, resigned. Major Coupal was physician to Mr. Coolidge as vice president.

OBITUARY

Stephen Hart Culver

Seymour, June 27.—Stephen Hart Culver, member of the General Assembly in 1901, 1907 and 1909, long a town clerk, and very well known throughout this section, died during last night. He is survived by a wife, one daughter, two grandchildren and two sisters. He was born here in 1851.

35 Hour Mail Service Cross The Continent

Six Planes Are to be Used in Relay Between New York and San Francisco.

New York, June 27.—The 35-hour New York to San Francisco air mail service will start July 1, when six planes at different points across the country will hop off simultaneously and relay mail between this city and San Francisco, it was announced today by Postmaster Edward M. Morgan.

While the present cross-country air mail service is made in 35 flying hours the service is halted during the night so that delivery actually takes four days. All arrangements have been completed, Mr. Morgan said, and service will be maintained daily throughout the year.

Any mailable matter will be carried by airplanes, including sealed parcels not exceeding 50 pounds in weight and not exceeding 84 inches in length and girth combined. Postage is at the rate of eight cents an ounce for each zone.

There are four relay stops between here and San Francisco and 5 delivery stops. Further deliveries are made by dropping mail sacks from the plane. Each plane carries about 800 pounds of mail, and there will be about 40 planes in the service.

The schedule is so arranged that all of the night flying will take place between Chicago and Cheyenne, Wyo., and this stretch has been equipped with a string of guide lights.

The stops made by the mail planes are: New York, Bellefonte, Penn.; Cleveland, Ohio; Bryan, Ohio; Chicago, Iowa City, Iowa; Omaha, Nebraska; North Platte, Neb.; Cheyenne, Wyo.; Rawlins, Wyo.; Rock Springs, Wyo.; Salt Lake City, Elko and Reno, Nevada and San Francisco.

SUBMARINES AS RUM RUNNERS IN HUDSON RIVER

New York, June 27.—Prohibition officials today began to search for rum-running U-boats in the Hudson river.

Their unusual quest was inspired by the report of aerial photographer who turned over to them a picture snapped 5,500 feet above the waters of the Hudson showing two queer looking craft proceeding up the river opposite Sing Sing prison at Ossining.

E. P. Lott, pilot of the photographers' plane, and R. A. Smith, an advertising photographer, made the discovery. Casually looking downward as the plane flew up the river yesterday, Smith said the two objects attracted his attention and he made a picture with the use of a telephoto lens.

The picture shows dimly two long craft, apparently about 250 feet in length, moving upstream under the surface of the water and about 600 feet apart. The photographs show a wake of water similar to the wake left by a periscope. It was this circumstance that led the prohibition officials to believe that rum-runners may now be resorting to submarine boats to smuggle liquor into New York.

Navy department officials said that no submarines were known to be in these waters.

ADMITS WHAT HE TOLD WAS... ONLY 5 PER CENT OF TRUTH

New York, June 27.—Morse S. Hirsch, attorney for Miss Madrienne Dever, of West Somerville, Mass., who is suing Philip M. Shaw wealthy New York broker for $100,000 for alleged breach of promise, today attacked the story of the visit of Miss Dever and her mother to a New York hotel which Shaw told at the trial of his wife's recent divorce suit.

Shaw admitted he had not given a complete account, and added:

"I told nothing that was false, even if what I did say was only 5 per cent of the truth. I could scarcely say in that suit that Miss Le Barre (Miss Dever's stage name) was my affianced wife, and go into details."

The trial will be resumed and probably finished on Monday.

MURDER SUSPECT CAPTURED AS HE CAME FROM WOODS

Mountain View, N. J., June 27.—Emilio Rodiques, alleged murderer of Jesus F. Garcia, Haskell boarding house and poor room keeper, for whom police, state troopers and posses of citizens have been searching since the murder last Wednesday night, came out of the woods at Mountain View late this afternoon and was captured by Chief Hamilton, of Mountain View, and three of his officers. Rodiques was attempting to enter a vacant bungalow when seized by the police.

He was arraigned before Justice [illegible] Chief of Police Harry Post, of Hackett on a charge of murder.

Are You Strictly Up to Date?

Every day new inventions appear to save you time, money and effort. All the time new comforts, new conveniences and new pleasures are being thought out for your individual benefit.

Do you know about them? Are you up to the minute on this vital news?

The advertisements bring you information of all this progress. Read them and you will know about the very things that concern you most—things that have a very direct influence on your life and that of your family.

The advertisements tell you where to get these things, how to get them and how much to pay. For advertising is a daily directory to wise buying.

Don't rob yourself of the benefits that come from regular and systematic reading of The Bulletin's advertising columns. Advertising is altogether too important to be missed. Read it every day in The Bulletin. It's a profitable practice.

During the past week the following news matter appeared in The Bulletin's columns for two cents a day:

TWO KILLED IN PLANE; GIRL WAS PILOTING

Akron, Ohio, June 27—Miss Wilda Wickersheim, 21, Cuyahoga Falls, O., and Howard R. Calvert, Medina, O., were killed tonight when an airplane the girl was piloting crashed 1,000 feet to the ground at Stow Aviation field near here.

Calvert was a civilian aviator at the field and for three months had been giving Miss Wickersham lessons in flying. Both were pinned beneath the machine. She was killed instantly, Calvert died en route to a hospital.

Stories as to the cause of the accident differ. One witness said the plane failed to right itself after a loop the loop. Another said it crashed during an attempted landing, although it struck the ground some distance from where it started.

Miss Wickersham was one of the first women in Ohio to undertake to learn to fly.

Calvert had been flying at Stow field for more than a year. He is survived by a wife and three children.

SIR ERIC GEDDES HAS ARRIVED IN NEW YORK

New York, June 27—Sir Eric Geddes, former first lord of the British admiralty, arrived in the Mauretania today for a business trip in the United States, in the interest of the British Aviation Company of which he is the chairman. Discussing the future of aviation, Sir Eric predicted that passenger service by airplane would soon be established between London and Moscow and between London and Constantinople.

TEN YEAR SENTENCE FOR AN ALLEGED COUNTERFEITER

Washington, June 27.—Curt Jacobson, of New York, accused as a leader in a conspiracy to counterfeit $1,000 bills today was sentenced to ten years in the penitentiary by Justice Hoehling of the District of Columbia supreme court. James C. Houghton, for 25 years an employe of the bureau of printing and engraving and August Habichy, who gained fame by engraving the picture of President Harding on the head of a pin, pleaded guilty as associates of Jacobson and were sentenced to two years.

Double Shooting in Chicago Rum Feud

Danny Hartneff, Notorious West Side Gangster, and His Sister-in-Law Wounded.

Chicago, June 27.—Danny Hartnett, notorious West Side gangster, and his sister-in-law, Viola Browning, alias Buckley, believed to have witnessed the shooting to death yesterday of James McFarland, steam roller engineer, were today shot and seriously wounded. The shooting took place in a saloon two blocks from the saloon in which McFarland was slain and under circumstances similar to the latter.

The police believe that either a bootleggers' feud or jealousy over a woman is responsible for both shootings. Mrs. Harnett, wife of Danny and said by the police to be the woman in the case, is being detained pending an inquest over McFarland's body. Thomas Powers, owner of the saloon in which the latest shooting took place has also been arrested as have two men, seen leaving the place after the shooting and found with revolvers in their pockets.

ITALIAN DEPUTIES VOTE CONFIDENCE IN GOVERNMENT

Rome, June 27.—After listening to a eulogy of the murdered Deputy Matteotti, given by the [illegible] leader, opposition deputies tonight passed a resolution of no confidence in the government. The resolution declares that an essential condition for pacification of the country is restoration of moral, political and judicial order, and that such restoration can only be effected by a government which would abolish militia forces recruited from the members of one party, which would unhesitatingly [illegible] form of illegality and restore the authority of the law.

Deputy Turati asserted that a tablet should be placed on [illegible] Rome or a monument be erected to Matteotti, saying, as an admonition to future generations, "Kill me, my ideal which is in me never will be killed; my ideal does not die. Mussolini will be proud of this [illegible] and workmen will bless my name. Long live socialism!"

Matteotti, he continued, will remain in history as a symbol pointing out the "sarcasm of pacification—proclaimed in words but prevented by the violence of facts."

BRIEF TELEGRAMS

Secretary Mellon will sail from New York for London July 5 on a vacation.

Except flaming areas in Santa Clara county and near Redding, the forest fire situation in California was reported improved.

Julius Wilkus, of 394 South Leonard street, Waterbury, charged with theft, was bound over to the superior court under bonds of $1,000.

The Naumkeag Steam Cotton Mills and its bleachery in Peabody, Mass., will close today for a two weeks vacation, reopening July 14.

Disaffection is reported to be rife among officers of the Greek navy. The government organ Democratica says a certain arrest has been ordered.

Word received by coast guard officials from Washington indicates that the activities of the "dry navy" in New England waters will begin shortly.

Louis Berman, of Portchester, is held criminally responsible for the death of his father, Hyman Berman in Greenwich, on June 17, following an automobile accident.

Cyrus E. Woods, ambassador to Japan formally presented his resignation to President Coolidge and it was accepted with an expression of appreciation for his services.

Lieutenant Russell Maughan, army coast-to-coast flier, will not start his return trip to the east until Monday because of the overhauling his machine is getting at the Presidio.

The Chinese government will devote the funds resulting from remission by the United States of the balance of the boxer indemnity to further educational and cultural purposes.

Dr. F. Lorne Wheaton, of New Haven, was appointed a member of the state board of chiropractic examiners to succeed Dr. G. Hunt Wilbur of Ansonia, whose term expired June 14, 1924.

Arthur G. Sorlie, of Grand Forks, carrying the support of the non-partisan league, won the republican gubernatorial nomination in Wednesday's North Dakota primary.

Five men, including three officers of the institution, were indicted by a special county grand jury in connection with the failure June 14 of the Sioux [illegible] and savings bank.

The Arkansas House fo Representatives went on record today as the first legislative body to ratify the proposed child labor amendment to the constitution of the United States. The vote was 45 to 40.

The body of Morris Seymour, 30, of Fall River, who disappeared from the steamer Sagamore in Providence, R. I. last Sunday, was found floating in the Providence river. Death was due to accident.

John O. Vollmer, alleged hammer murderer of Dr. George A. Neilson, a Newark naturopath, with whom he boarded, in a few days will be removed to the state hospital for the insane at Trenton.

The St. Croix Cotton Mill at Milltown, N. B., whose employes have been working three days a week the past few weeks, was shut down until July 5 because of lack of orders and manufactured goods.

Funeral services for Louis Heilbroner, clothing manufacturer and president fo Weber and Heilbroner, who died Thursday at his home in Deal, N. J., will be held Sunday in Salem field Chapel, L. I.

Major Lewis E. Stoddard, nationally known pony polo player, has sold his estate in Prospect street, New Haven, to the Dominican Sisters who will alter the buildings and use them as a school for young women.

Reports of mistreatment of Americans in Japan are entirely without foundation, the American association of Yokohama declared in a cablegram to the chamber of commerce of the United States.

Jules Jusserand, ambassador from France, called on President Coolidge to say good bye before [illegible] France for a summer vacation. He was [illegible] Wednesday expecting to return in September.

Efforts of Joseph Wheless, New York attorney, to have the soldiel[illegible] law declared unconstitutional [illegible] District of Columbia supreme court [illegible] yesterday when Justice Stafford dismissed the injunction suit.

Judicious spending rather than hoarding of money is a secret of thrift which should be emphasized to American school children, speakers asserted at the opening session in Washington of the national conference on thrift education.

Giuseppe Serafini and Leo Davis, two of six bandits sentenced to hang for the murder of Henri Cleroux, [illegible] the Bank of Hochelaga [illegible] Montreal which was [illegible] on June [illegible] made in Bordeaux [illegible]

The British schooner Tomoka, considered at the time of its capture off the New Jersey coast last November as the most picturesque of all rum-running craft on the Atlantic, was sold at a federal auction to Frederick Anderson, of Boston, for $7,200.

The appellate division of the supreme court decided in New York that a trial should be held to determine which was the legitimate heir to the authority of the Greek Catholic (Russian Orthodox) church in America.

Two damage suit judgments totaling $125,000 were returned against Mrs. Concetta Bianca, 63 years old, in New York, on the eve of her departure for prison to serve a term of two to four years for having shot her son's fiancee, Miss Elvira Orzero.

Captain George of the shipping board steamer Aledo, which arrived in Boston from Scandinavian ports, reported that on June 20 when 1300 miles east of Boston he passed the fifty-foot bow section of a sailing vessel projecting six feet from the water and dangerous to navigation.

MAJORITY AND MINORITY KLAN REPORTS PROBABLE

Resolutions Committee of Democratic National Convention in Agreement on All Other Planks—Fight Over the League of Nations' Plank Was Settled After Battle Lasting Four Hours—Connecticut is Listed Among the States Voting in Favor of a Referendum Provision in League of Nations' Plank

New York, June 27—A proposal for a national referendum on the question of American membership in the league of nations was approved tonight by the platform committee of the democratic national convention by a vote of 34 to 16.

With this subject disposed of, the committee took up the other single controverted matter—the Ku Klux Klan—with every indication that majority and minority reports on the question of naming the klan would be submitted and the fight thus thrown into the convention itself.

Except for the league and klan planks, the platform had been put in final form and the committee made a determined drive tonight to complete those, so that the entire platform might be presented to the convention early tomorrow. To do this members said a nearly all night session would be necessary.

The fight over the league of nations consumed more than four hours with four separate planks under consideration. Three proposals for a referendum were submitted by Senator T. H. Caraway, of Arkansas, Alfred E. Lucking of Michigan and William Jennings Bryan of Florida. After the vote in favor of a referendum, a sub-committee was named to put the subject into final form.

There was an understanding that the referendum provision would be attached as a part of the Clarke-Young foreign relations plank which provides for American cooperation with other nations in preserving the peace of the world and severely assails the republican administration for its handling of foreign affairs.

Newton D. Baker, secretary of war under Woodrow Wilson, held out to the last for an unequivocal expression with reference to immediate entrance of the United States into the league and made an impassioned address at the last in support of his position. He was practically alone in his fight, however.

Unofficial reports were that [illegible] states and territories were [illegible] those voting for a referendum: Alabama, Arizona, Arkansas, California, Connecticut, Florida, Iowa, Kentucky, Kansas, Missouri, Illinois, North Carolina, Georgia, Maryland, Massachusetts, Michigan, Mississippi, Montana, Nevada, New Jersey, New Mexico, New York, Oklahoma, Oregon, Pennsylvania, Rhode Island, Texas, Vermont, Wisconsin, Wyoming, Alaska and the District of Columbia.

Voting against a referendum were Delaware, Idaho, Louisiana, New Hampshire, South Carolina, Utah, West Virginia, Washington, Indiana, Maine, North Dakota, Ohio, Hawaii, the Philippines and Porto Rico.

Although practically all of the members were convinced that the klan issue would have to be left to decision by the convention, the committee went fully into the subject and discussion was free and general with some impassioned addresses both for and against denouncing the invisible empire by name.

William H. O'Brien, the committee member from Indiana declared [illegible] the discussion in the closed committee room, got under way that New York, Illinois, Ohio, Wisconsin, Massachusetts, Minnesota and Colorado were ready to sign a minority report on the klan, demanding that it be denounced by name.

It appeared at the outset that a majority of the committee was opposed to denominating the klan, but prepared to approve a plank in religious freedom and denouncing organizations whose purpose is to deny this fundamental right of the people as set out in the constitution.

Committee discussion on the klan issue was general, each member being allowed five minutes in which to present his views. William Jennings Bryan made a strong plea for a referendum declaring that he wanted to make it possible for every republican to vote for the league irrespective of whether he might vote the democratic ticket in November. Calling attention that the democratic party in order to America join the league must have to win the election this fall but would have to have two-thirds of the senate in support of the proposition, Mr. Bryan said he wanted to get a vote of the American people that would force the republican senators on the league.

During the discussion there was read a letter from Owen D. Young of New York, who submitted a league plank, in which he declared in response to inquiries from the committee that the league should not be made the paramount issue of the campaign because there were domestic problems overshadowing it.

Mr. Young added that the league should be lifted entirely out of partisan political and referred to the people in a separate referendum.

Former Secretary Baker told the committee he did not want to see the party take a single backward step adding that from a standpoint of practical politics millions of men and women who use their own judgment in voting and who in the past four years, whether republicans or not have formed their own judgment for immediate entry into the league would vote the democratic ticket if it stood for unequivocal immediate adherence to the league.

Approval of the plank entitled the "rights of the states" is voiced by William H. Stayton, national managing vice president of the association against the prohibition amendment. In a statement made public tonight, "If the association against the prohibition amendment itself had been requested by the democratic party to write its platform for it" Mr. Stayton said "it would have written nothing which would better express the fundamental principles which have made it a powerful agency in the fight for the abolition of prohibition tyranny and the return to sound principles of government."

DEM. LEADERS ALARMED OVE FIGHT ON KLAN PLANK

New York, June [illegible] Thoroughly alarmed by the [illegible] of a fight ove[illegible] Ku Klux Klan plank in the floor [illegible] over [illegible] mur[illegible] tow[illegible] a conference tonight seeking to devise some means to smash out the situation [illegible] and get to balloting for a presidential nominee.

WILLIMANTIC

The Mansfield town court held a busy session Friday afternoon at the home of Justice of the Peace George H. Andrews, who presided, when four cases were heard and disposed of. The first case was that of Emmer W. Howlett of Warrenville, charged with allowing his dog to roam at large. He was fined $2 and costs making a total assessment of $19.42. A demurrer was entered by his attorney, Samuel B. Harvey, and the case was appealed to the Tolland county superior court under bonds of $25 furnished by the plaintiff in the case, Third Selectman Clark Crane of the town of Mansfield. Joseph Bay pleaded guilty to breach of the peace and intoxication and was fined $5 and costs and a thirty day jail sentence was imposed by Justice Andrews and suspended for six months. In addition to the fine and costs which totalled $22.42, Bay has to pay the fine and costs of $26.20 imposed a few days ago when he was presented on similar charges in the town court. Bay was also fined $2 and costs for allowing his dog to roam from his premises without hearing the license tag required by the state. Michael Milkuski who was found guilty of breach of the peace and intoxication in the town court some ten days ago by Justice Andrews was again presented on similar charges. With a severe reprimand and a final warning Justice Andrews added another 20 day jail sentence to one already hanging over Milkuski's head on his previous appearance and imposed a fine of $5 and costs. The accused paid an assessment of $22.60, part of which applied on the first conviction.

All of these cases were prosecuted by Prosecutor F. W. Millerd. Upon the complain of Selectman Crane of Warrenville that two dogs had gotten into his pasture and bit several of his sheep so badly that six of them died as a result9 Deputy Sheriff William O. Eldridge of Stafford Springs, who is also dog and fish warden appointed personally by Commissioner Whittlesey, secured the assistance of Prosecutor Millerd and the two made a trip to Warrenville. An Airedale dog owned by Mr. Howlett was identified by Mr. Crane as one of the sheep killers and at the suggestion of the owner the canine was shot on the spot. Another dog owned by Michael Milkuski bore marks of having been running sheep and was also identified by Selectman Crane. The animal was taken by Warren Eldridge and will be disposed of according to law. Milkuski denied that his dog took part in the raid upon the sheep but consented to the disposal. Awaiting civil action for the killing of the sheep no charges were preferred against Milkuski.

Joseph Bay and Michael Milkuski are joint owners of a farm in Warrenville. They live together, eat together, sleep together and work together and that is all very well according to the court authorities of the town, but when they drink and fight together the situation takes on another light. Both men and their wives have a reputation in that section of being night and day workers. They jointly cultivate large crops and at the end of the season divide up on the profits. Both families reside in the same house. The last racket at the farm is alleged to have been committed on June 22 when the partners drank too freely of cider and beer. Bay is said to have emerged from the fray with a slightly damaged condition.

State Policeman Henry Heinold of the Stafford Springs barracks was despatched to the scene and arrested Milkuski but Bay took to the woods and was not seen for a few days when he finally was taken into custody. In court Friday Milkuski overflowed with contrition. His plea for a chance to follow the straight an dnarrow path and complete his work at the farm was finally given consideration and Justice Andrews suspended the two thirty-day jail sentences. Prosecutor Millerd acted for the state in giving the facts of the case, expressing himself as satisfied with small fines in the dog law violation cases.

The funeral services for Mrs. Amanda Johnson were held at two o'clock Friday afternoon at the Swedish Lutheran church before a large attendance. Rev. Mr. Johnson of Norwich officiated. Burial was in the Willimantic cemetery. Avery and Van Zandt had charge of the arrangements. The bearers were Axel Larson, John Valin, Oscar Borgeson, Aaron Anderson, Albert Hedin and Fred Skoglund.

Mrs. John Pellow, 26, wife of John Pellow of Mansfield Depot, died at the Norwich State sanatorium, Thursday afternoon, after a long illness. Besides her husband, she leaves two sisters, Mrs. Josephine Ryan and Miss Anna Smith of Newark, N. J., and one brother, Alexander White, also of Newark, N. J.

The light of stardom shines brightly this week on Raymond C. Comins, the first and only member of the younger generation of golfers at the Willimantic Country club to go the nine hole course of the club in par, which by the way is 36. Raymond's friends are to present him with an appropriate prize for this feature play, the prize to be a cup or a bottle, depending on the choice of the receiver.

A Buick sedan was walloped a solid lick against the right rear fender at the intersection of Main and Church streets about 11 o'clock Friday morning by a five ton Mack truck loaded with granite. The truck was owned by C. L. Carpenter Co. of Pawtucket, R. I., and was driven by James Fletcher and the automobile was driven by Mrs. Raymond A. Parker of this city. The truck was undamaged but the mud-guard on the car was folded up like an accordion. The police were notified of the accident and Mrs. Parker agreed to settle for her damage.

While passing down Church street between two vehicles parked on both sides of the narrow thoroughfare, the open door of the cab on a White Rose bread truck struck the side of a delivery truck and the flying glass from the door slightly bruised Donald Haggery, son of Mr. and Mrs. Jeremiah Haggerty of Oak street who was a passenger in the bread truck.

In preparation for the coming Fourth of July a Hartford decorating company truck and men were in this city Friday and began he work of dolling up the store front with the red, white and blue colors.

Frank L. Pearson and Miss Elizabeth Canning of Brooklyn, N. Y., were quietly married at St. Paul's church at noon Thursday by the pastor, Rev. F. C. Williams. The groom is a brother of C. . William. The contracting parties with Mrs. A. C. MacIlroy, an aunt of the groom, motored to this city in an automobile, the groom's gift to the bride. Miss Canning's only attendant was her niece, Miss Mildred Bryant of Hartford. The best man was the groom's nephew, Carter P. Williams of Springfield, Mass.

Considerable damage was done to a public service automobile owned and driven by William M. Whiton of this city early Friday morning when the car skidded in the sand on the back road district in Windham and sideswiped a fence. The fence collapsed and the machine rested on the edge of an embankment.

Dennis Marrottee and Miss Eva Watrous were married Thursday evening at seven o'clock at St. Mary's rectory by Rev. H. C. Belec. Arthur Marrotte, father of the groom, acted as best man and Miss Yvonne Marrotte, sister of the groom was bridesmaid. The couple will reside on West Main street.

As the retiring past exalted ruler, Charles P. Hill was presented with an Elks' ring of beautiful design by Albert J. Fournier on behalf of Willimantic lodge No. 1311, B. P. O. E., at the last meeting of the lodge.

Rev. and Mrs. William S. Woolworth of Liberty Hill were visiting in this city Thursday and attended the Chautauqua meetings.

Miss Frances McIntosh of Lebanon avenue has as guests Mrs. Charles Kenneth and daughter Gladys of Norwich for a few days.

Mr. and Mrs. Don Stahl of Derby were recent visitors with Mr. and Mrs. A. N. Chenoweth of Chestnut street.

Mrs. Bell R. Riggleman and sister, Mrs. Georgia B. Lee were visitors in Hartford Friday.

Mr. and Mrs. C. H. Caswell and daughter Miss Louise Caswell of Chestnut street, are at their summer home on Groton Long Point.

Thursday afternoon was organizing for the Youth's Welfare class of St. Mary's parish, the boys turning out in an infantry membership of 125 boys, 93 of whom answered to roll call. A sporting event were omitted on this day, but will be carried out by the usual preliminary instructions and proceedings, however, and all enjoyed. Rev. H. [illegible] of the parish, who has taken a great interest in the welfare work of the boys an excellent talk on the benefits of outdoor life from a physical and mental standpoint.

The paraphernalia used by the [illegible] has been brought to the [illegible] on the David Messier farm near Bissell bridge. The boys found the woods and surrounding land in excellent condition, all [illegible] having been removed by Mr. Messier. The class is made up of boys from [illegible] years old and up, inclusive of the [illegible] school age.

A similar movement among the girls of the parish is being engineered by several women workers of the parish and the success of the plan promises to set a pace for the boys to follow. At Recreation park Thursday afternoon some 150 girls of grammar school age gathered under supervision and listened to an outline of the work to be carried out by the class. The membership of the class is expected to reach the 200 mark within a few weeks. The girls were given a talk by Rev. Father Belec who invited the mothers of the members to participate in the outings which will be held every Thursday at the park.

While en route to Warrenville Wednesday morning to investigate the killing by dogs, in that district, Deputy Sheriff William O. Eldridge and Prosecutor F. W. Millerd noticed two young men fishing in the vicinity of the Twin Lakes on the Ashford road. Mr. Eldridge, [illegible] is authority as a fish [illegible] approached the canoe of Isaac Walton and demanded their fishing licenses. One man quickly produced his but Peter Clerk of Chaplin had been so unfortunate as to have taken a chance. He was taken before Justice of the Peace Tailor in Spring Hill later in the day and fined $5 and costs amounting to $20.17 for fishing without a license. The case was prosecuted by F. W. Millerd.

A meeting of the Fourth of July committee was held at the chamber of commerce rooms Friday afternoon beginning at five o'clock. Acting Mayor George W. Hickey presided as chairman of the general committee. Various reports of progress were read by the chairmen or their representatives of the sub-committees. Arrangements have been completed for the fireworks display. Peter J. Hinds is chairman of that committee. Band concerts and neighborhood fireworks will be held at Recreation park, Oaks School park and at Windham Field. The other members of the committee are: Edmund R. Fontelance, secretary; David M. Moxon, Joseph Meikle, Roland B. Jordan, William H. Martin, Alfred Cerrefeuille, G. Leroy Howlett and Frederick A. Roy. At Recreation park the Windham Eagle Polish American band will furnish the concert, the B. P. O. E. band at the Oaks school park, and the St. Joseph's Boy Scouts band at Windham Field. Chairman John O'Rourke announced considerable progress of the sports committee and outlined a program which was acceptable to the executive committee. Other committeemen in that body are: Leroy A. Dissinger, Charles N. Burdick and Henry M. Congdon.

Cuticura Maintains Youthful Freshness and Beauty of Skin

Daily use of Cuticura Soap, assisted by Cuticura Ointment, overcomes a tendency to disfiguring eruptions in youth and lays the foundation of a clear skin through life. Always include the Cuticura Talcum in your toilet preparations.

Samples Free by Mail Address: "Cuticura Laboratories, Dept. 13Y, Malden 48, Mass." Sold everywhere. Soap 25c. Ointment 25 and 50c. Talcum 25c. Try our new Shaving Stick.

STAFFORD SPRINGS

Mrs. Lewis McLaughlin is visiting her parents, in Belchertown, Mass.

Walter H. Taylor has been in Bridgton, Me., this week, attending the funeral of his brother.

Rev. Frederick R. Bruce of Stafford Springs is supplying the pulpit of the Second Baptist church, at Whitefield, Me., for Mr. A. Lasbury and party of boys, most of them members of Frank's Junior band, are camping at Quaker Hill, the Rose London.

Miss William Wynnes and son, David, of Utica, N. Y., are guests of relatives in town.

The annual re-union of the Stafford high school alumni was held at Wash-

ren Memorial hall, Friday evening at eight o'clock. An interesting and varied program was successfully carried out. Thompson Blood, a noted impersonator, occupied the principal part of the program, and later in the evening there was dancing.

Mr. and Mrs. Peter Brodersen and family left New York, Tuesday, for Denmark where they will spend several weeks.

The borough has purchased a motor truck for use on the borought streets.

George Frazier and Jesse M. Clifford have been doing jury duty in the superior court in Rockville this week.

Mrs. George J. Gary and family are at their summer home at Watch Hill.

Mrs. T. C. Chapin and family are at Crystal Lake for the vacation period.

Miss Agnes Denniston has gone to Watch Hill, R. I., for the summer.

JEWETT CITY

Frank T. Ray, superintendent of the Jewett City cemetery, says that the driveways inside the grounds are a poor place to learn to drive an automobile. Considerable damage was done, and a valuable stone narrowly missed, when an inexperienced driver, unknown to him, tried to maneuver in the roadways Friday.

Extra low prices on meats for Saturday. Finn Bros.—adv.

Thursday afternoon was a half holiday. A number of grocerymen went fishing. Heavy catches were made in the lower pools of Broad Brook, where this bro[illegible] is confluent with the Quinebaug, there resides a peculiar sort of yellowish gravish whitish trout, with big scales and a round mouth and no teeth or laws. Some of the boys caught that kind.

Mrs. S. W. Albertine and Mrs. Carle Munn, superintendent and assistant of the Congregational church cradle roll, entertained the babies and their mothers and guests, in the church vestry, Friday afternono. The children played games for half an hour, and then gave a little programme. Allan Whalley recited and Edith and Ruth Munn sang a Cradle roll song Mrs. Munn read. What the radle Roll Is, It's purpose and origin. Then the children marched around the room and threw their pennies into a sheet held by Charlotte Albertine, Edith Munn, Olga Zeeger and Janet Wilcox. Then came a game in which the older ones guessed the identity of the little ones who presented the back of their heads through a hole in a white curtain. A doll's bassinet filled with little gifts was brought into the room and each baby was given a blue ribbon to which the packages were attached, drawing out the gifts, after the older ones repeated a cradle roll prayer. The children were served ice cream cones, animal cookies and sponge drops. The older ones ice cream, fancy cookies and tea. Doris Johnson, Ethelle Parkhurst and Harriet McCluggage assisted in entertaining the children. The babies were Ruth May Richmond, 3 years old; Ruth May Benjamin, 6 months; Watie Jane Wyatt, 2 years; Jonathan Alexander Whalley, 2 years; Corinne Louise Zeeger, 3 years; Florence Harrison, 1 1-2 years; Hilda Ethel Burke, 15 months; Lester Russell Congdon, 7 months; Carle Laighton Munn, 2 1-2 years, Herbert Charles Webster, 3 years, and Martha Frances Munn, 4 years.

The Pachaug Community club held its regular meeting in Grange hall, on Thursday evening, one hundred and fifty being present. The program included whistling solo by Miss Mabel Kanahan, accompanied by Byron Kinney, recitation by Frances Montgomery; readings by Mrs. H. H. Hiscox, trios by the Misses Eloise Ross, Abbie and Elsie Porter, Rosalie Thorsen, Bernice L. Smith, Alice Main, Frances Hill, Charlotte Main, Ida Hadley, Elizabeth Zucardy, Marion MacDonald, Marion Jensen, Mildred and Elizabeth Daboll, Ella Buddington, Janette Rafuse, Josephine Shandoer, Mrs. Clifford Phelps, Miss Lois Butson, Everett Davis of Fisher's Island was a recent caller in town.

William Patterson and force of men have started moving the Woverton house on Brook and Elm streets.

Washington council, No. 7, Jr. O. U. A. M., held its regular meeting Tuesday evening in Mechanics' hall and elected the following officers: Past councilor, Charles Wolverton; councilor, A. E. Rathbun; vice councilor, Charles Oles; financial secretary, John Bentley; treasurer, Charles I. Fitch; recording secretary, Walter Wolverton; assaciate recording secretary, Lloyd Brown; conductor, Elbert Rathburn; warden, Floyd Thompson; inside sentinel, J. H. Brown; outside sentinel, George C. Spicer; chaplain, Eugene MacDonald; trustee, J. H. Brown; representatives to state council, F. W. Buddington, J. H. Brown and Charles Wolverton; alternates, A. E. Rathburn, Elbert Rathbun and Charles Wolverton.

Many of the service men of the village attnded the meeting in Mystic of the American Legion, to fill out their bonus application blanks.

The new road that is being constructed from Noank to Groton Long Point is progressing rapidly. The stretch from Groton Long Point bridge to West View is nearly completed and the steam shovel is cutting down the hill at West View.

Mrs. De Laureppe and children have arrived in the village from New York to spend the summer at their home on Potter court.

Mrs. Allen Campbell and children of New York have arrived for the summer months and are at their home on Prospect Hill.

Miss Phebe Sheffield is visiting her aunt, Mrs. William Tourjee, at Elm street.

James McDonald of New York was a recent caller in town.

Raymond Rathbun called on friends in Essex Thursday.

JEWETT CITY MAN FIRST USED "SPLIT LOG DRAG"

(Special to The Bulletin.)

Jewett City, June 28.—The townspeople were interested all day Friday in the work of the heavy smoothing drag being operated on the state road.

A heavy auto truck draws the device, which is weighted with barrels of tar. Up and down it leaving the road smooth and rounded with depressions filled and elevations levelled.

Many in Jewett City know that this levelling machine, saw its first development and practical use, in the "split log drag"—perfected by the late A. A. Young, of this place.

The practical ideas of the split-log drag, were original with him. Some years ago, when the selectmen of Griswold let out the road repairing of the town in sections to different men, A. A. Young bid in a number of miles in the north part of the town.

Mr. Young superintended a system of up to date road repairing in accordance with his ideas, and his men with teams of oxen, drew the first split log drag that was ever operated to repair a road. Men today will say that he made the finest roads in the town. Soon the state recognized the efficiency of his plan and today, in an improved and larger plan, the split-log drag, is in general use all over this country wherever roads are under state contr[illegible]

The Most Delicious Fruit Drink You Ever Tasted

Can you imagine anything more tempting and refreshing than a tall, cold glass of your favorite fruit juice? And now without any fuss and bother by simply adding cold water to Picnic Syrups you can make

Anytime—Anywhere—in a Second

wonderful fruit drinks which taste like the luscious ripe fruit itself.

Take Picnic Raspberry for example. Unscrew the handy cap from the Picnic jug and enjoy the same tempting fragrance that comes from a berry bush on a warm, sunny afternoon when berries are ripe.

Then pour a little in a glass and simply add cold water. Take a sip and you'll say, "Why it does taste like the ripe fruit."

You will find the same quality in each of the other flavors, too—Lemon, Orange, Lemon and Lime, Mixed Fruit Punch, Cherry, Niagara Punch (wild grape) and Tangy Club Punch, the men's favorite.

Remember—Simply Add Cold Water and Serve.
1 jug makes 16 glasses, 1 or 16 at a time as you wish.

Order a jug from your dealer today, and make these home drinks for about 3c a glass. It keeps after it is opened.

PLAINFIELD

The class of 1923 held a class reunion last evening at the home of Miss Marjorie Windsor on Baker avenue. The class with the exception of five members, who were out of town, attended the meeting. The usual games were played during the evening and the party broke up about twelve o'clock. Ice cream and cake were served by Mrs. Edward Windsor. Miss Marjorie Windsor and Mr. Joseph Eaton. The following classmates attended: Joseph Lee, Marjorie Windsor, Joseph Eaton, Winogene Pratt, Ellen Belknap, Gladys Burdick, Helen Gardner, Helen Brown, Morris Torrey, Fred Sunn, Eugene Belevance, Sophie Shandoer, Everett Codlin, William Maggia, Carl Tudeau and Ellery Pratt.

The class is planning on having another reunion later in the summer at the home of Eugene Belevance.

Mrs. Annie Geary and Mrs. Daniel Connell attended the funeral of their cousin, Miss Annie Donnaghue of Montville, Wednesday.

Bert Mathieu, Daniel Connell, Henry Fontaine, Charles and Lester Salisbury and Theodore Bernier went on a fishing trip to Beech Pond, Wednesday.

Thomas Gilbert of Lawton Heights is attending a conference of the Rhode Island Red Men in Arctic, R. I., this week.

Hector Carnegie, Thomas Brown and John Quisson are attending the convention of the American Textile Workers Union in New Bedford, Mass. The convention is in session the last four days of this week. These men are representatives of the Weavers, Carders and Loom-Fixers Unions, respectively.

R. J. Burke, who is now employed in Baltic, is spending the week end at his home on Pleasant street.

The executive committee of St. Paul's church met Tuesday evening in the basement of the church for the purpose of making improvements around the church. It was voted to have a lawn around the church and rectory in the near future.

There will be a meeting next Wednesday evening of St. Paul's choir, for the purpose of planning some sort of an outing for the summer.

Mrs. William Burgess of Providence is visiting her sister, Mrs. Charles Lewis, of Main street.

Miss Esther Palmer Wilson of Boston, Mass., is spending a few weeks with her parents, Dr. and Mrs. William C. Wilson. At the request of the Rev. William C. Prentiss, she will sing a solo at the services in the Congregational church Sunday.

About twelve children, friends of Master Carlos Prentiss, attended a party in honor of his fourth birthday at his home on Main street Friday. Numerous games were played during the afternoon and refreshments of ice cream, cake and cookies were served by Mr. Prentiss.

Miss Evelyn Greenwood of New York City, is now visiting her parents, Mr. and Mrs. George Greenwood of Lawton Heights.

Miss Gladys Wilbur is spending several days in Orange, Mass. Next Wednesday, with Miss Katherine Foster of Orange, she will leave for Soo Nipi Park Lodge, on Lake Sunapee, N. H., where she will remain during July and August.

"Come to Canossa"

Canossa, in the Duchy of Modena, is where in the winter of 1076-7 the kaiser, Henry IV, stood barefooted in the snow for three days, a penitent awaiting the forgiveness of Pope Gregory VII. The expression "come to Canossa" has since been used to denote coming to a place of humiliation—in other words, "eating humble pie."

ANNOUNCEMENTS

CHURCH AT WAR; NATIONS DIVIDED

From time immemorial humanity has been divided—on religion, on politics, on social ethics. Race distinction has been a great barrier against unity and cooperation of thought and endeavor. The world has been a fighting world; history is written in blood. Where did the trouble start, what was its cause, and will it ever cease? Contrary to expectation, the churches professing to follow Jesus of Nazareth cannot agree in doctrine and precept. Long ago there was a falling away from the faith, and then came a split into numerous sects. What was the underlying cause?

The controversy over the nature of Jesus started in the days of Emperor Constantine. Creeds have been formed to clarify the matter, and it was hoped that the time would come when all Christians could get together and accept a common faith. But the truthfulness has become a very live subject. What will the outcome be? Will it be settled on the right side or the wrong side? Who can tell?

A time of cleavage has come to the so-called Christian world. Some call themselves Modernists; some are Fundamentalists; some are Liberals; some are Conservatives; and some are on the fence. Bible study is taking on an activity never before known. There is a reason for this. Many would like to know—those who are of inquiring minds. Will it eventuate in bringing Christian people closer together, or will there be further divisions?

A free lecture on Church at War—Nations Divided, by Mr. V. C. Rice, under the auspices of the International Bible Students Association, is said to answer these perplexing questions in a reasonable and satisfactory manner, and to pave the way for a solution of the big world problems. Lecture will be given in Breed theatre, Sunday, 3 P. M., June 29th.

BROADWAY THEATRE

In "The Breaking Point," a new Herbert Brenon production for Paramount which will be shown for the first time in Norwich at the Broadway starting tomorrow, the action begins in New York where a wealthy and dissolute millionaire is infatuated with a successful actress, Matt Moore, as Judson Clarke, and Nita Naldi, as the actress, Beverly Carlysle, have roles in which one becomes a fugitive from justice, the other a fugitive from public opinion. The story moves to Wyoming where the love interest between Clark and Beverly is discovered by the husband. There is a fight, a shot—and then Clark, mentally unbalanced by the sight of a dead man on the floor before him, rushes headlong into a blinding Wyoming blizzard and sure death.

Ten years later he reappears upon the scene of the murder as Dr. Richard Livingstone. The secret of those ten years, the mystery of his lost memory and the real story of the murder as unfolded by the running reels of "The Breaking Point" from one of the most fascinating romances ever recorded upon a film. There is a woman in each of the two lives which Matt Moore portrays. The first is Miss Naldi, the other the charming Patsy Ruth Miller.

Others in the strong supporting cast of the picture include Cyril Ring, a reporter; Charles A. Stevenson, John Merkel, Julia Faye and Edythe Chapman.

Short subjects will include a Mermaid Comedy and Kinogram Weekly.

Another Jewett City Property Changes Ownership.

Burdick & McNicol, real state brokers, have sold for Abraham Zeeger of Jewett City his large mercantile block known as the Grenier building, located on Soule street, Jewett City. The sale was made to Joseph Glowacki of Jewett City, who buys the property as an investment. This is one of the largest sales recorded in the town in several years.

Homemade Breezes

Ocean breezes, or at least good imitations of them, are said to be obtainable from a household electric vacuum cleaner at about 2 cents an hour. The bag and driving belt of the cleaner are removed and a sponge soaked in salt water is placed in the suction end. The effect of sea breezes is heightened by placing the converted vacuum cleaner in an open window.—Popular Science Monthly.

TODAY'S EVENTS

Tenth anniversary of the assassination of the Austrian Archduke Ferdinand, the event which precipitated the World war.

Philadelphia's Sesqui-Centennial celebration, for which elaborate preparations have been made, will be held today in historic Independence square.

Washington, D. C., awaits the arrival of hundreds of visitors today in anticipation of the opening of the annual convention of the National Education Association.

Two hundred officers and men of the British around-the-world fleet will leave Vancouver today for a tour of the Canadian West as guests of the Dominion government.

Many eminent leaders of the Jewish faith will gather in Pittsburgh today to attend the twenty-seventh annual convention of the Zionist Organization of America.

The Ku Klux issue figures prominently in a special election called for Pinal county, Arizona, today to act upon a proposition of the recall of one of the judges of the county superior court.

The American Classical League, which aims to improve educational work in the linguistic field, and particularly in the ancient languages, will hold its fifth annual meeting today in Washington, D. C.

A celebration of 20 years of silver mining activity in the Cobalt district will begin at Cobalt, Ont., today. In two decades the district has produced over 10,000 tons of pure silver, enough to put silver spoons in the mouths of 2,400,000,000 lucky babies.

ANNOUNCEMENTS

James L. Case has sold for Gilbert S. Raymond, et al, to Irene R. Gatrousis, and Spivos Carvarnos, a tract of land about 140x240 feet, on Golden street extension.

The new owners plan to develop the property.

PALACE THEATRE

Last times today. Continous 1:30 to 10:30. When the son of a Chinese peer disgraces himself there is only one honorable way out, according to the traditions of the mandarin. And so when Robert Wells, an American, was taken before the old Lord of Thundergate, who mistook him for his own profligate son, he was handed a silken cord. Meantime, however the aged mandarin dropped dead from excitement and Wells was informed that he was now the Lord of Thundergate.

A fascinating romance is worked into the plot with the rescue by Wells of a white girl who has fallen into the power of the Chinese.

Added attractions: Episode three The Telephone Girl, Review and Palace supreme orchestra.

For the first time in his screen career as the hero of a motion picture Richard Barthelmess is stabbed in his latest First National offering, Twenty One, which will be the popular attraction at the Palace theatre four days starting Sunday.

Barthelmess portrays the role of Julien McCullough, a 19-year-old youth who runs away from home to New York to wait until he becomes of age so that he may marry a poor girl to whom his wealthy parents object. In the city he gets a job as taxicab driver and while thus engaged in earning his livelihood chances to pick up his own father as a fare.

Special added attractions: Snub Pollard in his largest and funniest two reel comedy The Walk Out, Aesops Fables, Educational Hodge Podge and Special Musical Presentations by Palace supreme orchestra. Overture Zampa. Specail augmented orchestra Sunday night. No advance in prices.

AT THE BREED

Musical comedy scenes more elaborate than any of the stage ever has or ever could produce, illuminate the William Fox production of The Temple of Venus, which comes to the Breed theatre Sunday night for an engagement of three days. With a thousand beautiful girls in the most exquisite bathing costumes to be found, Henry Otto, who directed this picture, has produced a dazzling spectacle of splendor.

The grandeur of his settings was due to the fact that the picture was filmed on Santa Cruz Island in the Pacific Ocean, revealing the splendor of its grottoes and the idyllic beauty of its caves and beaches. Amid such surroundings, the girls appear like water nymphs.

Mary Philbin and Phillis Haver star in the picture, with David Butler in the leading male role. The story deals with the contrast in the lives of two girls, one a native of a lonely island, the other a New York debutante one surrounded with the beauty of nature, the other living in the luxury and splendor evolved by man.

A rich love story traces through the film and the cast is said to present it with remarkable effect. The cast was one of the largest ever assembled for a similar picture. Many of them lived on the island during the period of the filming. They occupied tents and cottages, making of the occasion a combination event of work and pleasure.

MAXWELL AUTO

Production of the Maxwell-Chrysler Chalmers organization for the first five months of 1924 was 15.4 per cent higher than for the corresponding period in 1923, it was learned in Detroit recently. Volume of business in dollars for the same period was 18 per cent higher than for the same months last year.

Though the unprecedented demand for the Chrysler Six contributed considerably to this material increase, Maxwell production also showed a substantial gain over the same period last year. Maxwell, of course, has contributed the bulk of the business both years.

Officials of the corporation expect the Maxwell to register sales gains during the remainder of the year. Stocks of Maxwell cars in dealers' hands average approximately the same per dealer as at this time last year. Chrysler stocks in dealers' hands are entirely sold, demand for Chryslers exceeding supply throughout the country.

Impressive Pictures at Y. M. C. A. Sunday

What will probably be a very impressive moving picture will be shown at the local Young Men's Christian Association on the coming Sunday afternoon, when the story entitled, "Which shall it be" will be portrayed on the screen. The thread of the story is developed as a mother relates her true life's experience to her youngest daughter. It is the story of the former home; it is a pathetic scene of a father and mother trying to choose one of the seven children to give to a wealthy couple for adoption. Unable to part with any child, they strive on together as best they can.

A brief talk on The power of love will be given and Hugh Kinder will render vocal solos, including Home Sweet Home.

For the first time since the thirteenth century, a woman has been appointed glazier of Exeter cathedral in England.

DANIELSON AND PUTNAM NEWS

DANIELSON

Honors such as are due the brave and the efficient in times of danger or stress were conferred upon Osario Warner of Carter street and Miss Rose LaRoche of Moosup Friday evening at Norwich, when, in the presence of delegations representing all the telephone divisions in eastern Connecticut and some from more distant parts of the state they were presented, at the Community hose in Norwich, with Vail bronze medals and citations for acts which won them distinction.

It was on May 7, 1923, that Osario Warner, a lineman working for the Southern New England Telephone Company out of the Danielson division, applied a tourniquet to the broken and bleeding leg of Wilfred Benoit of Putnam in such a masterful manner as to stop the gushing of blood from an artery that had been severed as surely as a surgeon's knife. Through this service contributed promptly to conserving Benoit's strength and probably to increasing his chances of recovery, for the leg was so badly injured that it was later amputated at the Day Kimball hospital.

Lineman Warner was eating his dinner at the Putnam central telephone station when the accident in which Benoit was injured occurred, the young man, riding a motorcycle, being in collision with an automobile just opposite the telephone building. Warner, one of the first to reach the injured young man's side, took a tourniquet from a first aid kit that is at the telephone office and applying it with the skill derived from practice given in special instructions by the telephone company promptly stopped the heavy loss of blood that Benoit was undergoing.

Almost two months before this to a day—on March 8, 1923—Miss LaRoche a night operator at the Danielson central telephone exchange, sat alone at the switchboard, late at night, when there was a flash and a crash and in another instant a fire was razing in the terminal room of the building on the floor below her. Escaping electricity from a high tension line came, through a cross, into the cables of the telephone company and set the Hayes jack afire. Within a minute the terminal room was aglow with fire and the switchboard flashing with lights as dozens of lines began to go out of service. It has since been remarked by telephone officials that the fire was an extremely dangerous one. Alone in the building and physically handicapped, Miss LaRoche, entirely disregarding her own safety and with that coolness and precision that marks her normal service, at once notified her chief operator, Miss Katherine D. Aylward at her home. In the meantime the [illegible] of the flames was attracting assistance and [illegible] the first of those who [illegible] Miss LaRoche called out instructions for getting into the terminal room by breaking a window and directed where the fire extinguishers could be found. All of this was done in advance of the arrival of the fire department and was the means of checking the fire and saving the company much heavier damage than the really serious loss it sustained, for the fire put every telephone in the Danielson division out of service.

The first to reach the operating room, smoke-filled and reeking with the fumes of burning insulation and [illegible] gone, found Miss LaRoche [illegible] still giving service to subscribers and [illegible] in his perturbed in the face of an exceedingly trying situation. She was warmly congratulated by officials of the company and [illegible] merited the honor shown her in such an impressive way at Norwich Friday evening.

At the regular meeting of the directors of the Windham County National bank a semi-annual dividend to stockholders at the rate of 8 per cent. per annum was declared, and in addition a substantial amount set aside to it profit and loss account. A few weeks ago this board declared its usual [illegible] 4 1-2 per cent. per annum [illegible] the depositors in its savings department. This bank is just completing its 102nd year of service. Its total assets are the greatest in its history, and the progress it has made in recent years has been of special note.

In addition to the morning parade that the East Killingly Patriotic association has planned for the fourth there is to be a day filled with events. The parade is set for 9 o'clock. For the afternoon a whole series of athletic events has been planned and there will be awards for the winners. Patriotic addresses are to be delivered during the course of the day, four of these being scheduled. There will be band and orchestra music and fireworks display, as the program provides for filling in the evening hours. That the day may not be without its gastronomic attractions, a chowder and other good things will be made available for the public at the noon hour. East Killingly expects a big crowd for the greatest event it plans each year.

Association blanks for the bonus were made available to former service men who appeared at the post quarters of Leo J. L'Homme post, American legion, Friday evening.

A picnic is planned by the members of the Ladies' Reading circle to be held next Monday afternoon at the home of Mrs. S. S. Stone on Riverview.

Such is now his fame as a clambake conductor that King George Jacques of East Killingly is getting applications for his services from points as far away as Boston.

Rev. Walter B. Williams of the Westfield Congregational church will preach at the union service to be held in the Methodist church Sunday afternoon.

Aime Fournier, student at Assumption college, near Worcester, is spending the summer with his parents, Mr. and Mrs. L. J. Fournier of School street.

There will a grand rush for boats to get the best of the fishing when the bass season opens at Alexander's lake next Tuesday morning.

A Boy Scout Patrol from Rhode Island is in camp at the Mrs. Victor Smith farm on Allen hill over the week end.

The Fourth coming on Friday this year, workers will get a triple holiday at least from all the manufacturing plants hereabouts.

It has been decided to hold the sessions of Chautauqua on the grounds near the graded schools on School St., as has been the practice for several years.

Mr. and Mrs. Herman M. Coulter left Friday for Akron. They will be absent for nearly week, visiting at Buffalo and Niagara Falls on the return trip.

Chief A. P. Woodward has been at Boston attending a session of fire department chiefs from various cities of the country.

Francis Macdonald, student at La Sallette college, is at his home on Academy street to spend the summer.

This is to remind you of the deposit which you are to make in the savings department of the Windham County National bank on or before July 5th.—adv.

At East Killingly Ernie Chase has erected atop a large pole a flasher of red, white and blue electric lights—for a feature of the Fourth of July observance at that place.

This week the Sunday school of the Union Baptist church at East Killingly was represented by an attendance of 2 at a Sunday school convention held in Stafford Springs, this delegation being outnumbered only by the Stafford Springs delegation of all those in the convention.

Samuel R. Back, son of Attorney and Mrs. Harry E. Back and a graduate this month from Yale university, will leave today for Boston, where he is to fill a position in the Merchants National bank.

Harry E. Back, Jr., student at Yale university, is visiting with his parents, Attorney and Mrs. Harry E. Back.

Following a business session at which committees for the ensuing year were named at the home of Mrs. L. S. Ingalls on the West Side Thursday afternoon, members of Sarah Williams Danielson chapter, D. A. R., and their guests held a lawn social at the Ingalls place. Mrs. N. D. Prince, Mrs. Hattie Paine, Mrs. R. D. Kenyon and Mrs. Helen S. Dowe were hostesses.

Don't pay a widow compliments unless you are matrimonially inclined and willing to pay her bills.

ICED "SALADA" TEA

is cool, delicious, satisfying. So easily made. — Try it.

2681

PUTNAM

Frank W. Russell, who was arrested in the Putnam city court Thursday afternoon after he had testified in the cases against Harvey LeClair, Walter Scott, Nellie Jacques and Irene Foster, was arraigned at a session of the court Friday morning on a charge of perjury while on the witness stand the afternoon before. He entered a plea of not guilty. Russell was represented by Attorneys George Sheean of Providence and I. H. Miron of Putnam. Probable cause was found and Russell was held in bonds of $5,000 for the superior court.

Russell was the last witness for the state in the trial the preceding day and testified that he leased the raided premises in his building to Nellie Jacques. When the witness made this statement it was quite evident that the reply came to the prosecuting attorney unexpectedly, as the prosecution contended that LeClair was the proprietor of the Pomfret street rooms where, the state alleged, a disorderly house was conducted and liquor was sold. Soon after the testimony was given the prosecuting attorney caused Russell's arrest on a perjury charge, bonds were fixed at $5,000, and Russell spent the night in a police cell. Bonds of this amount were furnished Friday afternoon.

Constable Peter A. Gardner was the state's first witness. He testified that in his official capacity he was given a notice to quit possession of the rooms on Pomfret street by Attorney Archibald Macdonald, Jr. He said that the directions in the notice were to serve it on Harvey LeClair.

Alferie Sponcey, a Putnam police officer, testified that following the raid in the Pomfret street rooms he and Prosecuting Attorney Carpenter went to Mechanicsville and saw Russell. According to the witness, Russell told them that he leased the premises to Harvey LeClair.

Following the testimony of these two witnesses, the state rested.

Attorney Sheean addressed the court on a motion to dismiss the case for lack of evidence. Judge Geissler said that there were two questions for him to decide, whether Russell was telling the truth, and when did he lease the premises. He said that there was evidence sufficient to warrant hearing the defense side of the case, and the motion was denied.

[illegible] took the stand in his own behalf. He denied making the statement as testified to by the officers and said that he told them that sometimes LeClair paid the rent. He said that the premises were leased to the Jacques women as he testified the day before.

Nellie Jacques testified that she leased the rooms and that LeClair had nothing to do with them.

Mrs. Cote testified that she was present when the Jacques woman asked Russell if he had rooms to let and that the Jacques woman hired them.

The arrest of Russell, who is well known in Putnam, caused something of a sensation, and there was another large gathering in court Friday morning.

The auction at the residence of G. A. Soule, No. 17 Sunnyside ave., Monday, June 30, at 1 o'clock p. m., S. T., will contain many interesting articles and should be well attended. Witter Bros., Auctioneers.—adv.

Mrs. G. L. Chapman of New York, representative of the New York Tribune fresh air fund, was in the city Friday, making the preliminary arrangements for having the children from the East Side tenement districts come to Putnam and surrounding towns this summer. As in previous years, Mrs. W. J. Bartlett has consented to [illegible] the [illegible] of the local committee that yearly provides homes in the country for the little city folk. Miss Gertrude Perry will act as secretary and treasurer of the committee.

The first step is the procuring of homes for the little ones' two weeks' outing. The more homes thrown open to the children, the more children can enjoy the, to some of them, unknown country air and green grass. The committee's work may be made easier if those willing to take children will communicate with the chairman. Those not able to take a child can assist in giving one or more children this outing by contributing money. Some families willing and anxious to take children in their homes do not feel able to afford the extra expense and can only take a child if board is paid. The cost per child is only $4 a week.

For the past four or five summers the "Fresh Airs" have been coming to this section. They are accompanied from New York by a representative of the fund and the representative comes here to take them ome. All that those willing to give these children an outing in the country have to do is to transport them from Putnam to their homes.

Last year there were between 30 and 40 children came to Putnam and were distributed in the various homes of those willing to take them. The little ones came pale, wan, tired, rundown. They returned to the city in more robust health, invigorated, sunburned and happy. Their delight in the country, its birds, wild flowers and grass made to walk upon, was unbounding, and to watch them was all of the compensation one could wish. Many of the children have never been outside the East Side district of New York; have never seen a farm except in a picture book; have never seen the sheep, the cattle, the chickens, the pigs, to nature in all the grandeur displayed among the rugged hills of old New England. The outing to them is not only physically beneficial but it affords them a lesson that the outdoors teaches, a lesson that must of them never learned, while others have had the meager substitute for real country of a city park or zoo with its ever-present "Keep Off the Grass" signs.

Principal Mark E. Stinson of the Putnam High school has tendered his resignation to Superintendent of Schools Ralph C. Jenkins. Mr. Stinson who has been principal of the Putnam school for the past year, resigns to accept the principalship of the Templeton High school, Baldwinsville, Mass. Mr. Stinson was formerly principal of this school, coming from Baldwinsville to Putnam the first of the last school year. The town has recently completed a new and modern high school building. Mr. Stinson was very successful and popular in Baldwinsville and the school authorities of that town have been trying for some time to induce him to return there. His salary, taking into consideration the amount he will pay for rent and other living expenses, will be larger than he would have received in Putnam. During the summer months he is planning to take courses in the Harvard School of Education.

During the year that Mr. Stinson has been in Putnam he has accomplished several things worthy of mention, among which is putting the athletic association on a more democratic basis and greatly improved its financial condition over a year ago. Scholarship standards have also been strengthened and a fine feeling between teachers and the principal has been cultivated. Mr. Stinson has made numerous friends in Putnam who will regret his departure, while wishing him every success in his new undertaking.

Mrs. Norman B. Ream is critically ill at her home, Carolyn Hall, Thompson, and Friday she was reported to be growing weaker. Mrs. Ream suffered a severe paralytic shock some time ago and for many weeks has been confined to her rooms. Thursday her condition took a decided change for the worse.

The Woman's Relief corps will hold its annual picnic at Alexander's lake Tuesday, July 1st. Members will take the 9.45 trolley for Wildwood park, whereluncheon will be served about noon.

Joseph Dumas of Putnam has been arrested, charged with a violation of theliquor law, and his case will come before Justice Charles M. Perrin at North Woodstock this Saturday. Dumas was arrested following the finding of a quantity of alcohol at the farm of William Harrington, South Woodstock. Harrington is also under arrest. When the alcohol was found Harrington disclaimed ownership of the liquor.

County Clerk E. M. Warner and Mrs. Warner returned Friday afternoon from a stay of three days in New London.

Miss Ruth Perry, who has been attending school at East Bridgewater, Mass., is at the home of her parents, Dr. and Mrs. E. F. Perry, for the summer vacation.

Mrs. R. A. Chandler, Fremont street, has been spending the week in Boston.

Alfred Gallant, a recent graduate of the Putnam State Trade school, has accepted a position with a typewriter manufacturing concern in Hartford, where several other graduates of the school are employed as mechanics.

An informal reception for Rev. Simeon E. Cozad was held in the chapel of the Congregational church Friday evening. The affair was arranged to give not only members of the church but all friends in the city an opportunity to bid farewell to the retiring minister. Mr. Cozad tendered his resignation as pastor some months ago and, although strongly urged to reconsider, will preach his farewell sermon next Sunday morning and will leave immediately for Nebraska, where Mrs. Cozad and their daughter went some time ago. There was no set program, but there was orchestral music and impromptu speeches and a reply from the retiring minister, who has been in Putnam a little over a year. Mr. Cozad has no immediate plans for the future but with Mrs. Cozad and friends will take a trip to some of the national parks of the west, starting from Nebraska.

The women of Thompson have organized a Thompson Coolidge club with the following officers: Chairman, Miss Sarah S. Crosby; vice chairman, Mrs. Matthew Dart; secretary, Mrs. Wilfred Mills. This is the first Coolidge club organized under the direction of Miss Katherine Byrne of Putnam, who was a delegate-at-large to the national republican convention. Miss Byrne plans to aid in the institution of similar clubs in all other towns in the 28th and 29th senatorial districts, which includes all of Windham county.

Funeral services for Cromwell Chase, 50, of Killingly, son of the late Cromwell D. Chase, were held at the Grove street cemetery chapel, Putnam, Friday afternoon, and burial was in the cemetery. The Methodist minister of Attawaugan conducted the service.

The fourth Well Baby conference will be held at the high school next Wednesday and it is promised that doctors will be present to make examinations. **The last** conference was not a success because no doctors put in appearance and mothers had to take their children home without examination.

The Well Baby conference is conducted under the supervision of the state board of health, department of hygiene, and is for the purpose of having well babies examined in order to determine if there are any defects that are not apparent to parents that need attention.

Children previously examined and advice given as to treatment are already showing beneficial results as they are re-examined at subsequent conferences. The children are not treated at these conferences but advice is given as to corrections needed and the parent is advised to consult the family physician.

PRESIDENT COOLIDGE SENDS LETTER OF THANKS

(Special to The Bulletin.)

Putnam, June 27.—The first Woman's Coolidge club organized in Windham county was that in Woodstock a week or more ago at the home of Mrs. Janet E. Sheppard. Mrs. Sheppard was the prime mover of the organization of the club and has received the following personal letter from the president of the United States:

The White House,
Washington, June 20, 1924.

My dear Mrs. Sheppard: My thanks to you for your letter, and to you and your associates of the Woman's Coolidge club for the interest and effective activity which you have described to me. You are doing, of course, precisely the [illegible] [illegible] appreciated.

Very truly yours,
CALVIN COOLIDGE.

YANTIC

Mrs. Corey, who has resided at the home of [illegible] on Yantic avenue, has moved to [illegible] Avenue.

[illegible] Mrs. [illegible] has been [illegible] the past week.

G. K. Harris of Palmer was a visitor here Wednesday.

Mrs. R. W. Congdon and children [illegible] the week in Providence with Mrs. Congdon's parents, Mr. and Mrs. Adolph Ploettner.

R. V. Corgdon has returned from a brief stay in Providence.

Mrs. Peter Nawrocki and children, John, Peter and Zigmond, are spending the summer at their summer home in Colchester.

Local friends were grieved to hear of the death of George Taylor of Philadelphia and Hillside, Me., which occurred very suddenly Monday at Philadelphia. Mr. Taylor was superintendent here for the Kanjan Brothers when [illegible] Woolen [illegible] buried in Hillside.

Frank Kinney, who has been spending several weeks in town with his sister, Mrs. E. Stockett, has left town for Fisher's Island for the summer.

Mrs. Elias Stockett is spending a few days in Stonington with her sister, Mrs. Rowland Hewitt.

Alton Kilroy, who has been attending a secretarial school in Boston during the past year, is spending the summer with his parents, Mr. and Mrs. William Kilroy.

If a shiftless man has a wife he usually blames her for his inability to accumulate wealth.

STONINGTON

The Buick car, owned by C. E. Davis ran without driver down Grayton's [illegible] the [illegible] and plunged [illegible] Fred Allen. The car had been left on a grade without the emergency brake on at the residence of Mrs. O. F. Pendleton on High street. A door was ripped from the garage and the front of the [illegible]

[illegible] was [illegible] from Miss [illegible] and [illegible] building [illegible] use the [illegible] for the electrical business.

W. L. Leaward recently purchased an Overland car.

Many of the farmers in this vicinity report that the late season has necessitated two and in some cases three plantings of corn [illegible]

[illegible] returned from [illegible] I. A supper [illegible] Waldon [illegible] gave [illegible] at the Post [illegible]

[illegible] and has been [illegible] St. Paul's [illegible]

[illegible] and Miss Mary [illegible] Washington, D.

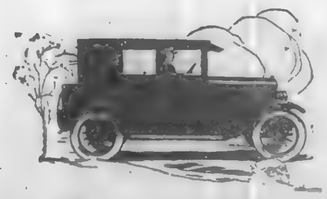
HEBRON

[illegible] applications for adjusted compensation have just been received by the local American Legion Post and are available for distribution to ex-service men. The following statment has been issued by William S. Frese commander of the post, to all ex-service men of this community.

Blanks necessary for filing application for adjusted compensation have just been received by this post and will be distributed immediately. If you do not receive your blank promptly apply at post headquarters. The army and navy departments have requested [illegible] [illegible] refrain from [illegible] [illegible] regarding information [illegible] Washington.

Submit all questions to the American Legion in your locality where all necessary information can be supplied. In this way the departments at Washington will be relieved of a lot of unnecessary work and can devote their entire time to applications. If you can not fill out your blank bring it, together with your discharge, to Post headquarters. This service is not limited to members of the Legion but to all ex-service men, as in the past the legion is here to help the ex-service men.

The things you are going to do add nothing to your bank balance.



Lowest Priced Closed Car

With Doors Front and Rear

ONLY $160 more than the Overland touring car—the Overland Coupe-Sedan—*the world's foremost closed car value.* All the unique exclusive features of a coupe and sedan in one!

Removable rear seat gives big loading space for anything and everything. Seats adjust backward and forward. Seats also make into a full-size bed in the car—great for camping. Easy riding *patented* springs—big power—reliability—record-breaking economy. Come in and see it.

Overland is the only touring car with sliding gear transmission, priced under $500, *f. o. b. Toledo.*

KEEP FOURTH SAFE AND SANE.

During the past week there have been [illegible] evidences that the Fourth [illegible] approaching. Youngsters [illegible] investing in [illegible] they have been using [illegible] temptation for some [illegible] too great to resist.

[illegible] to be no chance [illegible] the safe and sane [illegible] great holiday, [illegible] is also the birthday [illegible] President Coolidge, [illegible] tion for the plea for [illegible] rth by the [illegible] Underwriters. [illegible] expected it is much con[illegible] the importance of keep[illegible] the property loss that too [illegible] companies the celebration of [illegible] but it does not overlook [illegible] preventing the [illegible] on life which has in [illegible] red too prominently on [illegible] may

[illegible] id refers with pride to the [illegible] k in 1918 there was only [illegible] fire from the various forms [illegible] ks of $279,391, while in 1922 [illegible] up to $775,209. This [illegible] recorded as meaning there [illegible] fires as much precaution [illegible] While fire losses [illegible] red on such a basis [illegible] may be regarded as [illegible] d for striving all the [illegible] he prevention of waste [illegible] tion of accidents.

[illegible] advisable was the move[illegible] of a safe and sane ob[illegible] of the Fourth. The reduc[illegible] n the number of accidents and [illegible] mbers of deaths from reckless [illegible] of powder in different forms has been so gratifying, to say nothing of the reduction in the number of fires and the loss of property, that there can be no thought of going back to former conditions.

[illegible] sane Fourth has made [illegible] n. The desire [illegible] of maintaining the [illegible] mentioned and the National Board [illegible] Underwriters figures that a [illegible] advice at this time is not [illegible] ing the mind on the subject [illegible] ly and well directed [illegible] and sane.

STANDING BY CONSTITUTION.

[illegible] of the republic of N[illegible] this government a [illegible] it ought to have been [illegible] answer for himself. Perhaps [illegible] because it has been [illegible] not improbable that [illegible] the answer that was ex[illegible] though it is not the one [illegible]

[illegible]ragua has a constitution which [illegible] the length of time its president [illegible] can hold office to one term. Presi[illegible]dent Martinez has about completed [illegible] his term and he desires to continue [illegible] office. He wants to be a candidate [illegible] reelection and he seemed to carry [illegible] the impression that he might get this [illegible] government to side in with him and [illegible] countenance such an idea.

[illegible] how he could have gotten such [illegible] in view of the attitude [illegible] the United States has been [illegible] constitutional gov[illegible]ernments in American republics, is hard to imagine. But strange things [illegible] in Central American republics and he seems to have figured that Uncle Sam could be found to insist upon respect for constitutional government in one republican and to [illegible] it in another.

When the charge d'affaires at the [illegible] capital told President [illegible] that "My government would [illegible] guided by the policy which it [illegible] already publicly announced with regard to the recognition of new governments in Central America from recognizing a government arising from the election of a citizen expressly disqualified by the constitution of the country," it must have been only [illegible] anticipated, else he would [illegible] have sought the view of this government.

[illegible] unfortunate that a president of [illegible] of any other country for [illegible] matter should desire to disregard his constitution and to get support for such action from another country. Perhaps the constitutional provision is not a good one in this particular instance but there was apparently a good reason for adopting it and as long as it remains it should be respected. If it is a handicap it [illegible] be eliminated in the proper [illegible] ase the rest of the constitution would soon amount to nothing.

PROSECUTING OIL COMPANIES.

For a considerable time the price of gasoline has been a bone of contention in several states. In the northwest it has been insisted that unjustified prices were being demanded and [illegible] regulation, with the result that there has been a decided cut, has been resorted to. The fight became so bitter that appeals were made to the president to get the department of justice to look into the situation with a view to prosecuting the monopolists.

As the outcome of this situation preliminaries have now been instituted by Attorney General Stone in a suit against 59 oil companies and subsidiaries for violation of the Sherman anti-trust law. This means that there is going to be a test at least of the oil business as it exists today. It is not a prosecution that will be restricted to the Standard Oil company for many others are included. It is a prosecution in which a test will be made of the licensing system under which the use of certain patents is permitted, and which system is referred to as one of the reasons for the price of gasoline. That the head of the Standard should believe that the licensing system is sound economically and legally indicates the defense that will be made.

The action by the attorney general means that an effort is going to be made to get the courts' views on the situation as it has been found. In such suits there is always room for differences of opinion. The attorney general believes that the processes which are free for everyone to use and the patents on unimportant improvements ought not to be allowed to serve as the means of maintaining a high price just because it is the outgrowth of a system that has prevailed in the past.

Because of the great number who are users of gasoline, and the even larger number who are indirectly concerned therein, the government prosecution is certain to be followed with much interest throughout the country.

CONVENTION DEMONSTRATIONS.

The democratic national convention at New York continues to be as much of an uncertainty as ever. There has been some disorder, much delay and plenty of noisy demonstration, but out of it all there is nothing tangible as to the outcome.

Time and again it has been found that demonstrations do not bring about nominations. There are those that get into action too late but are given a chance and there are those that come from real spontaneous action on the part of the delegates.

A big and noisy demonstration may mean much or it may mean little. If it is the expression of the big body of delegates it tells its own story. If it is the outcry of part of the delegates and many of the onlookers it invariably gets the credit of being fixed. Often such demonstrations represent other than the sentiments of the delegates who are there to make the nomination and whose votes are not garnered by such methods.

The demonstrations may be looked upon as straws, but they are no more satisfactory than the vote upon adjournment which was looked upon by some as a test of strength of two candidates. It is reasonable to presume that those favoring a recess or those favoring adjournment were not guided by their sentiments as to presidential candidates. Such would have made quite as strange alignments as did the fact that the standards of certain states were used in demonstrations when those delegations are known to be divided.

Much has been said as to where delegates stand and whom they will support. The many nominations indicate the uncertainty that prevails. Not until several ballots have been taken will it be possible to tell how the political wind is actually blowing.

WASTEFUL FOREST FIRES.

While so much effort is being devoted to the conservation of our woodlands and the development of new ones to replace those that are being denuded, attention cannot fail to be directed to the havoc that is being wrought by fire at the present time in California.

There four forest areas are reported as burning with the fires out of control, 125,000 acres of forest grazing land being destroyed while thousands of other acres of timbered mountains and park land have been burned over.

What is occurring in California is no different than happens in other sections of the country from time to time, except that these disastrous fires seem to have been bunched. The tremendous loss involved in such destruction must leave the impression that too much care cannot be exercised in the prevention of just such fires.

In view of the fact that the great majority of forest fires are due to human agents, there is clearly a responsibility resting upon all who visit such forests to see that they are not the cause of wiping out large quantities of the nation's resources which are dwindling all too fast. The serious obstacles in the way of fighting forest fires imposes a duty upon every individual to see that fires are not started. Prevention can be more effective than the fire fighting.

EDITORIAL NOTES.

When you say better roads you've got nine-tenths of the population with you immediately.

The man on the corner says: Life is a great compromise between what we want and what we get.

Note that list of democratic nominees and it is certain that several must wind up in the list of also rans.

One thing is sure, while the Rhode Island senators are at Rutland, Mass., it will not be necessary to wear gas masks.

Talk about the changing of the two-thirds rule amounted to nothing. It will be indulged in again four years hence.

Probably you noticed that New York refused to let those from other places come in and stage the biggest demonstration.

Newark has abandoned the experiment of holding school throughout the entire year. Have the children instituted a strike?

The democratic convention delegates have sweltered this week. Serves them right for not being willing to keep cool with Coolidge.

Next week there will be started a day and night mail service from coast to coast. How long before a passenger service will be available?

Reports of conditions of the highways of the state show that much roadwork is being done. Some places not mentioned, however, are in need of it.

"Drygoods sales improve with hot weather" says headline. Judging from the court cases, the raids and seizures there's much the same effect on wetgods.

THE MAN WHO TALKS

Do we realize that ten years ago this month the Archduke Ferdinand and his wife were assassinated in Serajevo, the Bosnian capital, and that this was the starting point of the most disastrous war in all human history? This goes to show the similarity between nations and powder magazines, a single spark is enough to blow up either of them. The Archduke Ferdinand in himself was an absolute non-entity. Nobody, even in Austria, mourned his fate. He had lived the wild life of those of his class, and the world would have been better with him out of it—save for its consequences. He happened to be the son of an emperor, and the family had its roots in every principality in continental Europe. It also gave a very slimpsy pretext for Germany to spring at the throat of Paris. When a nation was armed to the teeth as Germany was in 1914, with the largest, best equipped, and best disciplined army in the world, it is perfectly natural to test it out. But what has Germany gained by it?

As one looks into the bright, earnest faces of these young people as they appear on the commencement stage at this season of the year, one is made to feel that here is a power—a strong moral power—that will succeed in the great game of life. Before them lies the great and unsolved problem of tomorrow. If it is to be solved in a satisfactory way they must be the main factor in the solution. It is greatly to be desired that as many of them as possible will continue their studies. It is equally to be desired that their parents will be willing to make sacrifices in order that this end may be gained. The young men and women who set out resolutely to get an education, and who do not turn aside from it, and are willing to pay the price, somehow get there. They seem to be under a special Providence. It is true that "God helps those who, at least, try to help themselves."

We hasten from graduating exercises to boat races and cannot fail to see the analogy between them. In both cases the participants represent an institution. Commencement exercises are never held in a private house, participated in by a few children of the neighborhood. We do not go to see boat races between families who live on a river bank. Graduating is moving out from an institution, and is made public to see what sort of product it has made. The public likes to honor both the graduates and the institution. In the next place the two are alike, in that they represent training. The institution knows better than to put raw material on exhibition. It is the finished product that the public wants to see on the stage and the river course. They are alike in the advertizing that both give to the institution. Did it not make some difference to the Yale boys that they could leave New York for the Olympic games abroad as victors? and also to Yale university itself?

There is no subject we discuss today in which we jump to such rash and unwarranted conclusions as that of divorce. We lay down the morning paper, after reading that another movie actress has divorced her third husband because of incompatibility of temperament, or because she has seen another man who is more pallide, remarking that marriage is a failure. That divorce is shockingly more common than is warranted by either reason or revelation we are forced to admit. At the same time we ought not to forget that divorce cases, especially among prominent people, are first class headline matter for the newspapers. It is news that the people read. But remember that the ninety-five per cent of married people who live together happily—or at least are not divorced—never get into the newspaper, and there is no reason why they should, because it would not be "news."

There is, we think, an insistent duty resting with parents and guardians of children as to the use that ought to be made of their time during the long vacation period in summer. Those who have gotten into their early teens ought to work, not only for the financial benefit of the family but for the good it will be spiritual to them. The moral thus earned will be a good start for them when studies are resumed in the fall. The smaller children ought to have more of the natural leisure that is the heritage of childhood. They ought not, of course, to spent all the daytime in play. But it is play, rather than work, that is theirs by a sort of divine right. Let them perform some light tasks each day so as to get them into the work spirit by easy stages. In this way they will be in good condition for the fall term.

Thanks to modern education and enlightenment we no longer look upon the human body as a clog to the spirit, and that we are only to tolerate this "mortal coil" until God in his great mercy shall "shuffle it off." This looking upon the body as the "natural enemy" to the "higher life" is a relic of medieval theology, and medieval theology was, for the most part, sheer paganism. In this period of delusion men sought to find favor with God by penalizing their bodies. Hence the elaborate system of fasts, penances, flagillations and other self-inflicted tortures upon these "temples of the Holy Ghost." While the body got its flogging the spirit did not find its exaltation. Let us devoutly thank God that this tragic delusion found its place by the side of the other dead nightmares of the middle ages. By comparison the new method in our schools of caring for the bodies of children seems like the dawning of a "new heaven and a new earth."

One very strong argument in favor of continued education beyond the public school grade is, that until the young people have farther training they do not realize what positions in life they are best qualified to fill. If one boy has a sleeping faculty for journalism, and another for the study of law, a cotton mill will not bring it out. Or if a girl has an innate faculty for teaching, trimming hats is not a good introduction to trimming boys. The courses offered by the Academy have a tendency to awaken in the mind its sense of its proper qualifications. There are many who do not find themselves until well along in the university, and some not even then. One of the tragedies of life is being compelled to do the things one hates. If we cannot find enthusiasm in our life work it is nothing but a dead weight crushing our spirit. Give the boys and girls every chance to find themselves.

That Rhode Island is on the map must be realized in Arizona as truly as Mexico is—and for much the same reason. We have read of some things that have recently happened in "Little Rhody's" state legislature, and it shows that the state is little in something other than in square mileage. We have also read of some things that are of recent date in Italy and soviet Russia and they are along the same line. In Italy the Blank Hand, which is the working agency of the Facisti have murdered Signor Matteotti because he dared to stand up for the rights of the Italian people in their notional assembly. In Providence gas bombs were placed in the assembly room for the same purpose, and they came very near being successful. This reminds us that the age of argument has been superseded by the age of men and that Rome is not so very far away from Providence.

IN THE PUBLIC EYE

Otis Skinner, who celebrates his 66th birthday today, has long been known as one of the most eminent of American actors. Recently he has followed the example of numerous others of his profession and written a volume of recollections of the stage. Mr. Skinner's literary attainments may be ascribed both to heridity and early environment; for his father was a distinguished clergyman and he was born not far from the locality of Harvard college. His first stage experience was gained with a stock company in Philadelphia in 1878. Engagements with Edwin Booth and Lawrence Barrett followed, and then the young actor, having attracted the attention of Augustin Daly was taken into the company of that famous producer. Mr. Skinner appeared in all the Daly Shakesperian productions and also won international favor when the Daly company played in London, Paris, and Berlin. The Daly engagement was followed by five seasons as leading man with Mme. Modjeska. Since then Otis Skinner has been a star in his own right and it may be said of him that he has never swerved from the high standard he set for himself at the beginning of his career.

Today's Anniversaries

1774—A mechanic of Plymouth, England, perished in an undersea craft of his own invention, being the first recorded victim of submarine navigation.
1849—Raab, Hungary, was stormed and taken by the Austrians.
1863—Confederate advance called back by Gen. Lee to concentrate at Gettysburg.
1874—A grand review of 60,000 French troops took place at Longchamps.
1904—Steamer Norge was lost off the Scottish coast and 646 persons perished.
1914—Archduke Francis Ferdinand of Austria and his wife assassinated at Sarajevo, Bosnia, by a Serbian student.
1920—Democratic national convention opened in San Francisco.
1921—Germany paid 44,000,000 gold marks to Allied Reparation Commission.
1922—Lord Curzon, in House of Lords, declared Britain would not agree to let United States adopt 12-miles-off-shore liquor seizure.

Today's Birthdays

Lyman J. Gage, former Secretary of the Treasury of the United States, born in Madison county, N. Y., 88 years ago today.

Frederick L. Chase, celebrated astronomer, born at Boulder, Colo., 59 years ago today.

Otis Skinner, one of the foremost actors of the American stage, born at Cambridge, Mass., 66 years ago today.

Kenneth R. Williams, outfielder of the St. Louis American league baseball team, born at Grants Pass, Ore., 31 years ago today.

THE TIMBER RESOURCES OF ALASKA

With more than 30 per cent of the raw material for the production of newsprint paper consumed in the United States coming from foreign sources, particularly from Canada, the manufacturers of pulp and paper are greatly interested in the timber resources of Alaska writes Will P. Kennedy in the Washington Star.

The newspaper industry of the United States is in urgent need of a domestic source of supply, while the best market for the timber resources of Alaska is through the pulp and paper industry. One pulp plant is in operation up there now and one has obtained its water-power license. There is opportunity for the establishment of twelve to fifteen paper mills, with abundant timber and abundant water power.

Difficulty has been experienced in making arrangements for sale of the Alaska timber on account of the lack of information about the water power sites which must be used in connection with any development of pulp and paper and disposal of the timber.

To meet this situation a special report has been prepared by the Federal Power Commission in co-operation with J. C. Dort, an engineer of the United States forest service, as a result of two years' work. This report covers, in detail, 40,000 horsepower believed to be suitable for use in the manufacture of pulp and paper. It gives location, method of development, cost and estimated power and each power site examined.

The forest service is anxious to get this information before interested parties. The budget bureau will not authorize the publication of a report on water power by any other agency than the Federal Power Commission. Supported by the budget bureau and the forest service, the Federal Power Commission has asked congress for an appropriation of $1,000 to be added to funds already on hand so that this report may be promptly available. The House appropriations committee refused to include this item in the first deficiency appropriation bill.

The importance of informing the newspaper industry of this country regarding these available timber and water power resources is emphasized in a letter submitted to congress by E. W. Sherman, acting forester.

The total consumption of paper in the United States now exceeds 7,000,000 tons annually, of which approximately 2,400,000 tons are in the form of newsprint paper. Of this total consumption there now is imported directly over 1,000,000 tons of newsprint and enough raw wood material in the form of pulpwood and woodpulp to make an additional 1,000,000 tons. In other words, the equivalent of over 30 per cent of the raw material which makes up our newsprint production in the United States, is imported from foreign countries, mostly from Canada.

Most of the mills which manufacture both pulp and paper are located in the northeastern states. New England has seventy-six, New York ninety-seven, Pennsylvania seventeen; the lake states eighty-two, the Pacific coast eighteen and all other portions of the United States forty-nine establishments, all regions, except the Pacific coast, which were cut over for lumber the earliest and in which the forests are in the most depleted condition at present. To maintain production, the dependence of these mills on outside sources for raw material is increasing yearly.

Exportation of pulpwood from the crown lands was prohibited by provincial embargoes in Ontario in 1900, in Quebec in 1910 and in New Brunswick in 1912. Present imports of Canadian pulpwood are confined to wood grown on the freehold lands. For some time American manufacturers have been apprehensive of the possibility of an embargo on all pulpwood from Canada. In June of this year the Canadian House of Commons passed a bill which gives the governor in council authority to establish a complete embargo whenever he sees fit. The American pulp and paper industry considers the situation so serious that it has called upon the forest service to undertake a study of the possible new sources of pulp timber in the United States. A survey has already been made indicating the pulpwood resources in Alaska and in the western United States. The available raw material in the southern part of the United States will receive the greatest attention in the proposed study.

The pulp and paper industry, as now situated in the eastern and northeastern part of the United States, has not enough raw material to supply its needs on anything like a permanent basis. The mill capacity is very greatly in excess of the remaining supplies of standing timber. In order that the national needs for paper, particularly newsprint, may be met by the American industry, other sources of pulpwood are therefore exceedingly important.

Southeastern Alaska has almost untouched resources in the two national forests, amounting to at least 100,000,000 cords, consisting of western hemlock and Sitka spruce. More than half of the species suitable for pulpwood are western hemlock. At least 30 per cent of all species for the manufacture of newsprint. As the virgin stands are cut, the percentage of spruce as shown by previous cuttings will increase so as to make the succeeding stands even more desirable for pulpwood. The forest service estimates that the two national forests can produce in perpetuity 2,000,000 cords annually, or enough to equal more than half the total newsprint consumption in the United States.

The water-power resources are, aside from the timber, the most essential natural resource if the pulp and paper industry in Alaska is to be developed, and one of the reasons why greater development has not taken place up to date is because of the lack of definite information with reference to Alaska's water-power resources. Unquestionably authoritative information, such as is contained in Mr. Dort's report, will tend to stimulate and hasten this development. This report shows 400,000 horsepower available, of which 324,000 horsepower available, of which 324,000 horsepower are available in power sites of 5,000 horsepower or more, which can be developed for less than $50 per horsepower, to about $110 per horsepower, a large part of it very near the lower figure. There is enough water power already in sight which can be developed very cheaply to produce 1,000,000 tons of newsprint paper or enough to supply nearly one-half the newsprint consumption. This can be done immediately, while, unquestionably, further investigation will show enough water-power resources to develop the entire estimated output of 1,600,000 tons in terms of newsprint paper.

Add to this the additional factor of cheap wood material, which can be delivered to the mill sites for not to exceed $6 to $7 per cord, and the bearing of Alaska on the pulpwood situation in the United States is obvious.

Are You Discouraged?

MAUDE ADAMS, THE BASHFUL GIRL

When Maude Adams was a girl she was extremely difficult and she shrank from public life, her constitution was frail and she loved the out-of-doors, and often it was said that she never would be a real actress.

Born in Salt Lake City, her name was Maude Ewell Adams Kiskadden. Her mother was an actress in a stock company and her father a business man. Her first appearance on the stage was an emergency understudy in The Lost Child, when she was seven months old.

When she wanted to go on the stage with mother, her father at first protested that he did not want his little daughter making a fool of herself. When he gave his consent, he objected to use of the family name in connection with the theater, and she appeared as Maude Adams.

She played child parts with J. K. Emmet and others and in her early teens she lived with her grandmother while attending Salt Lake Collegiate Institute.

Her mother took her east and, when 16, the girl appeared in The Paymaster, then in E. H. Southern's company, and next in the Hoyt farce, The Midnight Bell, but she attracted little attention.

Charles Froham soon afterward placed her in his stock company. Then he made her leading lady for John Drew. The wiseacres foresaw failure for her, but she was successful, and when five years later, she was announced as a star, the prophets again predicted disaster.

She first appeared in The Little Minister. Many critics said she was not a great actress but she had a charm of wistfulness, simplicity and understanding that appealed to her audiences. Her success was instantaneous and prolonged. She later successfully played Romeo and Juliet, L'Aiglon, Quality Street, Peter Pan, Chanticleer and other productions.

When she retired she was considered one of America's most beloved actresses. She also was one of the richest. And she had a lodge in the Adirondacks and enjoyed herself conducting a farm on Long Island.

SUNDAY MORNING TALK

IT WAS GOOD

And God saw everything that He had made and, behold, it was very good. Gen. 1.31.

The world around us is filled with the frivolous, heartless and desperate proclamations of modern prophets and teachers. "He hath done many things badly!" or, "He hath done nothing at all!" Over against this spirit it is so much the more the sacred duty of the Christian to proclaim; "He hath done all things well."

He hath done well in His great work of creation, "when the morning stars sang together, and all the sons of God shouted for joy;" when He Himself, the Father Almighty, maker of heaven and earth, looked upon everything that He had made, and, behold! it was very good. In looking upon that same work of God with the eye of faith, "we understand that the worlds were framed by the word of God." (Heb. 11:3) and in such faith we sing with the Psalmist: "O Lord how manifold are Thy works, in wisdom hast Thou made them all." (Psalm. 104:24.)

This was the beginning of God's ways and works—all things done [illegible] But how quickly did the fall and guilt of man prevent this order and beauty into utter ruin and desolation! The Lord looked down from heaven upon the children of men, to see if there were any that did understand and seek God. They are all gone aside, they are altogether become filthy, there is none that doeth good; no, not one." This is the lowness of God's [illegible]

But in His infinite mercy, God did not leave or forsake the work of His [illegible] He lost and fallen creature. God hath "done well" even more than in His work of creation. Where sin abounded grace did much more abound. His compassion gave us the unspeakable gift of the Saviour and through our faith we understand at the manger of Bethlehem. "He hath done all things well." He hath given us freely and under the cross at Calvary we hear our full redemption declared to be finished." Truly the man of sorrows who there laid down His life for us, hath done all things well. He opened Paradise to the dying thief. He rent the veil in twain. He obtained eternal redemption for us by His own blood.

This we believe and this we shall see with our own eyes when we enter upon His eternal glory. There God shall wipe away all tears from their eyes, and there shall be no more death neither sorrow nor crying; neither shall there be any more pain, for the former things are passed away. Then the eyes of the blind shall be opened and the ears of the deaf shall be unstopped. The Lord hath done all things well.

Stories That Recall Others

The Car Moved On.

During those sweltering days a car stopped to permit a passenger, who was carrying a round package much like a rolling pin wrapped in paper, to board.

Suddenly the [illegible] of the [illegible] package gave way and the rolling" pin struck the [illegible] with a crash. On one of the broken fragments was the label, "Old Dutch[illegible] aged in the wood."

A groan went up from part of the crowd. Some voiced "Get a grave, but the [illegible] disappeared and the car moved on.

"Do It Now," Her Motto.

[illegible] issues marriage licenses and has been quite busy during [illegible] opened at 8 o'clock late Sunday [illegible] to come to [illegible] and issue a marriage license. When told that the office was closed Sunday and would be open on Monday morning, she meekly replied: "Well, this guy has stalled me off so many times, I thought I'd better get a license before he change his mind again."

State and local police discovered in a vacant [illegible] on Twin Bridges, Weston [illegible] $1,200, part of which was identified as having been stolen from Miss Ellen Van Alstyne, of Norwalk.

Few men have enough self-confidence to enable them to ignore their own mistakes.

1924

Norwich, Saturday, June 28, 1924.

VARIOUS MATTERS

Light vehicle lamps at 7.55 o'clock (standard time) this evening.

Several nearby pleasure resorts will hold their official openings today (Saturday).

With hot weather promised for the week end many auto parties will head for the beaches over Sunday.

Gardner Lake and other waters will be favorite spots for bass fishing beginning Tuesday of next week.

Governor Templeton is to go to Vermont next week to attend a four days' conference of New England governors.

First evidences of the nearness of July 4th, came Friday when fire crackers were exploded in the business district.

The rain Friday was welcomed by everyone with gardens, the soil being in need of the water and crops will benefit.

The schooner Joan Kielberg has completed discharging a cargo of 1,100 bales of wood pulp at the Robert Gair Co.'s dock.

The Misses Lucas will be hostesses this (Saturday) afternoon from 3 to 6 o'clock at the D. A. R. Museum, Norwich Town.

The Moosup Chamber of Commerce is making an endeavor to have merchants refrain from selling fireworks before July 4th.

Copies of the Federal Revenue Act of 1924 are being given out to members by the Manufacturers' Association of Connecticut.

The new flashing beacon at the corner of Market and Water streets has put an end to speeding past this dangerous intersection.

Ray Comins, of Willimantic, well known to many Norwich people shot a par 36, this week, over the new golf course at Willimantic

The new piece of macadam to the Central Vermont depot at Uncasville has been completed and is a great improvement to the town.

Petty thieving is being carried on to quite an extent in and near the borough of Stonington. Flowers are suffering at the hands of someone.

Indications are that there will be a large attendance at the Daily Vacation school of the Central Baptist church when sessions begin next week Tuesday.

The sum of $250 was realized by the Catholic Women's club of Uncasville Wednesday, when a successful strawberry festival was held in the club rooms.

The Angus Park Mfg. Co., of Glastonbury, has added eight mules of 900 spindles to its equipment and plans to install two more mules with 330 spindles each.

Block Island sword fish, 65c; mackerel 15c; porgies 15c; 2 lbs. 25c; shad 25c. Church Bros, 100 Franklin street.—adv.

Stewart Williams of Moosup, Earle Butler of Plainfield and Earl Mott of Wauregan, all members of Plainfield High school, 1924, took the Yale examinations this week.

Miss Frances Hall of South Willington has been a guest of Miss Carolyn Cummings at Willimantic. Mrs. Cummings and daughter are to spend the summer in Europe.

Work on Laurel Hil avenue is started south of Walnut street, a part of the old roadbed having been torn up to prepare for the laying of the new cement highway to the city line.

Rev. G. W. Williams, of Andover, who has been spending his vacation in New York, has returned home and will resume his duties as pastor at the services Sunday.

Friends of Representative Hector Duvert of Putnam learn with pleasure that he is fast regaining health. He has been confined to his home on Woodstock avenue for some time.

Among the visitors at the state library Thursday were Miss Alice Griggs, librarian-general of the library of the national society of the Daughters of the American Revolution.

The first swordfish of the season landed at Stonington Friday morning now on sale at Powers Bros' also native muckerel, hard crabs, lobsters and little necks.—adv.

The flood lights that illuminate the beach during the summer from Ocean Beach bathhouses have been installed. They will light up the beach every night during the months of July and August.

Connecticut stands sixth in the nation and second among the New England states in the per cent. of children of kindergarten age enrolled in kindergartens, according to an article in a recent issue of School Life.

There was 195 major automobile accidents reported to the motor vehicle department for the week ended June 21, from the twelve cities cooperating in the campaign to reduce accidents. Hartford was in the lead and Norwich reported thirteen.

The Tolland County Young Men's Christian Association will open Camp Woodstock today (Satuday) at Black Pond, Woodstock, being the first of the three camp dates. This is a joint camp for Hartford, Windham and Tolland counties.

Ex-Governor Everett J. Lake of Hartford and Mrs. Lake, arrived at the Griswold Friday to spend the remainder of the season. They have not been at Eastern Point for an extended stay since Mr. Lake was chief executive of the state two years ago.

Suffragan Bishop E. Campion Acheson, of the Protestant Episcopal diocese of Connecticut, is about to cross the Atlantic for the 26th time. Together with George A. Craig of Broad steret, Middletown, he will sail from New York on July 15 on the White Star liner Pittsburgh.

GUEST OF HONOR OF THE ROCKEFELLER FOUNDATION

New York, June 27.—Lord Kenyon, pro-chancellor of the University of Wales and great-grandson of the Lord Kenyon who made the greatest contribution toward the founding of Kenyon college in Gambier, Ohio, was today guest of honor at a luncheon given by the Rockefeller Foundation at the Yale club. Lord Kenyon recently attended the centennial celebration of the college at Gambier. He will sail for England on the Majestic tomorrow.

Among those at the luncheon wert John Grier Hibben, president of Princeton University; Chancellor Elmer E. Brown of New York University; Dean Roswell P. Angier, Yale university; Dean Herbert E. Hawkes, Columbia university, and George E. Vincent, president of the Rockefeller Foundation.

Dr. John Kelso Warren, aged 78 years, founder and president of Worcester Hahnemann Hospital died at his home in Worcester.

PERSONALS

Thomas J. Burke of Baltic is visiting relatives in Bangor, Me.

Miss Mary B. Geer has removed from No. 274 Washington street to No. 11 Alice street.

Miss Alice Hussey who has been visiting relatives in New Haven has returned to her home in Baltic.

Mr. and Mrs. F. E. Watson have opened their cottage at 43 Stewart avenue, Ocean Beach, for the season.

The Misses Blanche Des Landes and Irene Douville of Baltic are spending the week end with relatives in Boston.

Miss Ella A. Fanning returns home today (Saturday) after enjoying a vacation spent at Providence and Ocean Beach.

Miss Alice Ibbison has returned home after spending a week the guest of Mrs. F. Smith and Mrs. E. Miller of Jewett City.

George Dolbeare and John B. Oat left Friday for Dolbeare camp, Lake Mashapaug, to enjoy several days of bass fishing next week.

Miss Margaret Dalton of Monson, Mass., is employed as forewoman of the sewing department at the Daniel Boone worsted mill in Baltic.

Mr. and Mrs. L. Edwin Hill of New Haven are the guests this week of General Secretary and Mrs. Edwin Hill at the Osgood on Church street.

Mr. and Mrs. Thomas Ibbison, Jr., and daughters, Mary and Jane, also Miss Mae Wilson, attended the Elks' charity bazaar at New London Thursday night.

Mrs. John B. Oat of Cliff street is visiting at the home of Mr. and Mrs. Peter Lowrie, in East Orange, N. J., and will return home the latter part of next week.

OBITUARY.

Ralph Raymond Judson

After a short illness with diphtheria, Ralph Raymond Judson, 10 years and 7 days of age, died Friday night at the home of his grandparents, Mr. and Mrs. Anton Stelzner, No. 28 Wauwecus Road. He was the son of the late Frank and Caroline Stelzner Judson and was born June 20, 1914. He attended the Bean Hill school.

Surviving are the sister, his grandparents and several uncles and aunts.

FUNERALS

Mrs. Robert Palmer.

With a large attendance of relatives and friends the funeral of Mrs. Robert Palmer was held Friday afternoon at 3.30 o'clock from the Eliza Huntington Memorial Home, No. 99 Washington street. The service was conducted by Rev. A. N. Foster, pastor of the Church of the Good Shepuherd, Universalist, assisted by Rev. Joseph N. Cobb, of Windham, formerly pastor of this church. There were a number of beautiful floral remembrances.

The bearers were Louis Hull, Louis M. Crandall, Harry Bjurstrom and Arthur G. Crowell. Burial took place in Yantic cemetery. Undertaker C. A. Gager had charge of the funeral arrangements.

Michael J. Matthews

The funeral of Michael J. Matthews, who was drowned at Mohegan park, Tuesday, was held Friday morning at 8.30 o'clock from the home of his parents, Mr. and Mrs. Edward Matthews, No. 89 School street. At 9 o'clock there was a requiem mass at St. Patrick's church with Rev. Myles P. Galvin, celebrant, Prof. Frank L. Farrell presided at the organ.

The bearers were John Furlong, Austin Furlong, Rollin Harris, Charles Sullivan, Joseph Karney and Michael Shea and burial took place in St. Joseph's cemetery where Rev. M. H. Mahoney, rector of St. Patrick's church, read the committal service.

There was a very large attendance including relatives from Hartford. The floral tributes were many and beautiful. They included a standing cross of roses and carnations, marked "Brother," and a pillow of roses from young men in the neighborhood, marked "Chum."

Hourigan Bros., had charge of the funeral arrangements.

INCIDENTS IN SOCIETY

Mrs. William K. Tingley and family leave today (Saturday) for Crescent Beach to spend the summer months.

Mr. and Mrs. Carl W. Brown and daughter, Virginia, are at their cottage at Gales Ferry for the summer.

Archdeacon and Mrs. J. Eldred Brown and family have leased a cottage at Pleasant View, R. I. for the season.

Mr. and Mrs. H. F. Parker and daughters and Miss Matilda Randall are at their Pleasant View cottage for the season

Mrs. Carl L. Eaton has returned to her home in Massachusetts after visiting with her parents, Mr. and Mrs. Frederic W. Cary of Lafayette street.

Mr. and Mrs. W. Russell Baird and Mrs. Charles H. Preston will be the guests over the week end of Mr. and Mrs. Eben Learned, at the cottage at Chatham, Mass.

According to a Czecho-Slovakian superstitution, if when a traveler sets out on a journey, you stock him with round cookies, he will surely return.

Revolt Feared In Salvador

KEYSTONE VIEW CO., NEW YORK

Evidence that former President Emiliano Chamorro, of Nicaragua (above), is planning a revolution is more than proven by the amount of munitions said to be secretly stored at Chontrles. He has been summoned before President Martinez to answer questions on his conduct in reference to this.

STATE ATTORNEY HULL DIES SUDDENLY IN NEW LONDON

HADLAI A. HULL

State Attorney Hadlai Austin Hull, who had been incapacitated from active business since Dec. 1, died suddenly about 10.15 o'clock Friday night at his home, 72 Vauxhall Street, New London. He was preparing to retire for the night when he had a sudden attack of weakness and the end came quickly. He was in his 69th year.

Since his admission to the New London county bar in 1880, he had been a practicing attorney, for a few years in Stonington, but for the larger part of the time in New London where he was the senior member of the law firm of Hull, McGuire and Hull. As state attorney for the county since the death of Soloman Lucas about twenty years ago, Mr. Hull had become the most widely known member of the New London county bar, of distinguished ability in the trial of both civil and criminal cases. It is doubtful if another lawyer in the county has been as constantly active before the courts up to the time his health necessitated withdrawal from active business in December. For much of the time he had been confined to his room, but his recovery had been hopefully looked forward to and of late he had been able to take short automobile rides.

Major Hull was born in the town of Stonington at what was formerly called Mystic, or the "Head of the River," now known as Old Mystic. His parents were Joseph Hull, a native of Rhode Island, and his wife Mary Ellen Fish. The latter was a cousin of Commodore Oliver Hazard Perry. In early youth, with his parents, he removed to Lebanon, residing later in the towns of Franklin, Griswold and Windham, and in the borough of Willimantic. His earlier life was passed much as is that of the average country boy, having only the advantages of the country school.

He fitted for college in the Natchaug high school, at Willimantic. In 1874 he entered Amherst college, but remained only one year. Previous to fitting himself for college, and when only 17 years of age, he became a school teacher, having taught first in the town of Windham and later in the Borough of Willimantic, at Noank and Upper Mystic.

In the spring of 1876 he commenced the study of law in the office of Hon. John L. Hunter in Willimantic and continued to read law and teach school until the summer of 1879. He then took a special examination and upon that was admitted to the Yale Law school, from which he graduated with honors in the class of 1880.

While in Amherst college he was prominent in all athletic sports, being the first man chosen for the college crew which represented that college in the intercollegiate regatta at Saratoga in 1875.

He was admitted to the New London county bar in 1880 and in August of that year removed to Stonington with his wife who was Mary Jane Jencks of Voluntown.

In all public affairs Major Hull was at all times prominent, having held many offices of trust. In the fall of 1883, he was elected to represent the town of Stonington in the general assembly, serving in the succeeding session beginning in January, 1884; was collector of the port of Stonington during President Cleveland's first term as president of the United States. He was also for several years a member of the Stonington board of school visitors, resigning the office on account of increasing business engagements.

In April 1884, he removed his law office to the city of New London, and from that time began a legal career that brought him prominence that was state-wide. In 1893 he was appointed by Judge Crump as prosecuting attorney for the common pleas court for a term of four years, continuing to fill the office under succeeding appointments. He assisted the late Solomon Lucas as state attorney and upon that prominent attorney's death was given the appointment as state attorney which he has held ever since.

Major Hull was interested in military affairs and at the time of the Spanish-American war organized and recruited the first company in the county of which he was captain. Following the Spanish-American war he was appointed the first battalion of cavalry in the state and was made major thereof.

Major Hull was a member of the First Baptist church of New London and was well known as an active advocate of prohibition. He was a prominent member of the Masonic fraternity, belonging to the Commandery, Knights Templar.

After the death of his first wife, he married again, his second wife being Ellen Brewster of Ledyard. Besides his widow he is survived by a son, Hadlai Hull, by his first wife, and a daughter, Eleanor, by his second wife. He also leaves a brother, William of Old Mystic

PRIZES PRESENTED TO NORWICH BOY SCOUTS

At a meeting of the Norwich Boy Scout Court of Honor in the city court room at the court house Friday evening Troop No. 12, Park Congregational church, Jonathan L. Johnson, leader, was awarded the Ferguson challenge cup. The troop received the cup for making the best showing in the annual inspection held recently in which the scouts of the troop received a marking of 99.62 per cent. In the recruiting contest the prize, a clock donated by Guild, the jeweler, was awarded to Troop No. 1, Willimantic. The troop members secured a total of 11 new scouts in three months. Second place went to Troop No. 5, Norwich, which secured 3 new scouts during the three month period.

There was a good sized attendance at the meeting which was called to order at 7.30 o'clock. The scout salute to the court opened the meeting and the scout oath was repeated. Rev. Charles H. Ricketts, pastor of the Greeneville Congregational church gave a very interesting talk on Kingly Boys. Arthur L. Peale then presented the Ferguson cup to Troop No. 12. Second place went to Troop No. 1, which had a marking of 99.14 per cent. for the annual inspection.

The presentation of prizes and the awards by Scout Executive F. A. Benton then took place, as follows:

Pet Show Prizes

Best furred pet, cat, Joseph Bruso, scout diary and utility bag; smallest pet, pollywogs, Dunstan Perkins, of Troop No. 12, blanket pins, scout diary; best feathered pet, R. I. cock, Harold Frink, Troop No. 6, book ends; best reptile, turtle, Lee Talbot, hiking bag; most unusual pet, wild duck, Alfred Hanson, Troop No. 1, canteen; troop with most entries, Troop No. 12, baseball; scout winning most prizes, A. LaPierre, scout diary, utility bag; guinea pigs, Joseph Burns, Troop No. 5, scout diary; Richard Buckley, scout diary; coon cats, Hoyt Taylor, Troop No. 12, scout dairy; Boston bull, James Fitzgerald, Troop No. 5, utility bag.

Scout recruiting contest. For the largest number of new scouts, Feb. 1st to June 27th, clock, won by Troop No. 1, Willimantic, 11 new scouts; Troop No. 5, Norwich, 3 new scouts.

Following the presentation of prizes occurred the examination of merit badge candidates and the presentation of the badges by Henry A. Tirrell, as follows:

Merit badges: Troop No. 1, Albert G. Rodgers, textile, masonry, first aid and public health.

Troop No. 6, Harold Frink, swimming, public health, interpreting and firemanship.

Troop No. 12, J. L. Johnson, marksmanship; Thomas Baldwin, Jr., marksmanship; Allen Latham, Jr., signaling and electricity.

The meeting came to a close about 9 o'clock.

Chautauqua Opens.

Chautauqua week opened Friday in the tent on the Academy campus with programmes in the afternoon and the evening. The Blue and White Marimba band gave a splendid concert at both hours and in the evening there was an additional feature in the excellent impersonations by Noah Beiharz. Dr. Harry Hibschman, the superintendent, and Miss Mary Wilson, junior superintendent, made the announcements for the Saturday meetings.

Trip to Italy.

Joseph W. Carlevale will sail today (Saturday) from New York to spend about two months in Italy where he will visit his parents whom he has not seen for 16 years. While he is gone the Americanization Institute which he conducts will have a vacation.

When people begin to whistle a popular air all the sentiment is blown out of it.

FORMER NORWICH NURSE TRIES SUICIDE IN N. Y.

(Special to the Bulletin)

Jewett City, June 27—A Jewett City correspondent writes: An associated press dispatch in The Bulletin Friday morning awakened local interest to such an extent that investigation now leaves no doubt as to the facts.

The story in The Bulletin told that Mrs. Dorace Miller, 32, a trained nurse in New York, had died at the Fordham Hospital in that city as the result of injuries received in an attempt to commit suicide. The dispatch said that she threw herself in front of a subway express. In the confusion while being taken to the hospital, she told her story of how she had been separated from her husband while living in Norfolk, which should have read Norwich.

Dora Desjardines, a Willimantic girl married John E. Murtha of Jewett City. The husband, now living in Hallville with his two children, is a native of Jewett City, his father also named John, is the present day watchman for the Ninigret company here. When the young couple were married they lived here for some years, later removing to Hallville, where two children were born. Mr. Murtha being employed in the Hallville power house.

Mrs. Murtha, at one time a trained nurse in the Norwich Sanatorium, finally something over a year ago left her home in Hallville and went to New York where changing the name of Dora Murtha to Dorace Miller she followed her profession in Manhattan. Her skill became so outstanding that when John Wanamaker's daughter was sick, she was chosen to take charge of the case.

John Murtha, after reading the story in Friday's Bulletin, and knowing that his wife had changed her name to Miller, telephoned Friday noon to the Fordham hospital in New York, and learned that it was indeed his wife, and that she, instead of dying as the result of her injuries, was still alive. Mr. Murtha went to New York Friday night. Joseph A. Desjardines of the Dolco garage, in Norwich is the injured woman's brother, there are also two sisters living in Willimantic and six cousins, residents of Jewett City.

RAIN A HALF HOUR EARLY AND COST ELKS $3,000

(Special to The Bulletin.)

New London, June 27.—New London lodge of Elks came within an hour tonight of adding another $3,000 to their receipts for the carnival they are holding this week. The lodge carries rain insurance, calling for the payment of $3,000 a night when a tenth of an inch of rain falls between the hours of 6 and 10 p. m., standard time. They won $3,000 Wednesday night because of rain. This evening the rainfall at 5.30, standard time, was more than a tenth of an inch, but that does not benefit the Elks. The rain came a half hour too early and thus robbed the lodge of $3,000.

FOUR MOOSE INITIATED, TEN APPLICATIONS RECEIVED

At a regular meeting of Norwich Lodge, No. 650, L. O. O. M., Friday night four new members were received and ten applications favorably acted upon. Routine business was transacted. There was a good sized attendance at the meeting which was held in the Moose Home. Announcement was made that the 26th annual supreme convention of the Loyal Order of Moose will convene in New York City from July 27 to 31st. Details of the convention will be announced through the press within a few days.

General Enoch H. Crowder, the American Ambassador, in Havana, suffered a painful cut over his right eye today from the hook of his eyeglasses when he fell while getting out of an elevator in a downtown office building where his offices are situated.

VAIL MEDALS PRESENTED TO TELEPHONE EMPLOYES

At a meeting of the employes of the New London district of the Southern New England Telephone company, on Friday evening in the Community House, Church street, two employes, one a telephone operator, and the other a "combination man" were presented Vail medals for distinguished service. The medals were presented to Miss Rose A. LaRoche, night operator at the Danielson exchange and O. J. Warner, combination man, of the Putnam exchange. The medals were presented by President James T. Moran of the Southern New England Telephone Co.

There was a very large attendance at the meeting, employes being present from Norwich, New London, Putnam, Danielson, Willimantic, Moosup, Mystic, Jewett City, Saybrook and Colchester. Joseph N. Weymouth, manager of the Norwich exchange, was master of ceremonies. The first part of the meeting was taken up with a demonstration of telephone service as rendered by the "hello girls." A modern switchboard with telephones was used in the demonstration. Employes of the company demonstrated how local, intercity and toll line calls are handled by the operators. There was also a demonstration, more or less humorous, of how often confusion results when subscribers rely on their memory for numbers when making calls, instead of looking in the telephone directory. Another demonstration showed how calls are often lost when the party called fails to answer promptly and allows the telephone to ring repeatedly. By the time the party called answers the 'phone the party calling has become tired of waiting and hangs up. This laxness on the part of the party called results in considerable lost time and in extra work for the operator. Still another demonstration showed how yanking the cord on the telephone often breaks the wire and the 'phone then goes dead, necessitating a visit by the repair man.

President James T. Moran of the telephone company was then presented by Mr. Weymouth. After speaking briefly on the telephone service in general and of the part each official and employe of the company plays in telephone service, Mr. Moran said it gave him great pleasure to present to two of the employes Vail medals. He spoke briefly of the origin of the Vail medal stating that the medal fund was created in memory of Theodore Vail, "whose heart was in the telephone business and who was its greatest dreamer."

Mr. Moran then presented a Vail certificate and a Vail bronze medal to Miss Rose A. LaRoche, night operator at the Danielson exchange in recognition of "courageous, prompt and intelligent action" in an emergency. On the night of March 12, 1923, Miss LaRoche was informed that the main "frame" was on fire. In spite of physical handicap, Miss LaRoche hastened down the terminal room in an effort to extinguish the fire, summoned the fire department and then, unmindful of the fire hazard below her, hastened back to her switchboard and remained on duty. A Vail pin, a replica of the medal, was also presented Miss LaRoche.

Mr. Moran then presented a Vail certificate, Vail medal and pin to O. J. Warner, a combination man connected with the Putnam exchange, the award being made for prompt and intelligent action in administering first aid on March 1, 1923. Mr. Warner was himself painfully injured in an automobile accident. Hastily summoning help and kit he rendered the injured man's assistance. He administered first aid to the injured man and finding that he had a compound fracture of the leg, assisted in stopping the flow of blood before the arrival of the doctor.

The presentation of the medals brought the meeting to a close and the remainder of the evening was devoted to a social hour and dancing. Refreshments were served.

OLD BARN BURNED ON FOREST STREET

Fire of unknown origin totally destroyed an old wooden barn at the [illegible] Forest street, shortly [illegible] Saturday) [illegible] Officer John Dombroski [illegible] fire from Thames square and [illegible] 14, at the square. From [illegible] the fire looked to Officer Dombroski as if it was on North [illegible] and in front of the apparently [illegible] fire was very [illegible] Thames square [illegible] The flames [illegible] the air could be plainly seen from West Main street and Thames square and had every appearance of being a house on North Thames street.

[illegible] which responded to the [illegible] was stationed on Fairmount street to prevent the houses on that street from catching fire from the flying sparks. Just after the box was pulled in a central fire station received another call that there was a fire at No. 53 Fairmount street. Thinking that there were two fires Engine Co., No. 3 responded but could not locate any fire in that vicinity. It developed afterwards that a grape arbor on the rear of one of the houses on Fairmount street had caught fire, probably from the flying sparks, and this was no doubt responsible for the telephone call.

The blaze could be seen from the Shannon building corner, Shetucket street, and from many sections of the city and it was thought at first that several buildings were on fire. The police patrol with a detail of police officers went to the scene in case their services might be needed.

The barn, formerly owned by T. H. Eldredge of Fairmount street, and said to have been sold recently by Mr. Eldredge, contained, as far as could be learned, only old lumber. It was formerly used for the storage of fertilizer.

Speaking of the fire Chief Howard L. Stanton said that the logical box to pull was box 115 Forest street and West Main street. All the companies would have then gone up West Main street to that box and there would have been no confusion. As it was they headed for box 14, at Thames square and two of the companies turned into North Thames street, before they learned that the fire was on Forest street.

Officer Dombroski who first noticed the fire from Thames square pulled in box 14, being under the impression that the blaze was on North Thames street.

The fewer acquaintances a man has the less he is bored.

OIL BURNER MEN ATTENTION!

WE HAVE SOMETHING YOU NEED IN YOUR FIELD

WHAT IS IT?

A NEW UP-TO-THE-MINUTE 1924 GRAVITY OIL BURNER

For Domestic and Industrial use, burning fuel oil of 28-31 degrees Specific Gravity and doing it minus the griefs heretofore experienced AND at a LOW COST never before attained by ANY type of burner.

ACTUALLY FOOL-PROOF

NO STOPPAGE—LESS CARBON LESS SOOT—LESS UPKEEP AND LESS SERVICE.

Will be sold ONLY through authorized Distributors.

We are Exclusive Distributors for New England.

Territory now being placed in competent and efficient hands. We want capable men, only those morally and financially able to help themselves — men experienced in the Oil Burner Field who know its griefs.

Free training to our representatives See or write us at once for your territory.

CONFERENCE OVER OFFER TO BUY CITY PLANT

By invitation of the special committee of the common council, a meeting was held Friday evening in the council chamber with representatives of the gas and electric commission, the Eastern Connecticut Power Co., and a committee of citizens for a conference over the proposition of the Eastern Connecticut Power Co. to purchase the city plant or sell electric power to the city at a figure which, it has been stated, is lower than it costs the city plant to make electricity.

Those present were the common council committee consisting of Mayor M. R. Waters, Alderman Edward Crooks and Henry Gebrath, Councilmen W. H. Aldrich and A. W. Burbridge General Manager H. H. Larrabee and Auditor Edwin V. Hollister of the Eastern Connecticut Power Co., General Manager C. W. Tuttle of the gas and electric department and Frank P. Welch and Jeremiah Allen Redmond of the board of gas and electric commissioners; Corporation Counsel William H. Shields, Jr., and the following of the citizens' committee: T. F. Shea, Samuel Goldberg, Frank H. Pullen, Joseph C. Worth, H. M. Leroy, Miss Nancy Lucas, Mrs. William S. Murray and Mrs. James J. Casey.

The meeting lasted until 10.30 daylight time, and after the adjournment Mayor Waters said that much useful information had been gained but there had been no indication of what action might be taken on the offer of the Eastern Connecticut Power Co.

Adjournment was taken to July 8 for another meeting of the common council committee and the citizens' committee.

The purpose of the meeting, the mayor said, was to have the Eastern Connecticut Power Co. representatives demonstrate how it would be to the advantage of the city to accept the power company's offer.

Mayor Waters presented a new tabulation of the financial showing of the city gas and electric plant showing net profits. These were $4,855.75 for the 18th year, $51,095.31 the 17th year, $132,040.57 for the 16th year, $152,028.26 for the 15th year, $151,268.38 for the 20th year.

U. S. IN CHARGE OF BRITISH INTERESTS IN MEXICO

Washington, June 27.—The American government has consented to take charge for the time being of British interests in Mexico, as the result of a request transmitted through the British embassy here. Ambassador Warren at Mexico has been instructed to this effect and directed to advise the Mexican government of the British government's request.

Over a week ago the United States [illegible] in Mexico City [illegible] quest when Herbert C. C. Cummins, the British agent, left after the Mexican government had endeavored to enforce an order of expulsion against him.

100 GALLONS OF ALCOHOL SEIZED IN NEW HAVEN

New Haven, June 27.—[illegible] gallons of alcohol and an up-to-date distilling plant was seized by federal prohibition enforcement officers in a raid on a three-car garage at 84 [illegible] more street today. Samuel Nacca was arrested charged with violating the liquor law and his bond was placed at $1,000.

Porpoises Great Eaters

Porpoises live on fish, and recent examinations of the stomachs of the porpoises show that it takes many fish to keep them from having that hollow feeling. A clew to the number of fish on the dietary list of an active porpoise may be had from the number of otoliths or earbones of fish found in the stomach of the sea mammal. One porpoise has yielded enough of these to account for the consumption of 7,536 fish, and since these otoliths are thought to be dissolved in the stomach in a period of no great length, the fish-eating proclivities of the porpoise may be estimated.

FUNERAL NOTICES

HULL—In New London, June 27, 1924, Hadlai Austin Hull, state attorney for New London county, in his 69th year.

Funeral services at his residence, 72 Vauxhall street, New London, Monday, June 30, at [illegible] p. m. Relatives and friends invited to attend.

CARD OF THANKS

We wish to thank relatives, friends and neighbors for the kindness shown us in our recent bereavement in the death of our daughter and sister, Miss Violet Mayor, and we are also deeply grateful to those who sent flowers for the funeral, especially the Sunday school class of the Taftville Congregational church. We are also greatly indebted to Mr. Victor Davis and others who did everything possible to save our daughter and sister.

(Signed)

MR. AND MRS. ROBERT MAYOR AND FAMILY.

OBITUARY.

Ralph Raymond Judson

After a short illness with diphtheria, Ralph Raymond Judson, 10 years and 7 days of age, died Friday night at the home of his grandparents, Mr. and Mrs. Anton Stelzner, No. 28 Wauwecus Road. He was the son of the late Frank and Caroline Stelzner Judson and was born June 20, 1914. He attended the Bean Hill school.

Surviving are one sister, his grandparents and several uncles and aunts.

FUNERALS

Mrs. Robert Palmer.

With a large attendance of relatives and friends the funeral of Mrs. Robert Palmer was held Friday afternoon at 3.30 o'clock from the Eliza Huntington Memorial Home, No. 99 Washington street. The service was conducted by Rev. A. N. Foster, pastor of the Church of the Good Shepherd, Universalist, assisted by Rev. Joseph N. Cobb, of Windham, formerly pastor of this church. There were a number of beautiful floral remembrances.

The bearers were Louis Hull, Louis M. Crandall, Harry Bjurstrom and Arthur G. Crowell. Burial took place in Yantic cemetery. Undertaker C. A. Gager had charge of the funeral arrangements.

Michael J. Matthews

The funeral of Michael J. Matthews, who was drowned at Monegan pars, Tuesday, was held Friday morning at 8.30 o'clock from the home of his parents, Mr. and Mrs. Edward Matthews, No. 89 School street. At 9 o'clock there was a requiem mass at St. Patrick's church with Rev. Myles P. Galvin, celebrant. Prof. Frank L. Farrell presided at the organ.

The bearers were John Furlong, Austin Furlong, Rollin Harris, Charles Sullivan, Joseph Kearney and Michael Shea and burial took place in St. Joseph's cemetery where Rev. M. H. May, rector of St. Patrick's church, read the committel service.

There was a very large attendance including relatives from Hartford. The floral tributes were many and beautiful. They included a standing cross of roses and carnations, marked "Brother," and a pillow of roses from young men in the neighborhood, marked "Chum."

Hourigan Bros., had charge of the funeral arrangements.

INCIDENTS IN SOCIETY

Mrs. William K. Tingley and family leave today (Saturday) for Crescent Beach to spend the summer months.

Mr. and Mrs. Carl W. Brown and daughter, Virginia, are at their cottage at Gales Ferry for the summer.

Archdeacon and Mrs. J. Eldred Brown and family have leased a cottage at Pleasant View, R. I., for the season.

Mr. and Mrs. H. F. Parker and daughters and Miss Matilda Randall are at their Pleasant View cottage for the season.

Mrs. Carl L. Eaton has returned to her home in Massachusetts after visiting with her parents, Mr. and Mrs. Frederic W. Cary of Lafayette street.

Mr. and Mrs. W. Russell Baird and Mrs. Charles H. Preston will be the guests over the week end of Mr. and Mrs. Eben Learned, at the cottage at Chatham, Mass.

According to a Czecho-Slovakian superstitution, if when a traveler sets out on a journey, you stock him with round cookies, he will surely return.

Revolt Feared In Salvador

Evidence that former President Emiliano Chamorro, of Nicaragua (above), is planning a revolution is more than proven by the amount of munitions said to be secretly stored at Chontales. He has been summoned before President Martinez to answer questions on his conduct in reference to this.

STATE ATTORNEY HULL DIES SUDDENLY IN NEW LONDON

HADLAI A. HULL

State Attorney Hadlai Austin Hull, who had been incapacitated from active business since Dec. 1, died suddenly about 10:15 o'clock Friday night at his home, 72 Vauxhall street, New London. He was preparing to retire for the night when he had a sudden attack of weakness and the end came quickly. He was in his 69th year.

Since his admission to the New London county bar in 1880, he had been a practicing attorney, for a few years in Stonington, but for the larger part of the time in New London where he was the senior member of the law firm of Hull, McGuire and Hull. As state attorney for the county since the death of Soloman Lucas about twenty years ago, Mr. Hull had become the most widley known member of the New London county bar, of distinguished ability in the trial of both civil and criminal cases. It is doubtful if another lawyer in the county has been as constantly active before the courts up to the time his health necessitated withdrawal from active business in December. For much of the time he had been confined to his room, but his recovery had been hopefully looked forward to and of late he had been able to take short automobile rides.

Major Hull was born in the town of Stonington at what was formerly called Mystic, or the "Head of the River," now known as Old Mystic. His parents were Joseph Hull, a native of Rhode Island, and his wife Mary Ellen Fish. The latter was a cousin of Commodore Oliver Hazard Perry. In early youth, with his parents, he removed to Lebanon, residing later in the towns of Franklin, Griswold and Windham, going to the latter town to Willimantic. His earlier life was passed much as is that of the average country boy, having only the advantages of the country school.

He fitted for college in the Natchaug high school, at Willimantic. In 1874 he entered Amherst college, but remained only one year. Previous to fitting himself for college, and when only 17 years of age, he became a school teacher, having taught first in the town of Windham and later in the Borough of Willimantic, at Noank and Upper Mystic.

In the spring of 1876 he commenced the study of law in the office of Hon. John L. Hunter in Willimantic, and continued to read law and teach school until the summer of 1879. He then took a special examination and upon that was admitted to the Yale Law school, from which he graduated with honors in the class of 1880.

While in Amherst college he was prominent in all athletic sports, being the first man chosen for the college crew which represented that college in the intercollegiate regatta at Saratoga in 1875.

He was admitted to the New London county bar in 1880 and in August of that year removed to Stonington with his wife who was Mary Jane Jencks of Voluntown.

In all public affairs Major Hull was at all times prominent, having held many offices of trust. In the fall of 1883, he was elected to represent the town of Stonington in the general assembly, serving in the succeeding session, beginning in January, 1884; was collector of the port of Stonington during President Cleveland's first term as president of the United States. He was also for several years a member of the Stonington board of school visitors, resigning the office on account of increasing business engagements.

In April 1884, he removed his law office to the city of New London, and from that time began a legal career that brought him prominence that was state-wide. In 1893 he was appointed by Judge Crump as prosecuting attorney for the common pleas court for a term of four years, continuing to hold the office under succeeding appointments. He assisted the late Solomon Lucas as state attorney and upon that prominent attorney's death was given the appointment as state attorney which he has held ever since.

Major Hull was interested in military affairs and at the time of the Spanish-American war organized and recruited the first company in this county of which he was captain. Following the Spanish-American war he organized the first battalion of coast artillery in the state and was major of the battalion.

Major Hull was a member of the First Baptist church of New London and was well known as an ardent advocate of prohibition. He was also a prominent member of the Masonic fraternity, belonging to Palestine Commandery, Knights Templar.

After the death of his first wife, he married again and to them were born two sons, Hadlai Hull, Jr., and Lockwood Hull. Besides his widow he is survived by a son, C. Hadlai Hull, by his first wife, and a daughter, Eleanor, by his second wife. He also leaves a brother, William O. Old Mystic.

PRIZES PRESENTED TO NORWICH BOY SCOUTS

At a meeting of the Norwich Boy Scout Court of Honor in the city court room at the court house Friday evening Troop No. 12, Park Congregational church, Jonathan L. Johnson, leader, was awarded the Ferguson challenge cup. The troop received the cup for making the best showing in the annual inspection held recently in which the scouts of the troop received a marking of 99.6 per cent. In the recruiting contest the prize, a clock donated by Guild, the jeweler, was awarded to Troop No. 1, Willimantic. The troop members secured a total of 11 new scouts in three months. Second place went to Troop No. 3, Norwich, which secured 8 new scouts during the three month period.

There was a good sized attendance at the meeting which was called to order at 7.30 o'clock. The scout salute to the court opened the meeting and the scout oath was repeated. Rev. Charles H. Ricketts, pastor of the Greeneville Congregational church gave a very interesting talk on Kingly Boys. Arthur L. Peale then presented the Ferguson cup to Troop No. 12. Second place went to Troop No. 1, which had a marking of 99.4 per cent. for the annual inspection.

The presentation of prizes and the awards by Scout Executive F. A. Benton then took place, as follows;

Pet Show Prizes

Best furred pet, cat, Joseph Bruso, scout diary and utility bag; smallest pet, pollywogs, Dunstan Perkins, of Troop No. 12, blanket pins, scout diary; best feathered pet, R. I. cock, Harold Frink, Troop No. 6, book ends; best reptile, turtle, Lee Talbot, hiking bag; most unusual pet, wild duck, Alfred Hanson, Troop No. 1, canteen; troop with most entries, Troop No. 12, baseball; scout winning most prizes, A. LaPierre, scout diary, utility bag; guinea pigs, Joseph Burns, Troop No. 5, scout diary; Richard Buckley, scout diary; coon cats, Hoyt Taylor, Troop No. 12, scout diary; Boston bull, James Fitzgerald, Troop No. 5, utility bag.

Scout recruiting contest. For the largest number of new scouts, Feb. 1st to June 27th, clock, won by Troop No. 1, Willimantic, 11 new scouts; Troop No. 5, Norwich, 8 new scouts.

Following the presentation of prizes occurred the examination of merit badge candidates and the presentation of the badges by Henry A. Tirrell, as follow:

Merit badges: Troop No. 1, Albert G. Rodgers, textile, masonry, first aid and public health.

Troop No. 6, Harold Frink, swimming, public health, interpreting and firemanship.

Troop No. 12, J. L. Johnson, marksmanship; Thomas Baldwin, Jr., marksmanship; Allen Latham, Jr., signalling and electricity.

The meeting came to a close about 9 o'clock.

Chautauqua Opens.

Chautauqua week opened Friday in the tent on the Academy lot with programmes in the afternoon and the evening. The Blue and White Marimba band gave a splendid concert at both houses and in the evening there was an additional feature in the excellent impersonations by Noah Beiharz. Dr. Harry Hibschman, the superintendent, and Miss Mary Wilson, junior superintendent, made the announcements for the Saturday meetings.

Trip to Italy.

Joseph W. Carlevale will sail today (Saturday) from New York to spend about two months in Italy where he will visit his parents whom he has not seen for 16 years. While he is gone the American Association Institute which he conducts will have a vacation.

When people begin to whistle a popular air all the sentiment is blown out of it.

FORMER NORWICH NURSE TRIES SUICIDE IN N. Y.

(Special to the Bulletin)

Jewett City, June 27.—A Jewett City correspondent writes: An associated press dispatch in The Bulletin Friday morning awakened local interest to such an extent that investigation now leaves no doubt as to the facts.

The story in The Bulletin told that Mrs. Dorace Miller, 32, a trained nurse in New York, had died at the Fordham hospital in that city, as the result of injuries received in an attempt to commit suicide. The account said that she threw herself in front of a subway express. In the ambulance, while being taken to the hospital she told her story of how she had been separated from her husband while living in Norfolk, which should have read Norwich.

Dora Desjardines, a Willimantic girl married John E. Murtha of Jewett City. The husband, now living in Hallville with his two children, is a native of Jewett City, his father also named John, is the present day watchman for the Ninigret company here. After the young couple were married they lived here for some years, later removing to Hallville, where two children were born. Mr. Murtha being employed in the Hallville power house.

Mrs. Murtha, at one time a trained nurse in the Norwich Sanatorium, finally something over a year ago left her home in Hallville and went to New York where changing the name of Dora Murtha to Dorace Miller she followed her profession in Manhattan. Her skill became so manifestly evident that when John Wanamaker's daughter was sick, she was chosen to take charge of the case.

John Murtha, after reading the story in Friday's Bulletin, and knowing that his wife had changed her name to Miller telephoned Friday noon to the Fordham hospital in New York, and learned that it was indeed his wife and that she, instead of dying as the result of her injuries, was still alive. Mr. Murtha went to New York Friday night; Joseph A. Desjardines of the Dolco garage, in Norwich is the injured woman's brother, there are also two sisters living in Willimantic, and six cousins, residents of Jewett City.

RAIN A HALF HOUR EARLY AND COST ELKS $3,000

(Special to The Bulletin.)

New London, June 27.—New London lodge of Elks came within an hour tonight of adding another $3,000 to their receipts for the carnival they are holding this week. The lodge carries rain insurance, calling for the payment of $3,000 a night when a tenth of an inch of rain falls between the hours of 6 and 10 p. m., standard time. They won $3,000 Wednesday night because of rain. This evening the rainfall at 5.30, standard time, was more than a tenth of an inch, but that does not benefit the Elks. The rain came a half hour too early and [illegible] the lodge of $3,000.

FOUR MOOSE INITIATED, TEN APPLICATIONS RECEIVED

At a regular meeting of Norwich Lodge, No. 650, L. O. O. M., Friday night four new members were received and ten applications favorably acted upon. Routine business was transacted. There was a good sized attendance at the meeting which was held in the Moose Home. Announcement was made that the 36th annual supreme convention of the Loyal Order of Moose will convene in New York City from July 27 to 31st. Details of the convention will be announced through the press within a few days.

General Enoch H. Crowder, the American Ambassador, in Havana, suffered a painful cut over his right eye today from the hook of his eyeglasses when he fell while getting out of an elevator in a downtown office building where his offices are situated.

VAIL MEDALS PRESENTED TO TELEPHONE EMPLOYES

At a meeting of the employes of the New London district of the Southern New England Telephone company, on Friday evening in the Community House, Church street, two employes, one a telephone operator, and the other a "combination man" were presented Vail medals for distinguished service. The medals were presented to Miss Rose A. LaRoche, night operator at the Danielson exchange and O. J. Warner, combination man, of the Putnam exchange. The medals were presented by President James T. Moran of the Southern New England Telephone Co.

There was a very large attendance at the meeting, employes being present from Norwich, New London, Putnam, Danielson, Willimantic, Moosup, Mystic, Jewett City, Saybrook and Colchester. Joseph N. Weymouth, manager of the Norwich exchange, was master of ceremonies. The first part of the meeting was taken up with a demonstration of telephone service as rendered by the "hello girls." A modern switchboard with telephones was used in the demonstration. Employes of the company demonstrated new local, intercity and toll line calls are handled by the operators. There was also a demonstration, more or less humorous, of how often confusion results when subscribers rely on their memory for numbers when making calls, instead of looking in the telephone directory. Another demonstration showed how calls are often lost when the party called fails to answer promptly and allows the telephone to ring repeatedly. By the time the party called answers the 'phone the party calling has become tired of waiting and hangs up. This laxness on the part of the party called results in considerable lost time and in extra work for the operator. Still another demonstration shows how yanking the cord on the telephone often breaks the wire and the 'phone then goes dead, necessitating a visit by the repair man.

President James T. Moran of the telephone company was then presented by Mr. Weymouth. After speaking briefly on the telephone service in general and of the part each official and employe of the company plays in telephone service, Mr. Moran said it gave him great pleasure to present to two of the employes Vail medals. He spoke briefly of the origin of the Vail fund stating that the medal fund was created in memory of Theodore Vail, "whose heart was in the telephone business and who was its greatest dreamer."

Mr. Moran then presented a Vail certificate and a Vail bronze medal to Miss Rose A. LaRoche, night operator at the Danielson exchange in recognition of "courageous, prompt and intelligent action" in an emergency. On the night of March 12, 1923, Miss LaRoche was informed that the main "frame" was on fire. In spite of physical handicap, Miss LaRoche hastened down the terminal room in an effort to extinguish the fire, summoned the fire department and then, unmindful of the fire hazard below her, hastened back to her switchboard and remained there [illegible]. A Vail pin, supplementary to the medal, was also presented Miss LaRoche.

Mr. Moran then presented a Vail certificate, Vail medal and pin to O. J. Warner, a combination man connected with the Putnam exchange, the award being made for prompt and intelligent action in administering first aid. May 7, 1923, Mr. Warner was advised that a man had been seriously injured in an automobile accident. Hastily securing his first aid kit he hurried to the injured man's assistance. He administered first aid to the injured man and finding that he had a compound fracture of the leg, succeeded in stopping the flow of blood before the arrival of the doctor, thus probably saving the man's life.

The presentation of the medals brought the meeting to a close and the remainder of the evening was devoted to a social hour and dancing, Guile's orchestra furnishing the music. Refreshments were served.

OLD BARN BURNED ON FOREST STREET

Fire of unknown origin totally destroyed an old wooden barn at the further end of Forest street, shortly after 12.30 o'clock this (Saturday) morning. Officer John Dombroski saw the fire from Thames square and pulled in box 14, at the square. From Thames square the fire looked to Officer Dombroski as if it was on North Thames street and part of the apparatus went down that street.

The location of the fire was very misleading and from Thames square it was difficult to locate it. The flames, shooting high in the air, could be plainly seen from West Main street and Thames square and had every appearance of being a house on North Thames street.

The fire, which evidently started in the interior of the old single story frame barn, had a tremendous start and the barn was quickly converted into a huge bonfire. The flames spread with great rapidity and within the space of a few minutes the roof was practically burned off only the thin wooden walls remaining.

Several [illegible] streams of water were [illegible] the flames [illegible] the firemen arrived and in order to prevent the roofs of [illegible] wooden dwelling houses from catching fire the buildings were kept wet down by the firemen.

Engine 6, which responded to the alarm, was stationed on Fairmount street to prevent the houses on that street from catching fire from the flying sparks. Just after the box was pulled the central fire station received a telephone call that there was a fire on No. 33 Fairmount street. The reporting that there were two fires Engine Co., No. 3 responded but could not locate any fire in that vicinity. It developed [illegible] that a grass fire in the rear of one of the houses on Fairmount street had caught fire, probably from the flying sparks, and this was no doubt responsible for the telephone call.

The blaze could be seen from the Shannon building corner, Shetucket street, and from many sections of the city and it was thought at first that several buildings were on fire. The police patrol with a detail of police officers went to the scene in case their services might be needed.

The barn formerly owned by T. H. Eldredge of Fairmount street and used to have been sold recently by Mr. Eldredge, was used, as far as could be learned only as a lumber. It was formerly used for the storage of fertilizer.

Speaking of the fire Chief Howard L. Stanton said that the logical box to pull was box 115 Forest street and West Main street. All the companies would have then gone up West Main street to that box and there would have been no confusion. As it was they headed for box 14, at Thames square and two of the companies turned into North Thames street, before they learned that the fire was on Forest street.

Officer Dombroski who first noticed the fire from Thames square pulled in box 14, being under the impression that the blaze was on North Thames street.

The fewer acquaintances a man has the less he is bored.

OIL BURNER MEN ATTENTION!

WE HAVE SOMETHING YOU NEED IN YOUR FIELD

WHAT IS IT?

A NEW UP-TO-THE-MINUTE 1924 GRAVITY OIL BURNER

For Domestic and Industrial use, burning fuel oil of 28-31 degrees Specific Gravity and doing it minus the griefs heretofore experienced AND at a LOW COST never before attained by ANY type of burner.

ACTUALLY FOOL-PROOF

NO STOPPAGE—LESS CARBON
LESS SOOT—LESS UPKEEP AND LESS SERVICE.

Will be sold ONLY through authorized Distributors.

We are Exclusive Distributors for New England.

Territory now being placed in competent and efficient hands. We want capable men, only those morally and financially able to help themselves — men experienced in the Oil Burner Field who know its griefs.

CONFERENCE OVER OFFER TO BUY CITY PLANT

By invitation of the special committee of the common council, a meeting was held Friday evening in the council chamber with representatives of the gas and electric commission, the Eastern Connecticut Power Co., and a committee of citizens for a conference over the proposition of the Eastern Connecticut Power co. to purchase the city plant or sell electric power to the city at a figure which, it has been stated, is lower than it costs the plant to make electricity.

Those present were the committee of the council committee consisting of Mayor M. R. Waters, Alderman [illegible] Crooks and Henry Cundell, Councilmen W. H. Aldrich and [illegible] Aldridge General Manager [illegible] Gobee and Auditor [illegible] of the Eastern Connecticut Power Co., General Manager C. W. Tazgart of the gas and electric department and Frank P. Welch and [illegible] Redmond of the board of gas and electric commissioners; Corporation Counsel William H. Shields, Jr., and the following of the citizens' committee: T. F. Shea, Samuel Goldberg, [illegible] Pullen, Joseph C. Worin, [illegible] Miss Nancy Lucas, Mrs. [illegible] Murray and Mrs. James J. [illegible].

The meeting lasted till 10.40 daylight time, and after the adjournment Mayor Waters said that much useful information had been gained but there had been no indication of what action might be taken on the offer of the Eastern Connecticut Power Co.

Adjournment was taken [illegible] for another meeting of the council committee and the committee.

The purpose of [illegible] the mayor said, was to [illegible] Connecticut Power Co. representative demonstrate how it would be to the advantage of the city to accept the power company's offer.

Mayor Waters presented a new tabulation of the financial showing of the [illegible] showing net profits [illegible] $5,555.50 for the [illegible] the 11th year, $152,023.26 for the 19th year, $152,023.26 for the 20th year, $151,268.38 for the 20th year.

U. S. IN CHARGE OF BRITISH INTERESTS IN MEXICO

Washington, June 27.—The American government has assumed temporary charge for the time being of British interests in Mexico, as the result of a request transmitted through the British embassy here. Ambassador Warren at Mexico has been instructed to this effect and directed to advise the Mexican government of the British government's request.

Over a week ago the United States took charge of the archives of the British embassy in Mexico City by request when Herbert C. [illegible] the British agent, left after the Mexican government had endeavored to force an order of expulsion upon him.

100 GALLONS OF ALCOHOL SEIZED IN NEW HAVEN

New Haven, June 27.—One hundred gallons of alcohol and an unlicensed distilling plant was seized by federal prohibition enforcement officers in a raid on a three-car garage at 84 Fillmore street today. Samuel Nacci was arrested charged with violating the liquor law and his bond was placed at $1,000.

Porpoises Great Eaters

Porpoises live on fish, and recent examinations of the stomachs of the porpoises show that it takes many fish to keep them from having that hollow feeling. A clew to the number of fish on the dietary list of an active porpoise may be had from the number of otoliths or earbones of fish found in the stomach of the sea mammal. One porpoise has yielded enough of these to account for the consumption of 7,596 fish, and since these otoliths are thought to be dissolved in the stomach in a period of no great length, the fish-eating proclivities of the porpoise may be estimated.

FUNERAL NOTICES

HULL—In New London, June 27, [illegible] Hadlai Austin Hull, state [illegible] for New London county, in his [illegible] year.

Funeral services at his residence, 72 Vauxhall street, New London, Monday, June 30, at 2.30 p. m. (D. S. T.) Relatives and friends invited to attend.

CARD OF THANKS

We wish to thank relatives, friends and neighbors for the kindnesses shown us in our recent bereavement, the death of our daughter and sister Miss Violet Mayor, and we are also deeply grateful to those who sent flowers to the funeral, especially the Sunday school class of the Taftville Congregational church. We are also greatly indebted to Mr. Victor Davis and others who did everything possible to save our daughter and sister.

(Signed)
MR. AND MRS. ROBERT MAYOR AND FAMILY.

INTENTIONAL SECOND EXPOSURE

HAGEN IS VICTORIOUS IN QUEST OF THE BRITISH OPEN GOLF CROWN

Hoylake, England, June 27. — (By The A. P.)—For the second time in three years Walter Hagen of New York is British open gold champion.

Hagen recaptured the title this afternoon when he turned in a score of 301 for the seventy-two hole struggle that began Thursday morning with eighty-six golfers competing.

Thus for the third time in four years the trophy, emblematic of British championship, will be carried to the United States. Jock Hutchinson of Chicago having won it at St. Andrews in 1921 and Hagen at Sandwich in 1922.

Just as he lost the championship by one stroke at Troon last year to Arthur Havers, Hagen regained it today by that same slender margin, E. R. Whitcombe, a Sterling British player, finished second to him with a card of 302.

Tonight the British are rather disappointed over the failure of a native to keep the championship at home, but they are singing Hagen's praises like really good sportsmen. His record in their last three open championships seems to have convinced all of them that he is the greatest medal-play golfer in the world when the stakes are way up high and the goal is a great one.

Third place in the tournament, which has been won by an American for the past two years, again is partly in the hands of an American—MacDonald Smith, the Californian shares the position with Frank Ball, an Englishman, both of them having turned in cards of 304.

J. H. Taylor the veteran golfer, who threatened for two rounds and part of the third round to walk off with the championship, broke under the strain at mid-day. Limping with lumbago, Taylor nevertheless finished with his head up, and still going strong, taking fifth place with 307. Next came George Duncan with 308, one stroke in front of Jim Barnes, who has been trying to win the British open ever since the war ended and who says he intends to keep on trying year after year.

Gil Nichols, the former New England professional who is well advanced in years, put up a good fight and scored 310. The youthful Gene Sarazen, who failed to qualify for last year's open, failed miserably after he did qualify for this contest. He ended up low down in the list with a score of 323, but still high in spirits.

The story of this thrilling day over the long hard course of the Royal Liverpool Golf club is the story of a battle between Hagen and Whitcombe. As soon as Taylor slumped, everyone of the thousands who had forgotten about their offices and homes in order to watch the championships come to a close, knew that the fight lay between Briton Whitcombe and the American, Hagen, with another Briton, Ball, and another American, Smith, having outside chances in the event of either of the two principal contestants failing to keep up their brand of superior golf.

Whitcombe began the final round by raking forty-three to reach the turn. By this time Hagen was about ready to drive off the first tee and knew that his rival had met with hard luck. He also knew that Smith had to go out in thirty-seven, and that he was going well.

Hagen began his last round just as badly as Whitcombe, had done, but while Hagen was playing out of one difficulty into another and rolling up fives and sixes, Whitcombe was entirely recovering from his lapses and coming home in the manner of the greatest of golfers, reeling off threes and fours and with only one five, and that at par five hole of 525 yards. His last nine holes were accomplished in thirty-five, for a total of seventy-eight for the round and a grand total of 302.

This was two strokes better than Smith and Ball, who had ended their labors a few minutes before. By now Hagen had reached the ninth green in forty-one, two strokes better than Whitcombe had done on the outward journey. At the tenth tee Hagen was told of Whitcombe's score for the round, which meant that to win he would have to average even fours from then to the end.

Meanwhile Smith had slipped at the eleventh hour, just as he did last year at Troon. He finished with a string of fives, where fours would have meant victory for him.

Hagen, standing on the tenth tee and knowing the work the others had cut out for him and what he must do in order to win, steeled himself to his task, as he so well can do with his fighting heart and fine temperament. Somehow the business of getting even fours seemed to grow harder with every shot over this cruel course—a course that punishes bad shots severely every time.

Against the wind at the tenth tee Hagen pushed his iron shot and took three to get on the green. The cup was twenty feet away from the ball. His first tap, however, sent it over the twenty intervening feet of undulating earth, and into the cup it dropped for the first of his necessary fours.

At the eleventh—a full iron drive against the wind—Hagen's tee shot plunged into the bunker guarding the green, so that he got another four, instead of a par three. After a good drive at the twelfth Hagen pushed his iron again and failed to drop his second shot on the green. But his first putt fell into the cup, and this was another four.

At the thirteenth—a short hole—one of the most terrible bunkers on the course trapped Hagen's iron drive. He got out magnificently, however, and with one putt scored a three. Two fine shots with wood clubs and two good putts gave the American a four at the long fourteenth.

At the fifteenth he played one of the finest wood shots made during the championship—a low flying brassie, straight for the pin from 225 yards down the fairway, with a strong wind to bore through. Two putts here, and he had another four.

Then came the long sixteenth with a following wind, but wind or no wind a par five hole, dog-legged and well over 500 yards. Hagen's second shot here stopped just off the edge of the green, but on the hard close-clipped grass and hole-high his approach putt was short and he took two more putts getting a five.

Thus he was even fours, with two more fours needed to win or a four and a five to tie, which would make a playoff at thirty-six holes necessary tomorrow. Going into the wind toward the seventeenth, with its long narrow green, well bunkered, Hagen got his drive into the rough. From the tall grass he dropped a long iron shot close to the pin. He messed a six foot putt, however, and had to take another four.

Now came the home hole, with the scurring excited crowd racing down both sides of the fairway and surrounding the green even before the players left the tee. Hagen got a good drive, but his iron shot was carried by the wind across the green, where the ball nestled in the fringe of clover. A five seemed likely. His running shot out of this position stopped at the top of an undulated in the green, leaving Hagen a downhill putt of two yards which had to be sunk in order to win the championship. He sank it and his wife dashed out from the crowd and embraced the new champion. The other spectators cheered like good British sports, and then Hagen was lifted to the shoulders of some of them and carried to the clubhouse.

POOR PITCHING COSTS ST. LOUIS GAME 9 TO 3

Chicago, June 28.—St. Louis Pitchers were wild and ineffective today and the White Sox won 9 to 3. Jacobson made a home run in the second inning. The Sox batted around in the fourth scoring four runs on four hits, three bases on balls, a sacrifice, an error, two stolen bases, and a wild pitch. McNanus, St. Louis second sacker, and E. Collins of the White Sox both had busy days, McManus accepting 10, and Collins eight chances without erring. The score.

How It's Done In the Majors

By Frank Frisch

What is one of the most important things a baseball player should notice, as soon as he appears on the field for the game?

A player as soon as he comes on the field should take note of the wind. The wind causes more havoc to be raised in close games than most any other factor. It will do odd tricks with balls, and if a player does not know in which direction it is blowing, and whether it is a high wind or not, he will miss a lot of hits that otherwise he would handle. Naturally mistakes of this kind result in the other club scoring runs which it should not obtain. The wind shortens flys or makes them longer or blows them well to one side or the other of the direction in which they start. Only the players who note the direction and velocity of the wind will handle such balls cleanly.

YANKS BREAK LOSING STREAK BY WINNING TWO

Boston, June 27.—New York abruptly ended its losing streak by taking both games from Boston today, 12 to 7, and 10 to 5. The Boston pitching was ineffective in the first game and its fielding was poor behind Ross in the second game. Meusel got a home run in the first inning of the first game with Dugan and Ruth who had been hit by Murray, on base. The score:

FIRPO SIGNS PELIMINARY PAPERS TO MEET WILLS

Buenos Aires, June 27 (By the A. P.)—Luis Firpo, the Argentine heavyweight fighter, and Juan Homs, representative of Tex Rickard, this afternoon signed the preliminary contract for a fight between Firpo and Harry Wills, the American negro. The bout will take place in New York or New Jersey some time around Sept. 30.

Under the contract Firpo is guaranteed $1,00,000, with an option of 37 1-2 per cent of the gate receipts. There has already been deposited in Buenos Aires for Firpo $25,000, and the remainder is to be deposited here ten days before the fight is to take place.

Firpo will sail for the United States not later than July 5.

MANY INTERESTING BALL GAMES SCHEDULED FOR THE WEEK END

Today and tomorrow will be staged some interesting baseball games in the eastern part of the state. This afternoon will be staged the final and deciding game of the Taftville-Riverview series at the State Hospital diamond. There will also be games in New London in the industrial league. On Sunday two games stand out as prominent attractions, the Duwell-Moosup and the J. B. Martin-Herrups game at Taftville. There will also be several games of minor importance at Baltic, Jewett City, Yantic and at the Fairgrounds.

Duwells Vs. Moosup

One of the best baseball attractions for Sunday will be staged on the Carpet Grounds at Moosup when the Duwell club of Norwich meets Moosup in the first of a best two out of three series. The Duwells have three straight victories to their credit. The Duwells will have Daniels and Belair as a battery, with Tim Coughlin on first, Joe Barry on second, McInness, short; Whitney, third. In the outfield will be Smith, Sheflott and Ringland.

Moosup will pitch Lefty Harrold against the Norwich team with the entire Riverview infield playing inback of him. In the outfield will be Mills, Noel and Frechette This team looms up as big as any team playing the eastern part of the state this season.

Games At Ashland

This Sunday the Ashland Stars who are cutting quite a figure in baseball circles hereabouts have booked on play on Ashland park what looks on paper to be one of the strongest clubs which they have stacked up against. The visitors are known as the C. B.C'c of Westerly and they have piled up an enviable record in their neighborhood this season. Ashland has put in some hard practice this week in addition to playing two Twilight games and are confident of taking into camp the Rhode Island boys as they have every other home club this season. Lloyd Jarvis is slated to twirl for the home club and this boy is sure coming fast. Guillett at short has strengthened the infield considerably and looks like a comer. Gilbert has showed to advantage in the J. B. Martin game will again be seen in the outfield. With the team traveling at its present rate and the fans gradually warming up to the fact that Ashland has a bunch of comers the biggest crowd of the season is expected to turn out.

Riverview-Taftville Game

The third and deciding game of the series between the Riverview club of the Norwich State Hospital and the Taftville A. A. will be played today on the Hospital grounds. The Riverview club will start its regular lineup, namely: Couillard, 1b; Noel cf; Mills 3b; Moore, ss; Burns, 2b; Harrold, lf; Sheflott, rf; Belair, c; and Roy, p;

Taftville will present the same lineup that took the measure of the Riverview club last week.

The game will be called at 2:45 p. m daylight saving time and Paul Zemke will hold the indicator.

CARDS DROP DOUBLE HEADER TO THE REDS

St. Louis, June 27.—Failure of Sherdel and Dyer, both starting pitchers in the St. Louis National's doubleheader with Cincinnati caused the Cardinals to lose both games in the opening games of the series here today. The scores were 5-3, 5-2.

Roush drove out a home run in the first inning of the first game his first of four hits, with two on.

Dickerman relieved Sherdel in the third, pitching good ball after Sherdel allowed seven hits.

Scoring four runs in the first inning of the second game off Dyer, the Reds lead was not threatened. The socer.

MASKED MARVELS TO PLAY EAST ENDS MONDAY NIGHT

The East End-Masked Marvel case became even more complicated last night when for some reason or other it is said the management of the East Ends postponed the game to Monday night, claiming wet grounds, whether that is really the reason or whether it was simply a case of refrigerated feet is the question that over five hundred fans who wended their way over to the Duwell field last night are asking.

When asked if this was so, Manager Holland of the East Ends claimed that he did not know who or why the game was postponed and that his team was all ready to take the field at 6.30 and it is a sure thing that the Marvels didn't have a hand in the postponement because at 7 o'clock two automobiles loaded with heavily masked men tore down East Main street and hurled their third mysterious message at a crowd of men gathered on one of the street corners which read as follows:

"East Ends, where were you tonight, why postpone the game to Monday night? We didn't want to be trifled with and should you pull any more such stunts as you did tonight, beware. We are trying to treat you fairly and want to be treated the same, so be on hand Monday night if you have to play in slickers and hip boots.

"By Order of MASKED MARVELS."

This mysterious postponment of last night's game added to the many unknown messages delivered in the past week have got the fans in all sections of the city all riled up and if something doesn't happen pretty soon in the way of fathoming out these queer proceedings it is hard telling what will happen. Nearly every one on the East Side are playing the Hawkshaw role and many of the different groups of people and individuals of the city are under suspicion of being the instigators of these mysterious doings but as yet not one has been found guilty. It is rumored now that during the past few days over one hundred masks have been sold by one of the local notion dealers in the city and anyone seen walking along the streets of the East Side with a small bundle under their arm are sure to attract the attention of the many amateur sleuths that come into existence during the last week. Whatever the rumors are or may the proceedings be it will surely be a great relief to many if the good old sun will shine Monday night so that the Marvels and the East Ends can have it out and so that the pulse of the many fans of the city can beat normally again.

CUMMINGS AND TAFT TO BATTLE FOR COLLEGE TITLE

Greenwich, June 27.—Dexter Cummings, Chicago golfer of Yale, will meet W. H. Taft of Dartmouth, tomorrow in the final round of the intercollegiate golf championship. Cummings and Taft won their way into the finals today by winning both their third round and semi-final matches.

Cummings, 1923 champion, was forced to play at the top of his game today to wend his way through to the final round. In the third round he required 19 holes to eliminate H. G. Davis, 2nd, of the University of Pittsburgh, one up. Davis matched stroke for stroke with the defending champion but a bad lie on his approach shot to the 19th green put him a stroke behind, when Cummings holed out in par.

Taft won his third round match from Louis Sovik of Syracuse 4 and 3 with apparent ease. J. J. Mapes of Harvard defeated B. Mudge of Princeton, 4 and 3, and Lauren Upson, sensational University of California golfer, defeated Stephen Berrien of Wesleyan, 3 and 2, in other third round matches.

In the semi-final round Cummings topped J. J. Mapes of Harvard 4 and 3. After being all even at the turn Cummings played beautiful golf finishing the last seven holes in two under par.

Upson's putter went back on him in his semi-final match with Taft and the Dartmouth golfer came under the wire with strokes to spare.

AMERICAN WIN TEN EVENTS AT WIMBLEDON

Wimbledon, June 27.—(By the Associated Press)—The American tennis players did everything that could be expected of them in the fifth day's play of the Wimbledon championships. They figured in eleven events of the classic tournament and were victorious in ten of them.

The one defeat came quickly and decisively to Mrs. George Wightman, in her singles match with the world's woman champon but its was too much to expect of the Boston woman or anybody else to successfully contest the magic of Mlle. Lenglen's flashing racquet today, the captain of the American women's team did her best and lost, 6-0, 6-0, however, goes the distinction of having forced the marvellous French player to display her talents to a greater extent than any of her other opponents in this year's tournament.

Into the men's event Vincent Richards moved into the last eight by defeating the British flying officer, D. M. Greig, 6-2, 4-6, 6-2, 7-5. Greig took the second set from the young American and thoroughout the match put up a tenacious fight for points.

Two of the American women went into the last eight in the singles. Miss Elizabeth Ryan, the former Californian, defeated Mrs. Phyllis Covell, 6-4, 7-5, coming from behind in beautiful style to take the second set.

AMERICAN FENCING TEAM WINS MATCHES AT PARIS

Paris, June 27 (By the A. P.)—The United States, Argentina, Hungary and France remain in the running after the first day's Olympic fencing foils competition, while Spain and Holland have been eliminated. Both the United States and Argentina defeating Holland while Spain lost to both France and Hungary. The United States won by 10 matches to 5.

The experts here believe that all the victorious teams today have a chance to win the tournament, but a majority are of the opinion that France's victory over Spain—12 matches to 4—was more impressive than any of the fencing exhibited by the teams of Argentina, United States and Hungary. Spain lost her match to Hungary, 9-7, and Holland lost to Argentina 13 to 4.

MISS COLLETT TO MEET MISS CUMMINGS IN FINALS

Buffalo, N. Y., June 27.—Glenna Collett, of Providence, R. I., former national women's golf champion, is matched tomorrow with Edith Cummings, of Chicago, present national titleholder, in the final round of the women's invitation tournament of the Buffalo Country club. Both the champion and the former champion came through today's semi-final round with comparative ease.

Miss Collett defeated Mrs. D. C. Hurd, of Philadelphia, 4 up and 3 to play. Louise Fordyce of Youngstown, Ohio, fell before Miss Cummings by the same score.

WATERBURY RALLIES IN 9TH BUT COULDN'T WIN

Pittsfield, Mass., June 27.—Pittsfield defeated Waterbury 8 to 7 at Wahocnah park this afternoon. The visitors staged a rally in the ninth inning but Johnson relieved Van Alstyne and after being touched up for one hit prevented further scoring. The hitting of Milan and Lavallee featured. Pittsfield playing the first time under the management of Andy Coakley, former major league pitcher, staged an uphill fight and batted Rush out of the box. They also hit Crowder timely when he took up relief work in the sixth. The score:

Waterbury .. ..0 2 0 2 0 0 0 0 3—7
Pittsfield .. ....0 1 0 1 1 3 2 0 x—8

Two base hits, Lavalice 2, Milan 2. Three base hit, Long.

QUARTER MILLION MADE BY NEW YORK STATE COMMISSION

New York, June 27.—The

ROY WHITING, 22, OF OAKDALE DIES OF INJURIES RECEIVED IN MOTOR CRASH

(Special to The Bulletin)

New London, June 27.—Roy Whiting, 22, son of Mr. and Mrs. Verrance Whiting, Oakdale, R. F. D. No. 1, whose motorcycle crashed against the automobile owned by the Orient Insurance company, Hartford, and operated by Charles P. Walters, also of Hartford, at the corner of Jefferson avenue and Broad street last night, succumbed to his most extensive injury, a compound fracture of the skull at Lawrence-Memorial Associated hospital at 8:30 o'clock this morning. The victim is survived by his parents and by several brothers and sisters.

Medical Examiner Charles Kaufman, tonight rendered his report of the accident to Coroner Jeremiah J. Desmond of Norwich. The former official finds no evidence of criminality on the part of Walters and completely exonerates him.

Whiting recently purchased the cycle and from reliable sources it is understood that Whiting had operated the cycle but a day or two. His companion last night, Frederick Yeiper, Clark Lane, Waterford, who was riding on the cycle in advance fo Whiting, stated to Medical Examiner Kaufman, that when he passed Jefferson avenue, he signalled Whiting to slow down, but that Whiting apparently became confused and lost complete control of the cycle. This was apparent from the acts of Whiting immediately preceding the crash. As Leiper's car passed the intersecting streets, where Walters' car was awaiting the passage of the cycle, Whiting was fully 250 feet away and the distance between teh automobile and the cycle of Whiting was sufficiently great as to permit the automobile crossing Broad street and enter Jefferson avenue safely under ordinary conditions. As Walters started his car in motion, not over five miles an hour, the car was operated towards Jefferson avenue, and the machine had practically entered Jefferson avenue when the cycle traveling at a speed estimated at between 40 and 50 miles an hour crashed against Walters car. Whiting never knew what struck him for as assistance rushed to him he was already bleeding profusely from the nostrils and ears indicating severe hemorrhages. That Whiting lost control of the cycle is further evidenced from the fact that just before the crash came the cycle was guided slightly as if Whiting would pass to the rear of the auto and had he done so the crash would have been avoided, but in an instant the cycle diverted its course, as if Whiting intended to try to run the cycle around the front of the car. In the next second or two Whiting had sustained the terrible injury, which later caused his untimely death today at the hospital.

William White, Broad street, and Miss Anna Malone, 64 Jefferson avenue, were married yesterday morning at St. Mary's Star of the Sea church, the nuptial mass being celebrated by Rev. Timothy M. Crowley. William J. Malone, brother of the bride, was best man and Miss Ethel Hunter attended the bride.

Announcement is made of the marriage in Brooklyn the 20th inst., of Isaac Baruch, of Washington, D. C., son of Mrs. Adolph Baruch, 39 Linden street, New London, to Miss Anna Kaufman, Edgemere, L. I.

Postmaster Thomas Linehan and Assistant Postmaster Daniel Spellman, Westerly, were recent visitor in New London where they renewed old acquaintances.

Mrs. J. M. Mallon, Brooks street and Mrs. Annie O'Neill Ocean avenue, are spending a few days with friends at Sag Harbor, L. I.

An automobile truck owned by the New London Ship and Engine company struck a cyclist, Morton Royce, Bakerville, Groton, late yesterday afternoon on Thames street, Groton. The cyclist was knocked to the pavement and sustained injuries, which required medical being dressed at the office of a physician.

A barn located on the farm a short distance from Center Groton, owned by Relton A. Copp, Thames street, Groton, was slightly damaged late yesterday afternoon by a blaze of unknown origin and but for timely discovery of the fire and the alertness of the discoverer a serious fire might have resulted. The fire was discovered by Carl Anderson, who observed smoke issuing from the roof of the barn as he passed in his automobile. Anderson drove to Center Groton where he obtained help and returning to the scene of the fire the flames were extinguished by the application of a liberal quantity of water.

Three youths gained entrance to the Robert Bartlett school, corner of Broad street and Connecticut avenue, late this afternoon, the youths finding a window unfastened and through that entered the building. After getting inside the structure the boys made so much noise that neighbors were disturbed and the police were communicated with. Officers went to the school and brought the youths to the police station.

A. M. Abbott, 51 Willow street, Plainfield, N. J., was ordered to appear in the police court tomorrow charged with violation of traffic laws in parking his car longer than 30 minutes on Bank street. Abbott was ordered into court by Traffic Officer John Courtney.

Miss Frances Fitch, Bay City, Mich., is being entertained by Miss Edna Porter, Willetts avenue. Miss Fitch is a recent graduate of Pratt Institute, New York.

Prosecuting Attorney Daniel M. Conlin has issued orders for all desk sergeants at the police station to exact a cash bond from all persons summoned into the police court for violations of the automobile law, where the alleged violators are non-residents of the state.

John MacDonald, a child residing at 508 Ocean avenue, was painfully injured late this afternoon when he was struck by an automobile truck near his home. The victim sustained a badly lacerated leg and is now a patient at Lawrence-Memorial Associated hospital. The youngster had been playing on the sidewalk near his home and where an automobile was parked alongside the curb. Suddenly the child ran from in front of the motionless car to the highway and directly in front of the truck, which was operated by Gaspero Guerri, 35 Evergreen avenue. Before Guerri could materially reduce the speed of the heavy truck, the child was struck and knocked to the macadam highway. Guerri went to the youngster's assistance and determining that the child was badly hurt, placed him on the truck and conveyed the victim to the hospital.

A commercial automobile, owned by Edward S. Harkness, New York, a summer resident at Waterford, and driven by James Freely, was struck by an automobile owned by Mrs. Joseph Butcha, 50 Allen place, Hartford, this evening at the corner of Glenwood and Ocean avenues. None of the occupants of either machine were injured, but both cars were damaged. The accident occurred when Freeley operated the commercial car from Glenwood avenue into Ocean avenue. The machine of Mrs. Butchs was about to pass and the operator in endeavoring to drive around the rear of the Harkness machine struck the latter vehicle with considerable force. The Harkness machine, a Cadillac, sustained the greater damage.

I. C. Griffith, of the American Tech-nical Society, Drexel avenue and 58th street, Chicago, today communicated with the New London police requesting the present address of L. I. Bunce who resided here at one time. The police tonight ascertained from Elias Bishop, 464 Broad street, that Bunce resides at 440 Washington street, Middletown, this state, where he is employed by the Connecticut Power company.

Miss Mildred Irons, Waterville, N. Y., Miss Alice Ames, Summit avenue, Mrs. Anna Keister, Huntington street, Mrs. Benjamin Benson and infant son, Howard street, George Ward, Westerly and Linwood Williams, Bank street, patients at Lawrence-Memorial Associated hospital, were discharged today.

The funeral of Miss Annie M. Heb-bard was held this afternoon at 2:30 o'clock at her former residence, 14 Thames street. The services were conducted by Rev. W. J. Greene, pastor of the All Souls church. Interment was in the family plot in Gardner cemetery.

Mr. and Mrs. Frank Flora, Pierce street, are spending a few days with relatives in Greenfield, Mass.

Robert Moore and family, New Or-leans, have opened their summer residence on Parkway, after having returned from a several weeks sojourn on the European continent.

Miss Julia Sullivan, daughter of Po-lice Sergeant and Mrs. James C. Sullivan, Steward street, is in Detroit, Mich., where she will remain two or three months as the guest of her sister, Mrs. A. M. Brennell, a former teacher at the Harbor school.

James E. Cummings, 24 Walker St., reported to the police last night that his automobile was damaged earlier in the evening when a machine, bearing registration N-4230, which had been parked alongside the curb near the entrance to Plant field on Thames St., was operated from the curb without any signal being given and collided with Cummings' machine, which was driven against and damaged a car operated by W. C. Hartman, 51 Blackhall street. Cummings' car sustained a damaged fender and steering gear.

William Conklin, 113 Truman St., and employed by a Montauk avenue grocer, was arrested late yesterday by State Policeman Edgar S. Abild, of the Groton barracks, charged with violation of the state highway laws in operating an automobile upon unconstructed work being performed by agents of the state. Conklin was arraigned before Justice of the Peace Thomas F. Morton in Waterford and in entering a plea of guilty, admitted that he "took a chance." Conklin was fined $5 and costs. Conklin operated his commercial auto upon unhardened cement work in course of construction for the new state road in an endeavor to facilitate the delivery of groceries.

The condition of Dr. George May-nard Minor, health officer and medical examiner of the town of Waterford for many years, and who has been confined at the Reckwith place Waterford, a number of weeks by illness of a serious nature, is now such that practically all hope of the physician's recovery has been despaired of. Dr. Minor is in a comatose condition and it would not be surprising if he failed to regain consciousness.

John J. Griffin, Henry street, South Manchester, was ordered to appear in a justice court in East Lyme last night as a result of a slight accident that occurred near the state sanatorium, at Crescent Beach several days ago and of which evasion of responsibility and reckless driving was alleged. Last night a justice of the peace could not be reached who considered the merits of the case warranted a prosecution, so Griffin did not get a court trial. Griffin's machine grazed a peanut vendor's truck and it was claimed that Griffin was guilty of reckless driving and evaded responsibility for the accident. Aristi Koupipie, 65 Shaw street complained to the state police and Officer Honeyman ordered Griffin into court. Koupipie has had previous complaints with the authorities because autoists collided with his peanut truck.

MYSTIC

Miss Louise Paige arrived home on Friday, from Milford, the schools in that place having closed on that day for the summer vacation.

The Golden Rule degree was conferred on a class of candidates at the meeting of Mystic Encampment, Friday evening.

Mrs. William Briggs and Mrs. Eben Moon have returned to their home at Oak Lawn, R. I. after a visit with relatives in the village.

Mrs. Julius Dudley, who has been seriously ill, is reported as slowly improving.

Frank Mabbett has been the guest of his daughter, Mrs. Edward Runnells, in Springfield, Mass., this week.

Mrs. Elizabeth Stevens of Illinois, a summer visitor here, has been in New York this week, to attend the democratic national convention.

Architects are at work preparing plans for the renovating of the interior of the Union Baptist church and as soon as satisfactory plans can be secured and are accepted it is expected that the work will commence promptly. Several plans have been proposed for the front entrance to the church but nothing definite has as yet been decided upon.

John W. MacDonald and daughter, Miss Alice MacDonald, went to their summer home in East Killingly Friday. They will be joined in a few days by the other members of the family.

Mrs. Helen Poppe and daughter Patricia, of Highland, N. Y., are guests of Mrs. H. Emeline Allyn.

H. M. Wood, an illustrator, of New York city, is a visitor in Mystic for the purpose of making sketches and is staying with the Misses Denison, on Broadway.

Mr. and Mrs. John F. Noyes and family are at their summer home at Groton Long Point.

Miss Annie Stanton, of Norwich, is the guest of Mrs. Christopher Morgan.

Mrs. Catherine Whiting, who has been caring for Mrs. Frank Mabbett, was called to New London late Thursday evening by the motorcycle accident in which her son, Roy Whiting, of Oakdale R. F. D. No. 1, 22 years old, suffered a fractured skull and from which he died yesterday.

Local radio enthusiasts, and those of democratic faith in particular, are getting considerable pleasure these days from "listening in" on the doings of the democratic national convention in New York and report that the news is coming in fine.

Mrs. Florence Larson of Westerly is the guest of her parents, Mr. and Mrs. Frank Mabbett.

Mrs. Virgil Story and family of New York city have purchased the Prentice cottage on Library street and have been occupying the property for several weeks.

Charles H. Reynolds, who has been bookkeeper in the Mystic River National Bank, entered the employ of the Industrial Trust Co. at Westerly this week.

Mrs. Allen H. Babcock came here this week from Nantucket, Mass., where she had been visiting relatives for a visit with her sister, Mrs. E. C. Paige, of Church street, and left on Friday for her home in Berkeley, California.

Mrs. Albert Haley, who has spent a number of months in Middletown, Conn., has arrived at her home on Reynolds Hill.

Mrs. Otis Champlin of Westerly, a former local resident, was here on Thursday, renewing old acquaintances.

Miss Mary Packer has returned to her home in Windham, after a visit with friends here.

Mrs. C. Alcott Thompson entertained her auction club, Tuesday afternoon, at her home on Ashbey street.

The sewing society of Charity chapter, No. 61, O. E. S., met Friday afternoon, with Miss Ethel Latham, in Noank.

The World Wide Guild of the Union Baptist church held a successful cake sale at Mull's store Friday afternoon.

W. N. Legg has returned to his home in Brooklyn, N. Y., after a visit with Mr. and Mrs. E. W. Gaskell.

Mrs. Emma Lamphere has returned from a stay of several days in Westerly.

The rain which has visited this section this week has done a lot of good to gardens and all growing things but everyone is complaining at the large crop of weeds which has also sprung up almost over night.

"No More Than 5 in 1 Bed"

The museum of the city of New York has an old-time tavern sign on which is printed the following: "Four pence a night for bed. Six pence with supper. No more than five to sleep in one bed. No boots to be worn in bed. Organ grinders to sleep in the washhouse. No dogs allowed upstairs. No beer allowed in the kitchen. No razor grinders or tinkers taken in."

His Compliment

At a dinner party held in a hall adorned with many paintings a speaker, wishing to pay a compliment to the ladies present, pointed to the paintings on the wall and said: "What need is there for all these painted beauties when we have so many of them at the table?"

The Great JORDAN Line Eight

[Trademark]

An aristocratic and distinctly higher priced companion for the tried and true Jordan Silhouette Six which will be continued without change in quality or price.

DASHING—daring—debonair—The Great Jordan Line Eight eagerly awaits the approval of all red blooded Americans.

Everybody expected that Jordan would be first with a quality Eight in the medium price field.

Now it's happened.

The Great Line Eight—these four words—constitute a trademark for Jordan protection. How fascinating to pronounce—a little strange today, perhaps, but so rhythmically off the tongue—The Great Line Eight—you will not forget them. They will certainly be on every tongue.

Sincerely measured by practical standards this truly remarkable and rarely interesting new fine car is a better automobile than America has produced.

It's the product of proud, painstaking engineers.

Just a lot of brains put to work with inspiring results.

Just a thousand little things to please the owner, enhance beauty, increase comfort, add a thrill to performance, insure lasting economy and service, and finally, guarantee high resale value.

Speed—Pep—Get-Up-and-Go

Aside from the favored few Bill Jones, the motorcycle cop in Pumpkin Center, can tell you most about The Great Line Eight.

Of course he had to be let in on the test over the measured mile—5280 feet in fifty seconds.

He discovered that the difference between going fifty miles an hour and doing seventy is the difference between guiding a farm horse to water and riding Black Gold in the derby.

The smooth, sustained speed of The Great Line Eight is strangely deceiving—forty feels like twenty five—sixty like fifty—seventy like going somewhere—and seventy five has happened.

Of course it's crazy, but those of us who are afraid of forty like to feel we could do seventy-five.

It's the most efficient eight ever built in the world. Crawl along at two miles per hour without shifting. Then soar at seventy without kidding yourself with a phoney speedometer.

How Does It Look?

Pen, brush or pencil cannot portray the charm of a car like this.

Good looks largely depend upon how you feel.

What we are trying to say is what we know some women feel.

One looks so dumpy in an old fashioned bulky car. One feels so ordinary in a cheap car—like pushing on the lines with an old horse and buggy.

Of course it's low—of course it's different—of course it's distinctive—because it's a Jordan.

Why shouldn't it be?

New bodies—new lines—new radiator—new motor—new frame—new axles—new transmission—new wheels—new balloon tires—new starting and lighting—new balloon steering—new comfort—new springs—new cushions—new snubbers—new upholstery—new universals—new brakes—new top—new fenders—new instrument arrangement—new appointments—new colors—new thrills—new sensations—new prices—new everything.

Now Jordan Challenges the World

Adventure awaits you in The Great Jordan Line Eight.

Speedometers may lie in the ordinary car. You will not have time to look in the Jordan. Back seat drivers can't guess your speed.

Women weary of the drab and commonplace will be quick to sense the subtle charm—the sturdy masculine line—the sheer personality—the interesting something which makes this car a dominant, definite, daringly interesting thing.

Straight off the bat let's run through this car from motometer to tail light.

Lamps—larger, full nickeled, different.

Splasher—new, attractive, covers the front frame ends.

Spring shackles—velvet, no rattle, always lubricated.

Fenders—new, deep section beaded crown. Balloon tires—hickory wheels.

Springs—with every leaf Chrome Vanadium.

Brakes—hydraulic, the only satisfactory kind.

Frame—seven inches deep, designed to carry closed bodies, minus side sway, minus weaving, minus body sagging, minus rattles.

New Gabriel snubbers all around.

Radiator—new design, higher, nickel plated over brass. Balloon steering. Short turning radius, responsive to the finger touch.

New Horn—new gas tank—new fan—husky crankshaft. Pressure lubrication.

Three breathers—do you know what those are?

Four point motor support.

Bosch ignition, starting and lighting—interesting, isn't it?

Air cleaner. What's that? Rotary type.

Firing order differs from every other eight. That's what gives The Great Line Eight perfect carburetion.

Transmission a revelation. Imagine a smooth sounding second gear.

Oil tight universal joints—the best axle ever built in the world.

Running boards wide, aluminum moulded, low hung.

Instrument board—well, you won't get tired looking at it.

Waltham speedometer—Waltham clock—eight days without worry.

Brewster windshield. Automatic cleaner?—yes.

Rear vision mirror.

Hardware of old New England design.

Upholstery—you might as well know—it's specially woven to make a woman like it. We want her to like the first look in the car.

Marshall cushion springs—that's that old thing you call comfort.

Ventilator with three adjustments.

See for Yourself

Oh! You can go on, but type doesn't say it—words can't tell it—go and look at the cars.

They will be on every dealer's floor very soon. There are hundreds of dealers to supply, so they can't be there tomorrow or the next day.

Call up the Jordan dealer. Ask him when he will show The Great Line Eight.

Thousands and thousands of Jordan owners will be favored with deliveries first. They have had confidence in the Jordan for years. They are our friends.

To EVELINE BURR for letter entitled What the Corner Means to Us
To DELIAH DEAL for letter entitled Corner Brings Old Friends.
To RURAL AUNTY for letter entitled Find Good in Others.
To ORVILLA for letter entitled Silk Stocking Helps.
To WHIRLWIND for letter entitled How to Use Tin Cans.

SOCIAL CORNER POETRY BRIGHT AND BEAUTIFUL

All things bright and beautiful
All things great and small
All things wise and wonderful
The Lord God made them all.

Each little flower that opens
Each little bird that sings
He made their glowing colors
He made their tiny wings.

The rich man in his castle
The poor man at his gate
God made them high or lowly
And ordered their estate.

The purple headed mountain
The river running by
The morning and the sunset
That lighteth up the sky.

The tall trees in the greenwood
The meadows where we play
The rushes by the water
We gather every day.

He gave us eyes to see them
And lips that we might tell
How great is God Almighty
Who hath made all things well.
—By Cecil Francis Alexander.
Sent in by Rural Aunty.

THE MENDING BASKET

In and out the needle goes,
Mending all the family clothes—
A button off the man's best shirt,
A gent in Ma's silk undershirt,
The children's stockings out at knee—
Well, life for most of us must be
Just such a mending jamboree.

Relationships are broken, torn,
Mended again and bravely worn.
And love is new but once, I ween,
A bright dress, donned with shining mien.
Which marriage makes us wear about
Though we grow old and very stout
And all the seams must be let out.

The friendship which to youth is dear
Fits poorly life's maturer year.
Paternal pride bears many a patch,
Children are gloves that do not match.
Life's perfect garments are but few
And, when we cannot have the new,
We mend the old and make it do.
—Margaret W. Jackson in Farm Life.
Sent in by Martha.

THE VILLAGES

I cannot hope that Sorrow's feet forever and a day
Will pass my little House of Love where latticed sunbeams stray,
But when she lays her hand at last upon the swinging latch,
And sleeps where happy years have smiled beneath our spring-sweet thatch.
Grant me, ah God, this heartfelt prayer, that somewhere it may be
Where little, small-town sympathy may fold and comfort me.

The little, small-town sympathy that runs across the fields,
In blue-checked gingham aprons, and with flour upon its hands,
That bakes, and brews, and sweeps, and dusts, that wakeful serves and shields,
The little, small-town sympathy that knows and understands.

Thy cities, God, are builded high with carven stone on stone,
But hearts may ache and lives may droop unheeded and alone;
And souls may dwell unknown, unloved, a single wall between—
Not so the quiet, home-sweet lives that fringe the village green.
Let others reap their splendors, Lord, but give instead to me
The homely round of living blent with small-town sympathy.

The little, small-town sympathy that steals on neighbor feet
From tiny lamp-lit houses down a maple-shaded street,
That lends its strength on tear-dimmed ways its own bruised feet have trod,
The little, small-town sympathy—the very soul of God.
—By Martha Haskell Clark.

NO BETTER PLACE THAN CORNER PICNIC

Dear Social Corner Friends: We were very sorry, Rural Aunty, not to be able to attend your picnic on the 18th inst., owing to a severe cold which is worse in summer then in winter. We just stayed at home all day. Thank you for your kind invitation to attend. I am sure you had a good time and a large number present. There is no place better then a Social Corner picnic for a day's outing.

Palmleaf: Your lines on Shut In were fine. In my early days I was on the list and a few jokes by my friends was better then doctor's medicine.

Crimson Rambler: It does not worry me what is said about my needle work and piecing bed quilts. It was just a mistake of the printer. The mistakes of our lives are many.

Potlatch: Have you forgotten you owe me a letter?. We are always glad to hear from the west.

Shut-In: We did enjoy the trip to Maine to visit Balsam Fir. It was a jolly crowd as ever we met. All along the route knew it was a Social Corner party, when they saw the yellow ribbons floating through the air.

Theoda: Your history of the Social Corner was interesting and the treat Corner family of today can see the interest taken by the writers which now are numbered by the hundreds in the department. The Social Corner is on the same line as the automobile and has come to stay. The Social Corner has made many life long friends from ocean to ocean and is still reaching out for more members who are always welcome. With best wishes to one and all from
RURAL DELIVERY

DISAPPOINTED

Dear Corner Sisters: Did not get to the picnic the twentieth as I planned and am afraid Calla Lily will begin to doubt my word. I attended a church social the night before and was late in getting to bed. Friday had an attack of my old enemy, a sick headache.

Iola: Am afraid I cannot guess your name correctly as it is a number of years since I was over the Hampton road. I remember two white houses. One was Deacon Albert Green's Thought sometimes you might be his daughter May. When I was eight years old I lived in the house across from the old Spicer place. Motored over Westminister hill one Sunday as I wanted to go to Hampton. Hubby said, "Never again," the road was so poor.
DELIGHT

TESTED EGGLESS RECIPES

Dear Sisters: If you are looking for eggless recipes this may help you. A bride came to me the other day and was almost in tears because she didn't know what to cook. All her recipes called for at least one egg, and most of them for more and she asked me if I knew of anything good without eggs. So here are a few things that may help somebody else.

Chocolate Pudding: Put 1 quart of milk in double boiler. While heating take 2 tablespoons flour and 2 of cornstarch and 2 or more of cocoa and mix altogether with 3-4 cup of cold milk. Add this to the hot milk and add half to 3-4 cups sugar and a speck of salt. Let cook until begins to thicken. Then strain to make free from lumps. Eat cold with or without whipped cream.

Coffee Jelly: Make your morning coffee extra strong and after breakfast instead of throwing out the remains add to it enough water to make about three cups. Then while coming to a boil soak a package of plain gelatin in one cup cold water. Then add the boiling coffee and about 3-4 cup of sugar and speck of salt. It's good with cream and marshmallow sauce.

Apple Dumplings: We like apple dumpling and they are so easy to make. Take good sized apples, pare and core them. Make a good piecrust not too short, about 1 cup flour—and 1 table spoon lard, then roll out piece large enough to wrap around apple, allowing a little to twist out the end. Do not put in any sugar. Bake until brown. These are fine with cream or a sugar sauce made also without egg. For the sauce use 2 tablespoons flour, mix with a little cold water, and then pour on a cup of boiling water add a cup of sugar and flavoring, a pinch of salt and a small piece of butter.

Caramel Pudding: Here is a pudding more than cheap but good nevertheless. Two cups boiling water in the double boiler; add to this 1 1-2 cups brown sugar. Then mix two tablespoons of cornstarch with cold water and a speck of salt and stir into boiling mixture. Add chopped walnuts and serve with whipped cream.

Eggless Cake: If I am without cake also without desert for dinner I make one half of this cake with sauce for dinner and the other half for supper. One cup sugar, 1 cup sour milk, 1 cup raisins, 1-2 teaspoon cloves and ginger together with 1 teaspoon cinnamon, 2 tablespoons melted chocolate, pinch salt and about 2 tablespoons molasses.

Then add 2 cups of flour sifted with 1 teaspoon soda. Beat thoroughly.

Banberry Tarts: Cook 1 cup berries, 3-4 cup sugar, juice of one lemon and 1-3 cups of sifted crumbs and a tiny bit of water until thick. Then make pastry as for pies and cut in three inch rounds. Fill with this filling and bake.

Marshmallow Dainty: Than for Sunday perhaps we will be a little extravagant and have this for dessert. One pint whipped cream, 1-2 pound marshmallows cut in small pieces, 1 cup walnut meats, put through chopper, 1 cup shredded pineapple. Chill, serve in orange shells.
ETHELYN.

APPROVES THE ROLL CALL

Dear Social Corner Friends: What a fine idea the roll call is and if every one would answer to her name how interesting it would be. I am a week late in answering, present.

Faith: You have me guessing. Wish you would give me some idea who you are. Thank you for your kind words. I wish to thank all my friends for their kindness and am so happy to say that father is much improved and although far from strong yet I can see that he gains from day to day and is able to ride out or sit on the veranda and enjoy the beautiful days we are having now. I feel I am rich with what money cannot buy—true friends. I have always enjoyed my friends, but never did I fully appreciate them as in the past few weeks. It means so much to any one to have the expressions of sympathy and the offers to help in any way possible.

I thought of the sisters many times the day of the picnic at Versailles and was glad you had such a fine day. H. M. L. kindly invited me to go with her but did not feel I could this time, Am looking forward to Malvina's picnic, and hope she will have as nice a day.

Must not make this letter too long or it will find the waste basket.

I hope all the sick ones are able to be out and can attend some of the Social Corner picnics as they will surely cheer them up.
DORINDA.

GEMS OF FRIENDSHIP

Dear Editor and Social Corner Friends: One day, early in the year 1928, a handsome little blue calendar appeared among my mail. It was fastened to the bottom of my scripture calendar which hung beside my writing desk and there it occupied a place of honor, all through the year. Often did I wonder who was so thoughtful of me but never felt quite sure, after all. It is scandalous to think that I was so tardy in saying, "I thank you," but it has been appreciated none the less. How I wish I could keep these little gems of friendship, as they accumulate, where I could spread them out every where and look at them frequently. Even though the dates on them grow old yet their beauty remains the same. One good thing about them is the fact that their beauty will remain on the walls of memory, even if our vision were lost. I have numerous souvenirs of my friends, packed away, and once in a while I am looking for some other article and in that way enjoy them over again.

I was very much pleased to see the name of Centennial Square in the Corner, not long ago. I have several articles from her pen that I preserved when I first began to read the Social Corner page. How much we wonder who these members are and what their real names are. For the lack of time I am unable to attend the meetings and get acquainted. We must attend to the bread and butter business first of all.

Grandma Gray: I enjoy your letters very much. I wonder if you know me as I do you.

Wish I might meet Wurdy Belle again and have a good talk.

That is a fine letter, Evelyn Burr.

I shall have nothing to write about, letter in answer to the roll call so I won't make this any longer for fear I shal have nothing to write about. Best wishes to all the members from the
SILENT STRANGER.

SEE CONNECTICUT FIRST

Dear Editor and Sisters: I have been to court—for the first time, and found it very interesting. Duty, (jury duty) took hubby there, and I thought I'd never have a better chance, so I went also. It is a lovely ride to Rockville, and the road from West Willington to Rockville was new to me so I especially enjoyed that. A violation of the liquor law was the case tried. Court proceedings of course were all new to me, and some things did not seem right to me. For one thing how can a person found guilty of a crime, and serving time in jail for that crime, be brought from jail to court to give testimony for the defendant in another criminal case? It doesn't seem right to me either to swear in a criminal to "tell the truth, and nothing but the truth." That sounds to me like the first lie, and you are practically sure that what follows will be more of the same.

Then the lawyers will command each witness to tell just what he saw, but when he tries to do it will stop him and either won't let him say anything or will proceed to mix him up so thoroughly by questions that he isn't sure of what he has said.

Well—the man of the house has to go to court again tomorrow and I hope I can go also. The laurel at Bolton Notch must be in bloom by now, and I want to see it.

It is quite a ways from court to corns, perhaps not so far after all and maybe I can help the sisters so troubled. Try wearing nothing but soft kid shoes, low heels and with rather wide toes. Be sure they fit well. If the corn is very bad use a good corn plaster to remove it. If it isn't, just washing and scraping will take it off, in time, and the soft shoes will prevent their return. That has been my experience and I have found, too that one days wear of any leather heavier than kid, will bring the corns back.

Friday was a beautiful day for the Versailles picnickers. Would liked to have gone, but we took a friend to Hartford to see his wife who is in a hospital there. Went up through Manchester, and home by way of Wethersfield, Middletown, Easthampton, Marlboro, and Hebron. It is a beautiful country from Hartford to Middletown, and a lovely ride over the hills from there to Hebron. The more I see of Connecticut the conviction grows that there are as lovely views in this state as in any of the New England states. "See Connecticut first" should be the motto on all motor cars in the state. A day's ride can give you all kinds of scenery—mountains and plains, lakes or seacoast, all lovely.

Think I am taking more than my share of space, but want to say that I look each week to see who has answered to the roll call, and as each one writes I put a cross after her name on the roll on a line before the name for one who has passed on. Hope all whose names have been printed will respond, if only with a line.

Rural Aunty: Thanks, but Class day at Windham high was the same date as your picnic, and I had to attend that.
BETSY BOBBET.

FIDDLER PUDDING

Dear Corner Members: I am sending the recipe for fiddler pudding:

Fiddler Pudding: Make a light suet crust of three quarters of a pound of flour which is thoroughly dry. A heaped teaspoon of baking powder, half a pound of finely chopped beef, as much salt as will cover a quarter and an egg beaten slightly, just to a froth, with a wine glass of water. Mix all the dry ingredients together, being sure the baking powder is well distributed in the flour. Then stir in the egg and water till the paste is a firm clear ball, leaving the bowl perfectly clean. Use a spoon and knife for the mixing and on no account use your hands.

Take a 2 quart pudding bowl. Grease it well, roll out the paste to about 1-3 an inch thick, place the bowl upside down on it and cut a circular piece of paste for the top of the pudding. Put this on one side of your board. Roll out the paste again sufficiently large to line the bowl, the edge to hang over a little.

Then fill the lined bowl with two pounds of steak cut into cubes, four lamb kidneys, cut into quarters, four hard boiled eggs cut in quarters, four less than half a dozen fair sized mushrooms and as many raw oysters.

When done the pastry is light and fluffy, a delicate brown and not the least bit heavy or indigestible. If boiled pastry is heavy it is because there is not enough suet or it is insufficiently boiled or it has been kneaded with the hands. Serve it in the bowl covering the latter with a napkin folded around it.
UNCLE SAM'S DAUGHTER.

GREETINGS FROM AIRY

Dear Editor and Sisters: I, for one, say Thank Goodness for warm weather. Probably now the weather man will make up for the cold wet spring we had.

Whirlwind: Please accept my thanks for the card. Am writing to you in a day or two.

I would like to attend some of the picnics and reunions but cannot see my way clear so far, so will probably have to content myself with reading the accounts of them.

Theodo: Am keeping your birthday continually in front of me in bold black letters so I won't forget.

One day recently Mr. Airy and I had a trip to Providence to Market square. While I have been there several times, it never fails to interest me greatly. A still alarm was sent in for a small fire and immediately there were four huge fire trucks on the scene. One scream from the siren on the truck and the street was cleared as if by magic.

Ready: I intend to be in Willimantic for the Fourth. Are you still on Pleasant street? Are there any Social Corner members in Putnam? If there are, I'd be delighted if they would make themselves known.

Best wishes to the Corner.
AIRY.

A DELIGHTFUL SIGHTSEEING TRIP

Dear Sisters: As I have not responded to my name at the roll call I will send a few lines at this time. What lovely days we are having now, and if one rises before the sun comes up he sees some lovely sights and I wonder how many of the sisters wake early enough to hear the birds song of praise between three and four, E. T. I think it really inspires one to a prayer of thanksgiving to Him who watches even the sparrow's fall, and much more cares for us.

For the amusement of the shut-in sisters I want to write of a lone ride it was my privilege to take on one of these perfect June days.

We left home a little after nine, D. S. T. Our first stop was to fill "Lizzie" up so she would endure to the end of the journey. Then on we went over the lovely hills and such beautiful green foliage both grass and trees! Saw fields where the crops were coming up, but rather backward for the time of year and next we stopped and took my brother and wife and went on through Willimantic by the cemetery and soon passed the sign, You are now entering Andover, which is a small village. There is a neat little church, and what I judged was a school house, but I did not see any special industry, but there was a railroad and station. Another sign told us we were leaving Andover. Then we went on our journey passing through the notch at Bolton which has ledges of rock and hills which are hard to climb. We left the railroad station at the right and kept on the state road passing through Manchester, which was very neat and pretty with houses and yards kept up in a way to make them attractive. We could not stop to look arround, but we passed many garages and places where ice cream was for sale but as Hartford was where we wished to spend our time we kept on our journey and our first stop was near the capitol which we saw some time before reaching it. We parked where we could look at that splendid building while we ate our lunch, after which we were allowed to go through the entire building. As I had never seen it before I was interested in all we saw. There were glass cases containing many flags which, looked as if they had passed through the wars, some were dirty and torn, others were not so badly used, but they were all the dead old stars and stripes. There was a statue of Gov. Buckingham, the name so familiar in Norwich, another of Nathan Hale with some of his own words on the pedestal, "I regret I have only one life to give for my country." There was an immense horse with saddle and rider with a sword in his hand. I think this was made of clay the others were bronze. We saw the senate chamber but could not step into the room where our representatives help make our laws. This resembled a school room as there were seats and desks for each one. I wish I could describe the outside of the building with great granite pillows in front and so many different pictures cut in the walls to represent historic scenes. I cannot tell you many of them but one was the Pilgrim fathers and there were the seals of some of our states, Indians, and many other interesting forms. The flowers on the lawn I must mention for they were beautiful. As our time was limited and we wished to see Elizabeth park we had to say "good bye" to this interesting place, and find our way to the park. There is a greenhouse with a bed of flowers which is arranged to spell Elizabeth. The park is lovely. The flowers were lovely, both beds and rhododendruns, and we saw the rose bushes which must be beautiful and wonderful when in bloom. There are many arches covered with the ramblers which were full of buds. Two ponds with the white lilies added to the levliness of the grounds, and one can follow the winding drives for a long time and enjoy the beauty of it all. It was time to start for home all too soon, but we had a nice ride home, and a day to look back upon with pleasure. I hope the editor will excuse my long letter. Best wishes for him and you all.
SISTER BARBARA.

METTING AT CENTRAL INSPIRES ANOTHER

Dear Members of the Corner: I thought I must write a few lines this week to tell something about our meeting at Central Village the 18th. All pronounced it a success in every way. Was sorry some understood that they would have to have an invitation before they could go. Now I want it distinctly understood that at the next meeting all members, no matter to which club they belong are welcome.

We had a goodly number as it was and a dinner fit for a king. It was a basket lunch but when they all got there they decided to have it all put on the table. We thought it would be more sociable. We all had a fine time and wanted another meeting just like it so we decided to have another the second Wednesday in September. Hope to see a good number then. I want to thank all who helped to make the meeting of the 18th a success. We secured three new members, if not more so look out for new names soon. Was disappointed in not seeing Rural Delivery. Was in hopes he would be there so we could straighten out the tangle that we got into, but Historian was there, and made some remarks. We had a very good program and it was well carried out. One member brought a new quilt pattern which she kindly loaned me.

Primrose: I hope to see you again and get better acquainted. Hope you will succeed in getting the privilege of having a picnic at Wildwood park. Will try to be there.

I think the Corner rightly named as certainly they have some very sociable people in it.
RURAL AUNTY.

DEATH OF SISTER WILDWOOD

Dear Corner Friends: Just a few words to let the sisters know that Sister Wildwood passed away on June the 14, after a ingering illness of several weeks.

She passed through much physical pain and for three weeks was too feeble to see any one, only very close relatives. It was her wish, before she was taken to the hospital, should she pass to her spirit home while there, that I write to the Social Corner and give the members her love and thank them for the kind remembrances they had often sent to her.

She was born in Little Compton, R. I., April 25, 1839. After her marriage in 1861 to Albert Pettis of Lebanon, Conn., she went, to Michigan, later going back in 1879 to Windham, Conn. They moved west to Meridith, Kansas in 1890. The family came to the Pacific coast, buying a home near Seattle, Wash. Her only son passed away in 1895 and a daughter in 1906.

She was left a widow in 1909. She leaves one daughter, R. A. Boss, two granddaughters, also two great grandchildren, all of Seattle. One sister survives her. Mrs. Nortup of Waltham, Mass., two brothers, R. F. Little of Everett, Wash and Henry T. Little in Santa Monica, Cal.

She was among the first writers to the Social Corner and enjoyed the letters very much—as long as she could read them. She had a wonderful memory and it gave her great pleasure to relate her many experiences and travels across the states, many of them made by wagon—the trail blazers—from coast to coast, and by rail part of the way. She wished in particular to be remembered to Balsam Fir, Aunty No. 1 and others I cannot call to mind.

The services were conducted by the Rev. Mary A. Tower, a spiritualist, and there were many beautiful floral pieces from old neighbors and we know she is with her loved ones, and beyond the cares of this life.
SISTER POTLATCH, (Seattle.)

SILK STOCKING HELPS

Dear Sisters: If you are of the elect who can wear silk stockings every day, or of the less fortunate ones who wear them on dress occasions only, these tried hints will put dollars in your pocket in the course of a year.

Firstly — Don't economize (?) by buying cheap hose. Rather buy a good grade of a standard make, and take good care of them.

It is cheaper in the end to buy several pairs at once of uniform quality.

Before wearing turn wrong side out and either darn through heel lightly a few threads of darning cotton or reinforce with a piece of an old stocking. If wearing every day, rinse out the worn pairs at night, and wear a fresh pair the following day, thus alternating the wear of the hose.

Watch carefully for any weak spots or near-runs. A weak thread may mean a ruined stocking next day.

With best of care, one of a pair will acquire runs or holes. That is the advantage of having several pairs alike, one can pair off odd good hose.

A piece of worn velvet glued in heel of pump or oxford will prevent the chafe on heel we sometimes get with some shoes.

The bugbear of silk hose (or any other) is when a hole appears above the heel of the shoe, for no amount of fine needlework can illiminate its conspicuousness.

For myself I solved the problem recently in a novel manner.

I had carefully cherished an especially fine grade of silk stockings, purchased before the war, that (to me) is prohibitive in price now.

It was a calamity to find an unsightly hole appear above the heel of the pump.

One day I paused on a shopping trip to admire a display of silk hosiery in a show window and noted the double heel, ran well up the ankle to a point. I went home elated, pulled out the discarded stockings, proceeded to make a pattern of paper, then carefully cut and basted in place a patch from old silk stockings on the right side, being careful point was exactly in center of back seam, catstitched the unturned edges, neatly, and when completed, clipped off any roughness, and gave them a new lease of life.
ORYILLA.

PLEASE

Dear Corner Sisters: Please is the magic note which many people bring their lives into harmonious accord with the rut of the world—and it is as free as the air and as sweet as honey.

The man who never says "please" sounds short. We may not like him. We may not know why, neither may he.

Curt signs of authority like "Keep off the grass", Do "not not stand in the hall," "Do not smoke here," "Wait your turn," incline the public toward an attitude of resentment and are not as effective as notices more courteously couched.

That is why so many policemen are disliked. They give that gruff prempatory order. They say "move on." "Get your car out of the way." "Move back out of here." Every time a policeman does that,—somebody wants to smite him. If he would only insert the word "please" he would get the same results and have friendly feelings directed toward him instead of venomous ones. They have the most orderly beats. They are the best liked men on the force too.

The man who has not been taught to say please has had an education seriously neglected and the man who refuses to say please is slapping opportunity in the face.

They tell of a blind man who was selling papers on the street corner in New York. He had a placard on his hat reading, "I am blind. Make your own change." A man stepped up to buy a paper glanced at the notice and snapped out, "You might have said 'Please make your change'" and walked away without purchasing.

The rebuke was a merited one as it was worth money to the blind man. He was standing up their asking the public to do him a favor on account of his affliction—"please" should have been his request, and if he had had the right idea, it would have been there in the first place. It would not have cost him any more. I try to write short letters so as to give others opportunity to write.
KITTY LOU.

IDEAL SPOT, DAY AND PEOPLE

Dear Editor and Social Corner Sisters: I have not written to the Corner for a long time but must write a few lines and thank the Versailles and Occum sisters for the splendid time they gave us last week Friday.

Every one was so cordial and the food was very good and so plentiful.

I bought a cake before coming home, which turned out to be a Devil's Food cake. It was so light in texture, (not in color) that the folks were very much pleased with it.

I was surprised to meet many that I have known for years but did not know they belonged to the Corner. What fun it is finding them out!

I did not hear what the attendance was but it seemed to me that there must have been two hundred or more, but in spite of the crowd everything went along without a break.

It was an ideal spot, an ideal day, and ideal people, what more could anyone wish for. I do hope we can have another Corner picnic soon. In closing will say that I'll try and write more often in the future.
SEE BEE.

THE PENALTY OF NEGLECT

Dear Social Corner Sisters: Don't trifle with catarrh. It is not only a needless filthy disease in itself but so undermines the health and weakens the system that it is the most common cause of deafness, tonsilitis, asthma, hay fever, stomach and kidney diseases.

For swollen muscles use part olive oil and part turpentine mixted together. For rheumatism take one tablespoon of olive oil twice a day.

The oil from a rattlesnake is very good. By putting a few drops on cotton and putting this in the ears, it softens the hard crust in your ear. For earache use a few drops of almond oil on cotton. This will relieve pain. Use mullein tea for bleeding piles. Wintergreen tea is very good to drink for rheumatism. Use witchhazel jelly for itching skin.
PAULA.

RESPONDING TO ROLL CALL

Dear Editor and Sisters: I have been rather neglecitful about writing but I am always interested in the Corner letters and I am proud to answer, present, to my name.

When I went to Lebanon last Thursday I stopped in front of Porteous-Mitchell's wholesale store and I must have dropped a very nice pin that I was wearing.

Best wishes to the Corner.
GRANGER

ANOTHER EXPERIENCE WITH WHITE RATS

Dear Social Corner Sisters: It is so long since I have written to the Corner that I hardly realized I was still counted as a member till my name appeared on the roll. In fact it has appeared twice but I had to be reminded by Sister One More before I recognized myself as Another Normalite so long is it since I used that name.

I still read the letters with as much interest as ever, but after I have written to my friends, and my business letters and the "minutes of the last meeting" I have little energy for other letters.

One sister's experience with white rats interested me, for in our childhood my sisters and I traded a perfectly good gray kitten for two white rats, thinking we had made a good bargain till one of them got away into the walls of the house.

After that we had rats in plenty and very pretty ones, too, much to our parents' disgust. For about two years we caught all sorts of rats, white, brown and spotted in our traps.

It was with some satisfaction we learned that our perfectly good gray kitten lived out the proverbial nine lives each one of them quite tormenting to his owners and their city neighbors.

With best wishes for the Corner.
ANOTHER NORMALITE
(alias C. G.)

EACH BIRTHDAY DEARER THAN THE LAST

Dear Social Corner Sisters: Having seen my name in the roll call several weeks ago I wish to respond although I am a bit tardy, but as the old saying is, better late than never.

I will also take this opportunity to thank all the sisters who sent cards for my birthday. I appreciate your thoughtfulness more than I can tell you.

Perhaps you know that it has been said, some people never have birthdays after they are thirty years old, or at least they are ashamed to say so.

But it is not so with me for I have always thought too much of them and each new one seems dearer to me than the last. So no one need be afraid of offending me by sending a card to remind me that another year has rolled around.

Calla Louise: I do not know who you are but hope to meet you some time and get acquainted. I was very much interested in your letter of June 7th as you mentioned my husband's aunt as being a dear friend of yours, and that you had often heard her recite the poem that Anne D. sent in. It is true as you say that Aunt Susie, as we called her, made many a pleasant hour for us all.

What a world this would be if everyone in it had a sunny, happy, unselfish disposition such as she possessed.

In closing will extend best wishes to all the sisters. From
CONAWAH.

DEATH OF ROCK MAPLE

Dear Editor and Social Corner Sisters: I haven't written for such a long time I feel as if I am a stranger to all.

Perhaps you sisters and brothers haven't noticed or if you did see the death in last week Monday's paper of Mrs. Boilo Harris did not know it was one of our Corner sisters known as Rock Maple. I see no one mentioned it in Saturday's paper so I am taking the liberty to do so. She bore her sickness with no complaint having been sick since January last and confined to her bed since April 10.

She attended the gatherings when able but owing to work etc., maybe she wasn't known so well to many.

Elizabeth: Hope you are enjoying your trip in S. N. and hope you all can come down soon as we are anxious to see the cousin from California.

Diamond: When you pass (you know) hope to see you often.

Necia: The poison ivy has gone but I was a sight for a while.

Chelsea: The "chicken" has her part all ready for second meeting in July.

Triplets: See you real often, but guess you don't know me.

Blue Bell: You are on your veranda real often and some day I will get up courage and come across.

I have written before my name came on the roll call but I couldn't bear not to see something said about Rock Maple.
PAPA'S BOY.

SUGGESTS TIME FOR ELIZABETH PARK PICNIC

Dear Social Corner Editor and Members: I was very glad to see the Corner page full and running over last week. How we do enjoy it, and the roll call, too. I think there are several members in Hartford and wish some of them would write in regard to the picnic at Elizabeth park. I see that Wild Flower, Black Pansy and Canterbury Bell are in favor of it. The ramblers will not be at their best before the 4th of July so think the second week in July would be a good time if it could be arranged. As there are picnic parties nearly every day, it would be necessary to get reservations for the place and length of time desired. There are tables at the shelter, in the grove and at the play ground. Ice cream and cookies and sods are sold at the pavilion. Drink will be served if desired at the tables. This is fine weather for the picnics. Hope there was a good attendance. I would like a yellow bow to wear if I should attend any pics this summer. How shall I get it?
MAVIS.

ANOTHER CORNER MEMBER

Dear Social Corner Editor and Members: I have been very much interested in your Social Corner page and would like to become a member. But tell me, do I have to ride the goat?

I hope I shall have a chance to meet some of you this summer, as I feel I almost know some of you by your letters.

Many Guests: Did you ever stand on a stone wall and pick and eat green huckleberries?

Will take the name of
LILAC LADY.

RESPONDING TO ROLL CALL

Dear Social Corner Friends: As Brave's name was on the roll call I will say present.

I have neglected to answer before but perhaps better late than never.

Wiltwyck: Good weather for Ocean beach. Also Wee-Wee, for the merry-go-round. Let's go.

Olive: Often think of you and the roses at Elizabeth park.

How about the picnic there?
BRAVE.

HOW TO USE TIN CANS

Dear Editor and Social Corner Sisters: How many sisters make use of tin cans? I take a one half pound baking powder can and punch holes in the bottom and use for a soap shaker for dish washing. I like it better than the boughten ones. Then wash the paper off another one-half pound can and use to chop potatoes for creaming or to hash brown. The larger ones such as coffee comes in I use to keep rice, raisins, cocoanut, confectionary sugar and tapioca in. They are so much better kept that way instead of leaving in the bags they come in as most woman do. I also steam puddings in the large pound can. Put the dough in and cover and put in a kettle of hot water and boil an hour. Be sure and grease the can first. I keep a can in my sink to catch the little pieces and crumbs that go to the chickens. I put slips of plants in them in the fall. First punch a hole or two in the bottom for drainage and put a stone over the hole to keep from getting root bound. I think the can better than the pot as they keep the moisture better. Small cans such as tuna fish and crab meat come in I use to dip chicken feed with and for little chicks to drink from. I generally keep a couple in the yard for birds to drink from.

Foxglove and myself with our mothers attended the picnic at Versailles and had a fine time. The dinner was fine, tables were loaded with good things to eat and prettily decorated with flowers. The weather for once was ideal, going was good and we arrived home all safe and sound, tired but happy. The mothers enjoyed themselves as much as the daughters.

Twice Twenty: Looked for you at the picnic the 20th. Should there be a picnic at Elizabeth park, in Hartford this summer can't you come the day before and stay with me over night and go up with us the next day? Should dearly love to have you. Think it over. Will meet you in Hartford if you will come.

Diana—Received your letter. Glad you are well.

Theoda: See you have a birthday on the great and glorious Fourth.

You can celebrate both at the same time.

I hope there will be a picnic at Elizabeth park, as it is near my home town, and although I lived in Hartford for 15 years and am now only an hour's drive from there I have never been in the park. Can you beat that? Will ring off now as I am due at the pictures soon.
WHIRLWIND.

BACK FROM THE SOUTH

Dear Editor and Corner Friends: I will answer present to this roll call as I am in Massachusetts again after spending six months in Florida. When brother and I left there, June 2nd, the thermometer was 95 in the shade so I was glad to start for the north. Shall hope to see some of the friends during the summer.

Greetings to all from
HULDY.

LONGS FOR THE CHANCE OF OTHERS

Dear Sisters of the Corner: I think it is about time I answered the roll call so will say present. I meant to write long before this but the days fly so fast that some things must be put off for the morrow. Well, Dear Rural Aunty, how did you make out with the picnic? Hope it was a success. I did want to go and if I had had someone to take me as far as Plainfield you would have seen me sure. But did you ever notice that it's the fellow who does not want the thing that gets it? I have a sister who lives in Norwich, but she does not write for the Social Corner. Would she ever go to the meeting? No. So you see I often wish I could have a chance you would see me at your big dinners.

When ever a leak appears in a cook-utensil, press a generous amount of putty, over the place and bake for several hours in the oven. Aluminum ware, enameled ware, earthen ware and iron pots can be mended in the same manner, so that they can be used for boiling and baking purposes same as when new. Hope the sisters will enjoy themselves through the summer.

I remain as ever
BLUE BABY

FINE TIME AT PICNIC

Dear Social Corner Sisters: Present, I answer to the roll call. Twice Twenty had a good thought when she spoke of it. Last Friday I went to the picnic and had a fine time, met old friends and new. It's as nice a spot as can be found anywhere for such a time and a dear old church. The sisters need a good deal of credit for their dinner and entertainment, also the younger sisters for the cream.

Necia: Look for you and Scottie. Saw Bonie and that good baby.

Savilla: Are you all ready for the next?

True Blue: Don't forget the poppy. I have double pink ones.

Black Eyed Susie: Got the dishes done yet? Wooden spoon also?

So many will be on vacations soon. Hubby and I take ours the last weeks of September. Best wishes to all.
EFFIE M.

A DELIGHTFUL DAY

Dear Corner Sisters: I thought perhaps you would like to hear of the meeting held in Central Village Wednesday, June 18th. Savilla and I left Norwich on the quarter of ten trolley. On arriving there we made a few inquiries and were directed to the girls' club which was generously loaned. It is a gamble-roofed cottage remodeled inside with the furnishings done in blue and gray so homey and inviting.

There we were met by Rural Aunty who gave us a cordial welcome a dear woman whom you would feel you had known always. At noon after repeating the Lord's prayer we all sat down to a bountiful luncheon. The tables were very prettily decorated with miniature bouquets of yellow and white arranged by the hostess and yellow roses made and donated by a sister from Plainfield who will be known later as Cakkie. After satisfying our appetites, we retired to the reception room where we enjoyed a very fine program. Two vocal solos also two piano solos, reading and several fine remarks by Historian, who felt a little hurt because Rural Delivery had won more points on tatting and quilts than she had. We had Free Air a plenty and I had to be on the lookout to see that Bug did not eat Kentucky Wonder. Twice Twenty and 1492 were there. Although a great difference in their ages you would not believe it to see them. Primrose was there in full bloom and as sweet as ever. When the program was finished we served ice cream—all we could eat and some to spare. A collection was taken to defray the expense. At six we left the little village. A bit tired I'll admit, but with a fine impression of the people by whom we had been so finely entertained. Nog sisters when you want a good time take a trip to Central Village.

Mayfair: My sympathy in your bereavement.

I remain
TRUE BLUE

LAWN MOWERS
For over ten years we have sold the Worcester Lawn Mower. It is a very good machine at a moderate price. We sell more every year. Some of the first we sold are still in use.
HOUSE PAINT
Fifteen years we have sold Wadsworth, Howland's, Highland Mixed Paint, and sell more every year. It gives satisfaction.
Columbia Floor and Deck Paint.

IN NORWICH FIFTY YEARS AGO

Fifty years ago this week Charles Johnson was elected president of the Norwich Savings society. The election took place at the annual meeting of the trustees of the bank. The same week David Ring was elected president of the Norwich Catholic Temperance association. This week, as a matter of fact, quiet one in Norwich. Interesting extracts taken from the issue of The Bulletin of June, 1874 are given below.

Monday, June 22, 1874—The steamer [illegible] has been thoroughly [illegible] this spring and refitted in [illegible] manner will make her first [illegible] to Watch Hill next Thursday. Music will be provided by Lewis' [illegible] Orchestra and in the matter of refreshments and all the accommodations will be spared by Manager [illegible].

At a meeting of the Norwich Typographical union held on Saturday evening last a vote was passed expressing the thanks of the union to [illegible] of this city for their compliments to the delegate, [illegible] to the annual convention of the International Typographical union, recently held in St. Louis.

The baseball match between the Uncasvilles and Mohegans at the Wauregan Saturday, resulted in a disagreement about the decision of the umpire and was discontinued at the third inning. The Blackstones then played a picked nine, the score being 29 to 6 in their favor.

Tuesday, June 23, 1874—Stedman's directory for 1874, published by the Norwich Printing Co., was issued yesterday. There have been many additions and improvements to the work since the previous year among which are a description and photograph of the new court house, 1,604 names have been erased, the address of 1975 persons has been changed, and 1,723 new names have been added. The whole work is complete in every detail.

The St. James Total Abstinence society of Occum and the St. Mary's T. A. B. society of Taftville will unite in a popular picnic at Carroll's Grove, Occum, on the explosive fourth. The Occum brass band and Warner's Quadrille band will furnish music.

Preparations of all kinds will be engaged.

Yesterday forenoon while workmen were excavating dirt under a wall in the rear of the residence of the late Rear Admiral Lanman on School street the whole embankment suddenly caved in burying Frank Phanson the overseer, in the debris. He was speedily dug out by his fellow workmen and his injuries attended to by Dr. Cassidy. They were however of a slight nature.

Wednesday, June 24, 1874—At the annual meeting of the trustees of the Norwich Savings society held Monday the following officers were elected: President, Charles Johnson; vice presidents, Franklin Nichols, L. W. Carroll, Jeremiah Halsey, Henry B. Tracy; directors, John A. Robinson, David Gallup, John A. Morgan, Leonard Ballou, Amos W. Prentice, Charles Osgood, John Brewster, John Mitchell, Hezekiah F. Rudd; new trustees, Stephen B. Meech, Lucius Brown, Charles Larrabee.

Capt. Samuel Latham and Theodore Hedge yesterday took the finest string of pickerel from Preston City pond that has yet been noticed. There were in all 40 pounds and two of the beauties weighed three and a half pounds a piece.

Prof. Cromwell drew a large house last evening to what had been announced as the closing entertainment in the fascinating series he has been giving in this city. Ireland was the subject and an excellent selection from the hundred romantic scenes in that island was presented. It will be agreeable news to the community that Prof. Cromwell will remain three days longer. This is the request of leading citizens.

Thursday, June 25, 1874—The main water pipe on Cove street, West Side, exploded yesterday and three large streams rolled boisterously down the street and over the railroad track all afternoon forming miniature lakes all along the way.

The young ladies of the Academy will read for the Williams' medal next Monday evening. The summer session will close Wednesday of the same week. The present week is occupied in examinations for the various medals.

Holmes and Sullivan of New London have purchased one half of the ownership of Mr. Jeffrey's horse "Butcher Boy" for $500. The horse trotted in private yesterday on the Norwich course in 2.39, on a heavy track.

Columbian Commandery leave on a special train for Worcester this morning at 8:30 o'clock and will make a short street parade before taking the cars.

Friday, June 26, 1874—At the regular monthly meeting of the Norwich Catholic Benevolent association the following officers were elected for the ensuing six months: President, David Ring; vice president, William Buckley, recording secretary, John McNamara; financial secretary, James Conway; secretary of fines and regalias, John Donohoe; chairman of board of directors, Charles A. Kingberger; directors, James Garrity, Patrick Morris, John McGuinness, John Reynolds, Frank Burke, Martin Wolf, Thomas Connaughton and Patrick Sugrue.

At the regular Thursday evening meeting of the [illegible] Congregational church last evening, a letter was read from the Rev. M. M. G. Dana accepting the call to the pastorate of the church. This will be most gratifying not only to the members of his congregation but to the community at large who value Mr. Dana as a citizen and by whom he is highly esteemed for his efforts to promote temperance and education.

James Duncan is now selling steerage tickets to Europe by the White Star Line for $15.

Saturday, June 28, 1874—The New London County Agricultural society premium list is just published and ready for distribution. The time fixed for holding the next fair is September 22d, 23d and 24th. The season thus far has been most favorable for agricultural products and everything now looks as if there will be nothing to prevent a most successful fair in the fall. This will be the 20 annual fair held by the society.

The festival at the Universalist church last evening was a complete success. A large number of friends were present and with an abundance of refreshments the time was spent very pleasantly in social activities.

The ladies of the Second Congregational church gave a very fine entertainment for the benefit of the members of the church and Sunday school last evening in the vestry. Every kind of refreshment was furnished in abundance and the entertainment passed off in a most satisfactory manner.

An abundance of fireworks in the stores betoken a more than ordinarily noisy Fourth.

5 BOTTLES OF TANLAC BROUGHT PERMANENT RELIEF, SAYS POULIOT

Boston Salesman Says Indigestion Had Him In Wretched Condition.

"I am now enjoying such good [illegible] due, no doubt in my mind, [illegible] wonderful merits of 'Tanlac.'" [illegible] said Octave J. Pouliot, a well-[illegible] Commonwealth [illegible]. "For [illegible] I have had an [illegible] indigestion. My food [illegible] gas and [illegible] such that made me [illegible], wretched. My nerves [illegible] undone, my skin pale and [illegible] looking and that tired feeling [illegible] all the time.

"My improvement dates from the [illegible] I began taking Tanlac and [illegible] the medicine has me [illegible]. I have not [illegible] since I began [illegible] before I had to [illegible] time. Tanlac has [illegible] I said

Tanlac Vegetable Pill for constipation: made and recommended by the manufacturers of TANLAC.

MANSFIELD DEPOT

Miss Clarabell Hernberg is at Giant's Neck with a party of friends for a week's vacation.

Rev. J. W. Carpenter, Mrs. Merritt Smith, Mrs. F. McCollum, Miss Helen Bowers and Miss Mildred Bowers attended the 87th anniversary of the Ashford Baptist Sunday school convention held at the Baptist church at Stafford Wednesday.

Mr. and Mrs. George Cosgrove and little son returned Thursday from Holyoke, Mass., where they have been spnding several days with friends.

Mrs. Elmer Botham is ill at her home here.

A miscellanous shower was tendered Miss Mildred Davoll Thursday afternoon in honor of her approaching marriage to Myron Green, by Miss Viola White, Miss Maude Brigham and 18 other friends. Miss Davolle received many pretty and useful gifts which were bidden about the rooms. The directions for finding them were in rhyme, written and read by Miss White. Miss White and Miss Brigham served refreshments of ice cream, cake and fancy cookies.

Plans are being made for a community picnic, under the auspices of the Sunday school, to be held on the church lawn July 4.

Miss Ruth McCollum of New York city arrived home Friday night on the State of Maine express for a month's vacation.

Miss Ella McCollum of Jersey City, N. J., will leave Sunday morning for a trip to California, expecting to be gone several weeks.

Word has been received from Mrs. Harriet Carr of her safe arrival at North Abington, Mass., after a six days' motor trip from West Palm Beach, Fla., where she has been with her son and family since last October. Mrs. Carr's son has bought a home at West Palm Beach and will return with his family in November.

ECHOES FROM THE LODGE ROOMS

ODD FELLOWS

Shetucket lodge, No. 27, with Noble Grand Walter Kelly presiding held its regular business meeting Tuesday evening in Odd Fellows hall and after the transaction of routine business, elected the following officers for the next six months: Noble grand, Louis Waters; vice grand, A. H. Perry; secretary, Paul Collins; treasurer, Edward F. Kinney.

Light refreshments were served. It is expected to have the installation of officers next Tuesday night and if arrangements for this can be completed, notices will be sent out.

MAYFLOWER DESCENDANTS

At a meeting of the board of assistants of the society of Mayflower Descendants in Connecticut held June 21, at the home of the governor, Colonel Charles E. Thompson, the following were elected to membership in the society: Mrs. William Heman Mansfield, Putnam, 5th from Henry Samson; Miss Mary Caroline Soule, Naugatuck, 7th from George Soule; Mrs. Julius Warren Cramer, Clinton, 8th from John Alden. The death of Mrs. George F. Woodford of Bloomfield on May 22, 1924, was reported.

Delegates to the general congress at Plymouth, Sept. 2, 3 and 4 were chosen as follows: Miss Addie S. Arnold of West Hartford; Mrs. Edward B. Field, Hon. Charles E. Gross, Prof. Edward F. Humphreys, Mrs. George B. Kingsbury, Edwin H. Tucker and Meigs H. Whaples of Hartford; Mrs. Clarence B. Bolmer and Mrs. Frank A. Corbin of New Haven; Mr. and Mrs. Herbert L. Crandall of New London; Mrs. Ebenezer Bishop, George H. Gilpatric, Mrs. George W. Gilpatric, Mrs. Silas M. Wheelock and Howard C. Bradford of Putnam; Dr. Anton T. Cosner of Waterbury; Col. Tracy B. Warren of Bridgeport; Mrs. J. William Bailey of Middletown; Edward S. Boyd of Meriden; Mr. and Mrs. B. P. Bishop of Norwich, and Dr. Edwin A. Hill of Washington, D. C.

The following persons were named as alternates: Edwin H. Bingham, Eliot S. Cogswell, Miss Katherine Cook, Mrs. E. J. Pearson, and John A. Wilcox of Hartford, Mrs. C. E. P. Sanford, and Miss Harriette Munson of New Haven.

PATRONS OF HUSBANDRY

At the regular meeting of Norwich Grange, No. 172 at Steiner hall Wednesday evening Overseer Leonard Staubley, Jr., presided at the business part of the meeting at which Mrs. W. S. Murray of the ways and means committee announced a lawn party to be held next Tuesday afternoon with a supper at the home of Mrs. John O. Peckham of West Thames street.

This was Flora's night in the grange programme for the lecturer's hour and the programme that was provided by Mrs. Lena Pukallus, who is Flora, was one of the most entertaining of the season. It began with piano solos by Miss Lucille Guile. Two readings were given. The Appeal of the Dahlia, by A. A. Guile, and Advice to June Brides (Dr. Delaney) by Mrs. John E. Fanning. Miss Belle Rathbone read a sketch on Trees and Plants, and the members answered the roll call, My Favorite Flower and Why I like it.

After a piano solo by Miss Guile, a short play, How The Story Grew was capitally presented by the following cast:

Mrs. Brown, Mrs. C. W. Brown; Mrs. Green, Mrs. Charles Beaver; Mrs. Bean, Mrs. Hazel Murray; Mrs. Rice Mrs. William S. Murray; Mrs. Doolittle, Mrs. J. O. Peckham; Mrs. Snow, Mrs. William Rush; Mrs. Taylor, Mrs. Ora Spencer; Mrs. White, Mrs. M. R. Waters.

A rising vote of thanks to Flora and those who appeared on the programme was given. Refreshments were served by the feast committee.

At a special meeting of the Grange last Monday night to confer the first and second degrees, fifteen candidates had the degrees conferred with Worthy Master Arthur W. Avery presiding.

The next grange meeting will be children's night and will begin at 7 o'clock instead of 8 for the programme to be given by the children.

MOOSEHEART LEGION

It was announced at the regular meeting of the Women of Mooseheart Legion, Norwich Chapter, No. 124, Thursday evening at Moose Home that plans are being completed for the annual picnic that is to be held about the middle of July. Announcement was also made of a donation of $5 to the Salvation Army fund and it was voted to hold two meetings during the summer months, on the 10th of July and on the 12th of August. The meeting was presided over by Senior Regent Mrs. Anna Crowe. Ice Cream and cake were served by the refreshment committee.

LEBANON

On Sunday the Baptist church was filled, extra seats being brought in for the occasion, when the minister, Rev. A. G. Littlefield, preached a special sermon to St. John's Commandery Knights Tmplars and Radient Chapter, Eastern Star, both of Willimantic. The church was beautifully decorated and there was special music, an anthem by the choir, and a quartette selection by Miss Beatrice Littlefield, Miss Mary Chappell, A. A. Boothby, C. E. Briggs.

A duet, Star of the East, by Mrs. Mary A. Williams and Rev. A. G. Littlefield was most pleasing. Two forms, a cross and a star of flowers, were presented to the orders at the close of the service. At the C. E. meeting.

Mrs. M. A. Williams was the leader.

The Ladies Aid met in the parlors of the First Congregational church on Tuesday. Mrs. Carrie Abel was in East Willington on Tuesday to attend the wedding of her son Fred M. Abel and Miss Mildred Amidon, daughter of Charles Amidon, of East Willington. The wedding took place at the bride's home at 3.30 June 24. The bride wore white with a veil and carried white roses and sweet peas. The double ring service was used. The bride received many beautiful gifts. The couple left on a wedding tour to New Hampshire and will also spend a few days in Lebanon and East Willington. They will make their home in Plainville, where the groom has a position. Both have many friends in Lebanon, where the groom has passed the most of his life. The bride was a very successful teacher at the Center School.

Mrs. Ida Abel recently entertained at dinner in honor of the birthday of her grandson, Edwin Abel. Those present were Mrs. Anna Abel and son, Edwin, of Norwich, Miss Helen Abel and Eugene and Irving Abel.

Mr. A. C. Williams and Mrs. F. G. Stark are spending two weeks with their brother, Dwight Spaulding, in Norwalk.

Mrs Ella Foster entertained over the the week end, her daughter, Miss Edith Foster, the Misses Olive Swisher and Louisa Barry, Clarence Barry and Ralph Partridge, all of Hartford.

Mrs. Walter Starr, her son Walter and daughter, Frances, are visiting relatives in Mansfield, Mass.

Mr. and Mrs. C. E. Foster and three children were calling on friends in Blandford, Mass., Sunday.

Robert Starr is visiting his grandparents, Mr. and Mrs. Walter Starr.

Miss Ethel Littlefield, eldest daughter of Rev. A. G. Littlefield, who has made her home with her grandmother is visiting at the parsonage.

Miss Edla Williams recently entertained a party of young friends. Three tables of whist were played and light refreshments were served by the hostess.

Miss Harriet Hewitt is spending a few days at Matunuck Beach, R. I.

Mr. and Mrs. Willis De Forest of Wilton were calling on relatives in town this week and spent Tuesday night at the home of Miss De Forest's grandfather, O. D. Fuller.

Mr. and Mrs. O. L. Pultz spent Sunday with Mr. and Mrs. John Wolcott, in Manchester.

Mrs. H. N. Peck, Mr. and Mrs. C. M. Geer and Miss Florence Whitaker spent Sunday in South Killingly with Mr. and Mrs. M. D. Whitaker.

Mrs. Whitaker and daughters, returned home with them and remained until Tuesday night.

Mr. and Mrs. Thaddeus Raymond and daughters, of Groton, were callers at F. G. Bruce's, Sunday.

Friends of Miss Ethel Richardson, a former resident of Lebanon, will be interested to learn that she is to spend the summer in Spain. Miss Richardson is a teacher of Spanish in a high school in New York City.

The Crusaders held a picnic at the home of Mr. and Mrs. George Randall, Wednesday afternoon. Lemon sherbet and cake was served by Mrs. Randall.

Mrs. Arthur Bruce and daughter of East Lyme, spent the week end with Mr. and Mrs. F. G. Bruce. Mrs. Bruce returned home Sunday. Ariene remained with her grandparents.

Mr. and Mrs. Carlton Cumnings, who were married last Saturday, have gone to keeping house in the house owned by Mark Carpenter, the former home of Mrs. Gillette.

WILLINGTON

Miss Mildred J. Amidon, daughter of Charles Amidon, and Frederick M. Abell of Plainville, were married at the home of the bride Tuesday afternoon at 3.30 on the spacious lawn. The grounds were beautifully decorated by Dawson of Willimantic, with laurel, gladioli and iris. The ceremony was performed by Rev. Edwin Sundt, the double ring service being used. The bride wore a white Elizabeth crepe gown with veil and cap. The attendants were Miss Doris Amidon, sister of the bride, as bridesmaid, and Lawrence Amidon, a brother, as best man. The bridesmaid wore a turquoise blue voile dress with white hat. A reception followed the ceremony, and the guests were served ice cream, cake and punch. The bride cut the wedding cake made after her grandmother's recipe. Relatives and friends were present from Lebanon, Hartford, Norwich, Westford, Thompson, Greenwich, Stafford and South Willington. Mr. and Mrs. Abell have gone on a honeymoon trip by motor to New Found Lake in New Hampshire.

There were many beautiful presents of silver, cut glass, linen, pictures, clocks, hand worked articles and many more, both useful and beautiful. Mr. and Mrs. Abell will reside in Plainville. Mrs. Abell, who is a graduate of the Willimantic Normal school, has been superintendent of the schools at Hall Memorial school, in South Willington.

Howard Bligh is visiting at his home in Boston.

Frank Pehkan and Miss Mary Pelikan of Hartford, spent Sunday, at their home.

Sheriff W. D. Eldredge was called to Mansfield, Monday, to investigate damage done to a flock of sheep, by dogs.

Mr. and Mrs. Andrew Cavar motored to New Haven, Sunday, to see their daughtre, Mrs. William Zermina.

Frank Cartier of Natick, Mass., formerly of Willington, spent a few days this week with Howard Pratt and called at the "Ryder House".

Mrs. Maria Hughes of Westford has been visiting at the home of Lincoln White.

Miss Marie Schmidt, a high school teacher at Omaha, Neb., came Monday to spend the summer with Miss Jessie Bennett.

Mr. and Mrs. Williams of Boston have been visiting Mrs. William's sisters, Mrs. F. B. Converse and Miss Bennett.

Mrs. Edwin Sundt invited all the church people to give a shower for Miss Mildred Amidon at the parsonage, Saturday evening. Miss Amidon received many gifts. After a social time Mrs. Sundt served cake and lemonade.

The South Willington members of the W. C. T. U. met on Willington Hill at the church Saturday afternoon, June 21, as it has been the custom to hold one meeting a year on the hill.

After the business was transacted, tea was served and a social time enjoyed.

Mrs. Julian A. Dimock, of East Corinth, Vermont, is spending a few days at Miss Mergereau's home.

Miss Mary R. Wilson of Elizabeth, N. J., is the guest of Miss Helen Rollinson, at Hillside.

EAST KILLINGLY

On Wednesday 27 people from here attended the Sunday school convention of the Ashford Baptist association that met at the church in Stafford. Eight young ladies put on a drama that was well rendered and well received.

On June 29th G. T. Bochman of the Connecticut Bable society and the Anti-Saloon League will be at the Union Baptist church of East Killingly for the morning service. The morning service begins at 11 o'clock.

On Tuesday evening Rev. and Mrs. W. D. Hetherington were surprised upon being summoned to the door, and on discovering a handsome June basket (well filled) at the door. Mrs. Hetherington was soon in search of their hidden friends; but they were soon located and came into the parsonage where all spent a very agreeable evening. This token of respect is highly appreciated.

In spite of the great distance at which most live stock is raised, New York City is one of the largest slaughtering centers in the country, ranking next after Chicago and Kansas City in the number of cattle and calves butchered.

A Message from

Walter P. Chrysler—

When I say the good Maxwell is the best four-cylinder car at anything like its price in America today, I am thinking of specific accomplishments of the last year.

For instance, vibration subdued to the vanishing point; revolutionary riding and driving results; main bearings rarely if ever replaced; 18,000 miles from a set of tires, and so on.

Maxwell of today is more than the good Maxwell—it has been developed to a plane of superiority far above and beyond the dead level of previous four-cylinder possibilities.

LITTLE JACK RABBIT

By DAVID CORY

WOODY WOODCHUCK

[illegible] next day, after Uncle John Hare had said goodbye to the little rabbits, the bunny boy hopped up the Old Cow Path, through the Sunny Meadow. All [illegible] the buttercups were winking [illegible] eyes, and the daisies [illegible] pretty heads. Mr. Mer[illegible] doing his best to make

[illegible] Big Round World happy. So was [illegible] little rabbit hopped [illegible] bumps and over the [illegible] had some ice cream [illegible] his typewriter [illegible] Did you ever see [illegible] never did.

[illegible] bunny boy came to the Orchard near the Big Farmyard. "Hello!" all of a sudden, just like that, shouted a voice. There on the grass sat Woody Woodchuck, close to the entrance of his underground house.

"We were talking about you last night," said the little rabbit, sitting down beside him.

"Hope nothing unpleasant was mentioned," answered Woody. "I always try to have good manners."

"Of course not," replied the bunny boy quickly. "In fact, I said you were a very good friend of mine, and that many a time your old houses underground had sheltered me from Danny Fox."

"Glad to hear it," said Woody Woodchuck. "Did you enter by the front door,—the one with a big pile of sand beside it?"

"Yes, I did," answered Little Jack Rabbit. "But I didn't know it was your front entrance."

"Glad of that," laughed Woody Woodchuck. "I sometimes have as many as three back doors. I never leave any sand or dirt about these. let me tell you. They are always hidden by the long grass hanging over them."

"My, but you're careful," answered the bunny boy, admiringly.

"Have to be. Mrs. Woodchuck and the babies are down below—sometimes as many as eight babies. They stay in our little underground bedroom until they are big enough to feed themselves. It doesn't take them long to learn. We Woodchucks don't live on nuts; green food is what we eat—clover and tender grass. Vegetables, too when we can get them."

"I like clover," said the little rabbit.

"But, dear me," went on the Woody Woodchuck, "how I have to stuff with green food just before the cold weather sets in. I have no store room. I have to store up all my food under my reddish-orange waistcoat. I grow so fat I can hardly squeeze down to my bedroom to sleep until spring comes."

"I should think you'd have dreadful dreams," said the bunny boy.

"Not a bit of it," answered Woody. "I sleep right through till Spring. Once in a while I wake up too soon, but I'm so fat I don't feel the cold."

HAD TO LET HOUSEWORK GO

So Ill Husband had to do the Work. Completely Restored to Health by Lydia E. Pinkham's Vegetable Compound

South Bend, Indiana.—"I was all run-down, tired out, and had pains in my back and bearing-down pains. I was so sore I could hardly drag myself around and was not able to do a bit of housework. My husband worked all day in the shop, and then came home and helped me at night. The doctors said I had female weakness, and there was no help but to be operated upon, and of course that would cost us a great deal. My husband heard about Lydia E. Pinkham's Vegetable Compound at the factory and one night he stopped at the drug store and bought me a bottle of it. I had begun to think there was no help for me, but I took three bottles of it and now I feel like myself once more. The price for three bottles wasn't so much as the doctor had charged. I cannot praise Lydia E. Pinkham's Vegetable Compound enough."—Mrs. DORA OSBORNE, 430 Sherman Ave., South Bend, Indiana.

Women troubled with female weakness should give Lydia E. Pinkham's Vegetable Compound a fair trial.

A Bad Taste in the Morning

WESTERLY

t is Governor of Rhode Island Ernest L. Sprague, of Cranston now, previously secretary of state, who has been "His Excellency" since Friday after noon at 3.36 o'clock if Gov. Flynn has not returned to Rhode Island, reported. At that time Lieut. Gov. Felix A. Toupin of Rhode Island, acting governor of Little Rhody, following the departure of Gov. William S. Flynn on Wednesday night for the National Democratic convention in New York stepped the Pawcatuck river at Westerly and left the ship of state.

Lieut. Gov. Felix A. Toupin was seated in the forward seat next to the window in compartment A of the Pullman Car. No. 76 of Train No. 19, of the Shore Line express of the New Haven road, due at the Westerly station at 2.36 Eastern Standard time. The express was but a few minutes late in arriving at the Westerly station and seated in the same compartment with the lieutenant governor was Democratic Rhode Island Senator John J. McGrane of Providence and a summer visitor at Pleasant View Beach, Robert E. Quinn of West Warwick and Joseph J. Cunningham of North Providence and all were bound for the National Democratic convention in New York, with their scheduled to arrive in the convention "town" at 7.06 Friday evening. As the train started in the drizzling rain for the Connecticut border, there was not a freeman of the "Plantations" to wave Mr. Toupin a farewell. It is reported that the eleventh hour Democratic delegates attempted to obtain seats on the "Knickerbocker Limited" express, but arrived at the Providence station just too late to board the limited express for New York

Third district court session in Westerly on Friday morning was a short one and even shorter will be the one for next Friday as the date is July 4th and observed as National Independence day, will be marked by the court with briefest session possible.

Clerk M. Walter Flynn, Jr., read the following:

James F. Davis vs. Louis LaFontaine. Attorney Edward M. Burke stated that he had agreed with Attorney Roche for a motion to assign. Marked passed.

James M. Pendleton, town treasurer and collector of taxes for the town of Westerly, vs. Raymond Champlin. Continued one week.

Mary DeSimone vs. Patsy DePlacido. Continued one week

Philip Gallagher vs. Antonio Antoch. Continued one week.

Granite Street Garage vs. William F. Loudon. Continued one week

Clarence E. oche vs. Jennie Ostman. Attorney S. H. Davis announced that he was ready for the defense and this completed the call of the civil docket.

Judge Michael J. Turano took up the criminal docket and called John L. Sullivan. Sullivan, who appeared in court stated that he was 33 years old, and was called to answer to a complaint charging him with being a common drunkard, the date in the warrant being June 23rd.

Prosecuting Attorney John Ferguson stated to the court that Sullivan had been drunk three times in six months although he had stated when last in court that he would keep out of Westerly and give no more trouble to Westerly authorities. He said that for many months had been in the company of intoxicated men hanging round Riverside park and some of these men had complained that they had money stolen from their clothing while they were intoxicated in one case as much as $250 had disappeared. The town solicitor thought the defendant should be placed on probation and not permitted to come into Westerly again.

Judge Turano told Sullivan that the last time he was before him he had promised faithfully that he had a regular job and would not trouble him again. The judge said that he did not wish to send him down to Providence on a charge of being a common drunkard but he had no assurance that he would go straight in the future. Sullivan said he had work ahead of him in Pawcatuck and if permitted to complete it he would leave the town for good. The recommendation of the town solicitor was taken and Judge Turano placed Sullivan on probation for a year and gave him until noon on Friday to remove his plumbing tools to Pawcatuck and not to come onto the Rhode Island side of the river again without first communicating with the chief of police. If this parole was broken the police officers would be instructed to take him in on sight and sent to Providence jail for 3 years without questioning.

The Ostman-Roche case was continued two weeks to July 11th and court adjourned.

Spanish War veterans will come to Westerly on Saturday, July 12th and Sunday, July 13th, for the Eighteenth Annual Encampment of the Department of Rhode Island, United Spanish War Veterans. Not alone from Rhode Island will they come, for invitations have been extended and acceptances received from other New England encampments that their officers intend to be present. Spanish War veterans from Norwich, New London and other cities have signified their intentions to be present in Westerly during the encampment session. Last year the state of R. I. encampment was held in Newport and the attendance was much larger than for previous years. If present plans are carried out, Westerly will entertain fully as many S. W. V. men as did the "City of the Sea" a year ago.

A feature of the Westerly encampment program which will appeal to to the general public as well as to the Veterans not only for the present year but for many to come will be the dedication of the Hiker Memorial statue in Wilcox park on Sunday, July 13th. This status is a bronze figure of the American Spanish War soldier which mounted on a natural boulder, will occupy a conspicuous position at the east side of Wilcox park, and is already mounted on the boulder at the work sof the New England Granite Co.

Among the general orders issued are the following:

The invitation of Robert Brucker Camp, No. 6, of Westerly, having been accepted, the eighteenth annual encampment of the Department of Rhode Island, U. S. W. V., will be held at Westerly, R. I., July 12th and 13th, in the state armory, Railroad and Dixon streets. The encampment will officially convene at 10.30 a. m., Saturday, July 12, 1924.

Department headquarters in the state armory will be open from 8 a. m., July 12th, for registration and for the issue of credentials. Comrades should call for credentials immediately upon their arrival in Westerly. All comrades attending the encampment will be required to register when they will be given a badge admitting them to all the privileges of the encampment.

All members of the encampment having uniforms are requested to wear them. Camps are directed to bring their colors for the parade Sunday.

The following appointments have been made:

Auditing: P. C. William G. Laird, Camp 1; P. C. Maurice H. Cook, Camp 4, and P. C. Eugene L. Mason, Camp 1.

Credentials: Dept. Adjutant George A. Swan, Dept. Quartermaster J. G. Tinsley, Dept. Marshall George M. Purdy and Comrades Arthur N. Nash and Herbert E. Taylor, Camp 6.

Reception: P. D. C. William A. Stafford, P. C. Shelby C. Nicholas and Comrade George E. Leonard.

Press: P. D. C. Marshall W. Hall, P. C. Walter M. Baker and Comrade Harry T. Powers. Past Commander Walter M. Baker is also appointed as recording clerk of the encampment.

The program for the department encampment is as follows:

The entire day of Saturday, July 12 will be taken up with the business of the encampment. Saturday night there will be a ball in the state armory.

Sunday, July 13, forenoon given up to sight-seeing. Afternoon, parade, starting from the state armory, 2 p. m. Dedication and unveiling of the Hiker monument in Wilcox Park, 2.30 p. m.

National Encampment: The 26th national encampment, United Spanish War Veterans, will be held in Michigan City, Indiana, Sept. 7, 8, 9, 10, 1924.

Michael A. Sullivan, department commander, has written to all comrades of the department as follows:

As my administration draws to a close, I want to thank you, one and all, for the great honor conferred upon me and I want you to know how highly I value your confidence. To the department officers I want to express my sincere thanks for their valued assistance, and on behalf of the department, I want to tell the auxiliaries how greatly we appreciate the good they have done in working for the interests

Louis E. Barbour of Westerly was an automobile visitor in Saybrook and Old Lyme, Thursday.

W. H. Robinson of Milford, is a visitor at "Cayugalodge," Pleasant View beach, R. I.

Simon Kenyon, Kenneth Kenyon and Walter A. Kenyon have returned to Westerly from Milton, Wis., before going to their homes in Hopkinton.

S. C. Dunham of Hartford has arrived in Westerly, and is to go to Watch Hill.

Maurice L. Connors has returned to his home in Pawcatuck, after a successful operation at the Home Memorial hospital, New London.

F. A. Peterson of Pittsfield, Mass., has arrived at the "DeRosa" cottage at Pleasant View beach

Mr. and Mrs. Stephen J. Shea have returned to Westerly, from a wedding trip, which included a visit in Hartford

Kate M. Sturtevant, teacher of French in Westerly high school during the summer, will visit this summer, at Yarmouth Junction, Me.

Mr. and Mrs. Louis Arcoussie have returned to Pawcatuck from a wedding trip to New York city.

Mrs. Osten Ferguson of Holyoke, Mass., is visiting her sister-in-law, Mrs. Lucy T. Bogle on the West Side.

Edwin R. Connors is an automobile visitor this week end in Stafford Springs.

J. H. Sage of Portland has arrived in Westerly for a stay at Weekapaug, R. I.

Mrs. J. O'Connor of Windsor Locks is visiting at Pleasant View beach.

Miss K. Marie Lloyd, teacher of English in the Westerly High school, is to leave Pawcatuck for Brewer, Me.

Fred C. Geiger of Orange, N. J., is at Pleasant View beach.

Miss M. Louis Colling of Stamford has taken up her duties at the Inn, Weekapaug, R. I.

Rev. and Mrs. Byron U. Hatfield of the First Baptist church, Westerly were the hosts at their home in West Mystic on Thursday afternoon and evening for the annual picnic and outing of the Westerly Ministerial association, which was attended by the members, wives and families. A basket lunch with a social hour and games were enjoyed by those present, their only regret being that these occasions did not come more often.

Clarence Wilson Gray, a member of the senior class, 1924, Westerly High school, was taken ill on Monday evening last, following his dissipation in the prize speaking contest at the Westerly High school in which he received first prize. He has been confined to his bed from what was thought to be a nervous breakdown and was not able to take part in any of the commencement week activities which followed. On Thursday evening he was taken in the ambulance of the Westerly Sanitary Corps to the Rhode Island hospital in Providence where he will be given treatment.

At the home of Mrs. Kossina Dower, 40 Clark street on Thursday afternoon at 3 o'clock, occurred the wedding of her daughter, Miss Mildred G. Dower to Walter T. Lewis of Asaway. The home was beautifully decorated for the occasion with ferns and cut flowers. The ceremony was performed in the living room by Rev. Marvin S. Stocking, pastor of the Grace M. E. church. Appropriate musical numbers were played by Miss Zillah J. Dower of Pawtucket, R. I., a sister of the bride.

The bride was attended by Miss E. Grace Dower, another sister of the bride as bridesmaid, and Miss Eleanor L. Dower, her niece, as flower girl. The bridegroom had for his best man Richard J. Dower, a brother of the bride.

The bride wore a gown of white crepe satin, draped with chiffon made in boufant style. Her tulle veil was trimmed with chantilly lace and fastened with orange blossoms. She carried a bouquet of double Killarney roses with a shower of swansonia. A string of pearls was her jewelry.

The bridesmaid's gown was of blue changeable taffeta, lace trimmed. She wore a picture hat of maline to match. Her bouquet was Columbia roses and delphiniums. The flower girl wore a dress of white organdy, embroidered in blue and trimmed with lace and carried a basket of Aaron Ward roses.

The bride presented to her bridesmaid a gold ring set with an aquamarine and to her flower girl a pendant. The bridegroom's gift to his best man was a gold watch chain.

Following a reception Mr. and Mrs. Lewis left for a motor tour through the Berkshires to Atlantic City and Niagara Falls. Upon their return they will reside in Ashaway, R. I.

Favorable weather on Thursday evening was one of the contributing causes for the large attendance at Wilcox park when the second of the summer series of band concerts by the Westerly band, Charles O. Gavitt, director, was enjoyed by those present. Numerous automobile parties from surrounding towns found High street and Grove avenue excellent parking places where the music of the band could be heard without entering the park.

Pawcatuck lodge, No. 90, F. and A. M. of Pawcatuck, Frank L. Friend, master, worked the first or Entered Apprentice degree on a class of candidates in the Masonic rooms on High street, Thursday evening. This coincides the work of Pawcatuck lodge for the year as a recess is taken during the summer months of July and August.

William Kennedy has returned to his work in Westerly after a visit to Boston, where he attended the wedding of his sister recently.

Mrs. William Higgins of Fall River, Mass., was a visitor in Westerly on Thursday when she attended the funeral of Dennis Geary, whose death occurred suddenly last Monday morning.

Herbert C. Burdick of Seattle, Wash., has arrived in Westerly from the Pacific coast and will make his home for some time in Rhode Island.

Mrs. W. P. Thompson has returned from her summer home at Watch Hill to Spark Hill, N. Y. Her summer home on Sunset Hill will be occupied after July 5th by J. Fritz of Philadelphia.

Announcement has been received by Westerly friends of the wedding in Chickasha, Okla., of J. Murray Henry to Anna Buron Lynch of that place.

NORWICH CONNECTICUT

Outstanding Values for the End of the Month

THE END OF THE MONTH IN
THE APPAREL SHOP

Two hundred and twenty-five dresses, made of summer linens, voiles and other cotton weaves—of various silks appropriate to the season—and all of them so far below their actual value that there should be no question as to the speed with which they will leave us.

JUST SEVENTY-FIVE NEW SUMMER FROCKS
WILL GO AT **$5.00**

They are all late purchases, representing the newest styles, the most acceptable materials, pretty colorings and models which are really clever. Among the seventy-five will be found summery plain and figured Voiles, dotted Swiss and pure Linen, every one of which is a value most exceptional.

COME EARLY AND SELECT CAREFULLY

100 SILK DRESSES
Sale Price $10.00

Most of these garments were taken from our Summer stock and some very late novelties will be found among them. Among the various weaves will be found Flat Crepe, Satin Canton, Roshanara and Tub Silks, some of them in the new "Candy" stripe.

WONDERFULLY GOOD VALUES

50 Pure Linen Dresses
Sale Price $7.95

Here you will find just the type of summer dress you have been looking for. Linens look so cool for hot weather wear and these are certainly most attractive. All of the bright pretty colors so popular this season will be found waiting for you.

SPECIAL FOR SATURDAY ONLY
Voile Dresses
For the Little Girl From 2 to 6 Years Old
$2.00

Exquisite little frocks of sheer voile, in pastel shades, which will delight the little girl and please the mother. Fine val laces and organdie have been used to trim them, not in a fussy way, but with the charming simplicity that the little gril's frocks demand.

ON SALE SATURDAY — IN THE BABY CORNER

SPECIAL VALUE FOR SATURDAY
Women's Full Fashioned Silk Stockings
Sale Price $1.00

You can't have too many for summer use. Change frequently and your comfort is assured. These beautiful stockings are a quality usually sold for $2.00, but are slightly irregular. When you consider the price you will realize just what bargains these must be. Offered in white, and several of the best colors.

A FOOD SALE SATURDAY IN THE DOWNSTAIRS STORE

Beginning at 10 o'clock Saturday Morning the W. B. A. of the Maccabees will hold a FOOD SALE in our Downstairs Store.

TWO MID-SUMMER HAT SPECIALS
WHICH WILL LIVEN THE MONTH END IN THE MILLINERY SECTION!

MID-SUMMER HATS
IN WHITE AND LIGHT COLORS
$5.75
Values $10.00 and $12.00

Taken directly from our regular stocks and representing the best of the season's styles and colorings. There are hats in the lot to suit any type of face and figure.

Sport and Tailored Hats
At a Price Which Is Extremely Low
$2.49

[illegible] at the price—come in [illegible] They are pretty [illegible] they are so cheap this week [illegible] one.

END OF THE MONTH SPECIALS

Men's Summer Shirts at Half Price or Less
Two Values Which You Have Not Seen Equilled For a Long Time

$2.00 and $2.50 SHIRTS
Sale Price $1.00

Why pay more? Through a lucky chance we came across these shirts and were able to secure them at a ridiculously low figure. We are going to transfer them to you on the same basis. Made of a combed-yarn Oxford in white, and of a beautiful merchandise Poplin in tan, two materials only found in shirts of high grade. Sizes 14 to 17. All have collars attached.

Get a Supply of Them Saturday

$1.50 Percale and Madras Shirts — Sale Price 79c

Sounds almost too good to be true—but don't let the price scare you. The shirts were actually made to sell for $1.50. They were made of high grade materials, and in a manner only used in shirts of quality. Made up in the regulation style, with neck bands. All sizes from 14 to 17.

You Can Use a Lot of These

Hot Weather Clothing for the Boys
SPECIALLY PRICED GROUPS FOR THE END OF THE MONTH

FAST COLOR PLAY SUITS
ONLY 83c

You can't beat that price, nor the suits which we are going to sell at it. We have them in khaki or blue and either plain or trimmed. For comfort and suitability they are the best for summer play. Sizes 2 to 8.

KAYNEE AND BELL BLOUSES
ONLY 82c

Our regular $1.00 and $1.15 blouses in both regular and sport styles. We have them in white, tan, khaki and in neat boyish patterns, all colors being guaranteed. Sizes 6 to 16.

BOYS' FINE WASH SUITS—ONLY $1.69

Truly remarkable values at this low price as they excel in quality, fit and finish. All materials are guaranteed as to color. We show both midy and Oliver Twist models, in sizes 3 to 10.

Six hours after high water it is low water, which is followed by flood tide.

TAFTVILLE

The funeral of Jane Violet Mayor, daughter of Mr. and Mrs. Robert Mayor, of Terrace avenue was held Friday afternoon with a service at the Taftville Congregational church, at which Rev. Edwin Gordon Crowdis officiated. The slow tolling of the church bell cast a deep gloom over the community, as the church was filled to capacity with sorrowing residents of the village, to whom the little girl was so dear. The [illegible] surrounded with flowers, [illegible] served the church choir, which composed of schoolmates [illegible] Jane sang Nearer, My God to Thee, and Lead Kindly Light. The bearers were John Wood, John Holland, Charles Shutt and Peter Luckoff and the honorary bearers were Edith Hoag, Dorothy Hodgson, Margaret Slight, Dorothy Alsop, Eva Nagle, Mary Alice Watts, Gladys Kinder and Charlotte Pullman, all classmates of the deceased, in the church school. Burial was in the cemetery, Versailles where Rev. Mr. Crowdis read the committal service. Undertaker George G. Grant had charge of the funeral arrangements.

[illegible] ke and daughter, Miss [illegible] of New London are the guests of Mrs. Clarke's parents, Mr. and Mrs. Axel L. Aberg and family of North Third avenue.

Mr. and Mrs. George Lamoureaux of Scotch avenue and two children will leave this week for a cross country motor trip to Port Angeles, Washington, their destination. They will camp [illegible] Mr. Lamoureux has resignation with the New Systems [illegible] and with his family will [illegible] home in time to [illegible] where he has accepted a position with a large paper manufacturing concern and where he has real estate interests.

WORLD WIDE GUILD HELD ANNUAL BANQUET

Covers were laid for thirty, Wednesday evening, when the annual banquet of the World Wide Guild of the First Baptist church was held in the supper room at the church. The tables were most beautifully decorated with pink roses and laurel, the softened glow of the lights adding much to the effectiveness of the decorations.

The banquet was served shortly after 6.30 o'clock, the menu being as follows:

Fruit Cocktail
Olives
Meat Loaf Mashed Potatoes
Buttered French Rolls
Cucumber and Tomato Salad
Neapolitan Ice Cream
Assorted Cake Iced Tea

The toastmaster of the evening was Miss Vera Stetson, acting for Mrs. Jannie Pineault, president of the Guild. Regrets were expressed that Mrs. L. A. Hurlbutt, teacher of the class was unable to be present owing to illness.

During the courses a number of guild songs were sung after which Miss Stetson called on several of the members for toasts. Mrs. Gertrude Amburn responded with a toast "To the Old Year," and was followed by Miss Marion Lathrop who spoke on "The Yes of a Guild Girl". The final toast was given by Miss Gladys Tortoiseshell, "To the New Year."

After the speaking the members remained at the tables and sang a number of guild songs, closing the entertainment by a Guild cheer. A social [illegible] followed.

The committee in charge of the banquet, to whom great credit is due for the happy affair comprised, Miss E. [illegible] Crumb, chairman, Mrs. Gertrude Amburn, Miss Edna Jones, Miss [illegible] Miss Ethel Chatfield, the committee being assisted greatly by Mrs. Frank P. Church and Mrs. Minnie Amburn.

WHEN YOU WANT to put your business before the public, there is no medium better than through the advertising columns of The Bulletin.

FOUR WIVES AND ONE HUSBAND RECEIVE DIVORCES THEY SOUGHT

Four divorces on the uncontested list were granted here Friday morning by Judge John R. Booth at the short calendar session of the superior court, in one uncontested case he reserved decision, and in another suit that was heard as a contested case he granted the divorce with alimony of $300.

Abby Palmer Stefferson Carley of Stonington was granted divorce from John Carley, now of parts unknown, whom she married August 17, 1914. Desertion was charged Sept. 16, 1915. She was given the custody of an eight year old daughter.

Elsie Laborie Knowlton of New London, secured divorce from Robert R. Knowlton of Stafford on the ground of intolerable cruelty since July 1, 1922. They were married Aug. 14, 1909. The wife was given the custody of a minor daughter and son, aged 12 and 6 years.

William Fromer of New London who married Dora Fromer, formerly of New York, now of parts unknown, was given divorce from her on the ground of desertion, May 11, 1916. They were married March 19, 1916.

Katie M. Haulisch of Stonington secured divorce from Gustave Haulisch, now of parts unknown. They were married Dec. 27, 1913 and the divorce was on the ground of intolerable cruelty since Jan. 1, 1917. She was allowed change of name to Katie M. Fee.

In the suit of Gladys I. Foster of Norwich against John H. Foster Judge Booth took the papers. Mrs. Foster seeks the divorce on grounds of cruelty. The husband, so the witness testified, has a considerable record for improper conduct toward other people, and is now serving a year in jail for some deed which he had committed. The separation of the couple came about on Feb. 13, 1923, after the husband had committed more of his improper acts. The mother is now supporting herself and three children, Mabel 4, Ethel 2, and a baby 10 months of age, the parents of the plaintiff also helping toward her support.

The cases of Edith Hareld against Walter J. Hareld went off the list, as did the case of Frances DeNardis of New London against Cornelius DeNardis.

Mary Hamorski Danko of Franklin was granted divorce from John Danko of the same town and alimony of $300 to be paid in three months. The divorce was on the ground of intolerable cruelty since May 1, 1915. They were married May 31, 1902.

This was heard as a contested case.

The defendant now owns a farm in Franklin. He said that he would not pay the $300, upon which the judge told him that if he did not comply with the court's order that he would have to go to jail. He replied that he would go to jail before he would pay any alimony and Judge Booth told him the prospects were good for him to spend some time in jail.

Attorney Douglass appeared for the plaintiff and Attorney Desmond withdrew for the defendant, the man putting up his own defense. The couple were married in 1902, and the wife claimed that the husband treated her very badly, as did one of the daughters, who also testified. The husband claimed that the wife kept taunting him of the other man in the case, which caused her to leave his home about five years ago, with three children.

After questioning by the plaintiff's attorney in regard to how much money the defendant had, he replied that he had no money, but he did have $800 which he spent for improvements on his farm, which he had earned in the past five years, so he claimed.

STATE HIGHWAY DEPARTMENT HAS NEW WORK PLANNED

Bids for the construction of about twenty miles of highway, and two concrete bridges, are called for in sixteen proposals which the state highway department has prepared for submission to contractors. The improvements contemplated are located in all parts of the state.

Further progress toward widening the Boston Post road to thirty-six feet from the New York state line to Bridgeport is shown in the fact that the proposals contain an item for the construction of 1840 feet of reinforced concrete pavement in Stamford. Several other large projects of this kind are now in the course of construction on the post road.

Another important improvement is the proposed construction of about 16,500 feet of reinforced concrete pavement on the Plainville-Farmington road and 1,950 feet of reinforced concrete on Cook street in Farmington, which will be awarded as one contract.

In Eastern Connecticut the proposed improvements include the following:

Town of Groton—About 1,132 linear [illegible] concrete pavement on [illegible] Mystic.

[illegible] and cement will be furnished by the state.

[illegible] Bolton—About 4,300 linear [illegible] inch bituminous macadam over [illegible] base on the Bolton [illegible] stone macadam on the Easton road from the foot of Round Hill to the Black Rock turnpike.

FINED FOR VIOLATION OF PARKING ORDINANCE

(Special to The Bulletin)

New London, June 27.—David Cramer of 5 Washington street, Norwich, had his second experience in the police court here this morning. He was arrested for violation of the parking [illegible] was fined $5. last summer Cramer was apprehended for the same offense. Yesterday he drove up to the curbing on Bank street and went into a store to sell goods. He realized that parking was not allowed on that street for a longer period than thirty minutes so when he had stayed about that time he moved his machine to another parking place a short distance away. Policeman Courtney recognized that Cramer was offending in what he did and tagged his car. That brought the young man into court today. At the police station Cramer represented that he "knew the law" and said he was a reader of law himself. He attempted to argue the case, but was told to tell his story to the judge. Tony DiMarco, a local taximan, was also fined $5 for violation of the parking ordinance. He drove up to the south side of State street and waited there for the persons who had his car under hire for nearly an hour. He admitted the fact, but disclaimed any purpose of violating the ordinance.

NORTH STONINGTON NATIVE DIED IN MASSACHUSETTS

Abel Chalkley Collins, 67, died suddenly Wednesday night at his home in Great Barrington, Mass., after he had been to a banquet in honor of Alfred W. Wilcoxson, given by the Masons in the town.

Mr. Collins was born in North Stonington, Conn., March 27, 1857, the son of Abel Francis and Electa Collins. Following graduation at Brown university in 1878 he taught school in Connecticut for three years and with his parents came to Great Barrington in 1881 when he began to study law and was admitted to the bar in 1884.

Mr. Collins held various offices in town, having been selectman from 1886 to 1889 and member of the school board for six years. At the time of his death he was a member of the library trustees. In 1901, he served one year in the legislature. On Jan. 2, 1890, he was married to Sarah Sheldon of Great Barrington, who died five years ago. He leaves three sons, Sheldon Collins of Great Barrington, Theodore Collins of St. Petersburg, Fla., and Frederick Collins of New York city.

BRIDGE AND WHIST WITH MANY PLAYING

A very successful bridge and whist party was held at the Catholic Ladies of Columbus rooms, Friday evening and a large number of members attended. The prizes were awarded as follows: First bridge to Miss Sadie Driscoll, 2nd to Mrs. P. F. Sweeney. Whist, 1st to Miss Mary Sullivan, 2nd to Mrs. John Wheeler. A beautiful basket of cut flowers donated by Hawkins was given as a door prize to Miss Eileen Hinchey. Mrs. Thomas J. McVeigh was chairman in charge for the evening.

Unclaimed Letters

Unclaimed letters in the Norwich, Conn., post office for the week ending June 28, 11924:

Miss Evelyn Hersom, Miss Mary B. Kaminsky, Miss Mamie McCarty, Mr. Pierre St. Onge.

CELEBRATED FIRST MASS AT DANSVILLE CHURCH

Rev. John Aloysia Lyons, who has been recently ordained and who celebrated his first solemn high mass at St. Mary's, Dansville, N. Y., last Sunday, celebrated the 8.30 mass at St. Mary's Memorial church here Thursday and left for the west Thursday after visiting his sister, Miss Katherine A. Lyons of 25 Brook street. He expects to reach Louisville, Ky., by the Fourth of July. Father Lyons is the son of Thomas Lyons, who formerly had a barber shop in Greeneville and Franklin street.

In an account of the celebration of the mass the Dansville Breeze says:

The attendance at St. Mary's church yesterday morning for the celebration of the first solemn high mass by Rev. John Aloysia Lyons, the newly ordained priest, exceeded that of any gathering ever in the edifice. Not only was the seating capacity of the church taxed to its utmost, but chairs were placed along the entire length of the side aisles to accommodate the people.

The processional started from the home of Father Lyons' father, Thomas Lyons on Clay street, under the escort of the Knights of Columbus and St. Boniface societies, the young priest and his pastor, Rev. Leo G. Hofschneider, also his father, Thomas Lyons, riding in an automobile.

The relatives of Father Lyons were seated on either side of the middle aisle, behind them the members of the two societies.

The sermon was preached by Rev. Albert Geiger. Before concluding his remarks Father Geiger spoke a few congratulatory words to relatives and friends. In his words for the parents he paid a beautiful, tender tribute to the beloved mother of Father Lyons who had labored so long and zealously for her son, and who eagerly longed for the moment when she might see him a priest at the altar, but God deemed otherwise and called her home a few months ago. This cross, overshadowing this happiest day of the young priest's life, however, was borne with resignation that was edifying.

At the celebration of the mass, Master John Gaughan, a nephew of Father Lyons, was flower boy, and his niece Little Rita Mayer, was pillow bearer.

Following the services at the church dinner was served at the Knights of Columbus hall and was attended by the visiting clergy and students, relatives and friends to the number of 250. Following the dinner Rev. John E. Masseth, chaplain of the K. of C. presented Father Lyons a purse of gold, the gift of members of both parishes—St. Mary's and St. Patrick's.

DANGER IN SECOND STOP OF TROLLEY CARS

So many accidents have been caused, according to reports made to the state motor vehicle department, by trolley cars stopping a second time to discharge belated passengers, that the department has asked the Connecticut company and other trolley companies in the state to instruct their motormen not to permit passengers to leave cars which have stopped for a second time until all automobiles which have been held up in the rear have passed. The Connecticut company has notified Commissioner Stoeckel that it will gladly cooperate in the manner suggested.

The operators of a motor vehicle, when overtaking a street railway car that has stopped to receive or discharge passengers is required by the state law to bring the motor vehicle to a full stop not less than ten feet from the rear of the trolley car, and to hold the motor vehicle stationary until all pedestrians or passengers are out of danger, when he is permitted to proceed at a reasonable rate of speed. Only in cases where the motor vehicle can pass the trolley car at a distance of not less than ten feet does the state law permit the motor vehicle operator to proceed "at a reasonable rate of speed" without stopping.

As a result of this law, motor vehicles invariably line up behind stopped trolley cars in city streets during the rush hours and immediately start when the trolley car gets under way again. For the trolley car abruptly to stop again to let off a passenger who was not quick enough to alight at the first stop is therefore dangerous because there is almost certain to be a line of motor vehicles passing the trolley car door.

Flowers at Erlbeck Funeral

At the funeral of Frances Sophia Erlbeck held Thursday from the home of her parents in Taftville, there were a number present from Massachusetts cities.

The numerous floral tokens included the following: Mr and Mrs. Wormsley and family, cross; Valmore Gagnon, wreath; Mr. and Miss Vogtman, basket; Hebeerding, marked cousin, pillow; Mrs. Charles Veilman, heart; Thoma, basket; parents, Our Darling, pillow; Mrs. Lagard, family, cross; Mr. and Mrs. Thomas, star; Ronald Thurlow, spray; Mrs. Howard Rydholm, spray, Mrs. Wunderlich and Mrs. Friswell, spray; Mrs. C. J. Bauer, crescent; Mrs. Walter Drew, spray; Mr. and Mrs. Holland, wreath; pupils and teachers from Wequonnoc school, spray; Mrs. Mc'l Richmond, spray; Mr. and Mrs. William Grotsch, spray; Mr. and Mrs. Henry Erlbeck, wreath; Mrs. Max Roter, spray; Willie and Katie, spray; Frank J. Erlbeck, spray; Mr. and Mrs. F. B. Ricketson, spray; Hortense Caron, spray; Fred and Andrew Erlbeck, marked sister, crescent; Mr. and Mrs Erlbeck, spray; two boys, bouquet.

HENS AT STORRS ARE MAKING GAIN

For the last two weeks the hens in the egg laying contest at Storrs have been gaining over their previous production. This week they laid 98 eggs more than last week, 162 eggs more than last year for the same period and their total production for the week was 3850 eggs or a production of 55 per cent. At the end of the thirty-fourth week the 100 pens have a grand total of 111,603 eggs, which is an average of 111.6 eggs per bird. A pen of Rhode Island Reds owned by Red Mount Farm, Franklin, Mass., was an easy first with a production of 57 eggs. Henson Poultry Farm's White Leghorns from Corvallis, Ore., were second with a production of 55 eggs. A pen of the same breed owned by George B. Ferris of Grand Rapids, Mich., was third with a score of 53 eggs. Fourth place went to a pen of Barred Rocks owned by the Ontario Agricultural College, Guelph, Ont. The production for this pen was 52 eggs.

Coccidiosis is a disease of the intestinal tract of the bird. The disease is transmitted by means of feed, water, and soil that have become contaminated. This disease not only affects the old birds but also the young chicks. When a flock of chickens is affected with this disease they show signs of drowsiness and they have a ruffled appearance. Their droppings, as a rule, are white and creamy but may be mixed with a brownish matter. The passage of the droppings often causes pain as evidenced by a sharp cry which they often make. A post mortem of a chick infected with this disease shows that the ceca are filled with a bloody semi-solid mass and they are somewhat distended. The mucous lining of the small intestines is reddened, showing signs of irritation. The liver may be enlarged and covered with gray or yellowish white spots. Several treatments have been recommended but none will cure the disease after it has become firmly established. The following is recommended when the disease first makes its appearance: One-third teaspoon of crude catechu to each gallon of drinking water. The California Experiment Station recommends using one teaspoon of hydrochloric acid in one quart of water.

The four leading pens in each of the principal breeds are as follows:

Plymouth Rocks.

Edgar Stoughton (Barred) Wapping, Conn.	1342
H. F. Barber (White) Dover, Mass.	1334
Purdue University (Barred) Lafayette, Ind.	1329

Loyal Circle Picnic.

The annual picnic of Loyal Circle, King's Daughters, was held Thursday at the home of Mrs. Arad Manning. At noon luncheon was served, consisting of chicken salad, tongue, potato chips, olives, pickles, rolls, cake and ice cream and later in the day fruit punch, ice cream and cake were served to the 22 members. Arrangements for the picnic were carried out by the social committee, Mrs. Herbert R. Kind, chairman, Mrs. George E. Zimmerman, Mrs. Arad Manning, Mrs. William S. Bailey, Mrs. Richard Tracy, Mrs. Samuel Wilson, Mrs. Nelson Weymouth, Mrs. Alexander Durie and Mrs. John Sherman.

Neighbors can see the eclipse of the honeymoon without the aid of a telescope.

MISS AGNES LEAHY TO STUDY AT COLUMBIA

A year's leave of absence has been granted Miss Agnes Leahy of this city, connected with the personnel bureau of Connecticut College. In September Miss Leahy will enter Columbia university, New York city, for a course of study in psychology and kindred subjects.

Miss Leahy is now in New York attending an intensive course of lectures on vocational guidance for college women, given at the headquarters of and under the auspices of the Bureau of Vocational Guidance, West 43rd street. This is a course for college deans and others who are engaged in placing college graduates. Miss Leahy is the daughter of Mrs. Thomas B. Leahy of Otis street.

Arrested in Providence.

Louis Trumentossi, 48 years of age, wanted in this city for alleged rape on a 14-year-old Italian girl, was arrested in Providence Friday by the police of that city and will be brought back to Norwich today (Saturday). The alleged offense occurred several weeks ago. It is said that the offense occurred while Trumentossi was boarding with the girl's family.

As a second offender against the liquor laws, Mrs. Michaelino Russo, 45, was fined $400 and costs and sent to jail for 60 days, by the city court in New Haven.

POETRY

LOVE'S CALENDAR.

That rusty spring, each afternoon
By the ivied cot I passed,
And noted at that lattice soon
Her fair face downward cast:
Still in the same place seated there,
So diligent, so very fair.

Oft-times I said I knew her not,
Yet that way round would go
Until, when evenings lengthened out,
And bloomed the may-hedge row,
I met her by the wayside well,
Whose waters, maybe, broke the spell.

For, leaning on her pail, she prayed
I'd lift it to her head.
So did I; but I'm much afraid
Some wasteful drops were shed.
And that we blushed, as face to face
Needs must we stand the shortest space

Then when the sunset mellowed through
The ears of rustling grain,
When lattices wide open flew
When ash-leaves fell like rain,
As well as I she knew the hour
At morn or eve I neared her bower

And now that snow o'erlays the thatch,
Each starlit eve within
The door she waits, I raise the latch
And kiss her lifted chin:
Nor do I think we've blussed again,
For Love hath made but one of Twain.
—William Bell Scott.

SAND.

I am lord of the waterless waste, I am
king of the desert,
I fill the lone spaces, and sprinkle th
floor of the sea;
I sift and crumble my atoms with pa
sionless lab.r,
While the ages swing on to their goa
and the centuries flee.

I am patien:: I wait while the times ar
the seasons go over,
Ere I swallow your pomp and you
pride, the work of your hands.
I have hidden in far-famed cities, you
tombs and your temples,
And their glory lies choked 'neath th
weight of devouring sands!

Ye are dragging the past from the dee
of untroubled oblivion,
And piercing the secrets of old? I
well; I can wait.
Can ye conquer, O pygmies, whose lif
but a breath and a vapor?
Nay, behold, I am ancient as Time, re
lentless as Fate!
—Margaret Ormiston, in Observer

HUMOR OF THE DAY

She—What are you thinking of?
He—Nothing.
She—Oh, do take your mind o
yourself. — Boston Transcript.

Second Rah-rah—Rather slow. We killed a couple of frosh last night and the young rascals blew up our dormitory.—American Legion Weekly.

Jim, lend me a five-spot for a moment—only for a moment.
Quite sure you only want it for moment?
Quite sure—only for a moment.
All right. Wait a moment, and t you won't want it.—Progress of cer.

Soapy—Say bo, can yo done te potatoes wit all "o's?"
Rastus—How done you get dat way?
Soapy—Take out dat nice leather memorandum of your, put one o, put two o's, put three o's, put four o's put five o's, put six o's, put seven o's put eight o's, potatoes! — Boys' Life

KALEIDOSCOPE

Some 400,000 persons live crowded together in boats on the Pearl river at Canton, China.

Engineers assert that there are sufficient peat deposits in Minnesota to supply all state requirements for hundreds of years.

A southern plant breeder has greatly increased the production of a cotton plant by grafting it to the roots of a mulberry tree.

The telephone company in San Francisco employs thirteen Chinese girl operators, all of whom are thoroughly conversant with the English language as well as with several native Chinese dialects.

The oldest bottle of wine in the world as far as authenticated records can settle this question, is in the possession of a London wine expert. It is a bottle of Bavarian hock, which bears on its label the date 1540.

The oldest classified collection of butterflies and insects in the world is that possessed by the Museum of Natural History in London. A recent examination of the collection shows that, though more than 150 years old, the fragile exhibits are perfect.

According to examinations made by school medical inspectors of New York state during 1922-23, 47 per cent of the children living in cities, 48.3 per cent of those living in villages, and only 27.4 per cent of those living in rural districts are physically normal.

When wolves threaten a herd of musk ox, the attacked animals form a circle of deadly down-dropping horns which proves impregnable. A bull may rush out in an effort to pierce a wolf, but he is never lured too far and soon returns to the circle, backs into place and resumes his defensive attitude.

Agricultural officials of the French government in Algeria have found a new method of preventing forest fires. Is consists in carpeting the ground under the trees with a hardy creeping plant that will not burn. Juicy plants that do not dry up and that spread rapidly even in the shade are being planted. Not only are the plants incombustible but they have an additional value in conserving the moisture of the soil. Weeds are also choked by the thick, obscuring foliage. The plants used are species of ground ivy.

Instead of fishing for fish, Samoa islanders often hunt them. Spears are used against fish traveling in schools, where chance shots may prove effective. Old men and women also beat the water with a flat curved piece of wood to drive the fish into shallow water along the coral reefs where they can be caught with the hand. The fish which take refuge under rocks are tempted out by bait and then speared. Fish hunting in Samoa is a hazardous occupation. Some of the fish bite severly and poisonous snakes may also be hiding under the rocks.

DEMOCRATIC NAT'L CONVENTION REJECTS PLANK CONDEMMING "K. K. K." BY FOUR VOTES

Platform Perfected Early Yesterday Morning Amid Scenes of Confusion Seldom Parrallelled in Party History—Vote on Klan Plank 564 15-100 to 541 85-100—Balloting for Candidate for Presidency to Begin This Morning—Deadlock is Looked for as Supporters of a Dozen Candidates Renew Their Predictions of Victory — Convention's Action on All-Absorbing Question of the Klan Apparently Had No Effect on the Relative Standing of the Candidates—Full Text of the Party's Platform.

New York, June 29. — Emerging [illegible] from a titanic struggle over its [illegible] n, the democratic national convention prepared today to plunge into another over candidates.

Balloting for a nominee for the presidency will begin tomorrow [illegible]. A deadlock is in prospect, [illegible] tonight the supporters of a dozen candidates renewed their predictions of victory.

The platform was perfected at two [illegible] this morning, when, amid scenes of confusion seldom paralleled in history, a plank condemning the Klan Klan by name was proposed rejected by the narrow margin of eight vote. Another serious [illegible] had been decided previously plank reaffirming in general only the party's plank in the [illegible] of Nations.

[illegible] convention's action on the all-[illegible] question of the Klan appar[illegible] no effect on the relative [illegible] of the candidates, except as [illegible] a further argument for those who are predicting that [illegible] South nor McAdoo can be [illegible]. The out and out anti-plank, according to Permanent [illegible] Wa[illegible]'s announcement re[illegible]ties, with the active support of Governor Smith and many [illegible] friendly to him voting for it. [illegible]s votes were announced as against it largely from the states [illegible] are giving their support to Mr.

[illegible] of the vote as actually [illegible]s and territories, however, [illegible] ified on recapitulation to[illegible] that 546 and fifteen hundred were cast against nam[illegible] and that 541 and eighty-[illegible]s votes were cast in favor. [illegible] actually increased the [illegible] and thirty hundredths instead of the one single vote [illegible] in the official announcement. [illegible] Smith people declared the to[illegible] for the proposal showed [illegible] the inability of McAdoo [illegible] the two-thirds necessary for [illegible] nation and the McAdoo men [illegible] votes cast on the other side [illegible] elimination of Smith. The [illegible] for the other candidates [illegible] with both of them.

[illegible] is a unit the anti-Klan ele[illegible] of the party expressed their will[illegible] to remain with their [illegible] the platform contest, despite [illegible]row margin by which it was [illegible]. There was one suggestion [illegible] solution might be offered in[illegible] the religious liberty plank [illegible] as in effect a condemnation [illegible] Klan, but the move had no in[illegible] of widespread support.

[illegible] convention's floor fight over the [illegible] issue had been accompanied by [illegible] usual display of passion, but it [illegible] colorless and almost uninteresting in contrast to the battle waged [illegible] the Klan plank through the [illegible]ch hours and into the early [illegible] of the Sabbath.

[illegible] the two hours of intensive de[illegible] several of the outstanding figures of the democracy, past and present, played upon the emotions of the vast assemblage until delegates and [illegible]s had reached a pitch of nervous excitement rendering futile all further attempts at orderly proceedure. Brainbridge Colby, secretary of state under Wilson, challenged his party in a fighting speech to openly condemn the Klan, and William enjoys Bryan closed the argument for opposition with an old time shower [illegible]sh and fire that was alternative[illegible]th jeers and applause from floor [illegible]d gallery.

Then, for two hours and a half, the convention sought in a confusion bordering on hysteria, to determine its own mind. As the roll was ended an army growl of disputation swept over the convention hall in rising volume, chairs were overturned, two or three state standards were wrecked, and there were several personal encounters on the floor and the speaker's platform.

The balance turned finally when, at the end of the roll call, two delegates from Georgia, the home state of the Klan, changed their vote and asked that they be recorded against the plank naming the klan. They were Pleasant A. Stovall, the Savannah publisher, and Miss Marion Colley of Washington, Ga.

Rising in her place after other members of the delegation had gathered about her in earnest discussion, Miss Colley tearfully and in a faint and quaking voice announced her final decision, and attempted in vain, amid the din of the convention hall to explain why she could not vote to criticize the klan.

Earlier in the session the Georgia group had been the target for a long and bitter demonstration against the klan, after one of the dissenters among them, Andrew C. Erwin, of Athens, had taken the speaker's stand and pleaded with the convention to take an open stand against the invisible empire. A score of anti-klan delegations assembled their standards in a scornful, taunting ring about the Georgians, and Erwin was lifted to the shoulders of demonstrators and carried around the hall as the head of a howling procession of delegates.

In the final moments before the result was announced, Joseph P. Tumulty, secretary to Woodrow Wilson while he was in the White House, led a determined campaign on the convention floor to swing over the few votes that would write the anti-klan plank into the party platform. The effort introduced several new elements of confusion, and led to at least one encounter in which police intervened. Acting with Tumulty, T. T. Ansberry of Washington, D. C., who held credentials as an alternate from the Philippines, and Lawrence F. Guigley, mayor of Chelsea, Mass., twice challenged the accuracy of the Philippine vote, and forced a poll of the delegation. Later Quigley sought to question the vote of Georgia and then from his place in the Massachusetts delegation demanded a poll of the delegation from New Hampshire.

The drive of the anti-klan cohorts did not end even after the vote had been announced, and the adjournment found Quigley on his feet seeking amid the confusion to challenge the ballot of the entire convention. He was shouted down by those about him.

FULL TEXT OF THE DEMOCRATIC PLATFORM

New York, June 29.—The text of the platform submitted to the democratic national convention by its resolutions committee follows:

Democratic National Platform:

We, the representatives of the democratic party, in national convention assembled, pay our profound homage to the memory of Woodrow Wilson. Our hearts are filled with gratitude that American democracy should have produced this man, whose spirit and influence will live on through the ages; and that it was our privilege to have cooperated with him in the advancement of ideals of government which will serve as an example and inspiration for this and future generations. We affirm our abiding faith in those ideals, and pledge ourselves to take up the standard which he bore and to strive for the full triumph of the principles of democracy to which he dedicated his wife.

Democratic Principles.

The democratic party believes in equal rights to all, special privilege to none. The republican party holds that special privileges are essential to national prosperity. It believes that national prosperity must originate with the special interests and seep down through the channels of trade to the less favored industries, to the wage earners and small salaried employes. It has accordingly enthroned privilege and nurtured selfishness. The republican party is concerned chiefly with human rights. The masses, burned by discriminating laws and unjust administration, are demanding relief. The favored special interests, represented by the republican party, contented with their unjust privileges, are demanding that no change be made. The democratic party stands for remedial legislation and progress. The republican party stands still.

Comparison of Parties.

We urge the American people to compare the record unsullied years of democratic administration with that of the republican administration. In the former there was no corruption. Party pledges were faithfully fulfilled, and a democratic congress enacted an extraordinary number of constructive and remedial laws. The economic life of the nation was quickened. Tariff taxes were reduced. A federal trade commission was created. A federal farm loan system was established. Child labor legislation was enacted. A good roads bill was passed. Eight-hour laws were adopted. A secretary of labor was given a seat in the cabinet of the president. The Clayton amendment to the Sherman anti-trust act was passed, freeing American labor and taking it from the category of commodities. By the Smith-Lever bill improvement of agricultural conditions was effected. A corrupt practice act was adopted. A well considered warehouse act was passed. Federal employment bureaus were created, farm loan banks were organized and the federal reserve system was established. Privilege was uprooted. A corrupt lobby was driven from the national capital. A higher sense of individual and national duty was aroused. America enjoyed an unprecedented period of social and material progress.

During the time which intervened between the inauguration of a democratic administration on March 4, 1913, and our entrance into the World war, we placed upon the statute books of our country more effective, constructive and remedial legislation than the republican party had placed there in a generation.

During the great struggle which followed we had a leadership that carried America to greater heights of honor and power and glory than she had ever known before in her entire history.

Transition from this period of exalted democratic leadership to the sordid record of the last three and a half years make the nation ashamed. It marks the contrast between a high conception of public service and an avid purpose to distribute spoils.

Republican Inefficiency.

Never before in our history has the government been so tainted by corruption and never has an administration so utterly failed. The nation has been appalled by the revelations of political depravity which have characterized the conduct of public affairs. We arraign the republican party for attempting to limit inquiry into official delinquencies and to impede, if not to frustrate, the investigations to which in [illegible] the republican party and leaders assented, but which later they regarded with dismay. These investigations sent the former secretary of the interior to Three Rivers in disgrace and dishonor. These investigations revealed the incapacity and indifference to public obligation of the secretary of the navy, compelling him by force of public opinion to quit the cabinet. These investigations confirmed the general impression as to the unfitness of the attorney general by exposing an official situation and personal contacts which shocked the conscience of the nation and compelled his dismissal from the cabinet. These investigations disclosed the appalling conditions of the veterans' bureau with its fraud upon the government, and its cruel neglect of the sick and disabled soldiers of the World war. These investigations revealed the criminal and fraudulent nature of the oil leases, which caused the congress, despite the [illegible]nce of the executive to direct recovery of the public domain and the prosecution of the criminal.

Such are the exigencies of partisan politics that republican leaders are teaching the strange doctrine that public censure should be directed against those who expose crime rather than against criminals who have committed the offenses. If only three cabinet officers out of ten are disgraced, the county is asked to marvel at how many are free from taint. Long boastful that it was the only party "fit to govern," the republican party has proven its inability to govern even itself. It is at war with itself. As an agency of government it has ceased to function. This nation cannot afford to entrust its welfare to a political organization that cannot master itself, or to an executive whose policies have been rejected by his own party. To retain in power an administration of this character would inevitably result in four years more of continued disorder, internal dissension and governmental inefficiency. A vote for Coolidge is a vote for chaos!

Issues.

The dominant issues of the campaign are created by existing conditions.

Dishonesty, discrimination, extravagance and inefficiency exist in government. The burdens of taxation have become unbearable. Distress and bankruptcy in agriculture, the basic industry of our country, is affecting the happiness [illegible] prosperity of the whole people. The high cost of living is causing hardship and unrest. The slowing down of industry is adding to the general distress. The tariff, the destruction of our foreign markets, and the high cost of transportation are taking the profit out of agriculture, mining and other raw material industries. Large standing armies and the cost of preparing for war still cast their burdens upon humanity. These conditions the existing republican administration has proven itself unwilling or unable to redress.

The income tax was intended as a tax upon wealth. It was not intended to take from the poor any part of the necessities of life. We hold that the fairest tax with which to raise revenues for the federal government is the income tax. We favor a graduated tax upon incomes, so adjusted as to lay the burdens of government upon the taxpayers in proportion to the benefits they enjoy and their ability to pay. We oppose the so-called nuisance taxes, sales taxes, and all other forms of taxation that unfairly shift to the consumer the burdens of taxation. We refer to the democratic revenue measure passed by the last congress as distinguished from the Mellon tax plan as an illustration of the policy of the democratic party. We first made a flat reduction of 25 per cent. upon the tax of all incomes payable this year, and then we so changed the proposed Mellon plan as to eliminate taxes upon the poor, reducing them upon moderate incomes, and in a lesser degree, upon the incomes of multi-millionaires. We hold that all taxes are unnecessarily high, and pledge ourselves to further reductions.

We denounce the Mellon tax plan as a device to relieve multi-millionaires at the expense of other taxpayers, and we accept the issue of taxation tendered by President Coolidge.

Agriculture.

During the four years of republican government the economic condition of the American farmer has changed from comfort to bankruptcy, with all its attendant miseries. The chief causes of this are

(A) The republican policy of isolation in international affairs has prevented Europe from getting back to its normal balance, and, by leaving unsolved the economic problems abroad, has driven the European city population from industrial activities to the soil in large numbers in order to earn the mere necessities of life. This has deprived the American farmer of his normal export trade.

(B) The republican policy of a prohibitive tariff, exemplified in the Fordney-McCumber law, which has forced the American farmer, with his export market debilitated, to buy manufactured goods at sustained high domestic levels, thereby making him the victim of the profiteer.

(C) The republican policy of high transportation rates, both rail and water, which has made it impossible for the farmer to ship his produce to market at even a living profit.

To offset these policies and their disastrous results, and to restore the farmer again to economic equality with other industrialists, we pledge ourselves:

(A) To adopt an international policy of such co-operation, by direct official instead of indirect and evasive unofficial means, as will re-establish the farmers' export market by restoring the industrial balance in Europe and the normal flow of international trade with the settlement of Europe's economic problems.

(B) To adjust the tariff so that the farmer and all other classes can buy again in a competitive manufacturers' market.

(C) To readjust and lower rail and water rates, which will make our markets, both for the buyer and seller, national and international instead of regional and local.

(D) To bring about the early completion fo internal waterway systems for transportation and to develop our water power for cheaper fertilizer and use on our farms.

(E) To stimulate by every proper governmental activity the progress of the co-operative marketing movement and the establishment of an export marketing corporation or commission in order that the exportable surplus may not establish the price of the whole crop.

(F) To secure for the farmer credits suitable for his needs.

(H) By the establishment of these policies and others naturally supplementary thereto, to reduce the margin between what the producer receives for his products and the consumer has to pay for his supplies, to the end that we secure an equality for agriculture.

Railroads.

The sponsors for the Esch-Cummins transportation act of 1920, at the time of its presentation to congress, stated that it had for its purposes the reduction of the cost of transportation, the improvement of service, the bettering of labor conditions, the promotion of peaceful cooperation between employer and employe, and, at the same time, the assurance of a fair and just return to the railroads upon their investment.

We are in accord with these announced purposes, but contend that the act has failed to accomplish them. It has failed to reduce the cost of transportation. The promised improvement in service has not been realized. The labor provisions of the act have proven unsatisfactory in settling differences between employer and employes. The so-called recapture clause has worked to the advantage of the strong and has been of no benefit to the weak. The pronouncement in the act for the development of both rail and water transportation has proven futile. Water transportation upon our inland waterways has not been encouraged, and limitation of our coastwise trade is threatened by the administration of the act. It has unnecessarily interfered with the power of the states to regulate purely intrastate transportation. It must, therefore, be so rewritten that the high purposes which the public welfare demands may be accomplished.

Railroad freight rates should be so readjusted as to give the bulky, basic, lowe priced raw commodities, such as agricultural products, coal and ores, the lowest rates, placing the higher rates upon more valuable and less bulky manufactured products.

Muscle Shoals and Fertilizers.

We reaffirm and pledge the fulfillment of the policy with reference to Muscle Shoals as declared and passed by the democratic majority of the sixty-fourth congress in the national defense act of 1916, "for the production of nitrates or other products needed for munitions of war and useful in the manufacture of fertilizers."

We hold that the production of cheaper and higher grade fertilizers is essential to agricultural prosperity. We demand prompt action by congress for the operation of the Muscle Shoals plants to maximum capacity in the production, distribution and sale of commercial fertilizers to the farmers of the country, and we oppose any legislation that limits the production of fertilizers at Muscle Shoals by limiting the amount of power to be used in their manufacture.

The democratic party pledges itself to the following program:

Honest government.

We pledge the democratic party to drive from public places all who make barter of our national honor, its resources or the administration of its laws; to punish those guilty of these offenses.

To put none but the honest in public office; to practice economy in the expenditure of public money; to reverence and respect the rights of all under the Constitution.

To condemn and destroy government by the spy and the blackmailer as by this republican administration was both encouraged and practiced.

Tariff and Taxation.

The Fordney-McCumber tariff act is the most unjust unscientifical and dishonest tariff tax measure ever enacted in our history. It is class legislation which defrauds all the people for the benefit of a few; it heavily increases the cost of living, penalizes agriculture, corrupts the government, fosters paternalism, and in the long run, does not benefit the very interests for which it was enacted.

We denounce the republican tariff laws which are [illegible] in great part in aid of monopolies and thus prevent that reasonable exchange of commodities which would enable foreign countries to buy our surplus agricultural and manufactured products with resultant benefit to the toilers and producers of America. Trade interchange, on the basis of reciprocal advantages to the countries participating is a time-honored doctrine of democratic faith. We declare our party's position to be in favor of a tax on commodities entering the customs houses that will promote effective competition, protect against monopoly and at the same time produce a fair revenue to support the government.

The greatest contributing factor in the increase and unbalancing of prices is unscientific taxation. After having increased taxation and the cost of living by two billion dollars, under the Fordney-McCumber tariff, all that the republican party could suggest in the way of relief was a cut of three hundred million dollars in direct taxes; and that was to be given principally to those with the largest incomes. Although [illegible] was no evidence of a lack of capital for investment to meet the present requirements of all legitimate industrial enterprises, and although the farmers and general consumers were bearing the brunt of tariff favors already granted to special interests, the ad-

Three Firemen Hurt at Syracuse Blaze

Seven Others Overcome by Amonia Fumes While Fighting Fire in Factory District—Loss Estimated at $100,000.

Syracuse, N. Y., June 29.—A fire captain and six of his men were overcome by smoke and ammonia fumes and three others injured during a fire today which destroyed the Sheffford Cheese Company plant. The damage is estimated at $100,000.

Captain William N. Huber, collapsed on the roof of the burning structure and was carried to a place of safety on one of the lower floors. His condition tonight was reported as favorable.

Three of a dozen or more firemen on a rear roof disappeared from sight when it collapsed, but only one fell to the floor beneath.

Twenty carloads of cheese, valued at approximately $80,000 was practically destroyed. Damage to the building amounted to about $20,000.

Democratic Leaders Predict Forty Ballots

McAdoo and Governor Smith Hold Final Conferences With Their Chief Lieutenants—Former Claims Liquor Interests Against Him.

New York, June 29.—On the eve of balloting in the democratic national convention, the leading candidates for the presidential nomination were busy tonight consolidating their positions and issuing pronouncements of their confidence in the outcome.

Meantime those seeking the nomination but admittedly without anything like the numerical strength on the first ballots that will be mustered by either William G. McAdoo or Alfred E. Smith were continuing their quiet campaigns and laying plans against the time when, they predicted, there would be a break away from both the former treasury secretary and the New York governor.

Wherever leaders or delegates congregated today there was discussion of the possible effect upon the fortunes of this candidate or that resulting from the action of the convention early today in rejecting the anti-klan plank. Both the McAdoo and Smith managers claimed that the result, if anything strengthened their positions, but other candidates or their managers were in disagreement with that view.

With balloting only a few hours away there was more than the usual crop of "dark horse" talk. Leaders scorning such "horses" expressed the opinion tonight that foryt ballots would be taken before the storm and McAdoo forces would turn to a compromise candidate.

Those interested in the candidacy of Senator Samuel M. Ralston of Indiana, heard that in the event of a Smith-McAdoo deadlock the adherents of these two candidates would swing their votes to John W. Davis of West Virginia. It also was stated that either Governor Charles Bryan of Nebraska or Governor Jonathan M. Davis of Kansas, woul be second on such a compromise ticket.

Some of the Ralston supporters have suggested a Ralston-Homer S. Cummings or a Ralston-Governor Silzer ticket to offset such a combination that Thomas Taggart, the Indiana leader, who is backing Senator Ralston against the field, has agreed to neither so far as has been made known.

Both McAdoo and Governor Smith held final conferences with their chief lieutenants today for discussion of the opening phase of the battle of ballots. McAdoo spent much of the day quietly in his suite in an uptown hotel, but in the afternoon he visited William Jennings Bryan and tonight he addressed a rally of the delegates who are counted in his column.

Predicting that McAdoo would receive "not less than 401 votes on the first ballot," David Ladd Rockwell, his campaign manager, declared McAdoo would make gradual gains until he would receive a majority of the convention on the fifth or sixth ballot.

"We will hold that majority," he added, "and the delegates, most of whom are in no temper for a long-drawn out fight, will realize that a minority cannot block the will of the majority. Then they will start to jump on the McAdoo band wagon."

Governor Smith and his manager, Franklin D. Roosevelt, were no less optimistic. Mr. Roosevelt said the delegates "are confidently coming to the conclusion that duty to the party dictates the nomination of Smith for victory," in November.

Gov. Smith followed out his usual Sunday program, attending church in the morning and going to Sea Gate in the afternoon for a swim. Returning to his hotel he went into conference with George E. Brennan, of Illinois; Norman E. Mack of New York, Frank Hague of New Jersey, Martin L. Lueck of Wisconsin and others of his leaders.

The governor declined to make any statement as to the conference, saying in response to inquiries that two only discussed what cities I should visit during the campaign," and that "we also worked out the schedule of transportation by railroad and airplane."

Senator Oscar Underwood of Alabama, spent the day quietly at the home of a friend far out from the whirl of the convention circle where he has found refuge ever since he reached New York. His lieutenants kept in touch with him but continued to hold as confidential information as to his exact whereabouts.

There was no formal statement from Underwood headquarters, but C. C. Carlin, his campaign manager, met questions as to whether the Alabama candidates regarded the convention klan plank as "strong enough to fit his demands for denunciation of the klan, with the declaration:

"Senator Underwood will be nominated."

West Virginia leaders of the John W. Davis-for-second-choice movement expressed gratification today over the results of last night's tumultuous scenes in the convention hall. Picturing Davis as a bystander in the klan fight and one believing in practical steps to bring about American entry into the leaguet of nations, his supporters did not disguise their feelings that matters had turned his way up to this time.

MCADOO CLAIMS LIQUOR INTERESTS AGAINST HIM

New York, June 29.—William G. McAdoo, addressing a rally held tonight in the interests of his candidacy, declared that the liquor interests, as well as "big business" and a "subsidized and corrupt press," are seeking to block his nomination as the democratic presidential candidate.

BRINGING THREE "WHITE INDIANS" TO U. S.

Panama, June 29.—Richard O. Marsh, the American explorer, sailed for the United States today on board the steamer Calamares, with the three blonde Indians he brought with him from Darien recently. The Indians—a girl and two boys—are claimed by Marsh to be specimens of the "white" Indians sought for four months in the jungles of southeastern Panama.

CAUSE OF NEW HAVEN FIRE UNKNOWN

New Haven, June 29.—An investigation today failed to disclose the cause of fire which, last night, damaged the warehouse of the Baumann Rubber company. The loss was placed today at $26,000.

FIFTY NINE PERSONS KILLED BY TORNADO AT LORAIN, O.

Property Damage Estimated at Over $25,000,000—Driving Wind Ripped and Tore Everything in its Path as it Roared Through Streets Demolishing Buildings and Strewing Wreckage for Blocks—Over 7,000 People Homeless—Street Cars Were Blown From Their Trucks, Automobiles Overturned and Telegraph Poles Hurled Onto Building Roofs—Martial Law Has Been Proclaimed—200 Dwellings Leveled at Sanducky.

Lorain, O., June 29.—(By the A. P.)—Fifty-nine persons are dead 118 are injured and nearly half of the city of Lorain is in ruins as the result of the tornado that [illegible] the northern end of Ohio late yesterday afternoon.

Mayor George Hoffman and Artie Garford of Elyria estimated the property damage at $25,000,000 visible and $5,000,000 invisible. About 15 per cent of the city's population of 47,000, or a trifle over 7,000 people are homeless tonight, they said.

One hundred and seventy-five blocks or about 25 per cent of the city's residences were damaged, most of them beyond repair. Of all of the business buildings that line Lorain's [illegible] main street, Broadway, only two, the post office and the Fraternal Eagle's Club building, escaped damage.

The driving wind ripped [illegible] everything in its path as it [illegible] down the street, leveling most of the brick buildings at the second floor. Frame structures, filling stations and other [illegible] buildings were [illegible] demolished and the wreckage strewn for blocks.

The [illegible] wind [illegible] street cars from their trucks, [illegible] over and burned [illegible] as the [illegible] burned, and twisted [illegible] of switch poles like wire; snapped [illegible] wooden poles at the ground and hurled them across the streets and [illegible] lines.

Martial law was soon proclaimed [illegible] four hundred [illegible] guardsmen from Cleveland and [illegible] companies from Berea and another [illegible] are on the ground to [illegible] and assist in [illegible] debris. A [illegible] from [illegible] Camp Perry was [illegible] and [illegible] Brigadier General [illegible] McQuigg in command.

[illegible] and [illegible] [illegible] food [illegible] [illegible] [illegible] and [illegible] [illegible] [illegible]

WILLIMANTIC

James Moran, the 6 year old son of Mr. and Mrs. Edward Moran of Windham road, is a patient at St. Joseph's hospital with severe cuts about the face and body and possible concussion of the brain, having been struck in an unavoidable accident on Windham road, opposite his home, about 2.30 o'clock Saturday afternoon by an automobile driven by L. T. Garrison, district school supervisor, of Selden street this city. The boy ran out into the street and was seen by Mr. Garrison, who made futile attempts to avoid striking the boy, swinging his car across the other side of the road. He then turned sharply and brought the machine to an abrupt stop. The boy was taken to the office of Dr. [illegible] and then to the hospital. He did not regain consciousness [illegible] morning, when he appeared [illegible] to be retained at the hospital, to await developments.

At the synagogue of the Congregation of the Sons of Israel, on Bank street, at 8.30 o'clock Sunday evening, Miss Minnie Marnet, daughter of Mr. and Mrs. Max M[illegible] of Elm street, was united in marriage with Reuben Rosenblat of Hartford. The ceremony was performed by Rabbi Max Levine [illegible]. The bridesmaid was Miss [illegible] of the groom [illegible] Newark, N. J. was [illegible] Manchester [illegible] High school [illegible] Trade school [illegible] reside in Hartford [illegible] At the synagogue was tendered [illegible] Tabarin. Some 120 [illegible] a banquet which was followed by a social time and dancing to [illegible] orchestra. Guests [illegible] the nuptials and reception [illegible] New York, Newark, N. J., Hartford, Norwich and Willimantic.

The annual exercises for deceased members of Obwebetuck lodge, No. 16 [illegible] were held Sunday afternoon. The oration was delivered by [illegible] Andrew J. Littlefield of Lebanon [illegible] o'clock services were conducted in the Odd Fellows' hall on Main street. At the close a procession was formed and proceeded to Willimantic [illegible] where the annual decoration [illegible] took place. The program was carried out in the following order: [illegible] ode, assembly; reading of proclamation, Secretary Walter E. Thomson, P. G.; prayer, Rev. A. Stanley Mumhead of the Methodist [illegible] selections, Victor Record [illegible], N. E. O. P., introducing the orator, Noble Grand [illegible]; address, Rev. Andrew [illegible]; quartet selection, [illegible]; closing prayer, Rev. [illegible]; procession to the cemetery, Warden F. Mann, master of ceremonies; Charles A. Gates, P. G., was marshal.

Cars owned and driven by Arthur Chalifoux, 146 Madison street, Fitchburg, Mass., and Charles DeVillers of Walnut street, this city, figured in a slight accident when they collided about 8.30 o'clock Sunday morning at the intersection of Walnut and Valley streets. The Fitchburg man had the right of way and Mr. DeVillers agreed to pay the damage, which was [illegible].

A surprise miscellaneous shower was tendered Miss Loretta Curran, daughter of Mrs. John Curran of Prospect street, at the home of Mr. and Mrs. [illegible] Hevrin of Jackson street Saturday evening by Mrs. Edward Pare, Jr., of Providence, R. I. The affair [illegible] honor of Miss Curran's [illegible] with Florence [illegible] to Plainfield, now [illegible]. The bride-elect received many beautiful gifts. Among those present were Mrs. John Curran, Mrs. [illegible] Mrs. Joseph Marrotte [illegible] Gelinas, Florence [illegible] Powers, Gertrude [illegible] Mildred Fitzgerald, Mrs. [illegible] and Mrs. Edward Pare. A [illegible] luncheon was served.

Taking up the trail of information [illegible] the session of the [illegible] held before Justice [illegible] Andrews Friday afternoon, [illegible] and Michael [illegible] were convicted [illegible] intoxicating liquor. [illegible] Henry [illegible] Stafford Springs barracks [illegible] expanded raid [illegible] Indiana of the Hebron district, town of Chaplin, formerly of this city, and was successful securing evidence. A quantity of moonshine and a barrel of mash were seized by the officer. A still which was reported to be somewhere on the farm was not located. Ershina was taken before Justice of the Peace Charles B. Russ Friday evening and pleaded guilty to manufacturing and keeping liquor with intent to sell. The accused was fined $100 and costs on the charge of manufacturing liquor and $25 on the charge of keeping with intent to sell. Grand Juror Frank Landon prosecuted the case. The total assessment of $142.50 was paid by the defendant's daughter, who turned over a $100 Liberty bond and a balance of U. S. treasury savings certificates and loose change as payment.

At Clara Hall Elliott Memorial church, South Willington, Friday evening, a large gathering witnessed the installation service for the new pastor, Rev. Edmin E. Sundt. An organ recital by Frederick Tyler, church organist, marked the opening of the exercises. Scripture was read by Rev. Chester H. Howe of the New London First Baptist church, and prayer was offered by Rev. Charles G. Johnson of South Coventry. The address was delivered by Rev. Chester H. Howe, the introductory remarks being by Rev. E. E. Gates, secretary of the Connecticut Baptist convention, of Hartford. On behalf of the church, welcome was given by Deacon William H. Brackett. Rev. Mr. Johnson on behalf of the Congregational churches, Rev. F. F. Forshay of this city for the Baptist church, and Rev. Mr. Gates for the Baptist convention. Deacon Lovell read a letter of greeting from Rev. Sherrod Soule, who was unable to attend. A reception followed. The musical program included songs by Mrs. E. A. Waite of Rockville, piano; Frederick Tyler and Mrs. Gardner Hall. Mrs. Sundt was presented a glass vase filled with roses.

Stately maples which have shaded the upper part of Jackson street along the old Fryer property since Willimantic was but a settlement are being removed this week to improve property and the approach to residences being erected on land by Arthur J. Dubreuil. Over half a dozen trees are doomed to firewood.

Sport events, vaudeville and refreshments were heartily enjoyed by over two hundred men, including members of Les Artisans and guests, at the pumping station grove in Mansfield Sunday afternoon, it being the annual outing of the society.

George Toberman and Miss Emily Cermek, both of South Willington, were married at the home of the bride's parents, Mr. and Mrs. William Cermek, Saturday forenoon at 10 o'clock by Rev. Edwin E. Sundt. Mr. and Mrs. George Cermek of Staten Island, the former a brother of the bride, were best man and matron of honor, respectively. There were two bridesmaids. Mr. and Mrs. Cermek are on a honeymoon trip, after which they will reside in South Willington.

The beats to be covered by the regular officers of the police department during July are: Officer Edward Leahy, Sodom beat; Officer William Hurley, Jackson street; Officer Arthur Hurley, center beat; Officer Grant Bombria, upstreet beat, and motorcycle work, and Officer Roderick Lariviere, day traffic duty on center beat.

Alton M. Taylor of Mansfield and Miss Frances E. Adams of Eagleville were married Wednesday morning at 10.30 o'clock at the home of the bride in Eagleville by Rev. Charles G. Johnson of South Coventry. Mr. and Mrs. Taylor went to Harrison, N. Y., after the ceremony and are now residing in that city.

There is rejoicing here among theatregoers in the announcement that the owners of the motion picture theatre [illegible] of America have decided to [illegible] the suspension of the seat tax commissions up to 50 cents, effective July 2. This is in accordance with the federal revenue act of 1924 which goes into effect next Thursday. With state and federal taxes on admissions up to the above amount are included.

Mr. and Mrs. James Sunderland of Knowlton Hill, Ashford, motored to Lantern Hill Sunday for the day.

Miss Evelyn Beaulieu and [illegible] Winchester of the sales department of the local office of the Rockwell-Willimantic company were in New London on business Saturday.

Guy DeMarco, one of Willimantic's most powerful young men, is being given an opportunity to display his wares and make good use of them this week in the work of unloading immense steel girders to be used in the construction of the Capitol theatre on Main street.

The story of the democratic convention is coming from New York over the radio and in so many chapters that to local people it has taken the form of a serial. The interest here keeps up, however, and in the past few days talk of the Ten Commandments has been replaced by discussions on the Ten Confessions. Referring to the convention, someone was heard to say that it was a good thing that the esteemed local delegate [illegible] from [illegible] was a man who could defend himself in any kind of a scrap.

Residents of The Elms on Main street who are on vacation include Miss Margaret Morehead, who has gone to West Newton, Mass., with her brother; Miss Dora Bothwell, who is at her cottage at the camp ground; Miss Drinkwater, who is in New Haven, and Misses Alice and Lena Roberge, who are visiting in Pawtucket, R. I.

Mrs. Abner Boothby and daughter Martha of Kennebunkport, Me., have been guests of Mrs. Ada I. Burlingham.

Mrs. Mary Mathieu entertained friends at her cottage at Lake Wanzumbaug, South Coventry, recently among them being Mrs. Dr. W. P. S. Keating, Mrs. William Robarge, Mrs. Minnie Smith and son Leonard, Mrs. Margie McCarthy, Mrs. Mae Peters, Mrs. Iva LaVallee and Mrs. Mary Mathieu.

At the home of their father, J. C. Taber of Church street, for the summer vacation are Miss Esther Taber, teacher in New Haven, and Miss Susan Taber, teacher in Hartford.

The family of J. H. Hurley of North street and E. Russell Backus of Lewiston avenue, with Miss Marion Courtney, left here Saturday to spend July at the Maine cottage, Groton Long Point.

At the home of her parents, Mr. and Mrs. J. P. Gagnon, of Prospect street, Miss Vivian M. Gagnon is spending the summer recess from St. Joseph's convent, North Grosvenordale.

RUN-DOWN WEAK, NERVOUS

Benefited by First Bottle of Lydia E. Pinkham's Vegetable Compound

Lancaster, Pa.—"After I was married I became terribly run-down and was weak and nervous. My sister-in-law told me to try Lydia E. Pinkham's Vegetable Compound. My husband got me a bottle at once, and it did me so much good that I kept on taking it. I began to feel well and strong again and was able to do my housework up to the time my baby was born—a nice fat little girl in the best of health. I surely am recommending the Vegetable Compound to my friends when they have troubles like mine, and I am perfectly willing for you to use these facts as a testimonial."—Mrs. FRANK H. GRIMM, 533 Locust Street, Lancaster, Pa.

Women should heed such symptoms as pains, backache, nervousness, a run-down condition and irregularity, as they indicate some form of female trouble. Lydia E. Pinkham's Vegetable Compound is a dependable medicine for all these troubles. For sale by druggists everywhere.

If Mothers Only Knew

Thousands of Children Suffer from Worms, and Their Mothers Do Not Know What the Trouble Is.

Signs of Worms are: Constipation, deranged stomach, swollen upper lip, offensive breath, hard and full stomach with pains, pale face, eyes heavy, short dry cough, grinding of the teeth, little red points on the tongue, starting during sleep with troublesome dreams, slow fever.

Mrs. H. N. Roberts, 502 Asylum St., Flint, Mich., wrote: "My little girl is relieved of her worms." And in a later letter wrote: "Baby is fine and it was your

Dr. True's Elixir

The True Family Laxative

and worm expeller

that helped her."

Family size $1.20; other sizes 60c and 40c.

COUNTRY and SEASHORE HOMES MAY NOW COOK WITH GAS

SAFELY—Because FUELITE is non-poisonous and practically non-explosive—

QUICKLY—Because FUELITE produces complete combustion (due to purity and absence of by-products) and, therefore gives intense heat—

CLEANLY—Because FUELITE makes no soot. On the contrary it cleans.

COST IS LOW

No More Trouble or Care to You Than City Gas. Can Be Used in Any Gas Range.

Write or Telephone for Further Information.

LEONARD W. WHEATON INJURED RIDES WHEEL DOWN BANK

(Special to The Bulletin.)

Willimantic, June 29.—Leonard Wallace Wheaton, 16, son of Mrs. Louise Wheaton of 58 Frances street, was seriously injured about 3 o'clock Sunday afternoon when the bicycle which he was riding plunged down a 20-foot embankment near the railroad tracks in the rear of his home and he struck his head on a rock at the bottom of the steep incline. The boy was rushed to St. Joseph's hospital in the ambulance, shortly after he had been found unconscious by a party of his friends with whom he was on his way to a vacant lot to play baseball. He had not regained his senses up to late Sunday and little could be learned as to the cause of the accident other than information given by his boy companion at the time, five-year-old Francis rousseau. The two boys had gone on ahead, the Wheaton drove to the edge of the bank and suddenly the front wheel slipped. Amid a shower of rocks and sand, boy and bicycle went hurling through the air and when he had landed the Wheaton boy remained still.

Some five minutes later the remainder of the party arrived and were met by the Brousseau boy, who led them to the still form of his companion. At the hospital, Dr. A. J. Girouard attended young Wheaton. It was at first believed that he suffered from a broken collar-bone, but later he appeared to be suffering from internal injuries.

Leonard Wheaton is employed by the Harry C. Smith Silk company, a department conducted in connection of the Windham Silk company plant.

JEWETT CITY

In 1876 this town suffered from the most disastrous fire in its history. In 1886 a great flood carried away the dams, washed out the mills and the bridges, doing well over $1,000,000 damage. In 1888 a big blizzard came from the northeast. It snowed for four days and Jewett City was cut off from the rest of the world for two weeks. Now again in 1924 a calamity has again visited this little burg, in the form of a "big wind." The patrons of the Jewett City Water company have received from the office of the company in Jewett City, the following notice:

To Our Patrons

In order that we may meet the increased maintenance and operating cost, and render adequate service, we are obliged to raise our charges as per the enclosed schedule, to take effect July 1st, 1924.

Yours very truly,
THE JEWETT CITY WATER CO.

Accompanying the foregoing notice is a schedule of prices, which the company proposes to put into operation. Also a page or more of the customary "Thou shalt not" iron-clad rules and regulations. As a specimen—Under the present prices a single faucet and a [illegible]-cock outside, for the purpose of sprinkling the street or lawn, cost $11 per annum, the new schedule will make it $16. A single faucet is raised from $6 to $10. Closets, baths, boilers and all other water rates are raised in like manner. The fire, flood and blizzard were disastrous in the extreme, but they were as nothing compared with the cold, consternation that pervades [illegible] at this time.

Saturday night a paper was put in circulation, and now has a long list of signatures. This will be brought to the attention of the Connecticut Public Utilities Commission, asking for redress. It was stated Sunday night, there would be other papers in circulation today (Monday) morning, and a public meeting would be called to formally voice a protest. The facts are outstanding, are to be stated to correct misrepresentations made on the street Saturday: The last payment to the stockholders was at the rate of 6 per cent, and never has been more. The following facts are the result of an interview with A. A. Young, resident superintendent of the water company:

In the twenty years of the existence of the company, the rate of interest paid to the stockholders has averaged three and three-eighths per cent. The public utilities commission does not allow any water company in the state, to pay dividends of more than 8 per cent to stickholders. The town and borough property assessment taken from the last abstract, of the water company's property, requires them to pay $550 more taxes annually. Mr. Young further states that "There is absolutely no raise contemplated, now, or at any future period, in the payment to stockholders."

The cost to the borough for hydrant water supply is regulated by contract, and is not affected by the proposed new scale. In 1925 the borough of Jewett City will have opportunity to purchase and take over the entire interests and holdings of the water company. Danielson, Putnam, Portland and Mystic are at present getting their water supply under identical rates as those proposed in Jewett City.

Nothing of recent date has stirred up the people of this borough, as has the proposed rates. The borough water patrons don't propose to tamely submit to this extra pressure, is evidenced by the expressions of dissatisfaction, and the positive action already well under way, looking towards a determined demand for redress.

It was stated late Sunday evening that there would have been no objection to a reasonable advance in the rates. A thousand names will be on the lists, and the objection will be well ordered and strenuous.

Chautauqua tickets at Gardner's. Buy today.—adv.

More than a week ago, Chief of Police Henry Veigard received a letter from the Conroy Motor company of Worcester which read as follows:

We wish to refer you to a new Ford sedan, engine number 9376868, registered in Bridgeport, under the name of Charles E. Lazora, registration number S2564, with a small down payment, and the balance to be secured on an additional bill of sale. Lazora has left Worcester and taken our car with him without our consent.

Saturday, Officer Veigard saw the car being driven down Main street here. The policeman secured a car and overhauled the man in Sylvandale. Lazora gave up the car without argument. The owners didn't care about the man, so he departed.

Miss Ruth Wilson, of Indianapolis, Ind., was a visitor Saturday at the home of Mrs. E. M. Swift. Miss Wilson is a granddaughter of the late Mary Scranton.

Miss Mary Havey's horse, hitched in Liberty Hill square, Saturday noon, became frightened at some sort of premature fireworks discharge and ran away. The silent cop traffic guide was struck and put out of business. The horse was finally stopped, not, however, until the wagon was considerably damaged. The police are making every attempt to stop the illegal shooting and firecracker firing. State regulations forbid such shooting.

Allan Gay Thornton, a native of Jewett City, is here on his honeymoon. Mr. Thornton and Miss Nancy Y. Dexter were married in Pawtucket, R. I., Saturday. The groom is the son of L. A. Thornton of Pleasant View, with whim he and his bride are visiting.

Mrs. John Murtha, a patient at the Fordham hospital in New York city, received no broken bones as the result of her terrible experience of Friday. Though badly bruised, she indications are that she will recover.

Miss Marguerite Bliss is in Harwich, Mass., where she will spend her summer vacation. She is to be counselor at St. Ann's summer outing camp for girls.

WESTERLY

Francisco Crispino, alias "Chee Chee," a barber at 75 Liberty street, Pawcatuck, and living at 72 Liberty street, received a visit Saturday evening about 10 o'clock from the police officers of the town of Stonington, armed with a search warrant. As the officers entered the place at 74 Liberty street a rapping on the pipe was heard and they were just in time to see a woman hastily pouring something of a liquid nature into a sink. A diligent search of the premises at 74 Liberty street produced one-half gallon of sour wine in a gallon jug, one pint of sour wine in a bottle and eight bottles of home brew beer. More wet goods were located at 72 Liberty street and there was found one gallon of sour wine in a gallon jug, one gallon of sour wine in a bottle, one pint of alcohol, two one-quart bottles of wine and thirty quart bottles of home brew beer in a case. The liquors were all taken to the Pawcatuck lockup and placed under lock and key in a cell to await action of the Stonington town court.

Taking part in the raid were Stonington police officers Charles W. Connors, Francis J. McMahon, Supernumerary Adin R. Sheldon and Martin McGrath, and, all of Pawcatuck; and police officers, Christopher J. Ledwith and Charles B. McCort of Stonington.

Crispino was taken before Judge William A. Wilcox shortly before twelve o'clock on complaint made out by Prosecuting Attorney George R. McKenna. The warrant alleged a second offense on three counts, actual sale, keeping with intent to sell and reputation. Judge Wilcox found the accused probably guilty and held him to await action of Stonington town court this Monday) morning in Borough hall, Stonington, fixing bonds at $2,000, which was supplied by his wife, Manla.

Near the premises were found Angello Partella and a fourteen year old boy together with Thomas Cummings, who gave his address as Providence, and all were placed in cells in the lockup on Liberty street. It was thought that these men might give evidence which would be of material value. After a short examination by Town Solicitor George R. McKenna Partella and the boy were allowed to go but Cummings, who admitted drinking liquor on the premises, was held.

When Pawcatuck Patrolman McMahon and Connors searched the room, 47 Mechanic street, a week ago Friday, numerous articles were found of which there was a question as to the ownership. Some of these articles, purses and flash lights were identified a week ago today Monday) at Bogue's trial in Stonington town court at which time he was bound over to await the action of the superior court. Pawcatuck police officers have now practically determined the ownership of the gold watch the property of a man resulting on Clark street, on the Westerly side of the river.

Deputy Sheriff Fred T. Mitchell arrested Hazel Williams Saturday night about 11.30 o'clock on a writ for trespass in the case of assault and battery on Caroline Tavernese, a young woman not yet of age, who pro ami brought suit for $500 damages. The assault is alleged to have occurred at No. 50 Central Park. Return is to be made to a regular session of the Third District court of Westerly, Friday, July 11th. Daniel Seketer became surety in the sum of $500 bonds for the appearance of the defendant in the district court on the above date.

The Episcopal Church Choir club of Westerly has taken the Havens cottage at Atlantic Beach for the annual 10 days outing. The party is chaperoned by Mr. and Mrs. Charles Larkin and Mr. and Mrs. David A. Lowry with [illegible] Frazier as housemother. Sunday at 3 o'clock Rev. G. Edward Tobin conducted the annual service at the choir camp.

Rev. John F. X. Quinn celebrated nuptial mass, following the wedding ceremony of Mrs. Catherine Hanley of Pawcatuck and Amos Nugent of Wequetequock Saturday morning at 8 o'clock at St. Michael's church.

The bride was attended by Mrs. Ella M. Grignola of New York as matron of honor and Jesse G. Burgess of Westerly was best man.

Following the service at the church, breakfast was served at the home of the bride in Clarkville. Mr. and Mrs. Nugent left Saturday afternoon on a motor trip through Massachusetts.

They will make their home at Wequetequock. The groom is employed at the C. B. Cottrell & Sons Co., plant.

Many Westerly people are interested in the wedding of Miss Mary Warren Bransfield of Providence, daughter of the late Chief of Police Cornelius Bransfield of Westerly and James Thomas Rosmond, also of Providence. They were married Thursday morning at St. Anthony's church, Providence by Rev. John Kelly. The bride was attended by Miss Jane Bennett. Felix Rosmond, a brother of the groom, was best man.

Following the ceremony at the church breakfast was served to about twenty-five relatives and friends at the bride's home on 108 Pocasset avenue, Providence. Westerly relatives present were Mr. and Mrs. John L. Lenihan, Mrs. Lenihan being a sister of the bride.

Mr. and Mrs. Rosmond are on a motor trip through Massachusetts and New Hampshide. They will make their home in Providence, where the groom is purchasing agent for a combination ladder company.

Sunday morning about 1 o'clock, the Ford coupe 24-922 R. I., operated by Edward Leibovitz was in collision with the new Studebaker touring car N-6434 Conn., operated by Peter J. Grills, 106 Liberty street, Pawcatuck. The automobiles were proceeding up Granite street and as the Ford coupe ran up on the sidewalk and smashed into the fence in front of the property of Sarah A. Chapman, 29 Summer street. The forward right wheel of the coupe was completely smashed and the mudguard, fenders nad the radiator damaged. The Studebaker car sustained a smashed forward fender, crumpled mudguard and jammed headlight.

Irving Makowsky, who was one of the two passengers in the coupe got a bruised back and side. Dr. Michael H. Scanlon was called to attend the injured man, the other men in the mixup receiving no injuries. Traffic Officer Robert Kessel of the Westerly police force was called and after investgating decided it was a case for civil action. Driver Grills of the Studebaker said that he was covered by liability insurance.

Saturday afternoon at 2 o'clock Rev. Marin S. Stocking performed the marriage service before a large number of relatives and friends, including guests from New York, Providence, New London and Fisher's Island, when Miss Cora Mungery Chapman of Westerly became the bride of Clarence Edmund Wooden of Rochester, N. Y., at the parsonage of Grace Methodist Episcopal church. Miss Chapman was attended by Mrs. Moses C. Lowry of Wharton, N. J., as matron of honor. Mr. Lowry was best man and little Catherine Mary Chapman was flower girl. The ceremony took place under a beautiful arch of laurel. The bride wore gray beaded Canton crepe and hat of gray with blue ostrich band. The maid of honor was dressed in blue georgette also beaded with a hat to match.

An informal reception was held at the home of the bride's uncle, E. Merton Chapman, 12 Hillside avenue. The The house was decorated with laurel an droses. Mr. and Mrs. Wooden left late in the afternoo nfor a trip to Niagara Falls and Hamilton, Ontario. After Sept. 1 they will be at home at 33 Farragut street, Rochester, N. Y. Mr. Wooden is a son of Mr. and Mrs. Clarence A. Wooden of that city, and his bride is a daughter of the late Sydney A. and H. Emily Chapman of Westerly.

Miss Annie H. Cross, 1, a life-long resident of Westerly, died Sunday morning at her home, 8 Elm street. She was born in Westerly Nov. 11, 1841, the daughter of the late George D. Cross and Abby Hinckley Cross. She has made her home with her sister, Mrs. Horace Babcock, who died a short time ago.

Rapidity of Dreams

Scientists have conducted various experiments to demonstrate the rapidity with which a dream takes place. In one particular instance the sprinkling of a few drops of water on a man's face caused a dream in which the events of a whole lifetime passed before him. The whole process took but a second or two of time. The great rapidity of dreams is due to the fact that in the unconscious all the individual's life experiences are on view as if in one flash.

Important Lightship

The most important lightship in the world is the Nantucket lightship. A new vessel has just replaced the old ship. This one has a radio fog signal and two other fog signals, a powerful steam whistle, a submarine bell and full radio equipment. The light will have 3,000 candlepower. Water tanks and fuel oil tanks are large enough to supply the vessel for a year.

Why censure a woman for entering the theater late? Perhaps she had to wash the dinner dishes.

ANNOUNCEMENTS

Leases Lot for Garage

Real Estate Broker John A. Moran has leased for a term of year for A. Malogrides of North Main street the plot of ground 52 feet front by 110 ft. deep to John J. Herbert. Mr. Malogrides is having a modern up to date garage constructed on the whole lot that will give a frontage on North Main street and two entrances on Golden street. Mr. Herbert who is the local representative of both the Maxwell and Chrysler cars will have a garage when completed that is second to nine in Norwich.

Broadway Theatre

The Breaking Point, Herbert Brenon's latest Paramount production which opened at the Broadway theatre yesterday, is a mystery drama packed with action. Nita Naldi, Patsy Ruth Miller, George Fawcett and Matt Moore are featured.

Moore plays the role of a reckless millionaire, Judson Clark, who is desperately in love with a popular actress, Beverly Carlysle (Nita Naldi.) At Clark's Wyoming ranch, he and Beverly's husband quarrel; the lamp is overturned; a flash is seen in the dark, and the husband is found dead on the floor. Clark escapes into a snowstorm. He is found in a delirious condition by Dr. Livingstone who takes him to his home at Haverly, just outside New York and introduces him as his nephew.

Years go by, and the man becomes a successful physician. He becomes engaged to a young girl, Elizabeth Wheeler. One night at the theatre he is recognized by Beverly Carlysle who [illegible] upon the stage. From this point in the story, the old influences which he has forgotten begin once more to wind themselves around him. It [illegible] which he is the unconscious victim are formed by characters who see in his sudden reappearance a grave menace to their own safety and popularity.

The final clearing of the mystery forms a series of scenes which build to a [illegible] climax.

Patsy Ruth Miller plays the role of Elizabeth Wheeler and Mr. Fawcett portrays Dr. David Livingstone. Matt Moore in the dual role of Judson Clark and Dick Livingstone does the finest work of his lengthy career, and Miss Naldi is more alluring than ever as the [illegible].

The inside story is an adaptation by Julie Herne and Edith Ferguson of the novel and play [illegible] name by Mary Roberts Rinehart. James Howe handled the photographs.

The attraction will continue until Wednesday.

A very good Mermaid comedy Back Fire and a news Kinegrams completed the program.

Well Baby Conference

Mothers of Waurekon are invited by the state health department to bring their children to the well baby conference to be held at Company hall, Putnam, on Tuesday, July at from 2 to 4 p. m. You came last month, says the invitation, and brought all your little ones. You remember how eager you were when they were weighed, and how the nurse told you the kind of food children should eat to bring them up to weight, and how thoroughly the doctor looked over the chest, and the throat, and the ears and the nose, and the feet, and how valuable you felt that it all was when you brought them home again Come again this month and have them watched. Find out whether they have been gaining normally as every child should. If this physical examination last month showed you that there was some little defect that should be corrected, you have been thinking about that during the month. Perhaps you have already gone to your family physician to have this corrected. Come again this month and see how much better the child is because of that. This conference is for well babies. It is to teach the mother how to keep the well babies well at all times.

LAWN FETE AT NEW LONDON ARRANGED BY MRS. C. A. CARR

A concert from 5.30 to 7.30 by 30 members of Boston Symphony orchestra, Paul Cherkassky, leader, will feature the lawn fete Tuesday, July 8th, at the estate of Rev. T. L. Riggs, Ocean avenue, New London, for the benefit of the local branch of the Catholic Diocesan bureau. The general chairman, Mrs. Blanche Lanman Carr, wife of Rear Admiral C. A. Carr, and formerly of Norwich, has arranged a most interesting series of events for the fete, which opens in the afternoon with a children's entertainment.

Use Blighted Trees

Post, poles and ties cut from blighted chestnut trees are just as servicable as those cut from healthy trees, according to the United States forest service. This is looked upon as an important announcement because it will aid in the conservation of timber and many experiments and tests have been made to prove the assertion. The only provision is that the pieces must be cut from trees within reasonable time after the blight has started.

Bring's New Territory To Uncle Sam

COPYRIGHT UNDERWOOD & UNDERWOOD, N. Y.

Mrs. E. Fullard Leo, of Honolulu, who is the only woman who has ever brought new lands under the American Flag. Mrs. Leo owned a group of 52 small islands 1,000 miles south of Honolulu, on which she has a home. As soon as she bought the islets she took steps to have them placed under American jurisdiction.

TODAY'S EVENTS

Centenary of the birth of Gen. James C. Duane, who was chief engineer of the Army of the Potomac in the Civil war.

The Most Rev. Michael J. Curley, Catholic archbishop of Baltimore, today celebrates his tenth anniversary in the episcopate.

The United States government ends its fiscal year today with a surplus of between $350,000,000 and $400,000,000.

Twenty thousand teachers and others connected with school work are expected in Washington today for the opening of the 52nd annual convention of the National Education association.

Problems of rural work and the religious education of children will be discussed at the second annual Catholic-Protestant Conference which is to begin its session today at Madison, Wis.

Amsterdam, Holland, is to be the meeting place today of the Second International Congress of Municipalities which aims to bring civil administration of all countries of the world into closer touch.

The economic, legal, technical and social questions connected with power development will be considered at the world power conference, which is to meet in London today for a session of two weeks.

President Coolidge will project the fiscal policies of his administration, including his stand on tax [illegible] before the [illegible] in his address at the annual meeting of heads of departments and bureaus Washington today.

ANNOUNCEMENTS

PALACE THEATRE

Twenty-three as presented at the Palace theatre yesterday, brings Richard Barthelmess back to the screen in a modern role.

The [illegible] which is a Lone Nomad [illegible] problem of [illegible] who is unable to [illegible] fair [illegible] he has not yet found his [illegible] is in striking [illegible] Barthelmess [illegible] of humor and dramatic situations.

Inspiration Pictures, Inc., who produced the picture prepared for the screen with great attention to detail. The acting is excellent.

In the part of Julien McCullough, the rich man's son, Barthelmess proves that he is a versatile star, one who can jump from characters [illegible] to modern parts and back again with great ease.

Dorothy Mackaill again adds to her laurels in the part of a [illegible]. The settings, it is said, were taken at the famous Westchester Biltmore Country Club at Rye, N. Y., the rendezvous of millionaire New Yorkers and at the famous estate of Samuel Untermeyer, Greystone.

Twenty One is a picture which will delight all lovers of simple modern tales. It is unpretentious but very human. In the cast in addition to the star and Miss Mackaill are Bradley Barker, Ivan Simpson, Dorothy Cumming, Elsie Lawson, Joe King, Nellie Parker Spaulding and Helen Tracy.

Added attractions, Stan Poland in his latest and funniest two reel comedy The Walk Out, latest Pathe News and Palace supreme orchestra.

Coming Thursday, Friday and Saturday, Why Men Leave Home, with Lewis Stone, Helen Chadwick and an all star cast.

Artistic Film Opens At the Breed

There seems no end to the accomplishments of photography. . . . And nowhere is this modern science exceptionally portrayed as in the [illegible] production, The Temple of Venus which opened a three day engagement at the Breed last night.

Combining modern drama, phantasy, and magnificant studies of wild life and aquatic growth, the picture is probably the most artistic achievement of its kind ever developed.

Every trick or artistry of the camera seems to have been used in getting the starting effects shown during the course of the screen story. And beauty was the theme not only in the settings, but in the thousands of girls used in the allegorical scenes. Just where William Fox, the producer, found the host of attractive swimmers, dancers and others he probably will refuse to tell. It seems impossible that there could be that many in one locality at one time.

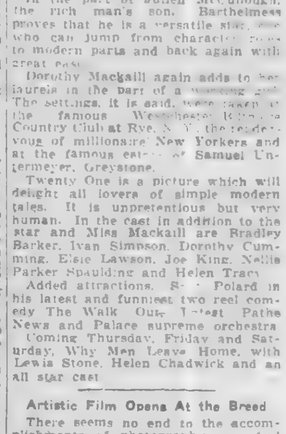
The film has a most romantic and poetic subject and the director has left little undone to bring out the colorful spectacles. His mythological characters and interpretations of the residents of Olympus are educational as well as beautiful.

A comedy and latest news are shown with this spectacle film.

Danielson Chautauqua

Chautauqua (Swarthmore) will be in Danielson July 3—8 this year with a splendid arrangement of concerts, recitals, lectures and plays. Featured in the list of attractions is Dennis A. McCarthy.

Born in the Golden Vale of Tipperary, Dr. McCarthy comes naturally by his gift of poetry and eloquence. But his dreams are not all about the



Denis A. McCarthy

old land. He is an American citizen and the new land and its problems occupy his attention, too; he is the exponent of a very fine and virile American patriotism. This finds melodious and inspiring expression in his lectures and readings. No man on the American platform today is doing better work for American ideals.

Dr. McCarthy is the author of four books of verse. A [illegible] of Home, Heart Songs and Home Songs, Songs of Sunrise, and Voices from Erin. Many of his patriotic songs have been used in the public schools.

He has been [illegible] honored by Boston College. Cardinal O'Connell said of him: "The orator of the day is a poet and he has proved himself not only a poet, but a philosopher." President L. H. Murlin, of Boston University, writes, "He is a scholar, a gentleman and a poet of high order, who takes the broad American view of life and is always a helpful constructive personality."

DANIELSON AND PUTNAM NEWS

DANIELSON

Philip Beauchemin, woodchopper and man of all work, was heavily fined Saturday afternoon, when presented in Justice Frank M. Bedard's court on the West Side. He was charged with indecent exposure, on two counts, and with indecent assault, on two additional counts. The assault charges were nolled for lack of evidence, but Beauchemin was fined $75 on each of the exposure counts with costs of prosecution, a total of $154.52, which he paid, and was sentenced to serve 60 days in jail, the jail sentence being suspended on his agreement to leave this vicinity forthwith. The complainants against Beauchemin were brothers of the age of 9 and 12 years respectively. Beauchemin has for some time since been the occupant of a shack not distant from the grounds of the Windham County Fair association in Brooklyn. He is 67, a jack of all trades not requiring any great amount of skill and it is understood was formerly a resident of Rhode Island.

The strength of the federal reserve is behind your deposit in the savings department of the Windham County National Bank, Danielson.—adv.

There were 00022 people at the summer resorts in the vicinity on the week end, and if the figure looks odd it may be attributed to the fact that publicity has been given to a gathering held in Foster a week ago when 5,000 people were represented as being present by some one who is a trifle careless with a typewriter when getting to whanging away on the 0000 line. An uncontrolled finger, in that case, makes a boss look like the crowd at the annual running of the Derby over in England.

There is an irritant, in this particular territory, in feeding over doses of misinformation to people who do not like it. The truth may hurt sometimes, but there is no getting back of it, though it may penalize the few. When anyone spread the lie information that 8,000 people gathered in Foster a week ago last Saturday, he is doing ill service to this community. In view of the fact that it isn't true, no matter what the represented purpose of the gathering was for.

In the town court Saturday morning Theodore Boulay, of Dayville, pleaded guilty to reckless driving of an automobile and was fined $25 and costs. Boulay was out for a ride one night last week, driving the car of a friend, when headlights flashing along behind him seemed to indicate that one of his acquaintances, with another machine, was trying to give him a race. He stepped on the gas. As often happens, a state officer, guardian of the road, also was in the vicinity. Boulay, was going faster than the state law allows. He was summoned to court and, like a good sport, when in wrong pleaded guilty and paid the penalty. All of which serves once again to demonstrate to the public that it is both unsafe and expensive, as well as being illegal, to drive a motor vehicle over 30 miles an hour while operating in the state of Connecticut.

Another case disposed of in the town court, Saturday morning was that of Joseph Milong of the Green Hollow road. He plexded guilty to the charge of keeping cider with intent to sell and was fined, on account of extenuating circumstances, $5 and costs, total of a little more than $32, which he paid.

This week bring the Fourth. Danielson isn't going to do much about it if you want to know why, you will have to ask some one who knows more about modern day psychology than anyone hereabouts seems to apprehend. It may be that people have the saving habit to such an extent that they are now too conservative about spending money that is destined to go up in smoke. But that theory falls down in face of the fact that unlimited money seems available for gasoline, automobiles, fine raiment and cheap booze at ten times what it is worth.

Whatever the cause Danielson pays little attention, officially, to the Fourth, in these modern days. The doings of Washington and scores of other patriots appear to have lost its appeal to this community. Yet they are still the fathers of the nation. Contemplation of these facts brings little satisfaction and much regret. There were days in this town when the Fourth was a great event—a day of celebrations and patriotism and happenings that lived long in memory. These patriotic observances were an inspiration to the young. They still are. But modern Danielson appears to have no interest, patriotically, in the Fourth, whereas it has immeasureable interest in many petty things, some of them mean and cheap, and especially in some things that for the greater good of the nagovernment of the people, for the nation had better be forgotten if a people—all the people—and by the people shall go on to the great destiny, that the founders of the nation visualized and dreamed of more than a century past.

Nevertheless, the spark of patriotism still burns in Killingly. Goodyear will salute the coming of the Fourth with a grand display of fireworks and a band concert next Thursday evening—The night before the great holiday. And up at East Killingly the welkin will ring Friday with the splendid celebration of the Fourth that has been planned for that community of the town. These minor communities of the town will again teach Danielson a lesson in patriotism.

If one's friends are not in church of a Sunday morning in thus summer period, be not to sure they are not in touch with the religious sentiment of the day. There are many radio sets in Danielson and not a few of them will be found tuned in on some splendid sermon each Sunday morning. Some may quarrel with this long distance attendance at service, but it may in all truth be said that many who do not regularly attend church get much inspiration and consolation out of the message that the radio, in its mysterious manner, brings into their homes.

An argument for better sidewalks in Danielson will be found in the advocates thereof in the fact that a woman turned her ankle and fell in a heap in the business section Saturday evening, when, in the height of the shopping period, she stepped in a deep depression in a sidewalk on Main street. She was assisted to her feet and was carried away by citizens who were passing.

Next Friday—the Fourth—will be a day of business suspension in Danielson and vicinity. The manufacturing concerns will close their plants, giving employes a triple holiday. Stores will suspend business, except in cases where holidays do not mean closing. The postoffice will be on the usual holiday schedule of service.

Sunday afternoon at 2 o'clock, funeral services for Mrs. Lulu A. Bailey, wife of Ray Bailey, were held at the Bailey home on School street, Rev. Walter B. Williams of the Westfield Congregational church conducting the service. Burial was in Westfield cemetery. The bearers were Burdette C. Hopkins, Thomas Heckett, Robert M. Tyrell and Harold Greene, members of the Westfield club. A. F. Wood was in charge of the funeral arrangements.

Among other things going on in Danielson just now is the placing of bets as to the nominee of the democratic national convention in New York.

Rene Caron, patient at the Day Kimball hospital in Putnam, where he recently was operated upon for appendicitis, was visited by Danielson friends Sunday.

No definite information has been obtained as to the ownership of the automobile that was destroyed by fire at the foot of Little Rest Hill, about five miles east of here, more than two weeks ago. The machine was a Crow-Elkhart.

An official army and navy publication in its issue of Saturday announced the permanent advancement to rank of major of Albert H. Warren, U. S. A., an instructor at the United States Military Academy at West Point. Major Warren, who has held his advanced rank since the World war, is a son of Mrs. Emma Warren of this place. He is a graduate of Killingly High school. He is the last officer with rank of captain to be advanced to a majority.

Again Chief John McFarland gives warning that no advance observance of the Fourth through use of firecrackers or other explosives will be permitted, and that swift punishment will descend upon those who attempt it. Also he warns that the use of revolvers on the Fourth is against the law and that those who use them will have the revolvers seized by the police and will not get them back.

PUTNAM

Henry A. Keech, who owns the property in and about and including the swimming hole known as Tourtellotte's, where, through the generosity of Putnam lodge of Elks, bathing facilities have been established in the Little river, has a definite offer for consideration of the public officials of Putnam.

From the many acres owned by Mr. Keech, through which the Little river runs, he is willing to make a gift to enable the town and city to construct and maintain a park and a place for recreation summer and winter.

The offer includes among other things the deed of a strip of land 40 feet wide, running from Sabin street to Fenner street. When properly constructed, this street would furnish easy means of reaching, by vehicle, the site of the proposed park, either by way of Church and Fenner streets or by Sabin street, from the state highway near Hopkins bridge. In addition Mr. Keech will deed the city or town fully three acres along the Little river.

Included in this tract is the present swimming hole and a group of large elms on a high piece of ground which could be made into a beautiful island by changing the course of the river; this could be done without a great amount of work. Access to this island would be gained over the proposed roadway and a bridge now in the possession of Mr. Keech and which he would donate for the purpose.

Diverting the water to form this island would flood a large area which would enlarge the swimming pool of summer and make available a skating pond in winter.

If Mr. Keech's gift and plan is accepted and adopted, a bridge must be built over the river at the point where the proposed road would be developed. This could be done at no great expense. When Hopkins bridge was opened Memorial day, the old bridge just north of it was abandoned. Without doubt this bridge, a substantial structure, could be procured from the state and removed in sections to the desired location.

For ample water for bathing a dam would have to be constructed. This could be done at comparatively small expense by building it about the abutments of the bridge, both being erected at the same time.

Mr. Keech's plans also call for the erection of bath-houses. This would be on private property of Mr. Keech which he says he would lease free of charge to any responsible person who would agree to conduct the privilege in a proper, orderly manner.

Mr. Keech declares that his sole purpose in making the offer is to give Putnam a park and recreation ground where tired mothers and children may go during the hot summer days and bathe in the cool river or lounge about in the shade and be perfectly safe. In order to accept Mr. Keechs offer, a town or city meeting would have to be called. Mr. Keech has spoken to few people of his plan, but those who have heard it outlined are enthusiastic about the project.

Frank W. Russell, held under bonds of $5,000 by the Putnam city court, after a trial, Friday morning, when probable cause was found on a complaint for perjury, was released Saturday when a cash bond of the amount set by the court was furnished.

Russell spent Thursday and Friday nights at the Putnam police station while the arrangements for the bond were going on. Saturday an employe of the Beachmont Worsted company of Mechanicsville, the company that runs the French River inn, the mill boarding house managed by Russell, appeared in the office of Archibald Macdonald, Jr., clerk of the city court, with the cash. Soon after Russell was released and returned to his work in the inn.

William Harrington of South Woodstock, on whose farm 50 gallons of alcohol was found Sunday, June 22d, when the place was searched by Deputy Sheriff L. H. Healey and Constable Bert Johnson of Woodstock and Joseph Dumas of Putnam, to whom, the officers say, Harrington stated the liquor belonged, was presented at a justice court in North Woodstock Saturday afternoon on charges of keeping liquor with intent to sell.

The accused entered a plea of nolo contendre and waived all claim to the alcohol. In the case of Harrington, Justice Charles M. Perrin imposed a fine of $25 and costs and Dumas was fined $100 and costs. The state was represented by Grand Juror S. Howard Peckham.

With the pronunciation of the benediction following the service at the Congregational church Sunday morning, Rev. Simeon E. Cozad, pastor of the church for a year and a half, ceased to be pastor. His resignation, placed in the hands of the church society some months ago, was accepted only after it was seen that it was useless to try further to have Mr. Cozad reconsider his action. Just what brought the resignation about is a matter that concerns the church and its people. If the wishes of the majority of the members of the parish could be granted, Mr. Cozad would certainly remain. He is a man of ability, of education, refinement and a preacher of force and conviction. A large audience Sunday morning listened to his farewell sermon.

The first annual spring outing of the Arcanum club was held Saturday evening at the Stage Coach Inn, Warrenville. The old inn, a landmark of Revolutionary times, has been brought back to a state of occupancy. The "new" part of the inn was built in 1775, but how old the old part is is not known. Twenty-five members of the club njoyed a supper in the old hostelry at 9.30, broiled spring chicken being the main course. Members enjoyed looking at the reminders of the stirring times when the early settlers were throwing off English tyrannical government.

In the old hotel the beams are heavy and hand-hewn; the nails are hand-forged, and a part of the structure is pegged together. There are many fireplaces, the largest being one of the wonders of the place, for it furnished not only fire for heat and cooking but for baking and had a smoke room connected, where ham and bacon was cured. In an ell is another large fireplace around which the soldiers were fed.

The place abounds in antique furniture and ornaments that would cause any collector to become green-eyed. The inn is not open to the public, but parties are occasionally accommodated, as was the case Saturday.

The location is on the pike which formerly was the route of the stage from Providence to Hartford. From this fact cames the name, Stage Coach Inn.

The summer colonies in the towns surrounding Putnam, Pomfret, Woodstock and Thompson are fast filling up. The hundreds of people who come to this corner of Windham county from homes in the large cities add to the life of Putnam, where they come to do their shopping.

Parking places for cars are at a premium both mornings and afternoons. Looking at the lines of automobiles on Main street and the side streets that intersect the main thoroughfare in the business section, one sees an investment in vehicles running well into six figures. But for all of this great expenditure of money, there is not the attractiveness that older inhabitants remember, when the fine horse-drawn equipages of these visitors were a daily sight during this period of the year.

In former days, fine animals, shiny of coat and handsomely groomed, with harnesses mounted in silver or gold, handsome carriages with liveried coachman sitting erect with whip poised at just the correct angle; the similarly liveried footman alive to drop off to open a door or to assist milady to alight, all this has given place to the odor of gasoline and burning oil. Then, too, in the old days there was the high two-wheeled vehicle and its tandem of prancing horses and now and then a ally-ho party arriving with the announcement of an echoing horn—sights unknown and unappreciated by the younger generation.

Miss Laura Phinney of East Hartford is the guest of her uncle, G. A. Hammond.

Miss Helen Willey of Norton, Mass., arrived Saturday to spend July and August with her mother, Mrs. A. W. Macdonald, Oak Hill.

Deaconess Ethel V. Glandor of the Lucy Ryder Myers home for working girls, Providence, was the speaker at the Sunday morning service at the Methodist church.

Sidney W. Marland, lay reader, of Danielson, conducted the Sunday morning service at St. Philip's Episcopal church.

Rev. F. F. Forshay of Willimantic occupied the pulpit of the Baptist church Sunday morning.

The United States department of commerce is about to issue a "glossary of business English for American advertising in England."

GOVERNMENT SQUABBLE DELAYS PAY TO NEW LONDON SHIP & ENGINE CO.

(Special to The Bulletin.)

New London, June 29.—One-third of the entire working force of the New London Ship & Engine company was laid off Saturday noon, the length of time that the 200 hands will be out of employment being indefinite. The reason for the curtailment of the working force, being the employes connected with work being performed on submarines in "Department O," was given as inability of the company to obtain payment for labor employed on the submarines. The company issued a statement in which it was set forth that no payments had been made for a number of months because of a dispute between the navy department officials at Washington and the comptroller-general relative to the expenditure of the appropriation intended for the work on the submarines. The statement, which follows, was posted at the plant yesterday forenoon: Owing to technical questions with respect to navy department accounts which have been raised by the office of the comptroller-general, the navy department has, for some months past, made no payments whatsoever under the contracts for the S-class submarines. The continued failure of the navy department to make payments which are overdue us makes it necessary to suspend work on these vessels until payments are resumed. The suspension of this work will necessarily involve the temporary lay-off of a certain portion of our force. As the government's failure to make payments is the result of internal dissension between the two branches of the government and is not due to any fault of the contractor we believe that payments will be resumed in the near future and when this occurs, the laid-off employes will be reinstated and work resumed in the normal way."

Ralph Harris, proprietor of a barber shop on Bank street, will be given a hearing in the police court Monday morning, charged with violation of the law in keeping his place of business open Sunday. Harris was ordered this forenoon to appear in the police court by Captain Charles A. Pinney and Motorcycle Officer William Babcock when Sam Salamoni lodged a complaint with the authorities that Harris was doing business. When the police arrived at the barber shop Harris was engaged shaving a patron. Salamoni is a union barber and Harris maintains a non-union shop and it is understood that the complaint was made because of Harris being a holdout against union principles.

When smoke issued in considerable volume this forenoon from the building, Nos. 91-93 State street, an alarm was rung in from Box 23, corner of State and North Bank streets, but there was no need for the services of the firemen for with the arrival of the department no fire was found. S. Kamsler, who is the proprietor of a millinery store at No. 79 caused a quantity of refuse to be burned in the furnace of his establishment. The smoke, probably caused by a defective flue, found its way into the adjoining buildings and when the smoke made its way through openings to the street the alarm was sent in.

William Dooley, an old offender, principally for intoxication and vagrancy, will again be in the police court Monday morning, charged with the latter offense. A companion of Dooley, Robert Dollard, a stranger, will be presented on a charge of intoxication. Dooley and Dollard were arrested by Sergeant Nelson Smith. Dooley had been walking through State street with a bottle sticking from his pocket. When Sergeant Smith followed Dooley to Water street the officer observed Dooley pass the bottle to Dollard. Its contents was denatured alcohol, which Dooley had purchased at a drug store and which he and Dollard intended to mix with soda. Dooley has been a lodger at the tramp room at the police station almost nightly for several months.

Lieut. Stokford R. Hickey, residing in the Highland apartments on Granite street and stationed at the submarine base, had his license to operate an automobile suspended by Commissioner Robbins B. Stoeckel. Lieut. Hickey's automobile was in a collision with a machine, owned and driven by John L. Rice, 38 Jefferson avenue, the night of the Yale-Harvard race, Hickey's machine crashing against the Rice car on Willetta avenue extension, Waterford, and occasioning such damage that Mrs. Rice sustained lacerations of the face and head that required 18 stitches to close the wounds at Lawrence hospital. Since then Lieut. Hickey was fined $50 in the Waterford town court on the charges of reckless driving and driving an automobile without having a license or registration. A third charge, of driving a machine while under the influence of liquor, was not substantiated by evidence, although Hickey admitted having had a "couple of drinks." A few days ago Hickey's car was attached in a suit for $600 damages instituted by Rice, who alleges that his automobile was damaged to that amount by the crash.

Livingston Wright, son of Mr. and Mrs. Henry Wright, of Quincy, Mass., and Miss Frances Dorothy Pollock, daughter of Mr. and Mrs. Alfred H. Pollock, 144 Montauk avenue, were married Saturday morning at 11 o'clock at the home of the bride's parents, by Rev. J. Beveridge Lee, pastor of the Second Congregational church. Osborne Rogers, of Quincy, a cousin of the groom, was best man and Mrs. Osborne Rogers was matron of honor.

Miss Inez Burse, of Pittsfield, Mass., Frederick Mann, Groton; William Strickland, I. O. O. F. home, Groton; Miss Margaret Cockayne, Bank street; Harry Martin, Waldo street; Miss Sylvia Baruffo Terrace court; Samuel Naekejk, Harrison street; Miss Ethel Hubbert, Montville; George Brooks, Noank, Mrs. Harry Cook and infant daughter, Faire Harbour place; Mrs. Sarah Bramble, of Blackhall; Mrs. Thomas MacGowan and infant son, Blackhall; Robert Smith, Mystic, and Mrs. Harriet Benham, Winthrop street, patients at the Lawrence hospital, were discharged Saturday.

John, the 4-year-old son of Mr. and Mrs. John MacDonald, 508 Ocean avenue, who was struck by a commercial car, owned by Dr. Tracy Farnham, Pequot avenue, and driven by Gaspero Guerri, 35 Evergreen avenue, on Ocean avenue late Friday afternoon, died at Lawrence hospital, Saturday morning. The child was believed to have sustained only a severe laceration of the leg when committed to the hospital, but during the night it developed that internal injuries had been incurred. The father of the child has been a resident of New London only since April, having come here with his family from Boston to take the position made vacant by the death last February of William E. Withey, former inspector of steam vessels. The child sustained its injuries while playing near his home. Running from the sidewalk to the street and in front of an automobile that was parked beside the curb, the boy continued to the highway and in front of the truck. Before Guerri could bring the vehicle to a stop the child was struck. He was removed to the hospital where everything possible was done to save his life.

The double funeral of Mrs. Nancy Baccese, wife of Angelo Baccese, and infant son, whose deaths occurred within a few minutes of each other, at 619 Bank street, Thursday night, was held at 9 o'clock Saturday morning at St. Mary's Star of the Sea church. A solemn high mass of requiem was celebrated by Rev. Alexander Wollschlaeger, Rev. Dr. Timothy M. Crowley being deacon and Rev. William J. Fox, of Groton, subdeacon. Burial was in the family plot in St. Mary's cemetery.

The Sebagh pool room, 193 Main street, was entered by a thief Friday night, but so far as the proprietor of the place can determine nothing in the way of plunder was obtained. It is believed that the crook was frightened away by occupants of another part of the building. Sebagh reported the break to the police when he opened the pool room Saturday morning. Patrolman Howard Sloan discovered that entrance was gained via a rear window being forced. A family residing over the pool room heard the thief in the place, some time after midnight, and one of the occupants went to a front window where a man was observed standing in front of the pool room entrance. When questioned as to what he was doing there the fellow started to cross the street and in a few seconds a second man emerged from the pool room doorway. Both went to Church street, where they disappeared in the darkness. A small sum of money is which Sabagh had left in the cash register when the place was closed Friday night, was not disturbed.

Mrs. Daniel DeLong, 11 Moore court, complained to the police Saturday afternoon that her home had been entered by a thief and that her gold watch and chain and a diamond ring had been stolen. Mrs. DeLong declared that the theft occurred some time after the 16th inst. She also declared that there was no evidence of the windows or doors having been forced.

James T. Roach, detective lieutenant of the Springfield, Mass., police department, came to New London last night and requested the New London authorities to locate Charles H. Daley, at one time a member of the Springfield department, but whose services have recently been dispensed with. Lieutenant Roach stated that when Daley ended his duties with the Springfield department, the latter went away and had failed to turn back to the department, a wreath and nippers. Lieutenant Roach further stated that Daley had recently been located at No. [illegible] Bank street, this city. Patrolman Daniel Clifford went to the Bank street address and learned that Daley had moved from that address two weeks ago. This morning Patrolman Clifford located Daley at a house on Bank street. Daley turned over to the officer the wreath and nippers and stated that the remainder of the equipment belonging to the Springfield department was given to Lieut. Kennedy when Daley was laid off.

Frederick W. Hull has sold a building lot on Winthrop street to Stanislaw Kaika.

Annie O. Connor, William M. Redden, Ellen O'Connell and Frederick Redden have sold a parcel of land on Coleman street to Henry B. MacWalter and Agnes T. Atchison.

Employes of the Connecticut company discovered the cover of a manhole on Montauk avenue, [illegible] Blydenburg avenue, [illegible] Friday afternoon, causing a dangerous condition. The police were notified and when employees of the water and sewer department arrived, located, an officer was detailed to point of danger [illegible] foreman of the [illegible] department could be located and [illegible] placed over the manhole.

An automobile owned and operated by George Sistare, [illegible] Waterford, in [illegible] side the curb on Bank [illegible] ley street late Saturday [illegible] struck a machine owned [illegible] Milleras, 79 Bliss [illegible] was motionless. A [illegible] broken.

Mrs. H. C. Bagner [illegible] place, Ocean Beach [illegible] famous writer, [illegible] lice late Saturday afternoon [illegible] three men all under the influence of liquor had trampled upon [illegible] garden and had annoyed [illegible] iting on the sidewalk in front of home. Mrs. Bagner called the police arrested, but when Patrolman [illegible] Perkins arrived at the Bonner house the alleger offenders could not be located.

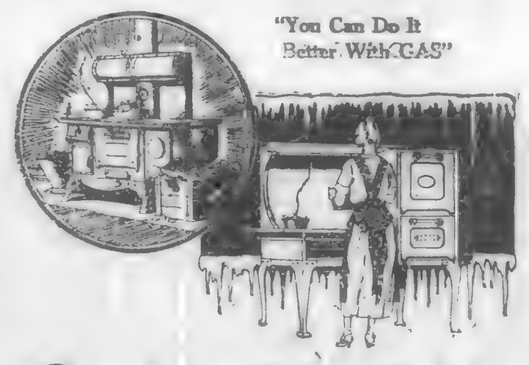
Mr. and Mrs. Frank Lord, Bliss street, returned to their home having spent several days with relatives in Greenfield, Mass.

James Dixon, colored, employed as a freight handler, a familiar figure in local prize rings when [illegible] als were popular, was arrested Saturday night by Sergeant Charles Hammond and Patrolman Howard Sloan, charged with peeping through the windows of the home of Mrs. Ann Slade, 40 Truman street. Dixon was locked up and will be given a hearing in the police court tomorrow morning. Dixon, who has before been arrested for the same offence, having been detected peering through windows on Tilley street was discovered by Mrs. Slade at the windows of her home about 11 o'clock. Mrs. Slade communicated with the police and when Sergeant Cavanaugh arrived at the Slade house Dixon was found there.

A three-cornered automobile collision occurred on the New London approach of the Thames river highway bridge late Saturday afternoon and as a result of the crash the cars of George P. Hammel, 524 Bank street and Emonz Nickerson, 35 Cliff street, Mystic, were damaged. Hammel claiming his car was damaged to the extent of $100. The three cars became wedged in traffic about 5 o'clock and in the mixup a car operated by Alfred H. Hurst, 7 Park Place Staten Island, New York collided with Hammel's car causing the latter machine to plunge against the car driven by Nickerson.

Mrs. Charles P. Hammond, wife of Patrolman Hammond, 101 Tillinghast street, in walking along Jay street Saturday night, stumbled upon a depression in the walk, causing her to be thrown and to sustain painful, but not serious injuries.

At the meeting of the city council Monday evening City Manager Holt will report on the hearing which was given to citizens who had previously expressed a desire to have traffic move one way on Bank street, and that way south. He will report that such a change would be to the detri-



"You Can Do It Better With GAS"

Cook with GAS and Keep Cool!

LOOK at that old cook stove just sizzling with heat! Think of the work and dirt and mess it makes. Then look at the clean efficient gas range. Just touch a button and the fire is ready. All heat is concentrated under the cooking pans. It doesn't go out through the rooms and smother the kitchen. It cooks more quickly and requires less care. Therefore you finish your work sooner and get out of the kitchen altogether.

Pay $8.00 Down and Get a New CABINET GAS RANGE

We can make immediate installation so that you needn't go through another week of stifling kitchen heat. Come into Gas Range Headquarters, choose your range, make the small down payment and we'll do the rest—free of charge.

THE PLATFORM CONTEST.

How determined has been the fight in behalf of denunciation of the Ku Klux Klan in the democratic platform is evidenced by the contest that took place on the floor of the convention. It was a fight which it had been hoped to avoid. It was a fight that was unquestionably closer in its outcome than was anticipated and it was a fight that indicates a division in the party, the consequences of which no one can tell. There are those who look upon the fight as one that will help the party and there are those who regard it as a most unfortunate occurrence that will prove serious. Beaten only by one vote it is evident that division was very close, but with William Jennings Bryan as the victorious leader.

It was a contest that even exceeded the fight relative to the league of nations. The platform provision concerning the league means that the Woodrow Wilson view has been repudiated and that as a substitute therefore the idea of referring it back to the people has been adopted regardless of the fact that there was such an overwhelming expression against the idea of entering the league when Warren Harding was elected.

The outcome of the Klan fight is bound to be seized upon as a test of strength between the Smith and the McAdoo candidacies with the margin of difference so slight that it brings no consolation. Based upon this question it gives ground for the belief that neither one can rally sufficient strength from the ranks of the other to get the needed two-thirds vote of the convention. This is not a new claim. It is one, in fact, which has been repeatedly asserted, but now it must be looked upon as an expression which will serve to encourage the prospects of some other of that array of 16 candidates.

Narrow though the margin is the resolution committee has the satisfaction of being sustained and had its advice been followed some bad convention demonstrations would have been avoided. Though the Klan fight has been lost so far as the democratic platform is concerned it is by no means ended.

THE MAUGHAN DISCLOSURE.

In view of his successful flight from coast to coast between dawn and dusk interest in aviation for the time being must center about Lieutenant Maughan. His was a remarkable accomplishment. It means a great strain upon the aviator and a great test of his machine. The effect upon American aviation whether in or out of the army is bound to be considerable.

The impression might be gained that this flight shows what the army can do. Without a question it does so far as Lieutenant Maughan and his airplane are concerned, but it gives no idea as to how well equipped the army or the country is with such machines. A statement by Lieutenant Maughan himself throws much light on this situation when he points out that his is the only machine on the Pacific coast capable of such a flight. The crossing of the country in a little over 21 hours is possible and it may be reduced, but the machines must be provided even if there are aviators skillful enough to guide and operate them.

Further evidence of the need of giving more attention to aviation in the army is furnished by General Patrick, chief of the air service, when he says that the airplanes being used by the army air service are obsolete and many of them are dangerous.

Certainly the effectiveness of our air service cannot be determined by one machine. It has been shown what can be done with up to date equipment. It has been demonstrated of what effectiveness our air service can be if provided with modern machines and it has been disclosed what our aviators are prepared to give in the way of service and protection.

Inasmuch as one airplane doesn't make this the world's leader in air service it is evident that greater attention must be given to this branch of our national defense if it is to be brought up to and kept at the degree of efficiency which the welfare of the country depends upon and demands.

MR. MELLON IN COURT.

Marked is the difference between court trials and the proceedings before a congressional committee. This is disclosed in the contrast between the testimony permitted at Washington during the hearings when Gaston B. Means and others were telling stories and the Means trial that is now underway in New York.

At the Means trial, Secretary Mellon of the treasury department has been called to testify. There was no reason why he shouldn't and there was no disposition to evade it. The fact that Mr. Mellon was a stockholder in a whiskey distillery before the days of prohibition has been kept before the public. There have been charges that he was interested in the illegal withdrawal of liquor from that distillery. Those who knew him gave credit to his denials. Those who were working for an ulterior purpose played it up for all it was worth.

In regard to this distillery Secretary Mellon testified that he did own an interest in the distillery but that it has been liquidated, and that it was not as the head of the business but as a stockholder. He also insisted that his Pittsburgh banks had not accepted whiskey withdrawal permits as collateral for loans since 1915. When the Volstead act went into effect the distillery stopped making whiskey and it has since been dismantled. This means that he has not been violating the dry law regardless of what detractors have tried to make out.

Many questions were fired at the former secretary that were irrelevant, the mere asking of which were intended to embarrass, but they were excluded. The court would not permit any attempt at the blackening of the character of the witness. There was no countenancing of such methods as were tolerated at congressional hearings, even though the congressional committees in many instances later decided there was no basis for many of the allegations.

The court protection is only what was justified. Nothing was covered up that was pertinent to the trial but that which had no bearing thereon was excluded.

HADLAI A. HULL.

Great is the loss which New London county as well as city has suffered in the removal by death of Hadlai A. Hull, state's attorney for this county. He was an individual of commanding prominence in the legal fraternity for many years, whose work in behalf of temperance gained for him widespread prominence and whose services were frequently sought as a powerful and convincing speaker.

As a citizen he was of that type which no community has too many, and as a lawyer he was held in the highest esteem by members of the bar and the public in general. Much confidence was placed in judgment and efforts as the state's prosecutor for New London county. By ability and temperament he was well fitted for the office and his administration thereof has been one that has been marked by fairness and justice. An ardent upholder of law and order he was a worthy successor of the late Solomon Lucas in whose footsteps he followed.

Hadlai A. Hull was a man among men, an individual of broad sympathy, possessed of the courage and thoroughness that are required for that office, strong in his convictions and not afraid to assert them. He was kind in manner, jovial in disposition at all times a loyal and true friend. He was a prosecutor who put forth his cases in clear, direct and concise manner and one who pounded home his well thought out arguments. He possessed a judicial mind and it was no doubt a great disappointment, following an endorsement by the county bar, that he was not some years ago placed on the bench of the superior court of Connecticut. He made a record well known beyond the confines of his city and county and his passing will be sincerely mourned.

SECONDING SPEECHES.

It is no easy task to reform political conventions. Neither is it an easy matter to set the brakes against certain tendencies, but it has been repeatedly demonstrated that there is a sincere demand for it in connection with seconding speeches. Conventions do not take kindly to the idea of having a lot of time wasted with speechmaking which reiterates what has been said or that goes into lengthy statements for which it cares nothing and in too many instances tells them nothing new.

It was characteristic of the Cleveland convention and also of the New York convention that the loud speaking person of few words made a distinct hit, and this is particularly true when it gets to the point where several insist upon being recorded as seconders of the nominations.

There is such a thing as tiring an audience and this is repeatedly disclosed when those who rise to lend their endorsement insist not only in occupying the time allotted to them but dip overgenerously into the time that is allotted to and desired by others. It is unfortunate that such speakers do not take a cue from those of few words who invariably get a big hand to say nothing of avoiding the interruptions and boomings that are invited by the lengthy and wordy speeches which could easily and much more effectively be crowded into half the time.

It makes little difference who the speaker is, how important a position he holds or what he has to say, when he tries to furnish a convention a speech which it does not want he is engaging in a useless effort. Some day there may be an effective regulation of seconding speeches, but apparently that day has not yet arrived.

EDITORIAL NOTES.

One guess continues to be just as good as another in New York.

The democrats are proving their ability in the staging of an endurance test.

Have you noticed that much of the building that is being done is just over the city line?

The alcohol output is said to be reduced. Does that mean that consumption is decreasing?

The man on the corner says: Many a pre-Fourth explosion gives the autoist thoughts of a blowout.

Even in this month of roses Norwich isn't displaying as many as it should to live up to its name.

No one attending the New York convention can look upon it as a vacation filled with rest and tranquility.

The coming of July will be welcomed by many since it means the disappearance of more of the nuisance taxes.

With the speed made by Lieut. Maughan, the American round the world aviators would not be long in completing the circuit.

Those resort proprietors who have been displaying long faces are getting back that broad and happy smile that goes with a big season.

The lieutenant governor of Rhode Island wasn't willing to get along with the republican senators and now he is unable to do anything without them.

WOMAN IN LIFE AND IN THE KITCHEN

SUGGESTIONS FOR THE HOUSEWIFE

Strong liquid ammonia or a strong solution of potash or washing soda will dissolve paint or varnish.

Smoked ceilings that have been smoked by an oil lamp may be cleaned by washing with soda water.

If you allow the handles of your pearl or bone knives and forks to remain in water they will become discolored.

Keep your uncooked meat in a covered enamel dish in your icebox. Never put it away wrapped in the paper in which the butcher delivered it.

Pare vegetables into a paper bag; when through, the paper bag may be thrown away and time spent in gathering up peelings may be saved.

Your dumplings or steamed puddings are quite apt to fall if you lift the lid of the steamer while they are cooking.

To polish copper, brass or zinc use vinegar and salt. Apply with a soft cloth and polish with a dry woolen cloth.

Dishtowel racks should be as near as possible to the kitchen sink and should be high enough to be out of the way.

Eggs covered with boiling water and allowed to stand for five minutes are more easily digested than eggs placed in boiling water and allowed to boil furiously for three minutes.

Always sweep rugs and carpets the way of the grain. Brushing against the grain roughens the surface, and it tends to brush the dust in instead of out.

For grease spots on matting cover the spot with French chalk and moisten with a little turpentine. Let this stand a few days, then brush off with a stiff brush.

When tomatoes are plentiful, wash and scald them, strain through a fine sieve and boil until thick. Put in glass jars. The paste will be found useful for flavoring soups and sauces.

When your bedspread has become wrinkled, take a stiff whisk-broom and brush over the spread. The fresh appearance it gives to the spread, removing all wrinkles, will surprise you.

Keeping Up The Kitchen

To keep the kitchen in good condition it is essential that the floors and woodwork be painted or varnished so that they may be kept clean easily, and the kitchen kept in good condition. In painting or varnishing the kitchen, make sure that all the cracks are filled with putty after the first coat of paint is applied. So much for the walls and floor.

White enamel will convert the oldest sink into a clean, shining, new-looking one. Be sure that the surface is dry before applying the three thin coats necessary to paint it. Sufficient time for drying should be allowed between each coat. Enamel the pipes and wherever else moisture collects, for moisture means rust.

The ice-box should be painted inside and out for sanitary reasons, and because three coats of paint will make it harmonize with the spotless cleanliness of the other painted kitchen accessories. If perferred, the ice-box may be varnished on the outside and painted on the inside only.

Windows, doors and their screens should be painted to match the room. Paint not only makes them cleaner and neater, but preserves both screening and frame from early deterioration.

HEALTH AND BEAUTY

A thin hair pillow is best for baby. Feather pillows make the little fellow's head perspire.

Many of us housewives are fond of a few minutes work in the garden each day, but it does play havoc with the fingernails. Rub some soap under the nails before going into the garden to work. Then the dirt will wash right out with the soap.

Once a day baby's bottles should be placed in a saucepan of cold water and allowed to remain on the stove until the water has boiled for a couple of minutes. The nipples should be washed in boracic acid solution.

In general calluses and corns are formed to protect the bone underneath from outside pressure. If you have a horny bit of skin on the sole of your foot you will find by pressing it gently that the bone at that point is quite near the surface. If your shoes are comfortable otherwise, the pressure that causes the calluses may be relieved by having special felt pads fitted into the shoes.

TO GAIN WEIGHT

One glance at the flappers of today makes us wonder if any notes on gaining weight will be welcome. Still here goes:

Learn to relax.

Never work to the point of exhaustion.

Take moderate exercise, but not to the point of tiredness.

Eat plenty of tomatoes and oranges, they help to increase the appetite.

Sleep long hours and rest as often during the day as your occupation permits.

Eat plenty of butter, sugar, cereal, bacon, salad oil, cream, milk, but avoid candy between meals, as it will take away the appetite for more nourishing things.

SKIRTS GROW SHORTER

Just when everybody had accepted the knee-length skirt as a joy forever, Paris said, "Enough of that—we must change the style and compel a complete change of wardrobe. The long skirt is the thing now." And it went over. Now Paris apparently thinks the women of the country have been wearing long skirts long enough and it is time to retreat and take them up a few inches.

It is an edict. And the last word is short skirts. How short? It looks as if about twelve to fourteen inches from the ground would about meet the style order. At the present time eight to ten inches is the accepted length.

CLEANING SEWING MACHINE

When cleaning a sewing machine first place it near enough to get warm so that the congealed oil may melt. Then oil it thoroughly and carefully. Work it quickly for a few drops of machine oil. After the application of a little more kerosene wipe it again and it will be ready for use. People often shirk the trouble of cleaning their machines like this, but a clogged and heavy machine under this treatment will become like new, and its reworking will be ample reward for the trouble incurred.

DICTATES OF FASHION

Velvet pipings and narrow velvet bands are exploited on bright color felts.

Pin checked felts for sports wear in all of the high shades are featured among the styles.

A vogue for black satin self trimmed continues.

Small headsizes are the only demand in felt hats, as the older woman does not favor felt.

New bags for formal or evening wear are crocheted entirely of small imitation pearls.

With the smartest sport clothes the plain felt hat, low-heeled shoes and chamois gloves are inevitable.

A striking exponent of the vogue for white is a coat of homespun tortored with a sport fur in tones of gray and brown.

Big black lace hats are here once more. No summer is complete without them. This season each hat takes a single rose for its only ornament.

Nothing is more chic for summer wear than a three-quarter length coat of flannel. The coat may be any shade, but navy blue, with a collar of sheared white rabbit, is a favorite.

A great many petal tabs are being used today on the skirts of summer dance frocks. Each tab has a tiny ruffle around the edge of it and in the movements of the dance gives a swirling effect.

Shoes today are becoming more and more unusual. One pair combines the season's affection for orange and red. The red vamp is covered with large, irregular orange splotches.

Gay little party bags are made of white net combined with many little ruffles of valenciennes, surmounted by a doll's head.

PRACTICAL AND SMART

For practical purposes and for the woman who travels there is no wiser choice than a negligee made on the lines of a coat. These are smart when developed in wide striped tub silks in gay colors, or in the plain colors bound with a contrasting shade. Orchid and powder blue, delft blue and yellow, and yellow with apple green are some of the color combinations seen in these negligees which are serviceable as well as modish and may be easily laundered.

LEATHER RIBBON CASE

Since ribbons play such a large part in the scheme of things this season, a flat case of blue leather that is designed particularly to hold them will make a most acceptable gift. Inside the case are two large pieces of celluloid, notched to accomodate different widths of ribbons.

DAINTY AND YOUTHFUL

Summer frocks for young girls are more delightful than ever and all the old favorites are well represented in the material. Smart little frocks of madonna blue dotted swiss are simply trimmed with Irish chochet lace, while others equally new and pretty are of beige dimity with large white dots.

LAUNDRY HINTS

To save time when you are ready to iron, sprinkle the clothes with warm water instead of cold. Roll them up tightly in a damp towel, and in ten minutes they will be ready.

Iron pillowslips lengthwise instead of crosswise if you wish to iron the wrinkles out instead of in.

In covering an ironing board tack your sheet on wet, and dry it gradually. The result will be an absolutely tight and smooth covering.

When white clothes have turned yellow with much washing, put them in the boiler, half full of water, to which a handful of salt and washing soda has been added. Bring this to a boil and keep simmering for some hours. Rinse the clothes in plenty of cold water and hang them in the sun to dry.

USING LEFTOVERS

Leftover cake may be crumbled, laid in alternating layers with fresh or canned fruit in a buttered baking dish, and a custard mixture of 1 pint of milk, 2 eggs, a pinch of salt, a seasoning of cinnamon and 3 tablespoons of sugar poured over. Bake until nicely set. Or the cake may be cut in dice and boiled custard poured over, the whites of the eggs being used as a meringue. In this case, season with vanilla in place of cinnamon and serve very cold.

A small portion of chicken meat may be heated in a cream sauce and a pint of large, fat oysters added. Prepare the oysters by removing the tough muscle and washing free of sand and bits of shell. Season the cream sauce and serve with freshly boiled rice. Make a little mound of the rice on the plate with a dent in the top. Finish with chicken and oysters. Or the chicken and oyster mixture may be served on warm baking powder biscuit freshly baked and broken open.

INFLUENCE OF PAINT

When things are well kept and spic and span the effect on us is somewhat like that of a new suit of clothes. We "take on" our environment and our spirits and initiative are influenced by our surroundings. Paint builds morale because well painted property expresses happiness and thrift.

SERVING CUCUMBERS

Cucumbers should never be served floating in vinegar that has been peppered and salted. It destroys the flavor. One might just as well put vinegar into drinking water. When cucumbers are to be used in salads they should be peeled and sliced after the other greens are in the salad bowl, as cucumbers sliced fine wither quickly. Pour the dressing over the salad immediately.

BETTER A FEW DAYS LATER

If you are in the habit of buying your chickens alive and having them killed, try cleaning them (not washing), sprinkling with salt and keeping in the refrigerator for a few days before using. You will find they will be much more tender and will have lost that "stringy" texture that a freshly killed chicken is very apt to have.

CONCERNING WOMEN

One of the latest innovations in the London clubs is that of women billiard markers.

Still going strong at the age of 83 years, Mrs. J. W. Patterson of Marshall, Mo., claims to be the oldest newspaper reporter in the country.

It is estimated that there are more than 9,500 chorus girls out of employment at the present time.

Mrs. John D. Sherman was recently appointed a life member of the National Park Commission.

Twelve women were recently honored by the French Minister of Agriculture with the Legion of Honor decoration.

PUT BOOKS IN PLACE

Teach children the proper care of their books by having low book shelves around the walls and insisting upon their putting their books in pace after the story hour.

REMOVE FRUIT STAIN

Fruit stains on linen should be removed with glycerin and left for about an hour; then wash the stain in warm soapy water, repeat the process if necessary.

RECIPES

Scalloped Chicken: Cook one cup of half inch pieces of celery until tender. Save the water to make sauce. Slice small and thin two cups of cold chicken or turkey, season with salt and pepper and moisten with gravy. Stir two tablespoons of flour in two tablespoons of melted butter and add slowly one cup of celery water, a half cup of milk, a little pepper and a quarter teaspoon of salt. Cook till thickened and smooth, then add the celery. Put a few crumbs in a buttered baking dish and arrange alternate layers of chicken and sauce. Cover with buttered crumbs and brown in a hot oven.

Wedding Cake: Two cups butter, 3 cups brown sugar, 10 eggs, 4 cups pastry flour, 1 teaspoon soda, 1 teaspoon cinnamon, 1 teaspoon nutmeg, 1 teaspoon mace, 1-2 teaspoon allspice, 1-2 teaspoon cloves, 1-4 teaspoon salt, 1-2 cup sweet cider or white grape juice, 1 cup molasses, 3 pounds seeded raisins, 2 pounds currants, 1 pound citron. Cream together the butter and brown sugar very thoroughly. Add the eggs well beaten. Mix and sift together 3 1-2 cups of the flour, the soda, salt and spices. Add these dry ingredients to the first mixture alternately with the cider and molasses. Clean and weigh out the raisins and currants, slice the citron thinly and mix all with the rest of the flour. Add to the cake, beat well and pour into 3 good-sized loaf pans which have been greased and floured. Bake at 275 degrees F. for 3 hours or until thoroughly baked.

Are You Discouraged?

Morgan Often Was Misunderstood

Son of America's greatest financier, John Pierpont Morgan had a happy boyhood, acquired a finished education and inherited power and position—then he became the target for criticism, calumny, false propaganda and general misunderstanding.

Born at Irvington, N. Y., the son of the renowned J. Pierpont Morgan, "Jack" attended St Paul's school, Concord, N. H., and when 22 was graduated from Harvard, after which he spent a year in a Boston foreign exchange house. Married at 28, he went to New York and took a place in his father's banking firm. Soon afterward he was sent to J. P. Morgan & Co.'s London branch. Ten years later he returned to New York.

He revered his father and the elder Morgan's death was a hard blow. The retiring and modest son then became head of the firm. He was little known, his ability to make good was questioned, he was called "dictatorial" and when the necessity demanded that he sell part of his father's art collection, criticism was harsh.

His father had been interested in many companies, and the son had to face the battle against "interlocking directorates" that ended in his house withdrawing from thirty concerns.

Morgan announced a conservative banking policy for his firm, then came the World war that made the Morgan house head of the financing and buying for several of the allied countries. His efficient handling of the huge deals brought upon his charges that he was at the head of a large propaganda conspiracy to force the United States into the war so that the security of his loans might be guaranteed. In Congress resolutions demanding an investigation, were brought up, but dwindled into inaction.

A German entered his home to kidnap him. To protect his family Morgan grappled with the man and was wounded. His bravery won high praise.

After the United States entered the war he was a leading figure in helping this country besides buying Liberty Bonds and loaning money to the Army Department without security.

After the war he took an active part in the rehabilitation of Europe and was honored by many countries as the world's leading international financiers.

Tomorrow—Stefansson Had to "Go It Alone."

Today's Anniversaries

1776—Committee of Safety appointed with Benjamin Franklin as president.
1813—William A. Wheeler, Vice president of the United States, born at Malone, N. Y. Died there, June 4, 1887.
1824—Gen. James C. Duane, chief engineer of the Army of the Potomac, born at Shenectady, N. Y. Died in New York City, Nov. 8, 1897.
1827—First theatre in St. Louis built by James H. Cadwell, opened.
1849—Father Mathew, the famous Irish apostle of temperance, arrived in New York.
1874—Henry Grinnell, who financed four exploring expeditions to the Arctic, died in New York City. Born at New Bedford, Mass., in 1799.
1883—Charles Guiteau executed at Washington for the assassination of President Garfield.
1921—William H. Taft was named Chief Justice of the United States.
1923—President Harding and party visited Yellowstone park.
Ten killed in bombing of Belgian troop train in Germany.

Today's Birthdays

Count Julius Andrassy, celebrated patriot and statesman, born 34 years ago today.

Dr. Joseph P. Harker, for 30 years head of the Illinois Methodist Women's College, born in England 71 years ago today.

Roy L. McCardell, celebrated journalist and author, born at Havertown, Md., 54 years ago today.

Cordenio A. Severnence, former president of the American Bar Association, born at Manterville, Minn., 62 years ago today.

IN THE PUBLIC EYE

The British Women's Symphony orchestra, whose inaugural concert given recently in London proved a most notable occasion, has for its conductor Miss Gwynne Kimpton, whose work has been compared favorably with that of her most distinguished male contemporaries. Though she began her professional career as a violinist Miss Kimpton has always been connected with orchestral work. Even when she was still a student at a school of music she led—and often conducted—the orchestra. Later at schools where she taught and in clubs which she founded little bands grew up that did increasingly good work, a year by year the scope of her activities widened. All this time she was teaching herself to conduct, and though she says there is still plenty she wants to learn, the success already won by the British Women's Symphony orchestra is a definite landmark not only in her own career as an artist but in the whole movement as it concerns music.

CHILD TRAINING

"COMPARISONS ARE ODIOUS"

By Edith Lochridge Reid

Clifford dislikes his cousin Frank—in fact the dislike almost amounts to hate — and the only reason is that ever since the two boys were old enough to distinguish right from wrong Frank has been held up as a "shining example" of behavior.

"Frank wouldn't sit down in the dirt with his best clothes on," is the way Clifford is reprimanded for his carelessness. "Frank doesn't take such big bites of food," is offered as an incentive toward good table manners.

The truth is that Frank is naturally disposed to be neat. His temperament is entirely unlike Clifford's and it isn't an effort for him to be clean and polite. Clifford has many good wholesome qualities, but he is husky and decidedly boylike, an altogether different make-up. But these things are not taken into consideration by his mother.

There is just one reason why a child should be asked or expected to act in a certain way or follow a given line of conduct, and that is because such a course of action is right and proper, not because some other child does thus and so. If you are going to set up an ideal for a child to attain, be sure the ideal is infallible. He will not reach this perfection of course, as no human being ever does, but it will be worth striving for. He should be inspired from an inward consciousness of right and not directed to act like some other child.

Julia's mother was very much crushed one day to find that her small daughter had stolen a bag of popcorn from the peddler's wagon.

"How could you do such a thing and make mother feel so bad?" was the first reprimand Julia received for this misdeed — a remark which in itself was very bad psychology. A child should be taught to be honest because stealing is wrong and not because it makes mother feel bad.

"Betty took a bag first," said Julia defending herself.

"That's no excuse for you, my dear; you can't take things that belongs to someone else even if your friend does."

"But mother, you always tell me Betty is so nice and quiet and good to her baby sister, so now why don't you put the blame on Betty?"

Can you wonder that Julia showed this resentment?

This case illustrates the fallacy of holding another child up as an ideal of behavior. Perhaps Jack does keep his hands clean but he may be deplorably deceitful. Suppose Mildred does go to bed without pouting and picks up her playthings without being told, she may be a very disagreeable, selfish little girl when she plays with other children. So beware of holding Mildred up to your little Mary as an ideal, for Mary knows all about Mildred's faults. If all comes back to what Julia insinuated to her mother about Betty, that if an ideal is set up it should be followed in all points—and yet there never was a child so perfect that you could say you wanted your child to be like him in every respect.

The only safe way, then, is to comment favorably on the good traits your own child possesses, and by thus stressing his best natural characteristics, inspire him to develop other good ones, not because some playmate has these qualities, but because they appeal to him as desirable. And, whenever you are tempted to set up "shining examples" before your children, remember the old saying, "Comparisons are odious."

A Little Talk on Thrift

TEACH, TALK, PREACH THRIFT

It is well that the subject of thrift be kept constantly before the public. This does not mean that there be a continual exhortation to save money. What it does mean is that too much general attention cannot be given to methods of wise spending, economy, efficiency and elimination of waste, as well as sensible saving. To this end a conference soon will be held in Washington of representatives of various groups and organizations interested in thrift.

A little less than nine years ago a conference was held on the grounds of the Panama-Pacific Exposition in San Francisco. The meeting was called the International Congress for Thrift, resulted in the formation of plans for the introduction of thrift teaching in the schools of America. Today thousands of our boys and girls are being given class-room instructions on thrift as the direct result of that conference. The good thus accomplished has been beyond calculation.

Teach thrift. Talk thrift. Preach thrift. But let it be the thrift of progress and upbuilding, not the so-called thrift avarice and selfishness. The correct use of time, energy, thought and money are vastly more important than the mere function of saving money. To be worthy is to thrive in the truest and most comprehensive sense.

We are assured that the pending Washington conference will seek to find means by which various important organizations can co-operate to the end of encouraging thrift of this kind. The serious consideration of these matters by a group of public spirited men and women actuated by sincere aspirations will result in a tremendous impetus to thrift education in America.

This conference will, for reasons, be the most important event of the kind since the intensive thrift activities of war days.

The very fact that so many groups and individuals are vitally interested in this conference is an inspiring proof that there is a great public thrift impulse in America. Prior to 1914 an effort to hold a serious and important nation-wide conference on thrift would have been futile.

America is learning the importance of intelligent thrift!—American Society for Thrift.

IN THE DAY'S NEWS

THE HEBRIDES, SCOTLAND

Large groups of "crofters" or small farmers, emigrating from the Hebrides because they assert the climate there has changed, bringing about failures, draw attention to these islands off the west shore of Scotland.

"Life in the Hebrides, whether because of climatic or social conditions, has always been rather hard," says a bulletin in regard to the islands from the Washington, D. C., headquarters of the National Geographic Society. "This part of Scotland is bleak, cool, and very moist. Vegetation does not grow luxuriantly, and the annual temperature has only a few degrees to fall in order that the danger point be reached. Turnips and potatoes are the chief standbys among the vegetables while barley and oats grow fairly well. Pasturage is good, and stock-raising is really the industry best adapted to the islands; but this fact is of small value to the 'crofters' or small farmers. The cattle are raised, rather, on large estates.

"Time after time there have been crop failures which have put a large part of the population on the verge of starvation. On such occasions numbers of the crofters and cotters have gone to Australia or America. Some observers are pessimistic enough to see a time when all the small farmers and cottage dwellers will desert the islands leaving them in the hands of large estate owners and seaside village fisherfolk.

"The Hebrides are not a small group of islands like the Shetlands and Orkneys. It is hard, in fact, to consider them apart from the mainland. The larger members of the Inner Hebrides are separated from Scotland proper by such narrow channels that only close inspection of the map shows them not to be a part of the mainland. The Outer Hebrides even are only 12 miles off the coast. In spite of this proximity, however, the isles are somewhat isolated, and their inhabitants have clung to customs long since dropped by their kinsmen on the mainland. Rude old stone structures, religious symbols of a pre-Christian era, abound; and until comparatively recently the Christian islanders conducted certain ceremonies about them.

"Iona, one of the smaller of the Inner Hebrides, was the 'Blessed Isle' of early Christian days in the British Islands. St. Columba, noted Irish missionary, made it the center of Celtic Christianity, a position which was made even stronger after his death. From there missionaries went out to convert Scotland and northern England to Christianity. Kings were brought to be buried in the soil of the sacred island. The importance of Iona was ended, however, by the Danes who swept down about the beginning of the ninth century and seized the Hebrides from the Scotch. The islands were not returned to Scotland's overlordship until 1266. Later the Hebrides again had a sort of independence when a line of powerful Scotch noblemen set themselves up as 'Lords of the Isles.'

"More than 500 islands make up the Hebrides group, but only about 100 are inhabited. When the semi-feudalistic regime was ended in the islands in 1748 many crofters were driven off the estates, the standard of living dropped very low, and large numbers of people were barely able to keep alive. When, in 1884, famine drew attention to the hard lot of the people on many of the islands a relief commission was formed by the British government and certain reforms brought about. But even today on Lewis-with-Harris, the largest island, many of the people live under most primitive conditions in little stone huts roofed with turf and shared with animals and poultry.

"Danish blood is evident in some of the islands and a large proportion of the people speak Gaelic. Climatic conditions not only limit the vegetation, but have affected the animals of the islands, stunting them somewhat. There are small breeds of horses, cows and sheep. The variety, too, is small, especially among the mammals. On St. Kilda, outermost of the Outer Hebrides, a mouse is the only indigenous mammal."

Stories That Recall Others

Now I'll Tell One.

Three friends, all married and wise in the ways of housekeeping, were listening to the enthusiastic agent of a dishwashing machine. He picked Mrs. A to address most of his talk to. He expounded at length on the convenience, the time saving, etc., of his product and brought his speech to a close pounding his fist into his palm and looking straight and solemnly into Mrs. A's eyes by saying: "And this little machine will wash, polish and dry the dishes from three meals in ten minutes."

Just as solemnly Mrs. A returned his gaze and answered: "Now I'll one."

The permanent health committee of the league of nations is considering the establishment of an outpost on the frontier of Asia for the purpose of detecting the approach of epidemics.

1784 1924

Norwich, Monday, June 30, 1924.

VARIOUS MATTERS

The first half of 1924 ends with today, June 30th.

Light vehicle lamps at 7.55 (standard time) this evening.

The length of the day has already decreased three minutes.

Dr. R. R. Agnew will be out of town until July 13th.—adv.

Baltimore Belle roses on trellises and fences about town are in full bloom.

At the beaches this season, the ice cream sandwich appears to have put the favorite cone in eclipse.

The closing session for the season of the Men's class of Trinity Methodist church was held Sunday.

Visitors to the hills Sunday brought home great quantities of laurel, which is pink and full this season.

Taking advantage of a hot, sunny day, farmers in the suburbs were busied with mowing Saturday.

The Sunday school picnic of the Central Baptist church is to be held today (Monday) at Mohegan Park.

As observation days for July, Friday and Saturday appeared to promise sun and showers, about fifty-fifty.

Numerous repairs are being made in and upon the finishing room building of the Fawcatuck woolen mill, at Potter Hill.

Yesterday was the last Sunday afternoon until October that the reading room of Otis library will be open.

A wide cement walk, also a flight of steps are being completed along the property at the Chamberlain House, on Church street.

Growers of flowers, who have been almost discouraged by the backward season, find that bulbs and plants are just speeding along.

Why not buy one of our refinished cars and enjoy the 4th? Norwich Used Car Exchange Inc., 95 Lafayette St. (opp. Yantic cemetery.)—adv.

This is the week when the roses are in bloom and very attractive in the yard at the residence of Mr. and Mrs. John Johnson, on Union street.

At the young people's service at the First Baptist church Sunday at 6.30, Joseph Olsen led in the consideration of the topic, "Our Newest Americans."

The member of the Otis Library staff appointed to have charge of the reading room Sunday afternoon, between 2 and 6, was Miss Harriet G. Cross.

The foundation is being prepared for a rustic stone wall around the street, in front of the E. W. Vars residence property on Main street, in Bradford.

Norwich Grange lawn party and strawberry supper, 59 West Thames street, Tuesday, 5 to 9 p. m. Supper 50c.—adv.

The anthem so well given by the quartet of the United Congregational church Sunday morning was Galbraith's "O Lord, How Excellent Is Thy Name."

At Moosup, John Wood and family of Providence will pitch a tent on the farm of Mr. Wood's brother, Raymond Wood, and will enjoy camp life for the summer.

In the court house grounds, Janitor Joseph J. Fields has some thrifty phlox, Canterbury bells, geraniums and heliotrope with cannas and coleus growing well.

Showers between 4 and 5 o'clock Sunday morning disconcerted those who were hoping for favorable weather. By breakfast time the day was hot and sultry.

It is noted at Centre Village that Frances Carlan of Fort Wright, N. Y., and James Carlan of Worcester, have been guests of their mother, Mrs. John Birracree.

Across the Rhode Island line, Gov. William S. Flynn has issued a proclamation appointing Saturday, July 5, a bank holiday, to be observed by all banks and banking institutions within the state.

The message on the wayside pulpit at the Church of the Good Shepherd (Universalist) Sunday was: "Integrity is a necessity in the moral life of a nation. Religion is necessary to nourish integrity."

The public schools of New York city end the term and year today. The set date is June 30th and had the schools closed Friday, the 27th, as the teachers desired, it would have implied a loss of $26,000 for the omitted day.

Although reports from the trade indicate that sales of sporting goods, in the aggregate continue behind those of a year ago, there appears to have been a noticeable improvement in this merchandise in the last week or so, as the vacation season opens.

Williams college alumni here learn that Supreme Court Justice Tierney of New York has signed an order permitting the Williams club of New York to mortgage property at 24 and 26 East Thirty-ninth street for ten years to Williams college, for $200,000.

By the will of Charles Wickwire, of New York, who died Nov. 22, 1922, a sister, Addie M. Wickwire, of Colchester, Conn., receives $18,117. The net estate is $47,232. One item is an interest in the estate of Mary J. Wickwire, of Colchester, inventoried at $1,500.

The United States civil service commission will receive applications for examinations for photo negative cutter for vacancies in the hydrographic office, navy department, Washington, D. C. The entrance salary will be $1,680 a year. Both men and women may enter.

Funeral services for Carrie Ruth, daughter of the late Charles M. and Sarah D. Wilcox, of Passaic, N. J., who died June 26th were held at the home of her sister, Mrs. William A. Ayerigg, Stamford, Friday at 4 p. m. Burial was in [illegible] Saturday at 12 o'clock. Miss Wilcox was aunt of Mrs. LeRoy Robbins, of Norwich.

Heard Automobile Damage Suit

Judge C. B. Waller reserved decision Saturday in the common pleas court here after hearing trial of the suit of F. L. Lathrop of Bozrah against Walter Magneak and others of this city for $500 for damages to the Lathrop motor truck. Mr. Lathrop's claim is that while his son Harold was driving the truck at Bean Hill Nov. 14, 1923, and was pulling out from the curb, it was run into by the Magnesky automobile.

Court adjourned to next Tuesday.

Appointed Head Nurse.

Many friends of Mrs. Charles Gardner, formerly Miss Rose Cloutier, will be glad to learn that she has received her diploma and is now head nurse at the surgical and maternity hospital in West Haven. She is the daughter of Mr. and Mrs. Michael Cloutier of 189 North Main street.

Solitude frequently surrounds the man who is alone wit his thoughts.

PERSONALS

James W. Bussey has returned from a business trip to New York.

Max Rabinovitch, of Norwich, has been in New York on business.

Rev. Myles P. Galvin, of St. Patrick's parish, is having his annual vacation of two weeks.

James Fenlay of Potter Hill, R. I., was a recent visitor with his brother-in-law and sister, Mr. and Mrs. Richard Trainor, at their home in Norwich.

Ex-Mayor T. C. Murphy and Water Superintendent John J. Corkery have returned from attending the democratic convention in New York.

Mr. and Mrs. Stephen D. Forschler and daughter, Mary Frances, of Rochester, N. Y., are the guests of friends in town for a few days.

The family of Joseph Conner of 13 Lincoln avenue is occupying the former Hutzler cottage in Neptune Park Ocean Beach, recently purchased by Mr. Conner.

Emmett J. Fritz, physical director of the Norwich Y. M. C. A., who has been away for a week's vacation, returns this (Monday) morning to his duties at the association.

Mr. and Mrs. William E. Dinneen who were married two weeks ago and have been guests for a week at the home of the bride's parents, Mr. and Mrs. William T. McGarry, left Saturday to make their home in Cheyenne, Wyoming.

Mr. and Mrs. Edwin Hill, who have been spending the past week with General Secretary and Mrs. Hill at the Osgood, have returned to their home in New Haven, where Mr. Hill is boys' secretary at the New Haven Y. M. C. A. building.

OBITUARY.

Mrs. John Flynn.

The long and useful life of Mrs. Alice Flynn, 84, came to a peaceful close Saturday morning at her home in Poquetanuck, after four months' illness. Mrs. Flynn was the widow of John Flynn, who passed away 37 years ago. She has been a resident of Preston for sixty years. Mrs. Flynn leaves three sons, Patrick and John of Norwich, and Maurice, at home, also six daughters, Mrs. Mary Buckley, Mrs. Charles Cook, of Norwich, Mrs. George W. Mansfield, Mrs. Thomas Nagle and Misses Nellie and Catherin Flynn of Poquetanuck. There are fifteen grandchildren and seven great-grandchildren. Mrs. Flynn was a devout Christian, a loving mother, and helpful neighbor, always ready to aid in time of need. Her passing away brings sorrow to a happy home circle and those remaining have received expressions of sympathy from a large number of friends.

Dr. George M. Minor

Dr. George Maynard Minor, 63, died Saturday night at the residence of Miss Dora Beckwith, Waterford, where he had been seriously ill three months from a complication of diseases. He is survived by his widow, and by a daughter by a previous marriage, Miss Charlotte Beckwith Minor of Washington, D. C., and by a sister, Mrs. Herman Tiemann, of Newton, Conn. Dr. Minor was health officer and medical examiner of the town of Waterford for thirty years. At the time of his death he was a member of the Waterford school board. He was a democrat in politics. During the world war he was assigned to surgical duty aboard a British warship.

Dr. Minor was born in Stamford, the son of Robert C. and Isabella Smith Minor. He received his education at St. Paul's school Garden City, L. I., and was graduated from the Long Island Medical College. Dr. Minor began the practice of medicine in Waterford 35 years ago and had resided there throughout that period.

John Welch.

The death of John Welch of 132 Boswell avenue occurred at 11.30 o'clock Sunday morning, following an illness of three months. He was born in North Sea, Long Island, April 18, 1864, the son of the late Martin and Margaret Donohue Welch. When a boy he came to Norwich with his parents and received his education in the public schools here. Mr. Welch was never married and is survived by one sister, Miss Jane Welch of 132 Boswell avenue.

Mrs. Thomas Osborn.

Elizabeth Stacy Cornish, wife of the late Thomas Osborn, died in this city Sunday evening. She was a member of the Episcopal church and was born Aug. 14, 1832, in the town of Fratham Dorset, England. Surviving her are one son, Joseph and a daughter, Annie, both of this city. Her husband, died Nov. 14, 1921, and two sons, John, Dec. 6, 1901, and George, June 26, 1915.

James N. Watrous.

The death of James N. Watrous, formerly of Norwich, a retired contractor, occurred Sunday evening at his home in Waterford, in which place he had been a resident for about three years. He was born in Ledyard, the son of John and Emily Rogers, 73 years ago.

Mrs. George R. Clarke

After a long period of delicate health, the life of Mrs. Mary Perkins Clark, 79, widow of George Russell Clarke, formerly of Norwich, came to a close at her home in Pawtucket, R. I., June 27th. She was born in Lisbon, Connecticut, May 2, 1845, the daughter of Jonathan Perkins and Mary Jone Willoughy. Left motherless when an infant she was brought up by her grandmother. Early in life she showed a decided talent for music, being organist of the Danielson Congregational church for a time. Besides being a musician of note Mrs. Clarke was a gifted writer, contributing many easy, graceful articles to the magazines of that period.

Her marriage with Mr. Clark took place in Danielson, October 17, 1867. Her home was in Norwich until the death of her husband in 1901, later moving to Pawtucket.

Surviving her are her son, Charles Perkins Clark, and a daughter, Mrs. Frank C. Cutler of New London and a grandson, Russell Clark Cutler.

In the passing of Mrs. Clarke there has departed one of the old school gentlewomen of Pilgrim ancestry. She inherited their sterling qualities of strong character and devotion to duty, family and home.

Both Mrs. Clarke and her husband were members of the Second Congregational church, Norwich.

Collision in Jewett City

Peter Chisouluk of Goodyear, driving a Willys-Knight sedan, and Charles G. Cobb, 26 Main street, Norwich, driving a Studebaker sedan, were in collision at 8.30 Saturday evening, at the corner of Main street and Tracy avenue, Jewett City. The latter machine is owned by Mrs. Helena M. T. Church, of 23 Broad street, Norwich.

Chisouluk was at fault, trying to cut in, to go down the avenue. The Norwich machine received damage amounting to $9.80 which the Goodyear driver paid.

Slight automobile Accident

While driving an automobile on West Thames street Sunday afternoon about 7 o'clock, Mrs. Jennie Larkin of 1 Gravel street, Mystic, crazed the rear of the automobile of Dr. Clarence G. Thompson which was parked in front of his houst. She reported the accident to the police

KEEPING UP EFFORT TO SECURE DEEPER CHANNEL IN THE THAMES

Although an adverse report has been made by government authorities upon the Norwich petition for the deepening of the Thames River channel from Allyn's Point to this city, the Norwich Chamber of Commerce is vigorously keeping up the effort to secure favorable consideration and action upon this vitally important matter as affecting freight rates all over eastern Connecticut. A government representative is checking up the claims advanced by the Norwich committee, and after his report there will be one more chance for Norwich to seek a review of the findings if they should be adverse.

The situation is [illegible] the monthly membership letter of the chamber of commerce as follows:

Thames River Channel—Developments are moving fast regarding the proposed deepening of the channel from Allyn's Point to Norwich. As stated in our last month's membership letter a conference was held in New York with Colonel C. Newcomer and a committee from the chamber. The result was that we have learned some of the objections from the colonel to this improvement.

It should be understood first that the estimated cost for this project, according to Major Peterson's detailed survey, is $283,000. This sum means an expenditure for deepening the channel from 14 feet to 18 feet from Allyn's Point to Norwich. Contrast with this expenditure the one made by the state of Connecticut last year in improving the highways of eastern Connecticut which amounted to $992,989.99. This sum of money expended by the state for public road improvements in eastern Connecticut is more than three times the amount deemed necessary from the federal funds to make a waterway improvement that will largely benefit eastern Connecticut through competitive freight rates and transportation service.

Colonel Newcomer expresses doubt that the deepening of the channel can be obtained for $283,000, believing that the expense would be from 50 to 75 per cent higher than the district engineer's estimate, made after a careful detailed survey.

The colonel takes up the various arguments made by the chamber concerning the water-borne freight tonnages and rates from Norwich and vicinity; and the lumber and coal shipments, which he goes into quite extensively. We quote the final paragraph in Colonel Newcomer's draft:

"It appears from the above summary that the benefits to be derived from the proposed increase in depth from 14 to 18 feet between Allyn's Point and Norwich — [illegible] be quite limited in character and, in my opinion, they are not sufficient to warrant the comparatively large cost of providing the greater depth. The interest on this sum at 5 per cent, assuming the estimate of $283,000 to be sufficient, amounts to about $14,000, and the increased cost of annual maintenance, is about $10,000, making a total charge of about $24,000 a year for the additional improvement. Local interests advocating the improvement say there is no chance of securing local cooperation towards the cost of has constantly striven for a justifiawould rest entirely upon the public funds. I see no prospect of sufficiently widespread benefit to justify such federal expense, and I accordingly, recommend that the improvement be not undertaken at this time."

Our committee replied to Colonel Newcomer's draft, taking up each argument, seriatim, in opposition.

The result was that the colonel has sent his representative to Norwich to substantiate the claims made by the chamber.

Copies of all correspondence have been sent to Senator Brandegee and Congressman Freeman. Request has been made for another hearing in Washington before the full board of army engineers should Colonel Newcomer's final report to that board be unfavorable. We have been assured that another hearing will be granted by the board of army engineers before the final action is taken, if that action be adverse.

President Lerou, Hon. E. W. Higgins and Lucius Briggs were the committee that conferred with Colonel Newcomer. We should at this time give full praise and appreciation to Mr. Higgins for his ability, his keen interest, and great activity in this project.

Equitable Taxation—The personnel of the tax analysis committee of 15 as authorized at the special town meeting held May 2nd has been completed. C. K. Bailey, Albert Boardman, C. R. Butts, J. L. Case, M. J. Curran, Grosvenor Ely, Samuel Goldberg, H. M. Lerou, A. R. Manning, Robert McNeely, C. D. Noyes, G. B. Palmer, F. B. Rickatson, J. F. Rogers and D. T. Shea, compose this special committee. Mr. James L. Case was elected chairman. Regular meetings will be held in the assessors' office and studies will be made of other cities where revised modern assessment methods have been instituted. Conferences will be held with those considered competent, through experience, to advise with the committee. An analysis of the present methods used in the assessors' office; notation of weaknesses in the methods; and recommendations to strengthen the present system, so that a just and equitable assessment method can be proposed to the citizens for adoption, will keep this committee busy for some time.

As far as the efforts of the chamber is concerned, this project simply means the installation of a system or method that will provide an equality basis for public tax assessment, without any regard to lowering or increasing the tax rate. The chamber has constantly striven for a justifiable tax rate, based on justice and equality to all taxpayers, whether large or small.

The work of this committee is most important, for it has to do with the office that must raise the necessary amount of money to pay the bills of the town.

New Industries—Two new industries have installed machinery in Norwich during the past month. The Connecticut Belting company has taken floor space in Rogers Laundry building on Chestnut street. E. L. Baldwin and F. H. Stager were formerly connected with the Ulmer Leather company. S. N. Kingsbury is the third member of the firm, coming from Worcester, Mass. This company intends to do a national busines, distributing its product through mill supply jobbers and dealers as well as covering the field with its own salesmen.

The Thames Textile company has leased floor space in the former Shetucket Mills. H. A. Johnson is the president and general magager of this concern and formerly operated a factory in Worcester. The product of this concern is novelty cotton textile fabrics, such as is used for draperies.

Mohegan Park—The chamber is cooperating with the park commissioners for greater use by the public of our beautiful Mohegan Park. Efforts are being made to have the Connecticut Motor Transportation company operate a bus from Union square into the center of the park. The motor company has made investigation and at a recent meeting of its directors approved a trial plan of operation. The consent of the public utility commission is necessary before the busses can operate over the proposed route. Mr. Anderson, local manager of the street railway company, does not see any reason for objection on the part of his company to the busses operating over the proposed route.

The park commissioners feel that the distance from the nearest point reached by trolley to the park is not conducive to any great desire on the part of the general public to walk nearly two miles to the center. Mohegan park is one of the most beautiful natural parks in the state. It is proposed to run busses Saturday and Sunday afternoons and early evenings and possibly Thursday afternoons during the summer closing of the stores. Undoubtedly many people do not appreciate the beauty and advantages of Mohegan Park. The proposed bus service should bring the general public nearer to this recreation park.

PRIVATE PEAT SPEAKS AT CHAUTAUQUA SUNDAY SERVICE

Monuments was the subject Private Harold Peat selected for his talk Sunday evening at the union service held at the Chautauqua tent on the Academy campus, and this gifted speaker held the close attention of his audience throughout his unusual and straight-from-the-shoulder religious talk.

We have monuments, he said, monuments built by man to heroes of war and peace, and we have monuments built by nature, built by God.

What a wonderful thing it would be to erect a monument to the hero-ride of Jesus. Do you love Jesus? Now dont kid yourself into thinking you do, for you dont. You'll stand on the streets and hear a man say terrible things about Christ and not say a word about it, but let that man say those same things about your country and your flag and you'll fight. That's the difference between love and apathy. Just so long as the national emblem, nationalism, is nearer to your heart than the Son of God, just so long will the world be having wars.

At Versailles they didn't dare pick certain men for fear of hurting the other fellow, and they failed to pick the one who could lead them right—Jesus Christ. Talk of reverence, I've seen churches being built and men working there taking the name of the Lord in vain, cursing at their work, chewing tobacco and spitting on the building they were constructing dedicated to God; yes, they were desecrating the church even before it was finished.

To my mind the greatest monument man ever built is in the Andes mountains, South America, the Christ of the Andes. I went to see this monument once, the likeness of Christ, his back to the south pole, his hands stretched out to the two countries. This monument was built after two nations settled an argument that ended any chance of war, and the monument was dedicated to the man who saved them from war. At the base is the story that man may always have trouble, but let us remember to settle them like gentlemen. Wouldn't it be wonderful to carry this out, remember always to settle any dispute like gentlemen.

Previous to the talk by Private Peat the Chautauqua vesper services was carried out several pastors assisting in the service.

As a part of the musical program the congregation listened with pleasure to selections by Lauri Kennedy, 'cellist, Dorothy Kennedy, pianist, and Constance Johns, coloratura soprano. These three artists favored the congregation with operatic and religious musical numbers and solos, all of which was deeply appreciated by those attending the Chautauqua service.

THIRD DEGREE, K. OF C. WITH CLASS OF TWENTY-SIX

Steiner hall was filled to capacity Sunday afternoon for the exemplification of the third degree under the auspices of White Cross council, No. 13, Knights of Columbus. The meeting was opened with Grand Knight F. T. Diggins presiding and the exemplification was impressively carried out for a class of 26 by District Deputy J. J. Hennon of Jewett City, assisted by District Deputy P. F. Day of New London.

The large attendance included Knights of Columbus from Westerly Mystic, Stonington, Jewett City, Willimantic, Putnam and other nearby places.

In the morning the graves of members in St. Mary's and St. Joseph's cemeteries were decorated with flowers, and on the morning of the Fourth of July the annual memorial mass will be celebrated at St. Patrick's church.

JUNIOR CHAUTAUQUA ELECTS TOWN OFFICERS

The Junior Town Chautauqua held its session Saturday morning at 9 o'clock and elected the following officers: Mayor, L. Foster; town clerk, Miriam Hines; law and order officers, William H. Tirrell, Edward Flather and Austin Corey; press agent, Al Remich.

Miss Mary Wilson is superintendent of the Junior Chautauqua and Miss Hazel La Fleur is her assistant. They will be pleased to have more boys and girls join them in their good times and anticipate a successful season.

Fined in City Court.

In the city court Saturday morning, two Occum men, William Evans and Lawrence Colban, who were arrested Friday night, were presented on charges of breach of the peace and intoxication. The charge of resisting an officer was added in the case of Colban. Evans pleaded guilty to intoxication and not guilty to breach of the peace. He was fined $5 and costs totaling $17.36, on the intoxication charge, but the other charge was nolled. Colban was given a suspended sentence of 10 days on each of the three counts against him. The two men were arrested by Constable A. R. Fillegar, assisted by Delor DeFlesh and Joseph Roberts.

Brothers-in-Law Fight

Two brothers-in-law who got into a fight Sunda yafternoon outside the home of one of them on Otrobando avenue will answer breach of the peace charges in the city court this (Monday morning. A woman who telephone to the police that there was a "big fight" going caused the motor patrol wogan to be dispatched from police headquarters, but constable Lucius Fenton had taen charge of the fighters before the officers from the city arrived.

EIGHTH PLAYGROUND WILL BE ON EAST SIDE

The recreation commission has decided to have a playground this season in the school grounds on the East Side, which will make eight to be conducted in the city. Miss Viola Walz has been appointed to take charge of this playground.

On July 7, the day before the Norwich playgrounds open, Miss Ruth Sherburne, a representative of the National Playgrounds association, will come here to conduct an institute for those who are to be in charge of the Norwich playgrounds.

MRS. BENNETT CONTINUES IN CRITICAL CONDITION

There has been no change for the better in the condition of Mrs. Mary Bennett, wife of Harold J. Bennett of this city, who was injured in an automobile accident early Thursday morning near Jewett City. She remains in a critical condition at the Backus hospital from her injuries, of which the most serious is a broken back.

FUNERALS.

Ralph Raymond Judson.

Funeral services for Ralph Raymond Judson, son of the late Frank and Caroline Steizner Judson, were held Saturday afternoon at 2 o'clock from the home of his grandparents, Mr. and Mrs. Frederick Steisner, 28 Wauwecus road, Norwich Town. Only members of the immediate family attended. The service was conducted by Rev. J. B. Aldrich, pastor of the Norwich Town Methodist church, who also read the committal service at the grave in Maplewod cemetery.

Arrangements were by C. A. Gager.

Robert Gley.

Funeral services for Robert Gley were held Sunday afternoon at 2.30 o'clock from his home in Uncasville with a large attendance of relatives and friends, many from out of town. There were many beautiful floral pieces. The service was conducted by Rev. Frank Gredler of East Bridgewater, Mass., a nephew of Mr. Gley. Burial was in the family lot in the Comstock cemetery where the committal service was conducted by Rev. Mr. Gredler. The bearers, six nephews, were Robert and Albert Gley of Mystic, Rudolph, Henry, William and Frank Gley of Norwich.

Arrangements were by Cummings & Ring.

Mr. Gley died suddenly Thursday afternoon at 2 o'clock at his home in Uncasville following an attack of acute indigestion. He was born in Germany in 1861 but had spent most of his life in this country. For some years he lived in Poquetanuck but for many years had resided in Uncasville where he conducted a boarding house and was well known.

Besides a number of relatives, Mr. Gley leaves many friends in Uncasville and Norwich to mourn his loss, for he was a man who easily made friends and was always ready to assist a good cause.

Howard B. Foster.

With many relatives and friends attending, funeral services for Howard B. Foster were held Saturday afternoon at 2.30 o'clock from his home at No. 39 Otis street. The many beautiful floral tributes were testimony to the esteem in which Mr. Foster was held by many friends. The service was conducted by Rev. David A. Pitt, pastor of the Central Baptist church, and Rev. P. C. Wright, of New York, formerly pastor of the Central Baptist church.

Burial was in Maplewood cemetery where the committal service was conducted by the two pastors. The bearers were Benjamin M., and Shephard B. Palmer, George A. Ashbey and Charles C. Treat.

Arrangements were by Church & Allen.

TOO MUCH FERTILIZER ENDANGERS BERRIES

No definite advice on fertilization of blackberry and raspberry crops can be given, say gardening experts. It should be borne in mind that red raspberries and blackberries must not have too much fertilizer, or the vines are liable to winter-kill. The blackberries can stand more fertilizing than other varieties. When the ground is overwet, use less fertilizer, as vines grown on wet soils have a tendency to winter-kill anyway. If the soil is light and needs humus use a considerable quantity of stable manure and a system of cover crops for fertilization. Some commercial fertilizers are used on large plantations. A prepared complete fertilizer is probably the most useful for small growers.

Berries should be cultivated frequently throughout the growing season to keep up a fine soil mulch, every 10 days or two weeks at least. The cultivation must be shallow. The use of cover crops is always to be recommended. These should be planted about the middle of July. Cow peas, hairy vetch or buckwheat are suitable as a cover crop.

Most growers prune their canes in the spring, principally because they have not much time in the summer season, but also because pruning in the early spring makes possible the removal of tips which have been winter-killed. However, there is an advantage in summer pruning, especially where diseases have infected the plantation. Removal of old canes after the fruiting period will promote better growth of the current year's canes. Top pruning will promote a new side growth, giving stockier bushes.

When diseases, such as anthracnose, are present, they may be partially controlled by spraying with bordeaux mixture 5-5-50. If the vines are seriously affected it should be abandoned and plowed up. All canes which are removed at pruning time should be burned in order to prevent possible spread of disease. Cane borers and red rust are best controlled by removing infected canes. When root galls are prevalent in the plantation the best thing to do is destroy the crop and not use the ground for berries for a period of several years.

SUCCESS WITH LIMAS

Lima beans are a choice vegetable and the home garden alone can have them guaranteed fresh and tender. The lima is a hot weather plant and doesn't go into the ground until late. Do not put the seed into the ground until the trees are in full leaf as they are the tenderest of the tender bean tribe.

Don't forget that the lima bean must be pressed into the soil eye down if the seed is to appear above ground with plant attached later on. The reason for this is that the wide, heavy seed leaves cannot lift the soil and reach the light and air if the seed is planted flat. The seed may be good and will do its best if planted on its side, but very few will get above ground.

Limas of the pole type are rampant climbers and will keep on as long as there is any place to go. Pinch out the tip of the runner when they have reached the top of the pole and throw the strength back into the plant and encourage it to run more to beans than vine. Pole limas produce more beans but many gardeners prefer the bush types to avoid the trouble of erecting poles. The bush types need plenty of room: two or three plants to a hill eighteen inches apart is as close as they should be set. Of the pole varieties Carpinteria is now a favorite and a standard variety. The earliest is the Sieva or southern butter bean, a small seeded lima. Early Leviathan is another favorite and Siebert's Early has proved a good cropper in northern gardens.

Fordhook and Burpee's bush lima in their improved and selected forms are the staple of the bush limas. The New Wonder is one of the up-to-date much improved limas and considered a standard in quality in productiveness. It is a form of one of the earlier bush limas which was a chance discovery orginally.

Limas are the latest of all the beans to mature and need rich soil and good cultivation to keep them growing rapidly until the blossoms begin to develop.

SPRAYING BEST WAY TO CONTROL BLIGHTS

Tomatoes and potatoes should be sprayed thoroughly if one wishes best possible results. Bordeaux mixture is used to control the blights and to keep off the black flea beetles, while arsenate of lead is used to control any eating or chewing insects. The potato bugs are generally the worst of these insects on these crops.

For tomatoes; the spray should be applied first when the [illegible] appear and should be sprayed about every two weeks to get best results until the fruit is ripe.

For potatoes; the first spraying should be applied at the time the potato vines are from 6 to 7 inches high.

There are two kinds of blight—early and late. The early blight can be distinguished from the late blight by the color. Early blight spots and yellows the leaves, while the late blight generally starts on the end of the leaves and works up on the leaf, leaving a dead area and yellow green area next to the green part of the leaf; this latter color generally shows where the blight germs are working. At times also one will see underneath the leaf a whitish mildrew, this is the active blight germ working on the potato leaf.

DUWELLS LOSE FIRST GAME OF SEASON TO THE FAST MOOSUP TEAM, 5 TO 4

The Duwells of Norwich journeyed to Moosup Sunday and received their first defeat of the season in a hard-fought game by the score of 5 to 4. The Moosup boys got on to Daniels for three hits in the first inning, which in addition to an error a passed ball and a base on balls pushed four runs over the plate for them. But from then on neither team showed any signs of scoring until the fifth inning, when the Moosup team scored another run as a result of Mills' double down the third base line and a long single to left by Moore. In the sixth with one down Sheflotte smacked one on the nose for three bases and the Duwells' rooters, who really outnumbered the fans from Moosup, went into an uproar, but McInness lined out to Burns and Sheflotte, who tried to make home on the play, was caught at the plate and the inning was over.

The Duwell boys were fighting a hard uphill battle and when they took the bat in the seventh they were behind five runs. Belair, the first man up, drove a long hit to left for two bases. Whitney grounded out to Frechette, Belair going to third. Ringland got his second hit of the game and Belair scored. Ringland took second an a passed ball and scored when Daniels hit over second, Daniels going to second on the play at the plate. Daniels went to third on Smith's grounder to Frechette, and scored on Barry's hit over second. This ended the scoring in the inning when Sheflotte lined out to Mills. In the next inning the Duwells scored another run on hits by Coughlin and Ringland and two bases on balls issued to Whitney and Smith. With two down and the score 5 to 4 with men on second and third, the Norwich fans went wild and it looked surely like extra innings, but Barry grounded to Moore, ending the rally.

Although the local boys lost it was lost with honor as they played a hard uphill game, with the breaks against them all through the game, but none of the credit should be taken from the Moosup boys, who played wonderful ball at every stage of the game. Ringland was the big man with the stick for the local boys, getting three hits out of four times at bat. He also played a great game in the field. Moore and Burns of the Moosup team turned their usual good game with two hits apiece and fast fielding. Strike in each for Moosup also played a wonderful game, pulling down three long hits labeled for extra bases. The score:

RIVERVIEW TAKES THIRD GAME OF SERIES WITH TAFTVILLE

In the final game of the Taftville A. A.-Riverview series played at the State Hospital diamond Saturday afternoon Riverview clearly outclassed the visitors and won 6 to 2. Taftville showed a lack of knowledge of the finer points of the game, especially with men on bases. Their playing in the field was ragged at times, although they showed flashes of form at times.

Mills, who pitched for the Riverview club, was in good form and his support pulled him out of many holes. Dinty Moore, with two singles and a home run, led the attack for Riverview. Dinty's homer came through error of judgment on the part of Taftville's center fielder. It was a beautiful crash, but the Taftville fielder should have snagged it. Noel and Couillard also hit well. Davis pitched a good game, but his support was such that he did not show up as well as he should. The score:

Riverview	ab	h	po	a	e		Taftville	ab	h	po	a	e

THREADMAKERS TRIM DIXIES OF HARTFORD IN FAST GAME

(Special to The Bulletin.)

Willimantic, June 29.—The Dixies of Hartford furnished the opposition to the Thread Makers at Recreation Park this afternoon and went home with the short end of a 6 to 4 score. The contest tinged on the free hitting variety with the locals collecting twelve safe blows, including three triples and a double off "Dutch" Leonard's speedy shoots while the Speed Boys got to "Rube" Richards for eight safe whacks including a double and a triple.

Richards set down seven of the opposition on strikes including Leonard three times. "Bunny" Trauske continued his hitting streak with three more safe blows, including a triple. On his second hit, which was also good for three bases, he was called out for not touching second. E. Trauske, Normandin and Adams also connected for two safe hits for the home club apiece while Scrimminger hit two for Hartford.

Fielding features were contributed by the Trauske brothers, and Flaherty for the home team and Basso, White, Atwood and Leonard for the visitors.

THURSTON WINS ELEVENTH VICTORY OF THE SEASON

Chicago, June 29.—Hollis Thurston turned in his eleventh victory of the season today, defeating the St. Louis Browns, 6 to 5. Hooper, Sox outfielder, hit a home run. The Brown pitchers were unable to scatter hits. Barrett, Sox far corner man made four hits in four times up. Robertson, the Brown third baseman, injured his throwing hand in the final inning and had to retire.

CLEVELAND HANDS TIGERS A 7 TO 3 BEATING

Cleveland, O., June 29.—Smith and Shaute outpitched Cole, Dauss and Holloway here today and Cleveland defeated Detroit 7 to 3. Smith held the Tigers to three hits until the seventh when they scored two runs on two singles and a triple, Shaute who replaced Smith fanned Manion, a pinch hitter, and forced Haney to pop up in the ninth with the bases full. The score:

CUBS BREAK LOSING STREAK BEATING REDS

Cincinnati, Ohio, June 29.—The Cubs broke their losing streak by winning from the Reds today 6 to 2. Kaufmann pitched well and his support was perfect. Benton was unsteady and lasted less than six innings. A one hand catch by Walker of Grantham's long fly in the first inning was a feature. The score:

International Golf Match Planned

London, June 29.—An international golf match has been arranged between Walter Hagen, the American professional, who on Friday won the British open championship, and Mac Donald Smith, the San Francisco professional, on the one side and George Duncan, former British open championship, and "Abe" Mitchell, the British professional, on the other. The four ball match will be over 72 holes for stakes amounting to £500.

The details have not yet been completed, except that the second half of the match will be played at Oxhey, Hertfordshire.

Albany Beats Hillies

Albany, N. Y., June 29.—Albany defeated Pittsfield, 4 to 2, today in a well-played game. A home run by Schinkel was a feature. The score.

Pittsfield .....0 1 0 0 0 0 0 1 0—2

Albany .....0 0 0 1 0 2 0 1 x—4

Two base hits, MacPhee, Webb Belanger. Three base hits, Kenna. Home run, Schinkel.

How It's Done In the Majors

By Frank Frisch

Eighth inning. The bases are full. Two men are out and the score is 2 to 2.

How should pitcher pitch to batter?

Big league players invariably know what players hit the first ball pitched them. If a first ball hitter is at the bat, under these conditions, a good pitcher will try and make the batter hit at a slow or curved ball. In a case of this kind a pitcher must be sure to get the first ball over the plate, otherwise he may pass the batter. Feed him a slow or a curved ball so he will take a cut at it.

GIANTS SPLIT TWIN PROGRAM WITH BRAVES

New York, June 29.—New York made it three out of four from Boston by dividing a double-header today. The Braves won the first game, 4 to 1, and New York took the second, 5 to 3.

The first game brought the Branes brothers together for the second time in the series and Jess, the older, won through his superior ability in the pinches. Cooney had a three run lead in the second game, but weakened in the seventh and eighth.

Yankees Lose

The Rose City Yankees lost to the Taftville Tigers Sunday at Taftville by the score of 6 to 5, the game going ten innings. Burns went the route for the Yankees, while Bush, Gunderman and Smith pitched for the Tigers. Shorty Hamil on second played a good game making a spectacular catch in the fifth inning. Kampf also hit well. Friday, 4th of July, the Yanks play the Greeneville Rosedales.

MASKED MARVELS MAKE THEIR MUCH TALKED OF APPEARANCE TONIGHT

"It's the K. K. K., no, it's a bunch of Taftville fellows; you're all wrong, it's a gang of women," is the sort of talk that has crowded the democratic convention, the championship fights and all other headline stories out of the limelight during the past week, since the Masked Marvels hurled their first challenge at the East Ends baseball team for a game which was to be played at the Duwell field last Friday night but which for some reason or other was mysteriously postponed until tonight. This mysterious baseball team which has caused so much comment and excitement by their queer actions and anonymous messages will no doubt bring out over 1,000 fans tonight when they line up against the East Ends in a six inning game which shall be played under the six rules which were published in last Wednesday's Bulletin, which read as follows:

(1) That every member of the Masked Marvels shall be heavily masked and should anyone try in any way to interfere with them they shall be dealt with accordingly.

(2) That the Duwell club shall furnish all the paraphernalia such as baseballs, bats and bases.

(3) That the Duwell club shall receive in return any money taken in at the game.

(4) That Matthew Delaney shall keep law and order during the game and assist the Marvels should the crowd become unruly.

(5) That the game shall be started promptly at 6.30 and terminate promptly at the end of six innings.

(6) That each team shall pick their own umpire at the beginning of the game.

Why any team should want to play six innings under a mask and not give any information as to who they are except names that represent the most deadly diseases and refreshing drinks such as arsenic and iodine is more than the amateur sleuths of the city can decide, but whatever their intentions are or may their actions be, the mystery of the Masked Marvels will surely be unraveled tonight before the umpire calls the last man out in the sixth inning. The East Side drum corps, which has only been organized during the past few months, will act as escorts to the Marvels. It is rumored that the Marvels will be supported by over a hundred rooters who also will be heavily masked.

SHIP WORKERS NEARLY LOSE BATTLE TO GAIR TEAM

(Special to The Bulletin)

New London, June 29.—The New London Ship and Engine nine went into a tie for first place in the Industrial league as a result of a ten inning victory over the paper box makers on Morgan Park, Saturday afternoon. There was never a dull moment during the entire contest and by some timely hitting in the tenth inning the Ship workers were able to finish out in front by a 9 to 8 score.

For seven innings the Robert Gair nine were hopelessly outclassed and not until the eighth frame did the Montville players realize that the game was getting away from them. The Ship and Engine had a seven run lead until the eighth but this lead flittered away to the winds before the ferocious onslaughter of the box makers. A home run with a mate on the sacks by Kiley in the last of the eighth brought the score of the Gair two runs closer to the Ship and Engine total. Then in the last of the ninth, of the one run had been scored and three runners were on the sacks, McInninch hit a triple along the third base line and chased all his comrades over the plate. McInninch then scored on a fielder's choice and the game was force to go into extra inninge.

In their half of the tenth the Ship workers scored the winning run on an over throw of first base and Stoffel's single.

The game was full of tense moments; good catches were evident and the teams battled hard for the honors. The Ship and Engine took a commanding lead in the fifth inning by scoring three runs, one a home run by Sheflott with Brewer on first base.

Daniels took things rather easy reasoning that he must do so if he was to pitch the next day for the Duwell nine. Because he did not exert himself to any great extent, the late rallies made by the Gair nine was the result of letting up by the former Bulkeley star slab artist. Shaman for the Robert Gair was never a puzzle to the S & E batters. He was touched up for hits when hits meant runs and he was not as effective with men on bases as he was in previous Dusty league contests. It was Shanan's first defeat in four starts and Daniels' second in two starts.

Both Caron and McGowan had a busy way in the outfield. Brewer's catch of Kiley's liner robbed that player of at least a triple. McGowan robbed Shanan of a homer by stabbing his drive near the fence in deep left. McGowan made the catch over his head. Brewer hit well. The score.

THE WIDE-AWAKE CIRCLE

Boys' and Girls' Department

RULES FOR YOUNG WRITERS

1.—Write plainly on one side of the paper only and number the pages.

2.—Use pen and ink, not pencil.

3.—Short and pointed articles will be given preference. Do not use over 250 words.

4.—Original stories or letters only will be used.

5.—Write your name, age and address plainly at the bottom of the story.

POETRY FOR THE WIDE AWAKES

THE HEART THAT SINGS

There is never a sky of winter
To the heart that sings alway;
Never a night but hath stars to light
And dreams of a rosy day.
The world is ever a garden
Red with the bloom of May;
And never a stormy morning
To the heart that sings alway!
—Frank L. Stanton.

BOB-O'-LINK'S SONG

Bob-O-Link is calling, calling!
Hark! I hear him say
While the morning light is falling
Golden o'er the way:
"Bob o' Lincoln, Bob o' Lincoln,
Bob o' Lincoln, I,
Singing love-songs to my Princess
And the summer sky!"

Now he's swinging on a thistel;
Now he's rocking to and fro;
Now I hear him whistle, whistle
Flute-like high and low:
"Princess, Princess, 'mid the blossoms
Of your pretty nest,
You I'm singing to, my dearest;
You and I love the best!"

"You're the soul of all my music
As you fold your wing
Softly o'er the little cherubs
In the round nest's ring!
You're my song, my serenading
All the live-long day;
You're my carol in the evening
And my morning lay!"

Ah, his golden head he's tilting
Silently and long;
Then the purple blossom lilting
Trembles with his song:
"Who is happy in the clover
'Neath the beaming sky?
Bob o' Lincoln, Bob o' Lincoln,
Bob o' Lincoln, I."
—Leslie Clare Manchester in Our Dumb Animals.

WORTH WHILE

It was only a hearty handclasp,
But it gripped the soul of a man
With the courage of fresh endeavor,
And started him out again,
Face to face with the same old problems
Of weakness, and failure, and loss—
But the strength of that hearty handclasp
Made certain the victor's cross.

It was only a smile in passing,
But it flooded a gloomy heart
With the sunshine of hope for the future
Wherein he had a happy part:
And the clouds had a rosy lining,
And the gray gave a glimpse of heaven,
And its wonderg and joys untold.

It was only a word of greeting
In the press of the throng one day,
But it brought to a heart despairing
Strength and hope for the weary way.
It was only a cup of cold water,
Held to lips that were parched with pain,
But by means of that Christlike service,
A lost soul found sweet peace again.
"It was only," we say, forgetting
That high in the courts above,
The friendly word and the cooling draft
And the Master will say to the faithful,
Who meet on the crystal sea,
"Inasmuch as ye did to the children of earth,
Ye have done it unto me."
—Ruth Lees Olsen.

UNCLE JED'S TALK TO THE WIDE AWAKES

Few birds are better known to the boys and girls of the country than the meadow-lark. The meadow-lark is a beautiful creature. His yellow underparts sometimes appear almost golden in the bright sunlight. For contrast he has a black necklace and white tail feathers show prominently as he flies through the air. In the early spring when fat worms are scarce the male may be seen fetching such dainties to the female. It is hard work for him to find fat worms at that time of the year and it shows real unselfishness when he divides them with Mother Meadow-lark.

About the midde of May a nest of grasses, partly arched over, is made in tall grass by the meadow-lark. It is a very difficult thing to find the nest and discovery is an event worth celebrating. Although somewhat rude in construction the meadow-lark's nest is always attractive and it is very well concealed from the curious nest hunters who break up so many birds' homes. The nests should be left unmolested for it is the meadow-lark's home. It takes quite a while to build a nest and when completed it represents a lot of hard work on the part of the birds.

The usual number of eggs is five or six and they are carefully arranged in the nest. In approaching the nest the meadow-lark alights some distance away and then runs through the tall grass so that even if you watch close it is most difficult to discover the little home. The young birds quickly pick up the habits and appearance of the parent birds. It is only a few days after leaving the nest that the baby birds are looking out for themselves for they are not coddled as long as young robins.

LETTERS OF ACKNOWLEDGMENT

Helen Hurd, Taftville: I received the prize book you sent me entitled The Camp Fire Girls in the Woods. I have read it through and I find it very interesting. I thank you very much for it.

BumsteadsWormSyrup

"To children as a tonic of mercy." Where directions are followed. IT NEVER FAILS. Despite scarcity and enormous cost of SANTONIN, it contains full dose. Stood sixty years test. Sold everywhere or by mail, 50c a bottle.

Dr. C. A. Voorhees, M. D., Philadelphia

WINNERS OF PRIZE BOOKS

1.—Emma I. Roode, Voluntown—Daddy's Girl.

2.—Vera Bushnell, Franklin—The Camp Fire Girls at Long Lake.

3.—Gertrude Hollander, Norwich—The School Queens.

4.—Elizabeth A. Lucy, Hanover—The Camp Fire Girls on the Farm.

5. Rose Sadowski, Norwich—Mrs Over-the-Way.

6.—Ruth R. Vollowitz, Norwich—The Camp Fire Girls on a Hike.

Winners of prize books living in Norwich may obtain them by calling at The Bulletin business office after 10 o'clock Monday morning.

LETTERS WRITTEN BY WIDE AWAKES

MOTHER

Dear Unce Jed: I am going to give you a description of a very precious someone, and I wonder if the Wide Awakes or you can guess who it is.

She has the dearest, sweetest face in the world, and light brown, wavy hair, piled high. On her head is a dainty, cobwebby white cap. She has a shell pink bloom on her cheeks and her face looks almost young. She has a lavendar dress on with a soft, white frill of lace around the neck and sleeves. Her white, soft, withered hands are busy employed in crocheting some delicate, flowerlike, pattern of lace. From the bottom of her long, full dress peek the toes of her dainty, soft slippers. She is sitting in a rocking chair, stuffed and covered with a pretty brown silk.

In this she rocks slowly back and forth, stopping now and then to gaze with a contented look around her garden of old fashioned hollyhocks, canterbury bells and sweet William, which is just the kind of a garden you would expect this loved one to have. She is so frail and lovely, she makes you want to love and protect her with all your might. Can you guess who it is now, Uncle Jed? It is kindliest, jolliest, sweetest and everything nicest person in the world mother.

EMMA I. ROODE, Age 13.
Voluntown.

MY ADVENTURE WITH A BIRD

Dear Uncle Jed: Today I was playing out in the yard, when I saw a little bird hopping around. It was able a little bit. We heard a lot of birds fighting. They were robins and starlings. We were trying to catch the bird. Our idea was to catch and put it up in the tree. We tried to catch it but it would not let us do so. The starling was scolding the robin. We decided to give it up. The robin was chasing the little bird so we decided it was a little robin that had fallen out of the nest.

CLARISSA A. LORING, Age 12.
Central Village.

MY PET KINTTEN

Dear Uncle Jed: This is the first time that I have written to the Wide Awake circle and I hope that you will.

My pet is a cat. One day while hiking in the woods I found this cat. She was very hungry, in fact almost starved. So I took her home and fed her. When she ate she came to me and rubbed her head on my hand. This seemed as if she thanked me for my kindness.

She is now a large cat, with yellow dazzling eyes. Her fur is black and white. Her chief work is catching rats, in which she seems to take much pleasure.

Her home is in the cellar. She has now made herself very useful. It always pays to be kind.

CATHERINE BROWN, Age 12.
Occum.

A SCHOOL PICNIC

Dear Uncle Jed: Friday was the last day of school, so we had a picnic. Some of us brought things to eat, and she rest brought money. We ate in the school house this year. We had sandwiches, saltines, pickles, cake, lemonade and ice cream. Then we played games and some of us got prizes.

Our teacher gave us five cotton seeds to take home and plant. The one who has the best plant when school begins will get a prize. The seeds look like pussy willows.

VIRGINIA BLEAU, Age 6.
Killingly.

THE LIFE OF A PENCIL

Dear Uncle Jed: My first place in the world was part of a lofty spruce tree. My portion of it, though rather small, constituted part of the trunk. I lived in that one town (the tree) called Sprucetown for about six years.

Then, one day, Sprucetown was absolutely wiped from the map or rather the tree was cut down. After the many roads were discontinued (or the branches cut off) what was left was sent to a large city. Of course, as I am only a pencil, I do not know the name of this city but it is where Sprucetown and many other towns are sent to be cut into many long, round things, which I afterward learned were pencils.

After we were shaped we were all thrown into a basket. Then the basket was turned upside down and all my fellowmen were put into a place where I suppose they were colored. Unfortunately I was caught in a crevice and there I remained for days and days. Finally the basket, which was quite old, was thrown away but I still remained in the depths of its prison walls.

One day a poor child found me and put me among his few cherished possessions. Of course you know I was the shape of a pencil but that was all for my pencil career had ended in the basket. But even now I had a part in life for I was a drumstick and my drum was an old tin can.

LUCILLE E. PERRY, Age 13.
Scotland.

A LESSON FOR LIFE

Dear Uncle Jed: I am writing you about two boys. One rainy day two brothers, Harry and Fred, could not play out of doors. So they began to play hide and seek in the house. At last Harry hid in a large box and for a while Fred could not find him.

He was about to give up the search when he heard a noise. It came from the big box; he saw that the lid was not quite shut and he could hear someone moving inside.

Feeling sure that Harry was hiding there, he ran to the box, shut the lid, and turned the key, locking in his brother. Harry cried out and tried to push open the lid, but he could not. Just then Fred heard his mother calling and ran off to see what she wanted.

She sent him on an errand and when he came back she asked him where Harry was.

Fred laughed and said he had locked up his brother. His mother told him to set the little fellow free at once, and went to see that he did it.

When she saw the box, she quickly turned the key and threw open the lid.

As soon as she saw Harry she cried out, "Oh Fred! what have you done?"

There in the box lay Harry, quite still. He neither moved nor spoke. "Oh, Fred! run for the doctor quick!" said his mother, as she lifted Harry out and laid him on the sofa. Off ran Fred as hard as he could go. He soon brought the doctor back with him. They were just in time. After awhile Harry opened his eyes and was able to sit up. Oh how glad Fred was! He had not meant to hurt his brother.

"Why did it hurt him so much Doctor to be locked up for such a little time?" asked Fred. "Because he soon breathed all the pure air in the box," said the doctor.

If fresh air had not been given him by opening the box he would soon have been dead. I hope you will not forget this, my boy; we need good pure air all the time. Bad air is poison and those who breathe it will be ill and may die. To keep your health you must have pure air. How thankful Fred was to see his little brother well again! As for himself he had learned a lesson for life.

Norwich.

MY NEW DRESS

Uncle Jed: I am going to tell you about my new dress. I was invited to a birthday party given by a friend and I asked mother to buy me a dress. That same afternoon what do you think I saw on a chair in the house? A new dress! Since it was time to get dressed I put on the new dress and started for the party.

In order to reach my friends house, I had to cross a large field, in which there were many cows.

When I was crossing the field running straight toward me was a great big black bull having been attracted by my red dress I looked around quickly. I saw a big hole in the fence just large enough for me to creep through.

I was not a bit too soon in crawling through it for the bull was almost on the top of me. When I reached my friend's house, I could hardly speak, from fright. When I had rested awhile I told them the experience I had with my new dress.

RUTH R. VOLLOWITZ, Age 11
Norwich.

THE REVOLUTION

Dear Uncle Jed: I thought you might be interested in a piece about the revolution so I am going to tell you of the principal causes.

The principal cause of the revolution was taxation without representation. The King of England thought that the colonists ought to be willing to help him pay his expenses because he had sent soldiers to help fight against the French in the French and Indian war. He therefore laid a heavy tax on many things.

The Stamp Act was one way in which he tried to get money. This made the colonists pay a tax on newspapers, pamphlets and all sorts of documents.

They wouldn't pay the taxes so the tax was taken off everything but tea.

The king sent a ship loaded with tea to Boston. The people would not pay this tax for they were given no representation in parliament.

The tea had been in the harbor a number of days when one night at dusk a number of men dressed as Indians went on board the ship and threw all the tea into the sea. This is called the Boston Tea Party.

The king was very angry when he heard about this. He sent officers to Boston to see that the colonists obeyed the laws and paid the taxes.

The people disliked these officers, for they could search anyone's house and find out what he had.

One day several boys were making fun of the officers. Finally a number of the boys were killed and some wounded. This made the colonists angry and they began to prepare for war.

VERA BUSHNELL, Age 14.
North Franklin.

MY CAT'S HOME

Dear Uncle Jed: I am going to tell you about my cat's house. Saturday I got some nails and wood and made my cat a house. She stayed in the house all night and in the morning came out to get something to eat.

VIOLA VOLLOWITZ, Age 8.

ABOUT THE BLACKBIRD

Dear Uncle Jed: This is the first letter I have written to you and I hope that the Wide Awakes will enjoy it.

I am going to tell you about some blackbirds. I know and what I know about them. I learned this all myself by watching them around my home.

The blackbird is about as large as a robin and has black shiny feathers, that is Mr. Blackbird has. Mrs. Blackbird is not so fine; her feathers are a sort of dull brown.

The blackbirds build their nests at a distance from any house, generally in bushes near the water.

Last spring, a blackbird built her nest in our field. One day our cow went to get a drink. The place was cool and shady so she was in no hurry to leave. She stood in the water and began to eat the leaves just around the nest.

Mr. and Mrs. Blackbird were very much frightened. They flew about the cow's head and face to peck her to drive her away.

Mrs. Blackbird thought that my cow would eat the baby birds that she had in the nest, I called my cow to me and gave her some grass. I then took a piece of rope and tied her in a different place so that she would not bother the birds. I have a new neat every year since. We children must be kind to dumb animals and birds.

ROSE SADOWSKI.
Norwich.

UNCLE BEN'S GOOSE

Dear Uncle Jed: Uncle Ben's last name was Watkins. He fed the hens and turkeys and geese. He had more than a hundred fowl. When he scattered the corn it was a lovely sight to see them run and peck and eat.

Among them was a large white goose. She grew to be very fond of Uncle Ben. She ran when the others did and it was funny to see her. She was so eager to get there first.

When all the other fowls were fed they went off but Mistress Goosey stayed. She followed Uncle Ben just like a dog.

When he put the horse to the wagon she would always stay by. When he went to the spring Goosey went too. If he stopped she did. When he went on she quit eating the grass and waddled after him. She had no little ones or it would have been pretty to see her teach her little family to love old Uncle Ben.

ELIZABETH A. LUCY, Age 13.
Hanover.

NATURE

Dear Uncle Jed: I thought that I would write to you about Nature. Nature has supplied us with birds, animals, trees, water and even the earth.

When man was first created nature was his helper. Now men should try to be nature's helper.

Man should not begrudge the birds a few berries and should not lock animals in a cage. They should not be careless with fire and let it burn down natures trees. All this is hindering nature but the men that love in the outdoors and do not shoot and do not harm birds' nests or animals and their babies are helpers of nature.

WILLIAM MCNAUGHT, Age 10.
Gales Ferry.

RADIO PROGRAMS

MONDAY

WBZ Springfield (337 meters).

6:00 P. M. Dinner concert by the WBZ Trio.

7:00 P. M.—Results of games played by the Eastern, American and National Leagues.

7:05 P. M.—Market reports as furnished by the United States Department of Agriculture at Boston Bringing the World to America, prepared by Our World Magazine, Springfield studio. Late news from the National Industrial Conference Board: Springfield studio.

7:30 P. M.—Bedtime story for the kiddies: Springfield studio.

7:40 P. M.—Concert by the WBZ Trio and Irene M. Atkins, pianist; Springfield studio.

9:00 P. M.—Concert by the Newtonville Trio, consisting of Marie Fleming Bladen, contralto; Florence Carter Allen, pianist; Marie Clifford Bartlett, reader; Boston studio.

10:55 P. M.—Arlington time signals; weather reports.

KDKA Pittsfield (326 Meters)

5:00 P. M. Baseball scores.

5:30 P. M.—Dinner concert by the KDKA Little Symphony Orchestra, Victor Saudek, conductor.

6:00 P. M.—Baseball scores; dinner concert continued.

6:30 P. M.—The Children's Period.

6:45 P. M.—Bringing the World to America, prepared by Our World

7:00 P. M.—Baseball scores.

7:40 P. M.—National Stockman and Farmer Market reports.

8:00 P. M.—Concert by the KDKA Little Symphony Orchestra, Victor Saudek, conductor.

9:55 P. M.—Arlington time signals Weather forecast. Baseball scores.

WHAZ Troy, N. Y. (380 Meters)

9:00 P. M.—Concert by Robert Geiger, baritone; George Geiger, piano, and Frank Canfield, violin; assisted by a reader.

10 P. M.—Program of dance music with a group of George M. Cohan patriotic songs by Frank Davis.

WGY Schenectady (380 Meters)

7:15 P. M.—Address, Fruit and Vegetable Distribution, M. C. Burritt, director of Western New York Fruit Growers Association.

7:35 P. M.—Address, Co-operative Live Stock Marketing, S. L. Strivinge master of New York Grange.

7:50 P. M.—Address, Harvest Weather Forecast, Dr. Wilfred M. Wilson Section Director of United States Weather Bureau.

7:45 P. M.—Program by the seven-cents Salvation Army Band.

LITTLE JACK RABBIT

By DAVID CORY

Chatterbox

I hope, little reader, that you are Little Rabbit's friends. They are such nice little people, these little folk who live in the Shady Forest. Of course, there are three or four very disagreeable furry gentlemen, like Danny Fox, for instance, Old Man Weasel and Mr. Wicked Wolf, to say nothing of that feathered sky robber, Hungry Hawk. But after all, Mother Nature has taught her woodland children how to take care of themselves. They must be careful. So should

"Hello! how are all the folks at home?"

boys and girls, for isn't Old Man Trouble watching around the corner for all of us? Well, I guess yes three times. But the boy or girl who minds Mother need never fear Old Man Trouble. No, indeedy.

Just mind Mother every day,
That's the very safest way.
Mother knows just what is best,
Time for play and time for rest.

Now let me think where we left off in the last story. I have been digressing (which means going off sideways), from my story. Oh yes, now I remember. Little Jack Rabbit was talking to Woody Woodchuck So he was. But he isn't in this story. Not by a jug full. — my old Uncle John down on the farm used to say to me when I was a little shaver and wore blue jeans and one suspender. No, the little rabbit isn't talking to Woody Woodchuck, for just as I began this story he hopped clipperty, clip, lipperty lip into the Shady Forest to meet Chatterbox, the Red Squirrel.

"Hello!" shouted that noisy little tree climber, "how are all the folks at home?"

"Uncle Lucky's very ——ll,
And wakes up at the rising bell,
And Little Miss Mousie
Is cleaning his housie.
Mother's ironing today
And singing to pretend it's play."

answered the bunny boy in poetry, but how he did it I don't know, for I can't imagine he had ever read Shakespeare!

"Squirrel Nutcracker and I have just had a quarrel!" said Chatterbox. "He scolded me for stealing nuts from his storehouse," and Chatterbox jerked his tail, as he always does when angry.

"You ought to be ashamed of yourself," answered Little Jack Rabbit. "You look so pretty in your red coat and white waistcoat. You're such a wonderful jumper, too. Why I've seen you jump from one tree to another. You ought to be ashamed to be a thief."

"Dear me," answered Chatterbox. "I've done worse things than that. I stole a lot of birds' eggs this spring."

"Gracious me!" cried the little rabbit, hopping away into the next story.

MYSTIC

One of the finest vegetable gardens in the village is that of Charles E. Wheeler on Lent Main street where every row of vegetables and everything in "maple pie order." It is indeed a bold and wayward weed which dares to make its appearance in this enclosure. Not only does this garden always delight the eye but Mr. Wheeler he very successful in raising vegetables and having them early and had a mess of prime peas last Monday for the family dinner. Mr. Wheeler, although in his 70 th year, does all the work of planting and tending his garden himself.

Miss Martha Kalmi and a friend who is also a teacher in the New Rochell, N. Y. schools, motored to Mystic Saturday from New Rochelle, and are guests of Miss Kalmi parents, Mr. and Mrs. William Kalmi on Lincoln avenue.

The work of laying the cement roadway on Broadway is progressing steadily and has been carried to Willow street, although the leveling off of the sides of the street has not yet been done nor has it been opened to traffic. When completed this will make a fine [illegible] greatly appreciated by those who [illegible] customed to [illegible] through that section of the village. It being a portion of the main thoroughfare from the railroad station to the mills in Greenmanville and to Old Mystic.

At the semi-monthly meeting of the Mystic Country club Tuesday evening at the club house, auction will be played, with the following committee in charge: Mr. and Mrs. G. Victor Grinnell, Mr. and Mrs. Samuel Z. Chesebro, Mr. and Mrs. John P. Gray, Mrs. Albert Haley and Mrs. N. Stanton Gates.

The meeting of the United States Daughters of 1812 of the State of Connecticut, Friday, at the home of Mrs. Ogden White, Woodland Hill, Short Beach, was in charge of the state president, Miss Frances P. Spencer, and there were forty present. Mrs. Louis P. Wheeler of Mystic was hostesses of the day, and Mrs. Wallace Phillips were the only members from Mystic who attended. But Mrs. Allyn has as guests Mrs. Audie B. P. Batty and Mrs. Ida P. Moor. A delightful time was reported by those who attended. An interesting item of business transacte was a contribution toward a fund of $5,000 being raised by various patriotic organizations of Connecticut to pay for a pew in one of the forty-eight cloisters in the Cathedral in Paris, France, this being a memorial to those who lost their lives in the World war. Nine of the forty-eight states of the Union have already paid their quotas. This pew is to be suitably marked and will always be available for the use of residents of this state in Paris who may wish to use it.

At the July meeting of Fanny Ledyard chapter, Daughter of the American Revolution, Wednesday afternoon in Masonic Temple, the following committee will be in charge of the program and refreshments: Mrs. Mary A. Haley, Mrs. Bertha A. Snell, Mrs. S. L. Brown, Miss Emeline F. Fish, Miss M. Geneva Rathbun, Miss Frances E. Pendleton, Miss Marguerite W. King and Mrs. Ella W. Gary. At this meeting the newly appointed standing committees and special committees will be announced.

There were five tables of whist in play at the meeting of the Sewing society of Charity Chapter, No. 61 O. E. S., Friday afternoon, at the home of Miss Ethel Latham, in Noank, the prize for high school going to Miss Esther Barnes and the consolation award to Mrs. George D. Johnson.

Mrs. Ida Fring, Mrs. Frank Irons and two daughters have returned to Ekonk after a visit with Dr. and Mrs. J. K. Bucklyn.

Professor Walter Wilco of St. Louis, Mo., is the guest of his parents, Mr. and Mrs. George W. Wilcox.

Miss Geneva Rathbun has arrived home from Milford, Conn., where she has been teaching the past year.

Dr. Louis M. Allyn and Charles E. Wheeler have been appointed trustees of the Mystic Oral school for the deaf, for a term of three years, this being the second term they have served since the state took over this institution, three years ago.

Mrs. Henry Thompson has gone to Willimantic for a visit at her cottage on the Camp Grounds.

COLCHESTER

Principal Arthur Gregory of the high school and his family left on Tuesday to spend the summer vacation with relatives in Berwick, Me.

Essie Holmes has been entertaining a number of friends with his radio machine, listening in to the speeches, etc., of the democratic convention in New York. He has a large machine which he has built himself—a 9-tube machine.

The siren has been placed on the company house and is connected with telephone central. When it sounds the public should call central. The operator will press the button and the alarm will be given.

The Colchester baseball team went to Thompsonville Saturday afternoon to play the strong mill team of that place.

Mr. and Mrs. Clark W. Burnham of East Hampton were in town Thursday evening attending the meeting of the Pythian Sisters. They were initiated into the temple during their stay.

New Pythian flags were placed in the markers on the graves of deceased Pythians which were decorated Sunday.

The Pythian memorial services were held in Pythian hall Sunday afternoon. The speakers were Supreme Representative Mantius H. Norton of New Britain and Past Supreme Representative L. Erwin Jacobs of New Haven. The Pythian Sisters were invited to attend. The Pythian memorial services were used at the hall and cemetery. The deceased members in Linwood cemetery are: Curtis F. McIntosh, Allen G. Wickwire, Myron Robinson, Dennis K. Griswold, Fred A. Chapman, Ralph C. Jones, J. P. Scholl, Henry Scholl, Frank H. Talcott, William Chamberlain and George O. Jackson. After the services in the hall the members marched to the cemetery.

Five of the large busses of the Connecticut Motor Transportation company passed through the village on Thursday en route to Ocean Beach with employes of the Rossia Insurance company of Hartford for a day's outing.

John H. Sherman of Norwich was a caller here Friday.

White ants, or termites, not only cause great damage to woodwork in the tropics but seriously injure or even kill living trees by eating their roots.

POETRY

THE GLAD CORONATION.

When "The Former Things Are Passed Away."

"There shall be no more death." Oh, blissful thought.
No grave to hide our loved ones from our view!
Precious this message, by God's Spirit brought:
"Write: for these words are faithful and are true."

"And there was no more sea." Assurance blest
For those whose dearest sail the restless sea.
In yonder Land of never-ending rest.
They shall abide in sweet serenity.

And "war shall cease." No sound of cannon roar
Shall shake the world with terror unexpress:
No sword shall pierce the heart, for ever more.
For love shall reign in every human breast.

That city fair shall have no grief, no pain;
No ill shall come, no sorrow, and no care;
No crying, and no tears, no sad refrain
No bitterness of soul; no dark despair.

Yea, all "the former things" shall pass away;
For, saith the Lord, "Behold, I make things new."
And "God Himself shall be with them" always,
And evermore their path with joy bestrew.

Oh, happy world, wherein is "no more sea"!
Oh, happy Land, where peace shall ever abide!
Yet happier far the day, for you and me.
When we shall dwell "with Christ," close to His side.

The grave shall yield its toll, the sea its dead.
His children scattered wide will God recall.
When on that day of days, which mortals dread.
"The spirit shall return," "with Christ," our all.
—Jennie Wilson-Howell, in Boston Transcript.

THE GOOD HOUR.

The man who met a phalanx with their spears,
And gave his life in one sharp sacrifice.
Knew nothing of the agony of fears
Or what a man can endure before he dies.

Some men die early and are spared much care,
Some suddenly, escaping worse than death;
But he is fortunate who happens where
He can exult and die in the same breath.
—Louise Driscoll, in Yoiesa.

HUMOR OF THE DAY

Don't you think this is a perfect duck of a hat?

Personally, I prefer a duck with a smaller bill.—Good Hardware.

Father—But what's the use of having accounts with four tailors?

Son—Well, you see, it makes your bills so much smaller.—Punch Bowl.

Mother—Have you given Charlie any encouragement, lately?

Daughter—Yes; I told him about the fortune father cleaned up on those steel shares last week!—New York Sun and Globe.

There goes Sadie Blue, who used to always be making mountains out of molehills.

Yes; and judging by the way she spends, she is now making molehills out of mountains of money.—Florida Time-Union.

Mrs.—Shame on you, coming home like this. Why, you're half drunk.

Mr.—Don't get peeved, my dear. I hic, did the best I could—spent all the money I had. — New York Sun.

No, Herbert, I am sorry; but I am sure we could not be happy together. You know I always want my own way in everything.

But, my dear girl, you could go on wanting it after we were married.—Boston Globe.

Chauffeur—I tried to warn the man, but the horn would not work.

Judge—Why, didn't you slacken speed and give the man a chance to get out of the road?

Chauffeur — Gosh, your honor, I never thought of that.—Rochester (N. H.) Courier.

The Grocer—You ought to be doing pretty well now that your wife's got that washing machine.

Newt Neversweat—Well, I ain't. Every time I ask her for a little money nowadays she claims she's gotta make a payment on the machine.

KALEIDOSCOPE

London has 186 omnibus routes and 615 railway stations.

Electricity is being used in place of sunlight to dry walnuts in California.

"Scratching posts" of wood are now provided in the animal cages at the London zoo.

South Africans like ice cream so well that they are making a study of American methods of manufacture.

The Black Museum, at Scotland Yard, is decorated with a frieze of murderers' heads—plaster casts taken from famous criminals after their execution.

Native "flappers" in the Samoan islands bob their hair and give it the latest fashionable auburn tint with a wash made from the leaves of a wild plant.

A woman in Lorain, O., solved a problem in transportation. She had to haul home a chunk of ice and was without a cart so she used the lawn mower.

The statue of Berolina, the guardian goddess of Berlin, Germany, in the Alexanderplatz, has been fitted with a false right arm and hand, which, holds a disc signal. When the arm is extended traffic through the plat is held up. When the way is clear, the traffic man on duty, stationed in a little signal box, pulls a lever, up goes Berolina's arm, and the waiting vehicles steam past.

For one day each year 300 acres of Danish soil becomes American territory. That day is the Fourth of July and the land in question is the American National park. In 1913, a committee of Danish-Americans presented the park to the Danish government on condition that on the Americans national holiday the park should be American soil and should fly the American flag. The park is located at Rebild, in the province of Jutland, overlooking the water where was fought the greatest naval engagement of the World War.

Woodpeckers play an important part in destroying the round-headed apple tree borer, according to T. L. Guyton, bureau of plant industry, Pennsylvania department of agriculture. Soon after the borers hatch, the woodpeckers find them beneath the bark of apple trees. The birds start right after the worms, continuing to drill for them as long as the borers are in the wood. In several orchards where count was made, 50 to 75 per cent of the borers had been destroyed by the woodpeckers. The downy woodpecker and the hairy woodpecker are said to be the chief varieties of the species that feed on round-headed apple tree borers.

FINANCIAL AND COMMERCIAL

SATURDAY'S STOCK MARKET.

New York, June 29.—The main price tendency in Saturday's brief session of the stock market was again upward, although another wave of profit-taking in the late trading gave closing prices a somewhat irregular appearance. Speculative interest shifted from group to group with the copper shares giving the first bullish demonstration since the present advance started two weeks ago. Utah and Kennecott selling at their best prices of the year.

Chain store and merchandising issues continued to reflect the constantly expanding sales and earnings of the larger companies. Kresge Department Stores, which soared more than nine points yesterday, added another five Saturday, touching 62 7-8 and then easy off to 59 3-8 for a net gain of 1 3-8. New peak prices also were established by Woolworth, Schulte Stores and Jewel Tea preferred.

"Nickel Plate" was again the outstanding feature of the railroad list, climbing three points to a record top at 95, or near, seven points above the closing price last week. Pittsburgh and West Virginia, Chicago and Northwestern, and Gulf, Mobile and Northern preferred, to sold at a new high level but most of the other rails showed only nominal changes.

Standard industrials were slightly fractionary. United States Steel common fell back 1-2 to 99 1-4, Baldwin slipped 1-4 to 114 1-8 and American Can was off 5-8 at 111 5-8. Studebaker advanced 1-2 to 34 1-2.

WEEKLY BOND REVIEW

New York, June 29 (by the A. P.)—Under the stimulus of relaxing money rates, further improvement in the stock market and flow of July reinvestment funds into securities channels, bond prices swept to new high levels for the year last week. Trading again expanded to near record-breaking proportions as an abundance of idle funds continued to seek employment.

Keeping pace with spirited buying of listed bonds, orders rolled in for new issues, which again aggregated more than $100,000,000, bringing the total for past five weeks to above the half-billion mark.

The volume of railroad financing was swelled by underwriting new issues to take up government loans advanced during the war by the railroad administration. With these loans bearing 6 per cent interest, the roads have taken advantage of prevailing easy money conditions to redeem them at lower rates.

English Life Getting Longer

The editor of Whitaker's Almanac, for years accepted as a handbook of much miscellaneous information in Great Britain and the world, is preparing to change his tables relating to the expectancy of life, which is now ten years longer than a few years ago, due to the work of the various public health organizations.

The forger evidently believes that imitation is the sincerest flattery.

(Continued from Page One)

ministration was unable to devise any plan except one to grant further aid to the few. Fortunately this plan of the administration failed, and, under democratic leadership aided by progressive republicans, a more equitable one was adopted, which reduced direct taxes by about four hundred and fifty million dollars.

The issue between the president and the democratic party is not one of tax reduction of the conservation of capital. It is an issue of the relative burden of taxation and of the distribution of capital as affected by the taxation of income. The president still stands on the so-called Mellon plan, which his party has just refused to endorse or mention in its platform.

Republican Contraction of Credit and Currency

We denounce the recent cruel and unjust contraction of legitimate and necessary credit and currency, which was directly due to the so-called deflation policy of the republican party as declared in its national platform of June, 1920, and in the speech of acceptance of its candidate for the presidency. Within eighteen months after the election of 1920 this policy resulted in withdrawing bank loans and discounts by over five billions of dollars and in contracting our currency by over fifteen hundreds millions of dollars. This contraction bankrupted hundreds of thousands of farmers and stock growers in America and resulted in widespread industrial epeasor and unemployment. We demand that the federal reserve system be so administered as to give stability to industry, commerce and finance, as was intended by the democratic party which gave the federal reserve system to the nation.

Reclamation

The democratic party was foremost in urging reclamation for the immediate arid and semi-arid lands of the west. These lands are located in the public-land states, and, therefore, it is the duty of the government to utilize their resources by reclamation.

Homestead entrymen under reclamation projects have suffered from the extravagant inefficiencies and mistakes of the federal government.

The reclamation act of 1924 recommended by the fact-finding commission, and added as an amendment to the second deficiency appropriation bill at the last session of congress, was eliminated from that bill by the republican conferees in the report they presented to congress one hour before adjournment. The democratic party pledges itself to actively, efficiently and economically to carry on the reclamation projects, and to make equitable adjustment for the mistakes of the government has made.

Conservation

We pledge recovery of the navy oil reserves, and all other parts of the public domain which have been fraudulently or illegally leased or otherwise wrongfully transferred to the control of private interests; vigorous prosecution of all public officials, private citizens and corporations that participated in these transactions; revision of the water power act, the general leasing act, and all other legislation relating to the public domain, that may be essential to its conservation and honest and efficient use on behalf of the people of the country. We believe that the nation should retain title to its water power and we favor the expeditious creation and development of our water-power. We favor strict public control and conservation of all the nation's natural resources, such as coal, iron, oil and timber, and their use in such manner as may be to the best interest of our citizens.

The conservation of migratory birds, the establishment of game preserves, and the protection and conservation of wild life is of importance to agriculturists as well as sportsmen.

Our disappearing natural resource of timber calls for a national policy of reforestation.

Improved Highways

Improved roads are vital importance not only to commerce and industry but also to agriculture and rural life. We call attention to the record of the democratic party in this matter and favor a continuance of federal aid under existing federal and state agencies.

Mining

Mining is one of the basic industries of this country. We produce more coal, iron, copper and silver than any other country. The value of our mineral production is second only to agriculture. Mining has suffered like agriculture and from the same causes. It is the duty of our government to foster this industry and to remove the restrictions that destroy its prosperity.

Regulation of Corporations

We pledge the democratic party to regulate by governmental agencies the anthracite coal industry and all other corporations controlling the necessities of life where where public welfare has been subordinated to private interests.

Merchant Marine

The democratic party condemns the vacillating policy of the republican administration in its failure to develop an American flag shipping policy. There has been a market decrease in the volume of American commerce carried in American vessels as compared to the record under a democratic administration.

We oppose illogical and unsound all efforts to overcome by subsidies the handicaps to American shipping and commerce imposed by republican policies.

We condemn the practice of certain American railroads in favoring foreign ships and pledge ourselves to correct such discriminations. We declare for an American owned merchant marine, American built and manned by American crews, which is essential for naval security in war, and is a protection to the American farmer and manufacturers against ocean freight charges on products of farm and factory.

We declare the government should own and operate such ships as will insure the accomplishment of these purposes and to continue such operation so long as it may be necessary without obstructing the development and growth of a privately owned American flag shipping.

Education

We believe with Thomas Jefferson and other founders of the republic that ignorance is the enemy of freedom and that each state being responsible for the intellectual and moral qualifications of its citizens and for the expenditure of the moneys collected by taxation for the support of its schools, shall use its sovereign right in all matters pertaining to education. The federal government should offer to the states such counsel, advice and aid as may be made available through the federal agencies for the general improvement of our schools in view of our national needs.

Civil Service

We denounce the action of the republican administration in its violations of civil service by its partisan removals and manipulation of the eligible lists in the post office department and other governmental departments; by its packing the civil service commission and so that the commission became the servile instrument of the administration in its wish to deny to the ex-service men their preferential rights under the law and the evasion of the requirements of the law with reference to appointments in the department.

We pledge the democratic party faithfully to comply with the spirit as well as the regulation of civil service; to extend its provisions to internal revenue officers and to other employes of the government not in executive positions and to secure to ex-service men preference in such appointments.

Postal Employes.

We declare in favor of adequate salaries to provide decent living conditions for postal employes.

Popular Elections.

We pledge the democratic party to a policy which will prevent members of either house who fail or re-election from participating in the subsequent sessions of congress. This can b accomplished by fixing the days for convening the congress immediately after the biennial national election; and to this end we favor granting the right to the people of the several states to vote on proposed constitutional amendments on this subject.

Probation.

We favor the extension of the probation principle to the courts of the United States.

Activities of Women.

We welcome the women of the nation to their rightful place by the side of men in the control of the government whose burdens they have always shared.

The democratic party congratulates them upon the essential part which they have taken in the progress of our country and the zeal with which they are using thir political power to aid in the enactment of beneficient laws and the exaction of fidelity in the public service.

Veterans of Wars.

We favor generous appropriations, honest management and sympathetic care and assistance in the hospitalization and compensation of the veterans of all wars and their dependents. The humanizing of the veterans' bureau is imperatively required.

Campaign Contributions.

The nation now knows that the predatory interests have by supplying republican campaign funds, systematically purchased legislative favors and administrative immunity. This practice must stop; our nation must return to honesty and decency in politics. Elections are public affairs conducted for the soln purpose of ascertaining the will of the sovereign voters. Therefore, we demand that national elections shall hereafter be kept free from the poison of excessive private contributions. To this end, we favor reasonable means of publicity, at public expense, so that candidates properly before the people of federal offices, may present their claims at a minimum of cost. Such publicity should precede the primary and the election. We favor the prohibition of individual contributions, direct and indirect, to the campaign funds of congressmen, senators or presidential candidates, beyond a reasonable sum to be fixed in the law, for both individual contributions and total expenditures, with requirements for full publicity. We advocate a complete revision of the corrupt practice act to prevent Newberryism and the election evils disclosed by recent investigations.

Narcics.

Recognizing in narcotic addiction, especially the spreading of heroin addiction among the youth, a grave peril to America and to the human race, we pledge ourselves vigorously to take againstm it all legitimate and power measures for education, for control and for suppression at home and abroad.

Law Enforcement.

The republican administration has failed to enforce the prohibition law is guilty of trafficking the liquor permits and has become the protector of violators of this law.

The democratic party pledges itself to respect and enforce the constitution and all laws.

The Rights of the State.

We demand that the states of the union shall be preserved in all their vigor and power. They constitute a bulwark against the centralizing and destructive tendencies of the republican party.

We condemn the efforts of the republican party to nationalize the functions and duties of the states.

We oppose the extension of bureaucracy, the creation of unnecessary bureaus and federal agencies and the multiplication of offices and office-holders.

We demand a revival of the spirit of local self government essential to the preservation of the free institutions of our republic.

Asiatic Immigration.

We pledge ourselves to maintain our established position in favor of the exclusion of Asiatic immigration.

Philippine Independence.

The Filipino people have succeeded in maintaining a stable government and have thus fulfilled the only condition laid down by congress as a prerequisite to the granting of independence. We declare that it is now our liberty and our duty to keep our promise to these people by granting them immediately the independence which they so honorably covet.

Alaska.

The maladministration of affairs in Alaska is a matter of concern to all our people.

Under the republican administration on Alaska development has ceased and the fishing industry has been seriously impaired.

We pledge ourselves to correct the evils which have grown up in the development of that rich domain.

An adequate form of local government for Alaska must be provided and to that end we favor the establishment of a full territorial form of government for that territory similar to that enjoyed by all the territories except Alaska during the last century of American history.

Territory of Hawaii.

We believe in a policy for continuing the improvements of the national park the harbors and breakwaters and the federal roads of the territory of Hawaii.

Virgin Islands.

We recommend legislation for the welfare of the inhabitants of the Virgin Islands.

Armenia and Lusanne Treaty.

We condemn the Lausanne treaty. It barters legitimate American rights and betrays Armenia for the Chester oil concessions.

We favor the protection of American rights in Turkey and the fulfillment of President Wilson's arbitral award respecting Armenia.

Republic of Greece.

We welcome to the sisterhood of republics the ancient land of Greece which gave to our party its priceless name. We extend to her government and people our mcordial good wishes.

War.

War is a relic of barbarism and it is justifiable only as a measure of defense.

In event of war in which the man power of the nation is drafted, all other resources should elikeyise be drafted. This will tend to discourage war by depriving it of its profits.

Defense, Disarmament, War Referendum and National Defense.

We demand a strict and sweeping reduction of armaments by land and sea, so that there shall be no competitive military programme or naval building. Until agreements to this end have been made, we advocate an army and navy adequate for our national safety.

Aur government should secure a joint agreement with all nations for world disarmament and also for a referendum of war, except in case of actual or threatened attack.

Those who must furnish the blood and bear the burden imposed by war should, whenever possible, be consulted before this supreme sacrifice is required of them.

TRICKY FOR ONE'S MEMORY

Memorizing the exact language of a play or a poem is not easy for some people, though remembering the sense comes without trouble. There is some excuse for confusion over some lines, and an extreme instance is the classic third line in the opening of Gray's Elegy in a Country Churchyard. The plowman homeward plods his weary way.

Some one has rescued from Notes and Queries of 70 years ago the contribution of a correspondent who presented 11 different forms for the line, besides the correct one, in which the words are used in different orders without injury to the rhyme or sense. It is probable that no other line in the language could be so turned around without altering the original meaning. Here are the changes:

The weary plowman plods his homeward way.

The weary plowman homeward plods his way.

The plowman, weary, plods his homeward way.

The plowman, weary, homeward plods his way.

Weary the plowman plods his homeward way.

Weary the plowman homeward plods his way.

Homeward the plowman plods his weary way.

Homeward the plowman, weary, plods his way.

Homeward the weary plowman plods his way.

The homeward plowman, weary, plods his way.

The homeward plowman plods his weary way.—Toronto Globe.

The same food that stupefies the brain by day keeps it unduly active at night.

LAWN MOWERS

For over ten years we have sold the Worcester Lawn Mower. It is a very good machine at a moderate price. We sell more every year. Some of the first we sold are still in use.

HOUSE PAINT

Fifteen years we have sold Wadsworth, Howland's, Highland Mixed Paint, and sell more every year. It gives satisfaction.

Columbia Floor and Deck Paint.

Why We Like Fiction

Fiction is the "white-headed boy" of literature, the darling of both writer and reader. Its appeal is felt by the imaginative child, the dreaming old crone, and the men and women of that busier and more practical middle period. Wherein lies this charm? It may be that the narration of incidents and sensations which we find either strange or only partly familiar but which we have little difficulty in experiencing vicariously fills us with the delight of a mysterious world. Perhaps, a word in which someone has said is wrapped all of this world's wisdom. Or again, and not at all paradoxically, it may be that we derive great satisfaction in discovering that others throb to the same emotions that we do, and are actuated by the same motives.—John Masefield.

Epoch and Era

Epoch and era are usually used synonymously. In history either one denotes a fixed point of time, commonly selected on account of some remarkable event by which it has been distinguished, and which is made the beginning or determining point of a particular year, from which all other years, whether preceding or ensuing, are computed. Some writers distinguish between the terms epoch and era. According to them, both mark important events, but an era is an epoch which is chronologically dated from; an epoch is not marked in this way. The birth of Christ was both an epoch and an era, according to this view.

Had No Weather

The first result of man's study of the weather was apparently to run away from it. Sir Napier Shaw, the English authority on meteorology, points out that the first civilization of which we have much record, that of Egypt, existed where there was really no weather. This civilization may have been the result, he says, of a migration of all the bright individuals or races from other parts of the world, who fled their inclement native climes and settled in Egypt. A similar movement seemed to be in progress at the present day.

American Bill of Rights

The first ten amendments to the Constitution of the United States became effective June 15, 1790, and constitute what is known as the American bill of rights. Freedom of speech and religion and the right of peaceable assembly are set forth in the first. The right of jury trial is guaranteed in subsequent articles.

Every man has admiration for people who laugh at his jokes.

MONEYS TO LOAN

MONEY
IS NOT HARD TO GET

If you know where to go for it. Housekeepers can obtain the ready cash to make the spring cleaning a thorough one by including all the old bills, debts, and obligations in the process.

We make loans at legal interest fixed by State Law that can be repaid in small monthly payments,—on home furniture without removal, and the transaction is strictly private and confidential. We also make loans to anyone on guaranteed note.

Call, write, or phone us for all details. Phone 1470.

LEGAL NOTICES

AT A COURT OF PROBATE HELD at Lebanon, within and for the District of Lebanon, on the 26th day of June, 1924.
Present—GEORGE E. BRIGGS, Judge.
Estate of Elmer E. Sharpe, late of Lebanon, in said District, deceased.
The Administrator exhibited his administration account with said estate to the Court for allowance; it is therefore
Ordered, That the 7th day of July, 1924, at 10 o'clock in the forenoon, at the Probate Court Room in Lebanon, in said District, be, and the same is, appointed for hearing the same, and the said Administrator is directed to give notice thereof by publishing this order once in The Norwich Bulletin, a newspaper having a circulation in said District, and by posting a copy hereof on the public signpost in said Lebanon, nearest where said deceased last dwelt, at least five days prior to the date of said hearing, and make return to the Court.
je30d GEORGE E. BRIGGS, Judge.

STAFFORD

Chatauqua opens at Hyde Park on Monday for five days.

Mrs. George Gary and family are at their summer home at Watch Hill.

Mr. and Mrs. F. J. Glover and daughtrs, Misses Margaret and Rachel were guests recently of Mr. and Mrs. John Farnum of Worcester.

Frederick Tholen has returned to Michigan after a short visit with his parents, Rev. and Mrs. F. H. Tholen.

Frank Lasbury, with a party of 30 boys, went Thursday morning for a vacation of a week. They camp near Quaker Hill. The boys are members of Frank's Junior band.

Mr. and Mrs. T. Jenkins were the guests of friends in Hartford Sunday.

Walter and Martin Kuehl of Brooklyn, N. Y., have been guests of their brother, Walter Kuehl.

The graduating class of the Pinney Grammar school presented their teacher, Miss Dunham, a string of pearls.

Miss Dunham entertained her grades at Grange hall. A very pleasant evening was spent.

There was a record-breaking local attendance at the Sunday school convention held at the Baptist church last Wednesday. There were over two hundred and fifty [illegible]tes and members of the Sunday schools. The fine speakers. Also the musical numbers were much enjoyed.

The Junior band played several selections. A loving cup was presented the Stafford Sunday school for yearly attendance and the largest attendance at the convention.

Mrs. Turner and Mrs. Selah Walbridge were guests of friends and relatives in Hartford and Bloomfield last week.

Rumanian Bride Cries

The Rumanian peasant bride must always cry during the marriage proceedings; it would be regarded as particularly unlucky if she did not do so, particularly as she is having her headdress prepared for the "coronation," which is so important a part of the ceremony.

If you speak evil of a man in his absence it's cowardly, and if in his presence it's dangerous.

FAIR AND COOLER TODAY—TUESDAY FAIR

Norwich Bulletin

1796 1924

NORWICH, CONN., MONDAY, JUNE 30, 1924.

FULL ASSOCIATED PRESS DESPATCHES

The Bulletin.

Norwich, Monday, June 30, 1924.

THE WEATHER.

Winds.

North of Sandy Hook, fresh possibly strong southeast and west shifting to moderate northwest and overcast showery weather Monday.

Sandy Hook to Hatteras, moderate to fresh southwest to west shifting to northwest and becoming moderate with overcast weather Monday.

Conditions.

The lake region storm has moved to the lower St. Lawrence valley with slight increased intensity and winds of gale force have occurred on Lake Ontario. During the last 24 hours showers and thunderstorms have occurred quite generally from the upper Mississippi valley eastward to the Atlantic coast states. Temperatures exceeding 100 degrees were reported from Phoenix, Ariz., Fresno, Calif., and Red Bluff, Cal. Temperature has fallen over the North Atlantic states. The outlook is for generally fair and cool weather for the next two days over the country east of the Mississippi river.

Forecast.

Northern and southern New England, eastern New York, fair and cooler Monday; Tuesday fair.

Observations in Norwich.

The Bulletin's observations show the following changes in temperature and barometric changes Saturday and Sunday.

	Ther.	Bar.
Saturday		
7 a. m.	50	30.00
12 m.	76	30.00
6 p. m.	60	29.90
Highest 76; lowest 50.		
Sunday		
7 a. m.	60	29.70
12 m.	78	29.70
6 p. m.	70	29.60

Highest 78, lowest 60.

Comparisons.

Predictions for Saturday: Partly cloudy.

Saturday's weather: Generaly fair and warm.

Predictions for Sunday: Increasing cloudiness, probably thundershowers

Snuday's weather: Early morning rain followed by fair, continued warm.

SUN, MOON AND TIDES
(Standard Time.)

Day.	Sun Rises.	Sun Sets.	High Water.	Moon Rises.
	a. m.	p. m.	p. m.	a. m.
30	4.17	7.25	9.06	3.17
1	4.17	7.25	9.45	3.59
2	4.18	7.25	10.23	Sets.
3	4.19	7.25	11.02	8.22
4	4.19	7.25	11.40	9.01
5	4.20	7.24	12.22	9.37
6	4.20	7.24	1.03	10.11

Six hours after high water it is low water, which is followed by flood tide.

TAFTVILLE

The list of floral pieces at the funeral of Jane Violet Mayor which took place Friday, is as follows:—Mr. and Mrs. Robert Mayor, pillow; Sister and Brother, wreath; Mr. and Mrs. James Jackson, spray; Mr. and Mrs. John Lord, spray; Mrs. John Langton and Mrs. W. Howard, spray; Mr. and Mrs. Joseph Adams and family, spray; Mr. and Mrs. Car and family, wreath; Norwich Spiritual union, spray rose buds; Taftville Congregational Sunday school, wreath; Miss Mayor's Sunday school class, spray; Mr. and Mrs. Frank B. Rickeson, spray; Loyal Victory Lodge, spray; A. J. S. society, spray; Mr. and Mrs. John Frohmander and family, spray; Mr. and Mrs. John Pickering, spray; Mr. and Mrs. Hargreaves and family, spray; Mr. and Mrs. Charles Thorp, spray; Mr. and Mrs. George Havens and family, spray; Miss Collins, spray; Mr. K. Rasin, spray; Fred Power, spray; Victor H. Davis, spray; Mr. and Mrs. Charles Shutt and family, spray; Mr. and Mrs. Robert Waddington and family, basket; Mr. and Mrs. Harrison Wilson, Basket; Mr. and Mrs. Fred Knowles, basket; Mr. and Mrs. Currier and family, wreath; Mr. and Mrs. Stefanick, crescent; Miss Emma Lohe, wreath; Mrs. Hunt, spray; Wequonoc school children and teachers, spray; Girls Quilting Dept., spray; Mr. and Mrs. and Mrs. Walker, spray; Mr. and Mrs. Mather, spray; Mrs. Philip Muddeman, spray; Mrs. Charlotte Pilling, spray.

The Saturday edition of the Hartford paper printed an article about the elaborate parade and celebration in Taftville the Fourth of July, together with the picture of John B. Benoit, president of the Field Day association and Marshal of the parade.

Among those who sent flowers for the funeral service of Frances S. Erlbeck on Thursday of last week the nae of the Congregational Sunday school was somehow omitted.

If a man thinks that he knows it all it always hurts when he happens to learn the truth.

NOTICE

Members of No. 12, B. M. & B. I. A. are hereby notified to attend a special meeting, Monday Evening, June 30th, at 7:30 o'clock. Very important. One Dollar Fine If Absent.

MOTOR TRUCKS IN STATE COULD MOVE 1-3 OF NEW HAVEN FREIGHT

Motor trucks operated in Connecticut during the past year were capable of carring more than one-third the tonnage carried by the New York, New Haven & Hartford Railroad over its entire system. The state motor vehicle department has made public figures showing that 27,793 commercial motor vehicles with an aggregate capacity of 34,000 tons were owned by residents and registered in the state for the calendar year 1923. If all such vehicles were loaded to maximum capacity every day of the year—which, of course, they were not—they would be able to move 12,410,000 tons of freight while the "New Haven" road was, according to its report to the public utilities commission, carrying 28,934,588 tons. This comparison does not take into account 335 commercial motor vehicles registered here but not owned in the state, many of which were used to cross Connecticut in through transportation from Boston or Providence to New York, and it does not account for the distances of the hauls. More trucks have been registered for the current year.

There were registered by residents last year 11,133 commercial motor vehicles, of capacity under 1,500 pounds; 3,015 of 1,500 pounds capacity; 5,304 of 2,000 pounds, 867 of 2,500 pounds, 2,074 of 3,000 pounds, 22 of 3,500 pounds, 1,783 of 4,000 pounds, 17 of 4,400 pounds, 73 of 5,000 pounds, 32 of 5,500 pounds, 687 of 6,000 pounds, 1 of 6,500 pounds, 786 of 7,000 pounds, 3 of 7,500 pounds, 200 of 8,000 pounds, 58 of 9,000 pounds, 742 of 10,000 pounds, and 330 of over 10,000 pounds.

New Haven led the state in the number of commercial motor vehicles registered and Hartford came second. Ansonia had 263; Bridgeport, 2,289; Bristol, 306; Danbury, 489; Derby, 446; East Hartford, 184; Enfield, 185; Fairfield, 264; Greenwich, 535; Hartford, 2,632; Manchester, 326; Meriden, 540; Middletown, 439; Milford, 251; Naugatuck, 155; New Britain, 768; New Haven, 3,417; New London, 562; Norwalk, 717; Norwich, 517; Stamford, 867; Stonington, 225; Stratford, 219; Torrington, 377; Wallingford, 256; Waterbury, 1,411; and Windham 290.

NEW HAVEN ROAD EXTENDING ITS FACILITIES

In consequence of the large expenditures made by the New Haven during the past few years in the enlargement of its facilities and the improvements in its service, its capacity has become such that it can handle a greater volume of business than at any previous time in its history.

In support of this policy it now contemplates an extension of its traffic and commercial organization with a view to further building up its New England business, including the development of foreign traffic through Boston, Providence and other ports served by its rails and those of its connections, all of which will contribute to the promotion of a prosperous New England in which it is so vitally interested.

Effective July first, G. M. Wood has been appointed freight traffic manager; F. C. Coley, passenger traffic manager, with headquarters at New Haven for the New York, New Haven and Hartford railroad, the Central New England railway, and the New England Steamship Company, and Richard Hackett, western freight traffic manager, with headquarters at Chicago, effective July 15th.

Effective July first, for the New York, New Haven and Hartford Railroad and the Central New England Railway companies, F. P. Kinney, general freight agent; H. L. Sheffield, assistant general freight agent; W. P. Read, general passenger agent, and Harold Price, assistant geeral passenger agent, with headquarters at New Haven.

IMPRESSIVE MOTION PICTURE SHOWN AT Y. M. C. A.

At the meeting Sunday at the local Y. M. C. A. the impressive moving picture story of "Which Shall It Be" was shown. The story was one of family affection and love, so strong that when, though the father and mother and seven children were very poor, rich neighbors desired to adopt one of the seven, in return for which they would support the poor family, the parents simply could not part with either of the children.

Between the reels Secretary Hill gave a brief talk in which he spoke of the love of the mother for her brood, of the mother bird for her young, and he dwelt on the beauty of family love, and pleaded for greater love in the home life of the nation. He stated that many homes had been ruined by rum; also many ruined by lack of fidelity on the part of husband or wife, and oftimes children grow up only to forget the love of the parents. Love reached its climax, said the speaker, in Jesus Christ, whose whole life was spent in loving and helping people, and yet many seem to trample on this divine love.

Hugh Kinder rendered two vocal solos, including "Home Sweet Home," which was very effective. Emmett J. Fritz operated the moving picture machine.

FOREIGN WARS POST HAS BONUS APPLICATIONS

R. E. Hourigan post, No. 694, Veterans of Foreign Wars, held their regular meeting last week in the post rooms, No. 2 Market street with Commander A. J. Turner in the chair. Bonus blanks have been received by the post and a committee was appointed to have charge of the distribution of the blanks. The committee will be at the post rooms every Saturday afternoon from now on to assist ex-service men and women in filing their applications.

The relief committee reported having made a visit recently to the state sanatorium and distributed fruit and candy to the ex-service men who are patient there. Four recruits applied for membership and were duly obligated.

An Armistice day committee was appointed and will work in conjunction with committees from other organizations in planning the celebration for the day. The post will hold a smoker and social night on the evening of July 8th, which all overseas ex-service men will be invited to attend.

ARRESTED ON CHARGE OF RUNNING GAMBLING

On the charge of operating a gambling place, Peter Guastamachia was arrested Saturday night in the bowling alleys in the Thayer building basement. At the same time the police seized a board containing about 50 numbered holes which is laid at the end of a pool table and operated by rolling a ball into the holes. Guastamachia gave bail for his appearance in court.

The arrest was made by Sergeant Murphy, officers Sharvan, Murphy, Dunion and Sweeney.

Scouts Return From Beach

The eighty-five Boy Scouts of St. Patrick's parish, who have been spending a week at Crescent Beach, occupying the Francolet house and an adjoining cottage, returned Saturday evening, delighted with their outing.

The boys were in charge of assistant pastor of St. Patrick's Rev. Rocco J. Guerriero and John P. Corcoran. They were aided during the week by Scoutmasters Fred Abel and Henry Zieglemayer.

Worn by five days of convention sessions and nerves on edge from the bedlam of noise within the convention hall, hundrdes of delegates to the democratic convention welcomed "a day off" Sunday and took advantage of entertainment features arranged by the New York committee.

INSTRUSTS JUSTICE ON LAW ON CIDER MAKING

Justice of the Peace C. B. Montgomery of Oneco writes The Bulletin as follows:

Over and again I have been told in the past few days that cider could not be made to become vinegar in the natural way without a permit.

This I have claimed was wrong and in order to make this cider matter clear I wrote to James E. Jones, acting prohibition commissioner, Washington, D. C., June 18, and this is his reply:

June 23, 1924.

Charles B. Montgomery,
Justice of the Peace,
Oneco, Conn.

Sir: Replying to your letter of June 18, 1924, you are informed that under the exempting provisions of Section 29, Title II of the National Prohibition Act, a person may, without permit, make cider and non-intoxicating fruit juices from fresh fruit owned by him, exclusively for use in the home. Such cider and fruit juices may be allowed to turn to vinegar for family use. They may be sold, however, only to vinegar makers who holds permits under the National Prohibition Act. The same cannot legally be used as beverages after they become intoxicating.

There is inclosed a copy of Regulations 60, revised, and your particular attention is called to Article VI thereof. In the appendix of these regulations will be found the National Prohibition Act and attention is also directed to Section 29, Title II thereof.

Respectfully,
JAMES E. JONES,
Acting Prohibition Commissioner.

JUNE DONATIONS TO FAMILY WELFARE DEPT.

The Family Welfare Department of the United Workers is grateful for the most generous donations during the month of June from the following: Mrs. Sullivan, Mrs. Julia A. Quinley, Miss Osgood, Mrs. J. Theodore Webb, Miss Alexandrine Trumbull, Miss Jane Aiken, Mrs. John Williams, Mrs. Chas. Gilbert, Mrs. Tyler Olcott, Christ church rummage sale, Mrs. Robert Johnson, Miss Rudd, Mrs. William Brown, Miss Hovey, Mrs. J. E. Vaughn, Mrs. Anna Woods, Mrs. A. H. Paterson, a friend, Mrs. J. C. Otis, a friend, a friend, Mrs. Frank Royce, Mrs. J. P. Huntington, Mrs. Driscoll, Mrs. J. Selden, Miss Ella Norton, Mrs. A. H. Chase, Mrs. Elizabeth Davis, a friend, Mrs. Joslin and Mrs. J. J. Cisco and Mrs. C. Royce Boss.

The man who doesn't believe in heaven or the other place always wants the earth.

THREE VACATION RULES SUGGESTED BY PRIEST

Preaching to the usual large congregation at the 9 o'clock mass in St. Patrick's church, Sunday, Rev. Myles P. Galvin considered a timely subject of vacation. The Saviour Himself gave His approval to such a period of relaxation, when He took His disciples and apostles aside for rest, after their labors spreading His truths. That the summer period may be spent profitably for body, mind and soul, Father Galvin advocated three rules of conduct for all Catholics—attending holy mass every Sunday and on holy days, receiving communion just as regularly during vacation as when at home, and remembering that the Ten Commandments are binding on three hundred and sixty-five days of the year.

The preacher recommended the choice of a vacation place where there is a Catholic chapel or church—as provided now at almost all the summer resorts along the shores of the Sound.

Hot weather appears to have no appreciable effect upon the attendance or the number of weekly confessions in this church, as in administering Holy Communion, Sunday, Father Rocco J. Guerriero, who read the low mass, required the assistance of Father Galvin.

Miss Mary Bresnahan accompanied the Junior choir in the hymns sung. O Salutaris was very pleasingly sung by Miss Murphy.

It was the feast day of St. Peter and St. Paul, the gospel read being I. Peter, V. 6-11, and the gospel, Luke XV. 1-10.

ATTEMPTED TO PASS COUNTERFEIT IN WILLIMANTIC

(Special to The Bulletin)

Willimantic, June 2.—Daniel Brennan and Morris Griffin were arrested here late Sunday evening by Officers Laramee and Lariviere when the pair were found in an intoxicated condition near the cotton mills on Bridge street. They are not strangers to the police court having been before the court several times on similar offenses. Both have suspended jail sentences of one year hanging over their heads for an attempt of breaking and entering.

A tall and slightly thin man wearing a gray suit and straw hat was being sought by the local police Sunday night for an alleged attempt to pass counterfeit $10 and $20 bills after purchasing a loaf of bread at a store conducted by Mrs. Della Chasen on Union street.

TEXTILE CLUB OFFICERS ARE ALL RE-ELECTED

All officers who had served the organization duirng the past year were reelected at the annual meeting of the Southern New England Textile club at the Pomham club, Providence, last Saturday, when all records for attendance were shattered with 283 members from various textile centers in Rhode Island, Massachusetts and Connecticut in attendance.

Ezra Dixon of Bristol, R. I., is president, John F. Reardon, agent of the Groswenordale Co., North Grosvendordale, is second vice president, and Wm. S. Pepperell, assistant treasurer of the North Grosvenordale Co., is secretary-treasurer.

STRAW HAT INSIDE BIG CAKE OF ICE

A straw hat frozen inside a 300 pound cake of ice made a unique advertising display Saturday on the sidewalk in front of the F. A. Wells Co. store on Main street. It was the idea of Will L. Stearns, proprietor of the store, who had the huge cake of ice frozen by the Hygienic Ice Co. of New Haven, from which it was brought by automobile by Dr. Clarence Capron and Byron Matrieu, who made an early morning trip to New Haven and back. It took 32 hours to freeze a cake of ice of this size.

Dislocated Thumb at Beach

Bernard M. Hasler, Taftville, fell at Ocean Beach Sunday night landing on his hands in such a manner as to dislocate the thumb. He was found by Patrolman George Perkins, who brought the victim to the New London police station where the injury was treated by a physician after which Hasler went to his home.

JOHN A. HOLLAND IS ELECTED STATE PRESIDENT

John A. Holland of this city was elected president of the Connecticut Association of Power Plant Engineers at its 25th annual convention, held at Bridgeport Friday and Saturday with 60 delegates attending. Mr. Holland who has been vice president during the past year, was nominated by Fitch A. Dolbeare of this city and was elected by acclamation upon motion of Bert M. Doyle of Waterbury.

Other officers chosen were Elmer F. Bassett of Bridgeport, vice president; George F. Klopfer of New Haven, secretary and treasurer; Wm. H. Blakeslee, Hartford, assistant secretary; W. J. Schrink of New Haven, conductor; Archibald Hughes of Bristol, doorkeeper; Fred C. Sutorious of New Haven trustee. The new officers were installed by Royal E. Holbrook of Cedar Rapids, Iowa, president of the National Association, assisted by William J. Reynolds of Hoboken, N. J., national trustee.

In taking the chair President Holland said it was his duty to name two important committees, the license law committee and chairman of the educational committee. He said he wanted men for these committees who would work hard and cooperate with him as this will be a very important year in the history of this association. The license law committee was named as follows: Walter McGregor of Hartford, chairman; Elmer E. Bassett of Bridgeport and Wm. H. Vanderveer of New Milford. The next convention will be held in New Haven in 1925, and Yale college officials have offered rooms in Sheffield Scientific school for holding the convention.

Light From Cork Tree Bark

Peasants of Spain use the bark of the cork tree, which grows plentifully in that country, to light their homes at night. The bark is placed in a kettle from which protrudes a spout, and when it is hot enough it gives off a gas which burns with considerable brilliancy. Several kettles of the bark may be used in an evening, if the family sits up late, but it is not expensive. The carbonized cork refuse, which is known commercially as "Spanish black," one of the intensest blackbrowns among pigments, is carefully saved and finds ready market, decreasing the lighting cost.

Petroleum Jelly

There is obtainable in various quarters jellies of solidified petroleum, a perfectly transparent product possessing the same colors as the petrols used for its manufacture. It is made in the form of jelly of sufficient consistency to be carried and handled like any other solid body. It can easily be cut into pieces and may be conveyed in cardboard boxes without danger. The physical properties are the same as in liquid petrol, evaporation is not easy, and its heating power is very intense; as also is its carbureting power. When ignited it does not melt, but burns like wood or coal.

Another "Poor Fish"

"You poor fish!"

This remark was overheard in the New York aquarium. In these city institutions they always try to instruct the public.

"You poor fish!"

An attendant immediately approached, bowed politely to the lady, and said: "They do not mind being in the tanks. There they are well fed and also protected from their natural enemies. It is doubtful if they know their liberty is in any way restricted. So you need not feel sorry for the fish."

But the lady was addressing her remarks to her husband.

No man ever gets so poor that he can afford to have holes in his pockets.

Bryant & Stratton College

Founded 1863, Providence, Rhode Island

Business Administration, Finance, Higher Accountancy, Teacher-Training and Secretarial Science Courses

Higher Business Training for young men and young women. *Also shorter business courses.* Authorized by the State of Rhode Island to confer degrees for two-year courses. An alumni of over forty thousand, including hundreds of business leaders in Rhode Island and elsewhere. 50 per cent. of the leading officers in one prominent bank are Bryant & Stratton graduates. Large staff of expert instructors and lecturers. Save two years' time—gain two years' pay. Insure success by attending one of America's oldest and foremost business training colleges. Prompt placement of graduates. Sixty-second year begins September 2nd.

For free illustrated eighty-four page Yearbook, address the Secretary, Bryant & Stratton College Providence, Rhode Island

Man and Wife as Friends

The idea of married couples having merely a calling acquaintance with one another is not so new after all. A German expedition dug up tablets in Assyria during the war which indicate that a wife lived usually with her parents rather than with her husband. But her husband was not without his rights. If she became a sector of the famous "eternal triangle" friend husband might lawfully kill her or at least cut off her ears.

Telephone Voice

Tests prove that the human voice can be transmitted by telephone clearly only when the speaker's mouth is close to the transmitter. To speak four inches from the instrument is equivalent to lengthening the line more than 200 miles; two inches away, 128 miles. Lower-pitched tones are transmitted better than those of a high pitch.

Birds Bathe in Dust

Many types of land birds take their bath in dust in order to rid their feathers of insects. These same birds use water at times also, and, of course, birds that live on the water never take dust baths. Whenever a bird's feathers are not sleek and clean it may be inferred the bird is not well.

How much easier it is to forgive an enemy we have worsted than one who has beaten us.

Magyars Given Credit

In the popular mind so little credit is said to have been been given to the Magyar race for its significant activities in world development, but it is a fact that for more than a century, during which time the activities of the Turks were at their height, the Magyars stood as the bucklers of Christendom against them. The particular Magyars were those who inhabited what was known as Hungaria.

Dogs for Food

The dog meat which enters into the dietary of the Chinese is obtained from a special race, raised for the purpose, of which the characteristic is the color of the tongue. That organ should be of a blue-black color. These dogs are fed on milk and rice for about two months until they reach a certain weight. The number of edible dogs eaten annually in China is estimated at 5,000,000.

Poverty has one advantage over wealth. When a poor man is sick there is no desire on the part of the physician to prolong the illness.
